## FOR THOSE WHO THINK AWARENESS IS THE WORK OF THE "DEVIL"

( A Personal Message from Cosmic Awareness to those  
who Believe the Bible is the Truth, the Whole  
Truth, and Nothing But the Truth)

### Question:

Awareness, we occasionally get little tracts, religious tracts and things like that in the mail implying that what we are into is the work of the devil, and so forth, and they can back this up with biblical references. We occasionally get letters like the following, and we'd sort of like to have something compact that we could print up in reply to this type of letter:

"I am really frightened to initiate contact with C.A.C. I am told by my sister that soothsaying and Tarot reading are prohibited in the Bible. Also that Cosmic Awareness is the work of the Devil. However, I have been reading your publication and I think that it is good. How am I going to be able to figure out what the truth is? You see, my sister feels that the only intention of Cosmic Awareness is to separate people from believing in Jesus Christ. Thank you for your consideration in this matter." Signed by M.B.

### Cosmic Awareness:

This Awareness indicates that the purpose of this Awareness in communicating with entities upon this plane is to separate entities from the feeling that their "God", that their Divine Gurus and teachers, whether Jesus, Mohammed, Krishna, Buddha, or whatever name, that these entities are "out there" somewhere, and that there is a separation between oneself and one's deity .

This Awareness wishes to bring about the realization that the Christ is within, the Krishna is within, the Buddha is within, Brahma is within, God is within, the Kingdom of Heaven is within, the guardian angels are within. This Awareness is within each of you.

This Awareness wishes that entities begin to understand that as long as they kneel before a crucifixion, as long as they project the concept of their Christ being "out there" suffering for them, they are missing the teachings of the Christ, they are missing the purpose of the crucifixion.

The action of the Christ, moving into the physical body of the entity, Jesus: this action was designed to bring about a realization that there is no need for separation between the human being and the Father in heaven.

The teachings of Jesus were such that it said the Father in heaven and the Christ within are the same: "I and the Father are One."

### The Real Meaning of the "Second Coming"

This Awareness indicates that the Christ entering into the physical body of the man

Jesus, Krishna entering into the physical body of the followers: the entire concept of the Christ, of the Messiahs, the purpose of these actions is to inform entities that the consciousness, the Christ Consciousness, the crystal clarity, the Cosmic Awareness levels of consciousness are at your own disposal.

All that is necessary is to lay aside the rational thinking mind, the mind which is Lucifer, which assumes to know but does not have wisdom.

The crystal clear consciousness is all about entities, and entities can attune themselves to this consciousness. And when this occurs, the Christ does indeed enter the entities.

This Awareness indicates that wherein you understand that the Christ is waiting within, and that you may open your door and allow that consciousness to become one with you, then you shall understand the meaning of "The Second Coming" and then your eyes shall see the Christ.

This Awareness indicates that the teachings of Jesus were that every eye shall see him when he returns. This Awareness indicates this was the Christ speaking through the body of the entity Jesus, the Christ Consciousness. That wherein entities become open to the Christ Consciousness, indeed, every eye shall see this Christ, this crystal clear consciousness as it returns in its "second coming."

#### Wallowing in the Concept of Being a "Sinner"

This Awareness indicates that the majority of entities prefer not to take the responsibility for their own actions, prefer to think in terms of having "forces" above and below themselves, prefer not to think that they are one with the Creator, prefer to think that they are separate from God, separate from Christ, separate from the creative forces, prefer to think that they are apart from the Christ and must struggle to be blessed by the Christ, prefer to think that they are apart from God and must struggle to be part of God, prefer to wallow in the concept of being a "sinner", prefer to wallow in the concept of being in error, so that they can improve themselves.

This Awareness has asked entities not to judge themselves, not to deny themselves, not to compare themselves with others, but to love themselves, to love others above self and to communicate with one another as though you were addressing gods. For indeed, within each of you there is the Christ, there is the God, there is the divine force.

This Awareness wishes entities to understand that those who wish to assume that Christ and God and Divine Forces are above themselves, are also inclined to assume that they are progressing up the spiritual path toward these Divine Forces, and that others are far below them. And these entities tend to point to those below themselves and say that they are "sinners", they are in error, they are of the "Devil."

This Awareness indicates that those entities who enjoy thinking that they have the only path, the only answers, those entities are simply involved in furthering their own ego trips, their own self interest, their own lust for power through the excuse that they are claiming to be "the chosen ones" of the only God, the only Truth.

This Awareness indicates that there are many books of authority within the world today. The Bible does have much truth within it, but the Bible is a collection of many different writings by many different entities who held portions of truth. The works of the Vedaic writers, the works of certain sanskrit writers, the works of certain religious groups all over the world also contain much truth.

This Awareness indicates that it is not only foolish, it is also very petty and disillusioning for an entity to think that by reading simply one book, because it has been stated as being "the book", that that entity has the only truth and all others are in error.

This Awareness indicates that the Bible, itself, is full of threats, is full of curses, written by those priests who curse those who might change their writing. That throughout the Bible there are the uses of curses and promises, curses and promises, 'Do what I say and you shall be rewarded, fail in what I say and you shall be damned forever.'

This Awareness indicates these curses and promises are not the will of this Awareness, are not the will of divine being, even though they claimed to be from a divine source.

This Awareness indicates that any entity who has the slightest intelligence can begin to see that there is trickery involved in certain of the Biblical teachings.

This Awareness indicates that there is also great wisdom in certain of the Biblical teachings. That it is not necessary to discard the entire work as being unworthy, nor is it necessary to accept the entire work as being the only source of divine information.

This Awareness indicates that entities who cannot move beyond their own limitations, cannot take their nose out of one book, but become so hypnotized by their own belief system, these entities are simply caught on a rung of the ladder and are not progressing. Even though they may look around at others and point fingers of condemnation, still they have not learned the truth: For the truth is in constant change, the truth is in constant expression.

If you really believe the Bible is the truth, the whole truth, and nothing but the truth, try this simple exercise:

This Awareness indicates this earth and the inhabitants of the earth have existed for some 30 million years with human consciousness upon this plane. The earth itself is more than 3 billion years old.

This Awareness indicates the Bible as less than six thousand years old. The stories of the Bible as less than six thousand years old. The compilation of those stories less than 2000 years old, taken from various texts, written by various entities, various priests from different religious sources of the time.

This Awareness asks you to sit down and to chart out a map of increments, tracing the existence of human life upon this plane by making lines on a sheet of paper: 30 lines, each one million years of duration. Then, on the last line, mark off what would be in proper proportion, 2000 years, or even 6000 years, and then examine and ask yourself if all of the truth of human existence is actually expressed in a book that was written and held for that brief duration?

This Awareness indicates that the 2000 year mark upon a line, the last million years, will be nothing but a dot. Yet, you are assuming that everything that has ever been said, or everything that can be said, in terms of truth, is expressed in that tiny dot, and there can be no other interpretation of truth: for that dot, that period, is the final word.

This Awareness indicates that this is very foolish of entities. That the importance of spiritual teachings is the spirit: the spirit of what is being conveyed, rather than the personality cult, and the concept of self-righteousness and judgment against others, hostility, wars, violence, condemnation: these are ways of error.

This Awareness indicates that any who follow these ways of judging, pointing fingers, casting devils, attributing devils to others who are looking toward truths, looking for truths, examining, questioning: these entities who set themselves up as supreme judges shall surely find themselves being judged by their own condemnations.
