

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

Paul Shockley
Trance-Interpreter

BIZARRE SEXUAL PRACTICES

Is It A Violation
Or Insensitivity?

(Suggestions From the Cosmic Viewpoint)

Question:

A long question here from E.R. "In several questions, Awareness has spoken on sexual mores and suggested somewhat how to assess what is appropriate in sexual conduct. However, I am sure many

would appreciate greater elucidation of what constitutes promiscuity, and if any form of sexual behavior which does not involve coercion of others is inappropriate and unnecessary under cosmic laws? Specifically, now coming into public attention are the instances of incest, often involving young children, and adults which have legal control over the destiny of these progenies. Also, cases of bestiality, wherein a human being is sexually involved with mammals, this occurring more commonly than has been supposed by the masses, especially among farmers, farm hands etc. Will Awareness therefore please indicate whether what is called 'incest' involving sexuality between adults, say brothers and sisters or sons and mothers and fathers and daughters, where all are adults, is according with cosmic law or not, and whether relations between children and adults, where the child is not coerced, is appropriate. Please also indicate what age any form of sexual contact with others may be appropriate, as Edgar Cayce indicated sexual feelings begin at about three to five years of age with most children, and clearly at what is called 'pubescence' these energies are present and clamoring for expression in almost all young people. In addition, the matter of promiscuity, whether promiscuity in terms of being a violation of cosmic law is simultaneous shallow sexual relations with several persons, or whether this is rapid divorcement of several mates without there being any depth in any of these etc. Please, therefore indicate if there is any violation of cosmic law in polygamy, polyandry, rapid marriage and successive divorce, child sex, incest without force, bestiality, etc."

COSMIC AWARENESS:

This Awareness indicates that in a cosmic level, sex itself is not the basis for karmic laws.

This Awareness indicates that which is a basis is that which considers the rights and freedoms and the violation of others who would deny these rights and freedoms. This Awareness indicates that entities who violate others indeed are transgressing karmic and cosmic laws.

This Awareness indicates that a violation occurs not only when an entity objects to a transgression, but also when an entity does not have the capacity for understanding and realizing that they have been transgressed. This Awareness indicates that violation of entities by those who understand and are keeping the entity from experiencing their full potential as a human being by robbing them of certain opportunities for understanding, for growth, for experience that will allow them to have greater discerning abilities as to how they would choose to express themselves; this kind of violation is that which indeed brings about karmic repercussions upon the perpetrator.

Incest and Bestiality

This Awareness suggests that entities who violate those innocents and turn an innocent child into one who is filled with misunderstanding, doubt, confusion, and feelings of guilt; this kind of violation does indeed create a karmic relationship as well as creating a karmic situation for each of the entities to overcome.

This Awareness suggests that wherein an entity engages in expression of a sexual nature related unto bestiality, that entity, in effect, violates himself or herself more than the beast involved, for the beast is ignorant and is unable to have the opportunity for evaluating the situation; whereas the entity is ignoring evaluation or proper research into the activity's justification.

This Awareness indicates the greater karma relates unto the pattern which is established within the mind and emotions of the entity involved in this action, for the pattern will remain as a thorn or as a programming or as an energy which creates certain feelings and behavioral expressions or guilt or a disruption of proper self-esteem within the entity for many years after the event.

This Awareness indicates that this can also create a social stigma if this is exposed, which can also have its karmic repercussions upon the entity. This Awareness indicates that in terms of incest, that the entities involved, particularly wherein there is an innocence in the consciousness of one principal involved, this kind of relationship is that which is detrimental more on a psychological level than in terms of actual morality of a spiritual kind.

This Awareness indicates that essentially, the violation is not the act itself, but rather the insensitivity, lack of concern for the welfare of the entity involved, and the total lack of self-awareness, and the surrender to forces of lust and appetite which are obviously detrimental to healthy, psychological growth of the parties involved.

This Awareness suggests that the majority of incest relationships between parents and child are of a shallow and thoughtless level at their beginning, but leave deep psychological scars, particularly upon the child, and often upon the adult, which create many problems in later years in other relationships.

