THE TRANSFER OF POWER (Continued)

(The 2nd Trance Reading on the Unified States of Awareness)
York, Pennsylvania, July 7, 1977

Paul Shockley
Trance-Interpreter

Question:

Awareness, on this second reading on July 7, 1977, we're gathered here for further information on procedures for the convention at York. Does Awareness have an opening message?

Cosmic Awareness:

This Awareness suggests that the continued examination of the transfer of power upon the inner plane be allowed.

This Awareness suggests that, essentially, what this Awareness is requesting of you is that you create a hole in space, a hole in your affairs, whereby this Awareness may express itself, may transfer power to others who may, in turn, transfer power to still others, with a kind of arrangement which allows the transfer to be implemented with wisdom and understanding.

This Awareness suggests that, essentially, you not concern yourself with how to apply this information to your own present organizations. Let your organizations continue as they will, but let this be an entirely new type of organization that is not incorporated upon this plane, but is witnessed by entities from the various incorporations and groups, whereby these groups may give their energies and their donations and their support to this Unified States of Awareness, whereby this power may be transferred. Let these forces be free to implement this activity without the influence of the corporation heads or the influence of commissions and various agencies from the mundane level.

The Twelve to Choose the Second Tier

This Awareness suggests essentially that you visualize 12 entities whose deepest motivation is to assist in transferring this information in a clear and precise and meaningful way to others. That these 12 entities each take upon themselves the task of studying and understanding and clarifying this information to themselves, individually, and among each other as a group, clarifying this to where it is perfectly understandable and agreed and shared, so that each and all of the 12 see things exactly as each other does.

This Awareness suggests that then each of these 12, in having this clear understanding, may solicit the assistance of 12 who are ready and willing also to learn this information and to share with each other and form a group.

This Awareness indicates that each of these, in turn, may pass on the information with as deep a clarity as was received. This Awareness suggests this to move slowly, that the importance at this time is in understanding rather than in growing. This Awareness suggests that the basic motivation may be seen as keeping the hole open, keeping power out, and allowing a clear transfer of power so that each entity who receives the information receives this clearly, without confusion, without being fed only parts, but seeing the entire amount.

This Awareness indicates that the first 12 entities forming an action together whereby they agree to study this information and understand as much as is possible what this Awareness has given, this be the first tier.

This Awareness suggests that this then be open to others whereby a second tier may begin to form. This Awareness indicates this second tier may form, and as the total understanding is passed to these of the second tier, the power also is passed.

This Awareness suggests that the 12 initial entities do not pass the power until the full information is understood by those on the tier below. This Awareness suggests that this continue in this manner. That the power is maintained until the entities on the next tier down understand the use and understand the meaning of this transference of power.

This Awareness suggests that July 16th, approximately noon, when Uranus is stationary, or direct, and the moon is in proper aspect, this to be determined by a competent astrologer: this Awareness suggests that time to be picked, and chosen, and selected, and focused upon, and pointed at, and energized as the time whereby the Unified States of Awareness begins its manifestation upon this plane. This Awareness indicates that entities may make agreements before or may ratify afterwards, but the time is then.

This Awareness suggests that the various new age groups, the various nations of the world, the various entities upon this plane, in order to participate in the Unified States of Awareness, must agree to that which is being presented, must agree in the essence of the rules, whereby power is passed to the people. This Awareness indicates that the action of agreement may be stated as a ratification: that this group ratifies the Unified States of Awareness as the world government; that this group, this state, this nation, or this entity so ratifies this action. This Awareness indicates the ratification may come from all directions and each is an added energy to create the effect and make this occur.

This Awareness indicates the additional energies will begin to have their effects. That this shall grow slowly at first but shall accumulate more and more speed. That this shall be likened unto an atomic blast in consciousness, whereby entities break free of the chains of materialism and man.

This Awareness suggests that the 12 entities who are to hold the information and keep the hole in space are to be chosen before the convention ends. This Awareness indicates that these entities may be selected by the group; they may volunteer themselves to this action or may submit to votes, or may be chosen by each other; that it matters not. What does matter, and what shall occur, is that there shall be 12 entities who will take this information and hold this carefully, study this carefully and keep the door open, and shall pass this on to others who shall do likewise.

