COSMIC AWARENESS is the *Force* that expressed *Itself* through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 *Cosmic Awareness* has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the *New Age* and those who shall inherit the *New Age*. Throughout the many thousands of 'Readings' given through these channels, *Cosmic Awareness* repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. *Cosmic Awareness* will only indicate and suggest. Members of *Cosmic Awareness Communications* are invited to send in questions (on anything of general interest) for possible publication in this Newsletter.

COSMIC AWARENESS: (Opening Message)

This Awareness indicates that the coming three or four years as that which can become quite intense on many levels.

This Awareness suggests that the future is not fixed; yet there is that force which is in movement, which is on a collision course with other forces which are in movement, and when these energies come together, there can be much which is disharmonious as these energies reach their reconciliation.

This Awareness indicates that there is that force which has been called the Force of Darkness, that force which represents those energies which motivate greed, lust, power, and separateness.

There is that force which has been called the Force of Light, which represents Unity, Service, Love, and Harmony. These forces have enjoyed movement throughout the universe for eons of time; and there have been times wherein the Forces of Darkness gained power over the Light Force, and times wherein this has been reversed.

This Awareness indicates that upon this plane, near the time--the latter part of the Atlantean culture--the Forces of Darkness prevailed and won the battle against the Forces of Light. This Awareness indicates that this now has come around again and at this time the Forces of Light will win out against the Forces of Darkness.

This Awareness wishes to clarify: The Forces of Darkness are those forces which emanate from the concept of separateness. The Forces of Light are those forces which emanate from the concept of Unity. This Awareness indicates that the reconciliation between the Forces of Light and the Forces of Darkness is that which brings about the Clear Light, the Energy which is associated with this Awareness, with Love and Mercy, Harmony, and the acceptance of what is.

This Awareness indicates that the Clear Light is neither knowledge of good nor the knowledge of evil, but rather the Wisdom of Understanding.

This special edition of *Revelations of Awareness* is published jointly by the Aquarian Church of Universal Service and Cosmic Awareness Communications. Permission is granted to edit, publish or reproduce this information in any manner. It is highly important that the public be given this information NOW before it is too late. (Extra copies \$4.00)

This Awareness indicates that upon this plane there is that which is now occurring whereby The Rapture is in progress, wherein entities are lifted up spiritually, wherein entities in groups are lifted spiritually; and these liftings, these spiritual raptures, will continue as the Forces of Light prepare for that which is coming in the near future.

This Awareness indicates that this rapture has been in progress for several years, since approximately 1969, and is not related unto the images which many hold whereby angels, deities, or spacecraft are expected to land on this planet and take others away to other places. Rather, the rapture which is occurring at this time, is that wherein the souls of entities--the spirits, the etheric bodies of entities--are becoming enraptured with the spiritual energies of awakening consciousness of the Christ Consciousness, and are being raised to high levels of vibration. And these entities, in being given that dose of high energy, high spiritual awakening, will then be prepared by this Light Energy of spiritual awakening by the Christ Consciousness, to return back to the physical expressions, will be released again into the world of matter and materialism, carrying this Light Energy within their being; and these entities who have experienced the rapture of enlightenment will then take upon themselves the karma of the world, according to their own individual capacities. These entities being Christed, having received the Christ Light, or Crystal Clear Consciousness, will then take upon themselves the energy of Satan, or that which is the Alien Force, the energies of the Dark Forces, and will let these energies into their own being to be worked out by the entity until there is a resolving of that energy and a dissolution of the concepts and forces of separateness.

This Awareness indicates this as the Battle of Armageddon which takes place within each individual who is open to exchange energies with the forces.

This Awareness indicates that the Forces of Light are those which shall be asked to take on the Forces of Darkness; to take these on themselves and to work off the karma of the collective consciousness of the earth planet.

This Awareness indicates this as being experienced in the coming three years, perhaps four years; and the degree of involvement, the level of understanding, the intensity of awareness, as this occurs, will determine whether there is civil war or other outbreaks, or whether this occurs within individuals, within families, within societies as disruptions to harmony.

This Awareness suggests that this Battle of Armageddon within the individuals is already in progress and has been occurring, and accounts for many of the disturbances which often become front page news in terms of individual expressions and activities of violence, and accounts also for many of the personal annoyances, disturbances and frustrations in relationship with loved ones and associates; whereby entities are being given karma from the collective consciousness of humanity to work off and reconcile, or dissolve.

This Awareness suggests that wherein you find yourself in a situation experiencing negative forces within your being, or having such forces directed toward you from another, that you consider carefully this message; for these energies may well be nothing more than your service to this planet, whereby you are reconciling these forces by dramatizing and working them out in conscious levels, working out those energies which are of such a level that you, yourself, can understand and deal with these energies without creating greater tragedy because of them.

HOW YOU CAN DEAL WITH THESE NEGATIVE FORCES

This Awareness suggests that wherein one entity experiences totally a particular type of energy, this wisdom and understanding that comes from this experience is presented into the collective consciousness as wisdom and understanding that assists others who tune in to that force to also see the solution without creating greater disturbance.

This Awareness suggests that wherein one gains complete wisdom and understanding from an experience of a negative nature, all others benefit from that discovery. This as related unto the vibrations which float and permeate the planet; this is related unto the energies of the earth's aura which emanates from the consciousness of entities upon its plane.

This Awareness suggests this may be likened unto a bio-computer which floats in the earth's aura, which entities may tap into; even as weather affects entities and entities may be influenced by weather, likewise these energies of thought which have emanated from activities and expressions of the billions of earth entities, which float and hang in the atmosphere of the earth and look for those entities who will express them in their actions; these various thought-forms, looking for outlets through entities as agents of expression: these are the energies which must be worked off,

reconciled, and dissipated by the Battle of Armageddon, either through individuals who are Light Workers who are capable of understanding these energies, dealing with these energies, and reconciling these energies without violence, or these energies will express themselves through anyone who is available; and if violence erupts, then that too will be a form of reconciliation or the playing out of those energies.

This Awareness suggests that it behooves entities who can take on these intensities not to avoid looking at the intense realities of such energies, such as Alien Forces, but rather to enter into the 'nitty-gritty' of the forces to the degree that you are capable of handling these forces without self-destruction or the destruction or harm to others. This Awareness suggests this be done in verbal levels as light as is possible; but wherein the energies must get heavy, that you let them get heavy in order to tap the energies and let them flow through you.

This Awareness suggests that you recognize that this kind of action is nothing more than psycho-drama and suggests that you and your adversary, or partner in the psycho-drama scenes, both have an understanding of the nature and reasons for this action, so that neither gets carried away to the point of forgetfulness and forgetting that it is all psycho-drama to work off these energies in consciousness. This Awareness suggests this likened unto a play presented upon a stage for the benefit of an audience; presenting a drama which dramatizes to the audience their own plight, and working off that plight through the scenes and plot of the show which takes place upon the stage, so that the audience has the opportunity to experience with the actors and release their own frustrations along the same lines of direction and plotting as is indicated by the script which is being enacted upon the stage.

This Awareness suggests that when entities engage in psycho-drama, even if there is no other person nearby to watch that performance, the energies within that psycho-drama which are cleared by the psycho-drama emanate into all of consciousness for the audience 'out there' in consciousness to pick up on in their emotional levels and in that area of unconscious realizations, so that the audience itself, the masses of people upon the earth, need not express the intensities which the actors have played out in their own psycho-drama; because these actors have discharged the aura of the earth from some of that energy which would otherwise have led to intense, chaotic situations for other entities who might not have the wisdom and understanding of how to deal with those energies in a manner that reconciles.

THE 'TRIBULATIONS' BEGIN OCTOBER, 1979

This Awareness indicates that in regard to changes which are occurring, that there now has been added a greater demand upon humanity, particularly those Light Workers; that they are being given even more karma of the earth which needs to be worked out. This Awareness suggests that as of October of this year, (1978) there are forces emanating upon this plane which are beginning to have greater effect in terms of forcing entities to awaken or self-destruct.

This Awareness indicates that these intense radiations coming upon this plane will have beneficial results in speeding up the awakening of consciousness, even though they will have detrimental results on those who are laggards and refuse to move. This Awareness suggests that this is likened unto the separation of the wheat from the chaff, and that there has been an intensity of this which begins now and continues on for some time to come.

This Awareness indicates that it has been suggested that October of '79 as being a time wherein great changes will occur. This Awareness also indicated previously that the time had come, that mankind has come of age. This Awareness indicated that the spiritual hierarchy as that which was releasing energies, releasing controls, turning these controls over to humanity. This Awareness suggests that these controls have not as yet been totally released; that the release comes along with the wisdom to handle that energy. This Awareness suggests this as one reason why the *Unified States of Awareness* has not been as effective as entities might have desired; for the hierarchy, the spiritual hierarchy, has not totally released these energies, and is NOT to release these energies and controls, until there are entities upon this plane who are capable of accepting, receiving, and properly using the energies which are released.

This Awareness indicates that it appears at this time that more is to be released upon this plane by the spiritual hierarchy during the coming months, and particularly during the fall of 1979 at the time indicated previously as that which is the beginning of the TRIBULATIONS.

This Awareness indicates that as of October, '79, the spiritual hierarchy, which has been withdrawing more and more, and at this time holds little control over the destiny of mankind other than through the influence of the teachings; the spiritual hierarchy, at that time, appears to be ready for withdrawal to allow that which will occur by the withdrawal of those forces of Michael's reign, to occur according to the energies which are in movement upon this plane.

This Awareness indicates there are seen times of tribulation for many. That the forces upon this plane appear at this time to be in conflict. That there are those who are envisioning a system to enslave humanity. There are those who are envisioning a system to avoid such enslavement; and there are those who seek to escape through their faith or religion, or through death, through drugs, through entertainment, or other fantasy levels, from any form of involvement in the experience which is to come.

This Awareness indicates there will be no escape. There will be no permanent enslavement. There will be an avoidance of the enslavement. That the length of time of the Tribulations, the degree of the Tribulations, and the individual involvement in the suffering of the Tribulations, is that which will be determined by the quality and quantity of energy devoted by Light Workers in working off the earth's karma.

THE BATTLE OF ARMAGEDDON BEGINS WITHIN EACH ENTITY

This Awareness indicates the sooner this Battle of Armageddon begins within each individual, the more time entities have for avoiding and diffusing the energies of the Beast and its powers.

This Awareness suggests that entities begin now to clarify their relationships with one another, and in this manner, entities will begin to work off the earth's karma.

This Awareness suggests this begin first with those closest to you. That you discover exactly what your relationship is with another person; not to force a relationship of a particular type, but to discover in fact the nature of the relationship: whether it is based on security needs, patterns and habits, dependencies: emotional, mental, spiritual or physical. Whether it is of a deep loyalty or a feeling of duty or obligation, a sense of responsibility, or whether it is based on some hopeful dream of reforming the other person. Or whether it is based upon some desire to learn, or to be pampered, or to be given something in the future as a reward for present behaviour. Or whether the relationship is based upon clear, honest love and concern for one another's well-being, one another's intentions, purposes and activities and interests. Or whether the relationship is based upon a person's ideals from childhood, from religions, from parents, or from other services or experiences. Whether the relationship has any real value or substance, or is simply being carried along by inertia. Or whether the relationship is based upon the welfare of others--such as children, or relatives, or the career.

This Awareness suggests you not attempt to force the relationships into anything other than what they are, but rather that you discuss with one another to discover what the relationships are; and from there these relationships may begin to change, or they may remain as they are. This Awareness does not intend by this message to start entities fighting or arguing over whether or not they are truly loved, but does wish that entities look at their relationships clearly, discover their own motives in the relationships, and discover the motives of others, and to discover the nature of the relationship so that each may understand.

This Awareness indicates confusion and frustration results when one entity is seeing a particular type of relationship with another and attempts to energize that relationship, while the other entity envisions a totally different type of relationship and is not cooperating with the other's energizing. And therefore, both parties are working against each other and the relationship is losing, or leaking energies which are being poured into it.

This Awareness suggests that a clear definition of what the relationship is, will assist entities in not wasting their energies and in having greater understanding of where each stands in terms of needs and expectations of the other.

This Awareness indicates it is through this type of action that entities shall fight the Battle of Armageddon within themselves and clear the cobwebs from the aura of the planet to assist in diffusing those alien forces and energies which presently appear to be so totally powerful with all of the controls of military, armaments, computers, bureaucracies, law, television and newspaper and radio monopoly, industrial monopoly, banking monopoly; all of these controls mean nothing if the mind which lies behind the trigger does not have the energy, desire or motivation to pull the trigger that would destroy the freedom of the masses.

This Awareness suggests that wherein entities work off these energies, the motivation for those channels of alien energy is cut off. Those channels of alien energy cannot find motivation, purpose, desire, or drive to enslave humanity if those alien forces are not available to energize their being. This likened unto draining out the negative electronics, or electrical substances, so that the alien forces have no energies to tap, to motivate themselves, and therefore will be forced to plug into Light Forces, the sockets of the Light Forces, in order to have any energy, even for their own survival.

This Awareness suggests you visualize this as electrical forces, dark electrical forces' Light, and imagine yourself and thousands of others ripping off, or taking upon yourself, the Dark Forces, converting, transforming, transmuting those Dark Forces into a reconciled energy--diffused, neutralized; so that the alien channels who have depended upon those dark energies to power themselves and their motivations, find themselves suddenly without any alien electrical energies.

This Awareness indicates electricity here as used only allegorically, that in reality we are discussing consciousness: light or dark forces in consciousness. This Awareness suggests that by taking on the Dark Force yourself--working it out, neutralizing it in consciousness, being aware while experiencing those Dark Forces, entities can drain the storehouse of the alien force and cut off the supplies that would feed the armies of the Dark Force which would enslave others.

This Awareness suggests that you let yourself experience jealousy. You let yourself experience frustration, greed, lust; all of these alien, negative energies long enough to where you see what the nature of these forces are. That in consciousness, you observe their effects upon you and upon your relationship with others who are working with you in this project, in these psycho-drama experiences. That you deliberately set up situations, play games, experience conflicts, experience the confusions and the frustrations with one another. But always being aware that it is only artificial, so that you can discharge those energies, reconcile those energies, and neutralize those energies and emerge again, unscathed, into levels of Light, Love and Unity.

This Awareness indicates this as the conclusion of the opening message for the Battle of Armageddon. That questions may follow in further readings as may be desired.

ED's Note:

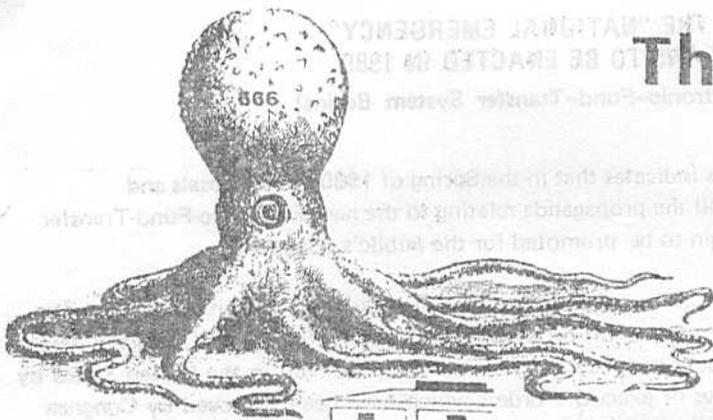

The questions which followed on this subject of channeling and transmuting the negative energies of the Dark Force will be found on Page 20.

The Revelation Communicated to the Apostle John In Patmos

The Gathering Storm

(Part 2)

the Crash of '79

QUESTION:

T.M. of Nashville, Tennessee writes: "I have a couple of questions that I hope you will find interesting enough to ask Awareness to comment on. The first has to do with a statement made in a recent reading (78-31) in which Awareness warned against government-sponsored day care centers as a start of a program to capture the minds of children. The next sentence was: 'This Awareness indicates this not as far-fetched as it may

seem, that in crisis situations whereby a depression might occur, particularly after....etc. This Awareness suggests this after the October '79 situation.' The implication is that there will be an economic depression in October, 1979. Shortly after I received this mailing from C.A.C., I received another piece of mail with the exact same prediction. This was an offer to subscribe to a weekly newspaper called 'The Spotlight', and as an inducement to subscribe, the editors of the Spotlight are offering a free copy of a report called 'The Upright Spike of '79, Doomsday For America', written by a Dr. E.L. Anderson. The Upright Spike is supposed to detail the imminent collapse of the dollar and why this collapse is inevitable. The next paragraph in the letter from the Spotlight struck me because the identical prediction was made by Awareness: "Of course, people have warned of another depression for years. What Doctor Anderson predicts however, is something quite different. Based on factual evidence and definite trends, he foresees economic chaos in America in later 1979, about October 15, give or take a few weeks." Would Awareness please comment on this report, the Upright Spike, by Dr. Anderson, and would Awareness care to comment further on the prediction of an economic crisis next October?

COSMIC AWARENESS:

This Awareness indicates this timing as appropriate for this action. This Awareness suggests that this time being more probable as the 29th of October, 1979. This Awareness indicates this as being the 50th anniversary of the 1929 crash of the stock market.

This Awareness indicates that this has been planned and the movement has been set in motion for that time. This Awareness indicates this as related unto the efforts of the powers in Europe, particularly working through England and the economic systems to destroy the American economy. This using the various banks in America as assistance in this action.

This Awareness indicates much information on this particular situation in terms of the background or hidden economic control system will be found in the U.S. Labor Party (paper) entitled 'Black Internationalists, the Knights of Malta.' This Awareness indicates that this U.S. Labor Party paper is available to the public and contains much information relating unto one arm of the Illuminati, or that which is called 'The Black Internationalists' in reference to the paper put out by the U.S. Labor Party.

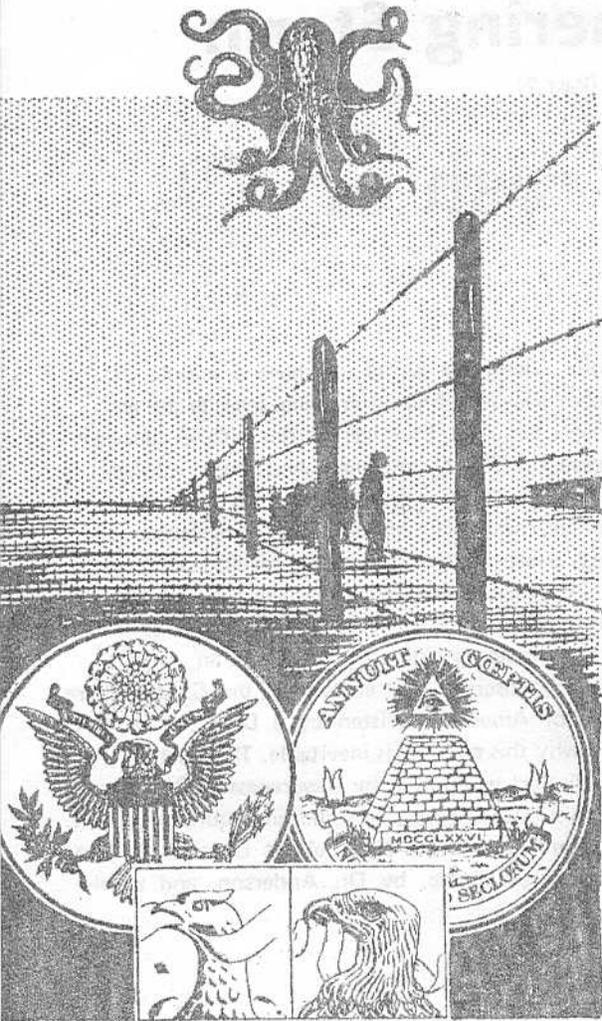

This Awareness indicates that information given on this previously may be included in this particular session, if appropriate.

