Vol. I--#3.

Enclosed in this issue are copies of letters sent to President Eisenhower and the Federal Tax Dept. If you agree with the principles of these two letters, you can help bring about an effective change in the nuclear situation and also get a break-through in the Flying Saucer Mystery, by writing similar letters to the President and your local tax Director. If the peoples of the world want war, they will get war. It is their money and your money that turns the wheels of all war machinery. Stop it from the source and there will be no machines to wage war. Then and only then, will people be able to live in peace and harmony on this planet and gain the right to venture into Outer Space. God help the Universe if MAN (from Earth) is allowed to spread the rotten apple of his present hates among the baskets of plenty in the Cosmos.

NYSIB wants to apologize to the New Jersey residents on our mailing list for the inexcusable way that the P.O. sent our cards out BULK MAIL, when they were mailed FIRST CLASS. This time it was the Palisades Park P.O. We have demanded a refund, and a letter from the Post Master, "regretting" the occurrence, says the matter has been brought to the attention of the District Manager. Write to this P.O. and add your complaint to ours if you want to receive your cards in time for lectures, we can only do so much.

If you want a close-up on the Brazilian UFO highlights, send to J. Escobar Faria, Rua 13 de Maio, No. 1240, Sao Paulo, Brazil, for his UFO-CRITICAL BULLETIN. An abundance of ufomation, right up to date, including the now famous Trinidad sighting and pictures taken from a Brazilian Naval Research Vessel. It is a free publication, but don't take advantage of this fact. Send a contribution and money for stamps. Specify AIR MAIL if you want it fast, the overland route takes almost a month. \$1:00 will cover airmail for about three issues.

Musts for your UFO library----Max B. Miller's "FLYING SAUCERS-FACT OR FICTION", loaded with pictures and info. 75cts. Ray Palmer's May issue and future ones of "FLYING SAUCERS FROM OTHER WORLDS", featuring among other fine articles, Kenneth Arnold's out of print "THE COMING OF THE SAUCERS" and an excellent play-by-play account of LONG JOHN NEBEL'S WOR "PARTY LINE", by Augie Roberts and Dominick Lucchesi, entitled "SAUCERS IN THE WEE HOURS". The new issue of "UFOLOGER" ed. and pub. by Jim Villara and Dan Washburn is a whopper and a credit to these two fine young men. Gray Barker's "SAUCERIAN BULLETIN" has a personal interview with OTIS T. CARR, the gentleman claiming discovery of the source of free energy. The LITTLE LISTENING POST, fresh and stimulating as ever.

2.

The NYSIB members who attended the last bi-monthly meeting sent a wire to Rep. CHET HOLIFIELD, House of Representatives, urging passage of Senate bill #3474 and H. of P. bill #11426. These bills are against the arming of other Allied Nations with Nuclear Weapons. It is enough that the U.S., Russia and England have polluted the Earth's atmosphere with uncontrollable atomic radiation. When is man going to realize that he is paying through the nose so that he may eventually smell the putrefaction of his own body? LLOYD ANDERSON, Asst. Director of NYSIB is now in the process of setting up the NYSIB LECTURE BUREAU. Its function will be to take care of all the paper and advance work necessary for a lecture tour contemplated by any individual interested in the Flying Saucer Subject. The big hindrance to lecture tours in the past, has been the outlay of time and money by potential lecturers that could ill-afford both; the NYSIB LECTURE BUREAU will alleviate this obstacle. All U.S. organizations interested in participating in this effort, please contact LLOYD ANDERSON and he will send you all pertinent information.

From Wash. D.C. April 25th. INS RELEASE. Three distinguished scientists, Dr. Furnas, Chancellor of the U. of Buffalo, Dr. Lubriague, President of the Cal. Institute of Technology and Dr. Pickering, Director of the Jet Propulsion Laboratory, warned Congress against letting the armed services dominate Space research, or spend vast sums of money for such "useless projects" as a weapons base on the moon. They urged CIVILIAN CONTROL of space programs. NYSIB is in full agreement with the three doctors.

