Awareness

Cosmic Awareness Communications

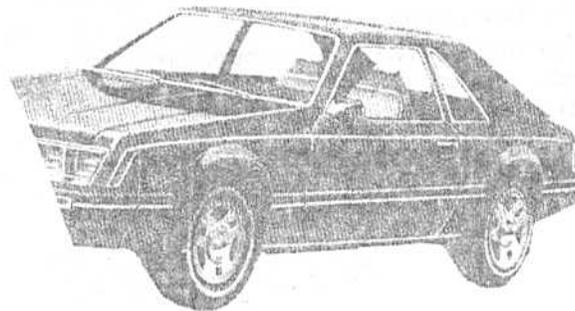

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the force that expressed itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed, and other great avatars who served as 'Channels' for the 'Heavenly Father', and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully trained channels. The information contained herein was received from deep trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who inherit the New Age. Awareness tells you not to believe anything, but to question, explore, doubt and discover for yourself what is the truth. Cosmic Awareness only indicates and suggests.

Paul Shockley
Trance-Interpreter

IF SETH, AWARENESS & CAYCE DIFFER... IT'S ALL IN THE 'FRAME OF REFERENCE'

(Example: What Entities Should Eat)

Question:

M.W. of Petaluma, Calif., says, "I have a question concerning the Seth Material. Is Awareness speaking through Seth, or is it a different source? I wonder because Seth seems to contradict Awareness Sometimes. For instance, Seth says: what one eats is of little importance, while Awareness says: we should not eat this and that, etc. according to the Cayce books I've read. And, also, in the Nature Of Personal Reality, Seth says there is no karma. This, of course, is far different than what Awareness says. Can you clear up this situation?"

COSMIC AWARENESS:

This Awareness indicates that the entity, Seth, as speaking, that this entity as contacting high levels of Awareness. This Awareness indicates this as being channeled through a different frame of reference than the material which was channeled through Edgar Cayce; yet, both as valid. This Awareness indicates that for some entities, the Seth material shall be more valuable to them than the Edgar Cayce material.

This Awareness indicates that from one level of consciousness, it is extremely important what entities eat; from another level of consciousness, it is not very important what entities eat.

This Awareness indicates that wherein an entity has a consciousness which is filled with faith and self-assurance, that entity can transmute the vibrations of food to where the food does not adversely affect the entity's health. This Awareness indicates, that for the average entity upon this plane, this is not a possibility.

This Awareness indicates that the eating of broken glass and nails is a possibility for certain persons whose consciousness is high enough that their bodies do not feel damage from this.

This Awareness indicates that recently in a tabloid, there was the story of an entity in Australia, who, over a period of one year, ate an entire car. This Awareness indicates this as having been ground into little bits and eaten by this entity over a period of one year.

This Awareness suggests that the Edgar Cayce readings would not advise this kind of diet for anyone. This Awareness indicates that it is doubtful that the Seth material would advise this kind of diet for anyone; yet the entity's awareness, vibrations, and self-confidence was high enough that this entity was able to complete this task and reap whatever rewards there were to reap for doing this.

This Awareness suggests that all is mind, all is consciousness, and entities can do what they will. Yet there are certain suggestions for entities, depending upon the frame of reference, where they stand in their level of consciousness. This Awareness suggests that an ace can take a deuce in most games, but not in every game. It depends upon the frame of reference: which game you are playing, what the rules of the game are. This Awareness indicates the word is the law, and as you describe your rules of your game, that is that frame of reference in which you live.

This Awareness indicates that in a world whereby most entities live within certain experiences whereby a particular frame of reference is shared by the majority, messages given by this Awareness, through various channels, are generally aimed through that frame of reference. This Awareness indicates that some messages through certain channels can be given through other frames of reference. This Awareness indicates that truth is relevant to the point of view. It is the story of the seven blind men examining an elephant and each describing a different part. This Awareness indicates that each is accurate, yet each tells a different story.

MORE ON THE LAW OF KARMA

(Results From Accepting a Core Belief)

Question:

In reference to the part of the question where it mentioned the apparent contradiction between Seth and Awareness in reference to karma; this is still not quite clear in my mind as I understood that karma was an immutable law that existed on all the planes of existence.

COSMIC AWARENESS:

This Awareness indicates It has given the Law of Karma as being that law which entities set up within their own consciousness to make retribution for certain actions which they have committed.