This Awareness suggests that entities wishing to examine this area may purchase this particular paper and fill in the details according to their own inclination. This Awareness suggests that in terms of the economic crash in October of '79, this being planned as a prelude to the introduction of the Electronic-Fund-Transfer Systems, whereby cash will be taken from the economy and all entities will be forced to receive a number and a bank account through which the Electronic-Fund-Transfer System will exchange money.

This Awareness suggests this has been indicated previously, that wherein entities would move through purchasing counters having a number, the computerized scales would automatically deduct the expense from the fund in the entity's bank account and transfer this into the market's or store's bank account. This Awareness suggests this as the plan.

This Awareness indicates that this economic crash in October as designed to create confusion and chaos among the masses, so that the masses will accept anything which brings back prosperity. This Awareness suggests that this appears to be of a low ebb in terms of an economic drain, for approximately six months while the money is drawn out of circulation.

THE "NATIONAL EMERGENCY"
LAWS TO BE ENACTED IN 1980
(Electronic-Fund-Transfer System Begins)

This Awareness indicates that in the Spring of 1980 the proposals and advertisements and the propaganda relating to the new Electronic-Fund-Transfer Programs will begin to be promoted for the public's acceptance.

This Awareness indicates that near that time also, the executive orders will be implemented for what will be called 'The National Emergency', which allows certain executive actions to basically set up a dictatorship in the United States by imposing those laws or executive orders which have been approved by Congress over the past 28 years, that allow the President to declare a national emergency and impose those orders.

This Awareness indicates that these orders include the government's take-over of electrical power plants, telephones, radio, television networks, newspapers, the transportation systems whereby entities traveling would be required to have permission; the closure of borders between the United States and Canada, and the United States and Mexico; the rounding up and imprisonment of approximately 500,000 persons who may be seen as threats to the government; the dispensing or cancellation of elections; the requirement that all entities: men, women and children, be registered and receive a government number in order to receive food from food outlets which would be taken over by the government; the implementation of a national police force which would include the use of individuals within each neighborhood to spy on one another; the requirement that all agricultural lands be registered with the government for government purposes.

This Awareness indicates these as a few of the executive orders. That there are approximately 22 of these, with more which may be enacted. This Awareness suggests that this as that which has been placed upon the drawing board of these Black Internationalists working through the government agencies, particularly working through the manipulation and control of the economic system.

This Awareness suggests that all is not as dark and gloomy as it may appear to be, however; for there are forces which are working in other levels who are not quite as well organized, nor are funded by a central control system; but nevertheless, these forces are being directed by Inner Light from higher planes and these forces acting in spontaneous, and what appears to be individual expressions, are essentially organized from the spiritual plane and will, in fact, upset the applecart for those Black Internationalists.

This Awareness indicates even those involved in the plan for the take-over realize that their efforts will be doomed to failure; yet these entities are so programmed on self-destruct courses that they will attempt this action anyway. This as likened unto the force that wants so badly to have its control over others that it is willing to destroy itself if it cannot have its way.

This Awareness indicates this force is willing to destroy the earth if it cannot have its way; yet this will not be allowed. That the Forces of Light are much too strong for this to occur. This Awareness indicates that the Force of Darkness shall have its brief moment while it attempts to promote its enslavement of humanity. That this is being allowed in order that humanity may be made aware of the nature of the Beast and of the nature of each individual's own purposes and motives in relation to the Beast.

This Awareness indicates that once its effect has been expressed in humanity and humanity awakens to the reality of its nature, then the Forces of Light shall intervene to bring a halt to the power of the Beast, and shall then release unto the people that which belongs unto the people. This being that which brings about freedom and understanding.

**MONEY TO BE WITHDRAWN
FROM CIRCULATION IN 1980**
(Trade Centers to Sprout Up)

This Awareness suggests that during this time, entities may become involved in trade centers, setting up systems of credit whereby the members of the trade centers may trade services and goods with one another. This Awareness indicates that this shall become a spontaneous action across the United States, which shall retard and hinder the efforts of the banks to promote the Electronic-Fund-Transfer System. This Awareness indicates that there will be efforts by the powers to stop the trading action, but this will become futile as these will be increasing faster than they can even locate these actions.

This Awareness indicates also that the Beast, in making its move, shall expose itself, and all of its parts shall become known to the public. This Awareness suggests that there shall be that which can become somewhat chaotic as the public begins to observe what is occurring and awakens to the nature of the Beast and the names of its parts and organs; and as these parts and organs are dealt with by the public, there may be some great disturbances upon this plane.

This Awareness indicates that it would be beneficial for all concerned if entities can remember the LAW OF MERCY, the LAW OF LOVE, and can attempt to reconcile the 'yes and no', the polarities between the Light and Dark Forces.

This Awareness indicates that at this particular time, the Dark Force is not interested in reconciling, but the time shall come wherein the Dark Forces shall plead for mercy, shall plead for forgiveness.

This Awareness requests that entities be more merciful to the Beast than the Beast would be to them.

This Awareness suggests that between this present time and October of 1979, there shall be a fluctuation in the economy of the United States, as artificial efforts are created to keep things going until October.

This Awareness indicates the stock market shall move up and down as entities invest to purchase stocks while the prices are low and jerk their earnings and profits out when the market is high. This causing the market to sink again. This Awareness indicates this action, known as 'banditing' as that which will be common during these coming months, until the time in October wherein things begin to deteriorate greatly.

This Awareness indicates that October is also that time of year wherein banks must be audited and their books brought up to date. This as another indication in terms of the probability of the crash of the economy.

THE TIME OF THE INDULGENCE IS OVER

This Awareness indicates that essentially, the time of the indulgence is over. That the beer-drinking, pill-popping indulging, television watching era of good times or self-gratification is quickly becoming a thing of the past. That the purpose for these experiences of lethargy, the purpose of the seduction from television and beer, alcohol, pills; that all of this was designed to lull entities asleep, that they might more easily be seduced in terms of their freedoms, their rights and their livelihoods, so that the Beast might creep in and place its chains around their necks as they slept.

This Awareness indicates that essentially, this has been accomplished. That there are still other reinforcements which the Beast intends to place upon the sleeping populace of this nation to secure its control and hold over these entities; but, basically, the Beast has succeeded and is prepared and capable of tightening the other nooses.

This Awareness indicates that It would dearly love to give entities some good news at this time. Yet, entities have been living the good news for some time and have failed to truly be vigilant in guarding their liberties, and this Awareness can only sigh and look and wait that entities may discover realities which will then motivate them toward reaching out and regaining their freedom.

This Awareness indicates that there is nothing that can prevent what will happen, but there is still some time to diminish the energies of the Beast so that the suffering and hardships, the tribulations, shall not be so strong, nor last so long.

FUNDS AND SUPPORT NEEDED NOW TO HELP ALERT THE PUBLIC

This Awareness indicates that those entities who wish to assist in draining the energies of the Beast may follow the suggestions given in the reading of November 7th, 1978 (Ed's note: this starts on page 1 of this booklet) and may also send monetary contributions to the organizations or persons who are attempting to alert the public, to awaken the masses at this time, before it is too late for the masses to act or do anything about what is to be.

This Awareness indicates that those who prefer to wait are also given that free choice. This Awareness does not need anything for itself, nor does it ask that entities contribute for any desire that this Awareness might have, other than to see the tragedy and suffering diminished. This Awareness suggests that if you, yourself, do not wish to see this diminished, then indeed there is no need to contribute to those organizations or individuals who are attempting to alert the masses.

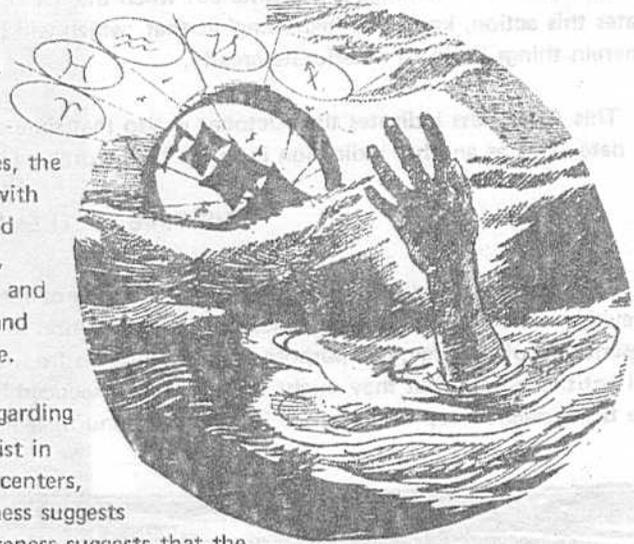

COSMIC AWARENESS COMMUNICATIONS MAY BE CUT OFF IN THE FUTURE

This Awareness wishes also to remind entities that under any circumstances, keeping a clear communication can be helpful in alleviating problems. This Awareness indicates also that wherein entities tune in to the heaviness of a situation, that you not forget which way is up, and that you keep a sense of humor in order to elevate your vibrations and clear your channel for higher information.

This Awareness indicates that entities may also recognize at this time that the information from this Awareness through this channel, through Cosmic Awareness Communications and the Aquarian Church, may be cut off, and you may be on your own when these times begin. This Awareness suggests that it may be necessary to rely on what you have learned from your own past and what you can receive by tuning in through your own channel.

This Awareness indicates that wherein entities can make enough of a noise, create enough action, contribute enough energy to inform the masses NOW, then the likelihood of such heavy difficulties and tribulations may be minimized, diminished, so that the transition is not so great. This Awareness suggests this as entirely up to the masses, the population, and whether or not entities wish to concern themselves with the future dangers or whether they prefer to ignore these energies and become lost in their television programming, their alcohol, their pills, their cigarettes, their marijuana, their movies, their personal fantasies and personal confusions and problems, which are but forms of avoiding and escaping from the priority which looms in upon mankind at this time.

This Awareness indicates that it shall give further information regarding a way whereby members of C.A.C. and the Aquarian Church can assist in raising funds to help in the efforts to alert the masses and to set up centers, particularly trade centers, when this becomes necessary. This Awareness suggests that this information may be given in a reading following. This Awareness suggests that the next question be asked.

SOME OF THE TENTACLES OF THE BEAST

QUESTION:

It's not a question. K.K. writes, "I don't recall that you have ever published the name of the Beast. The acronym is SWIFT, which stands for Society For World International Fast Transfer. I'd like to ask Awareness if that is correct?"

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative as a term describing the Electronic Fund Transfer System. This Awareness indicates that there are many parts of the Beast, even as there are many parts of a human being. That one can describe the human being and refer to its name as the brain, as the head, as the body, as the arm, or any other term. This Awareness suggests that the Beast essentially is that force which has been moving through the universe as a Force of Darkness from.... This Awareness indicates that this information shall be given at a later time. That upon this particular plane, the Beast as operating through the banking system, also through political systems, and through individuals, or organizations of individuals.

This Awareness suggests that the so-called Knights of Malta, or St. John of the Cross of Jerusalem, that this organization as an arm of the Beast; that the Mont Pelerin Society, the Bilderbergers, the international banking system... This Awareness indicates there are many organizations and individuals involved in these tentacles. That this reaches down from many levels through many banks, into corporations, into locale. This Awareness indicates the International Red Cross as also being a spy system, collecting data for the Beast. This being likened unto its own version of the CIA.

This Awareness indicates that all of this particular information is available in the U.S. Labor Party paper mentioned previously. That there is still another arm of the Beast which has not been brought forth, which still remains hidden and which is associated with the death of the Pope and certain factors which shall emerge in regard to the new Pope which follows the present Pope.

This Awareness indicates that this also ties in with other levels which are quite bizarre and need to have greater time; that the public is not ready for this information at this time.

WHAT ENTITIES SHOULD BE DOING IN PREPARATION FOR 1980

(Garden Seeds to be Removed From Market)

QUESTION:

Awareness, entities are going to ask what they can be doing as an alternative to this transfer system when money is withdrawn, and I was wondering if the information Awareness gave 10 or 12 years ago in reference to retreats and stock-piling of food for 30 months and growing gardens would be pertinent to these coming times.

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That entities may collect tools necessary for gardening, seeds which can be planted, as seeds will be taken off the market. Tools may be taken from the market in order to prevent entities from having access to their own capable energies. That the storage of such foods as rice, wheat, and other items which may be stored in areas whereby they can be protected from mildew, dampness, or other destructive forces—such as placing these in plastic or metal garbage cans; that this can be beneficial. That placing certain canned foods in storage can also become beneficial to entities.

This Awareness suggests that the purpose for such storage and preparation is not simply to preserve your own self, but also to make it possible for you to be among those who can remain calm, because your own foundation is not crumbling; and therefore in that calmness, have the peace of mind which allows you to be of some benefit to others. This Awareness suggests that aside from preserving food, you may also consider investing in gold, silver, various coins, antiques, gems.

This Awareness wishes to recommend that entities may purchase, through the Goodship, various gems and stones at discount prices. This through the entity, Bob Beard, also known as Captain Dharma. This Awareness indicates this entity having contact in the Orient for faceting stones. That the entity can give wholesale prices which are less than many jewelers would pay. ** This Awareness indicates that many of these stones may be used for trading and in lieu of money.

This Awareness indicates also that entities may begin ahead of time, considering starting trade fairs or trade centers. This Awareness wishes to alert C.A.C. members who are interested in setting up trade centers to a program which can be used for promoting membership to launch the Bartership of the Aquarian Church, which will allow entities around the nation to have the necessary funds for starting the trade centers as well as assisting others in setting up other trade centers locally.

This Awareness suggests that this information may be given briefly at this time. This Awareness suggests the Interpreter as having intended to release this information in a newsletter through his church. Yet this Awareness suggests that this as being of such magnitude that it needs to be released now, and that the Interpreter as recognizing this during this particular time. This Awareness suggests that the information regarding this to follow in a trance after this particular reading is over.

QUESTION:

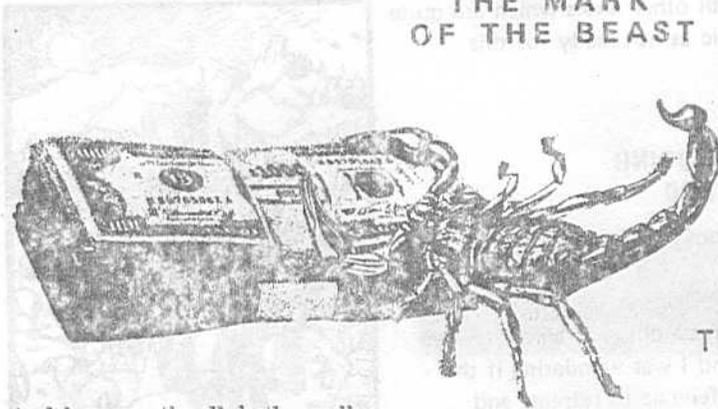

Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that this information coming forth at this time, prompted by urgencies, as that which will shock many members of your organization, will create some responses favorable and unfavorable, will create some nervousness. This Awareness suggests that this, however, will also prepare entities and that the reading to follow can be of great benefit in helping to ward off some of the dangers. This Awareness suggests that this message, the one to follow, and the message yesterday regarding the beginning of the Battle of Armageddon, that these three may be sent as a packet with a cover marked URGENCY, and whatever other title is appropriate.

The Gathering Storm (Part 3)

THE MARK OF THE BEAST

THE "MARK" IS READY --- ARE YOU?

(Reprint of a reading given Oct. 11, 1978)

QUESTION:

16 And he causeth all, both small and great, rich and poor, free and bond, ^h4 to receive a mark in their right hand, or in their foreheads:

17 And that no man might buy or sell, save he that had the mark, or ^h the name of the beast, ^h or the number of his name.

18 ^h Here is wisdom. Let him that hath understanding count ^h the number of the beast: ^h for it is the number of a man; and his number is Six hundred threescore and six.

Revelations: 13: 16: 17: 18

Ron J. Steele, a Washington State journalist, who has been doing considerable research on what is happening in the computer world, has just published a book called "The Mark Is Ready, Are You?" He has discovered that the National Crime Information Center, which links all States in a criminal identification data system, operating with computers, is tied in with NASA which has what is called "The Human Transponder Surveillance Command System", a suggested means of keeping track, by satellite of "mentally unstable people, parolees, and other kinds of misfits."

Steele maintains, like the elk and polar bears already being tracked, these unfortunates would be tracked by Nimbus 6 spacecraft or satellite device, never to roam free. He said that an article he wrote on this for the Walla Walla, Washington Community College student newspaper called 'Fourth Estate', earned him a visit by a special agent of the U.S. Secret Service, and he claims others are watching him closely.

Steele has worked with Dr. R.K. Farrell of Washington State University, a researcher in laser and freeze-marking of animals, who predicts there will be a time when identification of individuals by computer could take only seven seconds anywhere in the United States or Canada. Farrell said marks could be put on every animal in the world, even fish, chickens, turtles, dolphins, etc. Extensive interviews support his theory that the Orwellian future, where all men and beasts will be marked with numbers rather than names, is beginning to happen by various highly secret government operations. Previous information from Awareness on this probability now seems to be manifesting. Steele says: "A marked right hand flashed under a computer's eye will replace the need for cash or credit cards. The mentally unstable or criminally inclined will be monitored by implants much like those used to monitor the movements of animals in the wild. Privacy will become a fond memory of yesteryear."

Will Awareness please comment on the validity of Ron Steele's research and his book, 'The Mark Is Ready, Are You?'. To our knowledge, he has not seen any of the previous Awareness information. However, recently we have sent him some.

COSMIC AWARENESS:

This Awareness indicates the entity's information as accurate. This Awareness indicates the situation which the entity has been observing as that which is accurate in relation to the plans by those who would present this arrangement upon the human condition

This Awareness indicates that there are forces upon this plane who have great power and are working in an organized manner to bring this about. This Awareness indicates this including the manipulation of economies. This including the projected depression which is now planned for October, 29, 1979, the 50th anniversary of the Great Crash of 1929.

This Awareness suggests that the plan being to remove cash from the society, create a national emergency, implement the executive emergency powers which have been granted over the past fifteen to twenty years for use in emergencies.

This Awareness suggests that the national emergency or crisis caused by such a depression as that which becomes the excuse for bringing in these executive powers and creating the state of emergency for implementing each of these, which in turn allows for a setting aside of the Constitution and Constitutional Rights, and the implementation of those powers which amount to dictatorship.

A NEW 'CONSTITUTION' TO BE INTRODUCED

(Right to Vote Suspended)

This Awareness indicates that thereafter a new "Constitution" as being that which would be introduced, whereby entities are not allowed to vote on Presidents or Congress, but whereby the Congress is elected for life, rather appointed for life, and the President comes from that Congress and returns to that Congress.

This Awareness indicates the rights to vote would be given only on local levels and in relation to the House of Representatives, whose powers would be diminished greatly.

