Awareness

#78-8

Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

(MANIFESTING THE NEW AGE)

YOUR HELP REQUIRED NOW TO MOVE SPIRIT
INTO FORM SO PLANE CAN BE TRANSFORMED

(An address by Cosmic Awareness to Its Ministers of the Aquarian Church
of Universal Service, Feb. 12, 1977. Paul Shockley, Interpreter)

This Awareness indicates that the actions which are now occurring in this place, with these entities present, as that which is the culmination of many actions wherein many entities have been led to move into certain high levels of relationship with one another, to come together in an action which has been indicated for some time previous.

This Awareness indicates these entities herein present and those others who are to be involved in this action shall find themselves moving into closer harmony, closer understanding, closer in terms of co-creative action and shall find that they are working as a unit in an action that begins to emanate and flow and bring forth major levels of light and vitality and wisdom to other entities. This Awareness indicates that this light shall emanate, shall radiate and shall begin to spread to other areas, and in this action a field of light shall begin to develop.

This Awareness indicates that the purpose of bringing these entities together, the purpose of bringing that together which is the Aquarian Church of Universal Service, is to bring into action, to bring down onto this plane to manifest and to put into practice those theories and philosophies and ideals that this Awareness has been feeding to this plane for some thirteen years.

This Awareness indicates that the actions of Cosmic Awareness Communications as that which is to provide the philosophical expression, the understanding, the ideals, and to give forth the abstract wisdom whereby entities can begin to understand themselves and their universe more clearly.

This Awareness suggests that in the action of the Aquarian Church, this be one of application, wherein the application of these principles are plotted upon the physical plane and wherein the application of these principles is made such that entities can begin to experience in reality levels that which has been spoken of in previous times.

This Awareness indicates that it has been given that the Aquarian Church shall be a church which is giving support to other churches, to other groups. This Awareness indicates that the support which is to be given is that support which assists in realigning those organizations, those churches which have veered off the course.

This Awareness suggests that down through the ages this Awareness has watched entities upon this plane moving from place to place searching for purpose, searching for meaning, finding false values, discovering areas of greed, lust and power, pursuing self-interest, only to discover self-destruction.

This Awareness has watched nations rise and fall, has watched civilizations grow and diminish, has watched cultures come into being, flourish and been blown away.

This Awareness has watched entities as they discovered great truths and then watched these truths being sold on the market place at the price of their souls.

This Awareness has watched entities as they moved into levels of awareness, as they have moved into the discovery of the truths, as they have moved into efforts to give forth their understanding, as they have communicated with this Awareness and have attempted to re-communicate this with others, and has watched this effort by many as they attempt to give forth their vision to the masses, and has watched the masses take this vision and distort this vision into religions which condemn, which become a means of manipulation which becomes the efforts of a few to control the minds and purses of many, and has watched these religions make war upon other religions which essentially were begun by the same source of information.

And this Awareness has watched these conflicts grow from time prior to any form of written history upon this plane, has watched this repeated again and again. This Awareness indicates that at the present time many religions again have distorted the teachings of those who have been in touch with higher levels of consciousness, and again these religions are often condemning, creating guilt among their followers, creating feelings of hostility toward others, toward other religions, and in general fostering (and festering) that which does make war between thoughts, ideas of consciousness and entities.

This Awareness suggests that at this time, this Awareness has moved in close upon this plane to communicate with entities, not to change the old religions, not to destroy the old religions, but to realign their directions, their navigations, to assist these groups and religions as they navigate toward their Source.

This Awareness suggests that the action of the Aquarian Church shall be to assist in communicating certain principles which allow entities to see the fruits and the results of these principles when applied.

This Awareness suggests that the action of the magazine is according to your own discretion, yet this Awareness suggests that a magazine of some type be presented for the Aquarian Church, that this magazine be one wherein this Awareness can communicate with entities upon this plane, to assist in bringing about that New Age, that Kingdom which has been promised whereby entities upon this plane shall have freedom from want, freedom from fear, freedom to live in harmony.

This Awareness indicates that much has already been given whereby entities can think about these principles, can think about these abstract realms, that this Awareness now wishes the Aquarian Church to present some form of magazine or newspaper or newsletter that goes forth unto entities and does begin to bring down unto the physical plane those concepts, those principles, those ideals and those abstracts which have been indicated for the Aquarian Age as a social lifestyle.

This Awareness indicates that time is growing short in many ways upon this plane, that there is a great need for focusing which must occur; for without that focusing there are those entities which can very easily move this energy into an entirely different direction.

This Awareness indicates that the year previous to this was a great turning point in the direction of power upon this plane. This Awareness indicates that certain forces were deflected, and the actions of those who would have set up a world dictatorship have been at least temporarily set back, and now is the time wherein entities have the opportunity to carry forth the revolution which was begun in the founding of the United States of America, wherein certain principles which were begun at that time are now carried through, and other principles may be added to these wherein all men and women and children upon this plane find themselves the inheritors of freedom.

