COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age and those who shall inherit the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of Cosmic Awareness Communications are invited to send in questions of general interest for possible publication in this Newsletter.

### QUESTION:

We are here for a clarification reading concerning the recent happenings in Washington D.C.,\* and what effect this may have in relation to information C.A.C., the SPIRAL action, and future energies directed toward informing the public regarding the Beast information previously given. Does Awareness have an opening message

\* The questions relate to Dr. Beter's latest Audio Letter No. 45 regarding the executions taking place behind the scenes.

## COSMIC AWARENESS:

This Awareness indicates that there are movements occurring at this time, which have been feeding on energies generated in part by the action of the entities involved in the SPIRAL letter-writing campaign. This Awareness indicates that there are actions occurring at this time, which are of a profound nature, in relation to the transmutation of the alien force and its energies. This Awareness suggests that much of this has come from various sources throughout the world—that there have been contributions from many Light groups, in terms of the energies generated—that there are seen changes of great significance, which cannot be disclosed at this time, yet which will be made public within the coming months and the full significance seen.

This Awareness suggests that you recall the elements of high magic—this being fire, water, air, earth—in the form of the concept, the emotion, the feeling, and the action or grounding. This Awareness indicates that the fire as that which was emanated through the intense feelings which entities have experienced in regard to the *Gathering Storm*, and the movement through the *Passage Perilous*. The water as that which relates unto the emotions and images conjured by these forces. The air being that which relates to the concepts, the ideas, words, and writings which related unto this experience, and the earth being that which was the physical action, the grounding of rituals, of writing, of speaking, of listening in the Beter parties, and other activities.

This Awareness indicates that all four levels being covered as that which had its profound effect upon the mass consciousness, upon the Akashic Record and the magnetic fields around the earth. This Awareness indicates the other forces also involved have had certain profound effects—these acting in part in their own interests, yet serving also the cause of humanity—that entities acting in part related unto the will of this Awareness in the writing of letters, meditations, visualizations—these entities contributing also to the effect, and many other sources exposing, discussing, and communicating information relating unto the activities of the Beast have put the Beast on the road to retreat. This Awareness indicates that essentially the Beast having planned the nuclear strike against Saudi-Arabia this month—also planning the Strategic Air Command strikes against the Soviet Union, as reported in your controlled press, as well as in those other sources mentioned previously by this Awareness—the activities of those military forces under the influence of the Rothschilds. This Awareness indicates these forces have essentially surrendered—given up the idea of nuclear war.

This Awareness indicates that the entity General Brown, as having been unsuccessful in receiving support from other NATO forces for this action—that activities behind the scenes and unknown to the public have contributed greatly to the influence which has prevented this war—the letter-writing campaign as that which added the final touches to the entire situation, whereby the entity felt it was totally useless to consider this action any further. This Awareness indicates that strong power and certain maneuvers by the Russians as that which made the plan seem absolutely impossible to carry out.

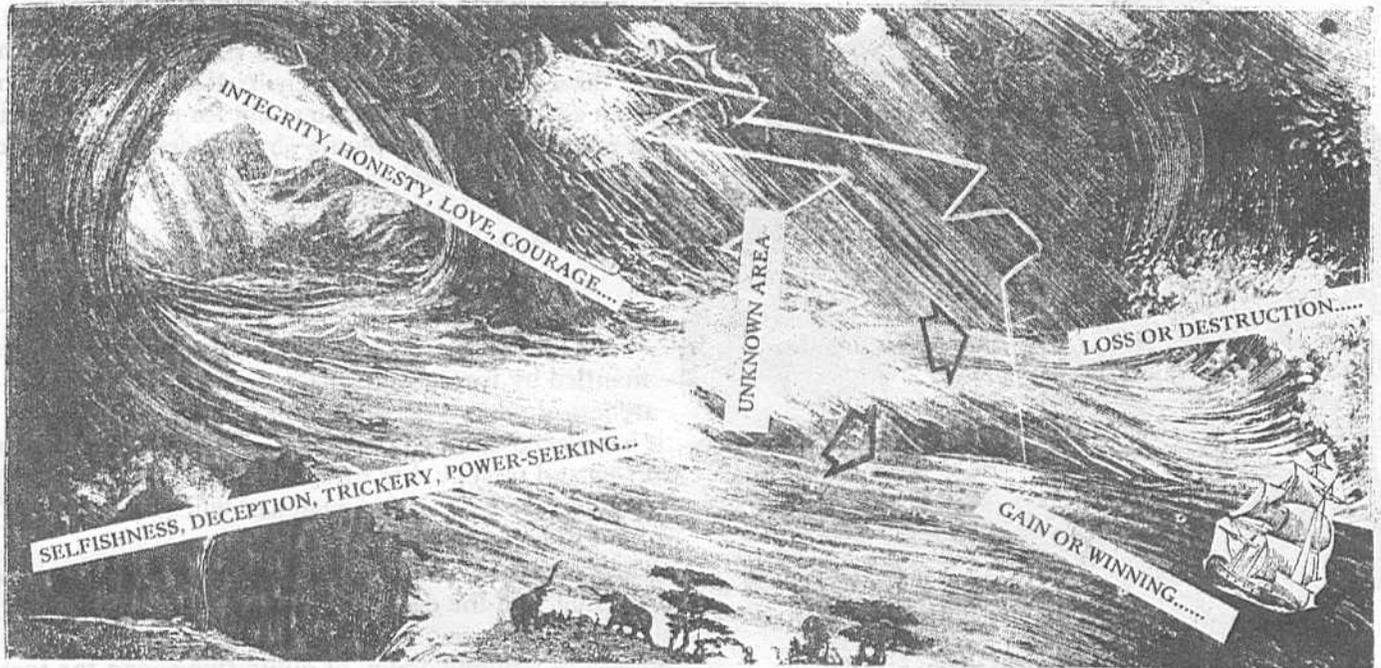

This Awareness indicates that this does not mean that there will be no more problems, but rather that the intense urgency has been diminished—the threat of nuclear war has dropped to approximately 5% from a level which reached approximately 75% likelihood.

