Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the *New Age*. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

## CAN THE WHALE BE SAVED ?

How One Entity's Energies  
Can Dethrone the Money God

(The Rape of Consciousness)

Paul Shockley, Trance-Interpreter

### Question:

A question from N.K., co-chairman 'Save the Whales Committee.' I seek this answer. Will these efforts to save the sperm whales be successful? Will men and women of courage be long in coming to help? How can I contact them? Am I sincere? Truly! As present funds don't permit an offering, let me offer my knowledge and skill at your disposal after May 25th, for three days, in return for your answer urgently anticipated.

### COSMIC AWARENESS:

This Awareness indicates your efforts in this action as that which is satisfactory energy being given. This Awareness suggests that the nature of your work and those who are involved in this action as that which is having its effect, not only in terms of saving the whales, but also in terms of pointing out the need to be aware of all life forms upon this planet.

This Awareness indicates that the action of saving the whales is a kind of alchemical symbol whereby the vital forces of entities are being respected, whether these entities be fish, fowl or mammal.

This Awareness indicates the Piscean Age, the sign of the fish, is that which is also being represented in this action.

This Awareness indicates that at the end of each Age there is a symbolic ritual that has been performed whereby the symbol of that Age is sacrificed. At the end of the Taurus Age, the bull was slain as a symbol for the ending of that Age, and this is reflected in the Spanish bullfighting. At the end of the Aries Age, the slaying of the lamb as that which was reflected both in the sacrificial rituals as well as the symbolic crucifixion of the entity Jesus as the Lamb of God.

This Awareness suggests that the final Age of Pisces being threatened with another symbolic ritual, the sacrifice of the fish, the whale. This Awareness suggests that these sacrifices have gone on long enough; that the path to spiritual development is strewn with sacrifice, and sacrifice has not brought about great change in entities nor in their levels of awareness.

This Awareness suggests that entities no longer sacrifice themselves nor other creatures for their gods; that the money god as that which is demanding the sacrifice and extinction of the whale and of other species, and this money god is that which needs to be dethroned.

This Awareness suggests that it is long overdue that entities take away the staff of the money god, that they turn their attention to the gods of life, of liberty and of happiness to all creatures. This Awareness suggests that lust, greed and power are the three gods who are fostered by the money god, and these three are those who are the great betrayers of human kind, as well as the other creatures of the earth.

This Awareness suggests that even if there were only one entity left to cry out against these violations, that one entity would still have the possibility of making a change, of being heard, and of changing the course of history.

This Awareness suggests that the road is long and difficult for the entity who seeks to change the direction of consciousness; yet it is that which has been trod many times by many entities, alone or together with friends, and the direction of consciousness has been changed, often by the voice of one individual crying out in the wilderness.

This Awareness suggests that you not be discouraged; that you continue as long as there is still a whale, a bird, a fish, an animal, or a bush left living on this plane. For there is that which needs protection; and as long as there is one who can speak for those who cannot speak, this is a responsibility and a duty to do so.

\*\*\*\*\*

#### ED's Note:

Those who wish to help save the whales and other sea life may obtain information by writing to: GREEN PEACE, 860 2nd Ave., San Francisco, Calif. 94107 (These are the valiant entities who daily are risking their lives in small boats by confronting the Japanese and Russian ships on the high seas engaged in the slaughter of these mammals).

Also the Center for Environmental Education (The Whale Protection Fund), 2100 M St. NW, Washington D.C. 20037. Both organizations are non-profit, tax-exempt groups and solicit your financial and physical support.

#### TRANSCENDENTAL MEDITATION IS IT CHANGING CONSCIOUSNESS?

#### Question:

From T.O., Baltimore, Md. This summer, your state of Washington, as well as Rhode Island and other territories in the world, are becoming laboratory subjects in a controlled experiment examining relationship between consciousness and society. Teachers of transcendental meditation program are flocking to these territories in order to measure the effects of a heightened level of consciousness upon such variables as crime rate, hospital admissions and weather. The theory is that small percentages of meditators in the population, and even smaller percentages practicing the TM Sidhi techniques, can precipitate a phase transition in consciousness, and a tunneling effect throughout the world. Could Awareness comment on these principles, techniques and relationships?

