Concerning REJUVIGOR

Paul Shockley
Trance-Interpreter

EDITOR'S NOTE: Several years ago Awareness gave a formula for a number of herbs to be ground and capsulated and marketed by the GOODSHIP of the Aquarian Church of Universal Service for its members. Since that time, Awareness has mentioned this product, called REJUVIGOR, in a number of personal readings and general C.A.C. readings. These all-natural herbs, says Awareness, when capsulated and taken regularly will increase one's pep and vitality, help purify the blood, help retard the aging process etc. etc. Many C.A.C. members have asked us when REJUVIGOR will be available to the general public. We are pleased to say that it is now available and it really works. Vicki T. (your faithful C.A.C. Correspondence Secretary) swears by it. She often works a 14 hour day, sometimes 7 days a week to keep up with her correspondence and numerous C.A.C. tasks, and takes at least three a day. She never starts her "evening shift" without bolting down at least two or three REJUVIGORS. Although she may be working far into the night and early morning, her bright little eyes are still sharp and she can think clearly. Because so many have asked about REJUVIGOR and how to obtain these little pellets, we are reprinting below some questions and answers on the subject which appeared in some general C.A.C. readings. Entities wishing to order REJUVIGOR, please do not order from C.A.C. Order from the GOODSHIP, the address of which appears at the end of this reading.

Question:

Would Awareness suggest how many capsules the average entity should take daily of REJUVIGOR, as to how many, and for how long?

Cosmic Awareness:

This Awareness indicates this to be according to the energy level which the entity desires. This Awareness indicates that wherein an entity takes more than his or her tolerance level finds acceptable, the entity will feel as though they had taken some kind of stimulant that was more than they desired. This Awareness indicates that wherein an entity takes more than is desirable, the entity may find it difficult to sleep at night, that there also can be nausea feelings, or feelings such as indigestion within the stomach shortly after taking this, if entities take too much. This Awareness indicates that entities begin taking one or two, and from there determine their own use. This Awareness indicates this as likened unto the question, "How many cups of coffee is appropriate?" This Awareness suggests that some entities can drink 5 or 6 without apparently feeling any great side affects, while others can drink only one and may feel extremely nervous from this.

This Awareness indicates the difference between the use of coffee, or caffeine pills, or other similar stimulants and the REJUVIGOR is that the caffeine and such type stimulants squeezes the cell and causes a stimulation by such action, whereby the cell is squeezed and this affects the nervous system, causing the body to feel energized because of the nervous energy. This Awareness indicates this as not true energy or true energizing, but rather an action likened unto squeezing the energy that is there in order to get it out to use it. This Awareness indicates over long periods

of time this begins to have its effect of squeezing the cell down to where there is no life left in it, or very little life left within the cell.

This Awareness indicates that in relation to REJUVIGOR, that the effects of these herbs is such that the cell increases its amount of vitality; that the stimulation comes not from outside squeezing, but from an increase in the vitality within the cell. The life force increase within each cell and the energy of the body becomes increased, not through stimulation, but through vitalization, or through that which may be termed REJUVENATION.

This Awareness indicates that another formula for the rejuvenation of the major organs of the body shall be given at a later time. This to be called REJU-BODY.

Question:

This substance is about ready to be marketed, and we would like to have a description from Awareness, a capsulized description, so the reader, the public, will know what benefits they would get from this. (REJUVIGOR)

Cosmic Awareness:

This Awareness indicates the ingredients which tend to have effects upon the cellular structure of the physical form, vitalizing and rejuvenating these cells, this as Gota Kola, that which has been called Fo-Ti-Tieng, Desert Tea, or Mormon Tea, or Ephedra, and Gensing. This Awareness indicates the Gota-Cola takes oxygen into the brain and allows more oxygen to be stored therein. This Awareness indicates Gensing, as being a general revitalizing and cleansing agent to the cells, removing certain alkaloids from the cells, allowing the cells the room to be repaired and to restore themselves. This Awareness indicates Fo-Ti-Tieng, or Shuku, as is now called, as that which works similarly to Ginseng. This Awareness suggests that Mormon Tea, or Ephedra, working in combination with these, enhances the qualities of each and has a cleansing effect upon the blood and upon the cells. This Awareness indicates Fenugreek as that which assists in removing mucous from the system. This Awareness suggests that Spikenard, being one of the seven jewels, affects many areas of the body in a kind of healing effect, whereby it feeds the cells certain energies as well as assisting in the elimination process of poisonous residue within the cells. This Awareness indicates this also has effect upon the nervous system and upon certain organs of the body. This Awareness indicates that Comfrey as that which feeds the cells, gives calcium, stabilizes the body's energies and nervous system. This Awareness indicates that the licorice root helps to rebuild and to assist the adrenalin glands in their work. This Awareness suggests a pause. (PAUSE)

This Awareness indicates that these herbs, acting together, have their effect upon the physical cellular parts of the body, including the nervous system and the organs. That the addition of Cayenne to this relates to the circulatory system and gives energy to the muscles and organs through its effect on the blood stream.

*(NOTE: Awareness did not mention Chaparral which is also part of the formula, but traditionally Chaparral is used as a general cleanser and toner for body tissues, and enhances the work of other herbs. Its properties are not fully known by herbalists, but it has many uses.)

Entities wishing to order a supply of REJUVIGOR can order directly by mail. They come in packets of 100 tablets. Special prices are available for quantity orders. New Age groups which would like to distribute REJUVIGOR may do so and obtain special quantity Distributor prices.

Retail Prices:

100 \$4.00
200 7.50
1000 28.50
