

The UFO Enigma

Volume 12, Number 1 SEPTEMBER 1991 St. Louis, Missouri

**THE REVEALING SCIENCE OF
UFOLOGY**
An Anatomy of Abduction
Correlations

By Forest Crawford

PART TWO

(Please refer to The ENIGMA, Volume 11, Number 5, June 1991 for Part One of this article)

Carpenter compiled a list of questions. Some of these were questions previously asked to abductees, others were contributions from other researchers. Some questions were basic, and informational covering many topics, some technical, some for control and some totally fabricated. One of the earliest questions asked was, "What is angel hair?" (*Cases named in the following informational correlations have all been thoroughly or are currently under investigation. Some of the cases named are considered controversial but none were included

unless a reasonable amount of credibility was apparent. A complete description of each of these cases may violate the witness' request for anonymity and go beyond the scope of this paper.)

The answers from four independent cases are as follows:

WHAT IS ANGEL HAIR?

PAT - "The energy from our

propulsion systems reacts with organic matter in the air.

FOUR LADIES - "It is excreted through our jets...because of toxins in your air...more toxins, more angel hair."

JEAN - "Angel hair is the sloughing off of a protective emulsion emitted by our craft's external systems device."

It is constantly generated to protect against contaminants. When it has reached maximum absorption levels, it is discarded. It is protection from the many pollutants in your atmosphere. It also serves as an outer lubricant to relieve external stress caused by atmospheric friction."

JOHN PHILLIPS - "Some aliens manufacture or clone a worker creature to do menial labor. The creatures do not have a soul but have limited intelligence and can be taught simple tasks. When they have outlived their usefulness they are dissolved up and the waste product excreted to the outside of the craft. The substance reacts with the energy of the propulsion system and forms the angel hair." I asked what kind of worker creature? "INSECT!" he said.

Cont. Pg. 2

inside the circle. Mark Ferguson, an Investigator for MUFON, is gathering additional data concerning the circle.

As of this writing, the circle is still visible. It is located at mile marker 118 in the Philipaburg area. It has become quite a tourist attraction.

Several days after this discovery, Serencko traveled to Ozark County

MISSOURI OZARK REPORT

by Jeanne Robinson
Investigator, MO MUFON

I don't know what happened. It seems someone has opened up The "bag of unexplainables" and emptied it into our neighborhood. Southern Missouri has become a

hotbed of strange activity.

It began on the return trip from the 1991 MUFON Symposium held in Chicago, Illinois. Traveling south on Interstate 44, Vince Serencko and I noticed a large, flattened circle in the grasses between the Interstate and old Route 66.

This circular area is approximately 36 feet in diameter. The coarse grass is flattened in a slightly clock-wise pattern radiating from the center. This circle is similar to the corn circle in Milan, Illinois. The most significant factor of this circle is an electric pole located two feet

Abduction Correlations

The answer by John Phillips was the most outrageous but let's pause for a moment and compare it to scientific analysis. The way to make an amide-ester is to mix a proteinaceous material with formic acid and apply heat. A proteinaceous material can be made of any material previously living, preferably animal or insect. Formic acid is found in nature in insects ("Forma" means ant in Latin). If you dissolve an insect life-form in an acid and injected this into a high energy electromagnetic field, one would have all the components to affectively make amid-esters. This is essentially how a spider makes webs minus the electromagnetic field of course.

Let us continue with more questions that the abductees asked of their contacts. They are grouped into several different categories according to subject.

TECHNICAL

WHAT IS THE M# (MESSIER NUMBER) OF YOUR GALAXY?

JEAN - M13, M31, M14. I felt that M13 was where they are from and M31 and M14 is where colonies are.

LYNN - I did not get a number but they told me that it is where our solar system is heading toward and will someday end up.

The Enigma is a monthly publication, September through May, each year of the UFO Study Group of Greater St. Louis. Not affiliated with any national society, The UFO Study Group is an independent, non-profit organization dedicated to the investigation and reporting of both area and national UFO sightings or peripheral areas of interest. Yearly membership is \$8.00. You may contact the UFO Study Group or any of its members and/or submit articles for publication through P.O. BOX 31544, St. Louis, Missouri 63131.

Ozark Report

to investigate three cattle mutilations in the Gainsville area. Although no tissue samples were available, the Sheriff's office was very helpful. Serencko was allowed to see the police reports and take photos of the police photographs.

The Stone County Sheriff's office was much less cooperative three weeks later. All attempts to investigate a mutilation in the Galena area were unsuccessful. Serencko is still trying.

Our most unusual incident is the discovery of mounds of melted plastic-like material in the Mark Twain National Forest near Hilda, Missouri. This debris slammed into the hillside breaking several trees. The site was found by a spelunker searching for a cave in the area.

The material consists of what appears to be dark, greenish grey plastic and layers of clear insulation plastic which are 6 to 8 inches thick connected by nylon filaments. The darker material melted 22 feet down the hill. It resembled a lava flow. The material seems to be manmade though this investigator has never seen anything like it.

We were allowed to visit the site and take samples of the material. We have given some to several labs and scientists and are anxiously awaiting the test results. The

NEW PLANET IN NEIGHBORING GALAXY

by J.L. Palermo
 Editor, The UFO ENIGMA

WASHINGTON - As reported in the July 25th, 1991 ST. LOUIS POST-DISPATCH in an article compiled from News Services, astronomer's believe we have discovered a new planet in the constellation of Sagittarius.

