Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the *Force* that expressed *Itself* through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 *Cosmic Awareness* has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the *New Age* and those who shall inherit the *New Age*. Throughout the many thousands of 'Readings' given through these channels, *Cosmic Awareness* repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. *Cosmic Awareness* will only indicate and suggest. Members of *Cosmic Awareness Communications* are invited to send in questions (on anything of general interest) for possible publication in this Newsletter.

Paul Shockley  
Trance-Interpreter

## THE ROLLING STONES

VOYAGERS OF THE NEW AGE  
Burning Off the Energies of Lucifer

### QUESTION:

A question from S.V. of Grimes, Iowa. 'Because of what Awareness had to say about the Beatles, I believe it would be interesting for another perspective if we might receive some information concerning the Rolling Stones rock group, because they are believed by many people to be as influential as the Beatles. Considering some of the attitudes and events that have surrounded them, the fact they are still writing material, performing and influencing people, it might be enlightening to know more about their place in the Cosmic scheme. Would Awareness please give us some information on these people?'

### COSMIC AWARENESS:

This Awareness indicates these entities as being brought together several times previously. This Awareness indicates these entities as having been priests in a Catholic monastery--this in an area north of Rome near that which is Switzerland--in that vicinity, this in the 16th Century.

This Awareness indicates these entities also as having been together in...(this as a traveling caravan of traders of rugs, pottery, gems, stones and herbs)--this in the area of Iran, Pakistan and Northern India...this appearing to be in the 17th Century.

This Awareness indicates these entities, in traveling, began to play instruments together for their own personal enjoyment, and this as being a time wherein they performed certain harmonious qualities in their communications with one another.

This Awareness indicates that prior to this, these entities served in a temple... this as a temple in Egypt whereby there was chanting and song. This Awareness suggests this appears to be related unto the Temple of Beauty, as described in the Cayce material. This Awareness indicates that these entities did have other lifetimes where they came in contact with one another, but these lifetimes mentioned as being the ones wherein they formed in groups that related unto musical expression.

This Awareness indicates these entities as being what may be classed as voyagers or wanderers--that they chose to come into the earth plane in order to assist in lifting the consciousness of this planet. This Awareness indicates that there have been certain lifetimes wherein they forgot their purpose, but the general movement as that which has been of an uplifting nature by their presence in this plane.

#### A WORD ABOUT LUCIFER THE SON OF GOD WHO WENT ASTRAY

#### QUESTION:

Is there any significance in the fact that through their music they seem to identify with the dark side, Lucifer etc?

#### COSMIC AWARENESS:

This Awareness indicates that these entities as doing this, in part, to bring about a depolarizing of the great hostility directed toward Lucifer. This Awareness wishes you to remember that Lucifer was also symbolically presented as the other son of God who went astray.

This Awareness indicates that the entity Michael or the entity Jesus, did not hold animosity toward Lucifer. This Awareness indicates that these entities, though wary of Lucifer, did not have hostility toward this entity. This Awareness wishes you to understand that when you discuss Lucifer, we are discussing a mythical character, symbolic of the rational mind--that in fact, the energies of Lucifer represented that force which the being carried with him.

This Awareness wishes to qualify that term 'mythical' previously stated. This Awareness indicates the entity Lucifer as having been chosen and more or less coerced into moving out and leading those who wished to have individual expression into that realm which was incomplete. This realm being that which has been called Hades.\*

This Awareness indicates that the entity Lucifer in having done what was demanded of him, has now returned to Essence. This Awareness wishes entities to understand that this entity Lucifer as having returned to Essence. This Awareness indicates that the only Lucifer that still remains is that which is the rational mind, which is the structural pattern of consciousness, wherein entities feel that they have to think in terms of *rationed consciousness*, as opposed to holistic or holy consciousness. This Awareness indicates that entities who wish to sing of the Dark Forces in their musical expression do not necessarily promote the Dark Forces. This Awareness indicates that they simply present one aspect of consciousness which needs to be looked at. This Awareness indicates that there are many ways that entities can express themselves, and many of these ways can be seen as offensive to those who do not like that expression.

