## SOME ANSWERS TO QUESTIONS ABOUT THE BIBLE

Q. Awareness, we have a number of questions on the Bible from member Shirley G. (A long statement containing many questions is read)

A. This Awareness indicates that the letter be taken one point at a time.

Q. Okay. What does Awareness say about the physical Armageddon as it is spoken of in the Bible?

A. This Awareness indicates wherein this is completed and taken care of on the inner plane, the necessity for this manifesting upon the physical plane is lessened. This Awareness indicates there is still some possibility of the action spilling out from the inner plane onto the physical plane, but that even though there are build-ups and intensities and preparations for this, there are also certain changes going on in consciousness which tend to lessen the likelihood of this action.

This Awareness indicates at this time there is no definite way of predicting or projecting that which shall be in regards to this, or to the intensity of that physical Armageddon. This Awareness indicates this as related unto the speed by which consciousness can be changed, and that speed of change in consciousness is related unto communication factors.

Q. Is the knowledge which came to John and others the same source as Awareness information readings, Universal knowledge, Edgar Cayce and so forth?

A. This Awareness indicates the knowledge is present everywhere and can be available to anyone. The interpretation of that information as that which is unique to the entities who express that.

Q. Why then, is it said in the Bible that after that time no one else was needed to receive the information because God laid down his purpose then, (underlined) and no more was needed to be said?

A. This Awareness indicates this as an interpretation of the entity by the entity who was writing that portion of the Bible.

This Awareness indicates that you understand the Bible was not written by the pen of God. That the Bible was written by Priests and men who interpreted those laws which they felt were universal, and who told stories which they felt were symbolic and universal and meaningful. That any story taken too literally, whereby an entire lifestyle is based around, and is willing to kill and slaughter in order to live by a story, is in error.

This Awareness indicates that entities in reading the Bible for what it is can find great wisdom there, and can find answers to many questions. Entities who are willing to slaughter others in order to stick by a particular point which is

written in the Bible, in a particular verse, by a particular entity who lived three or four thousand years previously, such entities are in great error.

This Awareness indicates there have been many slaughters: there has been much slaughtering of emotions; there have been much difficulty and pain created through fanatic interpretation and fanatical application of Biblical verses.

This Awareness suggests that if you take the verse mentioned and apply that as an absolute fact, this would mean that for the next six-hundred billion years no one could say another thing, for it had already been written in the Bible.

This Awareness suggests that the Bible and the earth and the works therein by that time will not even be known or ever have been remembered. This Awareness suggests it is a question of just how literally you want to interpret the Bible. This Awareness suggests that when this was written, written for a small cult and a small group of followers, the statement was intended to let those followers know that they, the Priests, had finished their work and it was no longer necessary to write any more.

This Awareness indicates the Old Testament was written for the age of Aries, the new Testament written for the age of Pisces, that now there is time for a New writing and a new form of understanding to occur; that the old ways were based on form, the new ways are based on understanding and realization wherein each entity can have the opportunity to become one with God, can become one with the Father, with the Mother, with the Son.

This Awareness indicates that this Awareness brings forth not only a psychology, but a sociology and a way of looking at history--at the mystery of life, and does also bring forth a deeper understanding of self and of consciousness.

This Awareness suggests that this may be called religion, may be called cosmic science, may be called by any name; that the categorization is not necessary. But if you wish to put this Awareness and the messages into a category, that is your own choice.

Q. Are the stories written by the authors of the Bible codes to each other about what was happening, possibly written in numbers codes as explained in the book, City of Revelations, by John Mitchell?

A. This Awareness indicates this as correct in many levels; that there are approximately seven symbolic levels of many of the stories in the Bible. That there are definite numerological meanings to the sacred words which appear in the Bible.

This Awareness indicates that you understand the entire Hebrew language, the lettering system, both of the Hebrew and the Greeks, was at one time tied into numerological meanings and represented by Tarot cards. This Awareness indicates that the twenty-two letters of the Tarot being the letters of the Hebrew alphabet. That these also grew out of the sixteen Egyptian letters which relate unto Lemurian letters which also are symbols for philosophical concepts; that the Greek alphabet also is closely related unto the Lemurian alphabet. That all of these letters and numbers were at one time symbols for concepts; that the stories came forth from this.