The planet, if it exists, is orbiting a pulsing dead and dark star 30,000 light years away.

Found by Lyne, Matthew Bailes and Setnam Shermer of the University of Manchester's Nuffield Radio Astronomy Laboratories at Jodrell Bank, England, this planet is read as having a mass 10 times that of our Earth.

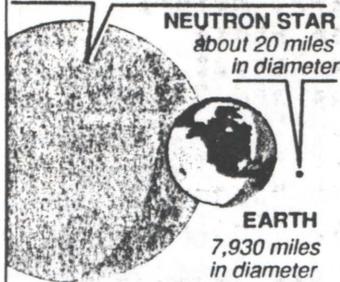

This planet was not discovered through the use of normal optical telescopes but by measured fluctuations in the radio signals from the neutron star around which it orbits. The neutron star is a pulsar, specifically pulsar PSR1829-10. The planet appears to orbit this dead star every 182 days. The pulsar was noted as making three complete rotations every second however tiny deviations in the predicted arrival times of those pulses indicated that something was disrupting the spin in a very regular way. The most likely explanation for the deviation would be the existence of a gravitational tug of an object the size of a planet.

Collected information so far indicates the planet is in a circular orbit about 70 million miles from the star.

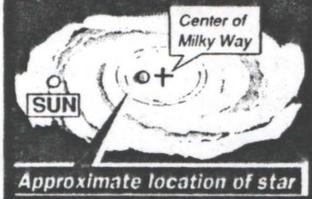

New World

British astronomers claim to have discovered the first known planet outside our solar system. The planet orbits a very dense, compact star called a neutron star **NEW PLANET**

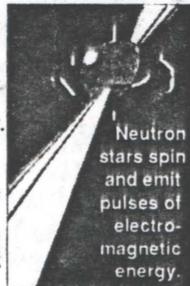

about 10-12 times the mass of Earth and two or three times bigger

The neutron star and its planet are about 20,000-30,000 light years from Earth, in the direction of the center of our galaxy.

The planet orbits its star at about the distance that Venus is from our sun. Its orbit takes six months. The discovery was made by analyzing pulses of radio waves from the star. The pulses varied in speed as the orbiting planet pulled the star back and forth.

CROSS COUNTRY UFOLOGY

(The following reports are gather from other newsletters across the United States. The Board of Directors and the Editor of The UFO ENIGMA thank these editors for their efforts and the people that work with them to help gather and disseminate reports and verified case of incidents involving all aspects of Ufology. The following are only condensed excerpts. Reports in their entirety can be acquired through the

newsletters they came from.)

AIRMAN MENDEZ VS THE BUREAUCRACY - A CASE OF UFO ESPIONAGE

(From Just Cause, P.O. Box 218 Coventry, CT 06238 June 1991 Number 28 Publisher: Lawrence Fawcett)

On a personal level, Airman Simone Mendez has a strong interest in art and had drawn presentation portraits of her commanding officers. This had later earned her a full background spread in the Tinker AFB, Oklahoma newspaper in 1987. She also has a life-long, serious interest in UFOs though she is quick to explain this had nothing to do with her enlistment in the Air Force. "Talk of space travel was always appealing to me," Mendez explained, "and the Air Force was a good way for me to get out and see the world as well as using the opportunity to learn technical skills that we will all need in the future."

Prior to her involvement in the Air Force, Mendez had two especially curious sightings between 1978 and 1980. One involved a straight line formation of orange-colored shapes traveling at the speed of low-flying aircraft and the other was a "v" formation of objects which initially seemed to be flying backwards, open end forward. The formation reversed itself as it approached and passed the zenith.

In 1981, Mendez encountered "Act I" of a governmental UFO information drama. Through one "Airman

Green", Mendez was shown a sheet of information torn from the machine at the message center label Top Secret and indicating that the North American Aerospace Defense Command (NORAD) had detected a group of unknown objects entering the vicinity of Earth from deep space. Several of these objects were tracked entering the atmosphere and heading towards the Soviet Union, after which they hovered on an area near Moscow for more than an hour.

The exposure to this document led to Mendez being grilled intensely by an FBI agent which led her to depression and to the base hospital. As harshly as she had been treated, Mendez understood that the investigators were doing their job.

Mendez's career was re-directed towards clerk type jobs which did not require security clearances. It was not what she wanted but it was all that was left for her. She did the best she could with it.

The question remains: Was the document shown to her real or not? Mendez could not be sure after all she'd been through. A curious series of events would help Mendez answer this question.

WHAT DID THEY KNOW?

(The origin of this material is from the MUFON BBS Network and is sent to us from the publication

Conf. Next Pg.

WHAT DID THEY KNOW

UFO PARADOX, P.O. Box 774,
Liberty, MD 64068
Published by Erich A.
Aggen, Jr., Barry
Ballenger and Kerri L.
Murphy)

U.S. Senator Barry
Goldwater (AZ) is a
retired USAF General with
a Top Secret Clearance who
attempted to gain access
to a storage facility
alleged to contain dead
aliens at Wright-
Patterson AFB. He was
refused entry since he did
not have a "high enough"
security clearance.

On December 3, 1974,
Goldwater wrote the
following letter:
"...I made an effort to
get in the room at
Wright-Patterson,
F-Field where the
information was stored and
I was denied this request,
understandably."