This Awareness indicates there is only *one area* which this Awareness considers inappropriate to the needs of humanity--that area being any action which sustains, promotes, or results in sorrow, suffering and tragedy. And the actions which are appropriate in terms of the need of humanity are those actions which lessen the sorrow, suffering and tragedy of the world.

This Awareness indicates if an entity wishes to attend a party, a masquerade ball, wearing the attire of Satan, wearing a Luciferian costume—this, if it does not create sorrow, suffering or tragedy, is a matter of individual taste. This Awareness indicates if an entity wishes to wear this kind of costume while singing on stage, this is a matter of individual taste. The only sorrow, suffering and tragedy which will be resulting from this, is wherein the entity should promote, or in any other way, create an action which results in sorrow, suffering and tragedy, for others or for oneself.

This Awareness indicates that there are certain forces that emanate from such presentations which can create sorrow, suffering and tragedies when entities use these images carelessly. This Awareness suggests that these entities using these images need to be very cautious in order to avoid creating karma for themselves and harming others in their presentations through suggestions or images given to others.

\*\*\*\*\*

\* ED's Note:

For more information on the realm of Hades, please refer to 'Revelations of Awareness' No. 78-19 (The Immortal Realm of Hades).

For information on the Beatles, please refer to

Revelations of Awareness No. 78-10.

For the reading by Awareness to rock musicians, please refer to the booklet, 'Cosmic Awareness Speaks'.

### IF THE 'RAPTURE' OCCURS WILL SPACE SHIPS SAVE THE FAITHFUL?

QUESTION:

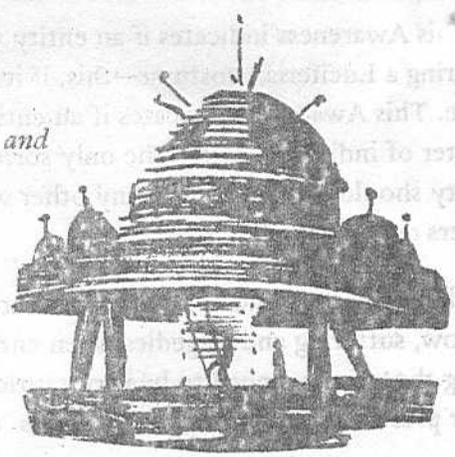

L.H. has a question: "Relative to the entity Jesus and the entity Jehovah: there is likelihood these entities may be fully responsible for recollecting those flocks that have resulted from their first cause creative efforts. Thus the rapture of Jehovah and the rapture of the Christ is a necessity. This being true because each were, and are, responsible for those creations that they set in motion, together with all offspring of such creations, until all entities involved experience their full maturity in consciousness. Some commentary by Awareness might prove helpful along these lines.

### COSMIC AWARENESS:

This Awareness indicates that there are many levels in regard to the interpretation of this information. That, essentially, there is the mystical rapture which occurs within the individual when the 'Second Coming'—the Christ Light—returns to the individual as a new birth, a Second Coming of the Christ Consciousness.

This Awareness indicates that there is also that *ever so energized* concept of space ships coming down to pick up those lucky ones who got to escape from holocausts which were left upon this earth to torment the ragged souls of the remainders.

This concept, which has been energized and energized and energized and energized....and energized....and energized....energized and energized.... energized and energized....energized and energized....energized and energized over and over, over and over....over and over....around and around....lifetime after lifetime....generation after generation. This concept which is continually energized by entities who claim to be aware....who claim to be spiritual....who see themselves having a first rate ticket on the first spaceship ready to leave this planet, just before the disaster strikes.

This Awareness indicates these entities who continue energizing this concept are assisting in the continued destruction of this Earth; and there are very few who are energizing any other interpretation of the *Book of Revelations*. This Awareness wishes that entities begin to re-interpret the *Book of Revelations* in a manner that allows others also, allows all entities that possibility, that inherent right to have it revealed unto them, to experience the revelation of *Who, In Fact, They Really Are*, and in that revelation to make for themselves a place in the Kingdom upon this Earth, within their being—for that which is the heaven within.

This Awareness is oppressed by the continued predictions of catastrophe and doom and the continued desire of entities to be the first on the spaceship that takes them away from that disaster which they gleefully expect to strike others.