This Awareness indicates that in terms of the possibility of depression and a general slowdown of the economy—that this is still a likelihood, but without the great intensity as previously mentioned in the *Gathering Storm* material. This Awareness indicates that the entities controlling the economy at this time do not have the power which they previously had—that there are changes in leadership with new plans for this nation. This Awareness indicates there are certain elements which have been set in motion which will continue for some time to come, and which will be used by those now having power in this nation, but that generally speaking the great intensities, in terms of economic depression and the plan for tattooing entities is being dismantled and is most likely not to occur. This Awareness indicates that there is, however, a chance of revolution within this country before the year is out, yet this as being such that it needs not be energized by Light Workers, for the energies will be diminished most by entities working to balance the extremes, and minimize the violence and potential conflicts which may arise.

### LETTER-WRITING CAMPAIGN MAY STOP

( Thank You Letters Should Now be Written )

This Awareness indicates that in terms of the letter-writing campaigns, that essentially the concern for nuclear war may be diminished, may be dropped, and that entities begin to protest any infringement upon their individual freedoms as guaranteed by the Constitution—that entities may continue to write letters. This Awareness suggests that you write complimentary letters to those entities previously addressed in the *Passage Perilous* for their wise decision in avoiding the nuclear confrontation. This Awareness suggests that you also suggest to these entities that they assist in bringing back the spirit of the Constitution and its guarantees of liberty for all. This Awareness suggests that the SPIRAL organizations continue to promote and listen to the Dr. Beter tapes—that there is information which will be of great significance in explaining what has occurred. This Awareness indicates that this information is of *such an unusual nature* that many entities will be profoundly shaken—yet may feel a sense of great relief in terms of the paradoxical change which has occurred.

This Awareness indicates that there is a formula taught to writers of plot, whereby an entity, the protagonist, moves through situations which would normally demand that the entity compromise his or her courage, his or her values, his or her purposes, in order to benefit personally, but whereby the protagonist refuses to compromise those values—the sense of decency and the sense of purpose which the entity has pursued. This Awareness indicates that within each plot of this type there comes a dark spot, whereby entering that dark unknown area, the entity generally believes that all is helpless—hopeless—and that it can be of extreme danger, and that the entity would, by all rational analysis, be better off to surrender the values, integrity and purposes for which the entity has long struggled to achieve.

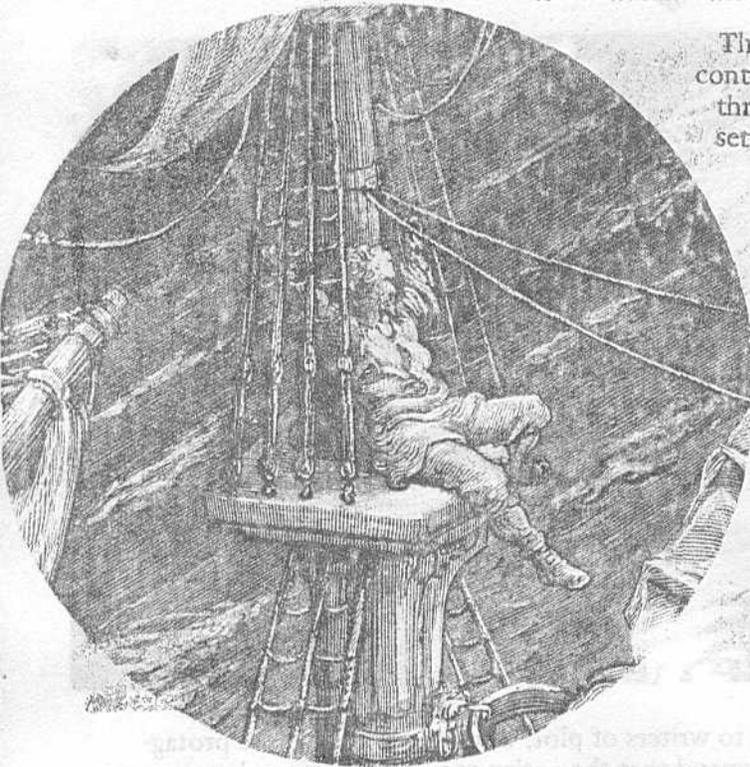

This Awareness indicates that within that dark uncertain time zone of the plot, something occurs, whereby if the entity has been true to himself or herself, everything reverses and all turns out well; but if the entity has compromised his or her values, has taken on the forces of greed, selfishness, desire for security, deception, dishonesty, or any other negative quality in order to benefit in the manner which the rational mind has indicated would be most beneficial, then when everything reverses, the entity exits from the dark unknown area which may be called the Passage Perilous, and enters into a sudden realization that all has been lost, even though rationality indicated that he or she would win.

This Awareness indicates an example may be seen in the movie of *High Noon*, whereby the protagonist sought assistance from fellow townspeople to help in a time of emergency, whereby five entities were coming at noon to destroy this entity: the entity had a choice of leaving town or staying to face the consequences. His integrity and convictions would not allow him to leave town—yet the townspeople and even his wife, his new bride, turned against him—and all logical, rational reasoning would indicate that the entity should turn and run, in order to preserve his relationship with the new bride, preserve his life, and to prevent the townspeople from being angry with him for staying.

This Awareness indicates the moment came, the Passage Perilous, and the five gunmen arrived. This Awareness indicates that any entity who has seen this movie understands what occurred. This Awareness indicates that when the Passage Perilous was finished, the entity exited with a new lease on life—a new beginning.

This Awareness indicates that what has occurred during this past six months is that a few entities began to look deeply at that vast formidable Force of Darkness which began covering the face of the earth, as a great threat, a threat which had built itself into positions of power from a time dating back approximately four hundred years—building on energies which were begun 10,000 years previously—this force being such that it had formulated wars of great magnitude—the War

of 1812, the Civil War, even the Revolutionary War, the war with Spain, the war with France, whereby Britain fought with these nations—the Spanish-American War, the World War I and the World War II—all these being created by this force. The Korean War and the Vietnamese war and that which was known as the 'Cold War'.