This Awareness indicates an example: the card 'Strength' in the Tarot relates unto the story of Daniel and the lion's den; that the 'Magician' and the 'Empress', the 'High Priestess', these relating unto Adam and Eve and the garden. This Awareness indicates there are many levels of symbology; that this can be explored at another time.

This Awareness indicates that the four beasts of the Apocalypse, that the beasts in Ezekiel with the head of a man, the lion, the eagle, these as being related unto astrological signs.

That you understand the symbology of the Bible as being such that it contains alchemical symbols, astrological symbolism, historical symbolism, moral symbolism and rules, and it contains also spiritual and cosmic symbolism; that, in particular, it contains psychic or consciousness symbols.

This Awareness indicates the messages being given through these present interpreters by this Awareness are those which attempt to open up some of the symbolism for greater exploration and deeper understanding. For the mysteries involved in the symbols which have been taken too literally are such that there has been great confusion and tragedy. This Awareness suggests that you look at the Greek mythologies and visualize a culture or civilization which would take such mythologies as literal--actually visualizing such an entity as Mars or Apollo or Athene as sitting somewhere in the sky, doing all the things these entities did in the Greek Mythologies.

This Awareness suggests that these actions of personification of the planets, personification of forces and aspects of consciousness, are but poetic imaging and poetic symbolism. That if you wish to take them literally, that is alright, even as the child may take literally the spirit of Santa Claus.

Q. She goes on: "Is Awareness more or less described as a method of psychology rather than protesting to be a false prophet going against the Bible?"

A. This Awareness is not going against the Bible; is not professing to be a false prophet; is not professing to be a prophet. This Awareness is simply looking, and through the Interpreter, the Interpreter in contacting this level of Awareness is expressing what is seen.

This Awareness asks not that you believe anything that is given by this Awareness. But that if you do care to listen, to look, that there are indications which may assist you in discovering Truth; may assist you in discovering the nature of your own being. And as you look, you may discover an area within your own psyche that is aware of that which is Spirit and has nothing to do with thought, concepts, ideas or beliefs. And in becoming aware of that, you may wish to share with others, and in this manner may become an interpreter of Awareness yourself.

This Awareness indicates this may be classed as observation and interpretation.

This Awareness has no physical body, but is simply aware; and the awareness which is present, is present for everyone who looks deeply, without expectation or opinion being brought into the looking process.

Q. "Is the pain and suffering on earth because man is living under man-made laws rather than the Law of God?"

A. This Awareness indicates this as in the affirmative. This Awareness indicates the Law of God as that which is ever present. This as the Law of Karma; that man does live under the Law of Karma and therefore suffers certain pains when this Law is violated. This Awareness indicates that many of man's laws are in direct opposition and confront the Law of Karma.

Q. She concludes with: "I don't feel it is my fault because of the misfortunes of the earth, so am I supposed to live by the word of the Bible in the literal sense and reject others as the work of Satan? I understand what Awareness is saying, but the source of all spiritual explanations seem contradictory to the simple message that God speaks of?"

This Awareness suggests that you look within and seek the voice within, the voice of the turtle, the silence within; for none other can give you the Truth; others can only indicate the way. It is for the individual to find his or her own source; and in this discovery, there can be no violation of others.

This Awareness suggests that any spirit or force which speaks through to you which causes you to condemn, judge or violate another is not of a Divine nature.

CONCERNING ALL THOSE DEVIL MOVIES  
AND THE BATTLE OF ARMAGEDDON

Q. A question taken from a Wall Street Journal story recently that: "It's finally true, movies are going straight to the Devil," and it's a long article, and it's concerned mainly with how popular the Devil is anymore, and how suddenly this phenomenon has happened, it quotes: "Almost every movie company has five or six Devil movies in the works," says Alan Ladd Jr., Fox Film Division President. "Devil movies are the current staple, they've even eclipsed the Western in popularity all over the world." It goes on and on about how much money these Devil movies are making, but my question is: Is there any significance that these movies are suddenly so popular at this time, and is it correlated somehow with the return of Rhyee into Essence?

