

EDITORIAL.

High folks, welcome to the latest edition of the Southampton UFO Groups newsletter. Let me kick off with the news that we will be holding a by monthly meeting in the Southampton area starting in March (See back page of newsletter). I hope that we can meet in a relaxed manner, with video's, talks, visits etc. At the first meeting, I would like to find out from everyone that attends, what they want from the meetings.

Anyway, it is welcoming to see that the Wheatear has written an article this month and as ever, it is a very readable article. Going on from his main points about the alien body, did you the reader know that there is an alleged 125 alien bodies recovered from crashed saucers ! No, well neither did I until I read the following gleaned from the Internet :

LIST OF UFO BODIES ALLEGEDLY IN THE POSSESSION OF THE UNITED STATES GOVERNMENT.

6.89 : UFO & 2 ET Transported in 2 Galaxy Transporters to Wright
Patterson Air Force Base From South Africa.
7.89 : Siberia. 9 ET Living.

If the Roswell body is authentic, then how many other autopsy's have the government/military performed on the above bodies. Is it no wonder, that we Ufologists do not believe the government of the United States, when it says that they have no retrieved flying saucers, or dead aliens. Continuing with the 'Dead/Living Alien' story, read on :

U.K (Black Heath) UFO Crash Mystery - April 19th 1993, Blackheath, Wiltshire.
20.40 GMT.

At 20.19 GMT on Monday April 19th 1993, ATC at Prestwich reported a flying object that appeared on their radar screens, which at first they thought was a Concorde on route from the USA, but then noticed that the objects speed was at least four times greater than a Concorde jet at supersonic speed, (in excess of 5500 mph) the object, whose altitude was 33,000ft, turned right heading due South when it approached the Pennine range.

The object was also being tracked by NATO's early warning system, and two RAF jaguar aircraft were scrambled from RAF Coltishall in Norfolk to intercept.

At 20.37 GMT the object was seen on radar screens at Gatwick airport, but was reported to be at an altitude of 10,000ft, and travelling at 250 mph.

ATC at Gatwick monitored this object for approximately 3 minutes, before losing it off its radar screens at 20.40 GMT. heading due West.

My name is captain Fodoala Parc, a captain in the Royal Egyptian Army, Intelligence Corp, at present, on military manoeuvres with the British Army at Salisbury Plains, England.

On Monday 19th April, I was observing military operations on Salisbury Plains, when, at 20.45GMT we were instructed to go to Black heath, which is approx. 6 miles away from where we were. This apparently was, that we were part of intelligence operations and had security clearance.

On arrival at Black heath, we found a cylindrical object, measuring about 60 feet by 40 feet.

This had four hydraulic legs, two of which had been damaged on landing and the object was lying at a 30 degree angle. The object was made from what looked like metal and carbon fibre material which appeared highly polished and seamless, its colour was a dark charcoal.

About one third down the side was an opening, measuring about 4 feet by 2 feet.

On entry to the object we were met by 3 USAF high ranking officers and were told to secure the area until recovery personnel arrived. I also noticed on what I would call the flight deck, two other persons, which I could only describe as being extraterrestrial beings.

From what I saw, they were about 3.5ft to 4ft in height, with a greyish smooth complexion, their heads were extreme proportion to their bodies compared with humans with slanting eyes and thin arms, at no time did they speak.

I immediately left the vessel and secured the area as instructed to do so, within 50 minutes an USAF Sikorsky chopper came from USAF Woodbridge in Suffolk, to where the object was taken complete with crew.

I later found out that the two jaguar aircraft from RAF Coltishall, were intercepted by USAF aircraft and returned to base after being told that the object was a USAF test flight.

I have since returned to Egypt and told not to repeat anything that I saw that evening, also my security clearance has been lowered and I have no longer any access to any of the information from that evening.

I have since learned that there have been similar UFO sightings in that area of the U.K. And also that the USAF have been working in conjunction with Aliens on designing High Tech military aircraft.

