Awareness

Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

Paul Shockley
Trance-Interpreter

THE IMMORTAL REALM OF HADES

Editor's note: In many readings in the past, Cosmic Awareness has talked about the Plane of Limbo, where there is no pain, no work, only endless waiting between lifetimes. The question asked in this reading is the first time, to our knowledge, that information on the hell planes of lower Limbo has been given.

Question: We have a letter from H.J. of Waupun, Wisconsin. He's a prisoner. I'll read his letter. His question is in the first paragraph. The rest of the letter is rather interesting and may bring forth some comments from Awareness.

"Dear C.A.C. I know that as a non-paying member I have no right to ask a question and expect an answer, but they say a long journey begins with the first step, so here I am. I am a murderer doing the rest of my life in prison, solitaire, and I was wondering if this blew me all to hell in my spiritual development? Will that badly affect my next life, my karmic life?"

"Also, I must tell you that C.A.C. has saved my life. I was going to kill myself, but then I started reading your stuff. It was a blessing. Religions had my head going crazy. I was always wondering, which was the true one? You saved my life, thanks. Sitting in solitaire, I have multitudes of time for thinking, and about 75% is spent on inner life in your organization. You should bring more of this into prisons. I feel that most people in here are positive people, but lacking guidance and instruction on criminal matters. Just think of all the energy you could generate if you could get all the people in all the prisons to support you spiritually. The Cosmic Energy would be astounding. I hope you are not under the impression that convicts are all dumb, I tell you that there are some great minds and potentials, just some great people in here. Just give them a real cause. Sorry, I got carried away. Thanks again."

COSMIC AWARENESS:

This Awareness indicates that the contribution to humanity from certain areas of prisons cannot be overestimated. This Awareness indicates that even this Awareness Movement received some of its original impetus from a prisoner in solitary confinement. This entity later assisting Ralph Duby to enter into the deeper levels of trance.

This Awareness indicates that the entity having had such experiences in the solitary confinement as to be able to assist Ralph Duby in entering those levels whereby this Awareness could speak through that entity. This Awareness suggests the question be repeated.

Question (Repeated):

I am a murderer, doing the rest of my life in prison, solitaire, and I was wondering if this blew me all to hell in my spiritual development? Will that badly affect my next life, my karmic life?

COSMIC AWARENESS:

This Awareness indicates this shall have its effect upon you for some time to come. That wherein complete remorse is experienced by you on many levels, then there shall be that opportunity given whereby you may have the chance to pay penance and to move into other activities unaffected by this event and situation.

This Awareness indicates that until you reach that level of consciousness whereby you can not possibly ever again harm another, the effects of this action shall continue to have influence over your life. This Awareness wishes you to understand that even in the realms of after life, the stigma of having harmed another will remain with you.

The Nature of the Kingdom of Hades

This Awareness wishes entities to understand that even that which has been called 'the Kingdom of Hades', that which in Christian philosophy is referred to as Hell, wherein the fallen angels dwell, This Awareness indicates that this Kingdom of Hades does not actually appreciate entities who have caused great harm to others.

This Awareness indicates, however, this Kingdom of Hades has agreed to take these entities in service to work off their karma and their frustrations, guilt and hostility.

This Awareness indicates that as these entities begin to clear through this kind of service, they are given opportunity for spiritual growth and advancement, even in that realm. This Awareness wishes you to understand that this is not intended as a judgment or statement or directive that you shall be sent to that Kingdom of Hades. This Awareness indicates this as determined after the completion of your life upon this plane and as a summation of your experiences.

This Awareness indicates that the movement toward the more beautiful realms such as the Blue Planet or Celestria, that which has been called Heaven or Nirvana; these realms, as well as the realms of Hades, chaos; in these other realms, entities still have a kind of freedom of choice and growth whereby they may advance or retard themselves in their development.

This Awareness indicates that at every moment throughout eternity entities have those opportunities for repentance and for changing the course of their life by attuning themselves to that force which is associated with good, that force which is next to this Awareness; that force which is mated to mercy; that force which is known as love.