This Awareness indicates that from this point of view, karma is a personal creation whereby entities set up their repayment for violations, or their repayment in terms of reward for energies given. This Awareness indicates that in terms of the Seth material, the reference to karma as being an outside law being imposed upon one, that this as correct; that there is no such outside law imposed upon one. This Awareness indicates that, however, an entity must look carefully at these terms; for an entity whose inner guidance experiences feelings of guilt due to outside laws which have been imposed upon an entity, outside principles imposed upon an entity, that entity shall take those outside principles, use those outside principles to alleviate the guilt, and therefore that entity shall create for himself the karma necessary to repay that guilt in reference to the outside principles or teachings which the entity has accepted as a core belief. This Awareness indicates that, for example, an entity who has been taught to kill others, yet finds himself in a position where he has indeed violated or killed another, this entity will create within his own psyche an arrangement whereby he will pay for his error.

This Awareness indicates another entity may be taught it is right to kill your enemy; that you shall gain strength in this action. This Awareness indicates this, for example, among certain savage tribes in the Brazilian jungles; these entities firmly believe that they shall gain strength and power from the death of their enemies. This Awareness indicates that these entities indeed gain that strength and power because this is their core belief. This Awareness indicates that in this sense, they reap good karma for their violations of others. This Awareness indicates this shall continue for these entities until they experience enough of the suffering of personal violation that they begin to question the value of such violation. At that point, their consciousness shall begin to change whereby they can no longer accept the violation of entities as being worthwhile and profitable, and the nature of the change in consciousness shall change that which they have received in terms of deeds from good karma to that which becomes negative.

This Awareness suggests that it again is a matter of the frame of reference.

HOW TO FRAME A REFERENCE

(Closing Message)

This Awareness suggests that regarding the messages given in this reading, that each entity visualize himself as walking around through time and space with a wooden frame around his or her body. This Awareness suggests that this may be seen as a wooden frame being held by the entity, through which the entity looks. This Awareness suggests that you visualize this clearly for a few moments as you leave this reading and walk around in your daily activities.

This Awareness suggests this may continue for a day or a week as you choose, and that you continue walking around with this wooden frame in front of you, allowing you to look out at the world through this frame. This Awareness suggests that you do this as a reminder to question yourself as to what your frame of reference is, while looking at this or that concept or experience. This shall be an exercise which shall do wonders for your self-realization.

ED's Note: For a complete Frame of Reference Meditation, refer to Revelations of Awareness, No. 77-26.

THE ATOMIC BOMB AND NUCLEAR FISSION (Mother Earth Takes An Acid Trip)

Question:

A question from M.G., Shepherdstown, W. Va., asks: "I recently wrote asking about the mutation of those born in the atomic age. Is it true that souls who incarnated after the debut of the atomic bomb are mutants, which accounts for their being so different from those of us who were born prior to the atomic bomb."

COSMIC AWARENESS:

This Awareness indicates that the release of atomic energy within the atmosphere of the earth, the radiation effect upon the atmosphere is likened unto bringing in an influx of anti-matter into this plane. This Awareness indicates that anti-matter is spirit. That in general, the spiritual energy, the vitality and life-force upon this plane as that which has increased since the advent of the atomic bomb. This Awareness indicates that spiritual energy does not necessarily mean that things are better, for the energy of anti-matter is an energy that is of greater intensity.

This Awareness indicates that an entity having greater life-force to bring harm to another, that an entity having greater spirit than another is not necessarily a more spiritual person. This Awareness indicates that the effect of the anti-matter upon this plane may be likened unto a life force that is radiating within matter,

within consciousness, and within the forms of the biological beings upon this earth; and the intensity can be harmful or can be beneficial, depending on how this intensity is used. This Awareness suggests that the general direction is such that those who use this energy for releasing, for loving, for radiating, for expanding, for communicating, those entities shall profit and benefit from this radiation. Those who use this energy, feeling greater intensity and life force, but turn inward and become selfish--seeking power, seeking to contain this energy, seeking to hold themselves separate and apart--can use this energy to focus, to direct, to order, and to control with greater intensity than they could have used before the energy was unleashed. But those entities holding this kind of energy shall find the energy as creating various types of diseases.