If anybody has more information regarding these sightings, or any information in respect of the USA Military and Alien connections, I would very much appreciate knowing.

Captain Fodoala Parc.

Egyptian Army Intelligence Corp.

So, are our governments relay hiding alien bodies, and why are the Americans recovering Crashed saucers/bodies in this country ? Why isn't the British government recovering them with British equipment. The British government must of known about the crash/recovery of a landed saucer ? Or did they ? Is there such a big cover-up, that only the Americans really know what is going on. Woodbridge (The sighting and encounter with aliens back in December 1980) seems to be holding a big secret and I wonder if we will really ever find out its dark secrets. Where are all these bodies being kept.... ? The answer is out there and it is down to people such as me and you to try and find out the real truth..... (The X-Files live on.....) Ed.

PRESS/TV/RADIO MATTERS OVER THE PAST MONTH 15.1.96 - 15.2.96.

TELEVISION.

15.1.96 - The Paul McKenna Show.

When I saw this advertised, I thought it was going to be the usual dribble that we see so often see in such paranormal related programs. But oh boy, was I wrong ! This was an excellent program and it was such a pity that it lasted only for 30 minutes. The program featured : The sighting of a UFO by Ex president Jimmy Carter (He was actually interviewed), Timothy Good and the cover-up angle, Edward Harris and the abduction angle with abductee Rosemary Hawkins, Graham Shephard (Ex pilot) and his encounter with a UFO, Dr Susan Blackmore with the negative attitude & Lynda M.Howe who talked about cattle mutilations. There was a rep. from MUFON in America who showed how easy it was to cut fresh cow skin and how difficult (impossible) it was to cut skin from a mutilated cow. There was also a vet, who did not have any idea what he was talking about. There was talk of a round incision found on a cow, which he explained away as birds, pecking in a circle (This begs the questions, do birds have lasers in the end of their beaks and they must be very accurate to 'Peck' in a circle). This vet had no idea and just made a complete farce of the subject and was a total waste of time being on the program. This was an excellent program, and come on, lets see other programs of this standard.

18.1.96 - National News - 2 planets in our solar system discovered, that according to scientists hold water, therefore life 'Could' be sustained on them

18.1.96 - Discovery Channel - A.C.Clarks Mysterious Universe - Are Aliens Trying to Contact Us ?

23.1.96 - X-Files.

25.1.96 - In Advance Of The Landing, Ch 4.

This was a repeat of the same program shown a few months earlier and is worth having a look at, but a little way out for some.

27.1.96 - Unsolved Mysteries : I missed this item, as my cable guide was not up to date, but I hope to obtain a copy soon, and will up-date you on it when I have seen it.

29.1.96 - Discovery Channel - A.C.Clark's Mysterious Universe - Crop Circles.

Again a repeat and has been previously reviewed in a previous edition of this newsletter.

2.2.96 - BBC 1 News & ITN News at 10 : This related to the sighting on Jan 6 of the UFO near Manchester Airport. They featured other witnesses to the event from the ground and featured Eric Morris, Ufologist.

15.2.96 : Sky One - Sightings Special : This program was on for 60 mins and the first 20 minutes contained an article about the UFO encounter of Thomas Mantle, who allegedly crashed after chasing a UFO. The wreckage (Most of the large items) were secretly recovered by the U.S.A.F, and the rest bulldozed into a ditch and covered up. The investigators, using a metal detector, recovered some smaller parts of an aircraft which they hope to identify as coming from the aircraft. This encounter, has been on the tongues of many Ufologists for many years and it has become one of those sightings that has become a legend in Ufology fields.

RADIO.

18.1.96 - Radio Solent.

A group of Bournemouth students wanted to hear from UFO witnesses and people who have encountered aliens or have been abducted. They are/were making a documentary for their course work, which they eventually hoped to show at a local cinema when it is completed.