This Awareness suggests that it is time for entities to come together, to work together, to add their energies together, to think deep, to look deep, to cease in efforts of escapism, to see what the priorities are, to see what the urgencies are,

and to ask themselves and each other: "What can I do to assist in bringing in the New Age, in bringing in this new Space Age Society?"

This Awareness indicates that the efforts to bring this new Space Age Society into being can be viewed as difficult, but this is not necessary. This Awareness suggests that all that is necessary is that entities remain open, communicate clearly, respond to each other and respond to urgencies which can be felt and seen, and communicate these urgencies to one another.

This Awareness suggests that in terms of the financing of this action that you not concern yourself greatly with where the money shall come from; that you allow this Awareness to speak to entities regarding this, and that these entities shall feel the urgency and shall participate in the action wherein they can see that something is actually being accomplished rather than abstract concepts being discussed.

This Awareness suggests that this is not necessarily the magazine in which you are presently concerned with. That the choice is yours. That the magazine can be combined with this action or can be through some other form of action. This Awareness indicates that if the choice is that this Awareness may communicate with entities through this magazine or through another magazine through the Aquarian Church, this Awareness suggests that the newsletter, magazine or newspaper contain a message from this Awareness in each issue, and that further explanations of the progress may be given; that the story which is being channeled through this Interpreter may also be included.

This Awareness indicates that there is an alchemical in this imaginary story of the three ships. This Awareness indicates that the ship as a logo for the Aquarian Church is by no means an accident, that this is a symbol which is very ancient and has its symbology as being that of the soul as it sails through time and space.

This Awareness indicates that you understand also that the soul is the imagination, that you understand also that the three ships, the ship known as the Goodship being that which is the addressor; the ship which is the merchant ship, which is the acquisition aspect of the soul, and the Friendship that which is the associating aspect of the soul, that part which communicates with other aspects of the universe; and the Enterprise, that which is the individuality which searches for being, searches for its Source. These three aspects make up the true soul, and the action of having a story based around these qualities is that which communicates deeply to the subjective, or the subconscious mind of entities, to allow a unification to take place between these subjective levels and the conscious levels.

This Awareness indicates that the movement of the Aquarian Church symbolized as a ship is that which is assisting in a navigation process whereby many of the religions which were based upon spirit, but which have moved into form and formality, again be reoriented to sail through the straight and narrow passage that leads from the Piscean Age into the Aquarian Age.

This Awareness wishes entities to understand that the magazine, the Aquarian Church, the United States of Awareness, all of these projects are but the form and are not the spirit; yet, the form is that which is necessary for the spirit to enter and have its effect upon this plane.

This Awareness indicates that the cup carries the water, yet the cup is not the water, yet the cup is necessary for the water to be carried.

This Awareness indicates that it is essential, it is necessary in order to bring about changes upon the physical plane, to move the spirit through form; it is the responsibility of entities to create and hold those forms long enough for the spirit to have its effect.

This Awareness indicates that as these forms are held and the spirit begins to move through these forms and has its effect upon this plane, other forms shall be created

and shall pick up and hold and convey the spirit. This Awareness indicates that as likened unto a great fountain which is being given and is pouring forth upon this plane, this fountain being that which pours forth anti-matter, which pours forth spirit, which pours forth the waters of passion; and whereby entities may come with their vessels, with their forms, with their organizations, with their concerns and their ambitions and their dreams and hopes, and whereby these may be filled and whereby these may be touched and vitalized with this spirit, with this water. And in this action of spreading the light, the light of Akasha, a new world can begin to be nourished from these waters and new forms shall appear.

This Awareness indicates the choice of how entities wish to present this particular magazine is yours, but this Awareness suggests that within the Aquarian Church a magazine be created which allows a focus whereby this Awareness can communicate with entities upon this plane.

This Awareness indicates in the particular magazine which this Awareness would communicate, this Awareness will give guidance to entities upon this plane whereby trade centers may be set up, whereby counseling services may be set up, whereby communal relationships may be created in such a manner that a sharing occurs, whereby entities may begin to work together to do those things that they enjoy doing, and in doing find their needs supplied.

This Awareness indicates that much information on this has already been given, that there has been that which this Awareness refers to as the United States of Awareness, whereby entities can co-create and work together without the medium of money exchange, and yet, whereby all entities prosper and benefit greatly--more greatly than wherein money is being used and controlled by a few.

