A NEW YEAR'S MESSAGE
FROM COSMIC AWARENESS

(Excerpt from CAC reading 12/31/76)
Paul Shockley, Interpreter

Q. On this Eve of the New Year, does Awareness have a New Year's message?

A. This Awareness indicates that the psychic storm which has been mentioned, is now occurring and shall continue throughout the next several months.

This is that which is occurring within the consciousness of many entities and is bringing about a reconciliation of certain separative forces within consciousness. This Awareness indicates that many entities have already made these reconciliations within their own psyche. Many entities who have received these messages from the past from this Awareness have made these reconciliations, and during this time of the psychic storm, these entities shall find that they are benefitting greatly from certain events that are occurring. This Awareness indicates that others shall find difficulties, shall find turmoil, shall find their lives being whisked about by the ravages and chaos of shifting energies.

This Awareness suggests that the first portion of this year shall be that which is a trying period for some entities, while others shall simply be waiting for the storm to quiet, and shall be able to move without great difficulty through these times. This Awareness suggests that by summer, the entities upon this plane shall begin to realize that something definite for the good of all has occurred.

This Awareness suggests that in terms of your new President and the actions which shall follow through this administration: the entity as having certain ideals and being influenced by certain idealism which is reblossoming in the American lifestyle.

This Awareness indicates that the turmoils of the materialism which has been heavy upon this nation since the administration of John Kennedy, has been such that there was a great darkness on this nation; and the new President shall now reflect that idealism which is coming into bloom as a new springtime for this nation.

This Awareness indicates that the President, Carter, shall have certain difficulties in expressing the idealism which he is beginning to feel, and which the American people are beginning to feel, because there are still forces about him, and these forces will attempt to check and hold back his expression and his actions. This Awareness indicates that, however, the idealism shall win out to a large degree, and the nation within two years shall be shining as has not been seen for some time.

This Awareness suggests that in terms of the economic situation: that there shall be continued difficulties and problems, particularly related unto inflation; but that these shall not create great problems for the general masses--the difficulties shall be somewhat felt.

This Awareness suggests that by the fall of this year, entities shall begin to feel new energies and a new enthusiasm for life. And the difficulties of 1976 and the early part of '77 shall be seen as those times which laid the groundwork and prepared the way for a resurgence of energies which will be felt during the 1978 year.

This Awareness indicates the New Age groups and the energies of those who are ready for the new levels relating unto serving one another, shall find that 1978 is the year of the launch and blast-off of the New Age energies.

HOW THOUGHT CREATES YOUR WORLD

This Awareness indicates there is nothing that is true except that which you think. And as you thinketh, this becomes true for you. And as others think along with you, a collective level of truth begins to form and images begin to solidify and form around that truth and give support.

This Awareness indicates that thought is the builder, consciousness is the being. Thought creates the forms and shapes and images, and the life for these forms, shapes and beings are in the consciousness. The feelings, the sensitivities give that breath of life; the directed thinking determines the shape.

This Awareness suggests that your life moves from moment to moment and you create your world as you think, and you experience your world as you feel.

This Awareness suggests that you have the choice of feeling what you wish to feel from moment to moment. And being aware that your thoughts and feelings create your world, and that you have your choice as to what you wish to create, this Awareness makes you responsible for your life and sets you above the animals who are but the victims of circumstance.

This Awareness suggests that as you grow more and more aware and take on more and more consciousness, you also become more responsible for maintaining the balance and harmony in the Universe.

HOW THE MENTALLY ILL AND RETARDED CAN BE HELPED BY THE SUBUD LAHTIHAN

Q. What is a working ritual that will restore the mentally ill and the mentally retarded to health?

A. This Awareness indicates the lahtihan of Subud as being effective in this type of healing. That these entities using this system, the lahtihan, may be freed by allowing their energies to move from within; and being attentive to the movements without attempting to control those movements, expressing themselves exactly as their inner forces would like to express themselves. This Awareness suggests that you study the lahtihan of Subud in relation to this question.

CONCERNING OLD AGE AND THE
"TREE OF KNOWLEDGE"

(EDITOR'S NOTE: the following questions and answers are excerpts from a reading given to a 73 year old lady).