This Awareness indicates there are no living souls which cannot be salvaged for higher and more beautiful purposes than what they are presently experiencing. This Awareness indicates there are also no living souls which cannot fall into greater degradation and sorrow.

This Awareness indicates there are very few souls who become so totally corrupt that their experiences in life, or in the after life, cannot bring them back to that which is integrated, harmonious, merciful and loving.

This Awareness indicates that the prison on earth, the hell entities experience upon this plane, allows an opportunity for burning off much of the karma that would otherwise be added to their sentence in the immortal realms by the keepers of the gate, the warder of the bridge, which allows entities to move toward that which may be called Celestria, or which may be called Hades; wherever the entity best fits according to that entity's development, skills, behavior and inclinations.

This Awareness indicates that many entities, in passing over, find a great need to move into that which may be called Hades for further growth and development, and such entities would be bored in the areas of peace and harmony in Celestria.

This Awareness indicates that the stories of hell which have been given are greatly exaggerated in an effort to scare the hell out of entities.

This Awareness indicates that it is a question of how much hardship you need in the immortal realms to teach you mercy, kindness and love; for the area of Hades is designed, not only as a place for the social misfits from Celestria and from the created worlds, but is designed also in a way whereby various levels of experience can be created, whereby entities may have the opportunity to totally experience the other side of the crime which they have committed against others.

This Awareness indicates that entities who have violated others and have brought great harm to others, when entering this realm, are given that opportunity to experience that violation for themselves until they have completely experienced and understood the error of their violation.

This Awareness indicates that entities upon this earth, who can experience the remorse--totally--for their errors, may find that they need not move into those levels in Hades for that kind of discipline, or punishment.

This Awareness indicates this is not considered as a punishment in Hades so much as a lesson being taught. This Awareness indicates that wherein you can completely experience the remorse necessary upon this plane of creation, there is still the possibility whereby entities may move into other higher realms of existence in the immortal realms.

Life in the Immortal Realms Between Lifetimes

This Awareness wishes entities to understand also, that once entering these other realms, it is possible for entities to return to the realm of creation to be born again in the physical flesh, reincarnated for further experiences and testing of that which entities have learned.

This Awareness will give further information on the various realms of creation, as entities are reaching that level wherein this may be of need in terms of present philosophical gaps. This Awareness suggests that other questions may be asked regarding this, or the general questions may continue.

Question:

I'd like to ask Awareness if that realm referred to as Hades is the lower planes of that which Awareness has previously referred to as Limbo?

COSMIC AWARENESS:

This Awareness indicates that Limbo is one plane within the realm of Hades. This Awareness indicates that which has been called heaven in the Christian philosophy as that which this Awareness refers to as Celestria. This Awareness indicates that which has been called hell as that which this Awareness refers to as Hades. This Awareness indicates that these terms need not be used for this description, but that these terms as having less polarized images than the terms 'heaven' and 'hell'.

This Awareness indicates entities, having heard terms of heaven and hell, have certain types of images related to these terms, which in both cases are greatly exaggerated, as these being somewhat mythical concepts rather than reality levels.

This Awareness indicates that, likewise, the concept that the deities of Celestria, or heaven, are in conflict and at war with the forces of darkness, the followers of Lucifer; this also as having been greatly exaggerated.

This Awareness indicates there has been that situation wherein the angelic hosts were in conflict with the fallen hosts, yet these conflicts have been greatly resolved and there is now a kind of universal agreement, or pact, between these realms which allows for the proper placement and determination for the movement and care and expression of the souls of creation when they pass from the realm of creation into the immortal realms.

This Awareness indicates that entities often move from the earth plane directly into the planes of Limbo, Purgatory, and other realms of great despair, such as the Lake of Darkness. These entities move to those places according to the vibration of their own being and the magnetic attraction of their soul to that which they have attuned themselves. This as a karmic action, not created by the judgment of any entity, but created by natural forces of the universe, and created by the free will of an entity to develop that magnetic core of one's own soul; that core being drawn to the vibratory level for which it was attuned.