This Awareness indicates there is a certain kind of spiritual snobbery in the hope of being saved by this kind of rapture. This also is an expression of fear, which is not conducive to assisting in the work which needs to be done upon this plane.

This Awareness indicates that entities seeking to save themselves without concern for others upon this plane are not likely to be those who are given first class seats if there is an evacuation of the planet.

#### ARE 'CHRISTIANS' PREPARING A BILL TO EXTERMINATE GAY PEOPLE?

#### QUESTION:

A question sent in by R.B. of the Psychic Research Investigation, Denver, Colo. "A coalition of Christians and Jesus religious people are working on a Bill to force the Federal Government to pass a special 'No Gay Rights Bill' and establish extermination camps for all gay, homosexual people, adults and gay children too, in the names of the Jews and Christ's Gods. They say if allowed to exterminate all gays, children and adults, in the name of Christ and God there will never again be any gay people on earth. They also hope to pass a law that no one can have any sex outside of wedlock and then only for the purpose of having babies, and that they must get a special OK from church and state or be put to death. Would Awareness please comment?"

## COSMIC AWARENESS:

This Awareness indicates these entities who condone murder and mayhem in the name of Jesus, in the name of Christ, as being an *abomination* to the teachings of the entity Jesus the Christ.

## WHAT TO DO ABOUT 'TENNIS ELBOW'

### QUESTION:

A question from N.K. of Calgary, Alberta. "I am having problems with a 'tennis elbow' and would like to know if there's any information in the readings or is there anything that we know of that can solve this problem?"

### COSMIC AWARENESS:

This Awareness indicates that large amounts of ascorbic acid (Vitamin C) along with nucleic acid, apple cider vinegar, Vitamin E, pantothenic acid and the use of Comfrey tea can be of great benefit.

This Awareness suggests also that you contact the entity, Mary Farrell, for herbal treatment; that this entity may assist you by recommending certain herbs or combinations of herbs.

## DOES THE ARTIST 'TEACH THE IGNORANT' OR IS ART SELF-INDULGENT EXPRESSION?

### QUESTION:

G.M. an artist from New Haven, Connecticut, would like to ask Awareness: 'Does making art count for Grace in "How many have you served, and how well?" Is it teaching the ignorant or is it self-indulgent expression?'

### COSMIC AWARENESS:

This Awareness indicates that any form of beautification which can be shared with others is an action of serving.

This Awareness indicates that you observe carefully whether others appreciate the art, whether others are moved by the art, and whether others can receive certain energies which you wish to convey that are beneficial to them.

This Awareness suggests that many artists promote certain art for service, giving to others—but in giving their art, tend to extract more from the receiver than they give. This Awareness indicates this in particular wherein an artist presents a piece of art and insists that the receiver express great appreciation, or attempts to extract energies for the artist's ego; or in some manner promotes the art in a way that more or less forces the receiver to act appreciative, when in fact, the receiver does not fully appreciate the art.

This Awareness suggests that artists can do best by simply presenting their art; and that if they fear a public does not recognize the full value of the art, then the artist may place a price upon the presentation which will be used to assist the public in determining the value.

This Awareness indicates, for example, a higher price placed upon a piece of art than a member of the public would expect, will cause that person to look twice as deeply at the art to see why it is so expensive. In this manner, the person may begin to see things in the painting which he or she would otherwise have missed. This Awareness indicates that often, however, artists put extremely high prices upon painting which they, in fact, have put little energy into, and do not actually merit those high prices.

This Awareness suggests that all art is basically of a subjective, expressive nature, and the value can be regulated according to energies put into the art as well as what a person desires others to value that piece of art.

This Awareness suggests that there are other forms of art which may be termed *objective art*, whereby the artist does not put himself or herself expression into the object of art, but rather conveys—very carefully and objectively—messages, symbols, or purposes which are universal in scope and have great effect upon the viewer.

This Awareness indicates the entity P.D. Ouspensky spoke of this in his works, in particular mentioning the Taj Mahal, the Cathedral of Notre Dame and other works of art by various artists, whereby subjective moods and feelings were not expressed, but whereby with mathematical precision and objective proportions, great and lasting works of art were created.\*

This Awareness indicates this tends to have been somewhat lost in recent times, as the psychological mood expressionism has come into the fore.