On March 28, 1975,
Senator Goldwater wrote:
"...The subject of UFOs
has interested me for some
time. I made an effort to
find out what was in the
building at Wright-
Patterson Airforce Base
where the information is
stored that has been
collected by the Air
Force, and was denied this
request. It is still
classified above Top
Secret..." (Emphasis
added)

Other prominent
Americans have also gone
on record that the UFO
phenomena is worthy of
serious study...

*President Carter asked
NASA to explore the
possibility of
investigating UFOs.

*When he was in
Congress, President Ford
called for Congressional
investigation of UFOs.

*Astronaut Gordon
Cooper said, "I believe
that these
extraterrestrial vehicles
and their crews are
visiting this planet from
other planets."

*General Nathan
Twining, Chairman of the
Joint Chiefs of Staff and
reputed member of MJ-12
wrote a secret memo on
September 23, 1947, in
which he stated to the
Commanding General of the
Army Air Forces on the
subject of "Flying Discs":

a) The phenomenon
reported is something real
and not visionary or
fictitious, b) There are
objects probably
approximating the shape of
a disc, of such
appreciable sizes as to
appear to be as large as a
man-made aircraft, c) There
is a possibility
that some of the incidents
may be caused by natural
phenomena, such as
meteors, and d) The
reported operating
characteristics such as
extreme rates of climb,
maneuverability
(particularly in a roll),
and action which must be
considered evasive when
sighted or contacted by
friendly aircraft and
radar, lend belief to the
possibility that some of
the objects are controlled
either manually,
automatically or
remotely." (Emphasis in
Original)

It is now clear that
the U.S. Air Force Project
Blue Book was merely a
public relations effort to
show something being
"done" about UFOs. It is
equally clear that the
real effort was, and
continues to be conducted
elsewhere.

MICHIGAN MUFON AT WORK

(From MICHIGAN
MUFON-SHIRLEY COYNE, 73
Borman Flushing, MI
48433)

On July 21, 1991,
George and I spoke to the
Spiritual Frontiers in
Brighton, MI. Forty
people attended the
session to learn all they
could about UFOs. We felt
good about the meeting
because the people were
warm, receptive, asked
many good questions and
all wanted to know more.
Fifteen of the people
asked for applications so
they could join MUFON. We
got several leads on
possible abduction cases.
We will be following up on
these cases when we return
from Chicago.

EXAMS: Joe Tackett and
Kurt Hohl have completed
their Field Investigators
Exam. I am pleased to
announce that they both
did well. Kurt has been
promoted to Investigator
and Joe has been appointed
State Section Director for
Oakland County and is now
a full investigator. I am
really proud of the way
our people here in
Michigan scored on the
exam.

MEETING I am planning
a meeting for State
Section Directors. This
meeting will be held on
July 28, 1991. The
meeting will be held in
my home and will begin at
11:00a.m. As usual, I
will provide everyone with
a lunch. We could hold the
meeting at a restaurant
but they want a guaranteed
number of people, deposits
and so on. I do expect
all section directors to
attend this meeting.

OFFICIAL CALL FOR
ABDUCTION REPORTS

(From The Indiana UFO
NEWS, Produced and
published by Aerial
Phenomenon Research: The
Indiana Group, Editor:
Francis L. Ridge 618
Davis Drive, Mt. Vernon,
IN 47629)

On March 11th, Walt
Andrus, Budd Hopkins and
David Jacobs made an
official request to State
Directors (of MUFON)
and other researchers to
submit C4 (Close encounter
of the fourth kind =
abductions) reports for a
new report to be even more
powerful and influential
than the UFO Evidence, by
NICAP in 1964. The Tandy
2000 list mentioned
earlier, period 1980-to-
date, lists several cases.
I realize that there are
more earlier cases that
some of the FI's (Filed
Investigators) are working
on. I also realize how
complicated the
documentation is when it
comes to making
transcripts of taped
regressions, however, if
the case is important in
your judgement, please
make an effort to complete
and file a report ASAP so
that this data will be
included in their report.

MANKIND: CITIZEN OF THE GALAXY

A Book Review
By Marjorie Osiek

This soon to be released book, MANKIND: CITIZEN OF THE GALAXY, is written by Kenneth C. McColloch of Canada, one of the featured speakers at the "SHOW-ME UFO/IAC Conference III on October 19, 1991. It is an all-encompassing book covering a wide range of topics from pre-history to present day technology.

Searching through myths, legends, and ancient texts we read that visitors from outer space have been here from the beginning of time. Through genetic engineering and mating they produced hybrids (our ancestors?)

Investigations of present day abductions by Extra-Terrestrials tells us that it is still going on. Reports from Czechoslovakia, Peru, and Italy tell of people with strange heartbeats and strange blood types that have been stranded here just as some of the early people of South America might have been stranded here eons ago.

Through the years archeological finds have helped mankind understand what our past was like however at the time of discovery, some of these did not fit known theories. A few have been identified more recently according to present day knowledge.

This book includes chapters on the pyramids and megaliths, the Bermuda triangle, Atlantis, and the Hollow Earth theory. It is becoming

increasingly evident that a great deal of ancient technology has been lost. We are just beginning to rediscover some of this. Natural catastrophes such as earthquakes, volcanic eruptions, and floods altered daily life in the ages past. Today we have additional man made threats such as air and water pollution and nuclear disasters threatening life and planet.