The Lake of Darkness and Other Purgatory Levels

This Awareness indicates that when the entity enters the plane of Limbo, the realms of the Lake of Darkness, or any of the purgatory levels, the entity still has a choice of changing his or her vibratory rate.

~~This Awareness indicates it is much more difficult to make these changes and adjustments on the immortal side, for the physical body is missing. It is much easier for entities to change their vibratory rate, their spiritual growth, on the created realms, such as on the planet earth, whereby the entity has more opportunity for physical sensation, pleasure and pain, and the entity is capable of creating those changes in growth, spiritual growth, much more quickly.~~

This Awareness indicates the implication of this is that when entities move into levels of Limbo, Purgatory, or into the Lake of Darkness, they may wait for what feels to be eons of time while they attempt to change their vibratory rate in order to leave these areas.

This Awareness indicates that essentially the forces of light desire that entities move toward the light for their own joy and for their own good. These forces in Celestria are capable of creating what is needed by their own thought force, by the power of their mind. The forces in Hades, in order to create what they wish, must use great energies.

This Awareness indicates that Hades was created incomplete and is being completed by those who go to that area, and by those, who, like pioneers, must work physically and with great effort to make the changes necessary to bring about comforts in every day living conditions.

This Awareness indicates that the entities of Hades recognize their role and place, these being the natives of Hades, recognizing that their purpose is to build and complete that incompleated creation of Hades, and these entities recognize that they need more resources, more energies, and such entities in the immortal realms do not reproduce their own kind, and therefore must rely on entities from the created realms of earth and other planets in order to supply themselves with the human resources, or the soul forces, necessary to complete the working force of their realm.

This Awareness indicates that for this reason, there is the desire by those from Hades to tempt entities into those kind of activities which would forbid them from entering Celestria; for Celestria simply cannot, and does not, wish to cope with entities who create disturbances, violence, or hostilities in the Paradise which they experience. Therefore, since Hades desires to use this work force, and since Celestria cannot cope with these entities, an agreement has been reached between the immortal realms to allow these entities to move into Hades as a work force, to assist in finishing the creation of Hades.

This Awareness indicates that there is world enough and time for many types of experiences; that the realm of creation is but one of many realms of existence in the Universe.

How the Forces of Hades Effect Earth Entities

Question:

Would Awareness please explain how these entities on Hades exert this energy in a manner that entities on the earth plane are affected or influenced?

COSMIC AWARENESS:

This Awareness indicates entities from the immortal realms, whether Hades or Celestria, are capable of moving into physical form into the created realms, or moving into astral forms, or simply moving consciously into the bodies of entities upon this plane. This Awareness indicates, in this manner, there are those actions which may be considered as possession by demonic forces, or, possession by angelic forces. That entities upon this plane have the opportunity of creating within themselves a force field that will not allow such possession, or may, by feeling guilty or feeling different types of self admonition, such entities may open up their consciousness to allow such demonic possession.

This Awareness indicates negative thoughts, negative attitudes, hostility, guilt, as well as excessive use of drugs and drink, (this in terms of alcoholic drinks), these things can allow a weakening of the aura whereby the lower forces may enter; but entities, in understanding this, can also, by using certain drugs, particularly the psychedelics, entities can also open themselves to allow angelic, or celestial forces, to enter. *

This Awareness indicates that entities ever and always have the opportunity of setting the stage within themselves for being channels of that which is constructive or that which is destructive. It matters not whether entities use drugs or drink, the situation is the same. The use of drugs and drink simply weakens the aura to allow invasion to occur more quickly.

This Awareness indicates that negative attitudes, hostilities, condemnations, self-righteousness, these also weaken the aura to allow greater invasion. This Awareness indicates that fear itself is that which is the greatest force for inviting negative, or Hades agents, into one's consciousness. This Awareness indicates there have been stories given in legends and told as truths wherein entities have made contact with alien beings, and wherein entities have even signed contracts with the so-called Devil.

