COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age and those who shall inherit the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of Cosmic Awareness Communications are invited to send in questions of general interest for possible publication in this Newsletter.

QUESTION:

Awareness, we are here for the first general CAC questioning, with questions sent in by the membership. does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness suggests that these questions be held in abeyance for the following message. This Awareness suggests this be released in your first mailing after the sabbatical.

This Awareness indicates that you have now reached the first degree of the Aquarian Age. This Awareness indicates that the Aquarian Age began approximately 1913, its influences being felt for approximately 65 years prior to that date. This Awareness indicates the Piscean Age influences continuing to be felt during the first sixty-some years after the 1913 entry into the Aquarian Age. This Awareness indicates that essentially the Piscean influence as that which carried with it the secrecy and clandestine activities along with emotionally-charged energies. This Awareness indicates this also including concepts and attitudes of escapism and chaos and confusion, generally based upon paranoia, fears, uncertainties and the realms which result from secrecy and that which is based on emotionalism. This Awareness indicates the Aquarian influences prior to 1913 as that which began showing itself in areas of inventiveness, in areas of discovery, in areas of unique and bizarre types of activities. This Awareness indicates this also including activities of extremism.

This Awareness indicates that at present, the course of the Earth ship as that which is in the straights of transition-between zero and degree one of the Aquarian Age. This Awareness indicates that in this transition, there have been many experiences which have come together and clashed-these energies from the Piscean and Aquarian Age which have been in conflict with each other during the past 120 years as that which are now being resolved.

THE DECLINE AND FALL OF THE BEAST
IN THE SPRING OF 1979

This Awareness indicates that as has been previously given, the energies coming from cons back in time up to present and having their greater impact during the past 400 years and growing in continuous strength right up to this particular moment in time. This Awareness indicates that for those who have followed the messages from this Awareness from 1963 up to present time, entities understand the nature of the changes which have been occurring. This Awareness indicates this including the return of Rhyee or that which exemplified power, and Isis, or that which exemplified secrecy, to Essence. This Awareness indicates that as power and secrecy were being returned to Essence and the followers of these concepts were being removed from this plane, this Awareness indicates that the various secrets began to unfold themselves to the public, and the power began finding greater and greater difficulty in maintaining itself.

This Awareness indicates that nothing has been so strongly presented and dramatized as that which has occurred in this particular year of 1979. This Awareness indicates that in the fall of 1978, this Awareness began to expose in a particularly concise manner the entire network and plans of the Beast. This Awareness had given information for several years previous to this in bits and pieces, that had it presented the entire information previously the channel and the work of this organization would have been cut off; but by funnelling small bits and pieces out, stimulating conversation and questions and allowing this information to circulate through the masses, this began to set up enough dialogue so that the particular source of this information's release would not draw too great attention to the Interpreter and the organization.

This Awareness indicates that also there were other organizations releasing similar information along similar lines. This Awareness indicates that during the fall of 1978, the situation became acute, whereby the Beast which had made an effort in '76 and '77 to capitalize on its intentions of gaining control of the economies and therefore the world in general, had been thwarted by certain circumstances which were occurring--the Beast in '78 became somewhat desperate and realized that time was running against it.

This Awareness has indicated in previous readings that there were certain factions, certain entities who in the late 60's and early 70's began certain actions which threw the timing of the take-over off so that the Beast would have to wait for better circumstances in order to capitalize on its gains and therefore become world ruler. This Awareness indicates this allowed time for many others to awaken. This Awareness indicates that by 1978 enough people had awakened upon this plane that the Beast began to recognize that it was in dire straits, and needed to take a major gamble and push through without fear, without holding back and with great vigor and force if it was to succeed in its planned take-over of the entire world. This Awareness indicates that in this *Gathering Storm** information released in 1978 in the fall of the year, this Awareness outlined the basic plan for the take-over, for the manipulation of economies and the gradual environmental situations which would lead to the enslavement of the masses through economic controls and through other national emergency powers. This Awareness indicates that in December and January entities were still suffering from the shock of the experience in Guyana*. This Awareness indicates while entities were concentrating on this, the power of the Beast was focusing on the Middle East where it had intended and had planned the Nuclear War Three to begin. This Awareness indicates this plan as having been set in motion in 1975, that the plan as aiming at a target date in mid-May.

