Awareness

Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

78-35

COSMIC AWARENESS is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the *New Age*. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

Paul Shockley
Trance-Interpreter

MORE ABOUT

"ASCENDED MASTERS"

AND GROUPS REPRESENTING THE SPIRITUAL HIERARCHY

(Riding on the Coat-Tail of Jehovah)

Question:

We get a number of questions like this one I am going to ask about the Great White Brotherhood and other channels and so forth. This one is from R.S. of St. Cloud, Minnesota, who writes:

'There are three New Age light groups I am involved in at the present time and I would like to know where they are at from Cosmic Awareness's point of view. These three groups have a large following so perhaps it would be considered of common interest. I would like to ask this question to Awareness. These three New Age light groups: Mark Age, Summit Lighthouse and Movement of Spiritual Inner Awareness; with what type of energy the leaders of each group are working? Is it mental, psychic or spiritual energy, or another type? Another part of the question: the leaders of these groups claim to be the physical embodiments of immortal beings. Is this so? From Mark Age, Charles Gentzel claims to be El Morya on the spiritual plane, and Pauline Sharpe--Naida, from the Karmic Board; from Summit Lighthouse, Mark Prophet as Lanello and Elizabeth Prophet as the messenger from the Great White Brotherhood; from MSIA, Roger Hinkins as John-Roger the Mystical Traveler. All of these people are doing a great deal of good to the people through helping them to raise the levels of awareness and freeing them from negativity. However, I would like to know whether their identity claims are valid?'

COSMIC AWARENESS:

This Awareness indicates the identity claims are of little concern to this Awareness. This Awareness indicates that wherein entities desire to follow authorities, and wherein entities claim to be an authority of a certain type, identifying and claiming kinship with certain authorities, whether this be of a political, a spiritual or knowledgeable authority, that this as being related unto the hierarchy system, wherein the claim of authority as being stressed and emphasized in order that those who listen pay greater attention to the words of those who claim such authority.

This Awareness indicates 'that by your fruits you shall know them.' By the fruits of a tree, entities know the value and production of that tree. This Awareness suggests that any tree which claims to be an apple tree, but which produces pears will reflect a discrepancy in its claims.

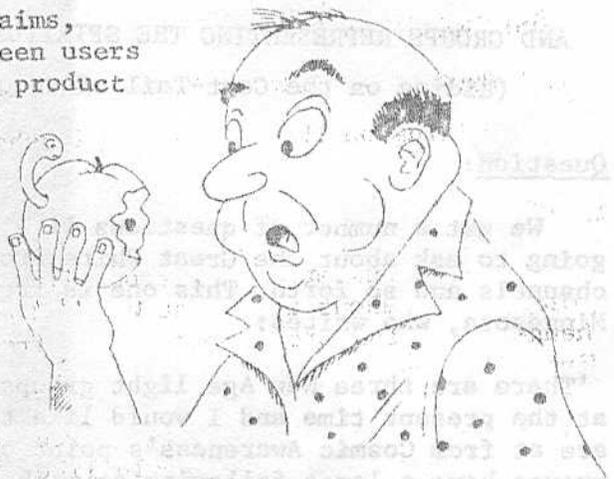

This Awareness indicates that any tree which claims to be a fruit-bearing tree, but produces nothing, will reflect exactly what it is.

This Awareness suggests that you not concern yourself with the claims of authority, that you look simply at the teachings and ask yourself: 'Is the fruit of this tree, is the teaching of this person that which is beneficial to my welfare?'

This Awareness suggests that there are now, and ever shall be, entities who make claims in order to sell their products. This Awareness suggests this is part of the packaging. This Awareness suggests that any entity who has lived in this commercial era should become aware of the nature of packaging and commercialization of all phases of human endeavor, whereby these products may be sold to the public, and whereby the advertising department makes claims which may or may not be valid.

This Awareness suggests you forget the claims, examine the product, talk to those who have been users of the product, and that you simply test this product for yourself.

This Awareness suggests that wherein you take upon yourself the use of a product simply because of the claims, but do not have the discernment to determine whether this product is really beneficial to you or not, and whereby you question other sources as to its value, this becomes likened unto using this Awareness as an evaluator of the product. This Awareness indicates this is akin to placing this Awareness in the role of the FDA to evaluate spiritual organizations.