From the observations of some astronomers' of lights on the surface of the moon in the 17th Century to the present time and beginning with our 1969 moon landing with pictures of structures on the moon's surface, we have more questions than answers. A search for the 12th planet has begun. This planet's 3600 year orbit is described at length in ancient Sumerian Texts.

Are there UFO bases on the moon? Are ancient records stored there? Or on Phobos?

In McColloch's discussion of religions he cites world wide prophets through the ages up to and including the most recent (1844).

This excellent book is well indexed and contains a comprehensive bibliography. Bible references are numerous. Read, learn and enjoy.

IOzark Report Cont.

material has apparently been lying on the hillside for anywhere from 8 to 20 years.

The Taney County Sheriff's office contacted NASA, the Air Force and the FAA. None of these agencies have shown any

interest in visiting the site. This is an interesting development since the debris would appear to have fallen from the sky. A spokesperson from NORAD told the Sheriff's office that there was a Soviet rocket re-entry in this vicinity about a year ago so why the blatant lack of interest from the afore mentioned agencies?

Our local UFO research group continues this investigation with great interest. We have three prospective witnesses who claim to have discovered the site ten years ago. They say they found a plastic-like ball that was as big as a house. This "ball" had fallen and knocked down several trees. Supposedly, there were some objects given to the Christain County Sheriff which "disappeared" shortly there after. Several weeks later, they returned to the site to find leaves raked away and the object burned to the ground.

If this account is true, that would explain the government's indifference to the site today. Any security items would have been removed by any concerned agency years ago when the site was burned.

We plan to keep digging for information on this incident. Because of a lack of interest, we have been unable to gather up a large amount of this debris to study. We have it stored in several locations. If nothing else, we have some terrific collectors items!

In addition to all of this, we have numerous sightings to investigate. We have a report of a

saucer that landed in a field every Thursday until the witnesses invited several friends to watch.

It has been an interesting two months. We are backlogged in paperwork, however we do have a fine supply of greenish-grey paperweights!

Abduction Correlations Continued

A reference to M13 can be found in "The World of Science, Volume 9, Astronomy II, Exploring the Universe," by Creative World Publications, Inc. It says, "Hercules...it contains an enormous globular cluster known as M13. M13 contains more stars than any other cluster in the Northern Hemisphere. Another curiosity is the star designated Pi (which is right next to M13). It is towards this star that the sun is moving, carrying its system of planets with it. After some millions of years the sun, the Earth and other planets will be among the stars shining in that corner of the sky."

A friend of Lynn's told her once that she thought they knew each other in a previous life and that Lynn was called ARKMEDIA. Lynn stated that when she heard this name it was not her name but the name of the place they were from.

In a communication that Jean had one time, the aliens referred to the "Sons of Arkmedia."

The following is a list of a few individual stars that have also been named.

Next page

BETTY AND BARNEY HILL - Zeta Reticula 1 & 2 (per the Fish star map)
PAT - Zeta Reticulum
OSCAR - Tau Ceti & Epsilon Eridani
JILL - Tau Ceti (Description matches Oscar's)
JOHN PHILLIPS - Vega
FOUR LADIES - Sirius

Some Messier numbers reported are M13, M14, M31, M23, M92 and M45. With the exception of M31, which is the Andromeda galaxy, all the others are open or globular clusters. Most of the specific stars named are double or triple stars. Bob Lazar commented that he thought the extra heavy elements used in some craft for propulsion could only be formed naturally in systems with more than one star in close proximity. This would facilitate enough energy to cause the formation of such extra-heavy elements.

HOW DO YOU USE LIGHT?

DEBBIE TOMIE - "Light, in it's many forms, can be used in many different ways: nutrition, healing tissue, travel, disassemble molecules/ pass through light/reassemble, light as a means of self propulsion."

JEAN - "We travel by means of light fusion. We are able to travel great distances using this power. It is a transformation of light energy to light fuel. It is efficient and powerful. We have harnessed this energy and magnified it to transport us in our travels through the universe. You were

brought on board our craft by means of spectral transport. Your essence was blended with the light beam. It is one method of matter transference. The light particles penetrate your atomic structure which is recorded into the transposer memory. Matter is then reconstructed at the desired site of appearance. Light penetration of matter causes matter to become light which can be controlled and directed to the chosen area of reintegration."

LYNN - "Material substances, like chemicals and medicines, can be blended with light. These substances can then be incorporated into the body by projecting light through the material structure of the subject. Light also serves as fuel for travel and the generation of energy."

I am reminded of how Ed Walter, of the Gulf Breeze, Florida case, described how the beam of light numbed only the part that it touched. Debbie Tomie recalled that it felt as if the light was shining through her body.
WHAT IS THE PURPOSE OF IMPLANTS?

DEBBIE TOMIE - Tracking, monitoring of individual and sensory receptors, and occasionally altering the energy level of the individual to facilitate necessary communications and molecular changes for the greater good, through adjustment of energy levels."

JEAN - "The sensory implants have many uses. They are tracking devices. They record sensory input

from the subjects. They register pollution levels in the subject. They measure stress levels. We are able to study migrational habits of your people. It enables us to communicate with our test subjects, even from great distances. It is a constant surveillance of our chosen ones. The implants are also warning devices capable of alerting us to certain dangers threatening the individual. It lessens the possibility of premature death of the chosen. They cannot be completely protected but it minimizes our loss."