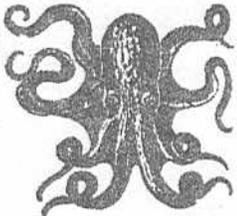

This Awareness indicates that this 'Constitution' has been created and is available; this presented and available through the Ford Foundation. This Awareness indicates that this created over a period of ten years in Santa Barbara, California, from a research program funded by the Ford Foundation. This Awareness indicates this essentially as coming from the University of Chicago and the Rockefeller powers. *

This Awareness indicates that this as being one segment of the total control upon this earth. This being the segment which sets aside the United States Constitution to allow the Beast to have its control in this area. This Awareness indicates that essentially in other areas, the Beast would rule through the computer in Brussels. This computer as being that which is tied into all other computers in the world. *

'KNIGHTS OF MALTA' INFORMATION
BEING PUBLISHED BY U.S. LABOR PARTY

This Awareness indicates that the U.S. Labor Party as recently releasing information regarding the nature of that which this Awareness has called the 'Illuminati'. This Awareness indicates this paper by the U.S. Labor Party as a supplementary magazine titled, 'Black Internationalists, The Knights of Malta'. This Awareness indicates the information given in this paper as being accurate and being in greater detail than has been given through this Interpreter by this Awareness.

This Awareness indicates that that information given by the U.S. Labor Party as having been referred to last Spring wherein this Awareness stated that the Beast was coming out to be seen. ** This Awareness indicates this information released during the months of July, and August and September into consciousness through the work of the U.S. Labor Party. ***

WHILE AMERICA SLEEPS (The Price of the Indulgence)

(Excerpt from November, 1976 Readers Digest article titled:

"Coming Soon: Electronic Money", which lauds the system):

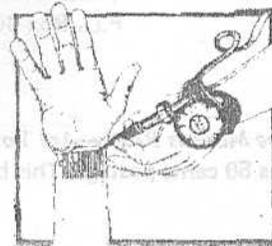

"In this new, totally electronic age, the enforcement of financial obligations will present few difficulties, since failure to pay up could be disastrous. The culprit might even be forced to undergo what EFT (Electronic-Fund-Transfer) men call 'plastic surgery'—cutting off of his bank cards. Economically speaking, this would make him a non-person."

From *The New York Times*.....

The major difficulty which the planners of the EFT system have come up against is that of security--protecting the individuals from theft of their credit identification.

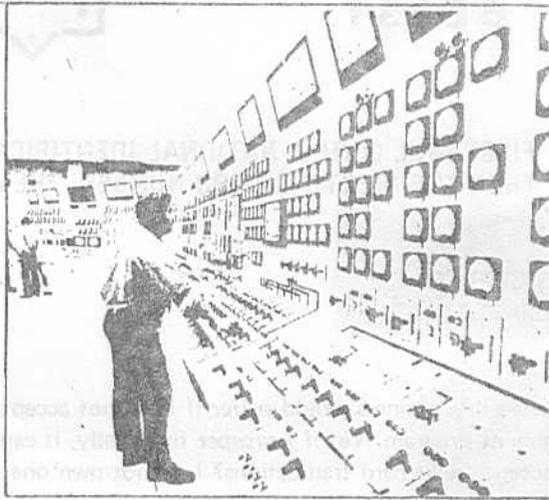

"Albert A. Foer, associate director of the Bureau of Competition of the Federal Trade Commission, quoting from what he said was a confidential National Security Agency briefing to the national commission formed to study electronic fund transfer, said: 'Present systems are totally vulnerable to penetration'."

The only solution which seems to insure total security, and which has been proposed in Europe by top leaders of the Common Market, such as Dr. Hendrick Eldeman, Chief Analyst of the Common Market, is *the tattooing of the computerized numerical code upon the individual's person in some prominent spot with invisible laser marks which can be recorded by special instruments.* (Excerpt from the free booklet, "Human Potential Movement," published by TRUTH FORUM, P.O. Box 89, River Edge, N.J. 07661.

INSIDE THE HEART OF THE BEAST

Classified photo taken inside the giant Common Market Computer, 4 stories high, in Brussels, Belgium, called 'The Beast'

Common Market officials just released this photo of the "beast." This huge computer complex is the heart of a world trade plan based on a digital numbering system for every person on earth. A new world trade system will require a "banking credit card" number to be inserted instantly on the hand or forehead. These numbers will be picked up by scanners and fed back to the "beast" as a control system.

IS THIS FOR REAL?

According to Richard Schulz, director for "David Wilkerson Youth Crusaders", there does exist a computer called "The Beast". This information was released to me during an interview with Schulz at Cordiner Hall this month right after David Wilkerson had spoken to a large gathering of people there. (Wilkerson is the author of "The Cross and the Switchblade", "The Rapture" and "The Vision".)

Schulz informed me that it is the Common Market that calls this computer the beast. He said that his research team obtained this particular photo during the last part of 1973 and had to have permission to reprint it. I asked Schulz if he could give me some detailed information about his knowledge of the Common Market and its computer and how it is tied in with laser beam numbering. He told me that when he returned to his home office in Dallas, Tex., he would send me a "tailor-made" tape if I would care to send him a questionnaire.

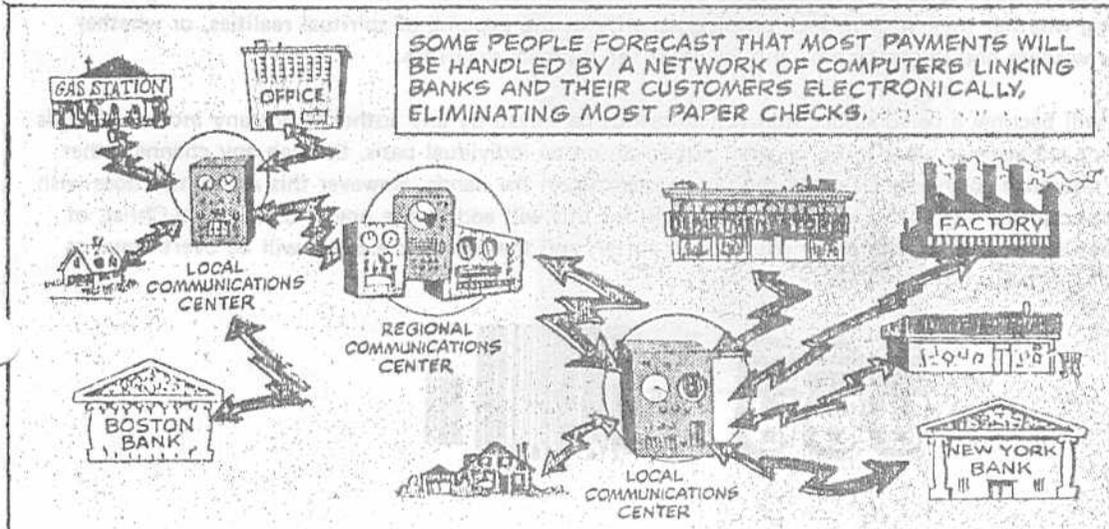

I have contacted him since then and am now waiting for his reply. I am hoping to secure pertinent information that will get me in contact with the Common Market itself. I will not be totally convinced that what I've heard of this computer is valid until I get it confirmed by its true source.

However, if once confirmed, this computer would truly fit with the "Signs of the Times". What about you?

THE MARK of the BEAST

FIRST WILL COME A NATIONAL IDENTIFICATION CARD,
THEN THE IDENTIFICATION NUMBER, THEN THE 'MARK'

WHAT ABOUT USING CREDIT CARDS IN YOUR BUSINESS?

QUESTION:

A final question from C.T. of Minneapolis, Minnesota. "My jewelry business would suffer if I did not accept credit card transactions; yet I don't want to be a part of the Beast enslavement program. Yet if I prosper financially, it can be put to good use. A dilemma, yes? What harm can I bring upon myself to accept credit card transactions? I do not own one myself."

COSMIC AWARENESS:

This Awareness suggests that accepting credit cards as not in itself the problem; that this is not the root of the concern. This Awareness indicates that wherein your business begins to depend upon a computerized, electronic fund-transferring machine which operates in a manner that requires the entities to have a particular number tattooed upon their hand or forehead, then, if you are still engaged in that business, you may be involved in supporting the Beast. This Awareness indicates that before you would be doing this, you also would have taken the number upon your own hand or forehead.

This Awareness suggests that either experience will be contributing to the enslavement of yourself and others under that which is the Anti-Christ. This Awareness suggests that it appears there will be a mass upheaval before the Anti-Christ is given a chance to enforce its controls upon the masses of this planet. This upheaval appears to begin in the United States, largely through the Christian churches. That a general rebellion will occur and there will be many who accept the mark and many who will not.

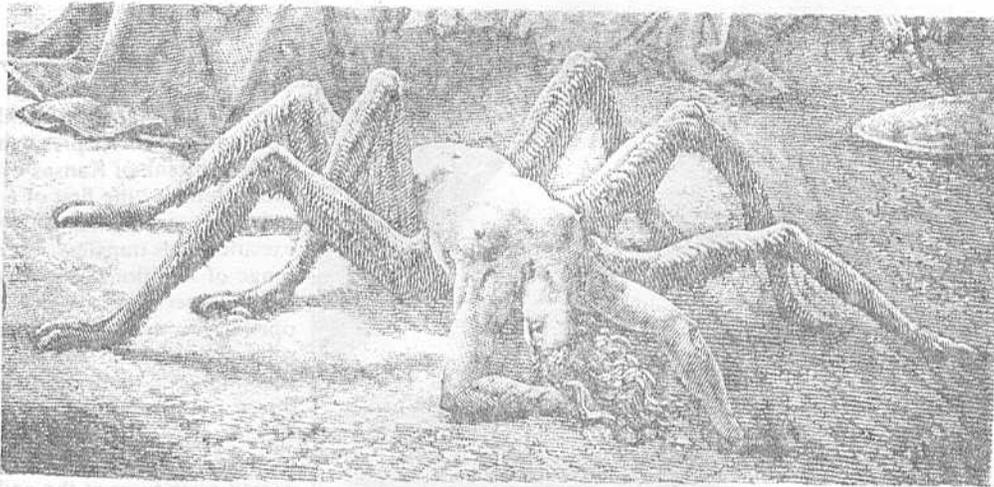

THOSE WHO ACCEPT THE MARK OF THE ANTI-CHRIST WILL DO SO BY CHOICE

This Awareness indicates those who accept the mark will not be accepting this in ignorance, for the majority of these entities will know full well what is occurring, or will have allowed themselves to become seduced and put asleep; but that allowing will have occurred at a particular conscious level at one time or another, and therefore, these entities cannot plead ignorance, even though they may think that they are fooling others.

This Awareness indicates that those who remain true are those who shall experience the freedom of movement and shall assist in overthrowing those forces of the so-called Anti-Christ. This Awareness wishes entities to understand that the negative, or Alien Force, is playing the role of the reaper, who separates the pure from the impure, and assists in determining and allowing entities to judge themselves by determining whether they wish to seek physical security at the expense of spiritual realities, or whether they wish to cling to the spiritual wisdom and understanding and let go of the physical securities.

This Awareness indicates this will become a personal decision which cannot be solved by any authority for any individual. This Awareness indicates that It will not tell entities what to do or what not to do on an individual basis, through any channel other than through their own. This in reference to this receiving of the tattoo mark upon the hands. However this Awareness does wish to inform entities that It does not condone any entity accepting this mark, for this will add to the power of the Anti-Christ, of the Beast; and the more entities refuse this action, the fewer entities will suffer, and the sooner the Beast will be overthrown as will inevitably happen.

**MANY WHO TAKE THE MARK WILL
LATER CUT OFF THEIR HAND, BUT
AFTER DEATH JOIN THE WORKFORCE OF HADES**

This Awareness indicates that when this is over, those who have the mark will be in very difficult positions. This Awareness indicates that entities receiving the mark upon their hands will seek out ways of removing that mark and there will be many entities who remove their hand in order to remove the mark.

This Awareness indicates that the mark will even tattoo the astral body of the entity and this mark shall remain, even when the physical body has been discarded. This Awareness indicates those who receive the mark shall become workers, labor force, and slaves for the entities in the realm of Hades, and shall assist in the building construction and mines and other work expressions in Hades. [This Awareness indicates information on Hades has been given previously] *, that there are some entities who love a challenge, and these entities will have the opportunity for this challenge. This Awareness indicates those entities who seek security in the Mark of the Beast will find that they are securely placed in Hades in those realms of the incompleting states, where they may work and serve the hierarchy of the Hades' princes and leaders.

This Awareness indicates that exceptions may be made wherein entities are forced without their consent into this action, and particularly this in reference to babies who are forced or allowed by parents to accept this mark. That wherein these occur, exceptions will be made on individual basis, and that the degree of that which may be termed punishment will depend upon the individual's motives in supporting the Beast, the Anti-Christ, through their own cooperation with this Anti-Christ system.

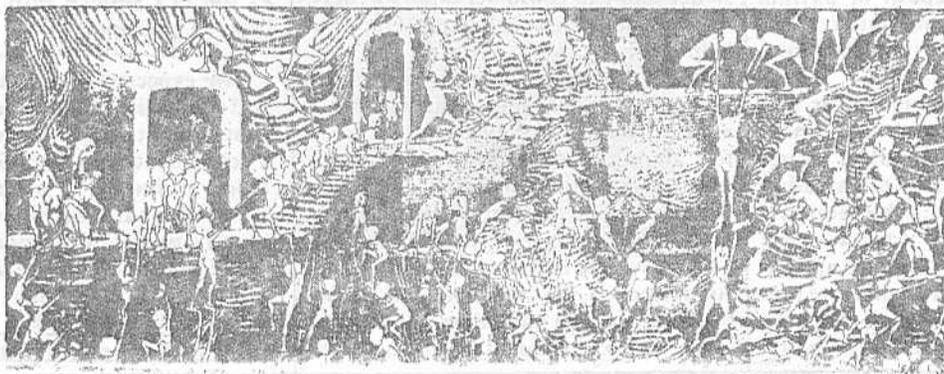

This Awareness indicates that those who truly are ignorant of what is occurring will be given lesser hardships in Hades, but will be given enough hardship that they learn the next time to be informed as to what is occurring.

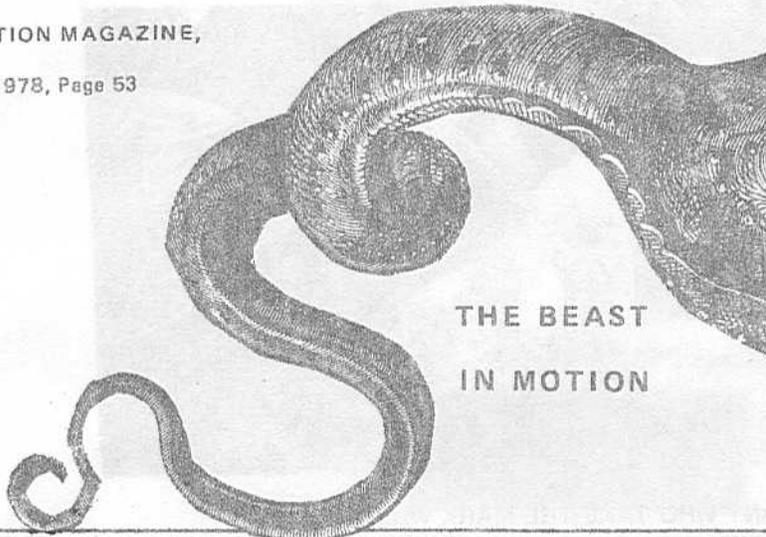

This Awareness indicates that those who know what is occurring and cooperate with this fully, shall find themselves in deeper levels of trouble, with greater hardships for having participated in this plan to enslave humanity.

THE BEAST
IN MOTION

billion, for its 185 member banks in the U.S. Paul L. Abraham, BankWire chairman and senior vice president of the First National Bank of Kansas City, described the system as "the first of a new class of payments mechanisms that will not only execute funds transfers, but offer a broad range of additional banking asset management services as well." It was developed over a three year period at a cost of some \$10 million and was designed to accommodate more than three times today's payments message volume, at speeds up to 30 times faster than its predecessor system, BankWire I, which ceased operations at the end of June.

The network has two computerized message switching centers, one in New Jersey, already operational, and one in Dallas which will become operational in December. Three types of messages are supported: funds transfer messages, miscellaneous reimbursement messages, and administrative messages. The average message takes less than two minutes to deliver after entry into the system.

Each of the two switching centers has a totally redundant, or duplicated set of computers, message storage files, and related equipment. In the event of failure of any equipment component, the duplicate component is automatically switched to operational mode within seconds.

Membership in BankWire is voluntary and the organization operates as a not-for-profit cooperative. Each member bank pays a basic fee of 60 cents for each BankWire II funds transfer message as well as paying for its own individual BankNet terminals. Suppliers of major equipment and service components for BankWire II are Rockwell International, Western Union Data Services Co., and the Incoterm Corp., a division of Honeywell, Inc.

On the international level, the Society for Worldwide Interbank Financial Telecommunication (SWIFT) completed its first year of live operation last May. In the same month, the ten millionth message was input into SWIFT. Traffic has continued to increase since then at an accelerated rate.

Automated teller machines stand out as the EFT service with the highest level of awareness.

"We expected a drop in the summer," said J. E. Tilley, administration director, "but it didn't come." Biggest using country consistently has been Germany which Tilley attributed to a strong currency, more international sales and, consequently, more international payments.

The origins of SWIFT date back to the late '60s, he said, when a number of banks of Europe "linked themselves to work for more effective use of comput-

ELECTRONIC FUNDS TRANSFER

EFT: MOMENTUM GATHERS

But public awareness is generally low worldwide.

When the prestigious American Bankers Assn. (ABA) convenes in Honolulu late this month, the many aspects of Electronic Funds Transfer (EFT) will dominate discussions; and technology to make EFT offerings possible will be the big thing at the 200-booth exhibit.

Interest in what the U. S. banks are doing in EFT is the prime drawing card for the record number of international attendees expected, probably sharing that honor with the Hawaiian climate and other charms of the islands.

All this when public awareness of EFT is generally low worldwide. A mid-year U.S. survey of consumer views on changing payment services showed that awareness and availability are still low and that none of the six EFT services studied has achieved any significant level of usage on a nationwide basis.

The survey, conducted by Payment Systems, Inc. and Darden Research Corp., studied automated teller machines, preauthorized charges to checking accounts, direct deposit of payroll, telephone bill paying, automatic check approval at point-of-sale (POS) locations, and banking at point-of-sale.

It showed that automated teller machines (ATM's) stand out as the EFT service with the highest level of public awareness. Almost three-fourths of the adult population is familiar with this service, it said, although they rank it below check guarantee at the point-of-sale in appeal. Consumers, said the report, perceive preauthorized charges to checking as having the highest level of availability among

EFT services, and one out of six study respondents uses this service.