Why hasn't one single scientist in this country been able to even give a theory as to how the Russians put 1000 LBS into orbit? We're having trouble trying to get 22 lbs up there. Maybe OTIS T. CARL is right, maybe the Russians have already dispensed with rockets and have an ANTI-GRAVITY device that works.

NYSIB mail brings in additional sightings every week, that people have never talked about because of ridicule, and once in a while we get a contact story. We have two very exciting contact stories from professional people that are both important members of their communities. Unfortunately because of their positions they want no publicity. These people have been kind enough after frequent letters to me, to write me their experiences. Anyone who has had an experience, put it down on paper, as detailed as possible and send it to NYSIB. There is only one key to our P.O. Box, and I am the only person who opens the letters, so if you prefer to remain unpublicised, at least let us have your experience on file, so that when the official secrecy lifts, and ridicule will not be the order of the day, we may openly add your name to the lists of those fortunate enough to have made contact. It will make an impressive list for the skeptics.

A space message CHAIN-LETTER starting to circulate in the N.Y.--N.J. area regardless of where it comes from, is a worthwhile project for anyone with fifteen minutes to spare. If you get one, pass it along, it can't do any harm, and it could do a tremendous amount of good.

Only one of our members that we know of is going to the Giant Rock Convention this year. George Van Tassel should be prepared for a tremendous crowd and we all hope that the convention won't be dampened by bad weather this time.

HARRY STURDEVANT, the night-watchman who had an experience with a UFO while on the job, finally got his Workman's Compensation case brought to trial but with unfortunate results. His claim was disallowed, the judge deciding that what he saw was an hallucination. STURDEVANT has until May 20th to

3.

appeal and NYSIB is doing what it can to get a lawyer interested in the case, one who will see to it that STURDEVANT gets a fair trial, which, from the looks of things, after investigating the case, does not seem to be the case in this last one, especially after the Referee at his Hearing, over a year ago, decided in STURDEVANT'S favor, stating that the Workman's Compensation Board was not interested in whether or not STURDEVANT saw a Flying Saucer, only whether or not he was taken sick on the job. His (the referee's) decision showed he was satisfied with the evidence that STURDEVANT was taken sick on the job. Now we have another line of professional people setting themselves up as authorities on UFOs--JUDGES; and in this case, at least according to the various newspaper accounts, the verdict was reached, all cut and dried---HALLUCINATION! Was this justice or prejudice? Apparently the fact that STURDEVANT hadn't been able to work for a year and a half, was adjudged sick on the job by the Referee and according to him (Sturdevant), now, still having throat convulsions daily from the effects of the unknown forces that penetrated his lungs, seemed to have no bearing on the case. NYSIB is furthering it's investigation into this case and invites any Lawyer that would be interested, to get in touch as soon as possible. Failing an appeal in time, which costs money that STURDEVANT does not have, anyone that knows of the prospect of a job for this gentleman, can contact NYSIB with the information and get his address. This is the least we can do for a person who has been through what he has regardless whether or not you believe his story.

We have had so many requests for the pamphlet we gave out at REINHOLD O. SCHMIDT's lecture last month, with the sketch of the cigar shaped craft he boarded in Kearney, Neb, last Nov. 5th and in which he subsequently took a ride last Feb. we herewith print a facsimile of it, exactly as given to us. Bear in mind that this is an artist's conception of what SCHMIDT told him he saw.

An NBC Radio news item on the 30th of May, stated that a reporter had been to 10 of the leading cities including N.Y. and Chicago and not found the slightest signs of recession in any of them. Does this mean that we are being handed a line from our Government? Just because a few big car and appliance manufacturers overstocked and plundered badly in their thinking that the American would continue to fall for the "better-than-ever" new

4.

model every year pitch, that has finally reached the saturation point. In a conversation with one New York Bank official, this reporter was told that more people are saving more money than ever before. This isn't consistent with what is printed in the newspapers and given out over T.V. and radio these days. Let's not be lead by the nose to another '29 slaughter.

