

COSMIC AWARENESS is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

### QUESTION:

There has been a network TV series this week called 'Holocaust' that has attracted a lot of attention. This concerned a Jewish family in Nazi Germany from the 30's to the 40's. Nationally, many Jews got together on the anniversary of the so-called holocaust, retelling the experience to their children, lest they never forget. Many believe that for the sake of the children it is necessary to go over this tragedy of the 40's over and over again. Now Awareness has told us that in the case of a rape victim, for example, the retelling of the experience over and over can help remove the trauma from the psyche of the victims. Those who were victims of the Nazis and who survived are probably being helped in this manner. My question is: in relation to the children of today, those who never lived during those times, is this retelling of that tragedy actually doing them any good, or is this but re-energizing negative experiences in consciousness?

### COSMIC AWARENESS:

This Awareness indicates this as something that allows the entities to have a kind of racial identification, likened unto a history of their people. This Awareness indicates that this cultural history is that which can be beneficial in terms of giving the entities a sense of understanding and dignity in being who they are in relation to their religious and racial heritage.

This Awareness indicates that this racial and religious or cultural heritage, which entities often feel drawn to, is important in assisting them to develop their own individuality. This Awareness indicates that from certain levels, this is not necessary and is not important, yet, when an entity comes into being and is told that they do not

know much about their origins, where they come from, or whether anything of any significance occurred to them in the past, these entities sometimes feel a kind of uncertainty in relation to the questions of 'Who am I?'

This Awareness indicates that the Jewish culture had as its heritage, its religious and ethnic pride and background, which it could point to for identification, yet this culture throughout history has felt itself to be in conflict with those who were not of that particular religion or culture.

This Awareness indicates that the conflict between the Muslim and the Jewish, the Mohammedan and the Jewish, the Christian and the Jewish cultures have been emphasized for the last centuries in a manner that allowed the Jewish people to feel a kind of stigma in relation to other cultures.

This Awareness indicates that the Nazi movement emphasized this even more greatly, to the point where the Jewish culture began to question and wonder, 'What have we done to deserve this treatment?' This Awareness indicates that in this manner, there was a deep examination of the basic qualities which the Jewish people and their philosophy and their attitudes expressed toward others.

This Awareness indicates that these entities took on a kind of sacrificial lamb experience whereby they became the victims of the sacrifice to the forces that followed the god of power.

This Awareness indicates that when entities follow the god of power, lust and greed, they may serve that god only so long as they themselves continue to feel themselves insensitive to feeling, to mercy, to love, insensitive to levels of humanity.

This Awareness indicates that the god, Jehovah, as a god of power, favoring one people over another, as basically defined and described as a god of power which the forces of the Jewish or Hebrew culture worshipped and exemplified as an ideal.

*Jehovah, God of Battles*

#### Jehovah Also a Money God

This Awareness indicates that Jehovah basically is a money god. This Awareness indicates that the Hebrew or Jewish culture moved for these thousands of years through the world using the economic systems in a manner that allowed advantage to those who followed the Lord God Jehovah, the powerful, jealous god which represented the qualities which controlled the material world.

This Awareness indicates these forces as that which create the matter in the universe. This Awareness indicates that the Yod-He-Shin-Vau-Heh, (the Shin being the 5th element), ties this back into the Spirit. This Awareness indicates Yod-He-Shin-Vau-Heh as the spelling for the name Jesus. This Awareness suggests that this Yod-He-Vau-Heh as having been a key to the kingdom of the material plane, whereas the Yod-He-Shin-Vau-Heh as being the key to the link between spirit and matter.

#### The Crucifixion of Christ And the Karmic Curse

This Awareness suggests that the crucifixion of Christ as a symbolic action wherein the entity Jesus moved through the passion play and gave his life as a sacrificial lamb to the end of the age of Aries, or the age of David, as a fisher of men entering into the Piscean Age.

This Awareness indicates this entity, having given his life to create a kind of example for the Piscean Age, was said to have been slain by the Jews. This Awareness indicates that in the story it is said that the Jews said: "Let his blood be on our heads and on the heads of our children". This Awareness indicates this statement as that which has assisted in creating hostility toward the Jewish race by those who followed the Christian doctrines and teachings.

This Awareness indicates that the use of the Talmud by these entities as also that which has been seen as threatening to the Christians. This Awareness indicates that basically, these conflicts from the religious teachings have resulted in bloodshed, hostility, violence, between the followers of these different philosophies or religions. This Awareness indicates that the great tragedy is that it was all so unnecessary for the actions to occur in this manner.

