

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

HOW TO STOP THE ANTI-CHRIST

Why You Should Ratify The Unified States of Awareness

Question:

From R.M., Tampa, Fla. One question we would like to have answered about the false Christ, or Anti-Christ that is due to come onto the world scene soon to practice his deception on the peoples of the earth, especially to influence the young people. Can his place in prophecies be stopped, or can he be destroyed by man, or can he be stopped by Divine interference if enough prayer groups pray to send out the love required to lessen or short his powers, his evil powers? Is there any way to short-circuit or stop such evil? What would be required of God's children to cause a turnabout of the prophecy that will cause him to come into power as a world leader or president?

COSMIC AWARENESS:

This Awareness indicates the action of awakening the masses to reality is that which could stop the anti-Christ and cause a ceasing of his power. This Awareness suggests that the anti-Christ receives its power through the wrong use of the money system. This Awareness indicates the economic system as being used as a hypnotic bauble, hypnotizing the masses in a manner that causes them to run throughout their lives chasing the 'buck', seeking the gratification that money can give.

This Awareness indicates that these entities worship the money god, 'Adolla' and his prophet, 'Moolah.' This Awareness indicates these entities following these money gods, following after these priests of the money gods, entering into the temples of the money gods; these entities bowing and scraping before the money-changers of the world, begging, pleading that they be given a crumb of credit; these entities basically, are hypnotized, asleep, unaware, and cannot conceive of living without the crumbs of money that are doled out to them by these priests and bishops of the money-god religion. This Awareness indicates this is the anti-Christ system. This Awareness indicates that wherein entities begin to awaken and see through this system, realizing that they have been duped and deceived; that the entity Jesus, in driving out the money-changers from the temple, was demonstrating a lesson, giving the world the answer, and was crucified for that action. This entity and his real message can awaken the masses so that the masses may begin to understand the nature of living,

sharing, trading and cooperatively owning the money systems, or the credit systems of the world.

This Awareness indicates that there is no reason why a nation should allow a foreign corporation to own its money system, and in such a manner, to take over the nation through the money system which it owns. This Awareness indicates the United States was created by the founding fathers in a manner that was intended to protect the states from the money-changers of Europe and the Constitution provides that this nation has the power, through its congress, to mint and coin money and regulate the value thereof; yet this power was given away to the Federal Reserve Bank, and in that gift, to the bankers of Europe who own the Federal Reserve Bank, along with other international bankers.

This Awareness indicates there is much information available on this and entities wishing to learn more may consult these various sources. This Awareness wishes entities to understand, however, that there is no reason why entities must continue following the money god except that entities find it more convenient to do this than to create a money system of their own which is owned by the people for the people, and which can give back to the people that which would ordinarily be taken as profits by the banks. This Awareness indicates that a cooperatively owned money system, owned by the people, could also make profits just as a bank makes profits, but instead of going to the few individuals who own the banks, the profits could go back into social programs, into national programs, and in this manner substitute for the income tax and other tax systems.

This Awareness indicates that instead of being taxed, entities could simply pay interest to the nationally or people-owned bank, and the people-owned bank would return that interest into the programs which the people believe to be of a value to themselves and their society.

This Awareness indicates this, of course, will take a mass awakening and there are not too many people upon this plane who care to be awakened, for most entities are searching for the drink, the pill, the smoke, the food or the show, or book or experience that dulls their consciousness and puts them into a stupor.

This Awareness indicates that if and when entities upon this plane begin to awaken, then the anti-Christ will lose its power; but if entities do not waken, the anti-Christ shall gain more and more power and entities shall find themselves enslaved as has been prophesied.

ED's Note: Awareness has created the Unified States of Awareness as an alternative to the present money system and has indicated that due to the lethargy of most entities this may not be implanted until the present system sustains a violent economic crash, which is imminent in the not too distant future. WHY YOU SHOULD GIVE ENERGY NOW
TO THE UNIFIED STATES OF AWARENESS

Question:

(The Tremendous Power in Signing Your Name)

We have a letter from V.P. of Cedar Crest, New Mexico who has a question: "There are some questions in my mind, and maybe in the minds of others too. It has been said that one should not join the Unified States of Awareness just to obtain the talents. I will soon be 71 years of age. My eyesight is not what it used to be. I have some arthritis etc., and it gives me discomfort. What could I do to help? I think it will be wonderful if this plan can function as planned, but believe it is primarily a younger people's movement. There must be many older people in this movement whose health and activities are severely curtailed as mine is. What about them? What part can they, or should they play, in this movement?"

COSMIC AWARENESS:

This Awareness indicates that this action shall begin somewhat slowly and shall gradually build over a period of several years. This Awareness indicates that within approximately ten years, there will be outposts throughout the United States wherein entities can travel but a short distance and attend meetings and gatherings wherein information and ideas and goods and services can be exchanged by fellow members of the Unified States of Awareness.

This Awareness indicates that, at present, the action of lending your name and support to this activity as that which does feed energy and does give a kind of blessing to the organ known as the Unified States of Awareness.

This Awareness indicates that the fact that an elderly person can give his or her name and blessings to such an action can have an influence on other elderly persons to allow them also to look again and perhaps reconsider, and perhaps also give their blessings. This Awareness indicates that as entities begin to lend their name through ratification and support, this organ, the organization, the activity, will begin to grow in greater and greater energy.

This Awareness suggests that you must understand the sum total of your life, and all of the energies which are, and have been yourself, are carried in your name; and when your name is given in support of an action, all of those energies which are you are funneled into that action through that name which is given in support. This Awareness indicates that these energies are not often seen clearly, but these energies are there.

This Awareness indicates that in return, the Unified States of Awareness can begin to give forth greater energy to you, to your children, to your loved ones, and to those who follow in the future generations from your children and your loved ones.

This Awareness indicates also, that if perhaps you reincarnate again upon this plane, you may enjoy the fruits of that organization which you gave your energies to, and may be blessed doubly for having given your energies at this time in its crucial stages while it needs such support. This Awareness indicates that there is nothing that guarantees that you will not return again to this plane to live again, and that if perchance you do, you might wish this earth to be a paradise.

This Awareness suggests that entities living today may help to bring about that paradise for their own future lives as well as for the lives of their children and their children's children.

HOW YOU CAN RATIFY THE UNIFIED
STATES OF AWARENESS

COSMIC AWARENESS:

This Awareness wishes you to consider other worlds, to consider the Kingdom of Heaven, to consider other planets and other systems, and ask yourself:

Is this the best possible world, or is there something else out there?

Is the Kingdom of Heaven capable of guaranteeing food, shelter and clothing, or is this some kind of universal fallacy whereby every entity within the universe must work by the sweat of his brow?

This Awareness suggests you look to the lillies of the field and see how they toil not.

I recognize this as being the Universal Democracy and World Government which I wish to be associated with.

And I fully understand that this does not relieve me from the obligations and legal responsibilities to my local and national government. That the Unified States of Awareness is another level of relationship.
