NEWS FLASH!

ARIRA (Aerospace Research Investigation Reporting Agency) pronounced (a-rye'-ra) is a private research organization.

ARIRA is dedicated to independent research and investigation, focused on Unidentified Aerial Phenomena (UAP) and other Anomalous Phenomena, within the framework of physical reality, anomaly, the effects on society and human consciousness.

ARIRA advisory board members, investigators, researchers and dispatchers (agents) are selected and invited to serve, based solely on academic accomplishment, research capabilities, investigative credentials and experience in this field.

ARIRA is not a member organization and individuals cannot purchase a membership or pay an annual fee to belong to this network or have access to this research data.

Our logo looks very official and that was our intension. The words in the acronym were chosen carefully in that an "Agency" is defined as an entity, through which energy is exerted and an end result is achieved. The ARIRA Project is exactly that, an entity that facilitates investigation, conducts research and produces reports. ARIRA is totally dedicated to research and is entirely self-supporting.