JOHN PHILLIPS - "The lesser developed grey alien must use implants in their subjects and themselves in order to communicate telepathically."

LYNN - "The metallic ball implants are only used by the least developed beings in our government. The more advanced the race the harder the technology is to detect. Plastic, gristle-like and gel implants are used by the more advanced beings. The gristle like and gel implants are also the most difficult to deactivate."

WHAT ABOUT COWS? WHY USE COWS? WHY NOT DOGS OR PEOPLE?

LYNN - "Cows are less valuable to people."

DEBBIE TOMIE - "Cattle tissue is genetically equivalent to human tissue. For our purpose it is close enough a match that it is generally unnecessary to use humans, or other high level species. We regret the

occasional loss of a higher form of life due to the need of the greater good. We feel the loss, also. Know this, all unfolds as it must. The losses were not in vain."

JEAN - "We use the tissue from cows in an essential biochemical process necessary for our survival. The material we use from cattle contains the correct amount of protein substances needed for biochemical absorption. While we could use dogs or people for the process, it is morally unacceptable. There is little emotional attachment to cows. Cattle are not an endangered species. Most dogs are semi-intelligent, loving creatures who provide much comfort in an emotional way. While we respect all life, some sacrifices must be made for the preservation of other species. In most instances, your people do not grieve over dead cows as they do dogs or people."

HOW DO YOU REPRODUCE?

LYNN - "Very few grey aliens can reproduce the way humans do. Very few have sexual organs but there is a race or two. They are part human, that is how they acquired this ability. Others are like a queen bee. Very, very few females."

JEAN - Our primary reason for contacting your people is for reproductive purposes. We need you to propagate our species. For thousands of years we were isolated from life forms with any similarity to our own. We have inbred to a level of sterility. We were a

dying species until we encountered your planet with its abundant variety of life. We discovered our two species were compatible for breeding. There are only a small number of our race capable of reproduction. Most of the cross-children are developed in artificial wombs. This is necessary to produce the quantity of young we must have to survive. Some of our females carry the young to term. This cannot be done in excess. Over production damages the females' reproductive capabilities. We mate in the same way as you. It is a pleasurable time; however we do not have your emotional involvement in the act."

HOW DO YOU EAT AND/OR DRINK?

OSCAR - "The ones you refer to as "Greys" are more like plant life, like an advanced mushroom, and absorb their food through their skin."

STEVIE JONES - "I saw the small grey aliens dipping their arms in vats to absorb nutrients."

DEBBIE TOMIE - "Absorption through the outer covering of the body, skin, through the soft tissue inside the mouth. Energy ray, nutritional fluids. Waste excreted through the skin. We do not drink as you understand drink. Do not swallow, fluid is absorbed through tissues in mouth."

JEAN - "Our method of consumption is very different from your own. We absorb what we need from our environment (and yours). It is similar to photosynthesis. We need

light, mineral substances not existing on your planet, proteins and moisture."

SOCIOLOGICAL

HOW MANY SPECIES OR RACES VISIT EARTH? ARE THEIR GOALS DIFFERENT?

DEBBIE TOMIE - Nine so far."

JEAN - "There are several types of races visiting Earth at this time. Many others have observed or made temporary studies here. Most of these have been gentle, peace-loving scientists or explorers. There is one breed that visits your people that should be avoided at all costs. These are the lovers of violence and carnage. They also make contact. They infect the morally weak. Most of the mindless killings and cruelty on your planet comes from their influence. They are the 'Evil Ones' who thrive on chaos and entertain themselves through the suffering of others. They are the true demons of your folklore."

Some singular race correlations have occurred that are worth presenting. There are currently six cases that have described a human alien as being five and a half feet tall, crew cut dark brown hair, brown eyes, 180 to 200 pounds and olive colored skin. Four of the witnesses correlated the aliens origin as Tau Ceti and Epsilon Eridoni. The physical description of the being was identical in all cases. An attitude of the Tau Cetians is a

distinct dislike of the Greys and the way they are treating abductees. They have given advice to some of their contacts on how to overcome the Grey's deceptions.

There are also six witnesses that have described with remarkable similarity an insect race or races. The witnesses are divided down the middle on whether they are good or bad.

A race of tall Grey beings wearing hooded or high collared robe has been regularly reported. They are occasionally reported without clothes. They are often referred to as light beings even though they appear to have physical form. They are usually described as the elders, a more advanced race or of higher spiritual advancement than the ones they are with. They are usually seen with a different race of beings than their own.

LYNN - "It looked into my eyes and it felt like It was looking into my soul, my mind, like It could see every part of my being. When It had completely scanned me with It's mind, It smiled. Then I felt like I was pulled through It's eyes. Like my consciousness went into It's eyes. Then I started swimming free in a place with what looked like stars all around. Then we went to a desert where I was taught things."

Lynn's experience is identical in whole or in part to the experience of Debbie Tomie, Jean, Rusty and several other well investigated cases.

DO YOU HAVE MUSIC, COMEDY, THEATRE?

JEAN - "Our music is the music of light and visual images. Geometric combinations and light patterns are pleasing and soothing to the soul. We can reproduce the music of your world. We have chosen the best examples of various compositions and have stored them in data centers. Some of your music is highly irritating. We are bombarded with the noise of your radio waves. We do not understand your enjoyment of this raucous auditory pollution. Theatre is used for educational purposes, such as the giving of examples for various situations. It is not for entertainment. We have studied your television programming to better understand your people. This is confusing at times, but we try to average out all the data received. We do not have comedy in a theatrical sense. We have humor and amusement. You are an amusing species."