This Awareness indicates that the Jews in Germany as having moved into the gas chambers and other forms of death in a passive, meek manner, likened unto the lambs going to slaughter. This Awareness indicates that this as also an action of a passion play acted out on a grand scale with a cast of millions.

This Awareness indicates this as such an unnecessary tragedy brought on by these philosophies that allow nations, people, families, individuals, to slaughter one another or to sacrifice themselves for some belief or cause that is unnecessary, and does not serve the purpose of constructive living.

This Awareness indicates that when an action begins, wherein the action may appear to be small and insignificant, though that action seems minor, it can grow and grow, and when that action violates another, the action can create repercussions that are felt centuries later by those who become caught in the movement of the energies of that action.

This Awareness indicates that the repercussion of the crucifixion of the entity Jesus as that which has carried down through the ages. This Awareness indicates that the repercussion of the slaughter of the innocents in Germany as that which also carries down through the ages.

This Awareness indicates that the Wheel of Karma continues to spin and spin, and to seek revenge after revenge, until entities look carefully and say, "Enough! I shall not take my revenge. I shall stop the Wheel of Karma right here".

This Awareness indicates that there are still entities who have hostility toward the Jewish people. How many more would you like to see sacrificed before you cease in this stupidity of bigotry?

This Awareness indicates that each entity, when reincarnating upon this plane, is potentially capable of reincarnating into any other race, whether this be Oriental, Indian, Jewish, Gypsy, Black, Caucasian, or of the Brown Race, or of Latin nature. This Awareness indicates that any entity has the potential of reincarnating into any culture, any nation, any area, and any status of being, whether of poverty or wealth; the potential as determined by those needs which will give the entity the greatest spiritual growth, according to their ability to grow.

This Awareness indicates it behooves entities not to plant seeds of hostility toward any particular race, culture, status or nation, for indeed they may return to live a life within the skin of that culture which they have directed hostility towards.

This Awareness indicates there is so much more that could be said, but the words to discuss the holocaust of this event and of other events will always be inadequate. The experience which occurred will always be remembered within the psyche of those who participated, and the karma which resulted will be long remembered. And the lessons to be learned shall be slowly realized as entities become more sensitive, loving and caring toward one another, as entities begin to realize the true meaning of the Law of Tolerance.\*

What Effect on the Children  
Watching this TV Reenactment?

Question:

What was accomplished, if anything, by having the children who had no knowledge of the actual event, seeing a reenactment on TV?

## COSMIC AWARENESS:

This Awareness indicates this allowed these children to recognize something of their heritage, to face the facts of their racial or cultural memory. This allowed these entities the opportunity of discovering through vicarious experiences the bigotry, as well as the stigma, of the experience; that these entities are aware that there was a deep stigma against being Jewish, that there was great bigotry directed toward them.

This Awareness indicates that the other side was not clearly presented as to the reasons why the Nazis turned on the Jews in all that hostility, and it is unlikely that this will ever be shown; for the punishment so greatly outweighed the crime that entities see the punishment inflicted by the Nazis as being the greater crime, which indeed it was.

This Awareness indicates that the Nazi activities, in attempting to solve the so-called 'final solution to the Jewish problem'; this was indeed no solution, for it created a greater problem. This Awareness indicates the solution can only come when entities are capable of communicating and reconciling their conflicts. This Awareness indicates that the tragedy and ignorance can be talked about eternally: the victims can look back and resent the experience; the violators may look back and justify their actions; but all of this is meaningless in terms of sensitivity and love and compassion of human beings, one toward another.

This Awareness indicates the self-righteous entity can express indignation toward others, but the spiritual entity can only express love, forgiveness and mercy toward others.

### No Words Can Express The Violations Created

This Awareness indicates that there are no words that can describe or explain or summarize or give the human mind a moment's rest from this experience, or other experiences wherein entities have violated one another; for though the desire to understand and categorize and place this experience into some neat little package with a label, saying, "This was caused by this particular attitude which can now be corrected and forgotten", this Awareness indicates this as pure foolishness, for such experiences cannot be forgotten, cannot be neatly labeled and placed aside. This Awareness indicates entities can only move on and learn individually what each can learn from the experience as they have seen this to be.

This Awareness indicates that this holocaust will be dragged up again and again for entities to look at so long as entities feel a need to recall, to examine, and to look at this image.

This Awareness indicates that as entities move further and further away from the experience, greater objectivity will be experienced to allow these entities to learn whatever can be learned by looking back at the experience from another time, another place, another state of consciousness.

This Awareness indicates that there were many entities watching this drama recently who began to understand a little more clearly certain lessons which will allow them and their children to avoid in future experiences.