This Awareness indicates this is the tragedy, rather than some abstract spiritual or cosmic morality regarding sex.

This Awareness indicates the expression which violates another, either through enforced violation or violation due to the naivete or misunderstanding by one party, or by both parties; that ignorance and the lack of clear responsibility for the expressions, this is the error involved.

This Awareness suggests that this question may be re-examined and further questions asked if the answer has not been fully covered and clarified.

PROMISCUITY & INCEST BETWEEN ADULTS
(The Difference Between Love & Sex)

Question:

The area of rapid remarriage and shallow relationships with a number of partners and incest between adults, like brothers and sisters?

COSMIC AWARENESS:

This Awareness indicates that essentially, the sexual union between entities as being capable of the deepest form of communication, the most intimate form of communication, and the most meaningful form of communication possible, but only when that communication is automatically evolved from other, more sensitive forms of communication as a foundation, such as the foundation and communication based upon love and harmony between entities which eventually expresses itself in this manner.

This Awareness indicates that it is not necessary for entities to have sexual relations in order to love one another, nor does sexual relations in any way prove or even indicate the possibility that entities love one another.

This Awareness indicates that love and sex are two different things: that love is an energy which passes between entities as concern and sensitivity and consideration for that other entity, whereas sex can be nothing other than mere personal gratification, unless it is expressed with that same concern, consideration and sensitivity toward that other entity.

This Awareness indicates also that entities can express themselves in a loving manner for the show of love in order to participate in the more intimate expression; yet this is not truly love, but is rather an act, a performance.

This Awareness suggests that this as expressing and reflecting the shallowness of the entity's development; yet this Awareness does not condemn these entities, for entities are only capable of expressing true love when they are capable of expressing true love. This Awareness indicates that even those who have the shallow moments of expression which appear as the droplets of love, the hints of love, the facade of love, the shallow relationship which reflects the possibility of love; even those relationships are necessary for some entities in their path toward becoming more sensitive and aware of others. And even though many entities must pretend to express love, (for they are incapable of true love), even that pretension does assist those entities in unloosening and unlocking certain aspects within their consciousness that can eventually lead to deeper and more meaningful expressions of love.

This Awareness suggests that entities not judge others for where they are, not condemn others, but to be aware of their expressions, being aware of their depth of feeling, their shallowness or depth of experiencing, and in that awareness, discern how you desire to relate with these entities.

This Awareness suggests that each time an entity establishes a relationship with another, a certain level of karmic pattern begins to form around that relationship; and as that relationship is reinforced with further activities, that karmic pattern grows and builds. This Awareness indicates that karmic relationship pattern may be beneficial, may be harmful, or may be a balance of both beneficial and harmful qualities for the entities involved. This may reflect both positive and negative karma, or one or the other.

This Awareness indicates each time an entity has a sexual relationship with another, the karmic pattern between these entities builds at a much more rapid pace; this being approximately ten times faster than the mere contact verbal and social type of relationship.

This Awareness indicates the sexual intercourse as approximately ten times more intense than the social intercourse. This Awareness suggests that these types of intercourse creating the karmic patterns upon that relationship will leave either healing factors, or scars and wounds, or a combination of both.

This Awareness suggests that many entities, seeking to heal their wounds, move from one entity to another, seeking karmic patterns and 'ripping off' or taking energies from those entities through social or sexual relationships to heal their own feelings of inadequacy. And these entities, while perhaps healing certain levels of inadequacy, certain psychological wounds, are, at the same time, often creating even greater problems on a different level which they must later pay penance for to those or to others who have given to serve their desires.

This Awareness indicates this relates to the Law of Gratitude. This Awareness suggests that further questions may be asked.

AT WHAT AGE
SHOULD THE FIRST
SEXUAL CONTACT BEGIN?

Question:

In relation to this question, one area not covered. 'Please also indicate what age any form of sexual contact with others may be appropriate? As Edgar Cayce indicated, the sexual feelings begin at about 3 to 5 rudimentally in most children, and clearly at what is called pubescence, these energies are present and clamoring for expression in almost all young people.'

COSMIC AWARENESS:

This Awareness indicates this actual physical sexual conduct and contact as being somewhat effected by the culture and by the maturity of the persons involved.