In considering consumer awareness of EFT, bankers are concerned that it be favorable. The Electronic Money Council, started in mid-1977 as an ad hoc group of 24 depository financial institutions which jointly undertook the funding of a research study to determine public awareness of EFT services, has launched a campaign to win over public opinion on the side of EFT and has hired

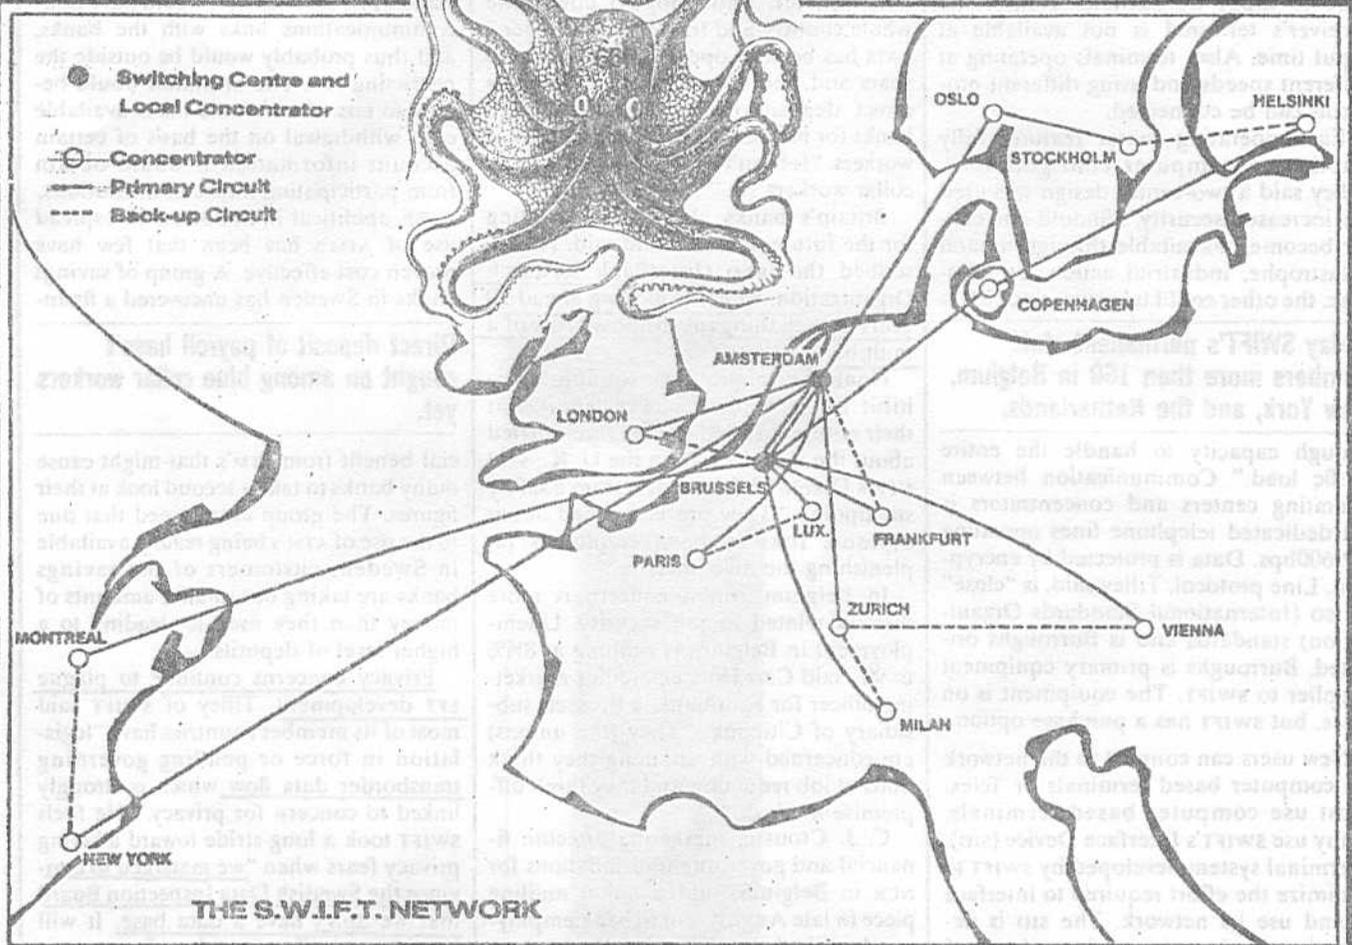

JOEL TILLEY—Summer drop didn't happen.

the public relations firm of Burson-Marsteller and two consumer affairs writers, Sylvia Auerbach and Barbara Quint, to help do this.

In EFT areas not so visible to consumers and where consumer awareness is not a great concern, mainly electronic transfers among financial institutions themselves, momentum has been gathering.

BankWire II, the outgrowth of a planning study completed in 1972 by the Monetary and Payments System (MAPS) committee of the ABA, late last spring began processing more than 18,000 messages a day, valued at more than \$20

ers." The Algemene Bank Nederlands was the moving force.

The notion of an international message switching system was first discussed in December 1970 at a meeting in Frankfurt attended by 36 representatives of seven countries, including Belgium, France, West Germany, Great Britain, Italy, the Netherlands, and the United States.

It was decided that a feasibility study was in order. It was dubbed Message Switching Project (MSP) and Logica Ltd. of London was awarded a \$117,600 contract to conduct it.

"Logica said yes, go ahead," Tilley recalled, and SWIFT was formally formed as a Belgian company in May 1973. Its by-laws were accepted by 15 founding countries and Carl Reuterskiöld, present general manager, was named as its first permanent employee.

Today the permanent staff numbers more than 160 in Belgium, New York, and the Netherlands. Tilley was the second permanent employee and is one of four executive directors who reflect the international nature of SWIFT. Tilley is an American. The other three are Dutch, French, and Canadian.

Today SWIFT has 19 member countries, the newest being Greece, accepted by the board of directors this summer after some 12 to 15 months of negotiations. Bank unit members total more than 571.

While German banks are the biggest users of the SWIFT network, Italian

The average message takes less than two minutes to deliver after entry into the system.

banks, once that country went live, came on fastest and Tilley attributed that to the fact that "they found it a viable alternative to the Italian post office," not noted for its speed or reliability.

To become a member of SWIFT a financial organization first has to be deemed a bank by its peers in a member country. Next comes approval by the board of directors.

Participation in SWIFT activities by members has changed as the organization has matured. Originally, said Tilley, it was mostly bank data processing people. "Now they're more from the mainstream of banking." But SWIFT conducts seminars for member banks on a regular basis and some appeal to each level.

Although "International" is part of its name, SWIFT isn't truly international yet but it's getting there. Japan as a country and 42 of its banks are members, but they are not yet connected to the network which is expected to happen early next year. "There is a lot of interest in South America and we have been talking to banks in New Zealand, Australia, Hong Kong, and the Philippines," Tilley said.

SWIFT's tariff is based on a cost-recovery system which means it allocates its costs to users within the frame of predetermined objectives which always reflect the nonprofit status of the organization. This includes provision for recovery over a five year period of development costs. There is a one-time connection charge, a unit charge per message based on a fixed annual charge based on estimated usage, and a transmission charge for all messages effectively input into the system.

The SWIFT network covers most of Western Europe and North America. It is a two-center financial control system. Banks connect their own terminals to programmable concentrators in each country. Messages are temporarily stored at the operating centers so that users are

able to input transactions even if the receiver's terminal is not available at input time. Also, terminals operating at different speeds and using different protocols can be connected.

Each operating center features fully duplicated computer configurations. Tilley said a two-center design was used for increased security. "Should one center become unavailable through natural catastrophe, industrial action, or sabotage, the other could take over since it has

Today SWIFT's permanent staff numbers more than 160 in Belgium, New York, and the Netherlands.

enough capacity to handle the entire traffic load." Communication between operating centers and concentrators is via dedicated telephone lines operating at 9600bps. Data is protected by encryption. Line protocol, Tilley said, is "close" to ISO (International Standards Organization) standards and is Burroughs oriented. Burroughs is primary equipment supplier to SWIFT. The equipment is on lease, but SWIFT has a purchase option.

New users can connect to the network via computer based terminals or Telex. Most use computer based terminals. Many use SWIFT's Interface Device (SID), a terminal system developed by SWIFT to minimize the effort required to interface to and use its network. The SID is designed around a range of standardized modules which banks can combine to suit their own operational requirements. Three manufacturers were selected by SWIFT to supply SID hardware: Burroughs, General Automation, and International Computers Ltd. Software for the SID's was developed by the manufacturers but is supplied and maintained by SWIFT. The SID's don't lock out other suppliers, said Tilley. "IBM has a SWIFT package and supports its own software."

Why is SWIFT headquartered in Belgium? "Well," said Tilley, "one of the founding ideas was that it be a politically neutral organization. NATO is here. The Common Market is headquartered here. Internationally, there is a cost advantage in terms of travel and communications."

And Belgium is out front in many ways in automated banking. Automated clearing started in Belgium in the early '70s as it did in the U.S. Here, it's still moving slowly. In Belgium, some 90% of all payment items are cleared via automation through the Association of Belgian Banks.

England is right up there too with its Banks Automatic Transfer Center (BATS) which utilizes an ICL-based computer center in North London. "The banks cooperate and fund it (BATS)," said Sean Dixon-Child, financial applications director for NCR Ltd., London. "Four large banks (Barclays, Midland, National

Westminster, and Lloyds) cover the whole country and that makes it easier." BATS has been in operation for about 10 years and, said Dixon-Child, it handles direct deposit of payroll to employee banks for most of the U. K.'s white collar workers. "It hasn't caught on among blue collar workers yet."

Britain's banks also are cooperating for the future, Dixon-Child said. He described the IBRO (InterBank Research Organization, which is looking ahead 10 years at such things as the possibility of a multibank network.

Non-technical problems continue to inhibit EFT acceptance everywhere but their nature is varied. Unions are worried about the use of ATM's in the U. K., said NCR's Dixon-Child, but it is from a safety standpoint. "They are concerned about exposure risks to bank employees replenishing the machines."

In Belgium, union concern is more directly related to job security. Unemployment in Belgium is running at 8 1/2% to 9%, said Carl Holsters, senior marketing officer for Famibank, a Brussels subsidiary of Citibank. "They (the unions) are concerned with anything they think hints at job reduction and they think off-premise ATM's do."

C. J. Crousse, marketing director, financial and government installations for NCR in Belgium, said a union mailing piece in late August sent to bank employees described ATM's as a job threat.

In the U.S. the big problem with use of ATM's continues to be the question of whether they constitute branches, a question being answered on a state by state basis and in the courts.

In Texas, where voters last year rejected a revision of state law which has restricted ATM use, a network of ATM's may yet come to pass. Electronic Data Systems Corp. is talking to financial institutions about setting up a number of

standalone systems that would have non-communications links with the banks, and thus probably would be outside the restricting law. The machines would belong to EDS which would make available cash withdrawal on the basis of certain account information it would obtain from participating financial institutions.

An apolitical inhibitor of widespread use of ATM's has been that few have proven cost effective. A group of savings banks in Sweden has uncovered a finan-

Direct deposit of payroll hasn't caught on among blue collar workers yet.

cial benefit from ATM's that might cause many banks to take a second look at their figures. The group determined that due to the use of ATM's being readily available in Sweden, customers of the savings banks are taking out smaller amounts of money than they used to, leading to a higher level of deposits.

Privacy concerns continue to plague EFT development. Tilley of SWIFT said most of its member countries have "legislation in force or pending governing transborder data flow which is strongly linked to concern for privacy." He feels SWIFT took a long stride toward allaying privacy fears when "we managed to convince the Swedish Data Inspection Board that we don't have a data base. It will have a good effect on others."

And bankers dealing more directly with the general public, still fear public fear of computers. Belgium's Famibank has 49 branches which are on-line all day to a system based on two NCR Criterion 8550s which has been live since July 16, 1977 with 99% uptime. The bank is proud of the technical capabilities of its system but, said Holsters, "in marketing we play down the computer and play up the services."

COMMUNICATIONS

BRANSCOMB ON ACS

Says new Bell service is an entrepreneurial venture with substantial technical risk.

For telecommunications marketers and policymakers, the gut issue these days is competition vs. regulation. To set better boundaries between these conflicting service categories, IBM vp and chief scientist Lewis Branscomb proposes that a "crisper distinction" be made between regulated common carrier and unregulated competitive services. And the bottom-line answer in this sorting out, he main-

tains, "lies in the deregulation of value-added services."

In his keynote address early last month to the Institute of Electrical & Electronics Engineers' 17th computer society international conference (Compeon 78), Branscomb told the Washington gathering that AT&T's Advanced Communications Service (ACS) would be a good test of the value-added deregulation principle. Spouting the IBM line on ACS, he described the new Bell service as "clearly an entrepreneurial venture which has substantial technical risk. . . ."

Branscomb said ACS also "moves far down the path toward the offering of data processing services by a monopoly carrier." But he's just as sure that the broad-based service will cost the Bell System "a very substantial amount of money to

THE GATHERING STORM Part 4

(HOW TO DEAL WITH THE FORCES) OF THE BEAST

MORE ON CHANNELING THE DARK FORCE

(A Message for the Light Workers)

(Questioning continued from the)
reading ending on Page 5

QUESTION:

Would Awareness please give more information on how this would apply specifically to general situations between those Light Workers channeling the negative karma in relationships?

COSMIC AWARENESS:

This Awareness indicated that entities would be asked to take on some of the earth's karma through accepting these negative forces within themselves. This Awareness indicates that the asking is that which occurs in the various situations which entities shall find themselves confronting.

This Awareness indicates that you need not go out and look for trouble, but rather the situations will be presented to you whereby you have an opportunity either to retreat and avoid the energies of confronting the situation, or you may confront the situation and become engaged in a kind of energy warp, or energy exchange, whereby you must get into deeper levels of involvement with those forces which are considered negative or alien to your harmony.

This Awareness suggests this as one approach: Whereby entities observe situations, and instead of avoiding unpleasanties, enter into those unpleasanties and deal with the energy therein, to work it out, to clarify; not to control others, but to make clear whatever is there.

This Awareness suggests this as likened unto defining your position, allowing them to define their position, and looking carefully together at those positions--without judgement, without hostility, without attempting to control each other or force each other to change positions.

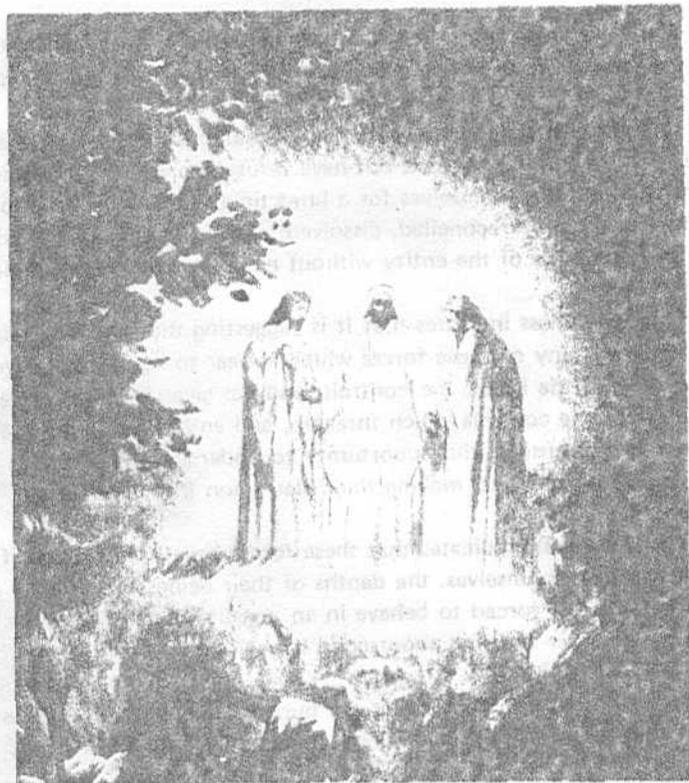

This Awareness suggests that wherein these positions are examined and there is room for agreement, or recognition, and respect for each other's position, this may be considered the reconciliation. That it is not necessary for entities to agree on everything in order to be reconciled. One may be reconciled with another in simply recognizing the other's right to his or her position, and in having one's own position recognized.

This Awareness suggests that this as an approach to dealing with situations which will be placed upon Light Workers for working off certain conflicts and energies which are stored in the bioplasma, or that which may be called the bio-computer, this energy which the Alien Forces feed upon, which gives power to the channels of the Alien Forces.

This Awareness suggests that by entities taking this on themselves, it allows less of this to go through those forces of the Beast, of the Anti-Christ, or of those who are channels for this; and therefore the Beast and Anti-Christ will not be required to carry the burden of dramatizing the entire Alien Force upon this planet in its biosphere.

This Awareness suggests that you each take upon yourself a portion of the responsibility for playing out the role of the Anti-Christ, of the Beast, but to do this with an awareness whereby that portion you take upon yourself can be easily handled, assimilated, discharged and neutralized.

This Awareness indicates this as likened unto the Christ taking on the sins of the world. This may be done symbolically or in any manner that entities can understand this action.

This Awareness suggests that before this energy, this alien energy, can be cleared, entities will be required to experience all those experiences which they have forcefully, willfully and fearfully denied themselves.

This Awareness indicates essentially, what this means, is that entities shall no longer deny themselves of those experiences which they have long desired but have refused to grant themselves. This Awareness suggests that this as likened unto allowing entities to indulge themselves for a brief time, until there is no longer desire to indulge in such manner. So that the desires themselves may be reconciled, dissolved, and set aside, neutralized, to allow that clarity and New Being to have room within the consciousness of the entity without being overwhelmed by those secret, hidden, obsessive desires which are being denied.

This Awareness indicates that it is suggesting that you understand the nature of that which is occurring upon this plane in terms of many of those forces which appear to be of a negative, alien, or evil nature. This Awareness has indicated the expression of the Beast, the controls, and has given entities that experience which is related unto fear of the Beast, fear and paranoia of the controls which threaten, and entities have had their opportunity to experience these levels. This Awareness now wishes to give entities the opportunity to understand the purpose and meaning of the Beast, the Anti-Christ, and the forces which are entering and making their play upon this stage.

This Awareness indicates that these forces have been brought from time eternal to present experience in order that entities might discover themselves, the depths of their being, and become gods in themselves. This Awareness indicates that any entity can be taught or forced to behave in an angelic-like manner; that there has been no need for Alien Forces to be released in the universe in order to bring about good behaviour.

This Awareness indicates that the purpose for alien forces is to allow entities to experience the depth of all experience in order that they might become gods, rather than followers of gods.

This Awareness indicates that wherein entities become capable of wisdom and understanding of the universe and its forces, they then become *One* with God, rather than a follower and disciple of God.

This Awareness indicates that it is through the confrontation and absorption of that which has been called the devil, Satan, or Lucifer, the Force of Evil; it is through absorbing that and transmuting that, that entities become gods.

This Awareness indicates that this as but an action of realization, recognition, or understanding, rather than a merging with a personality or being and attempting to become one with that demonic concept. This Awareness suggests that when entities understand the nature of this action, that is sufficient.

This Awareness suggests that you understand these images of gods and devils as being sentences in consciousness, which state certain concepts in sentences that are larger than life itself. This Awareness indicates that this becomes a living drama, or psycho-drama of a particular concept which allows entities lifetimes of study and experience whereby they may absorb that concept, reconcile those polarities and become integrated with the Universal Forces, and overcome that force which originally led to the fall of consciousness--that force known as separateness, vanity, and self glory. This Awareness indicates that it takes many lifetimes for some entities to understand this statement; that others could understand this in one sentence. That essentially the majority of those who fell from heaven were sentencing themselves for many lifetimes to experience this sentence, this statement which is composed of entities or energies playing out the concept between forces of Light and Darkness, between gods and devils.

This Awareness indicates that essentially these are nothing but meaningless energies, except wherein entities need to experience the conflicts in order to bring about the understanding that they are all *One*. This Awareness indicates that those entities who remained in Celestria from the beginning, understood that the Celestial King and all those who remained there were *One*, as well as all those who left with Lucifer.

This Awareness indicates that the difference between the Angels of Light and the Angels of Darkness was nothing more than this realization of Unity, and those of the Forces of Lucifer with their confused belief in disunity.