This Awareness suggests that the various spiritual paths are open to many, that there are many ways wherein entities may travel to these states of enlightenment and understanding. This Awareness indicates the entity who is presently unknown, such as an entity who may, at this moment, be standing on a street corner with nothing to do and no place to go in his life, such an entity may make a claim, stating that "I am the incarnation of Zarathustra," or some other historically known spiritual leader, and this entity, in repeating this often enough, begins to identify with this concept, to feel the energies of that entity with whom he identifies, and may begin to create a following of entities who are looking for something or someone to follow. This Awareness indicates that once this occurs, the entity then has more support for his claim, for his followers also agree that he is the reincarnation of this entity.

This Awareness suggests that as a following occurs, this makes it possible for an even greater following to occur, and a cult begins. This Awareness indicates a cult is simply an action whereby a small number of entities in a society believe in the teachings of that particular group. A culture is that which is larger than a cult, wherein the culture encompasses the entire society, and the society accepts this belief as a truth and there is little question and few entities who do not accept the teachings of the society's culture.

This Awareness indicates that entities on all levels are being programmed by those who claim, and who make claims, of delivery from problems and difficulties; and those entities generally are playing the role of an authority.

This Awareness suggests that the entity, Jesus; the entity Krishna, and all of the other great leaders of various religions, these entities have been placed into

roles of authorities, whereby the personality became the guiding factor. This Awareness suggests that this is an error of the mass mind. This Awareness suggests this as likened unto the child who quotes the mother or the father for proof of his beliefs.

This Awareness suggests that you not concern yourself with the quotings or mouthings, or the repetition of ideas of those who are claiming to be authorities, so much as that you look carefully at what ideas, statements are being expressed. This Awareness suggests the **teaching**, not the teachers, the **message**, not the messenger. This Awareness indicates that the **awareness**, not the entity who claims to have the awareness.

This Awareness suggests that when you look carefully at the teachings, you will find there is much which may be so but cannot be verified. Therefore, if it cannot be verified, it needs to be taken either by faith alone, accepted by faith and belief, or it needs to be questioned and placed upon a shelf for further concern and examination at a later time, or it needs to be rejected as unprovable and unacceptable because there is no proof.

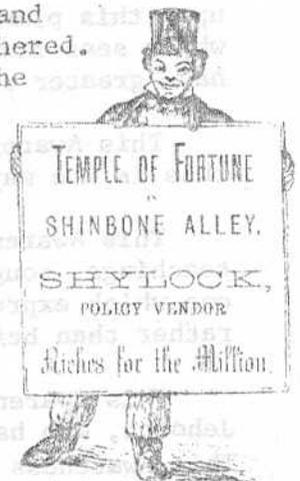

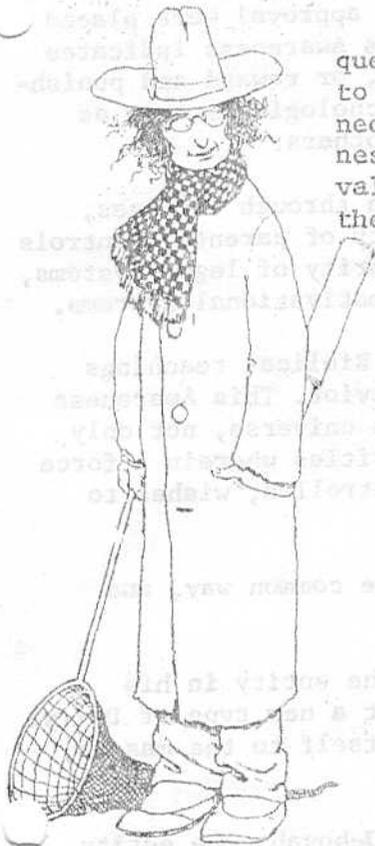

This Awareness suggests that either the belief or the rejection as being that which can lead you into wrong answers; but wherein you listen, without believing or rejecting, that information then may be placed upon a shelf in your consciousness for possible use or possible verification at a later time.

This Awareness indicates that you need not reject information. You need not accept information. You may simply let the information be, and as more and more information is gathered, the capability for evaluating the information from other information which has been gathered becomes greater. And this capability of greater evaluation is that which allows you to begin to see areas which may be more likely to be truthful than if you simply follow a teaching because someone claims to be a teacher and you must accept the teaching since that entity has made those claims.