Opening Message:

This Awareness indicates that your action has been that which did have much sway left to right, and the pendulum in swinging you in these many rhythmic patterns, has made you one who is aware of many extremes and many hidden levels of experience, and capable of seeing deeply into the actions of others and of yourself. This Awareness indicates you have grown greatly during this period, and now may begin moving into a new cycle relating not to the swinging back and forth, relating not unto seeing oppositions and polarities, but rather in seeing that which is a cycle, or circle, that which includes all that is, and all that is coming in the next moment, and in the next, and in the next. This movement of the pendulum rhythm to the cyclic rhythm, moving into the circle and expanding ever outward in your awareness as that which creates your new being and leads you to your destiny.

Q. Will Cosmic Awareness please give me a physical diagnosis and Trance Healing for general old age?

A. This Awareness indicates this related unto the information in the opening message. That entities understand the Tree of Knowledge, the tree of good and evil, the tree of polarity. The action of the mind which does select and reject, as that which is a rhythmic pendulum type of action and does eventually lead to that which is the end of the beginning--which was the beginning of the entity needing to reach the end.

This Awareness indicates the Tree of Knowledge does lead to death.

The Tree of Wisdom is that which does flow ever in circles and does simply move from cycle to cycle, from level to level, never seeing an end, never rejecting one part of the cycle in favor of another part of the cycle, never seeking to knock a competitor from the spiraling staircase, but rather accepting the totality of the movement of all in their own way and in your own way as you move from cycle to cycle.

This Awareness indicates this Tree of Wisdom as that which shall lead to eternal life.

This Awareness indicates in terms of your present diagnosis you are at the crossroads where you may shift from the Tree of Knowledge, of selection of good and evil or rejection and acceptance of thinking in terms of polarities, you may shift from this into the Law of Cycles and continue existing or you may terminate your present life by continuing in the movement of the Tree of Knowledge.

This Awareness indicates wherein you see beginnings and ends and insist that there is the final analysis, the final word, the final right or the final wrong, that then there must be the final reckoning.

Wherein the mind is placed aside and the computer beast within your psyche is used as your tool rather than as a governor over you, then you have become that which is the Tree of Wisdom and may partake of its fruit: eternal life.

HOW OUR THOUGHTS CREATE OUR
GOOD HEALTH OR OUR BAD HEALTH

Q. I need a particular healing, especially for my eyes, sugar diabetes, loss of balance and memory now and then, and whatever information I should have. (My age is 72).

A. This Awareness indicates that entities understand all of these things are subject to higher levels of consciousness; that there is absolutely nothing in the universe that is not to some degree affected by consciousness.

This Awareness indicates that the higher the levels of consciousness acting upon the physical form the greater the chances of changing these forms. This Awareness indicates intense alienations and the intense projection of frustration of alien forces create illnesses whether they be from yourself or from another.

This Awareness indicates that entities around an alien force are capable of picking up and expressing those alienations as physical illnesses upon their own body. Wherein you become aware of this, you are capable of allowing those negative forces to pass on and of refusing to identify and latch onto any negative forces that would be detrimental to your health.

This Awareness suggests that in your case you are now moving into that area of consciousness whereby you may allow these forces to pass through you and not identify with them as being your own.

Understand these are not your bad eyesight, but that which is in consciousness and is being circulated among those who are of a certain age level which describe themselves as having an affliction at this age level. This Awareness indicates that you have latched onto that stream of consciousness which is claiming this concept and attached it to yourself. This Awareness suggests that you allow this to pass on and begin describing yourself as one of those persons who is capable of having good vision even into older age.

This Awareness suggests that you also now begin thinking not in terms of old age, but in terms of longevity and seniority, and in terms of how long you have been existing throughout the eons of time on the other side, and how little you have existed on this physical side, and how brief your physical life has been in the past, and how unnecessary it has been to slip over and spend so much time on the other side--that non-physical side--when you could have just as easily spent this time on the physical side had you not been so bombarded by the heavy cares and frustrations and intense sorrows and tragedies caused by the Tree of Knowledge.

Wherein you surrender to feeling, your life grows longer. Wherein you begin to close down through rejection and judgements, wherein the mind itself, is attempting to control you (rather than serve you and allow you to meet each experience without pre-judged or pre-determined attitudes toward it), then this control creates a speed-up in aging processes. This Awareness indicates that in releasing blocked energies, by relaxation, and by allowing the consciousness to experience the movements of these energies; these blocked energies, being released, shall move on, allowing the body the space to repair itself. This Awareness suggests that you may relieve many such blocks by stretching the muscles gently as you stand, lie or sit; that this be done gently a little each day without strain or sudden jerking movements.