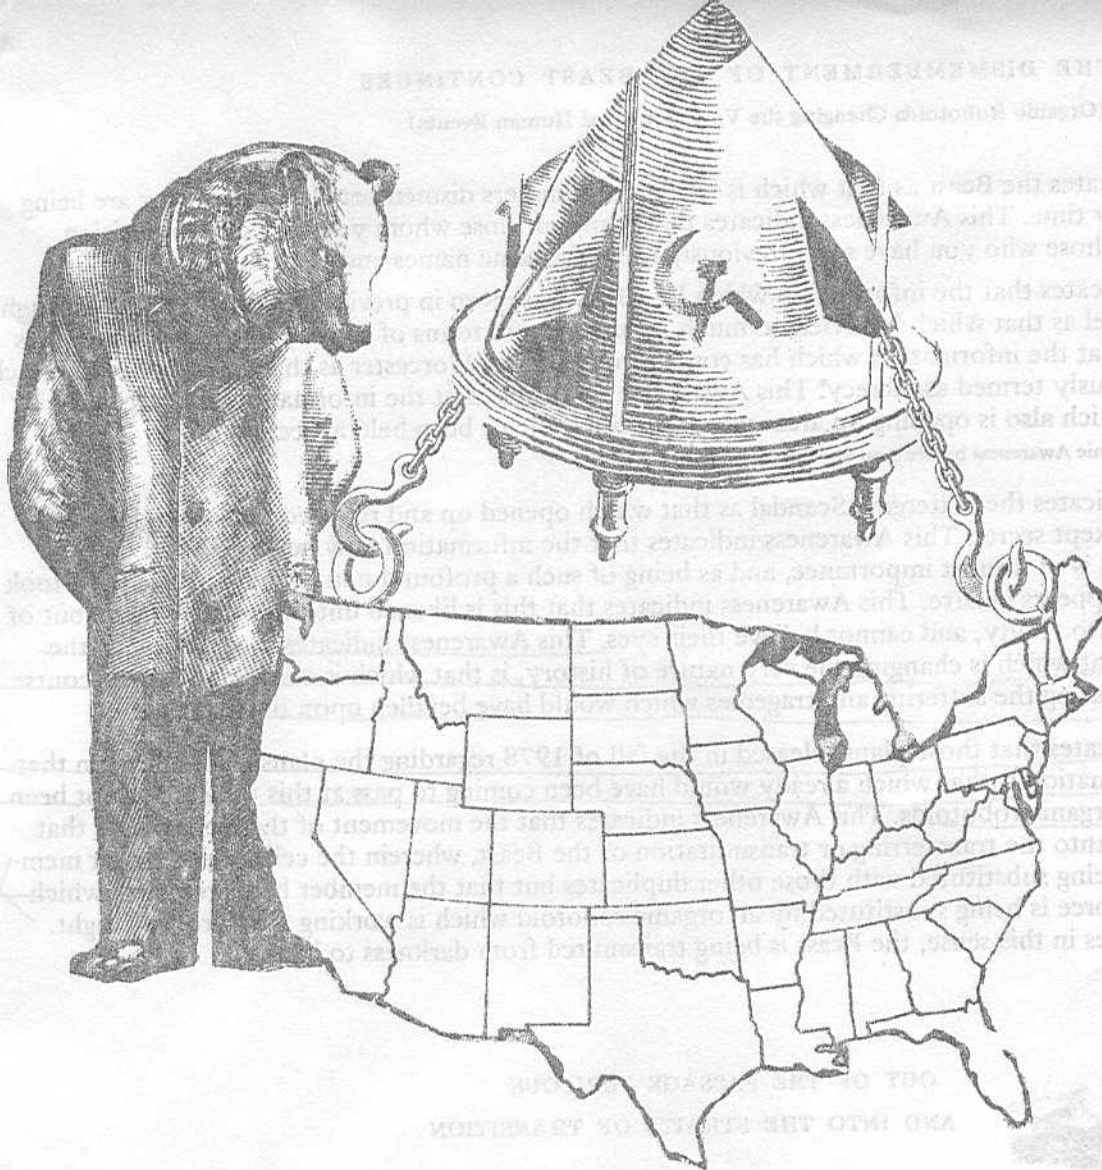

DR. BETER & U.S. LABOR PARTY ALERTED THE U.S.