This Awareness indicates that they shall literally be burned up over a long period of time by the use of this kind of energy for selfish and personal controls. This Awareness suggests this may be understood better when viewed from the point of LSD. This Awareness indicates that LSD was, and is, anti-matter matter, spirit that has been placed into material form which, when unleashed, intensifies within the consciousness of the entity unleashing that anti-matter matter, intensifies the consciousness to such a degree that the entity feels himself or herself expanding with spiritual forces. This spiritual energy, this anti-matter, can be turned toward the expansion of consciousness and heightening of awareness, or can be turned toward facing some hostile force, toward directing some power and lust and greed concept, toward the worshipping of such forces, or toward the observance and conflict and confrontation of personal fears. And in such action, the entity can have what is termed a "bad trip," a "freak-out" situation. The entity can actually experience a living hell.

This Awareness indicates that the effect of nuclear fission being released upon this plane was likened unto the earth taking a dose of LSD; and each time this was repeated, the entire earth experienced a new level, a new trip. This Awareness indicates that the overall effect, while harmful in many ways, does have its better effect in that the vitality and life-force, the consciousness levels, must rise in higher vibration or shall be burnt through the aging process, through disease and radiation sickness.

This Awareness indicates that this as a way of separating the wheat from the chaff. Those who can raise in their vibratory rates shall thrive. Those who cannot shall perish.

This Awareness indicates in terms of the question, the entities born after the release of the atomic energy may be called mutants if that word is desirable. In essence these entities were simply those who were brought into this plane under an influence of greater anti-matter.

This Awareness indicates that entities giving birth to children wherein the mother and father has indulged in the use of LSD, have created what may also be called mutants, if that word is desirable. That the effect is an altered state of consciousness, an altered state of balance between magnetic and radiant energies which would have been somewhat different in the case of the entity who had not indulged in the use of LSD, or in the case of entities having children prior to the release of atomic energy.

This Awareness indicates this basically is but a slightly altered proportion of magnetic and radiant energies, this referred to as the yin and yang balance; that the effect of nuclear energy and of LSD as altering the proportions of those energies; that this also can be altered through diet, through attitudes, through environment and through weather to some degree.

THE REASONS WHY INTENSITIES
HELP TO RAISE CONSCIOUSNESS

(Why Reincarnate on Earth?)

Question:

A question from R.E. "In Seth Speaks, the being that Seth has stated he is, no longer is forced to reincarnate, but permanently a teacher or worker abiding in the astral, etheric and lower mental planes, able to tune into and experience all the levels of planes at about the physical vibration of earth, but at higher or lower frequencies which also constitutes physical type universes. He says these are infinite. Why is an entity such as this freed from involuntary re-embodiment in physical birth, and is it correct that all people at one juncture in their after-life experience, through the reincarnation cycle, are asked if they wish to continue reincarnations or to move into the astral or mental levels permanently, and cease all physical birth. But that if they take this path of the astral and mental evolution, progress is much slower and therefore, the greatest number choose to continue here despite the potential for suffering?

COSMIC AWARENESS:

This Awareness indicates that you learn more during times of intensity than during times of relaxation. This Awareness indicates that entities progress more, gain more understanding, gain greater insights during times of urgency, intensity, confusion, than during times of peace, rest and harmony.

This Awareness suggests that the entity, Ouspensky, in the Search For The Miraculous, and his work, The Fourth Way; this entity delves deeply into this concept, stating that if you do not have an intense situation, it may be to your advantage to create such a situation in order to progress and learn more, to raise your own consciousness. This Awareness indicates that he and Gurdjieff and their co-workers, actually created such intense situations in their schools so that the students could learn more about themselves and their own reactions.

This Awareness indicates there are many groups today using this same principle. This Awareness indicates that EST, Life Spring, the various works in Escalon, and the various teachings in the human potential movement very often create situations wherein entities are confronted with others, confronted with difficulties, so that they must face themselves in an intense situation; and from this intensity, they discover things which they might not discover in future situations, or might not have discovered in previous situations.

This Awareness indicates that many entities choose to return to the earth plane because it is a difficult place to live. It is likened unto an insane asylum or prison; and in these prisons, in these insane asylums, there is the opportunity for great learning of self and of one's potential.

This Awareness indicates in the astrological sense, this is the 12th house: the house of self-undoing, the house of karmic discovery, the house of research, the house of confinement, the house of prisons, hospitals and mental systems. This Awareness indicates the 12th house as also the house of integration; that entities in a difficult situation adopt themselves more quickly and integrate themselves more quickly to what is necessary to the lessons which must be learned.