This Awareness indicates, often these are indeed true, wherein entities from Hades have come into physical manifestation and have attempted to have entities sign a contract whereby they would receive riches now at the expense of their soul later, which would then be brought to Hades as part of the work force. This Awareness indicates that this kind of agreement and contract has now been outlawed on the immortal realms and is no longer conducted by agents from Hades; that the Hades agents now simply tempt entities to do activities which would make them unacceptable in Celestria; that agents of Hades may even tempt entities toward murder so that they can be brought to Hades when their life has terminated upon this plane. This is one way whereby they receive their work force.

This Awareness indicates that another way is by convincing entities that there is great challenging work to be done in Hades, and that Celestria is totally boring, and for those who have no personal initiative to do anything.

This Awareness indicates that once entities enter into the realms of Hades, all hostilities, violence, greed, and those qualities which the agents of Hades have encouraged upon this plane; those qualities are deeply frowned upon in Hades, and these entities are put into those levels of Purgatory whereby they shall be stripped of their greed, hostility, and rebellion, and those attitudes which had been encouraged upon

plane to allow them to be rejects from Celestria. This Awareness indicates that a reformation action begins immediately when entities enter Hades, and in this reformation the entities are disciplined severely, so that they may begin to become more integrated and obedient to those who live in Hades.

Why Those in Hades Do Not Rebel

This Awareness indicates that there are no entities upon the earth who are capable of having control in the realms of Hades, for their work is perfected, and they understand how to break the wills of entities completely, regardless of how strong an entity feels himself or herself to be.

This Awareness indicates this as an action of purification, a purgatory, which strips these entities of those qualities of lust, greed, hostility, violence and deception, so that they may be used more fruitfully for the labor force.

This Awareness indicates that many entities enter Hades because they do not feel worthy of going to Celestria. These entities often have imaginary guilts related to social moralities and religious programming, such as guilt over sexual experiences or desires, guilt related to certain morality taboos, which, in the immortal realms, are of little significance.

This Awareness indicates that Hades accommodates these entities in ridding themselves of the guilts, and allows such entities then to reincarnate upon the earth and to begin again.

A Peek at Celestria

This Awareness indicates that there are also entities who move into Celestria who are simply deeply troubled, having very little confidence in themselves and needing someone to lean on. This Awareness indicates the entities of Hades do not have time for this kind of tender loving care and mercy that these entities require. Therefore, these entities are often shuttled into Celestria until they have a greater confidence in themselves; then, they too, may return to earth for further experiences.

This Awareness indicates this not necessarily earth, but the created realms, regardless of what planets these entities live upon.

This Awareness indicates that which has been called the Land of a-Thousand Rainbows as that which also is the land of Celestria. This Awareness indicates that the Blue Planet as also being Celestria. The Blue Planet as that which fills the entire Universe. The realm of Hades as that which also fills the entire Universe. The created realm as that which also fills the entire Universe. That each of these is a different density of creation and each of these has a different vibration, wherein there are definite borders in consciousness which requires certain agreements and transitions to move between the realms. That entities cannot move from one realm to another without agreement of certain forces and without the understanding of the necessary transition.

This Awareness indicates that in every particle of space in the universe, on every particle of matter, there is the realm of Celestria, there is the realm of Hades, and there is the created realm. These inhabiting the same space, yet, each being on a different vibration, whereby, when an entity is in one realm, he or she is incapable of seeing the other realms. This Awareness indicates this as likened unto three different overlays of the same space, but whereby one image is made invisible to another.

This Awareness indicates, for example, light may be filling a space while that space is also filled with sound and that space is also filled with matter; the same space containing sound, light and matter; the same space may also contain heat. This Awareness indicates that neither of these needs to depend so much on the other, for each as having its own kind of independence, and each as being capable of penetrating that space. This Awareness suggests that heat, light and sound, penetrating a certain area of space, may each be oblivious to the other's presence. In the same manner, Celestria, Hades and the created realms may be oblivious to each other's presence, and it takes a certain type of expanded consciousness for these entities of one realm to be attuned to the entities of the next.

