

# UFORCOP NEWSLETTER

## September - October 2011

[Welcome to UFORCOP'S bi-monthly newsletter.](#)

You can file a report or obtain information by going to our [Contact Us](#) page and filling out the form and hit the submit button. **A researcher will contact you within 24 hours.**

Anyone wishing to have a presentation given to a group can use the [Contact Us](#) page on the website.

**ANNOUNCEMENT: ARIRA RADIO UFO LIVE FM** is on the air. Sunday night. 8PM-10PM EST. [www.arira.org](http://www.arira.org)

**Book of the Month: WITNESSED, by Budd Hopkins,** available at [www.amazon.com](http://www.amazon.com)

**SITE OF THE MONTH: Missouri Investigators Group at** [www.ufomig.bravehost.com](http://www.ufomig.bravehost.com)

# UFORCOP NEWS

**UFORCOP NOTE:** We have been investigating cases in other states and countries. If you have a present or historical case you would like researched contact, [butch@paufosearch.com](mailto:butch@paufosearch.com)

## **UFORCOP**

Researchers are available for speaking engagements. Please contact [butch@paufosearch.com](mailto:butch@paufosearch.com)

## **UFORCOP**

Has received a number of cases on “Orange Orb” type UFO’s. If you have any information or photos to share on this unusual amount of sightings all over the country please contact us at [butch@paufosearch.com](mailto:butch@paufosearch.com)

We will be making our second trip to Morganton NC to continue the investigation of the Brown Mountain Lights. This trip we will be viewing the phenomenon from three different locations. A number of other experiments and some new techniques will be tried out to see if we can at least narrow down the scope of the investigation. If anyone has seen the lights we would like to hear from them as we catalog a number of eyewitness reports. Of course photos of the phenomenon are always a plus. The best times for viewing the lights are late October thru November, but the lights are viewed year round, they just seem to be more pronounced in the fall with clear skies and cooler weather.

**Information needed for any sightings in Florida between 1975 and 1977 of an Orange colored square in the sky.**

**UFORCOP** has ended its investigation into “Thunderbird Sightings” in Pennsylvania, and the “Suscon Screamer” The reports can be viewed on the website home page under Historical Cases highlighted in green.

## **Report a UFO Sighting**

To speak with one of our researchers, please send us a confidential email and include the following information.

- Your name
- Contact phone number or email address
- Date and time of event
- Location (city / county / state)
- Brief description of your sighting
- How many witnesses were involved?
- How close were you to the object?

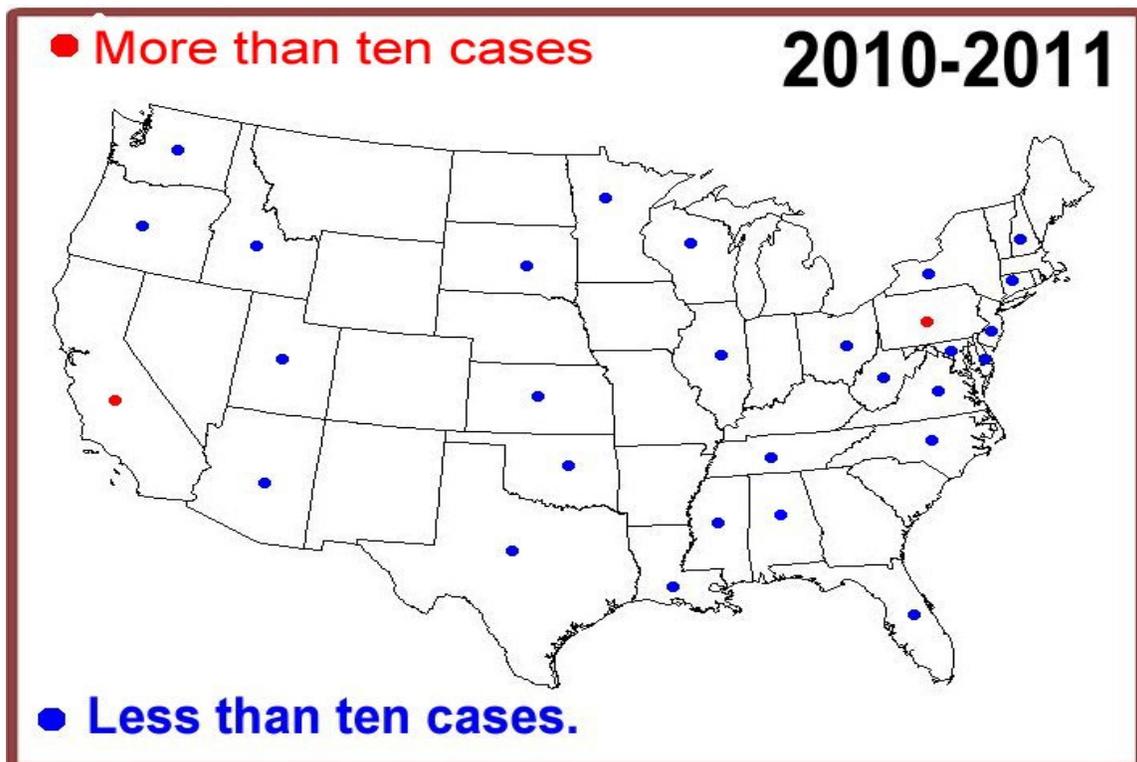

Attach any photos, drawings or EVP recordings.