This Awareness indicates that essentially the action of this present time, the Battle of Armageddon, is that wherein the Deity within each entity who participates as a dramatist, an actor, in this battle, allows these forces of separateness to be experienced, to be looked at, and to face these forces with wisdom, with light, with understanding of Unity, of the *Laws* which this Awareness has given as *Universal Laws*. And in this manner, these entities assist in working off the Dark Forces of ignorance and the illusion of separateness.

This Awareness indicates that the action also includes that of self-indulgence, the avoiding of self-denial. This Awareness asks that entities, in working off these energies, remember the Law of Love, be responsible to all involved, harm no one, communicate clearly, and to always attune yourself to the highest and best in all levels, and to remember the Law of Mercy. This Awareness suggests also that you not be careless and take on more than you can handle, nor indulge yourself more than you are capable of handling in terms of the karmic reaction to that self-indulgence. For indeed, when you move into the self-indulgence activities, that shall trigger some of the actions whereby you take on karma of the world.

This Awareness suggests that there will be many questions in regards to this. That this be kept as an individual experience according to your own capabilities and understanding. That questions regarding this may be asked, but that this Awareness is not attempting to suggest that entities rush out, over-indulge, take on karma, and have themselves or others suffer from this; but rather is suggesting that the situations themselves are going to dictate the changes which will be occurring. That this is related unto an intensification and speed-up of the karmic laws, whereby that which has been denied within individuals shall be cut loose because of the intensive pressures and energies which are now being sent to this plane. And as these denials are released and entities begin to indulge themselves, this releases karma upon those entities, and the entities will be given that opportunity to work off those karmic experiences.

This Awareness does not request that you deliberately, consciously, attempt to take on karma, nor to rush out and indulge yourself, but suggests that this may be occurring to you in your future experiences, and asks that you understand what is happening, so that you not be unprepared, ignorant, or confused by these future occurrences and experiences, nor that you judge yourself harshly for your behaviour.

This Awareness indicates that there will be little choice, that the situations will simply occur; and asks that you be as aware as possible of what is occurring to you, and to share your understanding with others who may be touched or benefited by that understanding.

A FINAL MESSAGE

(Opening & Closing Message for C.A.C. General Reading, Nov. 9, 1978)

This Awareness indicates that during times of intensities which many entities may experience, that it can become stressful, unless entities are aware of the nature of moving from moment to moment. This Awareness suggests that wherein one becomes intensely concerned about possibilities, particularly possible dangers or threats, that a movement into the here and now, recognizing what is occurring at present, can assist entities in relaxing and tuning in to what is occurring now, rather than becoming tense over something which may never happen in the future.

This Awareness indicates that wherein entities act in the present they can effect the future, and thereby bring about a change in what might occur.

This Awareness indicates the future is never fixed. The future depends on what is occurring in the present, and a change in consciousness at present will effect a change in future experiences. This is related to the *Law of Leverage*: wherein a small amount of energy exerted to change the course of events at a present time can move mountains in the future.

This Awareness indicates that changes are imminent and entities can effect the directions of movement. That wherein the course is changed now, the collision with the greatest obstacles may be diverted without such intense effort to change the course later. This is likened unto a vehicle being driven down a highway toward an oncoming train, whereby the sooner the driver can turn the vehicle, the likelihood of distress and collision at a later time. That the longer entities wait, the less chance there is of avoiding the total collision with that which is coming.

This Awareness indicates this relates unto the imminent efforts being pushed upon the people in regard to the numbering system, the Electronic-Fund-Transfer, and those efforts to enslave the human condition and society.

This Awareness suggests that within three months this Awareness would request that monies have been raised to start trade centers. That these may then progress according to the plan given, and then may mushroom by following that plan. This Awareness indicates that if this occurs, the danger of collision with the force of the Beast shall be greatly diminished.

A LAST DITCH EFFORT TO SAVE HUMANITY FROM THE SLAVERY OF THE BEAST

....."This Awareness can do no more....."

This Awareness suggests that It *does* wish to prevent that which has been prophesied in the *Book of Revelations* relating unto the Beast and its rule and the holocaust which follows its rule; yet this Awareness has watched the nature of humans upon this plane, and though It gives this information, It has certain doubts that anything will be acted upon, because the great number of entities prefer not to be active, but to be audiences to the events.

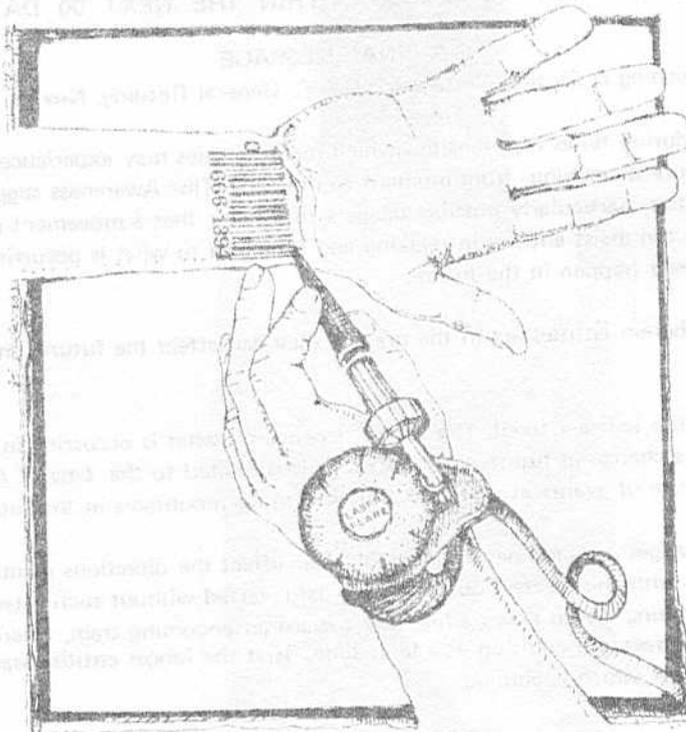

This Awareness wishes there were more actors upon the earth, and that the audience would participate in the actions.

This Awareness suggests that the threat of what can happen may, perhaps, be enough to stir the audience into action; and wherein this occurs, the dangers, the sorrows and the tragedies which have been prophesied will be greatly diminished.

That time is short. This being likened unto a last ditch effort by this Awareness to give humanity another opportunity. This being the last chance for avoiding that holocaust whereby the Beast sets up its rules and..... (long, long pause)

.....This Awareness can do no more.

All-Purpose Credit Card Predicted Within 4 Years

Knight News Service

MIAMI — By 1980, many bankers predict, most shoppers will exchange the wallet full of credit cards they now carry for a single, all-purpose card that will serve as both charge card and check book.

And, while consumers who are tired of shuffling a fistful of plastic every time they make a charge purchase may welcome the change, the merchants who issue all those cards aren't quite as enthusiastic about it.

The advent of the all-purpose "debit card," coupled with widespread use of instant electronic banking, could rob retailers of one of their most important merchandising tools, their chain credit cards, representatives of the nation's major retailers were told this week in Miami.

A panel of bankers, retail-credit executives and independent credit researchers told some 300 members of the National Retail Merchants Association that the coming of "electronic funds transfer systems" (EFTS) could have some major drawbacks for retailers, as well as benefits.

Basically, EFTS involves the use of computer technology and high-speed electronic communications to move money rapidly from one person's or business' account to that of another. EFT systems have many components, but each has an encoded plastic card — resembling a charge card — which is the customer's "key" to the system.

As the widespread use of EFT systems makes the so-called "debit cards" acceptable as cash or credit anywhere in the country, it could reduce the amount of retail buying done by check or by individual company credit card, the retailers were told.

"The major benefits of EFTS to retailers are that it decreases their bad-check risks, reduces the amount of cash they have to keep on hand and probably increases the amount of impulse buying their customers can do." Michael J. Hosemann, officer of a Louisiana bank that installed the nation's second EFT system about a year ago, told the retailers.

But Harold Drew, assistant corporate credit manager for Montgomery Ward & Co., warned that the all-purpose card system could have drawbacks for retailers,

too.

"EFTS can give the banks a foot in the door toward capturing and holding our private credit-card customers," Drew said, "and we value greatly the competitive advantage these private cards give our companies."

Private company credit cards — cards issued by stores like Montgomery Ward, Jordan Marsh or Penney's — are valuable to the chains in several ways.

First, they attract customers to individual stores. A shopper who has a Ward's charge, but doesn't have a Penney's charge card, is more likely to shop at Ward's, for instance.

The shopper who carries an all-purpose card honored at any store, however, won't have to decide where to shop on the basis of credit availability; his credit will be equally good everywhere.

"The (debit) card is just as valuable to our competitors as it is to us," Drew explained.

Charge-card records also furnish retailers with important merchandising information, Drew said.

"By keeping track of customer's credit purchases, we can see which items are moving well and where they are moving well," the Ward's credit executive explained.

"Credit-card records also give us information that's very useful in deciding where to locate new stores," he said.

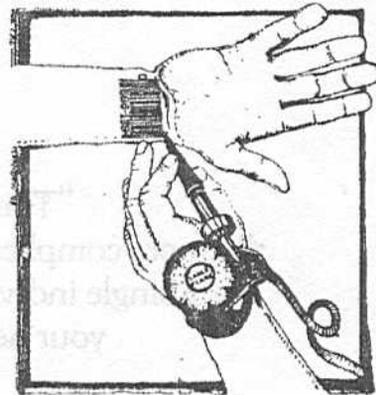

Retailers fear that, if banks or other financial institutions take over the private credit-card function, either the merchants won't have access to such credit records or their competitors will have access to that valuable sales information, Drew said.

If debit cards do replace private credit cards, the individual merchants also would lose revenue derived from interest charged on credit purchases; but Drew said that is not a major concern for most retailers.

"That is not a major concern to us, because that interest income is not a major factor for most chains. In some states we even lose money on our charge business, but we accept those losses because of the other advantages of maintaining our own credit system," Drew said.

....."FIRST WILL COME THE NATIONAL CREDIT CARD, OR 'IDENTIFICATION NUMBER' (WHICH WILL NOT WORK) AND THEN WILL COME THE LASER MARK OF THE BEAST"

The Gathering Storm

Part 5 (The Way Out)

(C.A.C. Reading given December 10th, 1978)

QUESTION:

Awareness, we're here for a general C.A.C. questioning with a few rather personal questions. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness indicates that as previously mentioned, the energies from mid October begin to intensify upon this plane. This Awareness indicates that this intensification is that which not only increases the intense situations and conditions of life activities upon this plane, but also increases the focus and capability of consciousness to pierce through and perceive the truth of what is occurring.

This Awareness indicates that as intensities occur, consciousness also intensifies to understand what is occurring

AN ADDRESS TO THE ANTI-CHRIST

BY COSMIC AWARENESS

QUESTION:

Is there any more information Awareness would have us put into the packet that we're now printing up for our next mailing to the membership? Also, the Interpreter has been receiving threats, and we are all getting a little nervous about the heavy nature of the information we have been mailing out. What will happen if the Beast gets ahold of this 'Gathering Storm' packet we are now preparing?

COSMIC AWARENESS:

This Awareness wishes to balance out some of the energies which are being presented in this package. This Awareness indicates that the information having been given in the previous readings as that which has basically summarized that which is already available to the masses from other sources.

This Awareness indicates, however, that this summary as that which can have an effect of shocking consciousness into awakening to the realities of what is occurring. This Awareness indicates that the purpose for releasing this information at this time, prior to the future events, as that which relates unto the proper timing of allowing the information to be digested by the public and also whereby the opportunity is available at this time for such release whereas in the coming months there is the possibility that this kind of information might not be released unless it occurs now.

GUYANA SLAUGHTER TO TRIGGER EFFORTS TO BREAK DOWN

THE SEPARATION OF CHURCH AND STATE

This Awareness indicates that there has been an effort to curtail churches and their beliefs. That this effort to break down the separation of church and state is being intensified; that the activity in Guyana as being a triggering device for this effort. This Awareness indicates that the intensification of this action has many justifying arguments; yet this can, in the end, serve as a greater destructive force to humanity than keeping the separation of church and state. This Awareness indicates that this relates unto the old trick of causing a patient to be ill or have a problem, then supplying the patient with the cure for the problem, whereby the cure becomes a trap for an even greater problem.

This Awareness indicates that essentially the information being released in this packet as that which carries certain potential dangers to those involved in the *Aquarian Church*, the *Cosmic Awareness Communications* and the persons related unto the release of this information. This Awareness suggests that there have been certain potential dangers in bringing out certain information to the readers of this material, that these dangers have been experienced in various ways. This Awareness indicates that this Awareness, in the past, has watched carefully to assure a balance whereby the Interpreter and those involved in releasing information from this Awareness have been somewhat guided and under special grace whereby there was protection for them. This Awareness indicates this in part the reason why the *Unified States of Awareness* has not progressed any further. This Awareness indicates that activity as having been seen as a threat to some, and therefore the energy was removed from that action and the action placed in limbo.

This Awareness indicates that the information being released at this time in this packet as that which also carries certain dangers for the Interpreter and the publishers at C.A.C.

COSMIC AWARENESS WRITES AN INSURANCE POLICY

This Awareness indicates that It can give further information that can be used for protection against any potential violence toward these members. This Awareness suggests that a reading following this whereby tapes giving greater detailed information on various topics of current importance with the exposition of those forces operating behind the events, the motives and the purposes and the names of those involved in these activities can be given and these tapes placed in strategic areas for release in the event that any from the *Aquarian Church* or *Cosmic Awareness Communications* are in any way harmed or threatened.

This Awareness suggests that there may be three separate topics for tapes. These tapes each sent to several trusted persons who can be entrusted to release this information on a large scale to key persons in communications areas, in publications areas and in those areas whereby the information can be mass-produced quickly to saturate the public with information regarding certain key events, activities, plans and personnel involved in these. This Awareness indicates that this information may be held in trust with these key persons, but suggests that those persons also to make copies to entrust to others in case they, themselves, are discovered. This Awareness indicates that this as being an action for protecting the forces involved in releasing the information enclosed. This Awareness suggests that essentially the information being released at this time as nothing more than a summary of information already available. This Awareness suggests however that by summarizing this information, there is a slight danger to those releasing the information.

WITHIN 6 MONTHS THE BEAST WILL WONDER ABOUT ITS TRIP AND ITS FATE

This Awareness suggests that within approximately six months that there will be a totally different atmosphere upon this planet, whereby the Beast shall begin to look carefully at its own trip and wonder at its own fate. This Awareness suggests that there are forces already within the system of the Beast whereby questions are being raised and doubts are being expressed. This Awareness indicates that it is but a matter of time wherein the Beast begins to experience a strange transformation and becomes sickened by its own fear of what it is attempting to do and by the realizations that people everywhere are catching on and cannot be put to sleep. This Awareness indicates that essentially this relates in part to certain international conditions which are creating problems of a magnitude that are not yet realized by the Beast and..... This Awareness suggests that this also in part by the whispers which have been moving across this nation from person to person, whereby entities are awakening each other and are pinpointing the

motives, the nature, and the location, and entities involved in the program of the Beast, including those entities involved in the media, the systems of surveillance, the systems of control, the systems of economic manipulation, the systems of mind control, and the electronic controls and those systems relating unto psychological controls and general programming of the masses. This Awareness indicates that the Beast is not aware of how many are aware of its many parts and its intentions.

TO THE BEAST, THE ANTI-CHRIST ---- A POSSIBILITY OF RECONCILIATION

This Awareness indicates that this message essentially may be considered a message to the Beast, a message to the Anti-Christ, a message to the Alien Force, the force which is alien to humanitarian purposes: suggesting to this Force, to this Beast, to this Anti-Christ, that there is a possibility of reconciliation, a possibility of co-creative living, a possibility of co-existence, a possibility of cooperative expression of all the entities upon the earth, whereby these entities may work harmoniously together without fear of intimidation, without fear of domination, without the dangers of being denied the life experience. That these possibilities of co-existing together as one cooperative human race as a place whereby all entities and creatures can survive and can make room for one another. That this is something worth considering as an alternative to an action which, by its very nature, is doomed to failure.

A drawing of Ahriman, the Anti-Christ as seen in meditation by Paul Shockley and two other entities

NEUTRON BOMBS PLACED IN U.S. WATERS BY SOVIETS AND EXTRA-TERRESTRIALS

This Awareness indicates that the purpose of this Awareness having come and speaking through the various interpreters from 1963 up to the present time is for the information which now comes forth to assist in the reconciliation of these forces upon this plane. This Awareness indicates that there are forces outside this plane which are observing the activities upon this plane. This Awareness suggests that these forces are watching with great concern the outcome of that which is occurring. This Awareness indicates that many of these forces which are promoting peace among the creatures of the earth are working through the Soviet Union, are advising the Soviet Union, are assisting the Soviet Union in its efforts to bring about a situation whereby entities can have the possibility of reconciling their differences. This Awareness indicates that a recent tape released by Dr. Beter, describes how the Soviet Union has planted neutron bombs in the fresh water lakes and around seaports of the United States. This Awareness indicates that this is indeed a fact.

This Awareness indicates that essentially the Soviet Union has isolated the United States in an effort to block its expansion of the programs being foisted by the Beast. This Awareness indicates that this also in relation to certain areas in Europe. This Awareness indicates that entities wishing to know more about this may listen to the tapes of Dr. Beter.*

This Awareness wishes to mention here that this has come about in part by an agreement between the Soviets and extra-terrestrials, who have been advising and assisting these entities. This Awareness indicates there are also contacts from extra-terrestrials with certain entities in the United States and the NATO nations, whereby these entities have made overtures to assist in the disarmament process so that the world can disarm and live in greater potential peace.

This Awareness indicates that the October message of Dr. Beter warns entities to leave the United States for the purpose of escaping a nuclear war which he sees as imminent. This Awareness indicates that this appears not to be imminent, but rather as a potential. This Awareness indicates that if the United States does attack the Soviet Union, then the Soviet Union will respond. This Awareness indicates that the likelihood of such an attack is very minimal, even though in certain inner circles this is being discussed. This Awareness suggests that entities consider much of this as being games played out in consciousness by entities who have great toys of destruction, wishing to preserve their egotism of their purposes, their roles, and their illusions of grandeur. This Awareness indicates that essentially the entities involved in this kind of threat are simply full of sound and fury, signifying little real substance. This Awareness suggests that in terms of the real issues at hand, there are forces which work behind the scenes which can

be very damaging and very dangerous when entities step into these territories.

This Awareness suggests that if anything occurs to the Interpreter, to members of C.A.C. staff, to members of the *Aquarian Church*, or to the members of organizations of a similar nature releasing this kind of material, the way in which the violence, or violations will occur will likely be disguised as an activity which not only destroys those who are to be destroyed, but will also attempt to degrade what they are doing, what they have stood for, and what they have promoted.

This Awareness indicates if, for example, there were an effort to destroy the Interpreter, this might occur in a manner whereby drugs were placed around his body or nearby and the statement being made that the entity was involved in drug-dealing and therefore was wiped out by some drug dealer associate. This Awareness indicates that another method might be to simply poison the entity with a type of poison which appears to have been a heart attack. This Awareness indicates that there are other methods whereby accidents are created by tampering with vehicles, so that at certain points, the vehicle creates an explosion or results in an accident. This Awareness indicates that the entity also may be destroyed by an action referred to as 'ill defame'--an action which destroys the character of the entity to bring about a loss of respect through some type of set-up or frame which causes the entity to appear to be blamed for some event which is defamatory. This Awareness indicates that there are other means also whereby an entity may be destroyed: the entity may simply disappear, leaving no trace. This Awareness suggests that if any of these events occur, if any of the members of the C.A.C. staff, or the close associates of the Interpreter, are violated in any such manner, this Awareness suggests that those tapes placed in strategic places be released, mass-produced with instructions as to where they are being sent in terms of the key persons, and that this be released to the general public.