Those who have seen or own the beautiful brochure mailed out by OTC ENTERPRISES, should be very interested to compare his artist's conception of the Flying Saucer he claims to be able to build for \$20 million with the very recent Brazilian Navy picture of a UFO taken over Trinidad. Below is a sketch of the Teletype picture received in the U.S. which was so obviously withheld from national coverage. When NYSIB receives copies from Brazil of the four pictures taken, they will be given special treatment in "UFO-MATION".

PHOTO BY ALMIRO CARAUNA, TAKEN ABOARD
BRAZILIAN NAVAL RESEARCH VESSEL
"ALMIRANTE SALDANHA" AUTHENTICATED
AND RELEASED BY THE BRAZILIAN PRESIDENT.

Quote from N.Y. TIMES, Nov 6th 1957, in the words of GENERAL OMAR N. BRADLEY.
"Missiles will bring anti-missiles, and anti-missiles will bring anti-anti-missiles. But inevitably this whole electronic house of cards will reach a point where it can be constructed no higher.....When that time comes there will be nothing we can do other than to settle down uneasily..... in the thickening shadow of death...how long--would I ask you---can we put off salvation? When does humanity run out?"

April 15th 1958

Office of the District Director
U.S. Treasury
Internal Revenue Dept
484 Lexington Ave
N.Y.C.

Dear Sir,

Enclosed is my income tax return for 1957. ~~\$250x55~~ was taken out of my salaries last year for Federal Withholding Tax. I presumably owe additional money.

As Director of the above organization, which has been in operation since Jan 1st 1958, I have come to the very definite conclusion, (and I'm by no means alone in this matter, with names of many in scientific, political and professional circles at my disposal,) that our Government with the U.S. Air Force, is holding back information of tremendous import from the American people. Our Government is not alone in this matter. We have had a committee at work at the U.N. and have already covered over 50 different Countries' Delegates. They all say the same thing. Their Governments will not allow them to make any statements. Mighty strange for something that our own (and other countries) Air Force is spending millions of dollars on, and yet keeps saying doesn't exist! Our organization, along with the hundreds of others like it all over the country is going to try and get a break-through on this vitally important subject just as soon as possible. All over the world right now, people are banding together to try and stop this insane "atomic age" that we have been pushed into without even being asked. Who knows what our children and their's will have to contend with, because a few people decided to go crazy. As far as I personally am concerned, I want no part of this devil's inferno that is being hastened to completion. I have always paid my taxes, not fully realizing what the money was going for, but there's something I can't buy with money, an easy conscience, and now that I'm fully aware of the enormity of this crime that we are all a part of, that of arming ourselves for total destruction the world over, I want it put on record that far from evading income taxes, above the normal amounts, which are very necessary, I cannot see myself adding to something that has over-reached the bounds of reason. We say on T.V. and Radio that we are a God-fearing nation. This is hypocrisy in the ultimate form. We are not God-fearing, we openly acknowledge that He doesn't exist, in our every word and action during every day. If we were God-fearing and God-loving, we would automatically realize we don't need hydrogen bombs to vanquish our enemies. Maybe this all sounds like a lot of religious gibberish but as I stood in-side Jefferson's monument only two weeks ago and read some of the words engraved on the walls, I can just see that

