COSMIC AWARENESS is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

## Question:

A question from B.W. of Lakewood, California. What was the original purpose and meaning of the rite of baptism, and does it still have meaning in this day and age?

## COSMIC AWARENESS:

This Awareness indicates this as basically an alchemical action. This Awareness indicates that wherein there is to be a transformation in consciousness, it becomes necessary for entities to experience, not only the suggestion given verbally, but to experience a ritual or ceremony also, and this ritual or ceremony is most effective when there is a physical experience accompanying the ritual.

This Awareness suggests that symbolically, there have been many forms of baptism. The baptism of fire, the baptism of water, the baptism of air and the baptism of earth.

This Awareness indicates that in your present religious systems, the baptism by water is that which is most commonly known.

This Awareness indicates the baptism of the spirit is that which is known by other names, this being that which is often called 'the conversion' in the protestant churches. This Awareness indicates that this being that wherein the entity gives up his own will and allows the spirit to enter. This being conducted in a manner that is likened unto a Zen type of alchemical action in which the entity is made to feel great amounts of guilt and shame for being who he is, and then given a way of throwing off that guilt and shame.

This Awareness indicates that the baptism by spirit occurs when the entity engages in the intense guilt and shame of being himself and gives up himself into the keeping of the Saviour, that which is Spirit.

This Awareness indicates when this occurs, the entity then is given the opportunity to let go of all that guilt and shame and, by faith, believes that the guilt and shame is taken from him. This Awareness indicates this has its effect on the consciousness and does wonders in terms of creating a definite change in the entity's behaviour and consciousness. This is that which allows entities to become so totally dedicated to the belief in the salvation principle. This Awareness indicates this as being a valid principle and valid method of changing consciousness and assisting entities in rising to greater spiritual levels of development.

This Awareness indicates the baptism of fire was that which was used in previous cultures. That those entities who walk across burning coals in certain Oriental areas and in various places in the South Pacific, these entities as carrying on the tradition of that which began as the baptism of fire. This Awareness indicates these entities as tuning into higher forces which allow them a kind of protection against the heat from the fire. This Awareness indicates this also as that which relies on faith and belief and the trust in Divine forces.

This Awareness indicates the baptism of water is that which is of the simplest form, wherein entities are sprinkled or dipped into water to symbolize the cleansing of the Spirit, the cleansing of the body, the cleansing of the soul. This Awareness indicates this as being a symbolic action. This Awareness indicates that this physical action is enough to allow entities to feel that there has been some kind of change in their life, and the words suggested regarding that change become more significant than if they had not been dipped into water, than if they had not had water sprinkled upon them.

This Awareness indicates it not only works in relation to the individual participating in the action, but also in the attitudes of those who observe the individual; and their attitudes toward that individual assist in affecting the change which is desired.

This Awareness indicates the baptism of earth is the action of being born upon this plane. This Awareness indicates that certain American Indian tribes often took the tiny babes into the woods and left them for a period of time, such as over night. This Awareness indicates wherein these entities survived, they were kept and raised, and wherein they did not survive, it was assumed that they were unworthy. This Awareness indicates this also was likened unto a kind of baptism of earth.

This Awareness indicates the nature of baptism and the purpose of the various baptisms as being to effect changes in consciousness through ritual and experiences that were believed to be beneficial for the entity's growth and development.