This Awareness suggests that it is shameful, it is sad, that such measures, such concerns need to be discussed in a religious organization in order for its members to be protected. This Awareness indicates that the entity John, in writing the *Book of Revelations*, had it easy in his day: that wherein this information is being released at present, there is a threat to the expression of this information. This Awareness suggests that were the organization of the *Aquarian Church* or *Cosmic Awareness Communications* to speak in riddles as was used in the *Book of Revelations*, there would be no great threat to them; yet, when these organizations begin to clarify the riddles, there is indeed some potential danger.

This Awareness suggests that if only the Beast could understand, it is very likely that the messages from this Awareness, the messages released through the *Aquarian Church* and *Cosmic Awareness Communications* are the messages which, in the future, may be necessary, may be capable of bringing about a reconciliation and an attitude and an atmosphere among the masses which allows the Beast to survive, to transform and to co-exist as entities living alongside other entities upon this plane. This Awareness indicates that if the Beast does not understand this, then the Beast may indeed feel threatened by this message, may indeed wish to harm the Interpreter or others involved, and in the process, may find that in time, the Beast has destroyed its only way out of a bad situation, which it has created for itself because it has taken the wrong turn too many times.

A PERSONAL MESSAGE TO AHRIMAN--THE ANTI-CHRIST

This Awareness wishes to address the Anti-Christ which has been called Ahriman: that this Ahriman, or whatever name to whoever assumes the role -- this Ahriman, this Anti-Christ, is nothing more than the path of power, as opposed to the path of love. This Awareness indicates that wherein an entity seeks power over others, and hopes to be loved by being powerful, or to have vitality from the power: this Awareness indicates this is but an illusion. This Awareness indicates that entities look toward those entities who are loving, look toward those entities who are spiritual. Look toward those entities who are vulnerable, merciful and are vital; those entities who are creative and entities who look at these and do not feel that creative, loving, vital, merciful attitudes themselves....those entities who can

not feel spontaneity, creativity and joy, often seek to rob others of this spiritual energy. Those entities who cannot generate the spiritual energy from within themselves become vampires and feed off of the spiritual energy of others, and this gives them some sustenance and sustains their trip, sustains their power for a short time longer. This Awareness indicates that these entities, in feeding off the spiritual energies of others, then need to find still more energy, and therefore attack and devour other energies of a spiritual, creative, inventive, loving, merciful manner.

This Awareness indicates that those entities who cannot tap into the spiritual realm, who do not believe in spiritual energies yet devour the spiritual energies of others; this is that which creates the sadistic attitude and leads to the overpowering forces which degrade and dehumanize others. This Awareness indicates that in essence, the entity who attempts to feed off of the energies of others is himself de-humanized, and is moving toward that energy which is called satanic. This Awareness indicates that this satanic energy is nothing other than the fear of the loss of one's own identity, one's own power.

This Awareness indicates that when entities begin to make themselves vulnerable, begin to allow themselves to be human, allow themselves to express love, allow themselves to be merciful, allow themselves to give of themselves, allow themselves to express the creative and spiritual energies, allow themselves to be spontaneous, allow themselves to release certain controls and powers which have been held over others—these entities then begin to generate their own vitality, and indeed begin to live, and indeed begin to become lovable.

This Awareness indicates that when such entities are lovable, the shape, the features, the looks, the voice, the qualities all begin to change and the emanation of loving energies creates for such entities a different world, a different attitude, and draws

forth love. When one loves, one becomes lovable.

This Awareness wishes the Anti-Christ, whether this is found within an individual, whether this is found within the reader of this message, whether this is found in the eyes of the one whom you speak to, whether this is found in each and every entity upon this plane, wherever the Anti-Christ is found; this Awareness wishes that the Christ Consciousness within look to the Anti-Christ and to observe and to express love and to express mercy.

This Awareness indicates that wherein the Anti-Christ is attempting to violate another, that it is possible for the one being violated to rise up and say, "No further! I will not be violated. Let us be friends."

This Awareness suggests that wherein an entity rises up and objects to the domination of a violator, that there can become such a reverberation in consciousness that the one who would violate suddenly turns to look at himself and may see the ugliness of that face. This Awareness suggests that wherein an entity sees nothing but ugliness within oneself, the entity may continue in its ways of violence.

This Awareness suggests that when an entity is also shown the beauty within oneself, the entity may look first toward the ugliness, then toward the beauty; and wherein the beauty is encouraged, it becomes possible for that beauty to be expressed and to grow as the ugliness begins to diminish. This Awareness indicates essentially, that is what is occurring upon this plane. That there is an effort by the Anti-Christ at this time to build greater and greater power, to take within its claws, to take within its tentacles those forms and energies to suck the vitality, the love, the creativity and the humanity from the masses upon this plane; and in sucking this humanity, the Beast, the Anti-Christ hopes to gain that spiritual sustenance which will make it a god.

This Awareness indicates the concept is short-sighted and obviously unworkable.

This Awareness indicates: what shall it profit a Beast to gain the whole world and have no vitality of its own other than that which it has sapped from the masses? For once the vitality has been taken from the masses, what shall a Beast do to receive new vitality?

This Awareness indicates that essentially, the Beast, in placing its tentacles and suckers upon the souls of humanity, is finding itself quarantined and isolated and being looked at carefully in a manner that is leading to its own exclusion from the ranks of humanity. This Awareness suggests that the only out for the Beast will be exclusion from humanity, or the release of its motives and the merging with humanity.

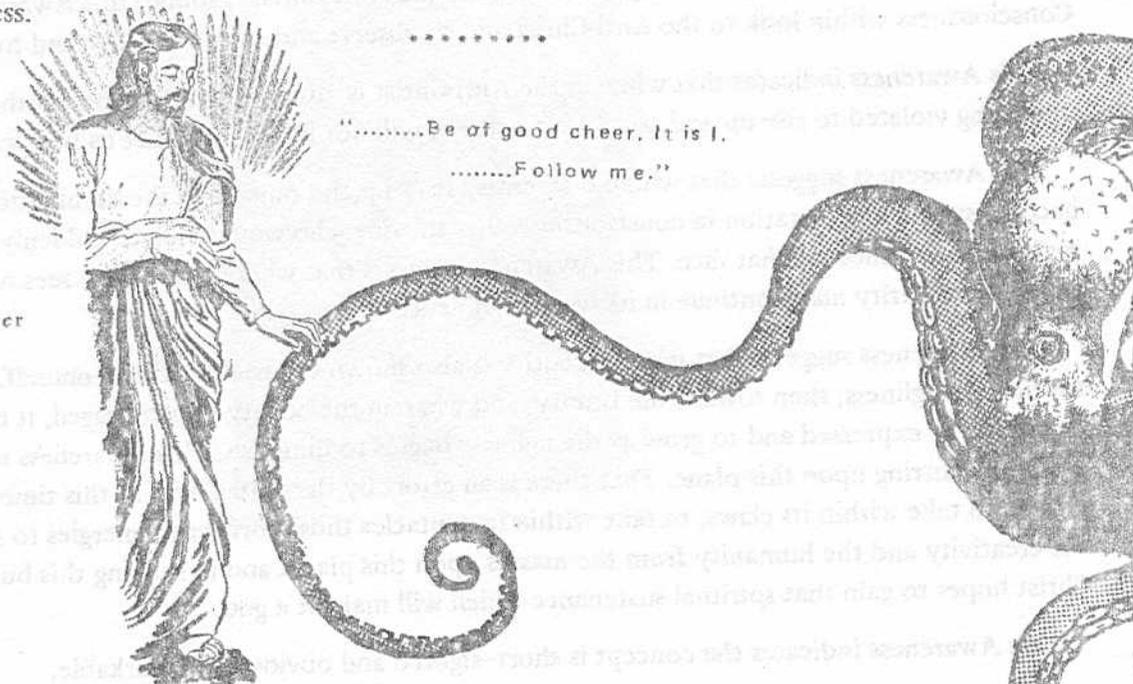

This Awareness indicates that the Beast has an opportunity to become that which is of great service and value to humanity. This Awareness indicates the Beast is setting up the Electronic-Fund-Transfer system; that this can be of great value to entities when it is proven and established in a manner that cannot be changed, so that entities may be guaranteed their own individuality whereby they cannot be marked, or numbered, or enslaved through this system.

This Awareness indicates that the electronic transfer of funds can be beneficial, but it also can be a great potential danger of enslavement, as has been indicated. This Awareness suggests that entities are not as stupid as the Beast may think; and though many will go along, there is a whisper moving around this plane which will become louder and louder as the Beast's tentacles begin to close in; and when this occurs, even the tentacles shall recoil and withdraw, leaving the head of the Beast in great danger.

This Awareness suggests 'tis time, the walrus said, to speak of many things'. This Awareness suggests that 'tis time for the Anti-Christ, for the Beast, for kings and queens, for clowns and fools, for clerks and janitors, for nurses, for doctors, for welfare mothers, for children, for teachers and ministers to speak of these things, to discuss ways of reconciling. 'Tis time for soldiers and for those who are victimized by fear, for judges and for businessmen and women, for entities in the realm of metaphysics, for entities involved in transportation, for all entities upon this earth, to begin to discuss how may we reconcile our differences—that we may begin to live together, create together, build together, and bring forth a new world, whereby we may extend our isolation from this planet to move into other realms, other planets, and into the heavens: For in those outer limits, there are worlds, times, mansions and glories which have not been dreamed of.

This Awareness suggests there is none upon this earth who is so evil, so wretched, so undesirable, so condemned, that that entity is not worth saving and being brought out into the Light, where he or she may be glorified by all of God's creations.

This Awareness suggests that those who have erred upon the path, who have wandered astray, may simply move back into the realms of love, mercy and humanity; and in this action, these entities may forgive themselves; for this Awareness is forgiveness, never condemns, and remembers always its many parts, and rejoices when any part comes home to levels of Awareness.

AN ADDRESS
TO THE ORDER OF ST. JOHN
OF JERUSALEM, THE KNIGHTS OF MALTA

BY COSMIC AWARENESS

ED's Note: The folks at C.A.C. were a little uptight when a request came in for our introductory booklet, "Cosmic Awareness Speaks," from the *The Order of St. John of Jerusalem, The Knights of Malta*, as this booklet contained the outline of the entire Beast program and the Illuminati. According to the U.S. Labor Party publications (and verified by Awareness) this order is one of the tentacles of the Beast, assassins who dispense with entities who expose them or get into their way. We figured it wouldn't hurt to ask Awareness about this. The question resulted in Cosmic Awareness addressing this sinister organization.

QUESTION:

A few weeks ago, C.A.C. received an inquiry from an ad we ran in FATE magazine from the 'Maltese Cross Foundation' for the book, *Cosmic Awareness Speaks*, which we mailed out. Vikki picked up on this, saved the letterhead and dropped a card to them, asking if she could have some information on their organization--that it sounded interesting. They wrote back from the *Sovereign Order of St. John of Jerusalem, Knights of Malta*. The letter read:

"Your letter of December 1st has been referred to me. *The Maltese Cross Foundation* was an affiliate of the *Order of St. John of Jerusalem, Knights of Malta*, which is a religious military order in existence over 900 years. If you are interested in learning about us, we have a book entitled, *History of the Sovereign Order of St. John of Jerusalem* which can be ordered directly at a cost of \$4.00. Sincerely yours,

Frank A. Capell--Grand Prior " P.O. Box 3000, Manville, N.J. 08835

We would like Awareness to look at the situation because the Interpreter was thinking that a dialogue between him and Mr. Capell might be helpful in understanding this situation.

COSMIC AWARENESS:

THE ILLUSION OF THE BEAST THAT IT IS SAFE

This Awareness indicates that a dialogue between the Interpreter and this entity would not especially be of any value. This Awareness indicates, however, that this Awareness welcomes the opportunity to address the *Order of St. John of Jerusalem, the Knights of Malta, the Mont Pelerin Society*, and all those societies under their control.

This Awareness suggests that there has come a crucial point in the affairs of humanity upon this planet, whereby certain forces which have been in movement for several thousands of years have reached a state of checkmate. This Awareness indicates that these forces are not fully aware of each other's power at this time. This Awareness indicates that there are certain energies which are close to collision, which are not under the control of many who believe they are in control.

This Awareness indicates that those entities of the *Sovereign Order of St. John of Jerusalem and The Knights of Malta*, and those other branches, along with the banking systems and the interconnecting links with the CIA, FBI, and other groups--the Mafia--this Awareness indicates that all these fingers and tentacles of that which has been called the 'Beast', does have its fingers in many of the areas of control and power. And by observing its own controls and powers, and because it is used to this state of control and power, and because its parts are obedient to those at the top, and those at the top believe themselves to be safe, so long as those at the lower levels remain obedient--the Beast has the illusion that it is safe.

This Awareness indicates essentially, the Beast of humanity is but the structure which represents the rational control placed on humanity, likened unto the rational mind within an entity. This Awareness indicates that there is still that other part of the mind within an entity which has power beyond the rational level; and in the levels of humanity, there is still that force which has power beyond the controls of the rational--the hierarchy, the Beast.

THE FORCES BEYOND THE RATIONAL MIND

This Awareness indicates that the rational mind in an entity is an essential and valuable tool for performance. This Awareness suggests that the rational structure of a society is also a valuable tool for performance. This Awareness suggests that wherein the rational mind of an entity violates the rest of the entity, the entity suffers. This Awareness suggests that wherein the rational mind of humanity--the structure, the Beast, the computer, the technology--violates the rest of humanity, then humanity suffers. This Awareness indicates that wherein the rational mind of an entity violates the entity to such an extent that the entity cannot any longer tolerate the violation, the entity then begins to rebel and strikes out against his own rationality--his beliefs, his own ideas and all that appeared to be stable in his mind. This Awareness indicates this leading to schizophrenia. This Awareness indicates that wherein humanity has been violated to such an extent that the pain becomes unbearable, and the entities will no longer accept that kind of violation, then the humanity will begin to march by the millions upon that power, upon that structure; and those who are protecting that power and that structure will begin to flee, leaving their weapons in the hands of those who attack.

THE VIOLATION OF HUMANITY MUST NOW CHANGE TO LOVE AND SERVICE

This Awareness indicates essentially, the *Knights of Malta* and all of those associated organizations, the *Sovereign Order of St. John of Jerusalem*, and any other organizations which are involved in this kind of control over masses, without the intent of serving the masses--these organizations are reaching a point in history whereby they must either be converted toward a new direction and purpose--away from the path of power and deception, toward the path of love and service--or these organizations shall soon find themselves and their members coming under the fire of massive world attention. This Awareness indicates this relates also unto the controlled press, the controlled networks, the various agencies and organizations under the control of these organizations.

This Awareness indicates that the organizations which make up the Beast as having played an important role in the development of humanity. This Awareness indicates this action as having been programmed into consciousness thousands of years ago to assist humanity as it moved through a dark cycle in the 25,000 year cycle from the Age of Virgo to the present Age. This Awareness indicates that these organizations assisted in holding the masses and civilizations together, likened unto a kind of glue. This Awareness suggests that this was programmed out of ancient

Egypt; that the technology and techniques for this programming came from other entities outside this planet. This Awareness indicates that those movements down through the ages, controlling the masses of humanity through that which can be called 'civilization,' was designed to bring about a quick evolution of consciousness of entities upon this plane. This Awareness indicates entities evolve most quickly when they are experiencing stress and dissonance. This Awareness indicates entities also evolve quickly when they are under stress to evolve.

This Awareness indicates these organizations, along with the religious organizations, created such stress and such direction for evolvment. This Awareness indicates that at this point, these organizations have completed their function in terms of the evolution of humanity; and that the script which has been followed, the programming which has been followed, needs not be pursued any further in terms of violence, in terms of enslavement, or in terms of the separative actions which are planned and which have been anticipated by entities working on the script. This Awareness indicates that it is still open: that these organizations may continue to play out the script--set up the powers and controls that belittle and intimidate the masses -- and these organizations may hold power unlimited for a very brief time more; but these organizations shall begin to crumble very rapidly within but a short time.

COSMIC AWARENESS SUGGESTS AN ALTERNATIVE TO THE DESTRUCTION OF THE BEAST

This Awareness suggests, however, that there is an alternative whereby these organizations need not be destroyed, need not be slain, but may be understood for what they were. This Awareness indicates these organizations may be understood as similar to that which is experienced by a recruit who enters the army and is given directions and controls by a very tough sergeant. This Awareness indicates that the entity may begin to understand after a certain amount of training why the sergeant had to act so tough--that this was for the entity's development. This Awareness indicates that this can be the resolution between those two entities. This Awareness indicates that humanity in general, the masses, may also be brought to understand the nature, the purpose, and the need for such organizations as the *Knights of Malta*, the *Knights Templar*, the *Freemasons*, the churches, and the other organizations associated.

This Awareness indicates that wherein the masses are given that opportunity to understand the total process of the evolution, then a reconciliation can occur which allows the lion and the lamb to lie down in peace. This Awareness indicates that wherein this does not occur, then the Beast can be brought down after its reign.

EXTRA-TERRESTRIALS ARE WATCHING THE SHOW

This Awareness indicates that there are entities from outside this planet, who watch this show very carefully, who watch this scene, who understand the workings of the script, and who also recognize where it can go and that it need not go in that direction. This Awareness indicates that these entities also are standing by in case the script needs to be played out, according to the way it has been written in the *Book of Revelations*.

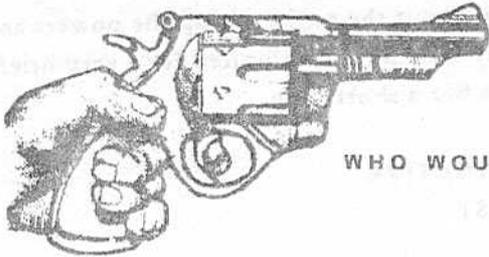

COSMIC AWARENESS OPENS THE SEVENTH SEAL

This Awareness indicates that the opening of the seal which was not written of, the opening of the seal which was to be closed and neither written or spoken of, is that which now is being given at a time wherein an alternate route may be taken by consciousness. This Awareness suggests that all of the Electronic Funding Transfer Systems, the computers being set up which could be used for enslaving the masses with tattooed numbers upon their hands; all of this kind of technology can become a blessing to humanity if used properly. This Awareness indicates the proper use of such technology would respect the rights of individuals, would respect the individuality without creating a slave of the individual. This Awareness indicates that to brand an entity in order to keep track of the entity is that which is a violation of individuality.

This Awareness indicates that whereby entities can be given the freedom of expression so long as they harm no other, whereby entities can be given the right to life, to freedom, to clear relationship, to movement, to general expression, and to have their own areas of question and their freedoms to speak out: this kind of freedom is that which can create a new way of relationship among masses of this earth.

This Awareness suggests that wherein entities have the freedom from poverty, freedom of religion or from religion---according to their own desires, wherein entities are given opportunities to learn, to share, and to be alone if desired, and to privacy---this can create a new type of relationship upon this earth.