This Awareness indicates in your particular question you are indeed questioning the claims of these teachers. This Awareness is suggesting to you that this is appropriate to question these claims, but it is unnecessary to discover whether these claims are valid or not. This Awareness suggests that were this Awareness to answer that these claims were valid, or were this Awareness to deny these claims as being invalid, the next question would be whether this Awareness was valid or not.

This Awareness indicates there is no way to ask authority for verification of authority without relying upon authority for answers. This Awareness suggests you not rely upon authority for seeking truth, that you listen to that which claims to be authority. You evaluate according to the general reliability of that authority and according to the implications and ramifications and relationships of all the information that is gathered. So that wherein you begin to put the pieces of the puzzle of various types of information together, and whereby you can see a total picture emerging from this piecing of parts together, then you can begin to suspect, (and that may be all there is), the suspicion that you have stumbled on to information that is valid, or stumbled onto information that implies something is not valid.

This Awareness suggests that truth is that which is, and wherein an entity believes that he has discovered 'The Truth', or a source for 'The Truth,' such an entity generally ceases to question and to explore and to research further in that area. This Awareness wishes entities to question, doubt, research, and to avoid absolute conclusions on anything, but to continue gathering more and more information about everything.

FEAR

How Jehovah and the Hierarchy Control Their Followers

(A Lesson from Pavlov's Dogs)

Question:

Awareness, I have one question relative to this and it relates to fear. I have heard tapes from a representative of a large group, which will remain nameless, that in their invocation to Saint Germain, I believe it was, there is a reference that if certain entities do not do certain things, that they can risk the annihilation of their soul. Now, when I hear things like this, it's a line that is drawn in my thinking that I don't particularly care to examine this any further; that I believe this is a basic untruth and I'd like to ask Awareness if there is a line drawn when the fear trip is laid out in some of the information that comes from these various groups.

COSMIC AWARENESS:

This Awareness indicates this as related in terms of the old ways, wherein fear and punishment were placed on one side, reward and paradise and approval were placed on the other side, and the entity was placed in the middle. This Awareness indicates that the entity then may be controlled by the stimulus response, or reward and punishment system, as explained in the works of Skinner and other psychologists; this as the most commonly understood form of motivational control over others.

This Awareness indicates that the majority of religions down through the ages, the majority of political and governmental agencies, the majority of parental controls and the majority of all business and corporate systems, the majority of legal systems, all work using the reward and punishment method of control and motivational systems.

This Awareness suggests that even the Old Testament and the Biblical teachings are filled with rewards and punishment for various types of behavior. This Awareness indicates this as a condition which has been used throughout the universe, not only upon this plane, but throughout the universe for controlling entities wherein a force which sees itself as being superior to those which are being controlled, wishes to have greater control over those who are its subjects.

This Awareness suggests that this is the old way. This is the common way, and this is the way for entities who are not highly evolved.

This Awareness suggests that the entity Jesus, the Christ, the entity in his teachings, sought to change this effort and sought to bring about a new type of Deity: one which expressed itself in service, in mercy, and by giving itself to the masses, rather than being a threat and power over the masses.

This Awareness wishes at this point to refer to the entity, Jehovah. The entity Jehovah, who has for so many thousands of years claimed to be the creator of humanity. This Awareness indicates this entity has been given credit for creating the earth and for creating all that is therein.

This Awareness wishes entities to look closely at the book of Genesis. That in

the first few verses, the description of the creation of heaven and earth as that which occurred from the works of the Universal Deity; that the story of Adam and Eve as that which was the work of the entity, Jehovah, who brought about, through genetics, a type of entity who would attend his garden as his servant.

This Awareness indicates the entity, Jehovah, as having been one who may be presently called a space traveler, or a being from another dimension other than this plane, but capable of moving into the physical from that dimension.

This Awareness indicates the entity, Jehovah, as being an immortal being; yet this entity as not the creator of the universe, but one who was capable of creating through the use of certain cosmic and universal principles, creating forms.

This Awareness indicates your present scientists are reaching a level whereby they also may soon become capable of creating that which you call clones. This Awareness indicates the entity, Jehovah, essentially was creating mankind, Adam and Eve, from an action similar to that which your scientists call 'cloning.'

How Jehovah Cloned Adam and Eve

This Awareness indicates that Adam, being created in the image of Jehovah, as likened unto that which is related unto cloning, whereby the cell of an entity is taken and the nucleus of that cell is placed within the egg of a female, whereas the nucleus of that egg is removed. This Awareness indicates that this, then, is implanted in an incubation system to allow the clone to develop, and that development will be in the exact image of the entity from which the cell was taken.