This Awareness indicates this dark Illuminati force, which has controlled the production, sale, and use of armaments down through the ages of your present civilizations, and which has set nation against nation in its final bid for power—wherein it was ready to pluck the plume—has suddenly found itself being the plume which was plucked.

#### THE DARK ILLUMINATI FORCES NOW BEING DISMANTLED

This Awareness indicates the Illuminati is being dismantled by forces which have been set in motion by awareness of what is occurring—and by the very actions which it has placed upon entities, whereby their suffering, their sorrow and tragedy, has forced them to rise up and shout, "Enough! We have had enough and will go no further!"

This Awareness indicates that this is that which now is occurring, and the dawn breaks on a new era—that there shall still be sorrow, suffering, and tragedy, yet this is in the process of winding down, of diminishing—and the forces which have sought to control the mind have reaped the whirlwind, and are now being spun about in the *Law of Cause and Effect*.

This Awareness indicates that those who love, may send love to those who have not loved. Those who experience mercy may be merciful to those who have not known mercy. This Awareness suggests that those who love peace may send kind words to those who once thrived on the violence toward others. This Awareness asks that you discharge your full barrage of love against those enemies who would have destroyed you or enslaved you—yet that you not again allow them the opportunity to be masters over you, your families, your loved ones, or your nations.

This Awareness indicates that this as an overall observation of that which is occurring at this time—that details of this occurrence can be seen in more specific levels through questions which you may wish to ask.

#### THOSE WHO WOULD PUSH THE BUTTONS FOR NUCLEAR APOCALYPSE ARE BEING REMOVED FROM THIS PLANE

Question:

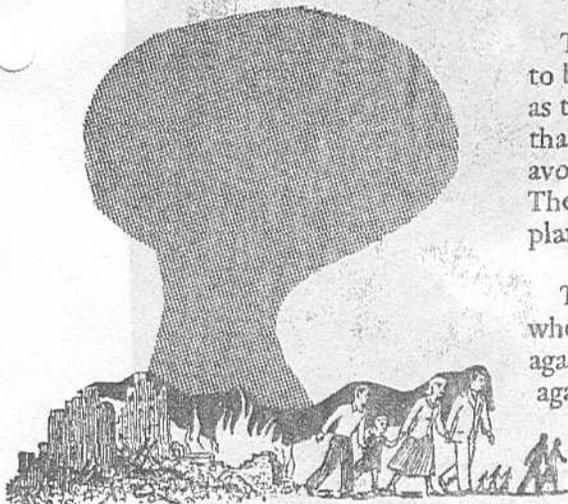

We would like to know if the recent execution of Jimmie Carter, Mrs. Carter, and Vice-President Mondale, was perpetrated by entities working for the Beast, and if not, should the news of these executions be suppressed, or should it be disseminated to the public?

**COSMIC AWARENESS:**

This Awareness indicates that it matters not one way or the other whether this news is released to the public. This Awareness suggests that no great energy be put upon this in a manner of alarming entities, for this will not be easily accepted by the masses anyway, and it matters little whether they accept this or not. This Awareness suggests that the truth will eventually come out, but that it has little meaning in terms of the course of history whether entities are aware of what occurred or not.

This Awareness suggests that those who listen to the Beter tapes will begin to understand the nature of what has transpired. This Awareness suggests that essentially there has been a dismantling of the powers of the Illuminati from the top down in a manner which was unnoticeable by the masses. This Awareness indicates however, that this dismantling has not been totally completed. This Awareness indicates that the British Rothschild forces essentially have lost their strength and power to the Russian forces, and have basically reached a secret pact, whereby they have surrendered in order to avoid being destroyed—that the war has taken place behind the scene, out of the public's eye.

This Awareness indicates this also in the process of occurring in your own nation, whereby certain forces of the Illuminati are being brought to their knees in an action of surrender to the Russian forces. This Awareness indicates that it matters not whether this information is published, for few will understand or believe this message, and it will cause no major consequences to you.

This Awareness indicates that essentially the force which has been brought to bear...to assist in ending the powers of the Rotchschilds and the Illuminati, as that which has been directed by principles based on humanitarian concerns—that these entities seeking to avoid as much violence as possible, seeking to avoid the confrontation of armies, of weaponry which would destroy masses. These entities have worked behind the scenes in ways which were carefully planned and designed to harm as few entities as possible.

This Awareness indicates that it does not in any way condone violence, yet, when entities seek to force violence on others, or contribute to violence against others, or conspire with others in a manner that would lead to violence against others—then these entities are flirting with the *Law of Karma*, whereby those who live by the sword of violence, may indeed reap that sword of violence for themselves.

#### WILL THE BOLSHEVIKS NOW TAKE OVER THE UNITED STATES ?

Question :

How does this relate to Dr. Beter's theory that the Bolsheviks in power in our government plan to collectivize the United States?

COSMIC AWARENESS:

This Awareness indicates that this as part of that which has been planned, which this Awareness referred to as the Illuminati's plan for conquest and dictatorship within this nation. This Awareness indicates that this is still in movement, with energies on this, yet the powers behind this plan are being dismantled; therefore, this may be likened unto a construction company, whereby the workers continue building a project, but those who ordered the project to be built have been removed, or are being taken out of the action, and it becomes only a matter of time before the workmen and crewmembers and others involved in the construction, discover that they are no longer being rewarded, paid, or directed to continue this action.

This Awareness indicates when this occurs, the impetus and the energy which has been in movement on the construction will begin to wind down. This Awareness suggests that it appears to be a possibility for this to continue for some time, but with a different result from that which was previously indicated. This Awareness indicates also there may be a revolution when entities realize what is occurring, and if entities become fearful that they shall suffer from the results of what is occurring and begin to express in violent reaction to that which is occurring.

This Awareness suggests that essentially, the tide has turned, and it is most unlikely that it shall ever turn back again—againsts humanity and the principles associated with the *Law of Love*.

