Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

## CONCERNING TELEVISION

(Violence & Mind Control  
As Tools of the Beast)

Paul Shockley  
Trance-Interpreter

### Question:

R.G. of Danbury, Conn. would like to ask a question: "I would like to have Awareness comment on television and its viewing. This seems to be a great source of deception, sex and violence. What about the sports, such as boxing and football? TV seems to be a force against Awareness and good. And what about the karma associated here? Would Awareness please comment on television?"

### COSMIC AWARENESS:

This Awareness indicates there is both a value for humanitarian purposes and a value against humanitarian purposes which are being promoted by the television networks.

This Awareness suggests that in a broad and general sense, television as being harmful to viewers in that it programs the consciousness and sensitivity of entities to accept violence, to view violence as entertainment, and to avoid being shocked by violence. This desensitizes the entities to violence which occurs in levels of reality other than the television reality.

This Awareness indicates the viewing of television also has its dangers in that it takes over the consciousness of the entity viewing and inhibits that entity from using his or her consciousness for their own creative purposes, for thinking, for activities, or for meditation on other aspects of their own personal life.

This Awareness indicates that this viewing of television can become a kind of substitute for using the mind by allowing the mind to become hooked on the story or the program which is being fed to the consciousness.

This Awareness suggests that entities may consider the television set as being the programmer for their own consciousness, that when they look to see what programming they wish to have during that particular week, they must be careful to select the programming that is beneficial according to the kind of lifestyle they desire.

This Awareness indicates that often you have little choice in regards to the kind of lifestyle you are being programmed with by the television set.

This Awareness suggests that many entities would prefer not to be programmed by the aberrations of those television programmers, but would prefer to find some other programming of their own.

This Awareness suggests that occasionally there is a program that is presented over TV which is beneficial for the masses, but that the efforts of entities to search the networks for such beneficial programs is likened unto entities going to a garage sale, searching through junk in order to find something of value.

This Awareness suggests that entities may find much value in other levels besides the television programming, but that entities often forget these other levels of realities.

This Awareness suggests there are great classic plays and writings, there are books and there are friends and relatives which may be viewed in lieu of television.

This Awareness suggests also there are children that can be very interesting to observe and to enjoy for the entertainment.

This Awareness indicates that the use of certain television programs can be of benefit when viewed in a limited manner to assist entities in changing their consciousness from negative moods; this being similar to listening to music or walking out and meeting an acquaintance.

This Awareness suggests that for many entities who have difficulty in walking out on the street or visiting a friend, that many of these entities have their closest associates as those entities they meet each day or each week on television. Those personalities on television can become likened unto familiar friends. This Awareness suggests that this as a great benefit for many entities whose lives are otherwise somewhat empty.

This Awareness indicates also that for entities whose consciousness is of a low level in terms of creativity, or whose consciousness needs some kind of input or entertainment for a brief period, that the television play or program can satisfy that hunger so that the entity then can relax, release tension and move on to other things.

This Awareness indicates the greatest danger in television is wherein entities become glued, day after day, and live their lives in fantasy, vicariously, through the activities of others on television, failing to look at themselves and do anything worthwhile with their own life.

This Awareness indicates this as likened unto the viewer who never participates in the game of life.

Desensitizing the Mind  
With Violence & Slaughter

This Awareness indicates that in terms of violence on television, this does indeed have its effect on certain minds which have not been clearly developed to discern the error in violence, and certain of these minds often seek to experience the reality levels of that which they have viewed on television; this particularly in terms of

entities whose lives are empty and meaningless to them and wherein they seek some kind of significance related unto a hero or notorious villain, which they tend to identify with when watching certain television programmings.

This Awareness indicates that in this sense, much danger is done to a small percentage of minds.

In a larger sense, violence on television is that which allows the masses to become desensitized to violence in reality, and in that de-sensitivity, the masses begin to move into apathetic states of consciousness, allowing that violence which occurs around and about them in real life to continue.

This Awareness suggests that essentially, the purpose of violence in television is to frighten the masses of the nation, the masses of the world, into staying home, being submissive, avoiding contact with others, and being frightened of the outside world. This kind of programming is that which is assisting the Beast in its operation to intimidate the masses, making them afraid, and allowing the Beast and its various tentacles, the agencies and those representing the Beast, to take care of all that is occurring in the outside world. This Awareness indicates this as likened unto driving the masses into their holes in order that the masses not be capable of drawing together to throw off the coming yoke of bondage.

Ma Bell is Tapping Your Phone Calls  
Into the Computer Beast

This Awareness indicates the mind-control program, using television, the use of other electronic and drug mind-control systems, as one area of coordinated effort by the Beast. This Awareness indicates that the telephone systems now have computer linkups that turn on the computer to record conversations when certain words are spoken; these being key words to allow the telephone company to spy on entities discussing certain topics. This Awareness indicates this as being installed in most major cities. This as another aspect of the communications control which is being implemented in the nation and throughout the world.

How Children Are Programmed  
By Television Programs

(Beware of Any Government-Sponsored)  
Day Care Centers

Question:

Awareness, Adolph Hitler said: "Give me your children from the age of three until nine and I'll control the world". Would the same concept apply to children who are spending a day or two every week just watching television?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative to some degree. This Awareness indicates that the use of television for these children as that which obviously does have an effect upon their consciousness to make them desirous of more and more products.

This Awareness indicates the advertisement aimed at children, the violence in cartoons, as that which creates a competitive and greedy individual to some extent. This Awareness indicates the parents and general environment of the child have their effects also.

This Awareness indicates that in reference to the statement of Adolph Hitler, that this was more in terms of taking the child from the family and raising the child to be robotized as agents of the Third Reich. This Awareness indicates that the use of government-funded day care centers, particularly if this becomes compulsory, whereby mothers and fathers are compelled to take their children to day care centers while they move to work in various occupations; this as that which would be the beginning of such a program for capturing the minds of children.

This Awareness indicates this not as far-fetched as it may seem; that in crisis situations, whereby a depression might occur, particularly after.....This Awareness suggests this after the October '79 situation, whereby programs become initiated to give the masses opportunities to work for government programs; this opportunity for putting the children into government-sponsored day care centers may be initiated in order to allow both parents to work in various jobs and occupations being promoted.

This Awareness indicates that this as being a great crime against the family and as being something which would be part of the control and manipulation techniques of the Beast.

This Awareness suggests that it appears before this actually begins to occur that other changes in consciousness will effect a loss of power by the Beast on many levels, and in that loss of power, entities begin to shift and change their direction, that this need not occur.

This Awareness indicates it appears that 1980 and 1981 as the time when such a program will be attempted.