The Lesson Ralph Duby Learned
In a Japanese Torture Camp

This Awareness indicates this as exemplified in the entity, Ralph Duby, in the Japanese torture camp, who was given less than two weeks to learn the Japanese language or suffer death. The entity did learn this language and became an interpreter for the Japanese and the Americans within the camp.

This Awareness indicates the experience this entity learned there also was reflected in later experiences wherein the entity became an interpreter for this Awareness in the prison known as earth, and to interpret those levels wherein there were those who suffered sorrow, sickness, tragedies; and this action led to the freeing of the entity Ralph Duby from this plane.

This Awareness indicates that you and others upon this plane, in these places of confinement, in these levels of intensity, are blessed. For it is during these times that you are being given the greatest opportunity to learn about yourself, about life, about others, about relationships, about concepts, and about integration of consciousness.

This Awareness asks you to count your blessings.

~~*~*~*

ED'S Note: Ralph Duby's ordeal in the death camp is related in his book, Oh, Lord, Let Me Cry. CAC has a few of this rare, limited edition left. (\$25 donation).

WILL OLD MOVIE FLICKS
FREEZE THE CONSCIOUSNESS
OF THE STARS AFTER DEATH?

Question:

In reference to the information Awareness gave previously on mummies and frozen consciousness, we'd like to know: How about the dead movie actors, and movies that are still being shown on television and theatres? Would this effect those entities after they have passed over, or be related in any way to the freezing of consciousness in some manner?

COSMIC AWARENESS:

This Awareness indicates this as in the negative. That the films of these entities no more affect their souls than do the articles and possessions of an entity which have been left behind after that entity leaves.

This Awareness indicates there is some connection which can hold an entity's energy, but this as basically due to the attachment of the entity to the clothing, to the articles and possessions which belonged to him or her, or to the films which the entity is identified, but this is not something that is forced upon the entity by circumstances. This as rather something which the entity may, through feelings of identification, security needs, desire to hold on rather than let go, and feelings of possessiveness. This may occur due to the feelings of the entity, after the entity has passed on.

This Awareness indicates that entities also may refuse to leave loved ones and linger around their loved ones for some time; that certain entities have been so attached to houses, or places, that they become caught in those places for many years after they have left their physical body. This creating that which is known as ghosts.

This Awareness indicates that there is no violation of an entity's soul or consciousness by preserving films or possessions of that entity, so long as there is no effort to call back the entity, or capture the soul of the entity, binding the entity by using these articles.

This Awareness indicates that there have been instances in certain cultures whereby articles were used to capture the spirit of entities for control and use of their being after they have left the physical body, and certain witch doctors, or black magicians, have used these trinkets to lure the soul or spirit of an entity in

order to use those energies of that entity for their deeds. This Awareness indicates those who participate in this do, indeed, violate the rights of others and shall, indeed, reap the proper reward.

MORE ON ABORTION
(What About Rape?)

Question:

We have a letter from R.G., Portland, Oregon, who says: "I am learning very much. However, I criticise the abortion answer as a male answer." (She was referring to the information Awareness gave us on abortion which was published previously). "Entities do not necessarily enter a mother at conception, but may wait until late in the term. A woman certainly has the right to close the door early in pregnancy. A woman can, and is, raped by lovers, husbands, not a free open door on her part at all. Not to say abortion should be treated lightly, but it is a birth control method of last resort. Getting pregnant doesn't necessarily mean wanting to have and raise a child. Otherwise, I like what I read very much."

COSMIC AWARENESS:

This Awareness indicated in that previous reading that the longer an entity waits to have the guest leave, the greater the karma involved.

This Awareness did not indicate a condemnation for those who participate in abortion. This Awareness did indicate that there is, indeed, a violation which does occur when entities abort one another through carelessly leaving the door open.

This Awareness indicates that wherein the door has been broken down and one enters, unwanted, through forced entry, the situation is different. The one who then is violated is the one whose door was broken, and the action of ejecting another who has forcibly entered is not the same kind of action, is not a violation, but a defense of one's rights.

ED's Note: For more information on abortion, please refer to Revelations of Awareness No. 77-5, and 77-10.