Email us at [butch@paufosearch.com](mailto:butch@paufosearch.com) and one of our researchers will contact you within 24 hours.

**UFORCOP now has a second mobile unit that is stationed in the western part of the state, photos below.**

The FWD unit will give us access to areas we cannot get the van into and it also will be fully equipped with the needed gear in the very near future.

ARMSTRONG, SOMERSET, DELAWARE, BEAVER,  
LEHIGH, ERIE, PHILADELPHIA

Brown Mountain Lights  
MORGANTON, NC

## **Brown Mountain Lights Phenomenon**

The Brown Mountain Lights are a series of ghost lights reported near Brown Mountain in North Carolina. The lights can be seen from the Blue Ridge Parkway overlooks at mile posts 310 (Brown Mountain Light overlook) and 301 (Green Mountain overlook) and from the (Brown Mountain Overlook) on NC Highway 181 between Morganton, NC and Linville, NC. Additionally, good sightings of the Lights have been reported from the top of Table Rock, outside of Morganton, NC.

Reports of odd lights continued, and a more formal US Geological Survey study began in 1922, which determined that witnesses had misidentified automobile or train lights, fires, or mundane stationary lights. However, according to a marker on the Blue Ridge Parkway, a massive flood struck the area soon after the completion of the USGS study; all electrical power was lost and trains were inoperative for a period of time thereafter. Several automotive bridges were also washed out. The Brown Mountain lights, however, continued to appear.

One of the best vantage points, Wisemans View, is about 4 miles from Linville Falls, NC, and the best time of year to see them is reportedly September through early November.

### The UFORCOP team at Brown Mountain, NC

UFORCOP has joined forces with **ARIRA, Aerospace Research Investigation Reporting Agency, UFO Research of North America, UFO Clearinghouse, and the Institute of Frontier Science** as partner sites in the search for the truth.

UFORCOP MOBILE UNITS Based in Eastern and Western Pennsylvania allow us to cover any call within a matter of a few hours. The equipment on board is the best we could get and is constantly being updated. Hopefully in the next few months we can add an ATV to expand our capabilities in the field.

**Exterior 2005 Ford E350 Extended Van**

**Interior of UFORCOP Mobile Unit**

### **UFORCOP MOBILE UNIT #2**

Qual Comm Global Star Satellite Communications have been added to our mobile unit, along with a Garmin GPS and two new IF Night Vision Systems, and in August a Ladder Rack, Emergency LED Warning Lights, Ladders and Repelling Gear were added, along with mobile and portable communications and a multi-band scanner. A 3500 Watt gasoline generator was also installed. We have mounted a

military grade laptop computer in October with a satellite link up. A TIF portable gas detector has also been added.

### PARANORMAL

**UFORCOP** will be going to **Gettysburg** in the autumn of 2011 to do a paranormal investigation of strange things reported at that location.

### CRYPTO ZOOLOGY

Anyone with information on sightings in the Pennsylvania area of (Panthers, Mountain Lions, Cougars, Thunderbirds etc.) Please email [madhunterpa@gmail.com](mailto:madhunterpa@gmail.com) or [apehunterpa@gmail.com](mailto:apehunterpa@gmail.com) or [hellhunterpa@gmail.com](mailto:hellhunterpa@gmail.com)

Russian Team hunts for YETI in Siberia. Some clues found in cave. More on this investigation as results of search are verified.

### TOP THREE REPORTED CREATURES IN PENNSYLVANIA

1. BIGFOOT 2. THUNDERBIRDS 3. PANTHERS

### UFOLOGY

**ORB reports**, are still coming in from all over the State as well as most of the country.

# NEWS FLASH!

**ARIRA** (Aerospace Research Investigation Reporting Agency) pronounced (a-rye'-ra) is a private research organization.

**ARIRA** is dedicated to independent research and investigation, focused on Unidentified Aerial Phenomena (UAP) and other Anomalous Phenomena, within the framework of physical reality, anomaly, the effects on society and human consciousness.

**ARIRA** advisory board members, investigators, researchers and dispatchers (agents) are selected and invited to serve, based solely on academic accomplishment, research capabilities, investigative credentials and experience in this field.

**ARIRA** is not a member organization and individuals cannot purchase a membership or pay an annual fee to belong to this network or have access to this research data.

## CRYPTO NEWS

### What is it?

August 8, 2011 Douglas County, Minnesota

Report strange animal sightings to [apecunterpa@gmail.com](mailto:apecunterpa@gmail.com)  
or [madhunterpa@gmail.com](mailto:madhunterpa@gmail.com)

## ANIMAL MUTILATIONS

Reports of mutilated sheep in the United Kingdom are found with a mysterious three-hole triangle formation bored in the skull. Latest U.S. cattle mutilation under investigation was August 8, 2011 in Colorado.