#### QUESTION:

Awareness, would the question, *How many have you served, and how well?* apply to certain types of art that seem ugly and distasteful or psychotic?

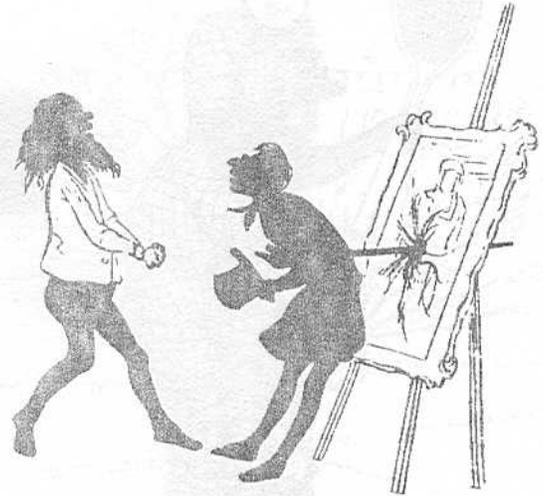

#### COSMIC AWARENESS:

This Awareness indicates that an action whereby an entity expresses oneself is not necessarily an action of art, nor of service. This Awareness indicates the entity who spits upon the street is not necessarily creating an artistic expression, though it may be a subjective elimination and expression.

This Awareness indicates that many artists are simply emptying their own psychic garbage upon the canvas and calling that 'art'. This Awareness indicates that this often is left for others to devour or deal with.

#### \*ED's Note:

Please refer to the book,  
*In Search of the Miraculous*, by P.D. Ouspensky.  
(Available in the C.A.C. Book Catalog)

## CAN ONE ENTITY FULFILL THE KARMIC DEBT OF ANOTHER?

### QUESTION:

A question from M. M. of Houston, Texas. 'Would you ask Awareness--Is it possible to fulfill a karmic debt for someone else? And in trying to help someone else, how far should one get involved with their life's problem? I realize the best solution is an on-the-spot response, but sometimes the best response is no response, and I feel it's easy to go too far or not far enough in helping.

### COSMIC AWARENESS:

This Awareness indicates that entities can assist others in eliminating karmic debts, but can also find themselves being dragged down by those and adding weight to the karmic debt.

This Awareness suggests that entities who wish to assist another cannot pick up the load for that other, but can work with the other to assist that entity in understanding how to pick up the load, in insisting that the other pick up the load, or in assisting to pick up certain actions long enough that the entity can get to his or her feet, get their strength back, so that they can deal with the karmic load and can begin to carry that load properly.

This Awareness indicates that an entity can also assist others to understand that perhaps they have taken on too much of a karmic load, or need to work this debt off gradually.

