COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age and those who shall inherit the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of Cosmic Awareness Communications are invited to send in questions of general interest for possible publication in this Newsletter.

HUMANITY AT THE BRINK.....

A MISSION TO MOSCOW

AN ATTEMPT TO DE-FUSE THE BOMBS

BY MINISTERS AND PRIESTS

FROM THE UNITED STATES

Paul Shockley
Trance-Interpreter

QUESTION: (From C.A.C. General Reading No. 4, April 12, 1979)

Awareness, we're here for a general CAC questioning. Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness suggests that the entity Vicki T. ask the questions on her lips.

QUESTION:

Dr. Beter has suggested that church leaders should go to Russia, to let them know that the entire American fabric is not rotted. Would Awareness comment on whether it would be advisable if we became involved in this, and comment on the venture?

COSMIC AWARENESS:

This Awareness indicates that the idea of ministers of the United States going to the Russian government to discuss the world situation, to assist in building a dialogue which would be intended to lead to a kind of mutual understanding for future trust and agreement and relationship between these two nations, is that which is following the suggestions which this Awareness has given in many previous readings relating to conflicts which can be resolved through dialogue, through communication, through discussion, rather than through violence. This Awareness indicates that this action as that which will force the controlled press to mention the journey, to discuss the purpose of the visit, and to notice who is going on this trip to Russia. That whereby these several hundred ministers from various churches move to the Russian Kremlin, and are welcomed by the government, and discussions can take place, this can have a profound effect—not only on the masses who become aware of this through the news media, but also on the members of the churches who are represented by the ministers who visit the Russian government.

This Awareness indicates this also can have a great effect upon the United States government, the Senators, and those who are put on the spot to listen to that which has occurred in the dialogue with the Russian government and the American ministers and priests. This Awareness indicates that the purpose of this visit being to inform the ministers of the nature of the Russian leaders and their view of the world situation. Also to inform these entities that the American society does desire peace and harmony. Also to create an atmosphere and a situation which must be observed by the United States government, which then will be a cause for further dialogue by these ministers when returning to the American government and requesting a dialogue. This Awareness indicates this as essentially likened unto the action of using ministers and priests as mediators between the governments of Russia and the United States, to assist in creating a communication and a dialogue to avoid the intensifying conflict and dangers of war.

atmosphere for such promotion.

This Awareness indicates that this as being a very positive move on the part of Dr. Beter and the ministers involved, and will have a profound effect, if this is carried through as planned. This Awareness indicates the energies on this are great and build and the probability of this occurring is quite high.

QUESTION:

Would Awareness suggest which, if any, of the Awareness people would be particularly good to include to go?

COSMIC AWARENESS:

This Awareness suggests that yourself...your faithful companion...the Interpreter...the entities Bob Beard, Mary Farrell, and the Interpreter's wife—that others of the tier, also may consider. This Awareness suggests the entity Tom McQuay, Mary Sipka Alan Michael, and-or-Joseph Anterec. This Awareness indicates that Sonny Cole, Anthony Warren, Alexander Thompson, the entity Jack Katchmar, Julie Sullivan, Sammy Sun-Song. This Awareness indicates the entity Gabriel Green—that all of these entities could be of great assistance—that the time and expense may be the limiting factor in regards to their going. This Awareness suggests however, that in particular the first six entities named be the strongly considered. This Awareness indicates that great benefit would also occur if the entity Thomas McQuay, as representing the Capstone for the *Unified States of Awareness*, could also make this journey.

This Awareness suggests that all who could make the journey should contact Dr. Beter within the next two weeks, preferably within the next week. This Awareness suggests that these entities in making this contact, in using the name of the *Aquarian Church*, or their own organizational name, to indicate the area where they are from. This Awareness indicates that wherein entities are representing or being represented by the *Aquarian Church*, but are in other areas, such as Sonny Cole—that this be noted—that the entity is representing the *Aquarian Church* in New York. This to make it clear that the *Aquarian Church* is not simply sending a number of ministers from one particular area—that there are other churches in various areas being represented by the ministers.

THE IMPORTANCE OF C.A.C. MEMBERS GETTING TOGETHER IN THEIR AREA

QUESTION:

Beacons of light—turning on consciousness to new levels....

We've received quite a few letters from entities around the country who have little CAC and Aquarian Church group meetings. The most recent one was from Sonny Cole who requested a list of our membership in his area, and 160 names were given. He sent out 160 invitations to these entities with very short notice to meet in New York on April 1st. He was wondering if we would ask Awareness about the significance of this type of meeting and whether it's important that the membership start getting together and doing these meditations and discussing these problems and considering trade center action, and so forth. His particular meeting, he said, occurred in...I'll read a little of his note. He said: "There were a few people who had farms to share. I will be looking into this in the near future, possibly around April 7th. The main area of concern seemed to be in survival foods and access to farm land. We did the transmuting meditation as a group. There we were in the heart of Babylon, near Broadway and Times Square in Manhattan—the heart of the Beast—sending out this white light of meditation—a perfect start for a perfect meditation. More will follow." The main question is, does Awareness have some suggestions or comments on these entities who are getting together and the significance of it?