This Awareness indicates in some cultures, an entity of twelve to fifteen may appear to be quite responsible and capable of participating in this type of energy. This Awareness indicates, in other cultures, entities of thirty, forty, fifty, sixty or older are not responsible or capable of handling the responsibility for their sexual expression.

This Awareness indicates appropriateness is a matter of responsiveness, the ability to be responsive to the ramifications of one's expression.

THE PROBLEM OF PEDOPHILIA

Question:

While we're on this subject, I'll ask a question by Y.C., who is confined in a hospital for sexual rehabilitation. This entity has written a number of times very lengthy letters. He is an admitted pedophile. (I'm not exactly sure what that is). In his letters, he has endeavored to communicate with us his feelings on this and he is incarcerated and supposedly being treated; but evidently this is a chronic, compulsive thing with him, and now he is confined in a hospital for a long period. In the end of his letter, he says: "P.S. Just to see what Awareness would say about this, I would like to have Awareness asked, during one of Paul Shockley's trances, how I and other pedophiles should be handled and treated. The answer Awareness gives may be interesting to others, as well as myself. Awareness has, in the past, covered rape, criminals,

prisons, teen-age sex and many other things, but so far as I know, Awareness has not been specifically asked to comment on homosexuals, perverts and pedophiles (or pedophilia), and I'd be interested to know its comments on these classes or types of abnormal people. Awareness has commented on bi-sexuality, but I haven't yet read what Awareness said about it."

COSMIC AWARENESS:

This Awareness indicates that the most appropriate means for dealing with any of these anti-social types of behavior, particularly those relating unto sexual maladies, is through returning to the source of the problem, such as moving backwards in time to that experience which created the traumatic knot or confusion; that which the scientologists call the ingram, the trauma, which later influenced the different set of values and appetites of the entity.

This Awareness indicates, for example, often an entity in one lifetime may have extremely high standards against sexual expression, and the standards being so significant to the entity that when the entity, in any manner or degree whatsoever, allows the sexual energies to sway his or her control over those energies, the entity becomes guilt-ridden and self-destructive and hostile to him or herself.

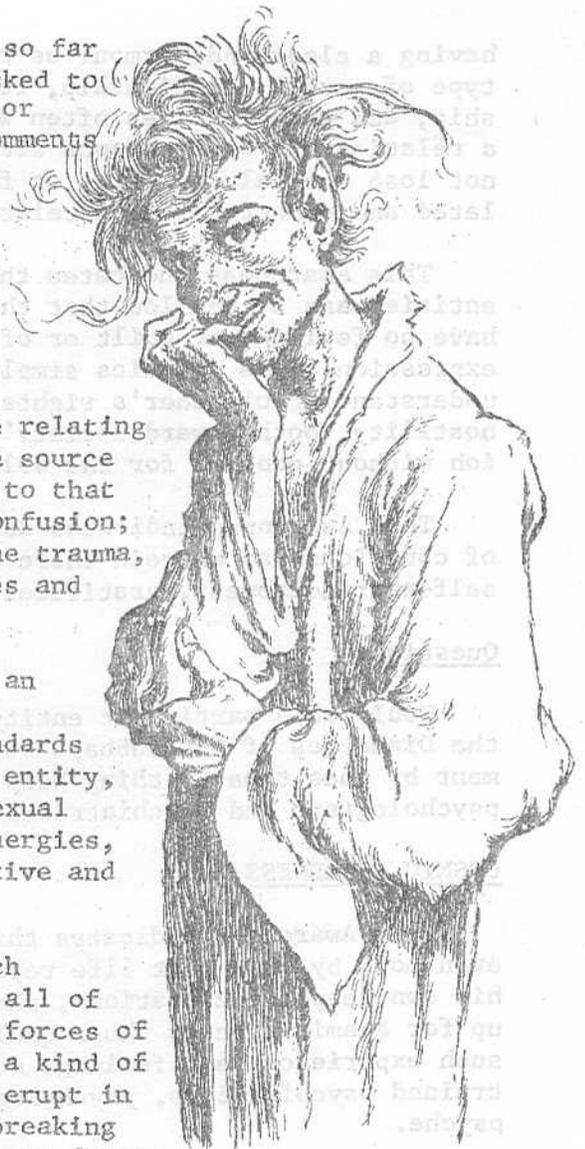

This Awareness indicates that on occasion such entities may live long years of their life using all of their will-power available to overcome the inner forces of the sexual currents; and in so doing, may create a kind of psychic imbalance that, in a following life, can erupt in a type of licentiousness as an interruption and breaking through and overcoming of that will which held those forces in check for so long.