This Awareness indicates that the Aquarian Church and entities involved have been asked to serve one another, that this action of entities serving one another is such that all may win and none may lose. This Awareness indicates in the old ways wherein competition reigned there were always those who lost and those who won. This Awareness indicates that it is no longer the fashion to glory in your victory over the loss of another.

This Awareness indicates that any entity who finds his security at the expense of another is not in the accordance with the will of this Awareness; that any entity who can work with others, and through co-creative action assist himself and the other, that this is in accordance with the will of this Awareness.

This Awareness indicates that the energies upon this plane are growing and changing in such a manner that the old ways shall no longer profit. This Awareness has watched for eons of time and has watched entities benefit at the expense of others. This Awareness has watched the forces of greed, the forces of power as they violated and destroyed others and grew more powerful.

This Awareness indicates that these times are over; that now there shall be no force of power that can violate others without being caught in a whirlwind and brought into the front and into the focus for all of consciousness to look at, to observe and to bring back into realignment.

This Awareness indicates that in terms of what projects shall be brought forth, that these projects shall be such that entities who become involved shall profit tenfold the amount of energy that they put into the project. This Awareness indicates that the entities who become involved in these projects shall find themselves growing in levels of responsibility: and in giving service to others, and in finding association with others, and in finding a purpose and direction in their own lives which gives greater meaning to their lives than they have ever previously experienced.

This Awareness indicates that this action of becoming involved in these various projects shall assist in creating a new world, whereby not only the entities that shall follow, the children and the grandchildren shall benefit, but the entities present and living today who associate with it, these also shall benefit.

This Awareness indicates that each of these projects shall be brought into greater focus in further readings and in further messages relating unto these correspondences. This Awareness suggests that in terms of the magazine, that the articles contained within the magazine may be of general interest and of broad scope, that the particular message which this Awareness would convey shall be presented with each issue and shall bring forth the methods by which the new Space Age Society may be made manifest upon this planet.

This Awareness indicates that for many years you have struggled and worked to be responsive to the requests of this Awareness. This Awareness indicates that it is now time for others to begin putting in their energies and responding to these actions. This Awareness indicates that it will not be much longer that you shall be in great need and find such difficulties in continuing the response to the requests of this Awareness. This Awareness suggests that there soon comes great benefits which allow you to have the funds, the means and the energies whereby you can begin and carry forth the manifestation of the New Age upon this plane.

ED'S NOTE: The first issue of the magazine Awareness requested in this reading is just now off the press. It contains numerous New Age articles, messages from Cosmic Awareness and an article by Paul Shockley, assistant editor and trance Interpreter for Cosmic Awareness. C.A.C. members are requested to support these beginning actions of the Aquarian Church of Universal Service that must be energized if the New Age is to manifest upon this plane on schedule. A subscription to their new magazine, LIGHT will keep you informed on these important projects that YOU can participate in as Spirit is moved into form to bring about the changes that must occur on the physical plane. The first issue also contains information on the proposed new money system and a New Age credit union for entities on this plane. Additional information and the "Cosmic Awareness Co-Creation Bond of Freedom" (an offer to join with Awareness to help manifest the New Age) is enclosed with the magazine. Subscription rates to LIGHT Magazine are \$9.00 per year or \$5.00 for six months. The address: Aquarian Church of Universal Service, P.O. Box 40083, Portland Oregon 97240.

For those who do not wish to subscribe just now, a copy of the historic first edition of LIGHT magazine is available for \$1.25, which includes postage and handling. Available from the above address or from Cosmic Awareness Communications, PO Box 115, Olympia, Wn.

MORE ABOUT UFO'S, "SUPERNATURAL PHENOMENA", THE HOLLOW EARTH ETC.

Question:

Member D.G. asks: "What were the human faces of gigantic proportions which were seen floating by the object glass of the telescopes by a number of reliable sources in London one summer in the mid eighteen-hundreds? Did these profiles have anything to do with a most malignant and fatal form of asiatic cholera which was raging through London one summer in the 1800's?"

Cosmic Awareness:

This Awareness indicates that there are, upon your plane, certain entities: these particularly beneath the surface of the earth, who have a very advanced science.

That the UFO's often seen, are connected with these entities. That these entities have been upon this plane for many centuries, for many thousands of years. This Awareness indicates that many of the so-called "supernatural phenomena" which occurs upon your plane is the result of actions brought about by these entities.

This Awareness indicates in this case, these faces were projected by these entities, using methods similar, but not the same, as certain methods which were used recently by the CIA in areas of Central America, wherein particles and substances were dropped into space and films were projected upon these particles to influence the superstitious natives upon the earth below. This Awareness indicates that the purpose of this was to

frighten the natives away from the area. This Awareness indicates that the action in England was of a different motivation and using a different kind of projection, which did not use particles in the air, which were placed there, but did make use of particles which were already present: these being more likened unto that force wherein laser beams are used to create third dimensional images.