great man shaking his head in bewilderment at the way we speak his inspired words, then quite unconcernedly, even smugly, act as if we'd never heard of the Constitution, of Civil Rights and the Pursuit of Happiness. As a citizen of the U.S. I have the right above all else to freedom of Religion, and the God I worship makes no compromise for killing and war. If I have to choose sides, I'll take His side, any time. I have nothing to hide about my taxes, I've been called in the last three years, owe a few dollars on recently made additional taxes, because someone has to pay the tremendous cost of all the additional help that mounts every year as we become a nation of statistics and red tape. This could be the reason that the truth about Flying Saucers is being withheld from the public. Wash. D.C. has become a highly inefficient paper mill, with "top secret" stamped on everything from a well-known scientist's new type of target bow to a white collar worker's bill of sale for a gross of pencils in the Dept. of Defense. (Both facts, incidentally, as related over N.B.C. News recently). I'm perfectly willing to go to court any time I'm called, we've been trying to get the Civil Liberties Union to take the case of one Reinhold O. Schmidt, who was held in jail in Kearney, Neb. for three days without a warrant, then contrary to his rights as a Citizen committed to the State Mental Institution without any kind of due process of the law. All because he had told the Sheriff and Police Chief that he had had an experience with a U.F.O. I have seen a lot of the photostated, documented evidence, and if the F.B.I. and the Air Force are allowed to get away with what they are doing, there's no knowing where this may lead us. The lawyer we talked to in the Civil Liberties Union, said the case scared him too much and he wouldn't touch it with a ten foot pole. Schmidt's is by no means the first case that we know about, it has been happening all over the country. Why? We have repeated quotes from the Air Force that Flying Saucers do not involve the security of the country, then they turn around and say they don't exist, calling a lot of our best Air Line pilots a bunch of liars, incompetents etc., these men, who have the responsibility of thousands of lives in their hands every year. So far, regardless of the Air Force slanders, it's interesting to note that not one of these pilots has ever been fired for having had sightings. If you yourself, Sir, are interested in knowing more about what is going on, I suggest you attend our next lecture at the Palm Gardens Ballroom, 306 West 52nd St. N.Y.C. at 8:00 pm on May 8th 1958. Our guest speaker is the noted news commentator, Frank Edwards, who was fired from the A.B.C. Radio network for talking too much about Flying Saucers. You will undoubtedly find out that there are an awful lot of people who feel the same way I do. There's not much I can do about the money withheld from salaries I receive, even though I am against it, but anything additional I have something to say about.

Our Government is supposedly of the people and by the people, and as one of the people I am taking this opportunity to voice my discontent at the way it is being run, in an effort to help stop the insane rush toward global suicide. Money is the madness that man has made his idol; without it to spend so freely, maybe the idol will lose face and crawl off it's man-made pedestal.

Sincerely

Douglas Deane

April 21st 1958

Dwight D. Eisenhower,
The White House,
Washington, D.C.

Dear Mr. President,

The most important question on many millions of people's minds, not only in this country, but in every nation in the world today, is:- Are we being visited by beings from other worlds? This is not just conjecture, but absolute fact. In a recent poll taken by Hendrix for NICAP, the Washington UFO organization, directed by Major Donald E. Keyhoe, which I'm sure you are well aware of, the percentage determined ONE out of every FOUR Americans believed that FLYING SAUCERS existed. This is no small amount. Hundreds, even thousands of Americans have been trying to get a grown-up answer from the U.S. Air Force, after ten years it's conclusions are as varied as the winds. The only statement that continually crops up is that UFOs do NOT constitute a threat to our security. If this significant statement is true, and the records bear it out to be true, then why the secrecy? Why is the public not being told the facts? Who or what is holding it back? NYSIB, our organization, has covered over fifty of the U.N. Delegates. We have been given the same run-around that our own Authorities have given us. We have proved that it isn't just a conspiracy to withhold the information in this country, but in every country in the world. WHY?