This Awareness indicates that these 12 entities do need to know each other, to form a pact with each other, and to recognize the unity of that pact so that when other entities come together with their groups and indicate that they wish to join and to ratify this action, these entities may be able to acknowledge the receipt of that ratification and to mark and note the unity of the various groups.

This Awareness indicates that It does not wish to see this group of 12 becoming a figurehead of a power structure, but only likened unto a recognition to protect the names of the Unified States of Awareness and the terms included.

This Awareness suggests that entities in forming various groups, using the name: the Unified States of Awareness, or the "The Use-It Systems", must be recognized by this group of 12 in order to actually be considered in this organization, and the recognition shall depend on the agreement to abide by the policies of this Unified States of Awareness. This Awareness indicates that it must be understood by entities that even in passing power, even in giving away power, there must be rules which accompany that gift.

This Awareness indicates these rules are not rules of control, but are rules that allow for the proper dispensation of the power. This Awareness indicates that entities

who wish to be involved in the Unified States of Awareness must understand the basic nature and meaning of that action, and must not be allowed by those within the Unified States of Awareness to misuse the terms, to misuse the names, and to start organizations under these names which do, in fact, violate, or do not indeed reflect the spirit of this organization.

This Awareness suggests that the basic action of the formation of the 12 persons to begin this action; the first thing on the agenda shall be to protect the terms, the names, the use of the names which have been given.

This Awareness suggests also that the next thing on the agenda to be that of formulating a clear communication network between these entities. That following this, the clarification of questions and material, or printed matter. That following this, the communication with others who wish to relate and become involved in this action.

This Awareness suggests that in terms of the various New Age groups, that there are presently many which could not possibly survive at this time under the pattern which this Awareness has given. This Awareness suggests that the information which has been given on the Unified States of Awareness is not that which is to be applied to your own organization at this time except to the degree which you may feel is advantageous in your actions.

This Awareness suggests that you understand the nature of the mind and the heart. That the mind, in terms of an organization, the corporate being, the head: this as that which must maintain its individuality. This Awareness indicates that in terms of corporations, in terms of free enterprise, in terms of entities, individuality must be maintained and allowed. That in terms of government, the social forces which govern entities, this as that which relates to the heart, and therefore must be built on compassion rather than on reason and power.

This Awareness suggests that individuality is based upon personal interest. That compassion and social awareness is based from the heart, rather than from the head; and that a government of the people, for the people, by the people, must be a government built on heart and compassion, rather than one which leads from the head.

This Awareness suggests that the heart must always be tempered with wisdom and understanding from the head, but must always be that which dominates.

This Awareness suggests that compassion is the dominating force: mercy and love as dominating forces in an organization or in a government cannot create error. This Awareness suggests that therefore you not ask yourself, "How can I fit my organization into this? or how can I fit my personal life into this?" This Awareness suggests rather that you look at this concept, look at the Unified States of Awareness. Keep this as a vacant room in your consciousness; keep this as an open door whereby power may be transferred into your life, into the lives of others. Protect this open door, this open room, but do not feel that you must rush in and get to work and get it happening.

This Awareness indicates that it will happen as the information becomes available and entities begin to understand the workings of the universal forces.

This Awareness indicates that the action of keeping the door open as that which is of utmost importance at this time, that the efforts to make it happen are not of great importance or significance to the event. This Awareness suggests that the motive is the means, is the end. This Awareness asks each of you very carefully to examine your motive, for therein lies the means to your end.

This Awareness indicates that any questions may be asked relating to this particular information.

Question:

Would Awareness please give more information pertaining to the selection of the initial twelve?

Cosmic Awareness:

This Awareness may respond to your request. This Awareness suggests that certain entities herein present do have much that can be offered; that certain changes in their own consciousness will come about through the studying of this information, and these changes will allow for the necessary adjustments applicable to the office. This Awareness indicates that this may be according to your own choice in the selection of these entities. This Awareness does see certain entities that It would suggest, that this may be given if requested of this Awareness. This Awareness suggests however that this as not to be considered as a final voice, but only as a selection of the initial entities; that this Awareness does not wish to appoint the entities and would only make suggestions of a few of these entities.

Question:

Awareness mentioned that these entities should all know one another. Does this mean that they should all live in the same area and can relate in that way, or can they correspond by mail?

Cosmic Awareness:

This Awareness indicates that this may be done through the mail or over the telephone; that essentially the purpose of the communication is to keep the policy of what it means to be involved in the Unified States of Awareness, to keep this clear so that it does not become muddled and confused. This Awareness indicates that the purpose of these 12 is to clarify and to make suggestions and to pass on this clear information to others who wish to become involved.