A. This Awareness indicates this relates unto the Battle of Armageddon which has occurred on the inner plane and which is having certain effects in consciousness.

This Awareness indicates that in the fifties there was the fad of conformity wherein all entities sought to be similar and to find the 'right mode of behavior' appropriate to the society. This Awareness indicates that in the sixties, in the early sixties and late fifties, there was the rebellion of the 'beatniks'; that in the mid-sixties there was the beginnings of the 'hippie' movement and the use of mind-altering drugs.

This Awareness indicates that in the seventies, in the late sixties and early seventies, there was the rebellion against the establishment; that this was also a rebellion against war and violence. That there was in the early seventies the movement toward pornographic movies, the taboos of sex being such that the doors were opened wide and all the hang-ups and problems and full array of sexual inhibitions and lust were being poured forth upon the hungry public who would accept such

This Awareness indicates that the pornographic period is now moving out, that the period of violence in the late sixties, the violence of the secret agent movies which showed the death of entities in a manner that was without feeling or heart; the movement from that into the pornographic levels and now the beginnings of monster and satanic movies; this as a pattern which taps into the pulse of the consciousness of entities and finds those areas and taboos and brings this out for entities to look at.

This Awareness indicates that there are problems which occur in relation to these actions, but that in the larger sense, the action of bringing out a taboo whereby entities may face their Devil, may face that which they fear; in a general sense, this is that which does open up certain deep sub-conscious areas in the consciousness of entities and can allow a cleaning process.

This Awareness indicates the Devil syndrome shall run for approximately two to three more years, and that following this there shall be an interest in how to move toward a consciousness level that understands the process of avoiding such forces.

This Awareness indicates the action of bring forth this kind of energy through movies does reflect what is occurring on the inner plane, and this shall trigger into those forces which have been spoken of by this Awareness--which have attempted

to bring about a structure upon this earth whereby slavery could occur with a few in charge. This Awareness indicates this being the anti-Christ movement, that the action of these movies being put out primarily to attempt to re-establish the polarity of the God and Satan concept in order to promote religions, the organized religions, so that they can sell themselves better.

This as that which will not function and will not work as is planned, but instead will saturate the society with Devil syndromes until these have been looked at, cleaned out and thrown out of consciousness as useless concepts.

This Awareness indicates that following this, the cleansing process of the human soul and spiritual teachings shall begin afresh.

This Awareness suggests that in the coming years the polarities may intensify for a short duration, that following the year 1978 these shall begin lessening and the movement toward the new Aquarian Age shall begin in earnest.

#### CONCERNING BIRTH-CONTROL BY ASTROLOGY

Q. L.A. of Ames Iowa writes: "In a recent mailing there was mentioned a certain berry for birth control. I seriously wonder how safe it would be for a person to take something which could possibly make her sterile for up to a year. All I can tell you for sure is a method of birth-control I use. It is the ovulation and astrological fertility method. There is a book called The Natural Birth Control Book, by Art Rosenbloom and Leah Jackson. Many have used this method with extreme success as it has proven to be 98% effective when used correctly. I have used it for a number of months and when I followed it, it has never failed. Perhaps this could be a method used as an alternative to berries, pills and devices. Would Awareness comment on that, please?"

A. This Awareness indicates this as an action which would be beneficial for many. This Awareness suggests that the astrological birth control system and also the rhythm system, being used together, as effective. That likewise entities can use Astrology for determining the sex of their child.

This Awareness suggests that entities who care to put out the effort, to move into and study astrology for this purpose or any other, shall benefit greatly. That the majority of entities would rather use a simple method of putting a pill in their mouth or some other factor for birth control. This Awareness suggests that though it takes a little more attention, training, study and research, the growth that shall come about from the study of astrology in relation to this shall be beneficial; shall be more beneficial in the long-range development of the entity. This Awareness suggests there is a place for both, for several methods.