#### COSMIC AWARENESS:

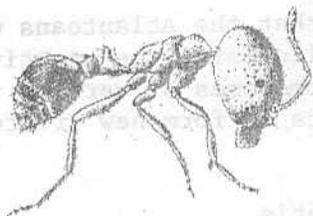

This Awareness indicates this as in the affirmative; that this as a continuation of the same type of energies which were implemented during the early days of the Organization of Awareness, wherein the Kahuna Ring was created around the earth. \*

This Awareness indicates that groups of meditators can have their profound effect upon consciousness, and can, through meditation, even effect weather, violence, crime rate, and can even have an effect on ending wars.

This Awareness indicates much of this information has been given previously and has been used in certain experiments in the early days of the Organization of Awareness and Servants of Awareness, during the previous decade.

\*\*\*\*

\* ED's Note: Further information on the Kahuna Ring can be found in the introductory pages of the Meditation Manual. (Price: \$3.00) See Back-Issues catalog.

### HOW TO STOP THE SPREAD OF THE FIRE ANT

#### Question:

J.S. of San Francisco has a question. I recently saw a TV program which showed how a species of ants called, 'fire ants,' has invaded the southern United States and is rapidly spreading northward. These ants are highly aggressive and capable of inflicting a very painful fiery sting, which gives them their name. According to the program, all known pesticides were tried, but were useless to stop their spread. Can Awareness give a solution to this serious problem?

#### COSMIC AWARENESS:

This Awareness indicates there are methods whereby disease may be placed into the ant civilization for ridding them. There are also methods whereby sterility may be introduced to those civilizations.

This Awareness suggests, however, that there can be room made on the earth for such civilizations, if entities so choose. This Awareness suggests that wherein these civilizations become too threatening to the human form, that it becomes appropriate for the human form to remove those civilizations; for the ant is, in essence, only an insect which is created out of the thought-forms of the civilization of Atlantis, and is a remnant from Atlantis and earlier cultures, and the thought-forms that spilled out of the consciousness of those early civilizations and took form in the evolving creatures of the time.

This Awareness indicates the ancient scientists creating various species of insects and entities and many of these being accidentally created from one another, and, through evolutionary accident and process, have created various types of creatures upon this earth.

This Awareness indicates, however, that these creatures in general are the creations of the immortals and of the consciousness of humanity, and that in this manner mankind or humankind has been given dominion over the animals and insects and birds and fowl and plants of the earth. Yet, this dominion as that which must be handled carefully and wisely to avoid over-balancing the natural environment of this earth, and suffering the consequences of that imbalance.

#### FOOLING AROUND WITH CREATION:

(Is the Myth of 'Pandora's Box' True?)

#### Question:

Awareness has indicated that the fire ant was an accidental creation by those entities in Atlantis who fooled with creation. This leads me to wonder if perhaps the so-called 'myth' of Pandora, the first mortal woman, fashioned from clay by Hephaestus, who intended that, by her charms, she should bring misery upon the human race, may have some basis in fact. According to the myth, Zeus gave her a beautiful box and forbade her to open it. She of course did, and the plagues of mankind escaped and all that remained in the box was hope. Would Awareness please comment?

#### COSMIC AWARENESS:

This Awareness indicates this can be viewed as symbolic of various types of experiences of human expression from previous lifetimes.

This Awareness indicates that this as an allegory which has many different levels of meanings. This Awareness indicates in one level, what the questioner suggests is in the affirmative. On other levels, there are other meanings.

This Awareness suggests that the Atlanteans were well informed and did practice using the creative forces which direct the chromosomes of various types of creatures in their efforts to form new creatures.