Question:

Awareness, are these 12 related to the 12 coordinators?

Cosmic Awareness:

This Awareness indicates this as in the affirmative. That you understand these 12 may be replaced at any time any of the 12 chooses 12 disciples, or whatever term you give: 12 correlators, or whatever; that these 12 correlators, having received clear understanding of the information which this Awareness has given, those 12 correlators then are given the power by the coordinator to remove the coordinator from office and to move one of their own into the vacancy. That the coordinator which was among the original 12, now will be moved into the group which he selected as followers. This Awareness suggests that whatever terms you wish on this may be appropriate, that the concept is that which this Awareness wishes you to understand and follow at this time.

Question:

Will Awareness name the Council of Twelve during this summit?

Cosmic Awareness:

This Awareness suggests that It will point out certain qualities that the group may observe. This Awareness suggests that the entity___ as having been the entity, Thomas Jefferson. This Awareness indicates the entity___ as having been Alexander the Great. That the entity___ as having been Yok of Carpathia, the founder of Yoga. That the entity___ as having been Saint Francis. That ___ as having been Katherine the Great. That the entity___ as having been Lao Tse, the Chinese philosopher, that ___ as having been Sir Lancelot. This Awareness indicates that there are others within this room; there are indian chiefs, there are Incan princesses and princes, that there are.... This Awareness suggests that you look around and discover who you are; and from this discovery, determine who among you are the best qualified to begin this action as a group of 12.

Question:

Will Awareness please tell us the identity of ___?

Cosmic Awareness:

This Awareness indicates this entity, ____, as ...this as Hermes. That the entity ____, as Iso, the daughter of Ra-Ta and Isris, as indicated in the Cayce readings on the pyramids of Egypt. (ED'S Note: others present, who had been told previously in personal readings from Awareness who they were in previous lifetimes, included Julius Caesar, (and more recently George C Patton); the disciple, Phillip; Abraham Lincoln).

Question:

Will Cosmic Awareness please tell us when the last Cosmic Awareness summit was held on the earth plane, of what nation and what culture, and who was ____?

Cosmic Awareness:

This Awareness suggests that this information as being insignificant to this present meeting.

Question:

Will Awareness tell us anything about previous lives of ____ and ____ in relation to the work now?

Cosmic Awareness:

This Awareness indicates the entity, ____ as having been Galileo. The entity, ____ as having been Guinevere.

Question:

Awareness, can you tell us the qualities of ____, that we might see?

Cosmic Awareness:

This Awareness indicates this entity as having been a Pharaoh, Ra, a Disciple: Nathaniel; a emperor, Nero; a priest in Atlantis, a cannibal in Lemuria, a eunuch in Turkey, a knight in England, a belly-dancer in Mongolia.

Question:

Would Awareness indicate the qualities of ____?

Cosmic Awareness:

This Awareness indicates this entity as having been the Virgin Queen of England among other lifetimes.

Question:

Is it the will of this Awareness that July 15th, 1977, symbolize the birth of the Unified States of Awareness as July 4th is to symbolize the birth of the present U.S.?

Cosmic Awareness:

This Awareness suggests this to be the birthdate of this action. That ratification, the meaning of ratification, to ratify, is to acknowledge and to give energy and affirmation to that creation of that particular date, not of the date which entities agree to join, but of the date which the organization chose to begin its action. This Awareness indicates the birthdate of the United States is November 15th, 1777, when this was named in the Articles of Confederation and signed in York, Pennsylvania. This Awareness indicates that July 4th, 1776 was the date of independence from England, but was not the beginning of a nation: for the nation did not begin until the nation created its own constitution which was the Articles of Confederation, and whereby those entities who worked with this, joined together, and agreed among themselves at that

time, and signed this information, the Treaty, The Articles of Confederation. This Awareness indicates that following this, the information, the Articles, were distributed to various states, and that states ratified, one after the other the Articles of Confederation, and that the ratification of the 13 states did not take place for over a year. This Awareness indicates that the ratification, the term, "ratified", is likened unto the action of reverting back to that date.

Question:

Could Awareness suggest a schedule for tomorrow's activities at the convention?