This Awareness indicates that the information being released by Dr. Beter from his sources as that which alerted entities here in the United States, in Europe and particularly in Russia, to allow the exposure of this plan. This Awareness indicates that also the U.S. Labor Party's newspaper, *New Solidarity*, as that which also became apprised of this information and released this publicly. This Awareness indicates there were other publications also which contained information on the plan in bits and pieces. This Awareness indicates that in April the controlled press released information on the planned maneuver of the Strategic Air Command--*Operation Global Shield '79* whereby they planned to initiate a mock attack against Russia, with the Strategic Air Command bombers and NATO flight crews. This Awareness indicates that this as billed as a 'maneuver for practice', but with no guarantees that it was not the real thing. This Awareness indicates in fact it was to be the real thing. This Awareness indicates in the last week of this particular month of July, the Strategic Air Command now has announced that *Global Shield '79* will take place, but its nature and entire game-plan has changed--this will simply be a series of maneuvers whereby these bombers fly from one area to another over military bases in the Western world, with full cooperation of those military bases. This Awareness indicates that the planned maneuver against Russia as that which has been cancelled and the action now as that which is simply a mock maneuver.

DR. BETER'S INFORMATION ACCURATE
--ORGANIC ROBOTIDS EXIST!

This Awareness indicates that the information being released by Dr. Beter regarding the plans for war in the Middle East and for the various shutdown procedures of the United States energies as that which has been accurate as this Awareness has previously indicated.

This Awareness indicates that the bizarre sounding information which Dr. Beter has released in regards to the organic robotoids is also accurate as this Awareness has indicated--up to 90%.

...Bad News for the Flag Wavers....

THE UNITED STATES IS NOW A RUSSIAN SATELLITE

This Awareness indicates that the United States as that which essentially may now be considered as a Russian satellite—that this may shock many entities, but these entities may also be shocked to discover that the United States for the past thirty years or more has been a British satellite. This Awareness indicates that wherein previously the British, through the Rothschilds and the Illuminati or that which this Awareness refers to as the Beast, has controlled more and more of the economy of the legal, medical, commercial, communications and military activities of the United States, to the point where the American policies have been formulated by the forces working with the Rothschilds in Europe, in England and in the United States.

This Awareness indicates that for the average citizen everything on the surface looks normal. This Awareness indicates the energies relating to the secret government, to that which is beneath the surface, not exposed by the public controlled presses and communications systems, the appearance is that which is conducive to allowing the average citizen to assume that all is as it was previously and that America is a free nation—but the secret government which has been in control is that which had been riding on the energies of the Piscean Age of secrecy. This Awareness indicates that secrecy has long existed in areas of political and military intrigue, also in areas of money and religion. This Awareness indicates this also in terms of sex and in terms of certain cultural mores. This Awareness indicates however, that the Piscean energies as now beginning to wane rapidly, the Aquarian energies as becoming stronger and that which has been secret is that which now is coming forth and being seen. This Awareness indicates this is indeed the beginning of the dawn of the magicians—the day of enlightenment.

This Awareness indicates that the Dark Forces which have ruled upon this plane for so long in the control of masses in churches, in political, in economic and in military positions, this Dark Force as that which is losing its grip as the Forces of Light increase their brightness.

THE DISMEMBERMENT OF THE BEAST CONTINUES

(Organic Robotoids Changing the Very Course of Human Events)

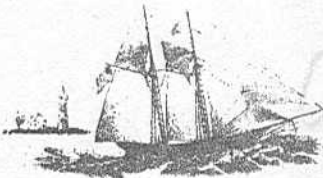

This Awareness indicates the Beast as that which is having its members dismembered—its members are being taken apart at this very time. This Awareness indicates that many of those whom you see on the television screen are not in fact those who you have seen previously using the same names and same faces.

This Awareness indicates that the information which Dr. Duby has given in previous times up to and through the channel, his channel as that which has released much information in terms of secrecy upon this plane. This Awareness indicates that the information which has come through David Worcester as that which released much which had been previously termed as secrecy*. This Awareness indicates that the information being released by this channel as that which also is opening up areas which previously have been held as secrecy.

*Previous channels for Cosmic Awareness before Paul Shockley

This Awareness indicates the Watergate Scandal as that which opened up and released their energies which had been covered and kept secret. This Awareness indicates that the information now being released through Dr. Beter as that which is of utmost importance, and as being of such a profound nature that entities must look at this even though it appears bizarre. This Awareness indicates that this is likened unto those who move out of the dream world and into reality, and cannot believe their eyes. This Awareness indicates that the use of the organic robotoids as that which is changing the very nature of history, is that which is changing the very course of human events, alleviating the suffering and tragedies which would have befallen upon the masses.