Please report any suspected animal mutilation to [butch@paufosearch.com](mailto:butch@paufosearch.com)

### **TOP TEN STATES FOR BIGFOOT REPORTS** **HISTORICAL AND PRESENT DAY**

Washington 520  
California 425  
Oregon 227  
Ohio 218  
Florida 194

Texas 183  
Illinois 157  
Michigan 132  
Colorado 109  
New York 101

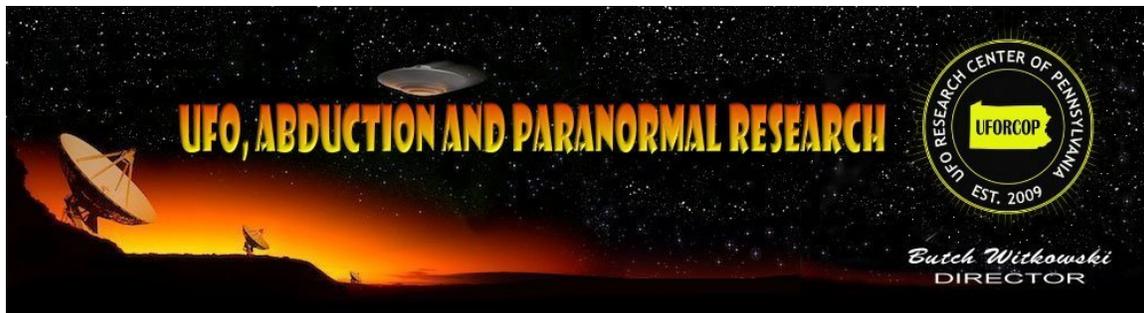

### NOTABLE UFO CASES

- Battle of Los Angeles, Feb.24 thru 25 1942
- Lubbock Texas Lights, Aug. thru Sept.1951
- Washington DC Incident, Jul. 12 thru 29 1952
- Ghost Rockets, Sweden, Feb.1946
- The Belgian UFO Wave, Nov. 1989 to April 1990
- Roswell NM, July 1947
- Chicago IL, Nov. 7, 2006, O'Hare Airport
- The Phoenix Lights, March 13, 1997
- Gulf Breeze Sightings FL, Nov. 11, 1987
- The Cash-Landrum Case, Texas Dec. 29, 1980
- The Rendlesham Forest Incident, Dec. 26, 1980

### UFORCOP

Is actively seeking information on the Presque Isle Landing Incident and Bigfoot Sightings reports in Pennsylvania. Many thanks, to those who have submitted reports and information and photos.

[www.paufosearch.com](http://www.paufosearch.com)

## Animal mutilations

- A typical animal mutilation may involve any or all of the following:
- The removal of eyes, udders and sexual organs very cleanly with surgical precision.
- The removal of the anus to a depth of around 12 inches similar in appearance to surgical coring.
- The removal of the lips and/or tongue deeply cut out from the throat.
- The removal of one ear.
- The removal of major organs (such as heart or liver) with no obvious entry/excision marks. Often, if the heart is missing, apart from no excision wound, the Pericardium will still be present and intact, with the heart missing.
- The stripping of hide and flesh from the jaw and the area directly beneath the ear to the bone.
- The removal of soft organs from the lower body.
- The presence of incisions and cuts across the body that appear to have been made by a surgical instrument.
- Unexplained damage to remaining organs, but no sign of damage to the surrounding area.
- A lack of predator signs (including teethmarks, tearing of the skin or flesh, or animal footprints) on or around the carcass.
- Lack of obvious scavenging.

- In many cases, a draining of the majority of blood from the animal. What blood is left exhibits color anomalies and may not coagulate for days.
- The animal will appear 'dumped' or dropped in a secluded area, with no animal, human or vehicle track(s) leading to or from the site. Some have been found draped over fences or in treetops.
- The ground under the animal appears depressed, as if the animal was dropped on the site from a height leaving an impact crater.
- The animal's bones found to be fractured with injuries consistent with being dropped.
- Strange marks/holes in the ground around the carcass.
- Other cattle and predators avoid the carcass and the area where it's found.
- Eyewitness reports of aerial objects in the vicinity of cattle at the time of an animal going missing. UFO's and Black Helicopters are the most common.

### **CHARLES HIXSON, ALIEN ABDUCTEE DIES IN MISSISSIPPI**

**MISSISSIPPI** – Charles Hickson, who was abducted by aliens in 1973, has died. The Mississippi man who he was abducted and probed by aliens while he was fishing with a friend, Calvin Parker Jr., in 1973 and never backed off the story despite the ridicule he endured, has died. Hickson, 80, died of a heart attack, his family said. Hickson, then 42, was fishing with 19-year-old Calvin Parker Jr. on a pier near Pascagoula, Mississippi in October 1973 when a cigar-shaped UFO with flashing blue lights suddenly appeared above them. The men claim to have been abducted by aliens.

### **OVERSEAS CASES**

England and Brazil have reported sheep mutilation cases. Inquiries continue on our part.