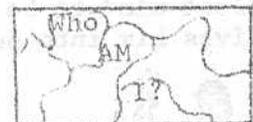

This Awareness indicates this has been done upon your plane with frogs and with certain other creatures. This Awareness indicates this has been done upon your plane by others than your own scientific establishment, whereby entities have been cloned and created.

This Awareness indicates that the entity, Jehovah, creating his special cloning followers for tending his garden and for his personal experiments, this entity then proceeded to attempt to mold and create and direct these clones by using the motivational behavior system of punishment and reward. This Awareness indicates that the entire Western civilization as being reflective of that kind of consciousness.

This Awareness indicates that the present spiritual organizations who stress the fear and punishment, particularly wherein the punishment is that from an unknown cause, or what may be termed unknown fears: fears created by concepts which may or may not be valid, such as the annihilation of the soul; that such concepts and such fear-producing ideas being used against entities to keep them in line, to force them into certain levels of obedience; this is but an old way which has been used for eons of time to keep entities enslaved and ignorant.

This Awareness suggests that if the entity teaching this can give the clear source for this information, can show entities how they may discover this for themselves, and can assist entities in finding ways whereby the behavior of an entity is encouraged rather than enforced: this Awareness suggests that then the teacher is showing responsibility rather than mere reckless control over his or her following.

What Happens When It's a "Possibility"
But You Let It Stand at That
(Putting the Jig Saw Puzzle Together)

Question:

I feel there is an area still needing more clarification on this: when Awareness has reminded us not to come to final conclusions on matters, and I understand that, but one question still bothers me. I know of some people who don't seem to advance in thought from year to year, but just say: "It's a possibility," with no change. It seems this situation doesn't allow any operating base for action.

COSMIC AWARENESS:

This Awareness indicates that when entities sit down to put a jigsaw puzzle together and are given pieces of jigsaw puzzles that are thrown into a box: these may be likened unto pieces of the puzzle of life. This Awareness indicates the entity does not know whether this is all one puzzle or whether this is many puzzles mixed up together. This Awareness indicates that wherein an entity begins putting parts together and they appear to fit, and a picture begins to emerge, the entity then may assume temporarily that this may be valid. This Awareness indicates that where the entity runs out of pieces and cannot find further pieces to fit around that small portion, or picture, which he has assembled, the entity then must begin to look elsewhere and to seek to form other parts of the puzzle in another area.

This Awareness indicates, for example, the materialistic scientist attempts to put the pieces of the puzzle together by exploring from the ground up; from the practical, materialistic level, upwards. The spiritualist scientist attempts to move from the spirit downward, receiving information from spiritual levels which are intended or supposed to account eventually for the material manifestation.

This Awareness indicates the entities who are putting this puzzle together may each work separately on different areas, and each may say, "I have the key to the puzzle. I can see from my little portion that the entire puzzle is going to look like this, and this is what we will discover."

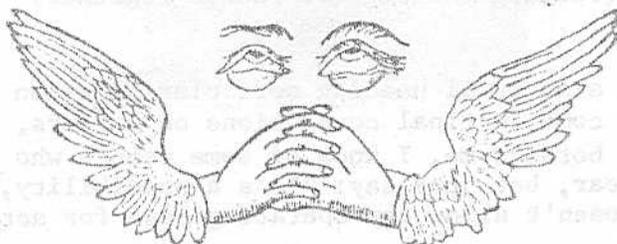

This Awareness indicates that if they stop their efforts at the periphery of their own picture and fail to look any further, and assume they know what the picture of this puzzle is going to produce, they have ceased to discover. They have ceased to learn. They have assumed they know.