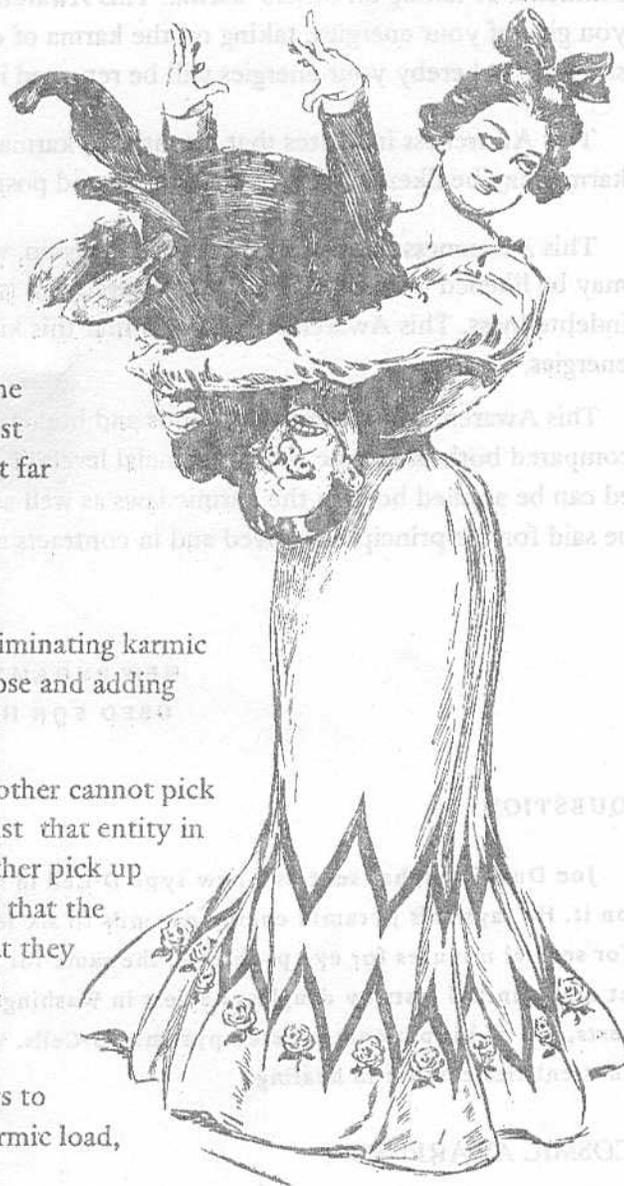

This Awareness indicates the best an entity can do for another is to assist the person to understand what is happening and how they have a responsibility in that.

This Awareness indicates that wherein entities agree to take on karma for others, and in fact have no karmic debt themselves, and in this agreement find themselves carrying some of the burden which is not their own, these entities have the right to ask for a reward for the energies being given.

This Awareness indicates that wherein you do not ask for such a reward, but continue the karmic burden of another, that this is of your own volition, rather than as an obligation.

This Awareness suggests that you may continue carrying the karmic loads for others out of love for those entities, or you may carry these loads out of concern for those entities, or you may request some form of compensation for your efforts.

This Awareness indicates also, that in carrying karmic loads for others, wherein you do not request compensation, but resent the efforts, you may discover your complaints and your resentment is the compensation which you have received. This Awareness indicates that this relates unto the *Law of Prosperity*, wherein you give energy but take your reward through complaints or through being allowed to express hostility or to feel resentment. This Awareness indicates those are two ways whereby entities can claim their rewards.

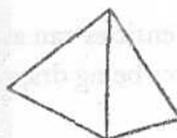

This Awareness suggests that you may also claim your reward by feeling egotistical or vain about your accomplishments of taking on others' karma. This Awareness indicates, however, that whereby your action is such that you give of your energies, taking on the karma of others because you love those entities, this is a different type of situation, whereby your energies will be returned in other ways through universal channels.

This Awareness indicates that essentially, karma can be understood using the analogy of finances: that negative karma may be likened unto indebtedness, and positive karma likened unto having something owed to you.

This Awareness indicates that the relationship, whereby the exchange is given on a moment-to-moment basis, may be likened unto instant karma--whereby all is settled quickly, and clear relationship exists without karmic indebtedness. This Awareness indicates that this kind of communication is that which allows for greater flow of energies.

This Awareness indicates that bonds and bondages, wherein energies are held or placed upon others, may also be compared both in karmic and in financial levels. This Awareness indicates that interest extended or owed or collected can be applied both in the karmic laws as well as in the laws of finance. This Awareness indicates the same may be said for the principle involved and in contracts and agreements.

NEW PYRAMID 'D' CELL  
USED FOR HEALING

**QUESTION:**

Joe Dun Sloan has sent us a new type D-Cell in a pyramid shape, and I would like to ask Awareness to comment on it. He says this pyramid energy extends to six feet from the apex. You hold it about six inches from each eye for several minutes for eye problems, the same for other problem areas, but for longer times. Placed under the bed at night, initial tests by drugless healers in Washington indicate great potential in many areas. Following first eye tests, ten of his patients ordered pyramid D-Cells. We would like to know if this pyramid D-Cell is a new method that entities can use in healing?