This Awareness indicates the proper attitude, the attitude of constant surrender to attentive awareness levels, observing closely with an open, awesome attitude, rather than a closed pre-determined attitude, allows you to meet such experience in a high level of discernment that does not create blocks and frustrations which cause stiffness and old age. The entity does flow with the changes and allows these forces to flow

like water through the experience of life and does not create polarized energy blocks like ice crystals which can stifle the life force energies.

Q. Will Awareness now perform a healing for this entity?

A. This is now in the process of melting that which has been crystallized into that which you have called yourself. In melting all those crystals there is that which is likened unto a flow of energy moving from magnetic alignments into that which begins to shower as light, as light that glows and discharges its polarities in the areas of the cells about. This Awareness indicates that you understand you are being depolarized somewhat and are moving more into the area of life-giving spirit. The anti-matter or spirit filling your body and soul is incapable of judgement and incapable of division, separateness, or of excluding anything at all. The polarity which shall be left remaining as that which shall be only enough to allow you to keep your physical form upon this plane. This as that which shall gradually become a reality, moving slowly into actuality so that you need not burst into light and ascend immediately. This Awareness indicates this as appearing now and this as having occurred on the etheric level and as filtering into the cells of your body at this time; this shall be felt within a few weeks and shall grow stronger during the next two years until you realize that you are a totally New Being, made up more of light energy than of physical matter.

ASCENDING INTO THE LIGHT BODY

Q. Will Cosmic Awareness please give me specific directions as to what I can do when I am healed to carry out the will of Cosmic Awareness, and can I ascend in my light body in this life, and will Cosmic Awareness please guide me?

A. This Awareness indicates this latter part of this question has been previously answered, but you may ascend at any time in your light body wherein you are capable of moving into that feeling level far enough to experience totally without judgement. The judgement is that which creates the polarity which forces the atoms of your form to become dense matter. This Awareness indicates that the total elimination of all judgement, all feelings of separateness, and self would indeed create that which is the Light Body, and you would ascend into the third level, dissolving in light before the eyes of others.

This Awareness indicates that as you may not wish to move this far, this quickly, you may wish to continue your physical existence while also tripping along merrily in the spiritual realm, near the levels of light energies; that this balance-point between physical and spiritual as that which is a very enjoyable state. This Awareness indicates that this as that Nirvana level which entities have often sought to experience. This as also that which is the garden where entities are between spirit and matter, between life and death, between heaven and earth.

This Awareness indicates that wherein you ascend totally into the light body and become light, there is no physical form remaining on this plane for any other entity to observe. This Awareness indicates wherein you wish to operate on higher levels without losing this plane, then there must be that slight, very slight action of the Tree of Knowledge which says: 'you are this, but not that', creating just enough division wherein you may remain physical, at least part of the time. This Awareness indicates this may be done by others who are probing and prodding you, creating certain areas of friction which does also help you to remain physical.

This Awareness indicates entities may be depolarized totally in the consciousness and in the anti-matter, spirit level of themselves and may still be held in the physical by other physical beings around them. This Awareness indicates this as that which is related unto their karma in which they are intended to assist in creating the space for raising vibrations for others. Your Light Body as that which is flowing

along with your attention and your sensitivity to levels of feeling.

This Awareness indicates feeling as that which leads toward this Awareness.

This feeling level of experiencing is that which opens the door to the Light Body; that the discussion of the experience or the planning for the experience are several steps away.

Q. Will Cosmic Awareness please give me specific directions as to what I can do when I am healed to carry out the will of Cosmic Awareness?

A. This Awareness indicates that when you find yourself moving into the spirit realm, you shall also find yourself reaching out and sharing and touching others who come to you, and giving that spirit and light which you have so that they may light their lamps as well. In this manner you become a dispenser of Awareness, a giver of light to many.