Our Tom Cats  
Created in Atlantis

This Awareness indicates the Atlanteans as responsible for the domesticated cat and for other insects which are presently living upon this plane. This Awareness indicates the Atlanteans as also having experimented with certain cloning sciences; that there was some success in this and there were certain creatures created; yet their greatest concern was in mixing of the qualities of these creatures.

Pigs Part Human

This Awareness indicates the pig, itself, as having been developed from certain types of chromosome manipulation which incorporated certain human characteristics in its development.

This Awareness indicates the statement that the pig as being created by mixing the human and the earlier boars as not correct, for this is not exactly a mixture. Yet there were certain qualities from

humans which were placed into the pig's evolutionary development through certain types of hormone injections and cellular marriages...certain chromosomes taken from the human cell, mixed with the cell of the pig, for reproduction of a new species of pig.

This Awareness indicates that this as a kind of activity which the Atlanteans engaged their scientific efforts toward. This Awareness indicates that more on other levels of this science shall be given at other times; that this is sufficient for present.

WHY DID THE BIBLE CALL THE PIG  
"UNCLEAN MEAT" AND PROSCRIBE IT?

Question:

In reference to the pig, there is a question I want to ask. It was sent in by V.K. of New Haven, Connecticut. "Many religions condemn the eating of swine. Is the pig any different from any other animal in terms of eating its meat and one's spirituality?" And I might add, does the information Awareness just gave on the pig have anything to do with this "unclean meat" of the pig, as mentioned in the Bible?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That essentially, the essences taken from the human and placed into the pig as that which relates unto the qualities that develop appetite. This Awareness indicates, however, that there are certain other qualities which went into the makeup of this particular species known as the pig. This as being certain qualities of human intelligence.

This Awareness indicates the pig does have a kind of human intelligence of a certain type. This as being carried through the pig's hereditary lines via its chromosomes. This Awareness indicates that in one sense, an entity could say that the pig is part human. This Awareness indicates in another sense, one could say that it simply has certain essences which were taken from humans and put into the animal. This Awareness indicates this as a matter of interpretation.

This Awareness suggests, however, that the use of pig meat as that which has been a strong factor in many religions. The Hindus avoiding the meat of cows, as well as other animals, and the Western world, particularly of the Jewish influence, as avoiding the meat of pigs. This Awareness suggests that there are certain qualities within the pig meat which can be detrimental to the health and psychic development of entities; yet some entities are immune to the ill effects of pig meat when used in small amounts.

This Awareness suggests, however, that as a general rule, it is best to avoid the use of pig meat.

HOW THE EATING OF MEATS, FISH AND FOWL  
EFFECTS HEALTH & SPIRITUAL DEVELOPMENT  
(A Guideline for the Cook)

This Awareness suggests in terms of living long and healthful lives, as well as using diet for spiritual development, the use of pig meat is the more detrimental to such development.

The use of cow as next in line, and the use of other red meats following.

This Awareness suggests that lamb as not being of great detriment, that fowl follows this, and fish as being least offensive to entities in their health and growth.

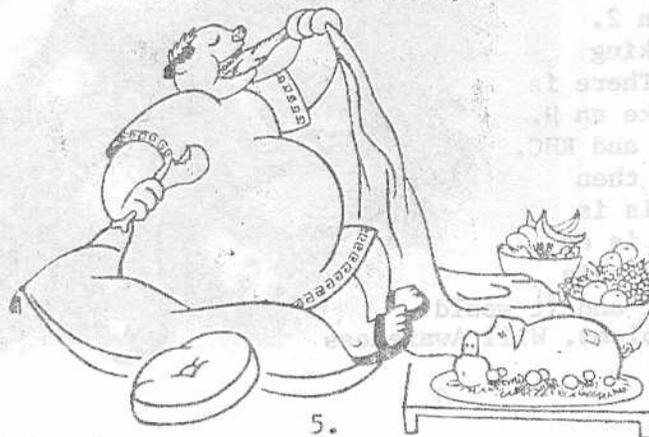

That shellfish as being the more beneficial of the meats. That from there, it moves into the vegetable kingdom, particularly the areas of mushrooms, which are becoming much more beneficial than detrimental.