**COSMIC AWARENESS:**

This Awareness indicates this as in the affirmative. That this does convey both pyramid energy as well as the D-Cell energy. This Awareness suggests that this works most effectively when the pyramid has been dampened as by soaking in water. This Awareness indicates this also gives strong energies to water in a similar manner. This Awareness suggests that a Kirlian photograph of this energy in water be obtained for viewing this type of energy. \*

**QUESTION:**

He suggests pointing the apex of the pyramid at various parts of the body that are causing problems, and that this seems to alleviate the problem.

**COSMIC AWARENESS:**

This Awareness indicates this as in the affirmative, along with the mental commands or energies of the healer. That the energy of the D-Cell pyramid essentially assists to carry the message from the healer in terms of what area is to be healed and how the healing is to occur.

\* ED's Note: a Kirlian photograph in color showing the aura of the Cell can be obtained from:

All-Rays Pyramid Ltd.

P.O. Box 2447

Vancouver BC Canada V61B3W7 (Price: \$4.00)

CAC is now able to obtain this new Pyramid D-Cell which can also be used in 10 gallons of water or more. Price: \$15 each.

(Please add this information to your D-Cell Catalog)

## PAUL SOLOMON

(What Is His Source....How Valid Is His Channel?)

### QUESTION:

We have a question that keeps recurring, so I'll ask it at this point. This is a question from J.M. of Los Angeles. "The source that works through Paul Solomon of Virginia Beach seems to coincide with Awareness. The information coming through Paul when conscious or in an elevated state is of the highest quality and does not conflict with Awareness. Although I can discount Ross Peterson, the teachings and information coming through Paul Solomon are the highest I have ever heard. What, or Who is the Solomon source?"

### COSMIC AWARENESS:

This Awareness indicates that this entity as tuning in to levels of this Awareness through another entity as working as a filter. This being on an etheric level. This Awareness indicates this entity on that etheric level being capable of channeling energies from the Akashic plane, from levels which this Awareness has described as 'Celestria.'

This Awareness indicates that the entity, Paul Solomon, as channeling from this filter, this Celestial entity; that the information as basically clear, and that there is very little personality involved in the channeling. That in many ways this entity's channel is clarified by this through the interpretation --clarified by this Celestial entity. This Awareness indicates that the entity as occasionally being given direct communication with this Awareness, and also occasionally other high-level entities speak through this channel.

This Awareness indicates that primarily, the channel is opened to this Celestial entity. This Awareness indicates that the entity's name may be disclosed through his own channel.

\*\*\*\*\*

### FD's Note:

Paul Solomon is founder of the *Fellowship of the Inner Light*, P.O. Box 206, Virginia Beach, Virginia, 23458. Readers wishing information on his organization are invited to write to this address. His book: *The Paul Solomon Tapes* is available from his organization, as well as from C.A.C. (Price: \$5.95).

## ALL ABOUT A WISE BIRD (And Intelligence in Other Animals)

### QUESTION:

A question from K.K. of Ojai, Calif. "I had a parakeet named Pixie, who evolved far beyond the imitative use of language and seemed brighter than many children. He also seemed to have the ability to 'tap Universal Mind' or the collective psyche, as he knew many things from within without being taught them. For example, he called migratory birds 'Touristas'. I do not speak Spanish. Some experts on whales and dolphins seem to feel linguistic ability is dependent on brain size; yet quite a few parakeets use language, perhaps not like Pixie above, but better than their small brain would suggest. Would you comment on the possibility of using parakeets to learn more about animals? Also, was there something unique about the bird mentioned above, or could other parakeets attain this level of competence in speech, given appropriate training?"

## COSMIC AWARENESS:

This Awareness indicates that much of the speech capacity for such animals has to do with the nerve network relating unto the tongue of such animals. This Awareness indicates that essentially there are other animals who have similar intelligence, but they are unable to express themselves with speech. This Awareness indicates these other animals often express themselves through mental communication known as extra-sensory-perception. This Awareness indicates this particularly so with cattle, wherein cattle are capable of tuning in to the thoughts of each other and to important events which occur to them or in their area. This Awareness indicates that this is also evident in dogs and cats.

This Awareness suggests that just because an animal is incapable of speech, does not mean it is not intelligent—that often it creates a different form of communication.