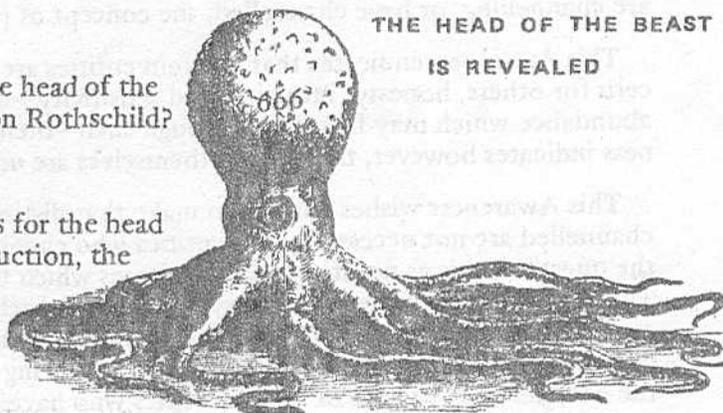

This Awareness indicates that this may be considered as a time wherein darkness is replaced by light, even though this is occurring behind the scenes and out of the public eye.

QUESTION:

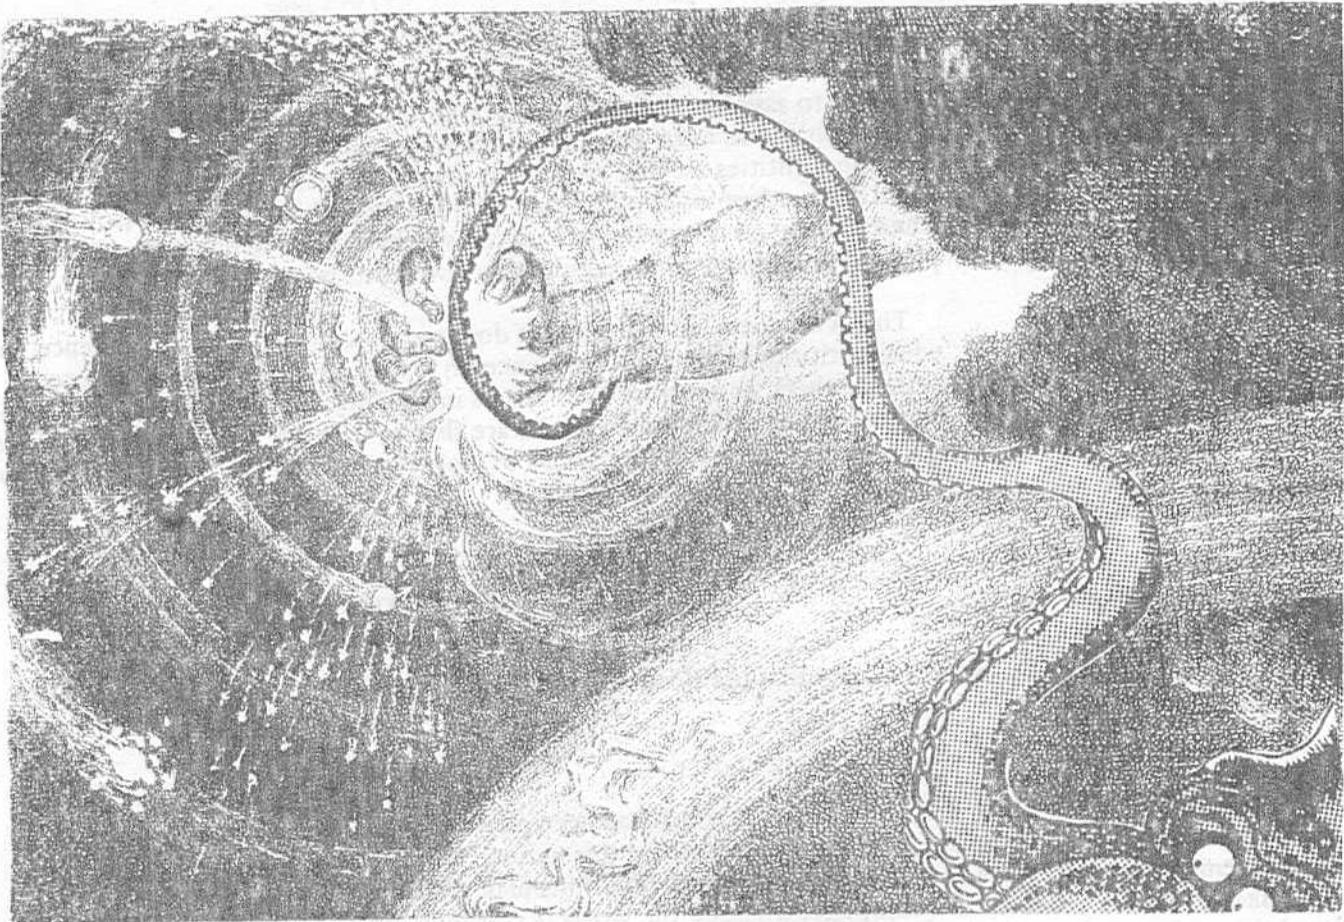

Awareness has indicated it would one day reveal the head of the Beast. May I ask if the head of the Beast was the Baron Rothschild?

COSMIC AWARENESS:

This Awareness indicates that these entities as tools for the head of the Beast—that essentially the Beast was the construction, the organization, which was headed and used by this entity and others. This Awareness indicates that in legal terms, an organization is an entity. This Awareness indicates that you understand in legal terms, an organization is an entity. This Awareness indicates that the entity was that which has been described as a Beast with ten heads. These ten heads having an aspect of ten separate entities or organizations. This Awareness indicates

that the Illuminati as having various heads, or parts, or organizations, all working together--this including the organization which is known as the Illuminati and its various parts. This Awareness does not wish at this time in this reading to name names, that much of this information has been given previously and is available elsewhere

### THE TRANSMUTATION AND REDEMPTION OF THE BEAST BEGINS

Question:

Has the problem of the Rothschild family been eliminated?