DEBBIE TOMIE - "Music is vital; theatre, comedy understood. You are our theatre, our comedy." Debbie added the comment, "Goody, a smart-ass."

STEVIE JONES - "As the dark rectangle moved over me I began to get tense. Suddenly, geometric shapes of light in different colors appeared in my mind's eye. It was like music for my mind and it calmed me."

PREDICTIONS

Predictions are always dangerous to make because if they do not come true then you look idiotic. Even the witnesses that make predictions will say they are based on the present trends. If anything were to be changed or influenced it would change the trend and therefore the outcome. I will risk the possibility of error and criticism in an effort to report the data as received. The question, "What can you tell me about the future?" was asked of thirteen totally independent abductees. To summarize the responses: By the end of 1992 there would be so many sightings, landings, abductions, contacts and/or publicity that the UFO question will be resolved in most peoples minds. Secondly, predictions of natural disasters catastrophic enough to cause social change could occur. Oscar relates that a large asteroid will strike Earth in the year 2054 is something is not done to prevent this.

I am just reporting the data folks, so take it for what it is worth and, of course, only time will tell.

PHILOSOPHICAL

HOW DO YOU RELATE TO THE SUPREME BEING (GOD)?

JEAN - "As I have told you before, God is the life essence of the Universe. We relate to this essence through respect for all life. We protect life when it is endangered. This is our goal. Our method of worship is a

meditation to our inner selves. We become attuned to the universal life force."

DEBBIE TOMTE - "There is no perfect religion', no perfect people. There is only life. Life, in its purest form, is the beginning. The base from which all that exists originated. Yours and mine, all life, are merely tributaries of the great river. We hold all life in the highest esteem, for we are all a part of that life. This is not merely blind faith. We have swam 'The River,' so to speak, and you too shall swim 'The River' when you are fully prepared. These words that you restrict yourself to make it very difficult to pass on to you the information you seek. RELIGION' is a sociological phenomenon unique to your species. This is created by man. Not to be confused with spirit. GOD' is the SPIRIT.' Jesus was a man, created by GOD' to help you to understand, on your own level, in your own times and terms. You were obviously not ready at that time. The process will continue, until you have reached the level of understanding set for your form of life by the GOD' whom you have come from. Could you possibly understand? You have made your lives, and you have left no room for the SPIRIT' within you. Now is the time to begin to remember that from which you came. Look into yourselves. Look about you. All life that you see, all that is beautiful, all that is ugly, but with soul, all that radiates is life, is

the SPIRIT,' is your GOD.' You have been blinded by your lives, you have let your fear, and your negativity keep the inner eye within you closed. Do not fear. GOD' is life eternal. Our greater good is that which works together to bring to the SPIRIT' that which belongs to it, to give it strength and life, for to bring IT' life, we give life to ourselves as well. Remember, there is only life if you believe, there is only love if you believe, there is only evil if you believe. If you believe that these things exist for you, then they will. If you believe they do not exist for you then they will not. You have been given this choice."

LYNN - "The Power (God) is the Law of the Universe. It is that Power's choice to give gifts of awareness and understanding, like telepathy. God is the I Am,' the final Law. The All That Is' gives one special capability to all living things, the gift of free will, of choice. You can choose to be compassionate, you can choose to be destructive, you can choose to do nothing, the choice is yours. Each living thing must take responsibility for it's own life. To open what you call the Gates of Heaven' you must first understand and know what the original gift is.

By giving the gift of free will, the gift of choice, to other living beings you come closer to knowing your oneness with all living things, with your Creator. This is the key to unlock the Gates

of Heaven' and receive understanding and wisdom from the universe. Always respect the gift of choice given by 'The Power' to all creations, aware or unaware. Trust that each creation will find its creator and its home for it has eternity to do so."

Very profound for a bunch of little grey genetic engineers. The questions and answers in this article were chosen to supply a variety of responses to some popular topics. As one can imagine, there are many more correlations and others are still being researched.

We started out by determining what and where we are as Ufologists. We examined some of our serious pit falls like:

-Lack of conclusive evidence.

-We may be monkeys studying fighter jets.

-We have an nasty habit of ignoring data we are uncomfortable with.

We then started our walk as scientists in the safety of the lab. We followed the data and correlations and landed in the etheric world of spiritual philosophy.

As UFO scientists we should strive to be a combination of archaeologist, sociologist and futurist. Do not forget to allow your paradigms room to grow. We can then learn from what has happened to better understand what is happening and have the foresight to see what will happen.

**UFOSG 1991-92 CALENDAR
OF EVENTS**

The UFO Study Group of Greater St. Louis, Inc. Board of directors met August 25, 1991 to plan meetings and activities for the new year in ufology. This calendar is offered without verification yet from proposed speakers or presenters:

SEPTEMBER 8, 1991

Business meeting, election of officers. Spencer Wolling will present two videos on "The Face on Mars" and on the apparent UFO coverup.

OCTOBER 13, 1991

Alex Horvat will describe areas of expertise of the speakers of the upcoming October 18th & 19th "SHOW ME UFO/IAC CONFERENCE III." This will be a potpourri offering of the speakers printed opinions.