COSMIC AWARENESS:

This Awareness indicates that entities in working together in this manner can be of great assistance to one another, and can add ideas and support and energy and information on projects and the acquisition of supplies, properties, and other services and things which may be of great benefit in times of crisis, or even in times of peace. This Awareness suggests that these entities must be cautious of a tendency to become dependent on the group for everything. That each entity must be encouraged to prepare for oneself and one's family, but to also work with the group.

This Awareness suggests this as an independence along with a group interrelationship. This Awareness indicates that wherein more groups of this nature can join together in various parts of the United States, or Canada, or in other countries, that this can be of great benefit—that it is time for such gatherings to occur.

Group Protection Under the Aquarian Church Charter

This Awareness suggests that the Interpreter is presently putting together a packet for charters. These charters for the *Aquarian Church* will allow the various groups independent incorporations, with the tax-exemption flowing from the mother church, and a kind of component part whereby the charter is granted with packets for schools, Feast Centers, Development Classes, Goodship shops, restaurant information, other forms of shops and activities, agricultural projects, and so forth, which can be added to that charter as the energies and information is available. This Awareness suggests that these charters begin forming the membership in their area with one charter per ZIP code. This Awareness suggests that this can be of great benefit in not only serving the members of an area, but also in serving the area to give information, to give service, and to assist in the trade of favors, goods, supplies and properties.

This Awareness indicates that this also in terms of training of individuals in the Development Classes and other research and information activities. This Awareness indicates that more will be given on this. That entities may now begin forming groups by gathering names and interests of the individuals, so that these groups may be granted a charter. This Awareness indicates that at individuals wishing a charter from the church, select among themselves who is to be the officers of that church. That this can be the core of the activity, and then these may be added to by further membership at a later time.

who have already sent in the USES FEAST CENTER will receive the charter, along with the FEAST center information. This Awareness indicates those who wish to simply have groups, study groups and gatherings—may also do so, without the charter, and may gradually develop their own group; and may, if they choose, receive a charter at a later time.

This Awareness suggests however, that the action of forming groups at this time is that which is appropriate, but this Awareness suggests that you also keep in mind the need to be semi-independent, and virtually independent if it becomes necessary. This Awareness suggests this as likened unto an action whereby entities may come together when it suits the purposes and serves each one of that group to work with others; but whereby entities may also split apart and function individually without group contact, if that serves the purposes and becomes necessary.

This Awareness indicates the Interpreter as having the charters incorporated separately, so that if anything occurs to the headquarters church, the other charters will still be able to function, and continue the action. This Awareness indicates complete information on this is made available in the charter packet. This Awareness indicates that in regard to the value of such group gatherings, that these are likened unto lights being created to turn on consciousness to new levels of reality—that the impetus of the Awareness movement shall find its roots in these charter churches and group gatherings. That nothing which has occurred up to now shall equal what will occur as these groups begin to form in various areas.

REIGN OF TERROR

TO BEGIN SOON
IN U.S.

CHINESE TERRORISTS BEING IMPORTED INTO U.S.....
CERTAIN VIETNAM VETERANS GROUPS...PRISONERS...
NOW BEING TRAINED TO CREATE TERROR AND CHAOS
AS EXCUSE TO CALL IN 'NATIONAL EMERGENCY' POWERS.

Question:

A question from K.R. of Los Angeles. She writes: "Last night I received a phone call telling me that Dr. Bernie, of Glendale, California, was giving a documented report on TV that the Chinese are placing 20,000 spies in this country as a disruptive, revolutionary action. Could Awareness comment on this?"

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative. This Awareness indicates this as part of that which this Awareness has previously warned about, in terms of the efforts to create revolution within this country, in order to have excuse for clamping down on freedoms.

This Awareness indicates that essentially this will accompany the international crisis which is being planned in the Middle East, which will help to excuse the use of National Emergency Powers to suspend various Constitutionally given freedoms.

This Awareness indicates that there may be more Chinese brought in in this manner. This Awareness suggests that this be watched very closely, that there are also plans to use some well-trained veterans from Vietnam for similar purposes, and also plans for using prisoners who will be released to create disturbances within society when the time is ready for the creation of the revolution atmosphere in order to bring in the restrictions.

This Awareness indicates this as planned to begin intensifying during the month of May and throughout the summer.

* For more information on this and what is planned when the national 'Emergency' powers are enacted, Please refer to 'Revelations of Awareness' No. 79-1 (The Gathering Storm) Price: \$4.00, available from C.A.C.