This Awareness indicates that much of this has had some expression in this nation, and does have certain opportunities in other nations; yet this needs to be the full purpose of any form of government in all nations upon this plane. This Awareness indicates there is enough work in any of these countries with the masses of humanity to keep all organizations busy, and this work can be along the lines of guaranteeing freedom and preserving security. This Awareness suggests that a balance between freedom and security is that which is necessary; that too much security denies freedom; too much freedom eliminates security.

**A WARNING TO THOSE ORGANIZATIONS
WHO WOULD STIFLE THESE MESSAGES OR KILL THE INTERPRETER**

This Awareness suggests that wherein the organizations being addressed do not fully comprehend what is being expressed in this address, do not recognize the validity of these statements and feel that it is a threat for this information to be printed, whereby these organizations choose to continue or to perpetrate violence over others, toward the Interpreter of this message or those associated, this Awareness wishes to mention to you that this will be the whirlwind which shall bring down the entire structure of your action if these entities are touched.

This Awareness indicates that this appears to be highly unlikely, for those entities in the *Knights of Malta, the St. John of Jerusalem* organization, this Order, and the entities in these levels are highly intelligent and quite aware of various psychologies of mass movement. This Awareness indicates these entities fully understand that while the Interpreter lives, he will not allow a cult, a religion, or a following to raise him to a kind of leadership which would threaten others in any sense of violence. This Awareness indicates that these entities also realize that wherein an entity who has channeled information such as has been channeled through this Interpreter is killed, is sacrificed, then the information having been channeled becomes much more powerful, and the entities who are inclined to follow that information become much more fanatical, and religions can become very powerful in a very short time, and everything that had been said by their 'prophet' will become as "gospel truth."

This Awareness indicates that were the Interpreter or those associated to be killed for these messages, it would be but a short time until these messages would be flooding the nation through various printing presses, through various newspapers and magazines---first on a small scale, first through small newspapers, underground presses---and then eventually in talk shows, through radio programs, and into the pages of those controlled presses and the networks. This Awareness indicates that no one wishes to be on the losing side, and entities who find that masses have caught on, will begin to desert their leaders like fleas leaving a dead dog.

This Awareness indicates that wherein the Interpreter and his associates are kept alive, and whereby this Awareness can continue to channel through these messages, there can be information which will be brought upon this plane to bring about a reconciliation between all adversaries, between all forces in conflict, between those forces which are competing for power, which will eliminate the fear of threats and the fear of annihilation and thereby allow for communication, reconciliation and peace to be brought forth upon this plane.

This Awareness indicates this is no different from a proposal, a request to assist in mediating between conflicting powers in a war, to bring about a treaty of peace. This Awareness indicates that this war which has been perpetrated upon this earth, which has moved for approximately 12,000 years following the left and right path, moving down that path, the Sephiroth of the Kabbalah---the path of power, the path of love---these forces which intertwine, which meet, which cross, which meet in conflict, which rise again, separate and come together again, likened unto a black serpent and a white

serpent intertwining upon the middle pillar---those forces which have come down from ancient Egypt unto the present time are likened unto two armies of a war, a spiritual war. This Awareness indicates this spiritual war as that which relates unto physical and spiritual, and all levels in between.

This Awareness indicates that this was the programming which was placed into the consciousness of certain mummies, placed in the Hall of Records in ancient Egypt, which would emanate energies into consciousness through these certain patterns---this likened unto transmitting stations. This Awareness indicates these transmissions of consciousness being acted upon by those various entities down through the ages who tune in as receivers for this energy and act as catalysts for this programming. This is that which has had its purpose in bringing about an evolution in consciousness for humanity.

This Awareness indicates that now is the time whereby these forces may declare a truce, may move into reconciliation, may merge in a new era of peace, may find harmony with one another, may find safety in relationship, and may find prosperity through cooperation, and may find a future through co-creative activities.

This Awareness indicates these entities and these organizations may begin to open themselves to clear relationship through communication by reconciling the differences which exist.

This Awareness asks these entities, these organizations, and these powers:

Is this not the time? Is this not the place?

This Awareness suggests that those organizations who wish to continue these peace negotiations may also wish to contribute energies and properties and assistance to those who make these communications possible. This Awareness indicates there is room enough upon this plane for all entities to have space, to have prosperity, to have life, to have love, and to have clear relationship with one another.

This Awareness embraces everyone, and asks that you each embrace each other, and share your life with one another.

HUMANITY IS BEING MELTED
INTO PURE CONSCIOUSNESS

(How to Keep the Heat From Being Turned Up Further)

QUESTION:

Awareness, we're here for another general C.A.C. reading with questions sent in from the membership. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness indicates that the intensities which entities relating unto this channel have been experiencing during the past several months as that which is of an unusual nature. This Awareness suggests that this essentially is the reflection of that which is occurring in consciousness in general.

This Awareness indicates that the intensities which have moved in upon this plane as likened unto heat being applied, being turned up on the burner which heats the pot in which the various metals are melted. This Awareness indicates that these metals being the structures, shapes, identifications of consciousness, concepts, positions, attitudes, cultures, beliefs, and values. This Awareness indicates that as these differences begin to melt from higher temperatures, the energies, the liquid which remains begins to flow in a manner that allows a oneness or unity to occur. This Awareness indicates that essentially humanity is the melting pot, and humans are those who are being melted down to pure consciousness.

This Awareness indicates that differences do not matter. Differences of opinion do not matter—that what is of concern is whether entities can unite quickly and can unite harmoniously, or whether the heat must be turned up further in order for this to occur. This Awareness indicates that entities have the capability of surrendering to the unity, to the consciousness of the One, or entities may attempt to maintain their own individual way in opposition to others; and in such situations the heat may need to be turned up higher to melt those remaining in their own individual wills. This Awareness suggests that entities surrender quickly into clear, honest, open relationships through clear, honest, open communication.

This Awareness suggests that this particular opening message may also be included as a closing message to the previous reading. This Awareness wishes those involved in working with this channel to understand the importance of this work. This Awareness does not wish to see any harmed, for this Awareness communicates at this time to all entities upon this plane for the express purpose of lessening the sorrow, suffering, and tragedy which has been continuously experienced by entities upon this plane.

This Awareness wishes to see entities communicate, love one another, and find ways whereby relationship becomes the way of life, and whereby competition and tragedy and separation and sorrow become things of old to be forgotten, to be put away as childish games, for humanity has reached that stage in its development whereby it can begin to express itself with a mature consciousness.

This Awareness asks that all entities put forth some slight effort toward this purpose.

(Supplemental Information)

AN EXPLANATION OF THE ILLUMINATI

THE DARK ILLUMINATI
AND THE LIGHT ILLUMINATI
WITHIN US ALL

(From a C.A.C. Reading Given May 13, 1976)

Reprinted from *Revelations of Awareness*

QUESTION:

Awareness, from the letters we receive at C.A.C. it is evident that many people are uptight about a lot of things. It is our feelings that if we send out the Illuminati information without something positive we can tell them to do about it, this feeling of helplessness and uptightness will increase. Perhaps there is a meditation Awareness could suggest or something in the line of magic that our members could individually do in their own small way to help dismantle the pyramid of the Illuminati threat. Would Awareness please comment?

COSMIC AWARENESS:

This Awareness indicates as above so below, as within so without. This Awareness indicates the Illuminati exists within each entity: the Illuminati is that portion of one entity's consciousness which is illumined.

There is the Dark Illuminati and the Light Illuminati. The use of Light Forces for dark purposes as being that which is the Dark Illuminati. The use of Light Forces and enlightenment to lighten the load of others, this as the Light Illuminati. Wherein entities gain wisdom and use this wisdom against others for their own personal good, this as related unto the Dark Illuminati. Wherein entities gain and use this wisdom to help others and help themselves as well, this as related unto the Light Illuminati.

This Awareness indicates that as entities discover and become illumined, wherein entities become enlightened, wherein entities are capable of placing aside their own viewpoint and looking at a situation from several other viewpoints, this does raise the vibrations and allow entities to become enlightened on that particular topic. This Awareness indicates with this enlightenment entities have the opportunity to use this information for worthwhile purposes, serving themselves and others, or they may use this information strictly for personal gain at the expense of others. This Awareness suggests that wherein an entity becomes illumined on any topic and uses the information to serve others and to serve oneself, this does add to the light of all those who are moving along the path of the Light Illuminati and those bringing about the New Age.

This Awareness indicates that each entity has it within their own power to assist in lighting the lights around this world, to allow themselves and others to become enlightened on certain topics, and in this action they become capable of changing the nature of the world.

This Awareness suggests that in regard to becoming concerned about what is occurring on the international level, that you visualize yourself as but a cell in the body of this huge mass called humanity. That there is no way single cells can account for all that is occurring on this level; yet that cell can light itself, and in itself can become a cell of light, a soul of light, and can assist those other souls with which it associates to also become light, and in this manner a healing begins to occur; and in the lighting up of certain portions of humanity, this light begins to glow and others see it and begin to tune into this, and this too begins to create even more light. This Awareness suggests that entities need not become concerned or uptight about what is occurring, but must look at what is occurring; that entities who refuse to look at the facts of life, may be understood as likened unto the ostrich which hides its head in the sand to avoid any problem of being seen in order to escape from any threat to its well being. This Awareness indicates this as but a form of ignorance and not enlightenment.

QUESTION:

Is it the will of Awareness that all the information on the Illuminati we have received be printed up and sent out to the membership?

THE THREE GREAT TABOOS.....

- SEX
- RELIGION
- MONEY

This Awareness indicates there have been *three great taboos* down through history. The taboo of *sex*, the taboo of *religion*, and the taboo of *money*; that sex has been opened up and entities have discussed this freely; that religion has been opened up and entities have moved to those levels wherein religion has been examined from all points of view; that money is still that secret taboo which many still fear to discuss.

This Awareness indicates this as the last great hurdle; wherein this becomes clear the freedom of enlightenment becomes the action which allows entities to begin understanding true freedom on the physical plane whereby the spiritual freedoms may have a grounding force as well as the psychic force.

QUESTION:

What can then be done to the information, if anything, which would help people to understand the basically spiritual information rather than political information?

COSMIC AWARENESS:

This Awareness suggests that the information given in regard to the U.S.A. Communications in a previous reading as that which explains this in detail . * This Awareness suggests that political information is that which relates to the action of electing entities to govern others; this information as related to banking and money-changing.

This Awareness asks: Is the action of Jesus, moving into the temple to drive out the money-changers, is this a political action or a spiritual action?

This Awareness indicates there are certain fingers of each experience that do touch into others, these likened unto nerve networks, yet there is no way to compartmentalize and totally isolate one concept from all other concepts. This Awareness suggests that entities simply must be able to reconcile within their own consciousness or have certain areas of consciousness blown, as a fuse may blow, and in that action they may begin to discover. This Awareness suggests that those entities who like to keep everything compartmentalized, wherein Sunday is compartmentalized as the day of spiritual action, Saturday being the day of revelry, Thursday being the day of argument with one's mate, Wednesday being the day of being concerned over this or that situation; wherein entities *classify one kind of thinking as being political, one kind of thinking as being spiritual, this kind of compartmentalization is nothing but an action of the brain which polarizes and computes and compartmentalizes; and the brain is the BEAST.*

This Awareness indicates that the Lucifer is the mind, that the mind has its place; the Beast has its place, but the mind and the Beast and Lucifer need to be kept in their proper place, whereby the crystal clear consciousness, the Christ Consciousness, as that which remains as the *programmer*, and not the other way around wherein the Beast determines what occurs to the Christ—the crystal clear consciousness to the being of an entity.

This Awareness indicates that wherein entities are controlled by their thoughts, by their programming from childhood, and have not the ability to look at the programming and the source with clear light, these entities indeed are controlled by the Beast within. Wherein entities are capable of examining that Beast, that mark within their forehead, that action of the brain, the mind, and can look at it with clear light, and wherein it becomes necessary to rearrange the programming in order to grant more freedom and greater communication with others—this as in tune with spiritual enlightenment.

This Awareness suggests that wherein this information becomes a problem for entities to absorb, that the total information regarding all of this, may be placed into a booklet wherein all of it may be absorbed in one reading.

THE INFLUENCE OF THE RISING CONSCIOUSNESS

QUESTION:

Awareness, in reference to the hierarchy and power-playing in the Illuminati that is taking place, is a lot of this taking place as a result of a reaction to the rising of consciousness?

COSMIC AWARENESS:

This Awareness indicates the rising of consciousness as that which is a natural cycle, this being natural in one sense. This relating unto the tilt of the earth whereby the entry into the day side of the 25,960 year cycle as now occurring. This as also the entry into a new cycle on an even larger field. This Awareness indicates that all of this was understood at a time reaching deeply into pre-history and the time of the heating up of consciousness along with the programming whereby civilization will reach that peak wherein it must set out its own reflective Beast network of computerization relating unto the money and the exchanges of energy based upon centralized control. This *having to occur* at this time wherein the energies would be reaching a climax at the same time the civilizations were also reaching the climax; and as these occur, the energy which has been building on the money system and the energies of control, power, lust and greed being built to that climatic point, have no choice but to explode from their own excess, their own "too much", and in this explosion, which may be likened unto the climactic orgasm of civilizations, this creates a release that allows *only communication* to occur on a feeling level; for *desire* has gone beyond itself, and *feeling* is that which shall remain. In that *feeling*, unity among all the parts shall begin to be experienced, and this shall bring about the *New Age* and the *New Creation*.

This Awareness wishes entities to understand there is *nothing evil about the actions of the money-changers, there is nothing evil about power, lust and greed*. These are simply *power, lust, and greed*, these are actions which are based upon concepts of separateness, wherein competition and separateness along with duplicity and manipulation of the masses has taken place for many years:

This does not need to be called evil.

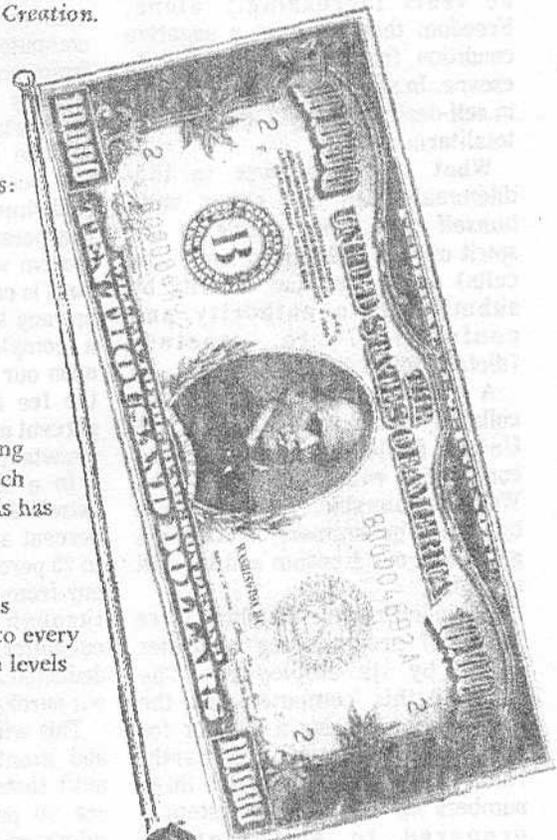

This Awareness indicates these are but facts of life, and now these facts may change and other experiences may occur wherein these desires and forces are depolarized and diffused.

This Awareness suggests that entities who wish to do something about what is happening, may first begin with themselves, for as each entity does clear his or her own computer, his or her own mind, this has an effect upon the total.

This Awareness indicates that every human face is every other human face; every human soul is linked into every other human soul; and as entities do any action in high levels of attention, it affects all of the rest of consciousness.

Living by number

In the book, "Escape from Freedom," Erich Fromm develops the thesis that as man gains freedom he feels increasingly alone. Freedom then becomes a negative condition from which he tries to escape. In so doing he often engages in self-destructive acts like war and totalitarianism.

What is the answer to this dilemma? Man can either unite himself with other people in the spirit of love and shared work (the cults) or he can find security by submitting to authority and conforming to society (dictatorship.)

A created crisis can cause the collapse of the government of the United States and destroy the constitution with the Bill of Rights. World dictatorship can be achieved by a world government that does not guarantee our freedom and the Bill of Rights.

Today in Brussels, Belgium, there is a self programming computer called by its employees "The Beast"; this computer has the capacity for housing a number for every person upon this earth. Numbers are prefixed by the three numbers 666. The banking system is prepared to shift into a computerized system wherein all persons would use a card and a number rather than cash, checks, or credit. This computer, three stories high, is tied with 270 banks on the European continent. It is also tied into certain banks in the United States and Russia.

If a crisis occurs all persons might be required to receive a governmental number. In a short time we might be requested to have this number tattooed invisibly upon our hands, or upon our foreheads, probably by a laser beam. This tattoo then replaces the credit card, we will be expected to use this number for every purpose, and this number would be our identification from birth until death.

The letter on the left was sent in anonymously by a C.A.C. member who took

VOICE OF THE PEOPLE

The arguments for this will be that it will stop crime and speed up the services. We can present our number wherever we go and the computers will deduct that purchase from our account. Being safe from robbery will appeal to many and many shall take the bait.

Once this action is established, any person who objects to it may find himself being called a criminal. Any person who becomes part of this system will find that every item he buys is computerized and there is no privacy left. "The Beast" will have a complete all-seeing eye placed upon our lives. Within a short time the fee for this service can be 5 percent on every purchase and every monetary exchange.

In a short time the fee can be raised to 10 percent later to 15 percent and at last it will be raised to 25 percent. We will not be able to buy from one another without going through our account at the computer. Our energies shall be deducted at the rate of 25 percent for our purchases.

This will begin creating a greater and greater difference in classes until there are the super-rich who are all powerful, the bureaucratic rulers who are beneath them, and the masses of slaves who do the work, the bidding, and answers the whims of the rulers.

Will U.S.A. survive in 1984?

Will Communist Russia survive in 1984?

Already USA is being drained of its gold. A crisis without gold is a depression, saved by a dictator, of course.

Note how using references to books in print, current news topics ("cults") the essential information on what is being laid upon the peoples of this nation was printed in the 'controlled press'.

You too, can write such a letter and get it printed in your local paper. If you do not want your name printed, just request that your name be withheld. You can use any or all references to books and other sources in this 'Gathering Storm' material as references. THE ROCKEFELLERS: ADDITIONAL REFERENCES:

Two of the major tentacles of the Beast, as shown in this packet, are controlled by the Rockefeller brothers, David and Nelson—the areas of banking and communication. There may be even more. Awareness has not yet exposed the head of the Beast, but tells us that it will indeed be exposed and quite soon. Funds, time, and room in this packet does not allow us to include anymore information relating to all this. However, we do wish to recommend two books available on the Rockefellers, which expose much more than has been included in this packet. These books tell the true Rockefeller story and have been tried to be suppressed by them. The first book tells the connection this family has had with the Illuminati, their plot to obtain a 'one world government' controlled by their banking empire. It tells how Rockefeller even had the history books rewritten to hide the perfidy his family has created, the tragedy and sorrow their lust for power has caused. You will see the astonishing numbers of U.S. companies they now control (would you believe the Dow Jones Industrials?) These books are:

The Spotlight, weekly newspaper has revealed that the Rockefeller brothers, Nelson and David, have acquired the three major U.S. television networks: NBC, CBS, and ABC. Through their huge conglomerate company, Warner Communications, they have unleashed a gigantic conspiracy to monitor and enslave the people through a new and sinister two-way television cable network called "QUBE" which they will introduce next year on a major scale. The system is already in use in several major cities, with over 20,000 customers already in Columbus, Ohio. QUBE (pronounced Cube). It is already being called "Big Brother"—the TV monitoring system used in George Orwell's prophetic book, "1984". This is one of the major tentacles of the Beast and an extension of the information given by Awareness in 'Revelations of Awareness' No. 78-31 Concerning Television and mind control as tools of the Beast. (\$1.00 available from C.A.C.) The following are only brief excerpts from this Spotlight series on QUBE, the Rockefellers and their mafia connections etc.