This Awareness suggests there are also space entities, entities on other planets or in other planes, who do not even have a mouth, because they do not need a mouth. This Awareness indicates that such animals are not stupid because they are unable to speak or communicate with those who use the mouth for communication. This Awareness indicates these entities communicate psychically.

This Awareness suggests that the parakeet as having the nerve network which allows the tongue greater freedom of flexibility and vocal chords greater capability of squawking or flexibility to form sounds. This Awareness indicates the parakeet also as having a capacity in the brain that has been trained over many thousands of years to imitate, to pick up and reflect sounds—just as some animals can reflect colors of the environment around them. This Awareness indicates that other animals can reflect feelings which are occurring around them. This Awareness suggests that in a sense, all animals are channels for energies which are occurring in or around their area, or within their levels of identification; that this particularly in terms of loved ones, whether of their own species or of another species. This Awareness suggests that this parakeet as having enough intelligence to tune in to many levels of consciousness from others around. This Awareness suggests also that this parakeet as having picked up certain previous training from others besides yourself—that there is a kind of spontaneity in expression which the entity within the bird's body channels.

This Awareness indicates that there are entities capable of speaking, of using animals, birds or other creatures to channel through.

### C.A.C.'S HOUND IS GETTING A SWELLED HEAD

QUESTION: (From Vikki T.)

(He'd Rather Be Human...But It's a Dog's Life)

I would like to ask Awareness if the information just given would pertain to the phenomenon that is occurring with our German shepherd, Siegfried, that over the past six months his skull is undergoing a very dramatic change. It is coming upwards almost into a point that we've never seen before in any other kind of dog, and the entity Ananda Lee, (formerly Annie Miller), tuned into him and said that he is trying to become human and trying to learn to talk, and this is changing his skull structure. I'd like to ask Awareness to comment on this.

## COSMIC AWARENESS:

This Awareness indicates this relates unto information given in Percival's *Thinking and Destiny*, wherein certain aspects of human consciousness passes on to animals, plants and birds, and even insects after the entity has passed over. This Awareness indicates that the emotions move toward that which is the vegetation level; the feelings move

toward that which is the animal level....this as concepts and ideas, move and gravitate toward that which is of the mineral level. This Awareness indicates that the clear consciousness moves toward the Clear Light, this particularly in terms of entities who pass over and desire to move on to that Clear Light and shed these robes of mind, emotion and feeling. This Awareness indicates that wherein entities then move on and seek to return to rebirth, that these energies which have gone out are often called back to the entity; and the concepts, the feelings and the emotions are often withdrawn from the plants, animals and minerals to return to the individual in his or her new incarnation.

This Awareness indicates this relates unto the images seen in rocks, sand, clouds and other formations, whereby faces or other shapes can sometimes be seen. That these concepts and images moving into mineral levels can have effects upon the shapes of these. This Awareness indicates in terms of clouds, that these images often can shape the clouds according to their own features.

**QUESTION:**

Has a portion of the energy from somebody that we have known and who has since died, been that which has effected Siegfried's change?

**COSMIC AWARENESS:**

This Awareness indicates this in the affirmative; that this as being a relative of your own who died relatively recently. This appears to be an older entity. This Awareness indicates this as an uncle. This Awareness indicates the entity seeking to inform you of this—that this appears to be the reason for the desire to speak.

ED's Note: The uncle who raised Vikki T. (and did not speak too often to her) had died about a year before at the age of 87.

**QUESTION:**

Annie said as a result of this skull change and various changes, that the dog's involvement was also being speeded up considerably. Is this true, and is this whole thing a positive process?

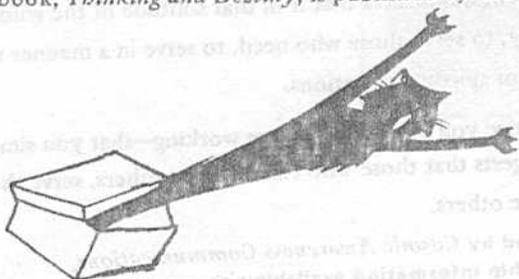

**COSMIC AWARENESS:**

This as in the affirmative. This Awareness indicates that this dog's vehicle as being such that the energies within the entity, if carried through in terms of evolution, will assist in changing the intelligence level of his offspring somewhat. This Awareness indicates that the dog itself is not evolving, but the spirit of the entity within the dog as that which is effecting changes in the dog. That in this sense, the normal intelligence of the dog is being taken over by the spirit within the dog and is being progressed at high rates of evolution. This having an effect on the physical genes, the RNA, DNA of the dog.