NOVEMBER 10, 1991

"The Scoop on Implants" will feature a short speech on the subject to be followed by opinions expressed by members of the audience. Anyone willing to do library research on this? Crystal Jackson is the suggested speaker.

DECEMBER 8, 1991

Enjoy a fun filled Christmas Party! Robert Murphy has been recommended to speak on "Reality and Illusion and Misinformation in Relation to UFOs."

JANUARY 12, 1992

Frank Brown has been asked to tell "What I've Learned About UFOs That Is Worth Talking About."

FEBRUARY 9, 1992

Walter Palmer will review Jacques Vallee's challenging book, Dimensions.

MARCH 8, 1992

Forest Crawford has been asked to speak on "Hypnotic Regression in UFO Reports: Fact or Fiction?"

APRIL 12, & MAY 10, 1992

We have the choice of three speakers for the April and May meetings. George Andrews on "How the Political Picture Obscures UFO Research", Tom Bellos on "The UFO Phenomenon and Contemporary Technology" or Bruce Widaman on "What Do I See on the UFO Horizon?"

JUNE 21, 1992

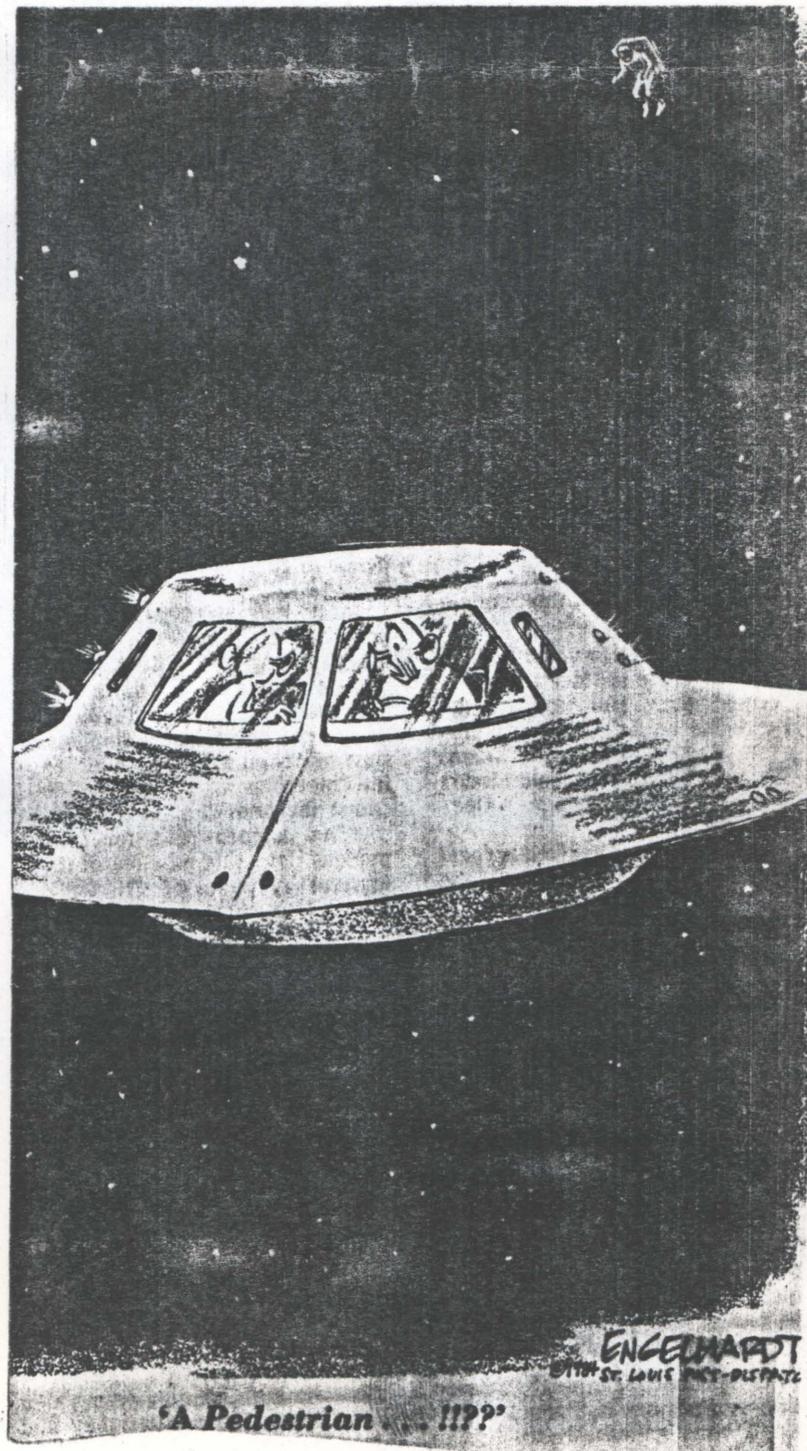

The Annual UFO Study Group Picnic will be held at Muffin Shelter, Love Park on Mason off of Manchester Road. Local researchers are asked to bring information about "Inventions Inspired by UFOs." If any of the named speakers cannot serve on a specified date, Marjorie Sherrill will try to get Bert Schwartz, Psychiatrist, to lecture on "Propulsion", a subject he wrote about in the prestigious FLYING SAUCER REVIEW. Every meeting should prove worthy of your attendance.