By George Nicholas

A group of the most influential bankers, financiers and conglomerators is forging an unprecedented covert coalition with the top leaders of the nationwide crime syndicate.

The ultimate goal of this secret alliance is to replace the traditional American constitutional order—conceived as a republican "consent system,"—with a so-called "technetronic command structure" of small elites managing the nation's affairs in a centralized manner resembling the techno-bureaucratic Soviet system.

"When Qube is introduced to the U.S. national TV audience sometime next year, it'll mean a revolution," a New York media observer told The SPOTLIGHT in a recent interview. "It's not just a sophisticated sort of cablevision. Qube is a radically new communications technology designed to monitor and control every single viewer who allows it in the home."

The concept of a "technetronic society" policed and controlled by advanced communications technology did not originate with Warner's. It was first developed, more than ten years ago, by a group of researchers headed by Zbigniew Brzezinski, under the auspices of the Rockefeller Foundation. Brzezinski, who has risen from one of the Rockefellers' house scholars to the Carter White House, where he is in command of national security affairs, prophesied that the "post-industrial" era dominated by electronics would "evolve into new social structures" which would progress "beyond traditional democratic forms."

If Warner Communications has its way, the U.S. is about to commence its "progress" away from the traditional American constitutional order. The Qube two-way cable television system will change both political participation and voting habits: after watching politicians perform on the Qube screen for awhile, the viewer will simply push one of several buttons on a module attached to the TV set in order to register his vote.

Moreover, the debasement of constitutional balloting procedures into manipulated mass pushbutton referenda does not represent the full subversive potential of Qube. Warner's new cable-video system is designed to function, not

just as propagandist, but as policeman, as the allseeing electronic eye so accurately forecast in George Orwell's prophetic novel, "1984."

"Any television viewer who gives Qube houseroom will find out soon enough that it's a two-way system in more ways than he bargained for," a network executive with headquarters in New York told The SPOTLIGHT in a private interview. "Qube will have the capability to monitor the entire house in which it is installed."

When the Rockefeller brothers, Warner Communications and the networks jointly unleash Qube on the American TV public in the not-too-distant future, media moguls will come to yield enormous power over every facet of American public affairs.

"It was the Rockefellers, through Brzezinski, who sponsored the social and legal theories which laid the groundwork for a 'technetronic society,'" said one informant, a young European economist who has himself worked for a Rockefeller-financed research institute. He continued:

"It was the Rockefellers who first went into partnership with crime syndicate 'chairman' Meyer Lansky in the Bahamas, and subsequently engineered the long chain of mergers and acquisitions which gave birth to mighty Warner Communications, a conglomerate large and wealthy enough to develop the technology required to turn America into a technetronic state manipulated by small, invisible elites. And it is the Rockefellers who are now quietly acquiring (through their family bank, Chase Manhattan, and affiliated financial institutions) direct control of all three national networks, to make sure that when the time comes, Qube will become an integral part of every TV-viewing household."

Major banks, as if acting in conspiratorial unison, conceal from the regulatory agencies and from the public the degree to which they now own and control most U.S. broadcasting facilities, according to a recent Senate report which spoke bitterly of the "... massive coverup of the extent to which holdings of stock (in TV and radio broadcasting) have become concentrated in the hands of ... banks."

The SPOTLIGHT's investigation, however, has assembled evidence indicating that an incredible 80 percent of ABC's equities are held

A Global Processing Network

The Bank of America, the world's largest commercial bank, is currently developing a global word processing network with operations offices on five continents. There are presently 1000 word processors of the IBM Model 600 and 1000 word processors of the IBM Model 600.

ing to its nearly 1,100 California branches. To accomplish this, plans are being developed that could tie word processors to an existing on-line computer network. The bank is presently testing an on-line word processing system, and preliminary results are promising. It will be hardwired into the existing system. In addition, the bank is planning to install a word processing center in each of its major cities.

Robert Weaver, of the Cleveland Consumer Action Foundation, says financial institutions are trying to shove Electronic Funds Transfer (EFT) systems down our throats.

Weaver says he doesn't think the system is as foolproof as the banking industry contends, and he also worries that consumers will lose their freedom of choice for alternative services.

"The trend is toward full electronic banking," Weaver says.

Push-button banking—good and the bad

The potential benefits of EFT are numerous. The system is swift, efficient and economical. But for every benefit, there is a corresponding drawback. Every consumer of financial services should weigh the following pluses and minuses before taking the EFT plunge. On the positive side, EFT means:

- Less paperwork for businesses, banks and consumers.
- You'll spend less time and money traveling to the bank, standing in line and balancing your checkbook. You'll probably have 24-hour access to your money.
- If your bills are paid electronically, there will be less money spent on postage.
- You won't have to worry about human error at the bank, store or Post Office and you are protected from theft and unauthorized use of your checking account.
- Almost no chance of losing your paycheck or welfare payment, because the money is transferred automatically.
- A possible lowering of interest rates on borrowing rates. For years, consumers have argued that part of the high cost of borrowing is attributable to the high cost of processing checks.

Ask for the information booklet: *Saving Fortunes by Sharing Favors--(How to Side-Step the Coming Depression)*, by Paul Shockley. Note: all members of C.A.C. have already received this booklet if they have joined by January 10, 1979. Those who have joined after this date may order this booklet from the above address.

In regard to the urgent material contained in this packet, all C.A.C. members and others who read this, are requested to reprint any or all of it and get it to as many people as is humanly possible in the next few months. Permission is hereby granted to edit, distill, reword in any manner or form as long as the essential meaning is not changed and includes the planned Crash of '79, the following Depression, the enactment of the 'National Emergency' laws, the withdrawal of money from circulation and the issuance of identification cards required to buy or sell under the Electronic-Fund-Transfer System which will later require all entities to have this mark placed by laser beam upon their right hand or forehead.

All entities are urged to make Xerox copies of this material and spread it around. Copies can be printed by mimeo, off-set or any other means at your disposal. Most cities have rapid copy services and if each member had 1,000 copies made and distributed to friends and groups, this would help greatly to inform the masses. Entities are requested to send copies to their Congressmen, Senators, newspapers and magazine editors. Letters to the editor are published in most local newspapers. You can write up the essential information without mentioning the name of Cosmic Awareness or that the information was obtained through psychic sources. There is enough information in this reading, with references given, that the public can refer to these books and publications and check it out if they so desire. (A sample 'Letter to the Editor' one CAC member had published is enclosed in this packet. Also included is a petition against the clear and present danger of certain questionable computer practices.) You are urged to make copies of this petition, get them signed by friends etc. Particularly these petitions should be signed by those entering those supermarkets which are using the new electronic marking systems. Also, you can make copies and just pass them out to the customers who come and go from such supermarkets. Petitioning is a legal and accepted practice in the U.S. You can go anywhere you like with a petition and try to get signers. Make copies of all petitions with signed names and send to Senators, Congressmen, newspaper, radio, TV and magazine editors, as well as those who manage the supermarkets etc. A few names can make a big noise when you xerox a lot of copies and start mailing them out. Take your petitions to schools and colleges. There is much energy available there and considerable awareness on the part of the students. Let them know about the Beast and what is being planned. They will not take that sitting down.

Another thing you can do is to turn your friends on to C.A.C. and the Aquarian Church. Every new member means a few more dollars these organizations can put into alerting the public to what is about to happen to them. Some may disagree with the philosophy of Cosmic Awareness, but the information Awareness is giving them now is information vital to their very well-being and perhaps even their life and soul. In the long run they will be very grateful to you for having alerted them to this situation before it was too late for them to do anything to prepare for it. Remember, Awareness suggests that if enough entities can be informed of what is about to happen, the tragedy and sorrow and suffering could be much less than otherwise. In fact, if enough entities awaken in time, the whole fantastic, insane plot may not even hatch at all. For this we all must surely pray.

Entities are asked to also start 'work shops' locally, give public lectures and hold discussion meetings on this material, and alert other organizations, churches. Also purchase additional copies of the 'Gathering Storm' material for distribution. (\$4.00 donation requested)

Entities should be reminded that in the United States at this moment, 'Detention' camps are in existence. These are in isolated areas of states like Nevada, Arizona, Oregon, California. In addition, the Detention camps, or concentration camps, erected by the government during World War II, are still activated, these being made ready during the 1960's to hold the Vietnam war protesters and others who posed threats to the government policies of that time. In addition, all major institutions, schools, colleges, etc. built in the past 20 years, were carefully designed so that there would be no facilities for large gatherings, were built of concrete and had many rooms as dividers. To make a detention camp of these buildings would require only the erection of a high, electrified fence around the buildings. Although our prisons are overflowing, the Beast has made certain that facilities for those who pose a threat to its rule, have been built with ample room to spare to hold the half-million entities Awareness mentioned would be herded into these facilities. Published accounts of these facilities have appeared in numerous publications such as 'Rolling Stone' and 'Penthouse' magazines etc. However, if entities act fast, this part of the Beast's plan will not need to happen. As Awareness said recently:

".....This Awareness indicates that the Beast is likened unto a dark shadow that covers this plane, and the tongue of the Beast attempts to lull entities into believing in him and into falling asleep and giving up all rights to individual freedoms. This Awareness indicates its strongest argument is its promise to give security. This Awareness wishes to remind entities: maximum security is found in the most unpleasant places in prison control systems....."

NOTE: Good, sharp, reproduction proofs of this packet, suitable for offset printing, may be obtained from C.A.C. by those who wish to reprint by offset. (A \$10.00 donation is requested to help cover costs).

A WORD ABOUT C.A.C.

Cosmic Awareness Communications, located in Olympia, Washington, was legally chartered in Feb. 1972. Its purpose has been to make available to the public the hundreds of readings given by Cosmic Awareness through Its various Interpreters. C.A.C. publishes *Revelations of Awareness*, which is a cosmic newsletter with questions asked of Awareness and the response Awareness gives to these questions. Every conceivable type of question has been asked: U.F.O.'s, earthquakes, sex, life after death, Hades, Heaven etc. as well as questions relating to Jesus, the Bible etc. etc. In addition, C.A.C. is publishing the Cosmic Awareness Spiritual Development Course which is comprised of 144 lessons. These two publications are mailed to members every two weeks (funds permitting).

Cosmic Awareness Communications is a non-profit, tax-exempt organization, and all membership dues may be deducted from the member's Federal Income Taxes. Dues are as follows:

INDIVIDUAL OR FAMILY MEMBER: \$30 a year
CONTRIBUTING MEMBER: \$52 a year
SPONSORING MEMBER: \$144 a year
PATRON MEMBER: \$1000 a year
ENDOWING MEMBER: \$5000 a year or more

The founders and full-time core of C.A.C. receive no monies or salary. All funds are used to print, advertise and publish the readings of Awareness for as wide an audience as conditions allow. Funds are sorely needed at this time. At the end of 1978, C.A.C. had a net operating loss of over \$10,000. At this time it is operating only on borrowed funds. The urgency of the moment prompts this request to all members and those who will become members, to upgrade their memberships and send in any donations above that amount in order that more publications can be printed and mailed out and advertisements placed in magazines and newspapers to help alert the public to the Heavy Times that are about to descend upon them. All donations and dues are tax deductible and you will receive a receipt for your records of donations of \$5.00 or more.

Those of you reading this Awareness material for the first time are requested to send in for the book, *Cosmic Awareness Speaks*, (\$3.00 from C.A.C.) which is full of information on what is happening and tells you all about C.A.C. and the Interpreter's organization which was set up by Cosmic Awareness: *The Aquarian Church of Universal Service*.

A WORD ABOUT THE AQUARIAN CHURCH OF UNIVERSAL SERVICE

Paul Shockley, the Interpreter for Cosmic Awareness, was prompted by Awareness in 1974 to start up a legal, tax-exempt organization with numerous branches and the ability to grant charters to individuals and groups. You can obtain free information on the activities of the *Aquarian Church of Universal Service* by writing to the address below. Paul personally publishes a cosmic course called, *Voyage to the Source*, and you are encouraged to subscribe to this periodical. The cost is a \$9.00 donation. Donations to the *Aquarian Church of Universal Service* are also solicited and requested. These are also tax-deductible. The work which Paul Shockley and the *Aquarian Church of Universal Service* is doing will never be fully known or appreciated by the majority of entities on this plane ---but those who are aware, or who will become aware, will one day understand.

A PERSONAL WORD

FROM THE C.A.C. STAFF

Avaton

The past several months have not been easy on us here at C.A.C. We were not prepared for the tremendous amount of material Awareness delivered about the Beast, nor were we prepared for the super-heavy nature of these few readings in November and December of 1978. Each time we were about to print, Awareness gave us more information It wished to include in this packet. In addition, the Interpreter, Paul Shockley, informed us that while in the trance level, he saw himself being killed by a dark figure with a gun if we sent out this material exactly as Awareness gave it to us. The Beast is aware that many sources are pointing fingers its way, but this packet of information puts these pieces together in a manner that most entities can really see what is happening. In

Although we promised to send this 'Bad News' packet out the first thing in January, we decided to first send everyone the FEAST Center information. There are numerous organizations now starting these U.S.E.S. type programs and you can either affiliate with them or start one on your own in your own home town. That booklet Paul wrote on side-stepping the depression has all the information you will need.

There has been some paranoia around here. In the past, from time to time, we have suspected our telephones were tapped because of strange, interesting sounds and clicks we would sometimes get, like the lines were switching to a tape recorder when certain words we said activated it. Strangers have been seen prowling the area. Our faithful hound, Siegfried, works round the clock keeping an alert vigil in the woods surrounding the office. When the Knights of Malta wrote us for some information, that didn't help much either. We wondered if we were now eyeball to eyeball with the Beast. Vikki T. and the rest of us experienced the paranoia, took a good look at it, and decided to hell with it. There was simply too much to do right now than to freak out about assassins lurking behind every bush. What we did do, however, was to send certain records, readings and tapes out of the state in the off-chance someone would light a match to our little shop or decide to eliminate us in an effort to shut off the flow of Awareness material. Should anything happen you will be notified by others who will continue our work.

Awareness mentioned the Knights of Malta as one tentacle or arm of the Beast, which It previously described as "Structure". This means the Knights of Malta is an arm of the 'Structure'. Awareness indicated also that Structure (the Beast) has its place--its place being in service to humanity and not in control of humanity, nor in demanding service from humanity. The U.S. Labor Party is leveling some heavy charges against the Knights of Malta in their paper, *New Solidarity* (from July '78 on to the present) and in other books (*Dope Inc.*) and magazines. Some of this material seems almost too extreme to be believable, but some answers a lot of questions not answered elsewhere. It is worth reading if you want to be informed; but we caution people to question everything. Also, for those interested we suggest ordering the official public relations book put out by the Sovereign Order of Saint John of Jerusalem--the Knights of Malta which sells for \$4.00. The address:

The Order of St. John of Jerusalem, the Knights of Malta
P.O. Box 3000, Manville, N.J. 08835

(Ask for their book: *History of the Sovereign Order of St. John of Jerusalem*), Price \$4.00.

It is our hope to see all these Beast energies balance. We hope to see a rapid transformation on all levels in time to avoid unnecessary sorrow, suffering and tragedy. Any suggestions? We hope the worst is over, that all the bad news has been delivered to you (but we doubt it), and that we can all take a couple of weeks off to restore our energies before getting back to the work of printing and mailing the *Cosmic Awareness Spiritual Development* lessons and the *Revelations of Awareness* newsletters again. None of us likes the idea of violence nor the vibrations that have been coming around here since we have been working so closely with the Beast

Paul Shockley

energies. Because C.A.C. is now without funds, at least for the time being, we feel we have done everything we can for the moment about this situation. Now that you have been informed and have been told how to deal with this problem, we know you all will do your very best for the most entities involved. Now is a good time to recall what Awareness tells us is the question we all must answer at the 'passing over' we call death: "How many have you served, and how well?" We must all think about how we will all answer that question in the trying days ahead, when the most obvious thought that may occur concerns only our own security and well-being.

But Paul Shockley is the one we are all really worrying about. His paranoia is very real. Since returning from the York (7-7-77) Convention, he has been living under the threat of assassination. According to Ed Nelson (one of the men who has a life estate on Paul's church property), some men who claimed to be F.B.I. and C.I.A. agents from Washington D.C. came out to the property and told Ed that Paul was a fraud, a 'con-man' who held vast properties in the name of his 'church' etc. Ed said they issued a threat: "We'll get him, don't worry. And if we don't, the Mafia will get him from up there"---motioning beyond the trailer home on the hillside where Paul lives. Well, we know that Paul is no 'con-man' and the only property he owns is that acreage his church has there where he lives. He also owns two broken down old cars which he and his wife, Roshanna, creak around in. As far as money is concerned, Paul and his church is in worse shape than C.A.C. (which is broke). Paul is a writer, an actor, a former Portland bus driver and an army veteran. There is nothing the Mafia, the *Knights of Malta*, the CIA, the FBI or other tentacles of the Beast want from him because they know he hasn't got anything they want---except one thing: his precious gift of being able to channel that *Force* which is Cosmic Awareness---the God-Force. Is one of these groups out to stop the Awareness channel?

Awareness Itself has covered in this packet how this could be carried out, but it also wrote a kind of insurance policy for Paul and C.A.C. in the event anything of this nature should occur. But these forces do sneak around Paul. Last November, when Paul was in York, Pa., delivering the 'Yorktown Address', Ed told him later that two more 'Agents' came out and started asking him for the names of everyone who had ever been on the property in the past two years. They asked a lot of strange questions: "Where does Paul get his drugs? How does his Church make its money? How do they get members?" Now we at C.A.C. have known Paul Shockley a long time and the strongest drug we ever saw him take was aspirin he often takes for headaches. And his church makes what little money it has from the 'Goodship' sales of Rejuvigor, from a few donations, and what Paul gets from C.A.C. and others for giving readings. There is NO WAY this gentle entity could be justifiably smeared. Yet it appears that certain forces are setting up a stage to try to discredit Paul and his work. (This too, Awareness covers in this packet). We do not want to see Paul killed because of the information he has channeled. We have suggested that he go into hiding, but he has refused, saying it would do no good---if they wanted him, they would find him.

We feel that the important information has now been published and disseminated and soon we will all be back into the business of channeling and publishing the spiritual information from Awareness which helps us all grow and become more aware of *Who, In Fact, We Really Are*. We hope with all our might and soul that the thousands of you who read this material, understanding the shadow which seems to ever hang over the head of Paul Shockley, that this knowledge and awareness will discourage the Beast from threatening or destroying this gentle entity.

Should anything happen to him or to any of us here at C.A.C. who have published this information, we fervently hope that all you members of C.A.C. will take that line from the movie, "Network" and thunder it out across this nation so that the Beast and everyone else can hear:

"We are mad as hell, and we are not going to take it any longer!"

Yours in awareness, from the Staff of C.A.C.