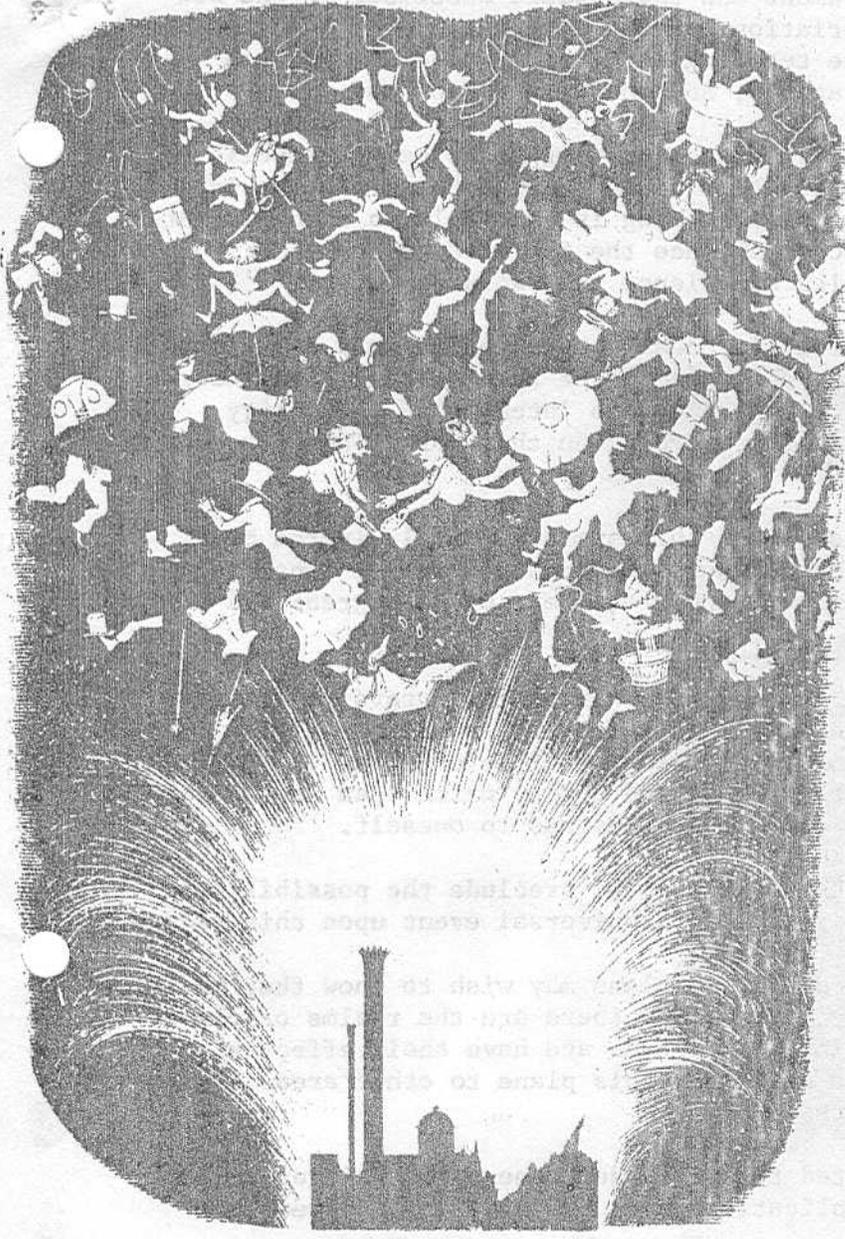

This Awareness indicates that wherein one group assumes it knows and another group assumes it knows, yet all of these various groups, (assuming they understand the entire picture of life), are not in agreement with one another, there must be some kind of error.

This Awareness indicates that, of course, each group assumes that the others are in error and that they have the correct answer. This Awareness suggests that wherein a newcomer enters the scene and begins to help one of the various puzzle persons put their puzzle together; this newcomer is likely to become identified with whoever he or she is assisting, and may begin to champion the cause of his or her own sponsor. This Awareness suggests that an entity, wishing to be totally objective, will look at the materialistic levels, will look at the spiritual levels, will look at the other levels and other entities putting their pictures together.

This Awareness indicates you may eventually have many different kinds of materialistic attitudes and beliefs and systems which each may claim to see the correct picture. Yet, even these materialistic approaches may differ from one another as to what is the proper picture of the universe. This Awareness indicates the same may be said for the various spiritual organizations, each claiming to see the proper picture.

This Awareness indicates wherein an entity enters and wishes to discover truth, the entity must look for the entire picture rather than believe in any portion or part therein. This Awareness indicates wherein an entity simply wishes security and does not mind to be deceived, the entity then may side with any one portion that deceives him into believing that that portion is correct.

More on Jehovah...

THE CHRISTIAN "RAPTURE"

(Shooting Off From the Earth
In the Name of the Lord)

(Not as Far-Fetched as it Sounds)

Question: A question from D.L. of L.A. Calif. Please ask Awareness this question: Many Christians who are also avidly studying the Bible, expect that in a short while, the rapture will come. At this time, they will shoot off the earth in some fashion. My question is: will the rapture really be the great surge when many souls reach the Cosmic Consciousness together?