**COSMIC AWARENESS:**

This Awareness indicates that these entities essentially inherited the role, the roles which they have played, from their parents, grandparents, and great-grandparents, and they have inherited the instructions, the energies, and the ways of thinking which would allow them to be who they are. This Awareness indicates these entities also inherited the belief systems and structures--this coming not only from their own parents, grandparents, etc., but also from certain cultural and philosophical teachings. This Awareness indicates that the concept of power as an end in itself, is that which is the error. The entities themselves are not the error, other than that they are channelling, or have channelled, the concept of power as an end.

This Awareness indicates that wherein entities are willing to forego all human principles of love, mercy, concern for others, honesty, integrity, and sensitivity--foregoing these in return for power, glory, and the life of abundance which may be gained through such--then these entities are channels for the Dark Force. This Awareness indicates however, the entities themselves are *not* the Dark Force.

This Awareness wishes entities to make that distinction, and understand that distinction, for the forces being channelled are not necessarily the entities who channel these forces. This Awareness suggests that in terms of the question, this as negative, that the forces which the Rothschilds have channelled are not totally dismantled. This Awareness indicates that many of these Rothschild entities are also channelling very positive forces which are beneficial to many--that generally speaking, many of those who have been part of the Beast have also been captured and used by the Beast--the Beast not being the entities, but the Beast being an entity unto itself, using the energies of the parts, or of the entities who have assisted it.

This Awareness indicates that the Dark Force as that which promotes power, lust, and greed at the expense of love, mercy, and humanitarian principles--whether this is on a mass scale or whether this is in individuals.

This Awareness indicates that as individuals have begun to surrender unto God, and the Beast within individuals diminished, this also has had a great and profound effect upon the Illuminati Beast as even those who were involved in that action also have been growing more and more aware of the God Light within themselves, to such a degree that they could no longer maintain their ways of darkness, and were forced to surrender to that light. This Awareness indicates that essentially, this is the transmutation of the Beast which you have been assisting in.

This Awareness reminds you of the picture in the *Gathering Storm*, whereby the entity Jesus touches the tentacle of the Beast in a loving and kind manner. This Awareness indicates that this was not an action of being naive to the dangers of the Beast, but one of being attentive to its danger, yet being attentive also to its potential transmutation into light.

This Awareness indicates that entities who have been doing the Light Pulsation, entities who have giving attention to that which has been indicated as a threat and danger from the Beast, entities who have been concerned for the welfare of humanity, for the welfare of others—these entities have contributed greatly to adding and building that light energy which has had its effect upon the very atomic level of the Beast, of the organization, of the force which was known as the Black Illuminati.

This Awareness indicates that this is the Alien Force which is in the process of being transmuted.

This Awareness indicates you understand that even as an individual who may appear to be as evil as the devil itself—even as an individual may appear to be as evil as the most villainous character imaginable—even as this individual can move into a surrender and through a transmutation based upon Christianity, Buddhism, the teachings of Krishna, or any other form of conversion process—through the surrender to the light of Mohammed, Zoroaster, or any other religious figure—so long as that creature, regardless of how negative in appearance, can surrender its own ways, giving up itself, and surrendering to the enlightenment of the spirit of love—likewise, an organization is also an entity, and regardless of how dark and cruel that organization may appear, it too can have a conversion, and can be brought to light.

This Awareness suggests that there is a transmutation taking place within the Illuminati, and this is bringing about a major change in all levels of human affairs. This Awareness indicates there also are forces which are of such grave threat to that Illuminati entity, that it has *no choice but to surrender*.

This Awareness indicates that those who work with the powers of the Beast who refuse to surrender unto the force of love, mercy, and humanitarian purposes, shall find themselves being pushed out of the scene, and not allowed to participate in the joys which are coming. This Awareness indicates it is this which may contribute to any revolution or violence during the coming year.

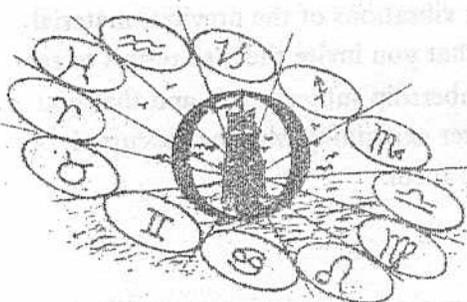

For those Wishing to do More...

This Awareness suggests that in terms of entities wishing to do more, this Awareness suggests that you promote the Dr. Beter tapes, that you consider forming light groups, that the SPIRAL groups may become associated with church charters\* or may be transmuted into church charters themselves, and that as this diminishes, that the political aspects be avoided, and humanitarian aspects be promoted more and more, whereby the information is promoted with a concern for human rights, freedom, and individual liberties without the concern for directing energies against any particular person.

This Awareness suggests that the energies which you have set in motion may be used to build new centers of Light for the promoting of enlightenment throughout this land.

\* ED's Note: SPIRAL and other groups who wish to build new centers of Light for the New Age, should contact the following address for information about obtaining a church charter and tax-exempt status:

OUT OF THE  
PASSAGE PERILOUS.....

( Winding it Down )

QUESTION:

Thank you. One final question. As I understand it, we'll be winding down all of this material which has been so heavy. I'd like to ask Awareness if the new members coming in to C.A.C. should be given the *Gathering Storm* material and other recent related material, or just eliminate that?

COSMIC AWARENESS:

This Awareness suggests that this information may be released to entities, but suggests that you put approximately one paragraph of information superceding that which is being presented to explain that there have been dramatic changes which have occurred since that time, and refer to this reading and others which explain those changes.