Q. Will Cosmic Awareness please help sell my house NOW so we can move into a beautiful, safe, white neighborhood?

A. This Awareness indicates that you look at the polarities that exist within that action. That there is this stipulation that must meet that stipulation which is confined within another stipulation. This Awareness indicates that all of these are those which you have created as resistances or desires to something. This Awareness indicates the resistance and rejection of this in favor of the desire and this much of it as that which is an example of the polarity which has created that which is your physical.

This Awareness indicates that wherein you wish to have a different kind of life you must first accept without any rejection and realize that you could be forced to remain in this present environment forever as your personal hell, and may as well make the best of it or even learn to enjoy it; or you may perhaps consider it heaven; for there are indeed other hells worse than this one.

Wherein you are capable of turning hell into heaven, then you may move into another environment, another place, according to your visualization which follows your change of attitude.

This Awareness indicates the attitude as that which creates the world for you and your reality.

Wherein you climb to a higher attitude, this likened unto observing from a higher altitude whereby you are capable of seeing things on a broader scale; through this new attitude or altitude, you are capable of moving more easily from place to place than those who are battling like ants crawling through a jungles of grass, battling the forces of details, likes and dislikes, desires and frustrations. By shifting to a new higher attitude, likened unto the eagle soaring, an entity soaring high above can see an overview of life. And may move more easily to another place.

This Awareness indicates the eagle is not bothered by the grassy and wooded area, yet the ant in fighting the details does struggle to move only a small portion of space. The attitude that has the viewpoint of the ant or the attitude that observes, likened unto an eagle soaring high above, does determine your feeling when your attitude can not accept anything without fighting it or rejecting it, and is capable of realizing this could be heaven or hell and that wherever you are shall be your home, then indeed you have become the eagle and soar above all troubles and problems.

The mind is a place of itself and can make a heaven of hell or a hell of heaven.

Q. Will Cosmic Awareness please help me so that money will be provided so that I can live in freedom and dignity?

A. This Awareness indicates that this as that which shall be given to you at the time that you can accept yourself as you are with what you have. This acceptance may be only from a moment-to-moment action whereby you can accept yourself as you are and where you are; those accepting moments will bring a small portion of reward to you. As these moments extend into larger and larger moments wherein you are spending more time being acceptable to yourself, accepting your role as it is, making the best of what you have, with what you have to do; as you make these moments longer, the energies which come to you shall increase and allow you to have more with which to work and to do that which needs to be done. This Awareness indicates this as related unto the Law of Gratitude, which no one has been able to change, and which states that energy that has been given receives its certain reward. This Awareness indicates this reward is appropriate to that which has been given in relation to the quality, quantity, attitude and the motive behind the gift of energy.

This Awareness indicates that you are now on the path toward greater understanding and shall find your health growing stronger as the weeks pass. This Awareness indicates that you must tune into your feelings with great attention and avoid judgements of yourself or others. In observing and discerning without judging, rejecting, secluding, or excluding you move more and more into the realm of the spiritual light forces and away from the crystalized forces of the physical body. In those light areas, attitudes become the master physicians of your New Being.

CONCERNING THE INFLUENCE THAT MUMMIES HAVE TODAY

Q. We have another question from a member: "Was reading Predictions for the Aquarian Age' by Paul Shockley, when I came across a most confusing statement, which read, quote: 'Mummies in suspended animation are the soul or unconscious mind of humanity.' Unquote. Now I would believe that mankind is influenced by these mummies, but are we actually possessed by them? Do we possess our own soul and have the privilege and dignity of direct communication with Awareness?"

A. This Awareness indicates this as in the affirmative. This Awareness suggests that the nature of the mummification process, the nature of the psychic energies being emanated by these mummies, may be likened unto a base chord in a symphony.

The symphony, for instance, being that which is the key of C, upon which the entire symphony rests. This Awareness indicates that the freedom of entities to move around as notes within that symphony, to carry on their melodies as that which is possible, yet, the symphony itself remains in the key of C. This Awareness indicates that when the symphony finishes, it returns back to its source, and ends on the key of C.

This Awareness indicates that the chords, the notes, the overtones, the harmonics involved are those which dance about and carry on in their freedom. This Awareness suggests that the establishment by Ra-Ta of a certain harmonic vibration through the hypnotized entities programmed to spew forth symbols into consciousness: symbols designed to expand consciousness; symbols designed to lead entities into an awakening, into an action which brought forth greater awareness; into an action which brought forth certain intensities that led to an evolving state that led to an organizing state of consciousness which did, in fact, bring about a coalescing known as the modern civilizations; this action being programmed into the mummies and released into the inner planes for entities to tap into and tune into as a source of ideas and inspiration, and as a source of motivating force. This as that which did bring about the movement of civilization in a general sense.