CHAOS AT THREE MILE ISLAND NUCLEAR PLANT NO ACCIDENT, BUT SABOTAGE BY STATE SOCIALISTS WHO PLAN TAKE-OVER OF ENTIRE UNITED STATES.

RECENT GAS SPILL IN FLORIDA THE BEGINNING OF MANY
SUCH DISRUPTIVE SABOTAGE OPERATIONS IN UNITED STATES

(Cosmic Awareness Describes this State Socialist Plot)

Question:

A question from W.K., Dobbs Ferry, N.Y. 'I'd like to submit the following question to Cosmic Awareness on behalf of the membership: Was the recent accident at the nuclear power plant on Three Mile Island in Pennsylvania rigged by an agent of the Beast for any reason? If so, why? In any case could we be advised as to the best public educational strategy which workers in the light could employ in channeling public concern about this event into useful avenues of investigation and action?'

COSMIC AWARENESS:

This Awareness indicates that this is in the affirmative. This Awareness refers entities to the statement of Dr. Beter in reference to the corporate socialists, which were exemplified by the Rockefeller brothers, and the State socialists which were exemplified by the Bolsheviks of Russia, which are essentially represented by the Rothschilds, who dangled the strings on both corporate socialists and State socialists.

This Awareness indicates that essentially the corporate socialists formed that which has been termed 'Capitalism', whereby the corporations controlled the society and acted as an invisible government in this United States—controlling the elections, controlling the Congresspersons, Representatives and public officials, news media, and agencies as well as most unions and associations of any magnitude.

This Awareness indicates that these corporate socialists held control over the atomic energy plants, through the Nuclear Regulating Commission. This Awareness indicates that these corporate socialists also held control over the security agencies, such as the CIA, FBI, and National Security Agency, and others. This Awareness indicates that as these corporate socialists have been dealt a heavy blow, as indicated in the Dr. Beter tapes numbers 43 and 44*, there is also an action occurring whereby the State socialists are moving in to create a take-over of all private and corporate property, as occurred in Russia in 1917 with the Bolshevik take-over of Russia.

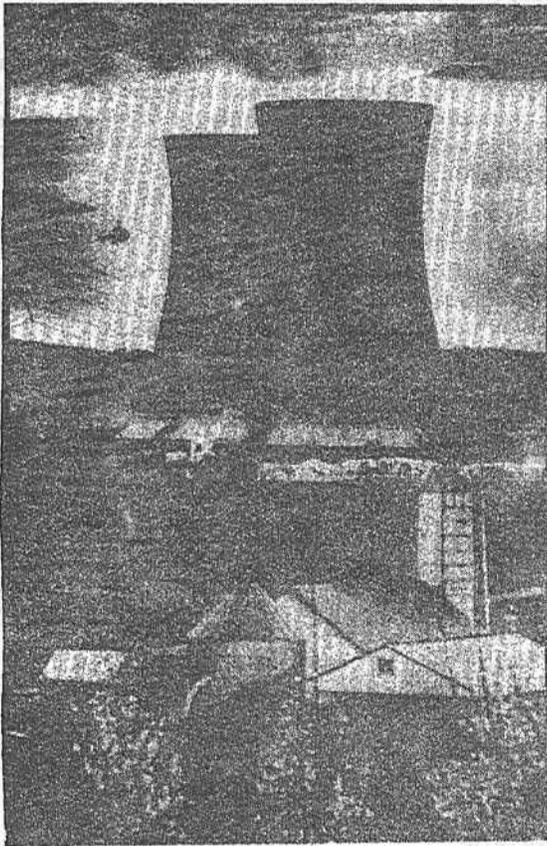

This Awareness indicates that this is being directed out of London, by the powers working under Rothschild. This Awareness suggests that the State socialists, and the policy of London, centers around the concept of breaking up large corporations into smaller corporations—of breaking up centralized government into smaller regions—of breaking down the technology of scientific and educational areas, and of breaking down cultural and ethnic groups into isolated tribes—of breaking down cohesion between churches and people into separate groups, cults, and small communes or small organizations. The purpose of this being to have greater control over the parts, whereby the State itself, under direction of the British powers, can regulate the parts, keeping them small and weak, unable to form a competitive or large body to deal with the British controls.

This Awareness suggests that the concept of Ecotopia, whereby the Western part of the United States secede from the Eastern part, which has been promoted by a popular book—this as also part of that plan of the British to break cultures apart. This Awareness suggests that the regional governments as also eventually intended by these British agents to be used to form small States, or Soviets—regions which can be controlled within certain limitations. This Awareness indicates these entities are also encouraging small communes—isolated and un-organized—away from any large organizational structure.

