# *Pennsylvania Paranormal Report*

Wem Town Hall, Shropshire England  
Date: 11.19.95

The town hall was burning to the ground when a man across from the fire scene took the above photo. It showed the spectral girl in the building amidst the flames.

A man in England made a recent debunking attempt. He stated that the photo of the girl was photo enhanced from a 1938 post card. The card was analyzed and showed the dress was common of the period and two other women in the postcard picture had the same style of dress. Also the face on the Wem photo did not match the post card as facial features were not the same and the head is at a different

angle and the hairstyle was not the same. The photo remains as one of the most Famous Ghost Photos ever taken.

A note...24 attempts have been made in years past to debunk this photo. All failed.

## *Pennsylvania Abduction Report*

There are three ongoing Abduction Investigations going on in Pennsylvania. Due to privacy no other information will be given.