This Awareness indicates that this particularly when the entity has dual conflicts within and creates such a significance against the expression that the entity dwells continuously upon the imaginative expression which he or she abhors. This Awareness suggests that this duality of the mind, opposed and yet dwelling upon that which one is opposed to, is that which creates a kind of psychic schizophrenia, or sexual schizophrenia, that allows the energies to remain in check for some duration, only to be unleashed and uncontrolled at another time in another place, perhaps even in another lifetime, into an action of extreme opposite to that which was held in the time previously.

This Awareness indicates the balancing of these energies, the reconciliation, as that which needs to be achieved; and this can only be achieved when the energies are looked at clearly, without condemnation or judgment, and when these energies are understood.

This Awareness suggests that often the entity who is sexually perverted, (in the common vernacular of that term), often that entity has very high standards on other levels and is actually afraid, or feels guilty about having normal sexual relationships; and these guilt feelings drive the entity into suppressing those sexual urges. And that suppression of those urges, drives the entity into a perverted expression such as homosexuality, incest, or other types of expression.

This Awareness indicates often entities having incest are truly desirous of

having a clear and harmonious relationship with others, but have such fear of that type of sexual relationship, feeling guilty and unworthy of that type of relationship, and such entities often will choose or be urged by those sexual feelings into a relationship with someone with whom they are familiar and can feel that they would not lose the relationship, or friendship, with that person, such as one who is related and cannot become unrelated to the entity.

This Awareness indicates this not always the case in terms of incest, for some entities are so shallow that they do not care whether the other is related or not, have no feelings of guilt or of restriction, nor do they wish to refrain from sexual expression. Some entities simply are shallow in their sensitivity to others, in their understanding of other's rights and are flaunting society in a form of rebellious hostility, both toward society's rules and conventions and also seeking gratification without concern for the welfare of others.

This Awareness indicates as quite common, and as having a rather shallow level of consciousness wherein there are few meaningful values in their life other than self-aggrandizement, gratification and personal promotion.

Question:

Would this particular entity who sent in this question benefit from the study of the Dianetics of Ron Hubbard who developed the Ingram principle, or the actual treatment by that type of thing help cure this man of his pedophilia? He realizes that psychologists and psychiatrists can help, but they're not doing it.

COSMIC AWARENESS:

This Awareness indicates this as being beneficial. That this also can be helped even more by deep past life recall and hypnosis levels wherein the entity moves in to his own deeper frustrations, phobias, fears, guilts and memories, and brings these up for examination by those qualified and trained to recognize the implications of such experiences and feelings and relate those to the present situation; such as trained psychiatrists, psychologists, or others of a deep understanding of the human psyche.

Question:

Would deep hypnosis, taking the entity back through his own birth into a previous lifetime, could the problem be uncovered and then brought forth back through his consciousness where he could take a look at it today?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative.

DEALING WITH SEXUAL PROBLEMS IN THE NEW AGE
(Awareness and Counseling, Not Imprisonment)

Question:

A final question on this from E.R. "Awareness seems to hint the sex force and sexual exchange may constitute a legitimate human need as opposed to desire or want. Please indicate if this may be considered a need in terms of all the other necessities of life, like water or raiment, and if so, is society obligated in a true democracy to provide the socialization leading to sexual exchanges between those interested in the future new government etc., and it is obligated to find partners for those whose karma or astrology may be shunned by the opposite sex and would never marry or engage in sexuality under the present system of socialization?

