WERE BACK AT LAST!!!

Editorial and comment.

As you see above, UFO Magazine is back in "business! We have not published since December, so we are naturally glad to be publishing again. One of the main reasons for our absence has been lack of time. We just do not have the extra time required to publish another magazine. But, now that things are running smoothly around here, we can get to work. UFO Magazine can now be considered a good size publication. (circulation wise) But, the sad fact is that we need people to write articles, and letters for us to publish. That's why this issue is so small, we just do not have the material required to put out a good sized magazine. So if you would like to write about UFOs, why not send your article to UFO MAGAZINE. Remember, we pay \$5.00 for a good quality article!

In recent month it has become quite apparent to me that UFOlogy is sick. The ailment is simply lack of participation! Oh how many little groups spring up, run for a few months, and then fold up. It has said that the average lifespan of the average UFO group is one year. The reason behind all of these close-ups is lack of participation. True, nothing can be done to stop this. However, if the number of UFO groups could be kept DOWN, then UFOlogy could push ahead. I don't mean LOCAL groups, however, local groups (in the form of discussion groups) can do UFO study a world of good. Remember, it is imperative that UFOlogy does not continue to split-up, and to spread itself out too thinly, or otherwise UFOlogy is doomed.

Note: Starting now UFO MAGAZINE is a bi-monthly publication. That means our next issue will be out June 1st.

Ricky Hilberg

AUSTRALIAN FARMER SIGHTS "REAL THING".

Melbourne, Australia-Feb.15th,1963...On Friday the 15th,an Austrailian dairy farmer reported seeing a "flying saucer or something."The UFO sent a horse and his heard of cows into panic.The farmer,Mr.Charlie Brew,said the object was about 25 feet wide and looked like a thick disc."It was battleship grey in color and appeared to have a band of glass or plastic around the circumference,and a number of protrusions which looked like scoops."The incident ocured at about 7:00 A.M. Mr.Brew and his son were milking their cows.When Brew glanced outside at the sky,he was astonished to see an object coming down at a slow rate of speed to a height of 75 to 100 feet. "I thought it was going to land,"he stated,"but it suddenly shot off in a westerly direction...and disappeared into a cloud."

Although Mr.Brew's son did not see the object,he heard the pulsating,whooshing sound the object made as it re-olved over them.The whole thing lasted only a matter of sec-onds,but it was long enough to send Mr.Brew's cows,and horse into a panic.After the incident Brew admitted that he had often laughed at people who said they saw such things,but he says that this was the "real thing"Source Look-See,via V.F.S.R.S.---The Sun.

SOVIETS HAVE FLYING SAUCER-LIKE AIRCRAFT.

Feb.18,1963.(UPI)The official Army newspaper Red Star reported that Soviet engineers have successfully test-ed a "flying saucer" aircraft which apparently has both pow-ered and glider use.The report said the aircraft is able to take off vertically,indicating it has its own power source, and also lands on a cushion of air.FROM-ROAP.

ectly at it.It broke into a spray like a Roman candle,and then there was a Trail of smoke left in the sky for about half an hour."Credit John Black via Saucer Researcher.