.....

ED's Note: although Siegfried has recently acquired some human characteristics (he will stand on his hind legs and sort of sing-talk to us) his main preoccupation is with cats and lying beneath Vikki's desk, flat on his back, all four feet stiff in the air, his head thrown back, tongue out, snoozing away).

\*\* The book, *Thinking and Destiny*, is published by the Word Publishing Co., New York, and is available in the CAC book catalog.

QUESTION: S.V. has a question: "Currently, there are many people expressing a desire to be closer to the Divine, or Spiritual realms, and thus they are moving to wilderness areas to live, believing they are then closer to 'nature' and thus they would be closer to 'God'. My question is this: Does the viewpoint expressed have any validity, truth for the rest of humanity, such that when one lives and works and struggles for survival one is actually closer to the Divine? Are they correct, or is it possible to be concerned with, and involved in, the material man-made culture, having little or no contact with nature, and still be close to the Divine or Spiritual and doing 'God's work'? Is it possible they are anticipating a coming change in the way life will be in the future? Related to this is the issue of conservation of resources and the attempting to recycle what seems to be such minute quantities of materials. In other words, does it really make any difference from a Cosmic viewpoint where I thought there is no good, bad, or value judgments, if people try to recycle and conserve, or is this ultimately and in finality an irrelevant issue?"

### COSMIC AWARENESS:

This Awareness indicates that from a Cosmic point of view, *everything* in the universe is living, and everything in the universe is undergoing change. There are particles of the universe which are being devoured by other particles. This Awareness indicates from this higher viewpoint, there is nothing that matters in relation to this. This Awareness indicates however, that in looking more closely at the nature of these particles, there are those who have feelings, those who have concerns, those who have identities—and these entities do not necessarily enjoy being eaten by other forces.

This Awareness suggests that the purpose of these messages is not to condemn or to point out what is right or wrong, but to lessen the suffering, sorrow and tragedy. This Awareness does not hope to eliminate all suffering, sorrow, and tragedy immediately, but does seek to *lessen* the suffering, sorrow and tragedy.

This Awareness indicates that wherein an entity, through conservation and through concern and dedication, can move into an action that lessens the sorrow, suffering and tragedy—this is that which is appropriate; not as a benefit for this Awareness, but as a benefit for those entities who live and express themselves in various forms.

This Awareness indicates there is a misconception in many entities' minds that there is somewhere in the universe an authority who stands watching and wishes to be obeyed and wishes to be pleased. This Awareness indicates there are many such authorities in the universe, seeking that kind of obedience and control over others. This Awareness indicates however, these entities in that action are not expressing that which is true divinity. These entities as expressing personality and personal desires.

This Awareness indicates that wherein entities wish to tune into that which is spiritual, in the highest sense, they will not be concerned with pleasing authority. They will only be concerned with lessening the sorrow, suffering and tragedy of all involved.

This Awareness indicates that entities who feel that they can serve to lessen the sorrow, suffering and tragedy by working in society, by working in the midst of the civilization, with all its turmoil and conflict—these entities in their work serving others are indeed working in high levels of spiritual consciousness.

This Awareness indicates those entities who feel that they can only serve others in lessening the sorrow, suffering and tragedy by escaping into the woods, into the hills and mountains—lessening their own sorrow and suffering, and forgetting the rest of society—these entities also are living in spiritual levels to the best of their ability. This Awareness indicates that if in that solitude of the wilderness they begin to grow in strength, and wish to return and assist in the needs of society, to serve those who need, to serve in a manner that brings about necessary changes—then these entities are working in still higher levels of spiritual vibrations.

This Awareness suggests you not judge yourself or others, nor let others judge you by where you are working—that you simply serve where you can to the best of your ability at the moment. This Awareness suggests that those who cannot serve others, serve themselves as well as they can, until they are fulfilled to that point whereby they can serve others.