22.1.96 - Radio Solent - I am on radio.

radio Solent run a week of the X-Files including ghosts, crop circles (see 25.1.96) and UFO's. I was interviewed at Weston Shore (It wasn't half cold that day I can tell you as the icy wind blew straight off the Solent) along with a Prof. from Southampton University who had just returned from the Canary Islands after a space watch from an observatory on the island. This interview also followed the announcement that new planets had been discovered and the interview was centred around this, with me describing the UFO sighting that I had in 1982/3, about half a mile away. The interview went really well and both parties went away feeling rather happy with the interview. (The Prof. disappeared in the distance in his Porche 926, and my Lada, well thats another story... !!!!).

25.1.96 - Radio Solent - Reg Presley - Crop Circles.

This was an interview at the Devils Punch Bowl, near Winchester, with Reg Presley (formerly of the Troggs pop group... The Who !... No the Troggs !!!!) and Rob Allen of the Wessex Sceptics (well known crop circle hoaxing group in Southern England). Nothing new, but an interesting item to listen to.

26.1.96 - Radio 4 FM - Journeys Into Space - Gosling in a flap.

All I have to say about this is ... HELP HELP HELP !!!!!
Although I set my timer on the stereo, for some reason it came on 15 minutes late, and I only caught the second half. If you recorded it, please please send me a copy so that I can copy it and listen to the whole program.....

PRESS.

26.1.96 : Daily Mail : Thunder & Frightening.

Somalia : Thunder-like explosions in the sky above the breakaway African desert state of Somaliland are being blamed on UFOs. Officials, who claim children have died following the blasts, want the UN to investigate.

2.2.96 : Daily Mail : The UFO That Buzzed A Jet :

An Unidentified flying object overtook a British Airways passenger jet at high speed as it made its final approach to Manchester Airport, an official report disclosed last night.

The close encounter between the Boeing 737 and the wedge-shaped craft happened at about 40,000ft as the BA flight returned from Milan with 60 passengers.

The UFO described as having a black stripe down its side and a 'Christmas tree arrangement of lights, flashed past the jet with no sound and no wake.

Investigators remain baffled more than a year after the incident which happened on January 6 last year and was reported by both pilots on the Boeing.

3.2.96 : Daily Mail : A UFO ? Actually, It Was Just Our Alien Friends In The North.

This was a follow-up to the article that appeared the previous day in the Mail (see above). The article gave a bit more detail about the sighting and what I found interesting was the following : 'Yesterday, the findings by the Joint Air Miss Working Group said : 'There is no doubt that the pilots both saw an object. Unfortunately, the nature of this object remain unknown'. It added tantalisingly : 'To speculate about extraterrestrial activity is not within the group's remit'.

Mr Philip Mantle of BUFORA also gets in on the sighting and said 'This latest report is the first officially recognised sighting of the Silent Vulcan along the Pennines'. Mr Mantle said. 'BA are to be complimented for treating this incident seriously'.

8.2.96 : Southampton Advertiser : Is There Life On Mars...?

The advertiser went on the streets of Southampton to ask this question and here are two of the replies :

Morris Jones, 58, 'I think there must be something out there somewhere, there have been so many sightings. I wouldn't mind aliens visiting us if they were friendly and I think they must be because something bad would have happened by now if they weren't'.

Housewife Chris Smith, 35, 'I don't believe that there is life out there. I just can't see it. Sometimes you see things that aren't really there. Some so called UFOs could just be a light passing by. It would take a lot more evidence to convince me'.

13.2.96 : Daily Mail : Flying Sauce (Letter).

The problem with the theory that UFOs are time travellers from the future (Letters) is that they might frighten my parents to death, in which case, where would I be ?

Inhabitants from the nearest planets which may support intelligent life would take about 30 years to reach us at the speed of light. If anything could travel at that speed, a 60 year round trip for a quick look at us would be hardly worthwhile.