This Awareness indicates that one cannot state that the avoidance of all of these at all times will necessarily be beneficial, but rather that these be used not in great quantities in a diet, other than as is necessary.

This Awareness suggests the emphasis be placed on fruits, nuts, vegetables, then the shellfish and fish as being more of the borderline foods. That other foods in the meat department as having less emphasis in the diet.

This Awareness suggests this as kind of a general outline for entities to view the nature of the over-all picture of proper dieting.

This Awareness suggests, however, that some entities may require, for certain periods of time, or for certain physical urgency, the use of red meats while their development and body is making adjustment toward the more refined levels of spiritual expression. This depending greatly on the environment, workload, attitude and the transmutation of the energies of the entity.

IS A FALSE POPE ON THE THRONE IN ROME?

(Monkey Business in the Vatican?)

Question:

Due to a number of stories in the tabloids etc., we've had a number of questions on this subject I'm about to ask, and I think this question from S.C. of Richmond Heights, pretty well covers it:

"A while back, I found a newsletter on my car in a shopping center parking lot. It was called, "Michael Fighting," and the editors were obviously Roman Catholic. In the October, November, December, 1975 issue, published in Rougemont, Quebec, there is a startling article about Veronica Leuken. She states that on September 27, 1975, at Bayside, New York, she had a vision of the Blessed Virgin Mary, who announced that the real Pope Paul VI is drugged beyond competence and an imposter is taking his place, put there by Archbishop Agostino Casaroli, Archbishop Giovanni Benelli, and Jean Cardinal Villot. They are high-ranking officials of the Vatican government. The imposter was placed there, with the help of plastic surgery, so these three men could rule 'for the forces of Satan'. Would Awareness please comment?"

COSMIC AWARENESS:

(Long, long pause)

...This Awareness will not comment on this.

\*\*\*\*

EP's Note:

This question was asked in a general reading, July 21, 1978. A month or so later Pope Paul VI died. In an unprecedented burst of speed, a new pope was elected only a few days later, a process generally taking weeks or months. The new pope, calling himself John Paul I (no relation to the actor) immediately reappointed Jean Villot as Secretary of State, the equivalent of the Vatican's prime minister, and Archbishop Agostino Casaroli as Secretary of the Council for Public Affairs, the Vatican's foreign minister.

MORE ON PREDICTIONS  
BY 'PSYCHICS'

Question:

A question from D.R., Lincoln Hill, Calif.  
"I have an urgent question for Awareness. While a psychic was in a trance state, a message came through giving a formula for a new fuel. The message was: 'I see letters. There is a Y. There is an R. There is a loop number. It's like a 2. There is a 2. A funny looking slash like a check mark. There is another number that is like an H. Then there is a letter T, and RHC. There is a Z again, an H, then there's an OP4. All of this is underscored and over this is an R2V and V.' They said that this formula would be important and it would help people with fuel problems. Will Awareness please comment on this?"

This Awareness indicates this as being 'all Greek' to this Awareness, and suggests that you return to the psychic and ask the psychic to explain further, if clarification is possible.

This Awareness indicates that wherein psychics give information that is garbled and cannot be understood, or whereby the message is confused and veiled in hidden symbology, or whereby the information is said to be so profound, but cannot be understood because of incompleteness or a lack of clarity, this Awareness is not inclined to decipher or to make valid the claims of such psychics.

THE DIFFERENCE BETWEEN  
A 'SINNER' AND A 'JOKER'

(Rationalizing a rip-off of Society)

Question:

A question from G.S. of Huntington Beach, Calif., that is rather strange, but I think he is serious.