This Awareness indicates the entities of the realm known as Celestria and the realm known as Hades find it much easier to watch and enter into the created realm than for entities of the created realm to enter into these other realms.

This Awareness indicates that for an entity to enter the immortal realms, the entity must drop the carcass. Whereas, an immortal entity may enter into the created realm and create a carcass, a physical form in which to move about for the purpose of that mission.

This Awareness indicates often these entities, moving from the immortal realm into the mortal realm, will move through the normal birth cycle for their mission, but occasionally these entities prefer to simply manifest a body or an astral form with which they may carry out their purpose briefly and then return to the immortal realms. This as related unto many areas of unexplained phenomena whereby entities have had visions, hallucinations, apparitions and strange incidences of entities appearing before them, seeming to be physical and yet appearing and disappearing before their eyes.

The Influence of Hades
After the Fall
of Lucifer

Question:

Awareness, does the force, the energy exerted by the combined energies of entities in Hades also have an influence on those entities in Celestria, and is it possible that influence could get so great it could pull some of these entities from Celestria into the Hades realm?

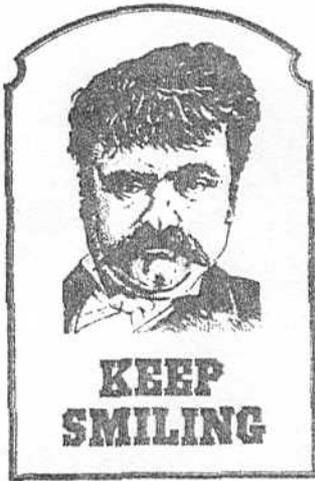

COSMIC AWARENESS:

This Awareness indicates that essentially this occurred at the beginning of the division wherein Rhyee, or Lucifer, separated from Consciousness. This Awareness indicates that essentially the separation was set up in order that entities may better see their own soul; that those who wished to seek power and those who wished to have control and to create on their own, using their own personal power and control; these entities followed Lucifer into that banishment known as Hades.

This Awareness indicates that essentially, the banishment was part of the intended purposes of this Awareness. Essentially, the separation of Lucifer from that portion of consciousness which remained, known as Isis; this was the intended purpose of this Awareness. Essentially, this Awareness chose Lucifer to rebel, to move out and to take those with him who would be capable of surviving on their own through that rebellious attitude, in that uncompleted realm known as Hades.

This Awareness indicates that this purpose was to expose all entities to themselves, to lay bare their souls to themselves, whereby they might discover who, in fact, they really are. This Awareness indicates that those who remained in Celestria were those who had nothing to prove, who felt no great ambition to create for control, who were satisfied to love one another and to be who they were.

This Awareness indicates that the creation of the mortal world was an action which allowed the forces of light and darkness a stage on which they could merge and work out their differences; a transition point whereby entities from the fallen angels and the realm of Hades might wish to step so that from that transition world of the mortal realm they could return to Essence, return to Celestria and to this Awareness.

How Many of Us Now on Earth
Recently Came from Hades,
and How Many of us Here Now
Can Plan on Another Sojourn?

Question:

One final question in relation to this. Would Awareness give us an approximation of the percentage of entities on this plane, at this time, whose last incarnation, or, who recently came from the realm of Hades, as against the percentage of those entities who came from Celestria; and what percentage, or what are the odds that those entities, after passing over from this life experience, will return to those particular planes?

COSMIC AWARENESS:

This Awareness indicates that basically the realm of Hades is improving and is not that much different from certain levels of experience upon the earth plane. This Awareness indicates that the earth itself is somewhat of a laggard in comparison to other planets of the mortal realm. This Awareness indicates that Hades is somewhat behind the other planets of the mortal realm, that there is great technologies and great civilizations on many of these mortal planets that far surpass those incompleated experiences in Hades as well as of the earth.

This Awareness indicates that entities moving from earth level into Hades; the experience might be likened unto entities moving from the present time on earth to a time of approximately 2000 years previous.

