

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

## IS COSMIC AWARENESS A FALSE PROPHET?

(Jesus Christ and the Purpose of Channels)

### Question:

We have a question in the form of a letter that's sort of representative of quite a few we get, and I will read this and ask Awareness to comment:

"I have read most of Edgar Cayce and believe. In reading your Cosmic Awareness Speaks, I feel that it is right except for the explaining of a few things. Being brought up Catholic, and Cayce agreed, Christ was more than being listed with other prophets of the past as you list him. He was the Son of God who sits now on his right hand, the first born of all creation. All things were created through him and for him. Christ, the first fruit, raised from the dead who have fallen asleep, sit at my right hand until I put your enemies beneath your feet. I know that God is within each of us, but believe that we contain only a part of Him; that there is still a God in the Universe with whom you can pray, feel his love all around you and have your prayers answered, one who sends us our needed energies to live. In Him we live and breathe and have our being. In other words, in your book, you leave no one to pray to for help. I guess you expect one should meditate and get information and help through meditation, and I can't get anything out of meditation, but do get prayers answered. If you are the same source as Edgar Cayce, you should be able to explain the above. I should think that if you are the true Source and want to help people in the New Age to change their thinking, you are going to have to explain more than in your booklet about Christ. Somewhere in the Bible it says, 'Beware of false prophets, that you can only gain the

true heaven through him'. I sincerely would like to understand. Yours truly, Mrs. P.W."

### The Parallel Between Jesus and Krishna

#### COSMIC AWARENESS:

This Awareness indicates this has been explained many times in previous readings. This Awareness indicates that the term 'Christ' as related unto a concept of Crystal Clear Consciousness.

This Awareness indicates that the entity, Jesus, did have this crystal clear consciousness. This Awareness indicates that the entity, Krishna, also expressed this consciousness.

This Awareness indicates that the story of Jesus the Christ, the story of the entity who came into the physical world to save man from his sins and was crucified for his efforts, was an ancient story that went back long before the 2000 year old story of Jesus.

This Awareness indicates the story of Krishna, which occurred around 600 BC, was almost identically the same story. This Awareness indicates the entity, Krishna, had twelve disciples, came into the earth born of a virgin, and was hanged for his efforts to save man from his sins.

This Awareness indicates that the story of Jesus the Christ as being a passion play played out in secret schools during the times of the Essene era. This Awareness indicates the entity, Jesus, did act out this passion play in real life. This Awareness indicates that this story goes back approximately 12,000 years prior to present time. This Awareness indicates that this as an ancient story, representing the ego of the individual, whereby the entity, Jesus, represents the individual, represents every entity who seeks to move in spiritual directions.

This Awareness indicates as entities move more and more toward spiritual expression, they reach that point where they can only move toward the cross of crucifixion and give up their own individual selves unto the will of God.

This Awareness indicates that the story of Christ has many symbolic meanings, has many different levels of meaning other than just the historical implications.

#### "I Am the Way, the Truth and the Light" (The 'Vanity' of Jesus)

This Awareness indicates that the Christ is a kind of consciousness, virgin pure, clear, born of a virgin, born out of the crystal clear virgin pure space, without any kind of coloration or adulteration. This Awareness indicates that the entity, Jesus, was one who expressed and experienced and channelled the Christ Consciousness.

This Awareness indicates that wherein the Christ said: "I am the way, the truth and the light," this was not the entity Jesus bragging about himself, gloating over his spirituality. This was the Christ Consciousness speaking through the channel, the entity, Jesus.

This Awareness indicates that were this the man, Jesus, claiming to be the way, the truth and the light, declaring that no one could ever come to the Father except by him; this would be a gross form of vanity.

This Awareness indicates this as not the case, for it was the Christ Consciousness speaking through the entity, the Interpreter, the medium, the entity, Jesus.

This Awareness indicates that it has been given that this occurred 2000 years previous to present time, approximately 200 BC. This Awareness indicates that were this the case, that no one came to the Father except by the entity, Jesus, then all previous history would deny anyone that ability to have come to the Father, or the spirit of the universe.

This Awareness indicates that the spirit of the universe permeates everything. The spirit is life. The spirit is that which you call God.

This Awareness indicates that the spirit of life is everywhere present. You live and breathe within the body of this Awareness, within the body of that which is called God, within the body of that which is the First Cause.

This Awareness indicates that the universe is a living creature. You are within that body, that being within that body; you are in tune with the life force of that living creature. You receive your energies and your vitality and your life from the energies of that creature.

This Awareness indicates that you also receive your clarity and your consciousness, and wherein your consciousness is clear, without beliefs, without confusions, without those distorted values and personal mind-warps, then your consciousness is pure and clear, and you are a channel and are in tune with the Christ, or Crystal Clear Consciousness.

#### Why Not Make a Religion Out of the Interpreter?

This Awareness suggests that entities can make a religion out of any channel. Entities can make a religion out of any entity who channels this Christ Consciousness, but the only true religion for any entity is the religion which allows the entity to tune into that Christ Consciousness for themselves.

This Awareness indicates that when you tune into the Christ, or Crystal Clear Consciousness, you and the Father are one. You are the child of God. You do not need a channel, or medium, for this kind of attunement.

This Awareness indicates the only purpose for channels is to convey information that allows each and every one to understand how to tune into greater clarity within their own mind and consciousness circuits so that they may move into the Crystal Clear Consciousness and become one with the Spirit of God.

This Awareness indicates that if you prefer to think of some entity out there in the Universe, sitting on a planet which He created, watching you walk around on this earth, anxiously waiting to hear your prayers, you may think this; it matters not. For this Awareness walks beside you in the space next to you, and within the cells of your body, between the atoms of your cells, and in between your thoughts and emotions; and this Awareness hears your prayers and sees your meditations.

#### The Difference Between Prayer & Meditation

This Awareness indicates the difference between a meditation and a prayer is that entities who pray, feel themselves to be separate from God, and therefore must ask God for favors; whereas entities who meditate, to attune themselves to God, become one with God and need not ask for anything, for they are capable of creating as Gods, or accepting that which is given unto them.