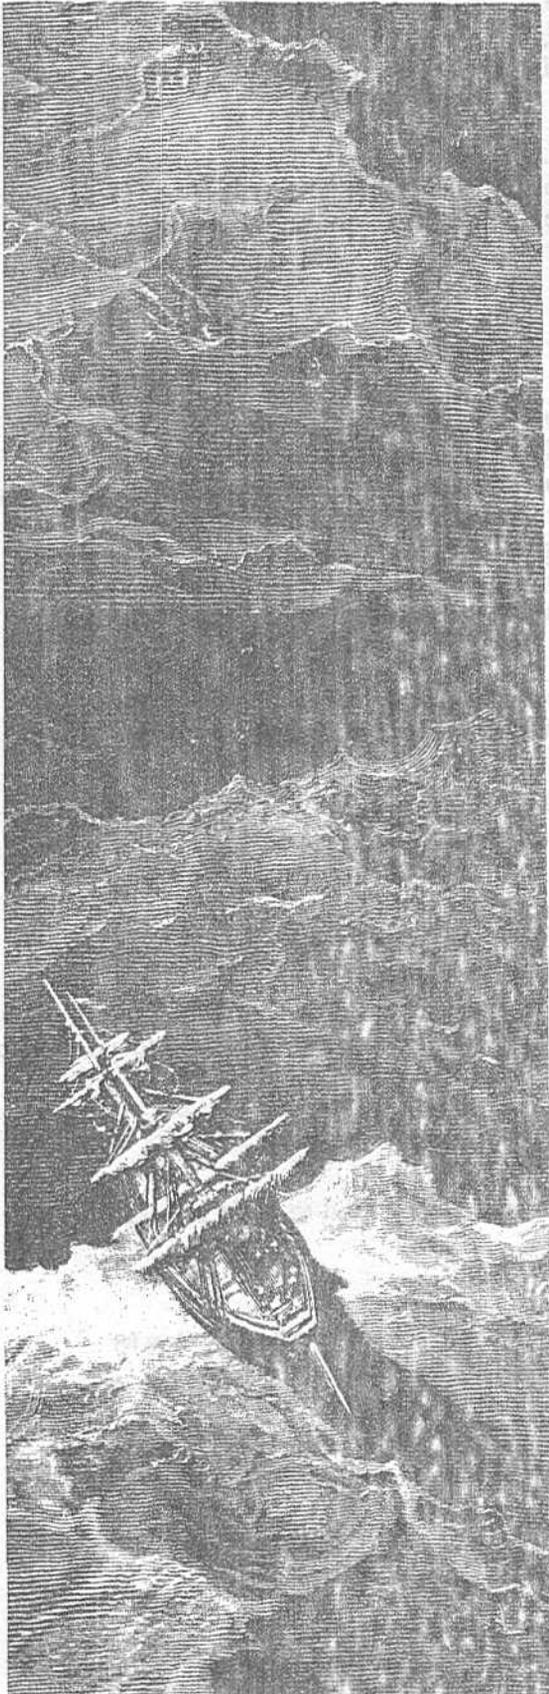

This Awareness suggests in this manner you may present these previous readings as information regarding what has occurred, or what may now be considered 'recent history'.

This Awareness suggests also that you send this reading to your membership as soon as is convenient, that you also may allow them to continue writing letters, but without the concern being emphasized regarding the nuclear war--that these entities may write regarding other areas of concern in regards to individual liberties, such as energy crisis, the nuclear power plants, the gas shortage, the threat of dictatorship, or may choose to write 'thank-you' notes to those who have passed off the program for nuclear war.

This Awareness indicates that you also send this reading to those members who dropped out of your organization for fear of experiencing the heavy vibrations of the previous material. This Awareness suggests that you invite them to return to receive the rest of their membership subscription, and that you may do this in a brief letter explaining what has occurred, or by sending this reading to them.

QUESTION:

Thank you. Does Awareness have a closing message?

A PERSONAL MESSAGE FROM COSMIC AWARENESS

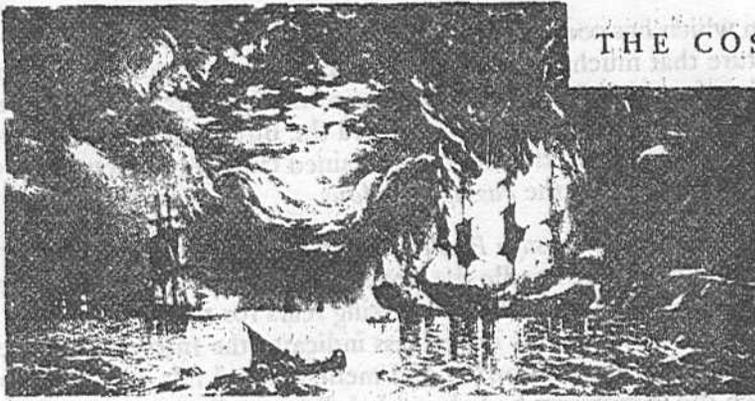

To the Membership of C.A.C.

The Aquarian Church of Universal Service

And Others who have Assisted in Transmuting  
the Energies of the Illuminati Beast

This Awareness wishes  
in behalf of each of you...  
in behalf of every face...  
in behalf of each human face upon this earth...  
to thank all of you,  
and all entities who have assisted  
in transmuting these energies—  
that the sorrow,  
suffering  
and tragedy,  
which was so close....  
so close...  
has been avoided,  
due to the *Law of Love*,  
and the *Law of Gratitude*,  
which states:  
that energy which has been given,  
receives a certain reward.  
Energy moves out on that curved and unequal line,  
returning to its source,  
bearing gifts.

## THE COSMIC BATTLE OF MIDWAY.....

THE TURNING POINT  
HAS OCCURRED.....