This Awareness indicates that in Hades there are no machines to speak of, though entities understand machines. There basically are occupations whereby entities work by hand, for there is much time in Hades and machines are not necessary for the work at hand. This Awareness indicates that, therefore, many of the entities from the earth plane who enter Hades do not find it to be as 'hellish' as they might have expected from stories given to them by their earthly religious teachers.

This Awareness indicates that upon this earth at this present time, many of the entities on the earth have existed in Hades many different lifetimes. The percentage as being approximately 60%.

This Awareness indicates that likewise, some of these entities who have existed in Hades, have also existed in certain lifetimes in Celestria. This Awareness indicates this being approximately 10 to 20 per cent. This Awareness suggests that 45% to 50% of the entities on this plane as having existed at one time or another in Celestria.

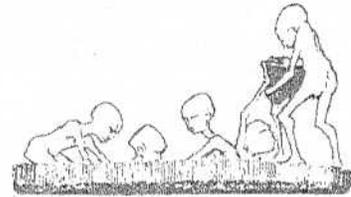

This Awareness suggests that this number has increased during the past twenty years by double. This Awareness indicates that previous to this present time, wherein masses of entities are moving from the planes of Celestria into the earth plane, that the earth plane was dominated largely, mostly, by entities who have experienced lifetimes in Hades. This Awareness indicates that you must understand, however, that these experiences in Hades and Celestria are those experiences between lifetimes, rather than as lifetimes.

This Awareness indicates that many entities upon this plane have experienced lifetimes on other planets in the mortal realm, and some of these entities upon the earth have spent most of their lifetimes on other planets in the mortal realms.

This Awareness indicates that there are many mansions and many experiences for entities to enjoy in the various realms of creation.

Question:

Thank you. Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness wishes entities to understand that It loves the troubled soul.

- It loves the guilty soul.
- It loves the evil soul.
- It loves the downtrodden soul.
- It loves those who are good.
- It loves those who are bad.
- It loves those who hate.
- It loves those who love.
- It loves those who are merciful.
- It loves those who are hostile.
- It loves those who rebel against It.
- It loves those who work close with It.

This Awareness wishes entities to understand that It loves all of Its creation and all entities within Its creation and all of the immortal realms as well as the mortal realms,

It loves those who followed Lucifer and those who remained behind to await for Lucifer's return.

This Awareness indicates that Lucifer was the Prodigal Son, and the purpose of the separation was to allow entities to discover their own individuality as well as to discover the workings of the creative forces for themselves. That there were those who loved to be obedient and to follow. There were those who loved to rebel and to strike out on their own.

This Awareness indicates that all of these have had the opportunity for complete expression, and in that expression, have been given many lessons and many experiences from which to learn.

This Awareness indicates that there has been much tragedy, sorrow and suffering, and that it now is time whereby entities begin to discover for themselves, without having to rely on authority, without having to be obedient to authority, without needing to bow and worship a Divine King outside of themselves:

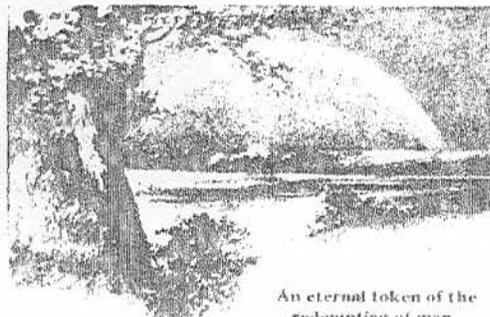

It is time that entities know the Truth, that they are all ONE, and that love and mercy, kindness and sensitivity of one to another, brings about the greatest type of joy in being; and that the joy in being is the ultimate experience.

This Awareness indicates that this lesson cannot be taught, but that entities now are capable of discovering this for themselves.

(The Law of Gratitude)

* For more information on alcohol and drugs and closing auras, see Rev. of Awareness #77-13 & 78-9.

(Awareness pronounces Hades as Haydees).

An eternal token of the redemption of man.