AUTOMATIC WRITING
AND CONTACTING SPIRITS

(The Correct Way To Do It)

Question:

We have a rather long letter from R.N. I will try to extract the question. "About four years back, while under hypnosis, I spoke of two spirit guides who were supposedly mine, if that is at all possible. Their names were Anazorak and Atiton. For awhile afterwards, maybe six months, I would speak with them, mentally, of course, and they seemed to come up with many answers. I

stopped communicating with them because I figured that it was really only me answering myself, if you get the drift. Anyway, on July 7th, which I since learned was the date of your convention in Pennsylvania, a group of new-found friends and myself started working the ouji board. We have contacted what they designate themselves to be as guides. Anazorak returned and so did Atiton as well as Pacenak, Lubababau, Karuk and Motaw. They keep stressing that there is a much easier way than the board, yet they tell us in so many words that we have to figure it out for ourselves. I would assume trance, but I would like to know exactly what this method would be".

COSMIC AWARENESS:

This Awareness suggests that a step between the trance level and the board would be through automatic writing.

This Awareness suggests that you place a pencil in your hand on a piece of paper, tune into the vibrations of your spirit guide, and allow the pencil to draw, doodle, create diagrams, or write letters or words, according to its own inclination.

This Awareness suggests that prior to any action of this kind, that you state the Law of Love clearly, light a candle, wrap yourself in white light, and call upon this Awareness to be near. This Awareness indicates that in this manner you may be assured that the vibrations shall be such that low spirits shall not be allowed to enter.

This Awareness suggests also that you not participate in this kind of automatic writing or contacting of spirits at any time wherein there are energies, or entities, whose purposes in being involved are of a negative, devious, judgmental or condemning, hostility, or wherein entities have any form of ulterior motive. That you also be careful to avoid any unnecessary frivolity in the action of teasing the spirits, for this shall only lead to a kind of lowering of the vibrations to communicate with lower spirits.

This Awareness suggests that you also avoid any form of greed or power-seeking in this action. That you simply surrender yourself to the highest and best that is available in the world of vibrations, and allow the pencil to write that which comes to it.

This Awareness indicates that you may then begin to notice that words or letters are also forming in your consciousness simultaneously to the pencil writings. This Awareness indicates as you continue practicing this, you may find it possible to put away the pencil and speak the words.

This Awareness suggests that before putting away the pencil, you may find your lips moving, verbalizing quietly the words which you are hearing and writing. That gradually you may vocalize these words, then place the pencil aside and begin speaking in a tape recorder.

This Awareness suggests that if you are to do this kind of channeling, that you be sure to use the ritual previously mentioned--wrapping yourself in white light, lighting a candle, stating the Law of Love, calling forth for the highest and best available to you.

This Awareness suggests that upon completion, that you then clear out your aura, through visualization, anything which has been dark and negative which has touched upon your consciousness during the channeling; that you state the Law of Gratitude, or give appreciation to those forces which have given information; that you then may put out the candle and return to your own identity.

This Awareness suggests that you also will benefit in this action by keeping the two levels of consciousness separated, so that the spirits only communicate with you upon request, and not when you are functioning as yourself. This Awareness suggests this be done by mentally placing aside mind, emotion and feeling, placing aside thoughts, attachments and reactions to things which are occurring round about you.

This Awareness suggests that you study the material given on meditation, for much is available there, particularly the meditation of disappearance. This can be beneficial to you. ***

ED's Note: Please refer to the Meditation Manual. (See reprints available catalog).

Question: CHANNELING BY 'INTUNEMENT'

Is the type of channeling Awareness just described the same type that A.W. and others refer to as "intunements?"

COSMIC AWARENESS:

