CONCERNING THE SPREADING COMPUTERIZED CHECK-OUTS

(Keeping an Eye on the "Beast")

Paul Shockley
Trance-Interpreter

From a CAC Reading, Dec. 9, 1977

QUESTION:

Member K.K. sent a little newsletter called "Behavior Today", in which it quotes an article from Penthouse Magazine called "Cartergate, The Death of Democracy", by Craig S. Karpel. This letter said, "whose assertions would have been considered unprintable paranoia, even by Penthouse, in the period before the Nixon resignation, and more recent revelations about the CIA." Karpel alleges: "The Presidency of the United States and the key cabinet departments of the Federal Government have been taken over by a private organization, the Trilateral Commission, dedicated to the subordination of the domestic interests of the United States to the international interests of the multi-national banks and corporations." Would Awareness please comment on that article?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. This Awareness indicates much has already been given through previous readings regarding the potential takeover of this nation and others through the monetary banking manipulations.

This Awareness indicates that the readings given approximately two years previously wherein this Awareness warned of the activities which were being pushed upon the sleeping populace of this nation, there has been no significant let-up in these efforts, though the entities have become somewhat more subtle and careful about public exposure of their activities.

This Awareness suggests that you notice that greater and greater numbers of supermarkets and businesses are using the computer scales, whereby the markings on the products can simply be moved past the electronic screening device, and the computer prints out what you bought and how much it cost you.

This Awareness indicates this as the third phase of the complete takeover of the population.

This Awareness indicates that the fourth phase will occur when the computers are linked to your banking account so that you can simply have this deducted automatically from your account without taking any money to the store, or to the business.

This Awareness indicates wherein the computers automatically deduct from your account, then there will be no need for you to carry money with you. This Awareness indicates this as the fourth phase. That the fifth phase occurs when entities can no longer find any money in circulation, the money being withdrawn, and everything moving into computerization and held by the banks in their bookkeeping and computer systems.

This Awareness indicates the system then shall have domination over the individual because no individual will have cash with which to buy or sell.

This Awareness indicates that following this, the individuals will be required to have their own banking account, their own number, and this shall be computed into the Beast computer, or one of its tributaries.

This Awareness indicates that this is the plan for the gradual takeover of entities upon this plane by the Beast.

This Awareness wishes entities to recognize that the ten regional districts in the United States, which were set up under the Nixon Administration for various purposes, these and their appointed officials are, in actuality, a government wherein the appointed officials are not elected, and these regions are likened unto Soviet states. This Awareness indicates that these regions are likened unto socialist republics.

This Awareness indicates that these ten regions are quickly gaining power over counties and states through various programs: through Land Management, Environmental Programs and Law Enforcement Programs.

This Awareness indicates that, essentially, you now have two governments: those who represent the elected government, and those who are appointed and set up by the bankers.

This Awareness reminds you of a line in the movie, "Star Wars", wherein one of the villains reports that the regional governors had taken over, and Congress had been dismissed, the Senate had been dismissed, and the empire now had complete control.

This Awareness suggests that this 'ten regions of the United States' is mentioned in the Book of Revelations as the smaller beast of ten horns which forced entities to worship the larger beast of ten horns.*

This Awareness indicates that the larger beast as the Common Market Nations, being ten in number, and being controlled by the Rothschild Banking System.

This Awareness indicates that in Brussels, the Common Market computer for these nations being four stories high, and having the computer that is referred to by its employees as the "Beast", wherein a number for all entities on this plane is available, starting with the prefix 666.

This Awareness suggests also that entities in driving through the city of New York, may notice that the Rockefeller Plaza has on its side the number 666.

This Awareness suggests that these entities as playing a role wherein they take the money system and its controls, and its power, to its ultimate end.

This Awareness indicates that this as being likened unto an action of over-specialization, to where there is no room within that system for humanity. There is only room for control. This Awareness indicates that this shall surely blow itself to pieces, and the entities upon this plane who are aware shall escape and move into greater levels of freedom and harmony.

This Awareness wishes entities to be aware of the problems facing this nation and the world, but not to get caught in these problems. This Awareness suggests that there are ways out, that the activities of communicating with one another without fear, of trading with one another, of finding ways whereby energies can be exchanged without the use of money and without the use of banking credit, or credit of the type that is controlled by the banks.