This Awareness indicates these forces which have existed and have used their machines and technology from the time of Atlantis and before, were essentially experimenting with mind-control to affect the masses of England, and also to test their equipment. That this action can be duplicated on a smaller scale through your laser beams in scientific laboratories today.

This Awareness indicates the information relating unto these entities as complex. That this relates unto the hollow earth theory and unto the origins of certain forces: the Titans, and others, who are from other planetary systems, which would require more time than this present reading can give.

HOW ABOUT THIS !

Question:

Awareness, one of the most common questions we keep getting persistently from members is requests for more information on UFO's and the middle earth. Is it the will of Awareness that sometime we could have a complete and detailed reading on this subject, and we could publish it once and for all for the people?

Cosmic Awareness:

This Awareness indicates this as in the affirmative. That the information may require more than one reading.

RECOMBINANT DNA TECHNIQUE

(How Entities Create their Own Bodies before Birth)

Question:

A question from C.H. of Arcata, Calif. "Recently, the technique of recombinant DNA, which many scientists claim offers great promise for knowledge, but which also holds the possibility for mutant strains of bacteria to escape and plague mankind, has become the topic for public inquiry and governmental controls. I would like Awareness to comment on the arrival of this knowledge at this point of time on this plane, and whether this is an echo of the Atlantean's experiments, or before."

Cosmic Awareness:

This Awareness indicates this as in the affirmative. That in general the Atlanteans approached this in a much different manner. This Awareness indicates that the Atlanteans were not as impressed by the nature of the DNA and the cellular structure, for they understood all as being subject to consciousness.

This Awareness indicates that through such concepts as hypnosis, as used by the Atlanteans, the DNA structure could be manipulated and changed through the imaging process, through suggestions, through repeated imaging.

This Awareness indicates that this is the process entities use in bringing forth their own bodies before entering this plane: Through tapping into the psyche of the mother and father and through their own imaging, they evolve a synthesis of the feelings and images, this synthesis being the physical body at the time of birth. This Awareness indicates that the present scientific approach being more concerned with the matter: seeing forces as though these forces were material in nature is somewhat different from the Atlantean approach, which recognized that there is no matter as such, but that all

is image and vibration, being created by consciousness through its own ability to focus and to control the vibration and the forms, particularly when in deep, subjective levels.

HOW TO OVERCOME SELF-CONSCIOUSNESS
WHEN FACING THE EYES OF OTHERS

Question:

I would like Awareness to comment on my excruciating self-consciousness and apparent guilt in facing the eyes of others, and what I can do to be free of this burden?

Cosmic Awareness:

This Awareness suggests that you are, in actuality, judging yourself as being inferior to your own standards of what you should be. That wherein you look at others, and see them looking at you, you assume that they see you as you see yourself in relation to your ideals, being unable or unwilling to live up to these ideals.

This Awareness suggests that you look into a mirror, staring at your eyes, seeing the pupils alone, focusing upon the pupils, visualizing the entity behind those pupils as being your ideal self, being everything that you would ideally believe yourself capable of being. That you then make three spins or turns in a clockwise direction, look again at the pupils of the eyes in the mirror, visualize the eyes, the entity behind the pupil being everything that you dislike about yourself.

This Awareness suggests that then you make three turns clockwise, look again into the mirror at the pupils of the eyes and visualize the entity as being a composite of both the ideal and the entity which you would despise or dislike, and seeing these move into the same form, seeing these come together.

This Awareness suggests that now you visualize these two entities living within the same physical body: the ideal and the inferior, both trying to inhabit and possess and express themselves through this same body.

This Awareness suggests that you imagine the ideal attempting to remain with its ideal values while being possessed by one who is inferior and unable to, or unwilling to live up to those ideals.

This Awareness suggests that you then visualize the inferior entity who must live in this body with one who has such high ideals as are disgusting, as are impractical, and as are beyond the level of application in terms of what is actuality.

This Awareness suggests that then you visualize these two entities communicating together, making peace with one another, wherein the ideal entity allows certain facets to enter into the being, which are not of an ideal nature, but that the ideal entity allows himself to become tolerant as though tolerance were also part of idealism.

This Awareness suggests that you also allow the entity who is inferior in feeling to take on certain ideals being impressed from that other entity, so that the entity who is rebellious toward the ideals acknowledges that if you can be more tolerant of me, I can also live up to certain ideals which you would like me to hold, without being hostile toward these.

This Awareness indicates in this manner, through self-talk, you can begin to accept yourself and find a workable relationship between these two parts of yourself to allow them to blend into one entity which has ideals and weaknesses, is neither perfect nor imperfect, but is in fact, who you are, acceptable and loved, even with the flaws, even as this Awareness accepts you.