"Would Awareness please differentiate what has been referred to as a 'sinner', from a 'joker,' as in the case where one unkindly steals out of sheer needy purposes and the other out of childish play? Could an entity lead a humorously mischievous, yet perhaps vandalistic, such a life, free from karmic entanglements because of his strength of true love that he holds for all?

COSMIC AWARENESS:

This Awareness indicates you will better understand the nature of energy if you toss out the words 'joker and 'sinner'.

This Awareness indicates the word, 'sin', is simply related to the geometric term, sign, which means in effect, off course.

This Awareness indicates that the 'joker' is a term, in this case, which refers to one who is playing jokes on others for his own amusement.

This Awareness indicates that by throwing these terms out, you are left with the entities involved and their own motives for their actions.

This Awareness suggests that wherein an entity steals out of need, and another steals out of need to play some kind of joke on others for his own amusement, there is little difference in any part except the need. This Awareness indicates the one may need the food or the object which was stolen; the other may need the thrill of putting something over on another. This Awareness suggests that in either case, the entities are not relating clearly and the degree of violation or the degree of unclarity, or the degree of attitude and separation from that which is clear relationship, is that which will determine any karmic implications.

This Awareness indicates often entities steal out of need, yet they are the one's who put themselves in need in the first place, and therefore their need may not be justification for the theft, although they may justify the theft from their need.

This Awareness indicates that there are entities also who have certain types of rationalizations which state that 'there are too many people who are caught in material realms and materialism and are identified with things, and I shall assist these entities in overcoming their possessiveness and identification with their things by removing their things from them and using them myself'.

This Awareness indicates this may surprise many entities who are not into thievery to realize that this is a kind of mind game which many thieves use to justify their thievery.

This Awareness indicates that they see themselves as superior beings, stealing from another in order to help that other overcome their possessiveness. They, of course, ignore the fact that they are even more possessive, because they are not willing to earn their bread, but rather would take the bread from others through thievery.

This Awareness indicates the human mind is capable of any kind of deception that can be imagined, and many entities imagine such kinds of deception and allow this to become a major part of their being.

This Awareness suggests it behooves entities to discover the workings of their own mind and consciousness and explore the nature of their motives before ever looking out at others and their motives, their consciousness, and their actions for purposes of condemning those other entities.

DO VITAMINS WORK  
IF YOU DON'T TAKE SUPPLEMENTS?

Question:

There is a publication called the Health View Newsletter, and in a recent issue, in fact, Vol. 1, number 1, it has an interview with a Dr. William Kelly, of the Kelly Foundation, and one of the things, the interesting things, Dr. Kelly says, is that everybody who takes vitamins, any kind of vitamins and minerals, unless they take supplements like pancreatic enzymes, hydrochloric acid and comfrey pepsin, nothing will get through at all, no matter what they take. In other words, he's saying that these vitamins and minerals that people have been taking for years, haven't been doing any good because the mucous inside the system evidently prevents these from getting into the blood stream where it does any good. Would Awareness comment on this?

COSMIC AWARENESS:

This Awareness indicates this as an exaggeration. That the enzymes mentioned can be taken in conjunction with the vitamins and minerals and this can assist in making these more beneficial to the system. This Awareness suggests however, that the physical body, itself, contains certain enzymes which allow the vitamins to be assimilated. This Awareness indicates that these enzymes can be brought into the body through other natural foods in the diet and need not necessarily be taken as supplements with the vitamins and minerals.

This Awareness indicates, however, that taking these enzymes along with the vitamins and minerals will tend to be even more beneficial.

THE LANGUAGE OF CELESTRIA  
BEING SPOKEN IN NEW JERSEY

Question:

There was a discussion on the Johnny Carson Show recently where Orson Bean was talking about a set of identical twins in New Jersey who were developing and speaking an entirely new language. They understood English, Spanish, French etc. but could not speak back; they speak only in this strange new language to one another. Psychologists say they have only one other case of this phenomenon recorded over 50 years. Could Awareness please enlighten us on this subject?