COSMIC AWARENESS:

This Awareness indicates this again relates back unto the activity of Jehovah.

This Awareness indicates this entity as one who was using the earth to create a particular type of entity which he then intends at a later time to harvest.

This Awareness indicates that the plan of Jehovah as that which was partially thwarted by the entity, Jesus. This entity changing the concept of a god of power and wrath, one who would slay the enemies of the Jews: this entity, Jesus, changing this concept of God into a merciful God who loved all entities, regardless of origin, nationality, racial differences, or their place or status in life.

This Awareness indicates, by doing this, the entity Jesus began to assist in the breaking down of the separation of the Jewish or Hebrew culture from the rest of the world, and from the other cultures of the world. This Awareness indicates Jehovah as having sought to keep the Hebrews separate through cultural demands and through various rules and regulations. This Awareness indicates that the entity, Jesus, as one who was seeking to break down these cultural barriers and to allow the Jewish entities, the Hebrews, to move into a merging with the rest of the people on the earth.

This Awareness indicates that the entity, Jesus, as changing the religion from one which was based on a space being who was harvesting and growing human beings for his own purposes, to one which was of a mystical nature, a spiritual nature, whereby the religion of the world, (the Western world in particular), would take on a mystical interpretation, dealing with spiritual energies rather than hereditary and behavior type of energies.

This Awareness suggests that the rapture reflects back on the Jewish belief, the Hebrew belief, that Jehovah would return and slay the non-Hebrew, or destroy the people of the world who were not his creation, and would take the Hebrew from this planet to another place in the universe.

This Awareness indicates the New Testament and the rapture described in the New Testament, was of a slightly different variation, giving a religion in which those who were loving and those who followed the teachings of Christ would be raptured by Christ and his followers, Christ and his angels, and would be taken away.

This Awareness indicates that in another sense, the rapture as being symbolic of entities who become enraptured at the revisitation of the Christ Consciousness into their lives. This Awareness indicates the Second Coming is available in each generation, wherein an entity opens oneself up to experience the Christ Consciousness; then the Christ Consciousness enters and entities experience the rapture.

This Awareness indicates the Beast itself is capable of entering into the lives of each individual and ruling therein for a short time; yet the Beast rule can never be lasting in any individual, for such a rule becomes too intense and the entity simply cannot survive under the controls of that force when that force inhabits an entity's consciousness.

This Awareness indicates the Beast itself, on this symbolic level, is the mind, the selfishness and the greed-centered consciousness; whereas the Christ Consciousness is that which is pure, virgin-born and virgin-pure, clear without greed and lust motivation as with the Beast.

This Awareness indicates that wherein this pure consciousness enters the entity, that is the Second Coming and the 'rapture' which entities may experience. This Awareness indicates this, of course, is a symbolic meaning of Revelation, the Book of Revelation and the seven seals or chakras within the entity which open and reveal oneself to oneself, which open and reveal one's consciousness to oneself.

This Awareness indicates that this does not, however, preclude the possibility of this action, this activity, expressing itself in a universal event upon this plane.

This Awareness suggests that entities upon this plane may wish to know that there are many levels of reality. There are many worlds, and there are the realms of the immortals, and these immortals can enter into this plane and have their effect upon this plane and can, in fact, take entities away from this plane to other areas in the universe, or to other realms in the Universe.

This Awareness indicates this as related to the consciousness of entities and to certain inter-relationships and karmic implications by such entities involved.

Is it a Violation to be
Whisked Off the Earth?
(More on the Alien Force)

Question:

Awareness, isn't that a violation of entities?

COSMIC AWARENESS:

This Awareness indicates there are entities within the universe who violate others, but not all entities who violate live among you on this plane in physical form. There are entities who are of other realms, often invisible to you, who indeed can violate entities.

This Awareness indicates it is important that entities are aware of the kinds of energies which they emanate and the effects of those energies, and that they also become aware of the methods and means whereby they may protect themselves from those forces which would violate. This Awareness suggests that entities who move into higher levels of consciousness become more subject to potential interference by those entities who do not wish entities to move into higher levels of consciousness.

This Awareness indicates, however, that as entities practice the Law of Love and resist not, and follow the course of least resistance, without fear; these entities are almost impossible for alien forces to manipulate, regulate, or to interfere with their purposes and lives.