This Awareness wishes entities to understand that It does not ask entities to be perfect in the sense of ideal perfection.

This Awareness indicates that It asks you to accept yourself and to love one another.

This Awareness indicates that you are perfect when you can accept your imperfection and the imperfection of others, and still work toward improving yourself.

A BABY DIES. THE PARENTS WONDER, WHY?
(A COSMIC VIEW OF ONE COUPLE'S QUANDARY)

Question:

We have just lost our youngest child, and have many deep feelings and wonderings concerning this. One morning, our daughter of only 72 days left her body, due physically to spinal meningitis. We were only aware of her being ill for 12 hours. Would Awareness please help us to understand why she came and left so fast, what her relationship to this 'psychic storm' that has been talked about was, what lessons can be garnered from this experience, what her and our previous karmic links may have been, and if we'll be with her again in this lifetime?

Cosmic Awareness:

This Awareness indicates that the entity did return, knowing that her sojourn in this particular life would be very brief.

This Awareness indicates that the entity as one who inherited this brief life through a karmic experience from her previous lifetime. This Awareness indicates this as that which needs not be looked at at this time.

That the entity did move into this plane and into an involvement with you and your family through a relationship of a previous lifetime, yet also as a message to you from another plane: the message being that which was deemed as necessary in her life expression during this brief time.

This Awareness suggests that you look at the brief experience as though it were a statement being given to you by this entity. That this may be experienced as a statement to you about the levels of sensitivity which existed within your psyche prior to the birth and after the departure. That you may see the difference between the level of sensitivity before and after the statement.

This Awareness indicates that also the entity as working out certain karmic expression of her own, whereby the entity was previously involved in a life wherein, through negligence, this entity was responsible for harm which came to others, and felt that she should experience a brief movement of dependency in this present situation. This Awareness indicates that having experienced this for a brief time, the entity then left and is preparing again to assimilate the information gathered from the experience and incorporate this into the soul stuff. The entity shall return to you at a later time, this being seen approximately five years from the present.

This Awareness indicates you shall know this entity by the vibrations and the eyes.

HOW TO NULLIFY NEGATIVE PREDICTIONS WITH MAGIC
(A MESSAGE FROM AWARENESS TO THOSE WHO MAKE PREDICTIONS)

Question:

(Continued from above reading)

Our second question is: Also since this occurrence, we have been quite concerned about our other child, age three. We were giving a yarn picture by Mexican Indians which we were told is a Peyote vision. In it there is a female entity seemingly giving up a young female child, and a male entity seemingly giving up a young male child. Will Awareness please tell us the picture's meaning and its relationship to our little boy and to ourselves?

Cosmic Awareness:

This Awareness indicates that you need not energize that concept which you feel when interpreting the picture as being a fated vision, suggesting that you would lose your children.

This Awareness indicates that the interpretation can be on any level you choose. That regardless of how it was intended, you have within your own psyche the ability to change the interpretation, or to add to the interpretation, to energize the original interpretation, or to create a new interpretation.

This Awareness indicates that if you create a new interpretation, you may visualize this symbology as being one wherein you can, if you choose, identify with these entities- see the young child, the girl, as being the daughter; see the boy as being the son; but instead of visualizing this as being a symbol of your son also being taken from you, you can visualize this as being a message which states that you do not own the child, and must give up any feelings that would imply that you do own this child. For the child is his own being and you are but one who is a guardian and guide to assist this child in this lifetime.

This Awareness indicates that anytime there is a vision which can be construed as being a vision of negative experience in your consciousness, anytime there is anyone who attempts to place upon you the forecast of loss, death, doom or tragedy, or anytime you tune into and see a tragic experience, believing this as coming to you, you have the ability to energize and add to that vision in this manner, assisting to bring this about, or you have the ability to misinterpret, or to change the interpretation to something other, which is more conducive to harmony and joy.

This Awareness suggests that how you visualize the next moment tends to change the nature and direction of that moment: That wherein 10 people join together and visualize an entity growing stronger in health and joy, indeed, this shall assist the entity in growing stronger in health and joy. Yet, if one entity visualizes that entity becoming sick and ill, and others begin to believe that prediction, indeed they can assist in visualizing sickness and illness coming upon that entity to such a degree that the entity would have much difficulty in throwing off those images. This Awareness indicates this in the nature of black magic.

This Awareness indicates that any entity, any psychic who predicts disaster for another entity, any entity who publishes such predictions that this or that disaster is going to occur to this or that entity, is adding their energy and the energy of all others who share in that image, to the energizing process of making that prediction come true.

This Awareness implores entities who see a prediction by any psychic, or any type of prediction which states that a certain tragedy is going to occur: this Awareness implores entities to nullify these predictions in their own consciousness, in their own psyche, to visualize something better happening, to visualize those predictions as being in error.