This Awareness suggests that the present plan calls for the breakdown of technology, beginning with that which is most controversial, namely the nuclear energy. This Awareness suggests that this in fact is being a blessing for humanity, for the dangers of nuclear energy are much greater than any benefits which could come from this. However the motivation for this is something which must be looked at. This Awareness indicates that the sabotage which was perpetrated in this instance, as that which was designed to stop all further development of nuclear power. Particularly, there was the fear that eventually a power would develop whereby nuclear fusion would give greater technological development in the world.

This Awareness indicates that the British plan is to keep all nations except those which it has absolute control over, and which are managed by its own high agents, to keep all nations subservient—technologically as well as economically. This Awareness indicates this as one reason why there is a concerted effort to keep the OPEC nations from developing any further their own oil, from allowing the Mexican government to manufacture and refine its oil. This plan is to keep these nations producing raw material, but to send this to the industrialized nations for refinement—this keeping the population of the underdeveloped nations in a state of poverty, whereby they may easily be controlled.

This Awareness indicates that the efforts of creating the nuclear mishap as that which was designed to set back the development of not only nuclear power, but of the entire energy level of the United States. That the efforts are to curtail any form of energy development in the United States—this both through oil, through nuclear, or through any other form of development. This Awareness indicates that essentially they are working to set this nation back technologically and economically to where it was in the previous century, except for those particular areas of activity which they control.

This Awareness indicates there will still be some flight, and some industrial activities which will be eventually brought under their control—this in reference to the hypothesis of whether they have their way. This Awareness indicates that the spill of gas in Florida as also part of this maneuver. You are seeing what is the *beginning* of many such cases of sabotage to industry and technology. This Awareness indicates there is also an effort to sabotage the fields of education, so that children do not learn, are not educated in areas of technology to the degree which has been prevalent in the 60's. This Awareness indicates there will be a concerted effort to curtail the basic educational development of children. That the future will see these entities attempting more sabotage, which the general public will believe to be a sign that science and technology are failures, and that 'we should get rid of them'.

This Awareness indicates that to some degree this is true—there have been many failures and much excess of stupidity in the areas of scientific developments. This Awareness indicates, however, there also have been many valuable breakthroughs which could be of great humanitarian purposes. This Awareness indicates that there shall also be seen efforts to break down the fabric of society—the structure of society—and many entities will feel this is a revolution which shall lead to greater freedoms. This Awareness indicates however, that you be aware that this is being perpetrated by State socialists, whose intention is to enslave entities under the State, and is no more honorable than the corporate socialists, whose intention was to enslave entities under the corporation.

This Awareness indicates that the entire situation as that which is beginning to become unglued at the seams, and this is what can lead to the downfall of those who would hold power over others. For even these most powerful persons may find themselves unable to deal with the powers of masses of persons or groups who are not controlled by a solid structure from the top, down. This Awareness indicates they have taken control of the strings from the top, down; yet there are parts which are breaking off, and the entire structure is beginning to crumble, separate, crack, and weaken.

This Awareness indicates it is during that crucial period, wherein the structure's cohesiveness melts, that something totally new upon this plane may emerge:

This Awareness indicates this as coming about due to the meditations and the energizings of individuals and groups who have oriented themselves around the spiritual energies of the New Age of Enlightenment.

**SOME OF THE EFFECTS FROM THE
HEALING LIGHT AND ENERGY
THE MEMBERSHIP IS SENDING OUT**

**Cosmic Awareness asks that you
include Dr. Peter Beter**

Question:

The Interpreter has been feeling unusually relaxed, and without nearly so much stress, and fewer headaches lately, and we were discussing this the other night and wondering if those many members out there who have written us that they are showering us with love, light and protective energies has anything to do with this.

COSMIC AWARENESS:

This Awareness indicates this as in the affirmative, that this as having a very profound effect on the health, energy, attitudes and vitality of the Interpreter and others connected with the communications.

This Awareness indicates that this as being of great benefit, that without this assistance from the membership, these readings which have been given regarding the possibility of nuclear war, would have been much more difficult, and the energy levels required to give these would have taxed the Interpreter and those assisting in the communications, to such degree that the quality of readings, the information, would have been less comprehensive. This Awareness suggests that wherein entities have the ability to include these members in their prayers, in their healing imagings, in their meditations, and in showering them with light—that this as being a way of helping the situation on all levels.

This Awareness indicates that many entities who cannot afford time, action, or money, can afford the visualization of clear, white light, protecting these entities. This Awareness asks that you also include the entity, Dr. Peter Beter and his staff in your protective energies, prayers, and meditations—for this entity as being put in a much more vulnerable position now that the protection from the Rockefeller brothers and family has been removed. This Awareness asks that you cover this entity with protective light, and your prayers and concerns, that the entity might continue in his divine work.