This Awareness indicates that the movement of a theme in music may be seen as beginning with the first five notes. The first five notes create a situation which influences those which follow. This Awareness indicates that the more notes which

are added, the fewer the possibilities of themes; for as notes begin, the accumulation of notes eliminates the choice of variation. This Awareness suggests this as likened unto taking a step: When you start in one direction, the possibility of moving in others is lessened with each step in that direction. This Awareness suggests that in terms of the mummification action, the energies may be likened unto those mummies being placed in a state of suspended animation, dreaming dreams, wherein your civilization is that dream and the experiences of that civilization are being molded in part by certain key forces which emanate through the reincarnated energies of those mummies who now, likened unto astral forms of a dream, are in fact in physical bodies moving among you as certain entities in the physical plane.

This Awareness suggests this as a difficult concept for many entities to understand. That you understand there are parallels in consciousness; the physical plane viewed from another dimension is but an imaginary level and the other dimension is a reality; yet, from the physical plane, the other dimension may be seen simply as an illusionary or hallucinatory level of consciousness. This Awareness indicates this as a matter of viewpoint, which of these points of observation is considered to be the reality.

HOW TO MAINTAIN POISE WHEN YOU ARE BEING "RIPPED OFF"

Q. I have one question in relation to Lesson number 7 that was given. Awareness was speaking of not concerning ourselves with enforcing law. How would this apply to a business situation where someone has ordered your merchandise and then refuses to pay for it?

A. This Awareness indicates that this as a problem of relationship. This Awareness suggests that the motive not being one wherein you set yourself up as a law enforcer, but being one wherein you set yourself up as a partner in a relationship whereby the relationship must be kept clear and whereby you can assist and teach that entity lessons in relationship; whereby your motive is not to enforce that entity into following your rules, but rather to assist that entity in understanding that the nature of partnership and the nature of agreement is such that it cannot be broken without consequences. This Awareness indicates this as related unto commitments wherein an entity creates a commitment and then walks out on that commitment. It is as important for the other entity who is involved in that commitment to defend his rights and to inform that other entity that he will not allow that commitment to be broken.

It is the duty of entities to one another to assist each other in understanding that commitments of this nature are to be taken seriously if they were given seriously.

This Awareness indicates wherein this is not done and an entity simply allows the other to walk off and not follow through on his or her commitment, this may be permitted but may lead to karmic relationships having to be resolved at a later time. Either way, this is sufficient.

This Awareness suggests that your relationships with entities can be resolved more quickly by communicating, rather than in attempting to enforce the law. But if the enforcement of law is the only way to communicate, then do so, for that entity may only communicate when the law demands that the communication be restored.

This Awareness suggests that It is not telling entities to avoid any form of rules and law enforcement, but is setting a priority for communication as being that which is most important, and the enforcement as being that which is least important and as a last resort.

This Awareness indicates the future Police Officers of today will be called Peace Counselors and shall be more involved with communicating and helping entities in trouble to communicate with each other than in attempting to enforce laws.

DOES COSMIC AWARENESS
HAVE A SENSE OF HUMOR?
(Some fan mail for Awareness)

Q. I realize time is running out. We have two letters from two different New Age Groups. There isn't any specific question. Could these two letters now be read?

A. This is in the affirmative.

Q. The first one is from 'The Aquarian Guild' in New Zealand. They write:
"To Cosmic Awareness. Please delete us, the Aquarian Guild, from your mailing list. Your interpretations may be very interesting to some, and no doubt a necessary trip for you, but as artists we find your presentation, your deliverance devoid of human warmth, humor, love and innocence. It's got the dry arrogance of the computer. This is a living Universe, and life is a ball. Don't put frowns on peoples' faces. Who are you fooling, anyway? Your lectures are a crushing bore. But good luck all the same, and we wish you well on your journey."