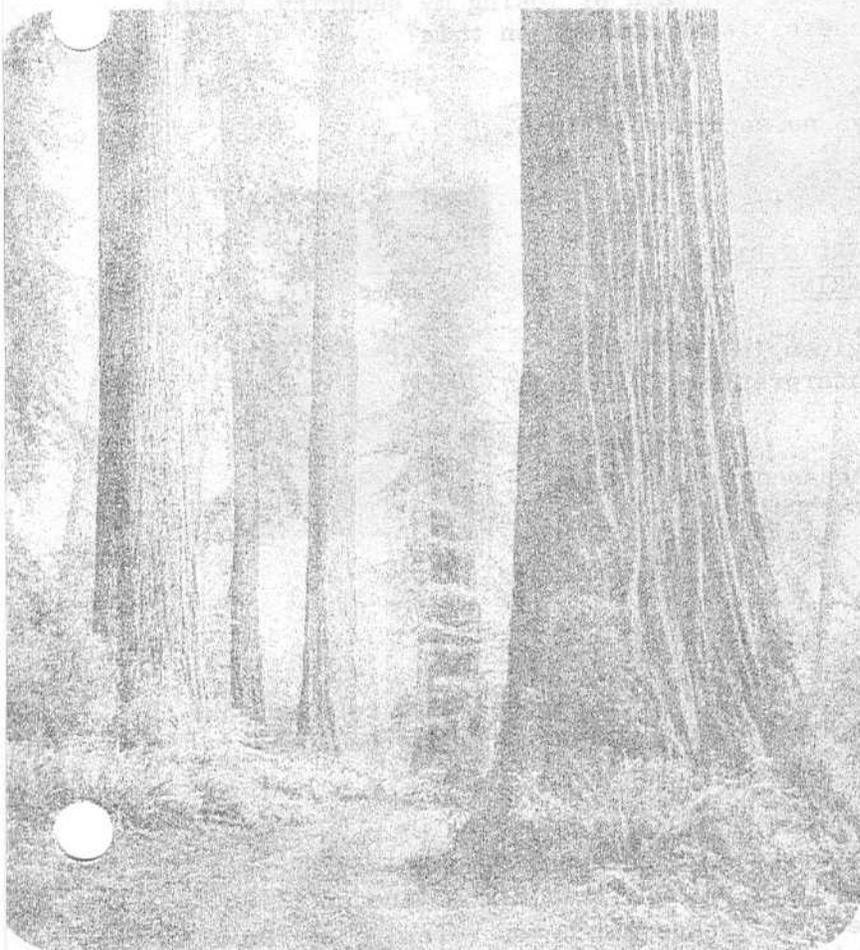

This Awareness indicates this as relatively correct. That intunement as likened unto the transpersonative action, wherein one entity tunes oneself into the vibrations of another entity, or creature, or object.

This Awareness indicates there is a term in the book, Stranger In A Strange Land; this term being that called 'Grocking.' That wherein an entity grocks another object, creature, or another entity, that entity is in tune with that object, creature or entity through a tuning in of the vibrations.

This Awareness suggests that entities who wish to practice this may, indeed, find many unusual and very beneficial experiences by looking at a rock, then closing their eyes during meditation, or remembering a rock, and during meditation, closing their eyes and feeling themselves as that rock. This Awareness suggests that ten minutes of feeling yourself as a rock will do wonders for your understanding of what it is to be a rock that endures for such a long period of time.

This Awareness suggests that entities may also close their eyes and feel what it is like to become a tree, to stand for hundreds of years in the same spot, weaving back and forth with the wind, experiencing the seasonal changes, knowing the whereabouts of other trees through a sensitivity to them, feeling the pollen from other trees, but not having the eyes to see, living in a world of shadows and feelings without senses.

This Awareness indicates that entities who meditate in these transpersonal, or transcreature, or transobject meditations can learn many things about the nature of consciousness; for even the rock has its consciousness. The atoms within the rock spin and move and have their activities which they repeat, and these atoms are living creatures, even as the cells within your own body are living.

HOW LIVING TREES FEEL THE PAIN OF THE CHAIN SAW

Question:

In reference to that, I had a boyhood friend down in Medford, Oregon, by the name of D.R., who grew up to become a logger of the redwood forest of California. When last I saw him, a few years back, he told me that he was getting out of the logging business because when he fell these giant trees, they would often shriek in pain. He told me that he thought he was going crazy, but he was absolutely sure that he could hear them shrieking in pain. As a result of this, this man got out of the logging of the redwoods, and he now has a business where he is reforesting, planting trees all over Oregon. I would like to ask Awareness if that was valid, if the trees actually did scream out in pain?

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. That the sound is not the same as that which comes from a mouth. The sound was that which came through the

pulling apart of the cells at the place of injury. This Awareness suggests that the entity was so much in tune to the feeling of the trees, becoming one with the tree, so that his consciousness was capable of hearing the voice of the tree.

This Awareness indicates another entity, less sensitive, standing nearby, might not hear this voice of the tree. This Awareness suggests that there are certain instruments, electronic instruments, which would be able to hear these sounds. This Awareness suggests there have been experiments whereby plants have been burned and microphones placed nearby with instruments that have picked up the sounds of these cries.

This Awareness suggests the book, Autobiography Of A Yoga, by Yogananda, as containing information on this; that there is also much information in The Secret Life Of Plants, by Vogel, and others who have worked in the study of the psychic energies relating to plants.

ED's Note: The Autobiography Of A Yoga, by Yogananda is available from CAC (\$6.95).