COSMIC AWARENESS:

This Awareness indicates this as in a general sense, this as being in the affirmative. This Awareness indicates that the taboo against sex down through the ages as that which once had a valid purpose: basically that which related unto the various social codes whereby entities failed to fulfil their responsibilities toward one another except by the laws which governed the tribes or their nations. This Awareness indicates this as still having some valid effect and meaning.

This Awareness indicates that the use of birth control, and the use of various techniques for avoiding childbirth and avoiding disease as having made the taboo against sex less of a social purpose and more of a psychological disturbance.

This Awareness indicates that there is still a great need for entities to have a deep respect for the sexual communication between entities, for this is not something that should be taken lightly unless entities do not mind having warped values.

This Awareness suggests that the sexual union of entities as that which is the deepest and most meaningful of unions when used properly. This Awareness indicates that the complete unity and communication between entities as being necessary before the culmination is expressed in terms of sexual unity.

This Awareness suggests that when done otherwise, the action is no less than that of animalistic expression. This Awareness suggests that even this, however, is not that which needs to be considered as evil, but rather that which can lead to patterns of thinking and patterns of relationship which bring about a karmic situation for the participants to experience and to need to overcome in future times.

This Awareness suggests that in terms of society assisting entities to move through their sexual problems, that in the future there will be places wherein entities may go to have communion with one another, wherein entities may come together to get acquainted, and wherein they may be counseled in relationship and in behavior towards one another, even though this counseling and this relationship and behavior may lead eventually to the sexual union with a guide and counselor assisting those entities in their relationship.

This Awareness indicates this as that which will be used to assist entities who are having difficulty in coping with such energies. This Awareness indicates wherein entities are capable of overcoming the difficulties in levels of passion, that this will eliminate many of the crimes in society.

This Awareness suggests that wherein a society does not have a police force, the two major causes of crime are lust and greed. This Awareness indicates that wherein all of the physical needs--food, shelter, clothing, travel and health are supplied, wherein these forces are supplied which would eliminate the greed motive, that a part of the society and the crimes which would evolve from that greed motive will be eliminated.

Counseling For Crimes of Lust Under the Unified States of Awareness

This Awareness suggests that in terms of the lust crimes, the crimes of lust, that there must also be in the society a form of counseling and assistance whereby such entities experiencing those passions of lust may have a place, a way, and an opportunity to express themselves, their needs, and to be counseled and assisted by professionals in this expression. This Awareness indicates that this not to be an encouragement or an exploitation of the use of sex or prostitutes for sexual purposes, but rather as an action whereby entities may move through those disturbing levels and move toward more healthy attitudes.

This Awareness suggests that this as something which shall be occurring in the societies within twenty years, that these two great causes of crime, (greed and lust) can be eliminated.

(Excerpt from a reading given in 1963)

Ralph Duby, Trance-Interpreter

Question:

We would like to know something of the causative factors of homosexuality and how it affects a person's progress?

COSMIC AWARENESS:

Homosexuality has two levels. In reference to its causative nature, first of all there is a karmic problem:

Those people who have made fun of people who are homosexuals, those people who have pointed a finger at those who have been of this nature--they are sometimes rewarded in after-life, at least for a period of time, by being in exactly the same position as those whom they have disgraced, or whom they have used disadvantageously. This karmic relationship in reference to homosexuality is very important, but there is another problem. That problem is not conditioning, as people sometimes believe; homosexuality is not a conditioned attitude, but there are certain problems which arise in reference to sexual hurdles people make in psycho-sexual development. There is a genital stage, and after this there is a homosexual phase, and often this homosexual phase is so deep in nature and so important to this individual that even though there are later developments along heterosexual lines, the strong effect of this middle phase of developing sexuality remains with an individual and is a positive and basic fact of one's homosexuality.

This, when linked with karmic relationships, produces homosexual individuals.

ED'S Note: For more information on how sexual problems will be dealt with in the New Age under the Unified States of Awareness, please refer to the Akashic Record booklet. Additional information on sex and sexuality may be found in the following Revelations of Awareness Newsletters: No. 77-1, 77-5, 77-10, 78-1, 78-8, 78-20, 78-40. Also the booklet, Cosmic Awareness Speaks, Vol. 2. (See Reprints Available price sheet).