This Awareness indicates that there will be efforts to cause paranoia and fear among the masses so that entities become afraid of one another, or hostile to one another, whereby entities in groups shall find those forces which are attempting to disrupt the harmony in their group.

This Awareness suggests that you not fall for these efforts of the Beast. This Awareness suggests that you love one another, share with one another, express your feelings to one another, and assist each other to become clear in relationship, and that you ask others to assist you in being clear.

This Awareness indicates that this shall do wondrous things in changing the nature of the Beast. This Awareness suggests that as the Beast begins to put forth its effort to control, it is also being injected with a kind of vaccine as though it were ill. This vaccine being that which may restore the Beast to humanity and love.

This Awareness reminds you of the story of "Beauty and the Beast", wherein love and beauty brought the beast into levels of compassion, and whereby the beast could be lovable.

This Awareness indicates this also as likened unto fairytales wherein the beast is changed by a kiss from a loved one. This Awareness suggests that you not fear the beast; that you simply inject where you can information, understanding, compassion and love to those who are working for the beast, that you may help them to understand the nature of the forces which they work with.

This Awareness suggests that essentially, the balance of power has been shifted into the hands of the Forces of Light, but that the Forces of the Beast have moved on unknowingly, and without realizing that this shift has occurred, and are continuing in their efforts to take over the masses. This Awareness indicates that the polarity, on the one hand of Forces of Light, and the polarity on the other hand of the forces of control, are now likened unto entities who have moved in toward the center of the teetertotter, whereby there is little real difference between the entities in terms of positive or negative; yet, there is still that effort by the Beast forces to take over the entire teetertotter.

This Awareness indicates that the Forces of Light have grown more strong and powerful and are aware, and growing more aware, of the Beast's intentions.

This Awareness indicates the Beast is not aware that the Forces of Light are aware. This Awareness suggests that an observer from outside, looking at this, can see that the Forces of Light now have a slight advantage because the Beast does not understand that his motives are clearly seen, and that he is not, in reality, quite as strong and sure as he sees himself to be.

This Awareness indicates that when the Beast makes his move to overthrow the masses, the masses will have quite a surprise for him.

The Beast Grows More Sophisticated

QUESTION:

In relation to that, there's a story in this December, 1977 issue of EXTRA newsmagazine which I believe is pertinent to this reading, and I'll read part of it.

"Des Moines, Iowa. A young couple, planning a party, are stocking up at the local state liquor store. They reach the checkout counter. Instead of paying for the liquor with cash, they simply hand a plastic bank card to the clerk, who totals the purchase and puts the card in the machine. Through a statewide computer hookup, the purchase price is deducted from the customer's bank account, and the total transferred to the liquor department account. No cash changes hands. The only paper involved is a receipt given over by the clerk. Unlike ordinary credit transactions, which are paid for later, the purchase is deducted from the customer's account immediately. The transaction is handled by an electronic banking network--the first such state-wide system operating in the nation. The network is managed by the Iowa Transfer Systems, Inc., a NON-PROFIT bank-controlled corporation, established to oversee the hookup. The system began operation early this year, and although officials have been forced to make downward revisions in projections for its use, they are confident it represents the future in banking."

COSMIC AWARENESS:

This Awareness indicates that the system, according to the banking plan, will not only allow the computer to peer into your private life, seeing everything you eat, everything you read, everything you spend money for, everyplace you go, and everything

then in continuance, and one yet to come, which is about 2000 years later at this present zodiac age time, which is to continue for a short time. On page 131 of the 17th Chapter the King James text continues: "And the ten horns which thou sawest are ten kings which have received no kingdom as yet; but received power as kings for one hour with the Beast. These have one mind, and shall give their power and strength unto the Beast. These shall make war with the lamb, and the lamb shall overcome them; for He is the Lord of Lords, and King of Kings; and they that are with him are called chosen and faithful". These are probably the ten horns which Awareness is referring to as the aggressive ruling power forces of the ten regions of the United States. These 10 horns are already getting into high places and, like battering rams, set to do harm to the collective body of humanity in the earth. This is to occur until the word of God shall be fulfilled. This may also be understood as the ten horns symbolizing the ten common market nations, and the smaller Beast being the ten regions of the United States. The 2 horns could well indicate the church and state as well as symbolize Great Britain and the United States. (Those of you interested in this and perhaps wishing to publish tracts etc. to alert the public, will find this book highly interesting as well as helpful. Available for \$5.00 postpaid from C.A.C. book Dept. or from the Good Ship of the Aquarian Church of Universal Services.