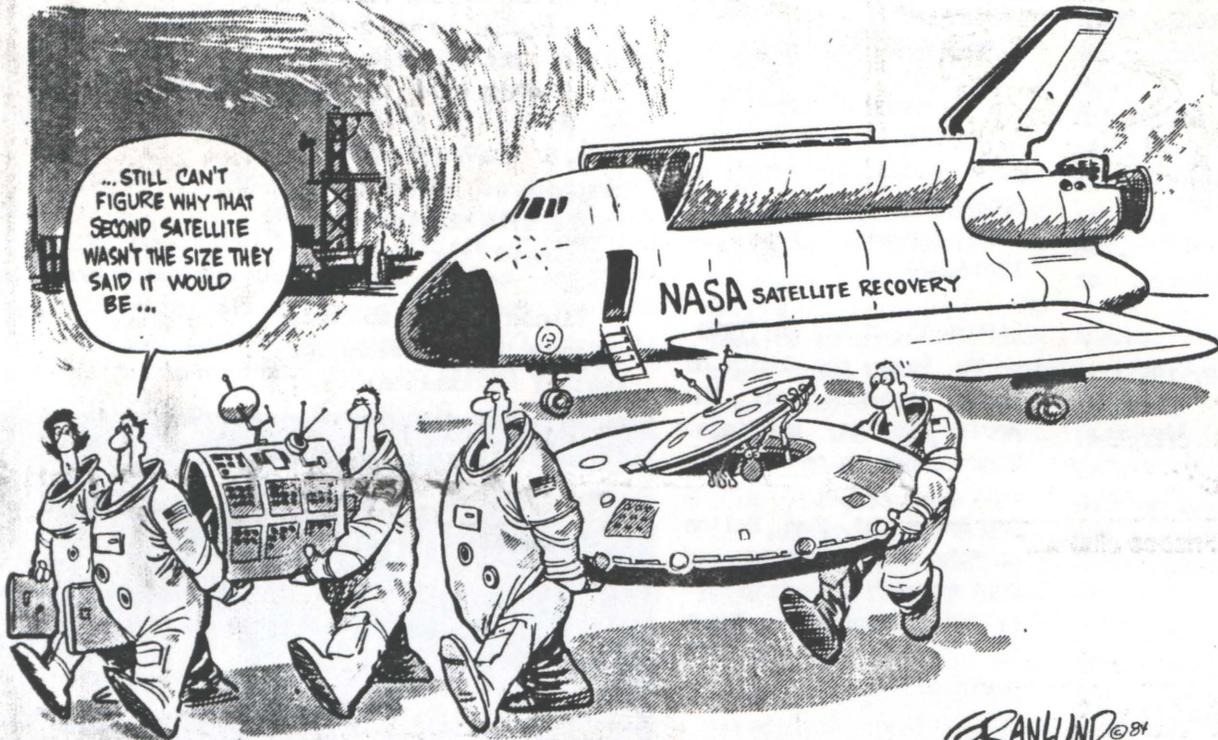

Additionally, the Study Group's Chief Field Investigator, David Rapp, will be assisted by Marjorie Sherrill and Walter Palmer when he teaches an updated "UFO Field Investigator's Course" this fall. The next ENIGMA will detail the time and place for training sessions. Dennis

and Lisa Hoffman, David Howard and Spencer Wolling have expressed interest. All Study Group members are eligible to train and, after certification, may be assigned sighting cases.

J.L. (Joe) Palermo was reappointed Editor of The ENIGMA with the thanks of the Board for a job well done.

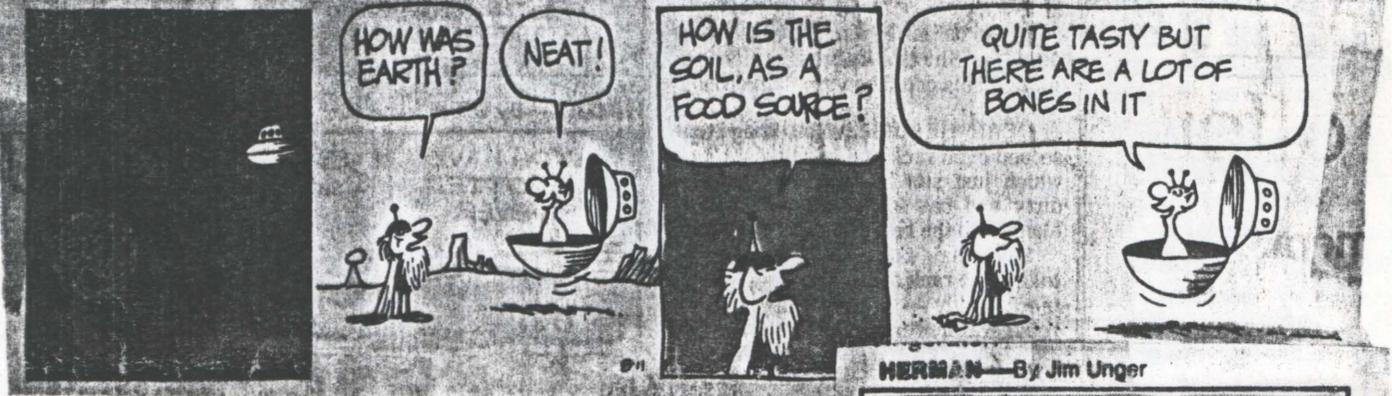

Please refer to this calendar in the future for meeting information.