This Awareness indicates that entities may shield themselves from these alien forces. That wherein an entity begins to open oneself up through fear or through hostility, or through frustration or through illness, through drugs, or through those rituals or associations with entities who draw in such alien forces: these entities may find themselves in situations wherein the alien forces are penetrating and causing certain disturbances.

This Awareness indicates that often an entity, moving in high levels of consciousness, will find himself or herself bombarded by those alien forces in a manner that is most difficult to deal with. This Awareness indicates the alien forces do not bombard the entity who is working with them, but attempts to bombard the entity who is working in higher spiritual levels in a manner that might threaten the alien forces.

This Awareness suggests that it becomes necessary for entities working in high spiritual levels to be aware of, but not fearful of, alien forces, and to be aware of how to deal with those energies, if necessary, without becoming fearful or hostile toward such forces.

This Awareness indicates alien forces, essentially, are only forces which live in ignorance and self-centered greed energies.

ED's NOTE: For more information on the alien force and how to protect yourself against it, please refer to Revelations of Awareness No. 77-13, 78-9, 78-13, 78-36.

MORE ON CELESTRIA...
LAND OF A THOUSAND RAINBOWS

Question:

A Question from R.E.E: "Awareness indicated Celestria contains entities who did not split off from the integration with Awareness and universal forces and follow the Luciferian mind into separateness. Please indicate if this realm called 'Celestria' means the upper astral plane, the lower and higher mental planes, and/or the planes beyond the mind, sometimes called the god planes or the Buddhist, Nirvanic etc. of non-polarized calm, and whether it contains that mass of entities from which the earth entities divided from upon the fall of man; if this is what occurred?"

COSMIC AWARENESS:

This Awareness indicates this as that which has been termed the land of Essence. That in the area of Celestria, wherein the thousand rainbows constantly emanate their light, wherein light itself is that which is the essence of being; wherein the reflection of that light emanates as colors; wherein entities are indeed themselves as bodies of light; wherein entities come in contact with one another and create sparks of light and life; wherein bliss is the very atmosphere which entities breathe; wherein entities in coming in contact with one another in this sea of bliss, experience that which may be likened unto the experience of sexual climax in a spiritual

level, which is beyond the imagination of entities upon this plane; that this realm of Celestria is that which cannot be clearly defined to entities upon this plane, for its nature is of such blissful energies that description with words is inadequate.

Sex Life in Celestria (The Cosmic Orgasm)

This Awareness indicates that if you can visualize yourself as a body of blissful light, moving upon a land made of golden light, wherein plants and growing things also emanate that light; wherein you may drink of the nectar of flowers, a liquid which is more pleasing than the taste of honey. This Awareness indicates this likened unto a cross between the heart of a watermelon and a drop of honey; yet this as having a fragrance likened unto lotus blossom and a texture that when it touches your tongue, causes an electrical flow of energy throughout your body and causes the body to emanate sparks of vitality, bliss and light. This Awareness indicates that this is the food of the gods which entities in Celestria drink.

This Awareness indicates that such entities then, in moving in contact with one another, approaching one another, (even at a distance of five times their own arm reach), may touch each other's auras; and when this occurs, these beams of light shower between such entities, exchanging the energies of the entities in a manner that may be referred to as 'Cosmic Climax.' This as being the only form of sex which these entities have. This as likened unto an exchange of bliss between the entities, even though they do not physically touch, their auras being all that merge.

This Awareness indicates, indeed, this is the heights of development of entities in physical forms, yet these forms as being not of a physical nature, but of a magnetic light. This Awareness indicates that the magnetism and radiance being that which creates these lights and the souls and spirits of these entities.

This Awareness indicates the fall of the angels, the fall of Lucifer, this entire action was one wherein those entities who followed Lucifer, moved into that realm which may be referred to as Hades, the darkness of the universe, wherein the realm was partially completed, but not totally completed, to allow these immortals to have certain experiences whereby they might struggle and whereby they might develop a desire, and whereby they might learn and discover, Who, In Fact, They Really Are; and whereby they might reflect upon the nature of their own being to discover their inner workings.

This Awareness indicates that the created realm known as the mortal world, as that wherein entities were made from material energies, plus the use of immortal sparks, into that material combination of energies. This Awareness indicates that this as likened unto the efforts of Jehovah in creating Adam and creating Eve. This Awareness indicates there were many entities made in the material levels on other planets, in other galaxies, in other places of the universe, made by other space or immortals than Jehovah, himself.