CONCERNING
"SECURITY"

Question:

My parents have me going in circles with concern and fear. I feel trapped by my family and my job, but I'm afraid of losing my security. Would Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates that you have no security to lose.

CONCERNING THE VIRGIN BIRTH
OF JESUS THE NAZARINE

(From a reading given in 1963)
Ralph Duby, Interpreter

Question:

Was the virgin conception of Jesus expressed in symbolic form to indicate a point of creativity, or should it be interpreted literally to mean that conception was without a physical union?

COSMIC AWARENESS:

This Awareness indicates at this time that this Awareness does wish to give that historical evidence that may be used on entities on this plane to understand the meaning other than that which is symbolic.

This Awareness indicates in that time there was near the village of Nazareth a place now no longer existent, which was Ceasarea. Here encamped were Roman troops. Among these was one,--Antonious. This personality was one that had a line of illustrious descendants, many of whom had reached that stage which you refer to as 'Sainthood. This young man was pure, was beautiful, was full of joy and ecstasy; had reached that kind of awareness that this particular Awareness has described as Cosmic.

This Awareness indicates that Anna, who was the mother of Mary, was near this entity and close to him and wished to effect a liaison between him and that entity which was Mary.

At that time there was a physical union between these two entities and Mary was not conscious that the hymen was pierced; that this was that moment of conception wherein that entity, without name at this time, that has been referred to as the Christ Consciousness, was conceived.

CHRISTMAS IN JULY

(The Real Birth Date of Jesus)

(Ralph Duby, Trance-Interpreter)

Question:

According to the Bible, Jesus was of the lineage of Judea. Astrologically Judea comes under the sign of Leo and His birthday should be celebrated in July or August. Yet we celebrate it on Christmas Day. What is the truth concerning this?

COSMIC AWARENESS:

This Awareness indicates carefully that the entity Jesus of Nazareth was born in July, the third Century B.C.

Question:

Then why do we celebrate His birthday in December?

COSMIC AWARENESS:

It is suggested that those who have created this particular date can answer this question, not this Awareness.

CONCERNING THE ASSASSINATION OF JOHN H. KENNEDY

(From a reading given, Nov., 22, 1963)

Ralph Duby, Trance-Interpreter

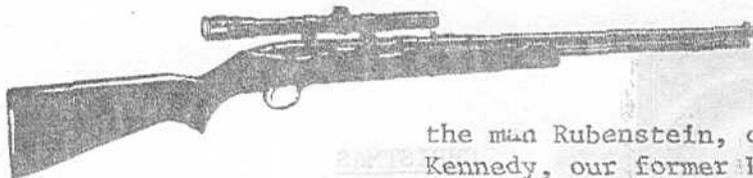

Question:

Was the assassin a member of an organized group acting on their authority through suggestion or the use of a talisman or some similar device?

COSMIC AWARENESS:

This Awareness indicates that this sort of fanaticism, which is error, is not that which this Awareness will point fingers at. That most entities herein who already understand the nature of this act, the madness that ensues, the kind of secret group that does move entities into that edge of madness. That those qualities of love, mercy, and of gratitude that characterize this association, (Ed's note: Organization of Awareness) are those qualities that entities can and should emulate. And those

qualities that are evidenced by those fanatical groups, those who devote themselves to hate, to power, to greed, are those that do bring havoc and destruction. And these entities, indeed, experience that energy which has been described by this Awareness as that unequal line, wherein the good that entities do surely returns to them laden with gifts; and the error and the evil that entities perpetrate do also return to cause that disharmony, that discord, and that relegation for eternity to those lands beyond this land, to that plane which has been referred to as Limbo.

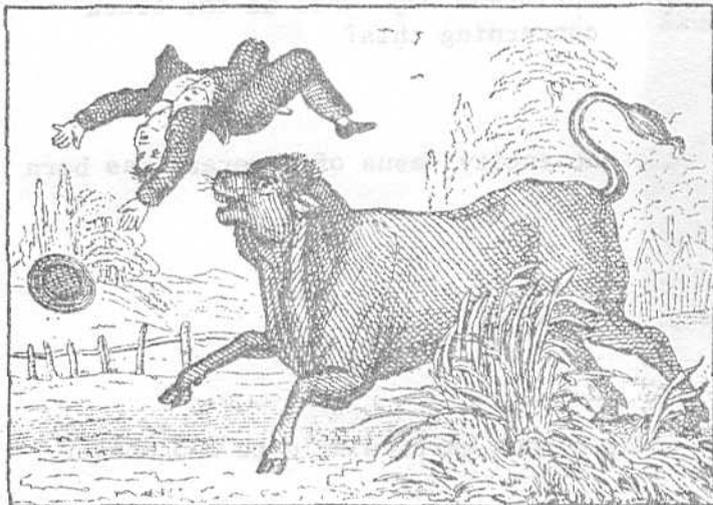

Question:

Is there some karmic history between the man Rubenstein, called Ruby, in the newspapers, and John Kennedy, our former President?

