COSMIC AWARENESS: (Excerpt from the Opening Message)

This Awareness indicates that the December tape of Dr. Beter relating unto the death of Pope John II and his replacement by an actor, and the leukemia being suffered by President Carter: This Awareness indicates that this tape as being of such an unusual and extreme nature that many entities will wonder at it and will be somewhat shaken.

This Awareness suggests that it is not intended to assist entities in falling asleep or becoming comfortable before their television sets. This Awareness indicates this entity is attempting to awaken the masses and therefore delivers information which does have shocking effect. This Awareness suggests that entities who are afraid of information which might affect their future, and who would rather sleep through the potential problems which might arise in their lifetime, would be better off to continue reading the information from the controlled press, the comic section and the various comic books on the market.

QUESTION:

Several CAC members have sent us some recent tapes put out by Dr. Peter Beter. His recent tape contains information that President Carter has been injected by certain entities with cancer-causing substances. According to Dr. Beter, the President now has two types of cancer in his body and that the recent newstories on his hemorrhoid problem was a cover-up--that he was really at the hospital getting cobalt treatments. Dr. Beter insists there is a vast conspiracy happening in high levels of government and the President is one of the pawns in this game. Would Awareness please varify if Dr. Beter's information on this has any basis in fact; and, if so, please elaborate on what is going on.

COSMIC AWARENESS:

This Awareness indicates this as being tragically so. This Awareness suggests that as has just been indicated, the Beter tapes as being approximately 85% accurate and that the Interpreter for this Awareness as also being approximately 85% accurate, therefore the acknowledgement of this information through this Interpreter by this Awareness indicates that the probability of this answer being accurate as that which is approximately 85%. This Awareness suggests that entities wishing to learn more of this to order the Beter tapes and to listen to these in group sessions to inform friends and neighbors.....

ED'S NOTE: the full context of this reading will be forthcoming in future *Revelations of Awareness* newsletters. On Jan. 22, we wrote to Dr. Beter asking for an address we could print where the CAC membership might subscribe to his taped newsletters. Dr. Beter replied:

"Friends! Carter is getting worse. Listen to Audio Letter No. 42 recorded 1-31-79. He is getting cobalt treatments every other day, but nothing is being done about the tumor inside his left temple which is growing. Please write to Ft. Worth for special rates for ALL the tapes. Blessings...Peter Beter, 2-1-79."

Write: The Dr. Beter AUDIO LETTER, P.O. Box 16428, Ft. Worth, Texas 76133 for full information on tapes available.
