COSMIC AWARENESS is the force that expressed itself through Edguy Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

THE LAW OF LOVE

(A Revision by Cosmic Awareness)

Question: (C.A.C. General Reading, July 28, 1978)

Awareness, we are here today for a final general reading. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness suggests that the Interpreter previously mentioned the revising of the Law of Love. This Awareness indicates this as that which is appropriate as was indicated.

This Awareness indicates that as the movement of energies in the readings is disseminated to the general public, there needs to be greater clarification of certain wordings of messages so that these words do not create the shocking effect upon those new members and those who are new to this material.

This Awareness indicates in this particular instance, whereas the Law of Love presently as given ends with the statement 'that resists not evil;' this statement being also one which is found in the Biblical message of the Christ relating to the turning of the cheek.

This Awareness indicates that many entities appear to be shocked by that phrase and do not realize that this phrase, 'resist not evil,' was spoken also by the Christ, by Jesus Himself, and is found in the Book of Matthew. This Awareness suggests that this often becomes a block to further communication whereby certain fundamentalists, who are not familiar with this passage in the New Testament, assume that because the Law of Love makes the statement 'resist not evil' that the Awareness movement must be of the Devil.

This Awareness suggests that due to this continuing challenge, it appears appropriate that a modification of this Law is suitable in the following manner: This Awareness suggests the Law may be read as follows:

The Law of Love is that law which places the welfare and concern and feeling for others above self. The Law of Love is that close affinity with all forces that entities associate with good. The Law of Love is that force that denies the existence of evil in the world, that resists not. Love follows the course of least resistance.

This Awareness indicates there are some entities who would prefer to change other lines in this law, particularly the reference to placing the welfare and concern of others above self, stating that it is more appropriate to place the welfare and concern for others along with self.

This Awareness indicates that although It has suggested that entities not sacrifice themselves for this Awareness, it appears at this time in consciousness that were entities to attempt to equalize the Law of Love wherein they place welfare and concern for others along with self, this kind of concept would easily be discharged in its value.

This Awareness suggests that wherein you put the welfare and concern for others above self, indeed you are acting in a state of love; that it is suggested entities give the other a benefit of doubt and a greater than fifty-fifty percentage in a relationship.

This Awareness indicates that wherein an entity gives too much to another and is being devoured by the other's energies, and is sacrificing oneself to another, this may be considered as an expression of love for a time; but wherein an entity is discerning, it becomes obvious that one who tramples upon another, even if that other is yourself, that one who tramples upon another is not being given justice in the relationship and it is the responsibility of the one who is being violated to inform the other that this cannot be tolerated.

This Awareness suggests that it is important for entities to share with one another; and in order to share in a manner which allows a free flow of concern and consideration for the welfare of others, to compensate for the tendency of entities to look out for their own self-interest, (a problem of identification with most entities), it is suggested that you consider the concept of placing the welfare and concern for the other over your welfare and concern for yourself. This tends to balance the tendency to be more self-concerned than other concerned.

ED'S Note:

The symbol Awareness has given for the Law of Love is printed on the other side of this page. When this symbol is energized in the mind's eye during meditations and healings, it greatly enhances the results.