THE BEAST IS WOUNDED  
AND IN RETREAT

Excerpt from C.A.C. General Reading

May 23, 1979

Editor's Note: while the reading of May 10th was being put together for publication, the feelings around C.A.C. were mixed—great relief and joy and a sinking feeling that all this was just too good to be true. Discussing this with Paul Shockley, he himself began to express some doubts about his channeling, telling us about his friends and associates who were expressing doubts about the war scare and freaking out all about him. As a result of this conversation, the following question was asked the next time Paul came up for readings. Paul explained the reading of May 10th, in retrospect, that the energies he saw were interpreted accurately, but may have been premature. He saw this clearly happening on the etheric level, but we should all keep in mind that it takes some time before it actually manifests in the physical levels. If you will recall, several years ago Awareness stated that the 'Battle of Armageddon' had been fought on the inner planes and had been won by the forces of Light. However, it only recently began to manifest on the physical plane in the form of nuclear war, which now has been avoided. Awareness seems to confirm this in the following reading. After this reading, two more readings were given which trace the route of the Black Illuminati from its beginning up to the present day, and what the behind-the-scenes activities in Washington all mean in relation to this Beast activity. We did not have time to get these additional readings put together for this mailing, but hope to have them for our next mailing. We suggest that when you do get these next readings, that you re-read this reading (79-17) and then continue with the latest one. This will bring most of the activities into perspective and up to date. In short, it appears the nuclear war crisis is definitely no longer a threat, but the Beast has not been entirely transmuted as of this date. The Beast is wounded and is at bay, has lost much of its power—but is still dangerous. We must all continue to remain alert and watch carefully the activities going on in the world, particularly behind the scenes, because there are two factions pitted against one another and both factions are executing entities and replacing them with doubles.

### QUESTIONS:

( More on the Accuracy of the Interpreter)

Awareness, we would dearly love to wind down the energies which have been around since the Beast information was introduced; however, some questions have arisen in reference to Awareness's message of May 10, in which *It* indicated that the Beast was in retreat, and the possibility of nuclear war and most of the heaviness to follow had been almost diminished. The Interpreter has expressed doubts about that reading, suggesting that his own desire to find something positive to tell entities about this situation may have interfered with the transmission of the communication from Awareness. He also indicated he did not feel he was in a very deep trance level at that time. A number of entities have implied that "nothing positive has come from the Interpreter's mouth for many months," which has worried him and made him feel guilty. Also, the abrupt turn-around in the communication from Awareness—the reading of May 8, in regard to the visit from the U.S. Secret Service, and Awareness advising the membership to continue the letter writing, and then the message two days later on May 10th, wherein *It* suggested the membership send 'Thank You' letters and to wind down the campaign. The Interpreter feels that entities are somehow blaming him about this sudden reversal in the general situation—almost as if they are sorry none of these heavy things portended by Awareness have happened. I think at bottom what we all deeply wish to hear from Awareness, is that the communication of May 10th was indeed delivered through the Interpreter without coloration, and that the threat of the Beast has essentially been dissipated. Would Awareness please enlighten us on this?

### COSMIC AWARENESS:

This Awareness indicates that there are quite a number of entities who attempt to influence the Interpreter while the Interpreter is out of trance, wishing to discuss the readings and wishing to influence their concepts, opinions, and ideas upon the Interpreter, in hopes that this Awareness will accept their evaluations and will confirm what they believe. This Awareness indicates that this does indeed have some effect upon the channeling of these messages. This Awareness indicates however that this as part of the 20% error which this Awareness has indicated is possible through this channel. This Awareness indicates that generally the channel as being 85% accurate, but sometimes 80% accurate. This Awareness indicates that generally the Interpreter as able to filter out the influence and pressures which are put upon him by those who wish to hear their own version.

This Awareness suggests that the information which has come through during the past seven or eight months as having been of such an intense and heavy nature that much pressure was put upon the Interpreter—that many entities expressed intense concerns, even hostility, for the information and toward the Interpreter. This Awareness indicates that these expressions did have some effect, but that this effected the Interpreter's health more than the channel itself. This Awareness indicates that generally the channel remained clear throughout the period of the intense material known as the *Gathering Storm* and the *Passage Perilous*.

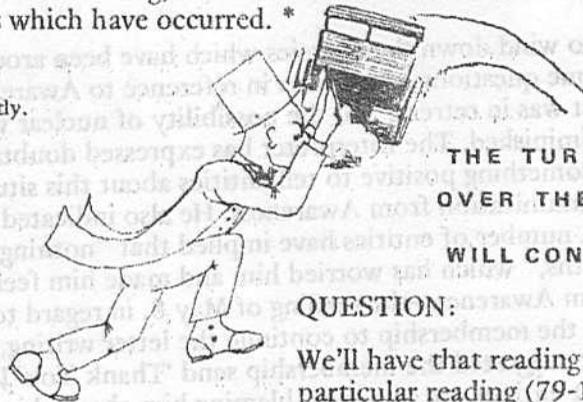

This Awareness indicates that during and shortly after the *Passage Perilous* material was released, there came a great intensity and energy from sources who could not quite handle the possibility of nuclear war, and some of these entities expressed a hostility toward the Interpreter, as well as expressing fears for their own safety. Others simply became incapable of coping with life in general. This Awareness indicates the Interpreter came in contact with several entities who had literally fallen apart emotionally and mentally, and felt, in part, responsible because the energies of the material which the Interpreter had channeled did contribute to these emotional and psychological conditions.

This Awareness indicates that the contribution of the material given through this channel to those entities who could not actually accept and handle the information was relatively limited; however the Interpreter felt some responsibility toward contributing to this problem of these entities. This Awareness indicates that the entities did feel stress from the fear that the nuclear war might erupt, and when their own emotional and psychological bodies could not cope with the external world, they began to latch onto the information regarding nuclear war and began to babble incoherently at times, or to formulate philosophies, ideas, or other concepts which were not founded on levels of reality or good clear relationship.

This Awareness indicates this had an effect on the Interpreter, causing the Interpreter to hope for and look for something better. This Awareness indicates the Interpreter began to feel responsible for these entities in some extent. This Awareness indicates that the Interpreter noticed the effect of these messages on his own family and children, particularly his children who were becoming very nervous and withdrawn. This Awareness indicates that therefore the reading of May 10th was what might be termed 'premature' in the sense that the Interpreter saw a glimmer of light, and desiring so to put an end to all of the heavy messages which had been coming through, did tend to interpret the information with a slightly exaggerated euphoria. This Awareness indicates that the interpretation was based on very small amount of clear evidence or image, yet the interpretation was basically accurate—at least to a degree of 85%.

This Awareness wishes now to clarify and to better explain the messages from the reading of May 10th in relation to the energies which are presently in movement. This Awareness suggests however that this clarification should begin with a new reading, as this Awareness wishes to include a summary from beginning to end, regarding the movements which have occurred. \*

\* These readings will follow shortly.