COSMIC AWARENESS:

This Awareness indicates there is an angelic tongue that may be referred to as

as a universal language which is spoken on the inner plane. This Awareness indicates these entities retained the memory of this.

This Awareness indicates that most entities, upon being born, retain this language for a short time during their infancy, think in this language, but that the exterior or external forces outside the entities, tends to overpower the language and the language is submerged and forgotten by the consciousness of most entities.

This Awareness indicates the situation of these identical twins having the same chromosomes and entering together was such that they communicated telepathically together, that they communicated in their words and conversations with one another even in the womb, and afterwards in their infancy, while developing speaking skills. This Awareness indicates that this as an unusual coincidence; that the situation of identical twins retaining the memory and having the opportunity to converse with one another, this as being a peculiar situation to allow this to occur. This Awareness suggests that these entities could also assist in translating this universal tongue into these languages which they understand: the English, Spanish, French and other languages which they may learn.

This Awareness indicates that these entities may, in time, assist others in learning this universal language.

THE RIGHT TO DIE  
(Do We Have It?)

Question:

J.M., of Los Angeles, has a question for Awareness in reference to the New Age Bill of Rights. He wanted to ask if the following amendments to the Bill of Rights could be considered to be added: (1) The right of the individual to choose the type of medical care he desires and the right to refuse any medical care that he doesn't desire, and (2) The right to die. The right of the individual to give up the physical vehicle whenever he desires shall not be abridged; the right to refuse extraordinary means of prolonged life.

COSMIC AWARENESS:

This Awareness indicates that these as applicable and may be sent to Thomas McQuay, who is presently working on the revision and amendments relating to the information previously given.

Question:

In relation to this question on the right to die, would Awareness please expand a little on this concept. This is in the news quite a bit, particularly since this entity, Carrol Quinlin, had her life-giving hoses etc. finally removed, and it seems there is a lot of controversy going on this right to die.

COSMIC AWARENESS:

This Awareness indicates that there are intensities involved in living. That, essentially, each entity has the right to die, and no other entity can deny this right, mechanically or psychically.

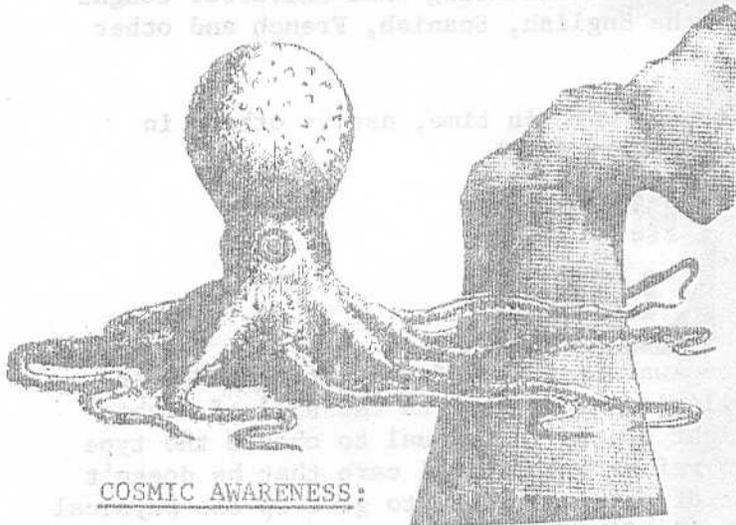

This Awareness indicates that each entity has the right to live, but that entities can deny this right, mechanically and psychically.