This Awareness suggests that you make an X across that image, and that you visualize that image as being placed upon a fire, being burnt, and that the image be thrown away and a new image being drawn, wherein that entity or situation which was destined for tragedy, is now discarded and a new image is being placed before your consciousness which shows health, vitality, joy, harmony and light moving through that situation or entity.

This Awareness indicates that there are many entities who think they are being psychic, who think they are reading the future, who, in actuality, are but predicting negative experiences and bringing these about by their predictions; and are, whether they realize this or not, are practicing black magic.

This Awareness indicates that the Universe appears and disappears every four-quadrillionths of a second, and every image or energy within the Universe appears and disappears at that rate. That entities have it within their power to image the next Universe which comes into being every four-quadrillionths of a second, that entities who understand will also understand that they create their own world through images, along with others who are also imaging.

This Awareness indicates that if you join in the image of one who is projecting tragedy, you are assisting that image, and that one, in the projection, and creation of that tragedy.

This Awareness suggests that you begin to learn to work in co-imaging toward those images which bring forth joy, harmony and happiness to others and to yourself, and that you begin ignoring more and more, and withdrawing your energies from those who are the prophets of doom.

(THE BOOK OF REVELATIONS)
THE UNBINDING OF LUCIFER

Question:

Member R.E.E. asks: What is meant by the loosing of Satan, or Lucifer, for a short time after the current millenium, and how will that affect man at that time?

Cosmic Awareness:

This Awareness indicates that the forces known as Satan are forces which also can be attributed to the nature of the planet Saturn in astrological sense. This Awareness indicates the planet Saturn being that which emanates a force upon your plane that tends toward the feelings of restriction. This Awareness indicates the restriction as being often conceived of as negative, or of evil, but this constriction is not necessarily evil if entities do not resist this constriction, but simply tune into this in a manner whereby they feel the constriction without resistance.

This Awareness indicates when this occurs, the true nature of Saturn comes out and is seen as responsibility. An intensity of energy that must be looked at in this or that particular area is responsibility, and that also may be seen as constriction of one's expression.

This Awareness indicates that those forces which do not look carefully at these intensities, these constrictions, and face their responsibility in dealing with these, can conceive these as being forces of evil, imps of Saturn, or Satan. This Awareness indicates that from this, entities can begin to believe that there are personality factors behind these forces and refer to these forces as devils or demons.

This Awareness indicates that these forces are, in actuality, nothing more than areas wherein there is a constricted difficulty that must be faced and looked at carefully, often these relating unto feelings of guilt, inadequacy, and often these are related unto feelings of superiority, greed or lust; that wherein these are looked at carefully, a kind of responsibility in dealing with these comes into being; that wherein these are not looked at carefully, these forces may manifest themselves as greed, lust, power or inadequacy.

This Awareness indicates that entities who conceive these as being forces of evil, of Satan, in the sense of personality forces, these entities are simply being caught by a literary device known as personification. This likened unto entities personifying the planet Mars as Hercules; Apollo, the Sun; and Venus, the Goddess of Love--seeing these planets as personalities. That the planet Saturn, its force emanating, may be seen as a personality known as Satan, and its influence may be seen as an evil influence if this is what entities choose as their interpretation by using this literary device

of personification.

This Awareness indicates that in terms of The Revelations wherein Saturn, or Satan is chained and then released for a season, this relates unto an action of many levels wherein entities, as a mass of consciousness, become aware of the force and power of Saturn and learn to face their responsibilities, and in this manner become capable of bringing about harmony upon this plane.

This Awareness indicates that this as partially related unto the influence of the planet Pluto, as well as that of Vulcan, as well as the passage of the solar system, the sun on its cycle in that which may be termed the Aquarian Age. This Awareness indicates that this also being a cycle does have its duration, and that the planet Pluto, which affects the masses of consciousness, does move on, and the effects of its movement in terms of aspects toward Saturn are such that changes shall occur. And these changes shall occur, not only in the masses, but also within individuals.

This Awareness indicates the Book of Revelations does, indeed, have a correlation to the masses of entities upon this plane; but in a greater sense, the Book of Revelation relates unto the individual and the revelations that unfold to the individual.

This Awareness indicates the seven churches and candlesticks as relating unto the rising of consciousness through the chakras and endocrine system; that the Beast as being that which is the structural and thinking process within the minds of entities. That Satan, or Saturn, may be thought of as the effects of the gonads upon the thinking process of entities--that which affects the energy flow to the pineal, whereby entities can easily become fixated and obsessed with lust, greed and power by having accentuation of the gonad-type of energy being brought into the pineal level.