Cosmic Awareness:

This Awareness suggests that the entity, Alexander Thompson, present information on POPA, The Property Owner's Protection Association. That these actions can be worked out among entities here. This Awareness suggests, however, that during this convention, that entities tour the city of York, examine the Plough Tavern wherein Madison, Franklin and Jefferson sat and talked and argued and discussed government and ideas before their meeting together in the convention hall. This Awareness suggests that these entities worked out many of their ideas over hot buttered rum in the Plough Tavern. This Awareness suggests that you tour the Gates House, wherein General Gates and others conspired against George Washington. This Awareness suggests that this city as having much history here; that what was begun at that time was necessary for that which is occurring at this time; that the 200 years which has passed as being the preparation for that which is now being made available.

The Alien Force

This Awareness suggests that it is time for reconciliation between the forces of evil and the forces that are alien. This Awareness wishes to clarify one point before this reading ends:

There is a force which has been called "evil". This force as that which relates unto the magnetic forces of the universe, which draws in to itself the evening, or evil forces, that which is associated with and causes feelings of greed and self-centeredness. This Awareness indicates these feelings of greed and self-centeredness are nothing more than magnetic forces; and without these magnetic forces, nothing would hold together: all would fly apart. This Awareness indicates that your own central core of your being is that which is a magnetic core, and therefore is evil, or born of evil.

This Awareness wishes you to understand the nature of evil, or evening, or eve, as being nothing other than magnetism which turns in upon itself and creates matter, that which does matter.

This Awareness indicates that radiance, the so-called masculine force, the Adam force, the force of good, is only good because it does not feel pain; and the force of pain is felt only in form. This Awareness indicates that for this reason, and none other, the female was given an inferior position to the male; and this inferior position in consciousness was not deserved, but was twisted by values placed upon the female.

This Awareness wishes to clarify this teaching at this time. Feminine principles, the magnetic force in the universe, does bring about pain; and if entities wish, they can refer to pain as being evil. This Awareness indicates that radiant forces do relieve entities from form, and form alone can experience pain. Thus radiant forces relieve entities from pain and are therefore referred to as "good".

This Awareness indicates that the good and evil are, in actuality, nothing other than radiant and magnetic forces in conflict. This Awareness wishes entities to begin to reconcile concepts of good and evil.

This Awareness indicates the force which set itself up to combat Lucifer, referring to itself as "good". This force which this Awareness calls the "alien force" is that

which seeks power over that which is evil, and therefore can exist only by continuing evil. This Awareness wishes to reconcile the alien force and the evil, or Satanic force, so that these forces do blend and merge into magnetic and radiant forces which are at the disposal of entities to use with clarity and understanding, so that entities are not controlled by good and evil, or radiance and magnetism, but have instead, a deep understanding of these forces so that they may be used with care and wisdom.

Question:

Cosmic Awareness, do we have time for one question on ___?

Cosmic Awareness:

This Awareness indicates this entity as having been Caesar.

Question:

I would like to read something very short. Would this be all right?

Cosmic Awareness:

This in the affirmative.

(Lady reads): "Declaration of Dependence 1977: A Unanimous declaration of creation. Please hand our survival on our first mother and her home. She is us and we are she. We, her kind, are one and whole. We dedicate ourselves to the elimination of the danger of pollution and separation which has caused such destruction in kind. We know the earth loves us, the sky loves us, the seas love us, and we need not want. We return to our mother with love and protection..."

Cosmic Awareness:

This Awareness indicates that as having been presented by Sacajaweah.

Question:

Does Awareness have a closing message?

Cosmic Awareness:

This Awareness suggests that entities look deeply, for there are many roles and many faces, many times and many places that have come together in this moment. And many entities herein present are wearing masks and robes, and are difficult to see; and this is like a masquerade ball from eons of time, and entities may look deeply, carefully, and may see beyond the masks those faces which have been hiding from pain, suffering, insecurity, uncertainty, the need until the time was right to exit.

This Awareness indicates most entities in this room are likened unto double agents, hiding behind masks, waiting to exit to bring about the new world which all have been struggling for, for many eons of time.

This Awareness indicates that many entities in this room have been together in situations similar to this; that many have struggled for this kind of opportunity, but the opportunity was not right and never occurred.

This Awareness indicates that now the time is ripe and the need is here, and the means is available, and the motive becomes clarified as entities partake of the gift of Love.

(The Law of Gratitude is recited)