COSMIC AWARENESS:

This Awareness indicates that the President was one who fully understood, long before his passing over, that this was to be the nature of his death. Indicated that this entity had long been aware as to how he would be assassinated.

It is suggested that in many respects that there was a soul identification with that former great statesman which was Lincoln; that this entity does in some measure represent that same soul, that same soul stuff; but that this was not effected through reincarnation. Reference to the actual perpetrator of this error, herein was no karmic association, but that of a mind in grievous error.

HOW TO DEAL WITH A KID
WHO INTERRUPTS
COMMUNICATION

Question:

We have a young Taurus male in our family who is very bright, talented and aware in many ways, but who has driven everyone else in the family, as well as many of his peers and friends, to distraction with a communication problem. He cannot seem to listen. He will ask a question, and before anyone can even finish their reply, he immediately interrupts with defensive disclaimers

and sidetrips etc. He cannot seem to just listen and consider what people tell him, but he immediately begins reacting instead. He has always been hard to reach, but he is now 17, and it has reached the most intense stages. Even though we have studied the Awareness lessons on communication and relationships, we still can't seem to cope with him. Many times, when he has interrupted us this way, and gone over and over the same things we have explained a hundred times, we have just thrown up our hands in frustration and refused to talk to him further. He says he reads the lessons too, and we realize this problem is more his than ours, as it is his pattern; but, what can we do? How can we most effectively cope with this pattern until he grows beyond it?

COSMIC AWARENESS:

This Awareness indicates there are two approaches. This Awareness suggests that as soon as the entity interrupts, that you let him say approximately six words, then interrupt him. This as a mirroring action.

This Awareness suggests that when you interrupt the entity, you may interrupt by saying that you are interrupting this entity because the entity interrupted you. This Awareness suggests that you continue speaking about interruptions until the entity

realizes the nature of interruptions. This Awareness suggests that this continue each time the entity interrupts and fails to listen. This Awareness suggests that then you may agree on a pact whereby each listens totally to hear the other entity's statements through to the finish, and then when finished, the entities signal each other that it is now your turn to speak. This Awareness indicates such an arrangement will allow each entity to have his or her turn and allow these entities to complete their thoughts.

This Awareness suggests, however, that another approach may be to simply inform the entity that you do not care to talk to the entity or listen to the entity because the entity does not care to listen to you. This Awareness suggests that wherein there is communication, that communication cannot exist unless there is a listener as well as one who is willing to communicate and speak, or send the message.

This Awareness suggests that wherein one entity is willing to speak but unwilling to listen, there is no possible way for communication to occur. This Awareness indicates communication is a two-way activity. Anything less is nothing but expression and frustration.

This Awareness indicates that often entities appear to be listening, yet are thinking of their replies and are not at all listening or receiving. This Awareness suggests that in order to avoid this kind of apparent listening, you may ask for feedback, asking the entity to restate to you what you have said in their own words, to test and see if the entity has actually heard what you have said. This Awareness indicates that the issue of the communication can be placed aside as less important at the beginning than the need for establishing a method whereby communication can occur. Once this is established, then discussions about other topics may follow.

This Awareness wishes to make one further comment regarding this situation, for there are many who are caught in similar experiences. This Awareness indicates that wherein an entity does not wish to have this kind of clear two-way communication, this Awareness suggests that you not waste too much of your time with the entity, that you simply express the problem as you see it, make an offer to resolve the problem by working toward greater communication; but if the entity becomes resentful or hostile and does not wish this to occur, this Awareness suggests then that you simply let the entity go his or her way, but that you not waste your energies on attempting to communicate with one who does not wish to communicate.

This Awareness indicates this as on an individual basis and depends greatly on the nature of the individuals involved and how much they wish to tolerate each other's differences.

ED's Note:

For more information on communication and how entities can communicate with one another, please refer to the entire Volume No. three of the Correspondence Lessons (Gemini) which concerns this subject.