This Awareness indicates once this energy moves beyond the pineal level and into the pituitary level, that this releases the fixation and focusing action into levels of receptivity. This Awareness indicates when this occurs, the chains may be considered, in an allegorical sense, as being placed upon Saturn, the gonad level, so that there is greater receptivity to all that is occurring round about, rather than as just to the focusing action of the pineal, which would control or manipulate forces round about.

This Awareness indicates this as a very complex symbolism to explain, for the levels of meaning are of a multiplicity: that the interpretation can be for an individual's revelations, the opening of the Book of Revelation and seven seals dealing with the realization, or revelation, that occur to entities as they unfold spiritually. This Also occurs on a social level so that entire nations and societies go through the same evolving process, and this has been occurring down through history. That the great cultures of Greece, Rome, France, England, Germany, Russia, The United States: all of these have gone through the same stages, in one sense, of unfoldment as described in the Book of Revelations. That these unfoldments are occurring also upon your plane in the sense, not just of individual societies, but of the international level, or what might be called the United Nations of the Earth.

This Awareness indicates that much of the unfoldment and the prophecy in the Book of Revelations, being allegorical and symbolic, shall not come about in a literal sense. This Awareness indicates that, however, some of this shall be seen to some degree as coming about. This Awareness wishes entities to watch carefully the money-changing system, which is the heart of the Beast.

REVELATIONS OF AWARENESS is a cosmic newsletter published by
Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington,
98507. Rates and membership information available upon request.

Question:

I have two questions to ask. Will you please answer me to the point: You see I know there is no death, that we live on. Will I be on this earth planet in five years from now or will I have ascended?

Cosmic Awareness:

This Awareness indicates there shall be that action and that movement wherein certain portions of yourself begin to make the ascension, even while other portions of yourself remain on the physical plane.

This Awareness indicates that there is a breaking down of the barriers between this plane and the next. There is that which allows entities to move partially into the Fourth Dimension even while still residing and being visible on the Third Dimension. This Awareness indicates this as related unto the way of looking at the Universe. Wherein entities see the Third Dimension in the normal sense of that which has been visualized in the past on your plane, these entities still can continue to see things of the Second Dimension but from the Third Dimensional viewpoint.

This Awareness indicates entities living on the Fourth Dimension will also see those on the Third Dimension, but from a Fourth Dimensional point of view. This Awareness indicates, however, those of the Third Dimension will see only the Third Dimensional beings, while those on the Fourth Dimension will see the Fourth Dimensional aspects of themselves and the Universe and others as well as the Third and Second and First Dimensional aspects.

This Awareness indicates that you understand the Fourth Dimensional aspects of yourself may be visualized clearly through the realization that the Universe including, yourself, appears and disappears every four-quadrillionths of a second, and the re-appearance of the Universe is created by your imaging and your imagination along with the imaginations of all others, and is based on memory as well as projection--projecting from the previous moment and the re-entry into that new moment, recalling from the past moment what you wish to carry into the new. You thus create in your imagination your own physical being, which is very similar to the previous being which existed four-quadrillionths of a second before in the previous Universe.

This Awareness indicates entities who fully understand this from a Fourth Dimensional view shall not only continue to exist on this plane, but shall exist also on the Fourth Dimensional plane, realizing that they are imagination and that they can not only create themselves from moment to moment, but can also change themselves, and can even rejuvenate themselves and become younger and more healthy, and can re-situate themselves so that their lifestyle becomes more harmonious.

This Awareness indicates that you must begin understanding at some point in your existence that there is no need to "drop the carcass", but that if you wish to "drop the carcass", this is your choice; you may do so.

This Awareness indicates that in your particular case, within the next five years the tendency at this time is for you to continue existing, and for you to begin rejuvenating yourself somewhat, growing healthier and growing into harmony and letting go of certain attitudes of self-condemnation and judgment, of self-pity, and letting go of certain other attitudes which put limitations upon your abilities and moving more and more into attitudes of wonder and awe at the splendor which is coming upon this plane.

This Awareness indicates that within you, you shall begin to feel the stirrings of ecstasy, and as you look at this and experience this more and more, you shall begin to rejuvenate and move into a very smooth transition from the being that you have been into the New Being.

This Awareness indicates this as the tendency at this time. That it is always up to the individual whether or not the individual wishes to transmute the body into higher vibrations, moving its parts toward spiritual levels, or drop the carcass and go on into the spiritual realms without it.

This Awareness wishes you to understand that from the Fourth Dimensional point of view death is nothing but change; such change is usually sudden and total as in the physical death. The slow transition from one experience to another is generally seen as change. These are actions which are basically the same except in terms of their timing and speed: the action of change being that which is moved about in a manner which is gradual and slow, whereas the action of death is that which moves in an action which is usually very sudden. This Awareness indicates that there is much change which entities can move through in preparation for the sudden death. That this is that which may be referred to as the lingering sickness or aging prior to death.