** Awareness suggests that this reading be made into tracts and circulated to friends, church groups etc. Permission is granted by CAC and the Interpreter to do this, to reproduce this reading in any manner. Permission is also granted to remove the transition phrases: "this Awareness indicates" and "this Awareness suggests" so that those unfamiliar with Awareness material can more easily understand this urgent message.

*** C.A.C. will furnish petitions upon request. These also may be reproduced and placed on bulletin boards, in stores, schools etc. so that banks and the legislators can be made aware that many people are not going to fall into line and accept the computerized banking system now coming into being and represented at this stage by the computerized checkouts at the supermarkets as indicated in the above reading.

A NEW YEAR'S MESSAGE FROM AWARENESS
(Dec. 9, 1977 CAC Reading)

COSMIC AWARENESS:

This Awareness suggests that during this coming year there shall be a kind of peace and harmony that settles over this nation which allows prosperity on many levels, but whereby certain changes of a subtle nature as occurring, particularly in the very core of the nation's being, in the areas of the presidency, the administration, the nature of the direction which this nation shall move, and in the banking systems as well as in insurance and energy fields. This Awareness indicates that these shall be the areas which shall require much attention for entities to be discerning of what is occurring.

This Awareness suggests that the harmony and peace which is apparent carries with it a kind of subterfuge, wherein things are occurring behind the scenes. This Awareness indicates that this is a time wherein light workers can begin moving in a very quick and purposeful manner to bring about the changes which are necessary to wrest the power from the Forces of Darkness, and to give that power to the masses of people.

This Awareness suggests that this is a time wherein the Forces of Light shall begin to grow in number and in quality. This as a time wherein the Forces of Darkness shall begin to make their moves behind the scenes in subtle ways that appear to be granting of favors to the masses, appear to be giving technology and peace and harmony for a better world. This Awareness indicates that much of that which is being given and promised by the Beast is, in actuality, part of the trap that is being prepared.

This Awareness suggests that you be very cautious in dealing with the forces relating unto the changing of the banking and money systems; that these subtle economic changes are to be watched by entities and that wherein you may find it possible to begin moving toward trade centers, that this shall be most profitable during this coming year.*

This Awareness suggests that along with this New Year's message, the previous message relating unto the workings of the Beast be included.

This Awareness indicates that generally speaking, entities shall enjoy this coming year, for it is an unusually calm year.

This Awareness suggests you take advantage of the calm before the storm which is brewing. That you be prepared, and that you warn your neighbors to prepare themselves.

CONCERNING PRAYERS FOR PRESIDENT CARTER

QUESTION:

Member K.K. asks: "I read that a million Christian Koreans prayed for President Carter for a week. What was the effect of this on the inner planes?"

COSMIC AWARENESS:

This Awareness indicates this as having a definite effect upon this entity. This Awareness indicates the entity as being likened unto a tightrope walker, walking between those ideals and principles of the humanitarian and the great religious values and truths, and walking between, on the other side, walking on this tightrope, faced with the controls and powers of the Beast.

This Awareness indicates that this entity as moving through his term of office on this kind of tightrope, attempting to keep a kind of relationship between the humanitarian qualities and the control and power-seeking qualities of the Beast.

This Awareness indicates that the entity as having been funded and financed greatly from the Chase Manhattan Bank, through David Rockefeller; that the entity Nelson Rockefeller having financed Ford in his campaign.

This Awareness indicates that President Carter as one who may turn out to be one of the best presidents money could buy.

This Awareness indicates that the entity also may turn in either direction: to serve the people, or to serve the Beast. This depending largely on the energies and the awareness of the Forces of Light and their influence upon this entity.

This Awareness suggests that the prayers and the energizing for the highest and best for this entity are very important.

This Awareness indicates that a leader is nothing other than the reflection of the people's desires. That people cannot blame their leaders for the mistakes they make, for in all cases, in all governments, the leaders are only the reflection of the consciousness of those nations which make them leaders.