The President of Brazil recently allowed a picture taken from a Brazilian Naval Vessel in Trinidad, to be released in the Press and a teletype copy of it was released in America, but only by a few local papers. If the Air Force does know the answer and is withholding it, you, Mr. President, as Commander-in-Chief, would endear yourself to the peoples of the world, if you would openly come out with it. This is something far bigger than our own puny planetary squabbles, it's importance second-rates EVERYTHING ELSE. If the A.F. does not know the answer, it's about time the public was given the facts, all of them, and allowed to determine what policy should be followed. Theories that these craft are man-made haven't a leg to stand on, in the light of billions and billions of dollars spent on comparatively obsolete craft as jets, rockets and atomic motors. Whatever the power used by these vehicles is, no country on this planet has it or we'd be efficiently using it.

Enclosed is a copy of a letter I sent to the N.Y. District Director for Federal Income Tax. It states my case clearly. The letter was read at our last meeting April 19th 1958, with copies ready to be handed to the press. This situation isn't a matter for ridicule any longer, too many top-flight scientists, in every field, air-line pilots, radar men, technicians and people in reputable positions as well as countless thousands, maybe hundreds of thousands,

all over the world, of just plain ordinary citizens have seen these craft. You made a statement at one of your press conferences that was televised recently, that there was no palace guard of secrecy in the White House, that you knew everything that was going on, Mr. Eisenhower. Up until now, it has been the conclusion of most everyone in the field, that this withholding of UFO information was entirely on the shoulders of the A.F. If your statement is true, that you do know everything that is going on, then we must assume that you have all the facts to date, and it is by your orders that the information is being withheld. You undoubtedly have your reasons for following this plan of action but secrecy in this situation cannot exist much longer, and in the event of mass landings panic most certainly would be the order of the day, if the people haven't been conditioned beforehand. From the records of a Pentagon Top Secret meeting as far back as January 1953, a scientists' panel urged that the American People be given all UFO information. This recommendation, among others, was officially rejected. Why? We are entering the Space Age now, where man is getting ready to "wet his feet" in outer space. Suppose we are already looked on as the "Juvenile Delinquents" of the Milky Way. As President of an Inter-Galactic Federation, what would you do if you found that Planet Earth was playing around with newly-discovered atomic toys that might possibly upset the balance of your whole system? I leave you to answer this yourself, Mr. Eisenhower. If you are sincere in your desire to bring real peace to this troubled world, not just to America, go before the United Nations and let the world know the true UFO situation, regardless of whether or not you know the answer. This country will make more real friends than all the Lend-Lease help put together has even thought of making. Let us show these visitors from Outer Space that Planet Earth can grow up before it's too late. Other civilizations before us didn't learn their lesson in time, and so we are left with only legends and myths of Atlantis, Lemuria and Mu. NO-ONE can prove they didn't exist, the same applies in reverse. Is this mystery going to be repeated 60,000 years from now? Are people going to argue about whether or not there was once a great continent called America, and discuss the various ways it was devastated? You have the destiny of a planet in your hands, Mr. President, not just a hundred and seventy five million peoples' lives. Don't be swayed by egotists around you, who set up Earth as the Center of the Universe, with themselves as God. On our one dollar bill, series 1957, I see we have finally taken a step in the right direction. It is inscribed "IN GOD WE TRUST". Let whatever or whoever the GOD you trust in be your guiding light, for without spiritual understanding, which has fallen to a dangerous low in this country, we, as a nation are doomed to fall. History is a continuous accumulation of such cases. In the long run, there is only one ultimate weapon; it can overcome all the hydrogen bombs, ICBMs and hate that man, in his childish endeavors can ever hope to conceive; that weapon is LOVE. Love for your fellow man. Without it, we are licked before we start.

A few words from you, could start a new way of life on this planet, regardless of those that thrive on power and greed. They, too, have to return to their maker someday, though they spend their lives trying to prove to themselves they are self-made. Man will have a new goal to look forward to among the stars, but he MUST NOT BE SENT OUT WITH MURDER IN HIS HEART, TO SUBDUE AND CONQUER.

Thank you Mr. President for reading this, and with the hope that we can have a clear-cut answer,

I remain, very respectfully

Douglas Deane, Director.