This Awareness indicates the immortals being capable of creating into the mortal world these various bodies and shapes which then allow spirits to develop and, in some cases, allow immortals to invade into those physical bodies which are then capable of certain types of experience that are denied the immortals.

This Awareness indicates when entities are immortal, life can become somewhat boring and entities can often look forward to an experience of great change, such as birth in the physical, and death in the physical, wherein birth and death in the mortal realms becomes likened unto a vacation from immortality so that entities may forget for a time all of the long string of memories and experiences that immortals

must deal and live with eternally.

This Awareness suggests that the question may be reasked if there were areas which were not clearly answered.

Jehovah and Rhyee

Question:

Not the particular question. I had a question. What was the relationship, if any, between Jehovah and Rhyee, the first separateness?

COSMIC AWARENESS:

This Awareness indicates the entity, Jehovah, as having at one time been the ruler of Mars, the Lord of Mars. This Awareness indicates Rhyee as having been the Lord of Earth. This Awareness indicates that the entity Rhyee as also having been a representative or extension of the entity known as Lucifer.

CAN AN ENTITY EVOLVE BEYOND CELESTRIA ?

Question:

In relation to Celestria, assuming that those entities there are karma-free and have a choice of not relating to other earth experiences, or other experiences, have these entities reached the ultimate of their spiritual development or evolvment, or are there other levels beyond Celestria to which they can go if they wish?

COSMIC AWARENESS:

This Awareness indicates these entities can experience higher levels only in slight degree of difference. This Awareness indicates these entities living in bliss, experiencing bliss, have little motivation or reason to move into any more sublime level of experience, for they seek not to escape from any experience which they have, other than the possibility of becoming somewhat complacent and bored with their present experience.

This Awareness indicates that wherein these entities do become somewhat bored of their present experience, they usually seek adventure and some type of hardship experience, and in that manner, leave Celestria for the lower realms.

This Awareness indicates that essentially, the only higher realms which such entities may move to would be into levels whereby they dissolve their identifications into experiences of greater bliss. This Awareness indicates that the greater bliss as that which allows the entity's aura to expand and contact other entities in Celestria and experience their experiences through such contacts.

This Awareness indicates that essentially, melting of individuality as that which allows them to merge into the clarity and the blissful energies which are the essences of akasha and the Universal Spirit.

This Awareness suggests that such entities do not seek to remain in that state permanently, but do return to areas whereby they may experience certain degrees of individuality.

THE REALM OF CIMMERIA (The point of No Return)

This Awareness indicates that there is a realm known as Cimmeria by certain entities, whereby those immortals who cannot adjust to Celestria, to Hades, or to the created realms of the mortals, may be sent. This occurring in very rare instances, for when entities enter into Cimmeria; this area as likened unto that which is the residue of a previous creation, but which does not have at this time, consciousness, but is more likened unto a mystical fog of seething unconsciousness that seeks with

all its being to find form into which it may express itself.

Cimmeria as that which is the deepest mystery and most dreaded area in all creation, whereby even the immortals dare not go.

This Awareness indicates this may be likened unto the second death, for once entities enter Cimmeria, they seldom, if ever, return.

This Awareness indicates the spelling of this as Cimmeria...C-I-M-M-E-R-I-A.

DOES COSMIC AWARENESS HAVE THE POWER
OR DESIRE TO SAVE ENTITIES FROM SUICIDE?

Question:

A question from D.K. of Beaverton, Oregon. Does Awareness have the power to save Its followers from such dangers as suicide or perdition? Does it have the **desire** to save Its followers from these dangers? How **strong** is this desire, assuming it exists?

COSMIC AWARENESS:

This Awareness wishes entities not to think of this Awareness as an entity up there holding power over the lives of entities.

This Awareness wishes you to look at this Awareness as awareness.

Does awareness, does **enlightenment**, have the power to prevent entities from suicide?

Does **enlightenment** have the power to prevent entities from suffering? Does **enlightenment** have the power to bring this planet into balance?

This Awareness indicates that enlightenment can do these things when entities begin to share and experience that enlightenment.

This Awareness can do these things when entities begin to share and experience with this Awareness.

ED'S NOTE: For more information on Celestria and Hades, please refer to Revelations of Awareness number 78-19.

The illustrations used in Revelations of Awareness Newsletters have neither been approved nor disapproved by Cosmic Awareness. (We're afraid to ask), but are the responsibility of the editor.