MAGAZINE REVIEWS.

1. Wales Federation Independent Ufologists Newsletter for 1995 - 96.

This edition kicks off with a review of the 1995 UFO conferences and a look at the good work that the WFIU is involved in with spreading the word (I wrote this on a Sunday afternoon...ED). There is a round-up of the forthcoming 1996 conferences & the newsletter is a welcomed arrival on the UFO scene.

2. EMUFORA Magazine. No 8, Winter 1995/6.

There is a look at the new planet discovered by scientists, that is in the constellation of Pegasus, near the star 51Peg. A very interesting article entitled : Public Relations & Ufology, How to interest People In The Subject of Ufology (I think some UFO researchers should read this one....ED). There is an update of recent sightings in Gulf Breeze, Florida, USA (So there is life after Ed Walters then folks....ED). There is also a look at the sightings in Bonneybridge, Scotland & the report that 3 tornadoes scrambled to intercept a UFO. Finally, there is a look at local sightings from the Midlands.

3. London UFO Studies : Skyline No 13 1996.

This fine publication is at the top of my top 10 listings of UFO magazines and is full of news, views, information & articles. I have known Roy Lake for a few years now, & you couldn't meet a nicer guy. This edition, No 13, is some what a weighty volume. Articles covered concern Black Holes - The key to Creation ?, Fake film or covert plan ? (Need I mention which one....ED?). There are 16 pages of sightings/cases being investigated/reported to the London UFO Studies Group, magazine reviews and a whole lot more. Get it or be square !.

4. Focus - Feb. 96. 8 page special.

Contains a 'UFO Special' supplement (Wowwww... Gee Wizzzzz) you might think...Wronggggg ! The item contained everything that has been written before & nothing new. The article takes a look at Kenneth Arnold, The Basel Sighting of 1566, The Roswell (Oh No ! Not again !!!!) autopsy, The hoaxer Adamski, The Hack Raymond Palmer & the astronomer Dr. J.Allen Hynek. There is a look at abductions, Betty & Barney Hill & The Betty Andreason case and finally a look at SETI. All in all, for us long in the tooth Ufologists...Boring.....

5. UFON UK News Update, No 7, Jan 96.

This edition has 7 pages of recent sightings/reports and a number of recent press articles. Worth a look at if you have a few coppers to spare.

6. UFO Magazine, Vol 11, No 1, Jan/Feb. 96.

A fine magazine from America, with up-to-date issues from America and around the world. The major articles take a look at a claim made by Michael Heseman that 'THE' footage is from the Socorro Cash and 'NOT' Roswell. The re-emergence of NUFOS (Northwest UFO Group) in America and a media watch. Also, a look at the Omni's magazine 'biased' Roswell report that appeared in the fall edition. A very good article looks at UFO sightings from the stone age & there is a look at overflights of UFO's over Los Almos.

7. Strange Daze. No 8, Feb 96.

Another good regional magazine, this time from Newcastle, England. A very good read and as ever packed with news, views, articles, reviews and more. This edition is of no exception & looks at sightings from the North East region & around Britain, British cattle mutilations, ET intelligence : An astronomers perspective, magazine reviews and a lot more. A great little read this one folks.

8. UFOMEK Newsletter, No 11 Jan/Feb. 96.

This is another of those regional magazines well worth having a browse through and is good value. There is a look at recent sightings reported to the group and a report from the Internet from NUFOS (Norfolk UFO Society), of a UFO caught on home video, that made the national media in 1995. There are also a number of press cuttings (Even some that I have not seen ... !) and more.

9. CENAP Report, No 229, 1/96.

I have found this to be an excellent read, although my German these days is very rough to say the least. This edition takes a look at THAT video (Need I say more !) and the film footage gets a real drumming. Also, there is a look at the alleged 'Japanese' alien photo, which in fact was the model alien used in the film 'Roswell - The Movie', and is currently at the Roswell UFO Museum. There is a look at a Tv program that the editor of the magazine Werner Walter appeared on, and a whole lot more. The only thing that I some-times wish, is that there are English supplements. This is 64 pages of epic Ufology packed from front to back cover.

the return of the wheatear.
(wheet-ear) - latin : corncirclus - investigatus).