This Awareness indicates this too may be your choice, but this also does not seem to be that which is the movement at present. This Awareness suggests that there appears to be a tendency toward rejuvenation and the gradual conversion of the physical particles toward the Light Being and the Spiritual Realm. That this may be altered according to your wishes, for there is an aspect of impatience within your psyche wherein you tend to long for something on the other side. This Awareness suggests that you still have certain things for which you need to be in the physical, to work out and to settle prior to moving across.

This Awareness suggests generally speaking you will be here five years from now. This may be altered according to your will. This Awareness indicates the tendency at this time is that there will not be a lingering and suffering experience. This also may be altered according to your attitudes and your will.

Question:

Will I suffer long before I go, or will I go quickly?

Cosmic Awareness.

This Awareness indicates that the suffering will be at a minimum. That the suffering only begins within your own attitudes toward yourself and toward life, and then continues intensifying until that attitude has its effect upon the physical body in such a way that the physical body can not stand the attitude and begins to "break out" in its form of pain. This then often leads to suffering and death. This Awareness indicates that wherein you have an attitude toward yourself, toward life, and wherein your attitude is such that you love life, you love yourself, you love those about you, there will not be great suffering.

Question:

Will you pray if it be God's will that I will be able to communicate with my husband that has left this world. Will you ask that I can feel his presence with me.

Cosmic Awareness:

This Awareness indicates that the presence of your husband has a very profound effect upon your psyche and is already within you. This Awareness indicates that the entity himself has moved on and is working in other levels, and for certain purposes is assisting those on the other side in helping to bring about a greater communication between that dimension and this dimension and is helping those others on that side to bring greater harmony and understanding among the peoples of this earth. This Awareness indicates that the entity does occasionally come and visit you in his spare time, particularly in dreams. That the entity wishes to convey the message to you that you not worry. That the separation between the two of you is not of any great significance, for there is coming a time wherein the energies of entities shall be freed from material bondage and wherein these entities may move in and out of the material levels at will.

This Awareness indicates this entity also wishes to convey to you that there is a totally different concept of time which does not feel the impatience and the waiting. This entity recognizes this lifetime is but a few moments, and then the movement into other doorways and realms of existence.

This Awareness wishes you to understand this entity is content and is concerned more about your anxiety than his own. This entity wishes you to feel more relaxed and to enjoy the rest of your sojourn on earth without being overly attached to him, for this does hinder his work and yours. This Awareness indicates this hinders his work in that it causes him to feel divided and obligated to assist you in a way that would satisfy your desire, yet realizing that there is nothing which he can do for you at this time other than to force some kind of change or cling to something that cannot yet be.

This Awareness suggests this entity does love you very deeply and wishes you to finish your action upon this earth in a manner that is joyful, and move into communication and harmony with others. This Awareness indicates this will give a certain completion to your action in this lifetime.

CONCERNING THE NATURE OF EXPECTATION

Question:

A new possible development in my personal life has occurred: an acquaintance named Bob; his gesture to me came as a surprise and turned my life into confusion. Would Awareness indicate what am I to expect from him, where we are going and what type of relationship am I to expect regarding him? Is he replacing Bill in my life?

Cosmic Awareness:

This Awareness suggests you not deal in expectations and replacements. This Awareness suggests you allow these relationships to be what they are. That you not create expectations around any entity, hoping for this or that type of relationship to occur from that which is, but rather accept and look at that which is, and allow it to grow, change, or remain the same, according to how you relate with that entity and how that entity relates with you on a moment-to-moment basis.

This Awareness suggests the nature of expectation is such that wherein one expects a certain event to occur in relation to another entity, that expectation then begins to put upon that entity a direction and form, and movement and control, according to that which you perceive is to happen.

This Awareness suggests in your action of expecting another to behave in a certain pattern or move toward a certain culmination in a relationship; then your expectation is creating a control upon that entity, a psychic bond, attempting to force that entity into that image which you are projecting. This Awareness suggests this is not conducive to freedom, nor to love, nor to the respect due one another.

This Awareness suggests you not think in terms of one entity replacing another, but that you look at each entity as individuals, recognizing that there needs be no replacement, there needs be no particular place for entities in your life. That they may simply be where they are, be what they are without your need to place them in a position of priority or secondary levels, or any other placement.

This Awareness suggests you are not a placement bureau; you are not to act as one who must hire and fire; you are simply an entity who has relationships with others, and these entities also have their relationship with you; and these relationships can change, can move about, and in your allowance of this, you can learn to relate clearly and allow them to relate clearly with you.

This Awareness indicates that you shall profit in your relationship when you hold closely with open arms. This Awareness suggest you study the Law of Affection.