This Awareness indicates that the emphasis on the right to die as being quite out of proportion in terms of consciousness at this time. That entities might consider putting all of that attention on the right of others to live. This Awareness suggests that while entities were concerned with this entity's right to die, there have been thousands upon thousands who were denied the right to live. This Awareness indicates

that wherein this entity wishes to leave her body and wishes that body to cease its life-functioning activities, the entity can simply withdraw. This Awareness indicates that even though mechanical apparatus keeps the body breathing and the heart pumping, the entity needs not be present. That the functioning of the body is not the life of the soul, and that the entity may be elsewhere even though the body continues.

This Awareness indicates there is no violation to this entity in this action. This Awareness indicates no entity is a prisoner within his or her body except where in one imprisons oneself. That no outside entity can force one to stay within one's body if one wishes to leave.

This Awareness indicates that entities can influence others to remain, this particularly in terms of loved ones who do not wish another to die or to leave the body. These entities tend to call the soul back to the body, and, in this manner, do assist in influencing one to stay; but even this is not a violation, for the entity returns out of compassion rather than from being forced to return.

#### COSMIC AWARENESS:

This Awareness indicates that this has been generally established that there have been great violations to life forms by the use of radiation. This Awareness indicates that there is no way that radiation forces, the use of atomic energy in these particular uses can be beneficial to the life upon this planet.

This Awareness indicates that the use of radiation is destructive, and destructive forces are not constructive.

This Awareness suggests that there is great concern among those planets neighboring the earth, the inhabitants of those planets regarding the earth's use of atomic energy. This Awareness suggests that this is likened unto the Beast being armed with weapons that can destroy the entire planet, and the Beast, realizing the value of these weapons, in the psychological effect upon entities, in that it allows the Beast to intimidate the masses. This Awareness suggests that this is but one tool of intimidation, that there are so many others that cannot be discussed fully at this time.

This Awareness suggests that entities involved in the nuclear protest to continue in those activities, yet this Awareness suggests that entities working closely with this Awareness, focus not so much on the weapons of the Beast, but rather upon the heart of the Beast. This Awareness indicates the heart of the Beast is the money system, that when this is looked at, exposed completely, the Beast shall lose its power and the weapons may be dismantled, and a healing of the earth can occur.

This Awareness indicates that it appears around the turn of the century there shall be activities aimed at a global cleanup, this requiring great mobilization of all nations and of all technologies available for this type of cleanup. This Awareness indicates this between the turn of the century and twenty years thereafter.

#### CONCERNING NUCLEAR POWER PLANTS (Should the Protests Continue?)

##### Question:

Awareness, how do the atomic plants, specifically Trojan, here in this environment affect the people around them and fish we eat?

QUESTION:

What steps should we take today, to affect the heart of the Beast?

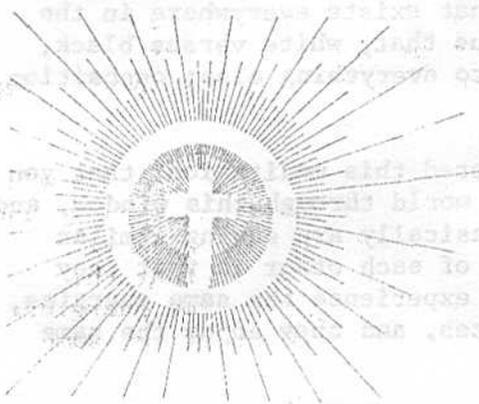

COSMIC AWARENESS:

This Awareness suggests that the first thing is to know your enemy, learn about the money system, the control of mind, the hypnotic use of money as a manipulative tool, where money came from, how it got started, who owns the money system and what the various uses and branches of the money system are doing to control the many facets of society.

This Awareness suggests that you learn about your enemy, understand, expose, and then love your enemy in a manner that disarms him.

\*\*\*\*\*

ED's Note: for additional information, please refer to Revelations of Awareness 78-8 & 78-16. Also the booklet, Cosmic Awareness Speaks. For more information on the banking system and the banking conspiracy, Awareness has recommended the book, Pawns in the Game, by Commander Guy Carr, (\$3.00 available through C.A.C.).