#### CONCERNING THOSE WHO THINK THAT GOD "HATES THEM" AND SHORT-CHANGED THEM

Q. We had a letter from FW of McHenry Illinois which I shall read and then ask Awareness to comment upon:

"Dear Sir. I have an unusual problem which is: why don't I get the things that I want and feel I must have? I have spent many long hours at very deep meditation. I ask God to please help me, but He ignores me. I am convinced God hates me. When I ask to have people healed of their diseases etc. it generally works very well. When I ask for money to buy things that I need, a new car, for instance, I am completely ignored. I always have had a job but at today's prices I hate to go into debt for a thing, I really couldn't afford it. My question is, how do you go about getting prayers in reference to money answered? It is very depressing to know that God hates you. I have read books on prayer getting you what you want. I used every idea that I have heard of and everything that I could come up with, but it has been wasted, wasted time. If I don't get what I want before 1977, I am going

to ignore the existence of God. I am 57 years old so this is an old experience; I should say, one of many repeated happenings. I even hate myself at times. I feel that I can't be worth much to be treated like this. If you can find the answer to my problem, I will be happy to join your group. Yours Sincerely, F.W."

A. This Awareness recognizes that you would appreciate seeing the image of this Awareness bowing to you and begging forgiveness for not having given you that which you want.

This Awareness, however, does not give entities that which they want, but does give entities that which they need.

This Awareness indicates that in your particular headspace, there are certain things which you need much more than you need money and items. This Awareness indicates there are certain understandings which are far more important to you than the gratifications of the physical desires. This Awareness indicates that the time shall come when you have moved through your training and learned your lessons and have discovered the nature of your self and the fallacy of playing games with Divine forces which are part of your own self. The time will come when you will realize that these lessons, the understanding gained from these lessons, were priceless and that money could never have given you what you need.

This Awareness indicates that money cannot buy character, though character can bring forth that which is the physical needs. This Awareness suggests that your character is still growing and being built, that there are certain understandings in terms of what is occurring in forces that work behind the physical levels, and these understandings are close at hand in your psyche. When you fully comprehend these, then the physical shall be supplied.

This Awareness indicates that the Kingdom of Heaven is within; and that once you receive these keys to the Kingdom and enter therein, all that shall be added unto you.

This Awareness suggests that as long as you, as a single will, seek to gain personally, without regard for what you are actually doing, in order to gain; without regard for whether you actually need this; as long as you feel Divine forces owe you something, you shall find yourself butting your head against a brick wall.

When you are able to say 'Thy will be done', when you are able to become responsive to the needs of others, concerned about the needs of others, accepting whatever is given to you, asking and praying without complaint; when this occurs, you shall be given more.

This Awareness indicates that much of your Grace, that which is earned through good works, is being used up in complaints and self-pity. And when your complaints and self-pity cease, you also shall be able to draw from your Cosmic bank account for your good works something which is more useable in terms of tangible energies.

CONCERNING THE RIDDLE OF EASTER ISLAND

Q. There was a television program concerning Easter Island the other day and they call it the 'Riddle of Easter Island'. Evidently many years ago there was a massacre there of all the people living there; that huge statues were found mutilated and decapitated and the scientists have never been able to figure out what suddenly stopped all the action there, and how these monoliths were brought down the mountain to the edges of the sea. They have tried to duplicate it and they claim that its an incredible engineering feat that simply can't be done, even with today's equipment. Would Awareness please explain the riddle of Easter Island?

This Awareness indicates these were built with devices similar to the laser beam. This Awareness indicates this as associated with the Crystal Project. This Awareness indicates these devices built by those entities who were involved in the building of the pyramids, the airfields, the various stone structures around the earth. This Awareness suggests this as covered in the works of Von Daniken and others.

This Awareness suggests that the beings in building these particular statues were bringing forth a force relating unto their religion. This Awareness indicates that the forces of these statues being designed in their particular manner were such as were intended to protect the Island from invasion. For there are certain treasures hidden upon that Island, and these stones do serve to protect these.

This Awareness indicates that there are also spirits which inhabit the stone forms and serve as protective guards for this treasure. This Awareness indicates these spirits reside in another dimension; yet remain in these stones, in a level akin to sleep, a very deep sleep.

This Awareness indicates these also have a certain effect upon consciousness within this plane in maintaining the solidity of this particular plane to help prevent the de-polarization of the material levels of the atoms upon this plane.