The second letter is from Mr. Leonard Hascall, of 'the Law of One' in Forest Grove, Oregon. And an excerpt from his letter:

"Recently I received a copy of your "Revelations of Awareness" in which you requested comment regarding the manner in which Awareness speaks through the various interpreters. I think the manner is beautiful. These are not meant to be directed to the human intellect so much as to the soul. Although the mortal intellect may quickly devour many facts, these Awareness messages are offered as bits and pieces of nourishment for the soul. The Awareness messages are worded in a manner to discourage interference of the human intellect. That the inner mind of the spirit may be stirred, awakened, and lovingly exercised, that it might grow and expand toward higher horizons of expanded awareness. Even though the human intellect has been trained to function with little patience, there is little wisdom in trying to quickly devour the Soul-Food of an entire lifetime in one meal. Those who will exercise a little patience, a little contemplation, a little meditation relative to the Awareness messages, will soon personally experience a little awe, and lots of gratitude--just because they are, as well as how they are presented." (End of quotation)

A. This Awareness wishes entities to understand that for an Interpreter to move into and serve as a channel for this Awareness, the Interpreter must place aside emotions, must place aside his own or her own ideas and beliefs. The Interpreter must place aside feeling. That an entity can express warmth and feeling and emotion and ideas, yet these things can also color that which is being presented.

This Awareness suggests that It does see the humor in life, but also sees the tragedy upon this plane. It does see and experience the warmth of Love, yet also sees and experiences that coldness that entities feel toward one-another.

This Awareness indicates that in order to communicate clearly that which is essential, this Awareness must communicate in terms that strike through without being colored by excessive emotions, feelings or beliefs. And the information this Awareness gives is for you to take according to that which you wish, for this Awareness does not force its Information on any. This Awareness simply presents Its observations through this channel, and through others.

This Awareness wishes you to understand that you need not accept the information from this Awareness through any particular channel, for this Awareness expresses Itself also through many channels: This Awareness expresses Itself through artists,

through the works of art, through dancers and the dancers which they perform, through musicians and the music which they give. This Awareness gives its information also through drama and the actions and the dramatic presentations. That this Awareness express also through the works of scientists, and researchers, through politicians, through business people, through your own channel, through your neighbor's channel, through your husband's channel, your children's channel, through your wife's channel. That this Awareness also expresses Itself through birds, through chickens, through rabbits, cats and dogs. This Awareness expresses Itself through flowers, trees, grass, through wind, and through the storms that blow.

This Awareness expresses Itself in many ways, and you may listen to that channel which you are capable of hearing and capable of accepting.

Those who wish to receive information in vibrations, in tones, in music, may find that channel. Those who wish to listen to this Awareness through the politicians, through the governments of nations, may find some channel. And those who wish to listen to this Awareness through this channel are welcome to do so.

This Awareness suggests that all entities may carefully listen to their own channel and find a source of information within themselves that brings forth the vibrations of this Awareness into this outer plane which may be given to others who would accept and appreciate this communication.

This Awareness indicates that essentially the use of this particular channel and the messages being in this particular way are for the mental and conceptual levels of consciousness, wherein entities can clear out their mind, clear out their psyche, and reconcile certain concepts which have long been in error and which may be brought into harmony with Universal Forces. The channel being used at this time, this manner, is for the purpose of working with the mind and with the ideas. That there are other channels which this Awareness works through that deal with emotions, feelings, and other levels.

This Awareness indicates that, in general, this Awareness is working through each and every entity upon this plane wherein there is an opening allowed, and this Awareness can express Itself in any way through such a channel.

WHEN YOUR ANIMAL DIES

Q. Please tell me about my father and mother who have gone on. And are my two previous dogs with them?

A. This Awareness indicates in relation to your father, that this entity as having moved to certain high-level vibratory rates wherein he has begun to discover through re-examining his life on this physical plane, certain lessons which have been thoroughly digested, and that this entity as preparing now the reprogramming of himself for another life upon this plane with the new collected information that he has learned from this previous life.

In terms of your mother, that this entity as not having moved quite that far in the sense of being ready to begin re-programming, but that this entity as having moved into somewhat higher vibratory rates wherein she is seeing things even more clearly yet. She is busy digesting all this new information.

This Awareness indicates that the animals mentioned not seen on this level, that their energies have been returned to other sources. This Awareness suggests that you read certain information in the works of Percival, under the title of *Thinking and Destiny regarding the energies of animals and the passing over.