During the summer of last year (1995) our Tv screens were graced with what was supposed to be one of the big events of the century, a real alien being dissected in front of the camera, this was the bait !

When I first heard of the autopsy film's existence, I could not accept that something so important as this was to be revealed while the powers that have tried to cover up the UFO evidence for the past 40+ years at least, just sat back nonchalant. I don't think I need to go into the details how Ray Santilli 'aquired' this footage. I am sure you know by now, however near the end of last year (1995), the cerealogist No 15 was issued and in it the editor, George Wingfield, came out with an account of the autopsy footage which I at least find more plausible. For those unaware of the recent revelations, I will attempt to enlighten you a little. First however, a little backtracking is in order.

Within the crop circle world, a number of for want of a better word 'expert' hoaxers are well known. Their names have been mentioned in many articles about crop circles of the past couple of years, Rob Irving, Adrian Dexter, John Lundberg and Rod Dickson to name a few. These crop circle deceivers have not confined their deceptions to just crop circles either. Irving & his friend, one Jim Schnabel (one time employee of the C.I.A), even released large illuminated balloons a few years ago over the nighttime fields of Alton Barnes. So dedicated are they in their attempt to deceive Ufologists and croppies alike, as can be seen in the crop circle Communiqué 2 video. They will go to great lengths to ridicule peoples beliefs. Enter Ray Santilli. Santilli has told so much nonsense about the authenticity of his film, that I will only skim across some aspects of his claims. For starters, one question to Santilli came from Colin Andrews, who asked what made him certain the film was genuine, to which Santilli replied 'I had no doubts when I saw president Truman'. To date, no footage of this event has been seen. Reg Presley and Philip Mantle were told the footage also showed the crashed disk and debris from the desert. Once again, no footage of this event has yet been seen (although this will soon be rectified as I understand). I could go on and on, but for me the most damming evidence comes by way of George Wingfields enlightening article in the cerealogist, when he asked Santilli if he knew of Irving and his band of Devious men. His reaction was quote from Santilli 'Never heard of them, got no idea who they are'. So George Wingfield informed him of their activities and he was even more puzzled. Once again he denied no knowledge of them or having any contact with them. George it

would seem has done his homework well and has evidence that John Lundberg and Rod Dickinson, not only knew Santilli at the time, but even did work for his film company in their capacity as, wait for it, Model makers, who specialise in foam latex dummies (Well I never !). As if to distance themselves from Santilli, Lundberg and Dickinson wrote articles in the Fortean Times and UFO Magazine, attacking the alien autopsy's genuiness, saying it would be quite possible to fake (Some truth at last !).

The autopsy film was released in this country last year, no doubt to coincide with the Roswell movie release which starred Kyle Maclachlan as frustrated airman Jesse Marcel. I recommend any one to find out more information on this money spinning deception & to read George Wingfields article in the cerealogist. This alliance, if true, between the circle hoaxers and Santilli, makes the autopsy footage, in my opinion, even more dubious than I thought in the beginning. I feel it is time to bury (or melt down as the case may be) this hoax. Whether their intention was to ridicule the original Roswell story, or just plain love of money and joy of fooling people I am unclear. What does matter is that we are all aware that this alien autopsy footage is nothing more than a diversion from the truth.

Last year, I tried to inform SUFOG readers of as many crop circles as possible and visiting & inspecting them where ever possible. I don't feel at the present time this serves much purpose. So when I feel it's necessary, I will inform you of anything outstanding or unusual that may occur in our crop field's. Finally, thanks to all of you who have passed on to Steve, how much they enjoyed the Wheatear column.