This Awareness indicates that you understand in the early formation levels of Lemuria, there was no real solidity as is presently known. That the nature of matter at that time was akin to the difference between water and gas. This Awareness indicates that the earth in the early Lemurian times was more gaseous than physical, and that the statues assisted entities into moving into shapes and forms. This Awareness indicates this as also related unto actions whereby entities could travel from other realms in the universes and find a place to hibernate within a statue and could gradually develop a feeling for form, before entering this third dimensional world. This Awareness indicates that the statues at Easter Island were much later than these earlier statues this Awareness now describes.

This Awareness indicates the statues at Easter Island were brought forth for similar purposes, but after the earth itself had become more solidified. These statues being guards and landing pads for spirits.

#### CONCERNING THE COSMIC AWARENESS TRANCE HEALINGS

Q. My friend Mary F\_\_ is 87 years old and totally blind and suffering needlessly. She says people come through the walls at night and prevent her from resting. Her mind is clear, but her body is worn out. Will Cosmic Awareness please heal her and guide her into the White Light?

A. This Awareness indicates that you understand the healing may be given and may be felt by entities, and the message may be sent which allows the rational mind to understand what is occurring. But that the intensity and the depth of the healing also depends upon the Law of Gratitude: wherein you feel you deserve to be healed, to that extent you are healed.

This Awareness does not pick up any karma for you; that wherein you can do any action which allows you, yourself, to feel worthy of being healed, then indeed does this Awareness bring that healing to you. Your action of opening up yourself to the feeling that you really deserve to be healed is likened unto opening the door for this Awareness to enter. That wherein you wished to keep the door closed, you feel guilty, you feel unworthy, you feel yourself to be seeking something you do not deserve. That this as likened to opening the door only a crack and hoping Awareness shoves something forcefully into you, and then doesn't bother you any further. This Awareness indicates that wherein you truly wish to be healed, you may open the door

totally to Awareness by feeling yourself totally worthy of healing. And when this occurs the total healing shall transpire. This Awareness indicates it was for this reason that the suggestion was given for these readings that entities not only send \$35 for the energizers and for the trances, but that they give certain donated energies to others in need or to some organization that is serving others.

These donated energies be sent in forms of money or service or something useable and wanted by others, so that the one opening the door for healing feels worthy of being healed; this as the way to open the door wide and generously for this Awareness to enter.

Wherein you are not totally receptive, this Awareness can only give you a small dose of that which is needed.

This Awareness denies entities nothing, nor does it force rewards through closed doors.

This Awareness suggests you make yourself receptive to the healing given.

#### CONCERNING PREDICTIONS BY PSYCHICS

Q. A highly accurate psychic indicates a major interstellar vehicle landing will be publicized widely to the masses by the media by 1979. Please comment.

A. This Awareness indicates this may occur. Comments on the predictions of others may best be obtained by requesting the information from the original source. This Awareness will not fill in all the details of missing parts of predictions or philosophies, particularly when these are not seen as being accurate in essence. Many of these are potentially accurate or partially correct, or correct on certain levels only. This Awareness wishes entities to give attention to their own and others growth and development and to move levels of suffering into levels of communication and dynamic living. This Awareness suggests that much of the sensationalism of the predictions and the concerns for future experiences 50, 100, 1000 years hence are nothing other than escapism. This Awareness indicates that true escape from "What is" comes only when entities truly face "What is" without resistance; for only then is it possible to move on into new action. When entities can look clearly at what is happening they can then make a change in that action and move into new levels.

This Awareness suggests that action of ideals, actions of future possibilities, actions of science fiction, all of these are basically necessary in terms of long-range vision, yet is even more necessary to have the connection between where you are and where you are going very clear, so that you may move step by step along the path.

This Awareness indicates that wherein entities have their ideals so far out that they cannot possibly bring these ideals into their own reality levels, then these ideals become nothing but an escape for the mind--an action of soul travel wherein the body sits confined in its prison and the mind wanders on in its attempt to escape. This Awareness suggests that mind and body can come together, emotions and feelings can come together, and entities can be free on all levels by facing clearly that which is. For that which is, is essence and the essential of each moment moves entities step by step along the path, moving ever upward, ever more clearly toward freedom. The travel is slow but sure.