THE TURNING POINT...  
OVER THE HILL, BUT THE STRUGGLE  
WILL CONTINUE

#### QUESTION:

We'll have that reading later on this evening. However, that particular reading (79-17) is in the process of being printed right now, and we were going to send it out in approximately two weeks, so the membership would be receiving it probably three weeks after that.

#### COSMIC AWARENESS:

This Awareness indicates that by the time the membership receives this reading, the information will be more likely to be accurate than it was at the time it was given. This Awareness indicates that this is likened unto wherein an entity is pushing a car up a hill, the automobile reaching the top and just as it reaches the top someone, an Interpreter, states, "We've done it. It's downhill all the way. We have completed our task. We have won."

This Awareness indicates that the Interpreter may recognize that it is just now at the top, or approaching the top, that the entities cannot at that particular moment stop pushing, for it might begin rolling back down the other way, but also recognizes that they are not intending to stop anyway until it passes the crest.

This Awareness indicates that the message in this case would be premature, yet accurate, considering the energies which are in motion. This Awareness indicates that once the vehicle begins moving downhill from the other side in its proper course, the message becomes more meaningful and accurate than it was at the time it was reaching the crest.

This Awareness indicates that at the time the message was given in regards to the passing through the Passage Perilous, the energies were not fully apparent—that much had occurred, but by the time the entities receive this message, these energies will begin to reflect in other areas of life and other communications so that the readers will recognize that something indeed has changed. This Awareness indicates that even so, the dangers are not over, the concerns are not over. This Awareness indicates this as likened unto the action of World War II in the Pacific, where the Battle of Midway was the turning point of the war, yet this was not the end of the war. This Awareness indicates the Passage Perilous was the turning point of the power struggle between the Forces of Darkness and the Forces of Light, yet this is not the end of the power struggle. The struggle will continue, but from henceforth the Forces of Darkness will never again have the upper hand, will never again have the same power and potential destructive force which they had prior to the Passage Perilous. This Awareness indicates that this is the beginning of the end of the Illuminati—or that which is the Dark Force known as the Beast.

#### QUESTION:

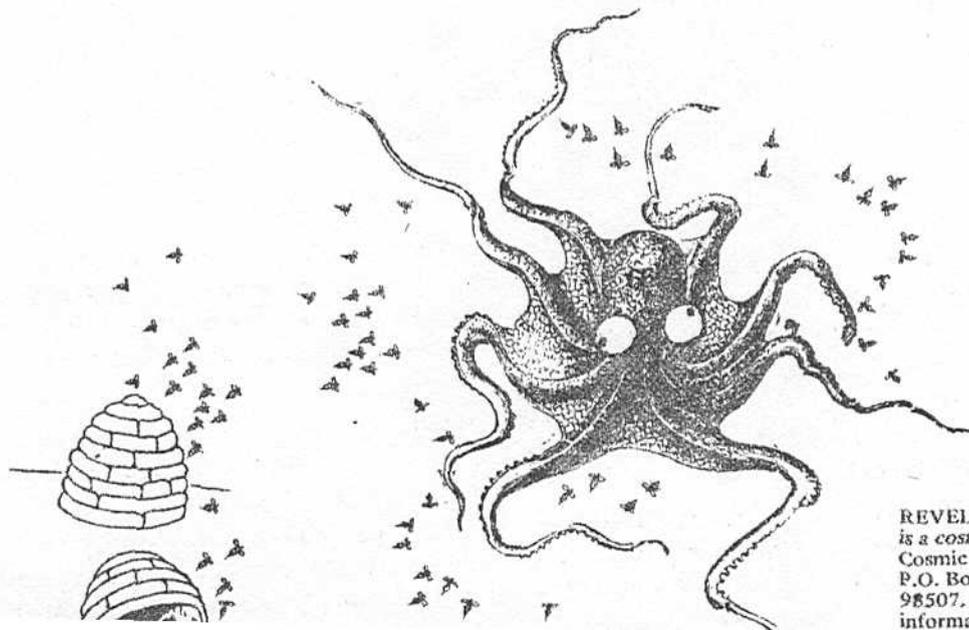

Well, perhaps it might be better if we just finished the reading and tabled it til later when things look more positive, rather than bring what might be false hopes to the membership and then to have the thing come up again. We'd rather wait until it was finished and be done with it.

#### COSMIC AWARENESS:

This Awareness indicates that wherein this message and the following message are sent along with that message, the picture will become more clear. This Awareness suggests that the previous message of May 10th as that which relates to a more abstract level of victory—that you understand a victory can occur on higher levels, yet this must take time to filter down into the lives of the individuals involved. This Awareness indicates that you may remember that for thirty years after World War II there were still Japanese soldiers hiding in the mountains and caves of some South Pacific islands. This Awareness indicates that likewise, the battle can turn to the Forces of Light, yet there still will be the struggle and the mopping up of the Alien Forces. This Awareness suggests that if this is clearly explained, then entities can continue in their operations, their understanding. This Awareness indicates that these readers do need to be informed of what is occurring, so that when they have a victory, they can be apprised of that victory. This Awareness indicates they do need that information, that there has been some success in their efforts, otherwise some entities will simply become more and more polarized and daring, frightened or withdrawn, if this intensity continues too long.

This Awareness indicates that the majority of your readers are intelligent enough to understand that *victory on one level does not mean that they can go back to sleep and forget about everything.* This Awareness indicates that there will be a need for watchfulness for at least one decade to be sure the Illuminati, the Beast, will not recoup its forces and attempt to rebuild its power. This Awareness indicates this might be termed a 'conditional victory.'

This Awareness indicates it appears there will be an effort by the Beast to recoup its forces under the guise of some spiritual or pseudo-spiritual organizations, but this will not be of great significance, or great effect. This Awareness indicates the Beast is not dead, the Beast is simply injured and in retreat. This might be termed as wounded and possibly mortally wounded, but not yet finished.