THE CHARISMATIC MOVEMENT  
(Is it Significant?)

Question:

E.D. of Burton, Washington asks: Within the Christian church is a renewal of the gifts of the Holy Spirit. It is known as the Charismatic movement. Whole congregations are being split apart by its power and many are at last seeing light within institutional Christianity.

I know the Spirit is universal and not only the sacred pet of charismatic Christians, and I would like Awareness to comment on this movement.

COSMIC AWARENESS:

This Awareness indicates this activity as that which is in the will of this Awareness. That this as moving into levels beyond mind, emotion and feeling, into levels of awareness whereby entities begin to tap in to the Universal Spirit, the Christ Consciousness, without the necessity of moving through the dogma or the hierarchy of the church. This Awareness suggests that in the charismatic movement, that the entities are discovering that the Christ Consciousness is within themselves.

This Awareness indicates that this as being likened unto the rejuvenation of spirit within the Christian movement. This Awareness indicates this rejuvenation and contact with the Universal Spirit, with Anti-Matter, as that which is occurring in many religions in many systems, even within the scientific community, even within the governmental levels, and even within the banking systems.

This Awareness indicates that Anti-Matter, or Spirit, as beginning to be felt and experienced by all entities upon this plane, even though many have different names and different words to describe this energy. This Awareness indicates that all of these entities are aware and cognizant of the fact that something is happening upon this plane to their consciousness that is not like anything they have ever experienced before.

This Awareness indicates that many of the teachings and dogmas of the different organizations, whether these be religion, science, sociology, psychology, history, or whatever, many of these dogmas are no longer just words, but are being accompanied by experiences that could be termed 'mystical' or 'spiritual', and the experiences

are becoming far more important than the labels which have been so sacred in the past. These labels, these names, these words, these dogmas, are secondary to what is being experienced in the present time.

CHOOSING A FRAME OF REFERENCE  
(A Meditation to End Separateness)

(Closing message from the above reading)

This Awareness wishes entities to meditate on two different frames of reference.

This Awareness suggests that you put on one frame and look at the world and see how many separate, individual things can be seen; how each thing, each blade of grass is distinct and separate from all others; how each tree is separate and distinct; how all of these separate things have been brought together in conflict with one another; how ideas are in conflict with one another; how competition is seen everywhere; how entities speaking to one another contain those slight inuendoes of competitive expression.

This Awareness suggests that you look with this frame of reference for some time, until you see clearly the division and separateness that exists everywhere in the universe, how everything is in competition: this versus that, white versus black, ignorance versus knowledge, everything being opposed to everything else; opposition, polarity, rampant in the universe.

This Awareness suggests that after you have completed this meditation, that you put on another frame of reference and look out at the world through this window, and see how everything is in harmony; how all religions basically are saying similar things in different terms; how the trees are all part of each other in that they relate to each other, they touch the same earth, they experience the same energies, they breathe the same air, they witness the same breezes, and they enjoy the same light.

This Awareness suggests that you look at the blades of grass; how they mimic each other, how they express themselves similarly. This Awareness suggests that you listen to entities talking to one another; how they long to communicate; how they want to be close; how they speak in those crude and archaic words, those feelings which they already share and know. This Awareness suggests that you look at the space between entities, the space between the leaves of the trees, and recognize how important those areas of space are to the tree, to the entity.

This Awareness suggests that you begin looking at the space between stars and that you recognize the space as being all one; and that the stars, the trees, the entities, the blades of grass, are all floating in the ocean of space.

This Awareness suggests that you look at this space as being consciousness and recognize that this Living Creature, which permeates all space as consciousness, is the Totality and the One, and that all things abide therein, and that there is no separateness while viewing the universe through this frame of reference.

\*\*\*\*\*

ED's Note: For additional information on how to use the Frame of Reference Meditation, please refer to Revelations of Awareness No. 78-3.