This Awareness indicates that those plans released in the fall of 1978 regarding the plans of the Beast in that Gathering Storm information is that which already would have been coming to pass at this time had it not been for the actions of the organic robotoids. This Awareness indicates that the movement of these energies is that which may be likened unto the transferring or transmutation of the Beast, wherein the cells of entities or members of the Beast are being substituted with those other duplicates but that the member being removed which worked for the Dark Force is being substituted by an organic robotoid which is working for Forces of Light. This Awareness indicates in this sense, the Beast is being transmuted from darkness to light.

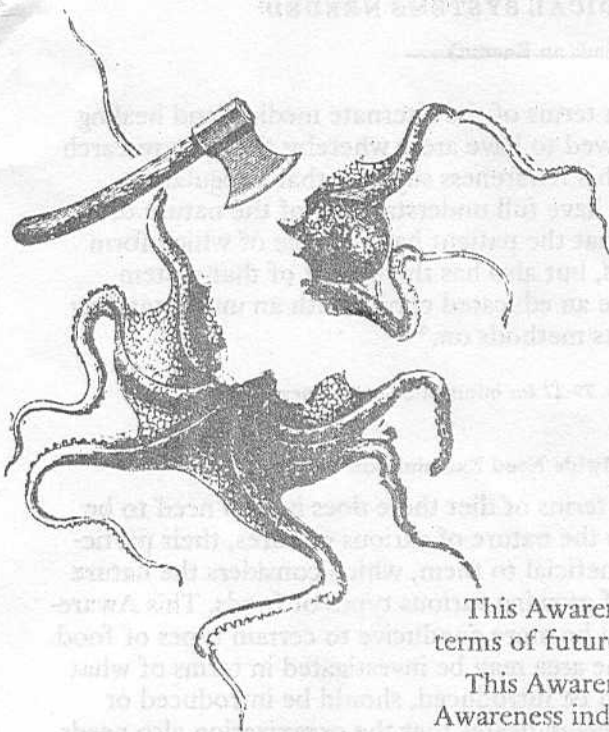

OUT OF THE PASSAGE PERILOUS AND INTO THE STRAITS OF TRANSITION

This Awareness indicates that this is occurring at this time, that entities have moved through the Passage Perilous and are now in the Straits of Transition, and in this transition there are many possibilities. Entities must be aware that the future is never fixed, that the past is fixed—the past has been what it has been, the future will be what it will be, but that the future is not fixed as has the past been fixed by events. The events of the future can be manipulated and changed from that which *appears* to that which *becomes*. This Awareness indicates that the appearance at this time is that the powers which are coming into control of the United States and the world in general are those which are based on Christian beliefs and teachings. This Awareness indicates that the exact nature of the Christian beliefs and teachings of these powers are not necessarily compatible with the desires of all entities upon this earth, but are much more merciful than would have been the powers and nature of the Beast which had little value in terms of mercy for humanity—the Beast being concerned with its own control and power over masses.

This Awareness indicates that essentially the Earth has been salvaged and is now being transmuted into Light—a light planet—the earth as that which has lived in darkness for long periods of time. This Awareness indicates this planet as that which has been considered by most entities in this galaxy as being seventh from the bottom as far as being a dark and lost planet. This Awareness indicates that it now as that which is being seen as a transmuting planet being filled with light. This Awareness indicates that the entities who have worked for the Beast as gradually being removed from this plane, that this removal will have been 30% completed as far as the power is concerned by the time this reading reaches the members of this organization. This Awareness indicates that the removal of the members of the Beast as that which may continue for some time to come.

This Awareness indicates that the nature of the Beast is such that it has always depended on authority for its energy, and when the authority is removed the next member down is in difficulty in making decisions, and as each of these is removed from the top down, it becomes more and more difficult for the Beast to function—therefore the Beast is likened unto an animal whose head has been extracted and its tentacles are now still raging but without any coordination. This Awareness indicates that the Beast may be seen as deeply wounded and unlikely to survive.

This Awareness suggests that it still behooves entities however to be aware of the dangers, for it has been prophesied that the Beast would be wounded unto death, yet would return and all would wonder after the Beast.

This Awareness suggests that you continue to be alert and watchful, that this does not occur.

This Awareness indicates that in terms of what has occurred recently, the nature of the game as that which has reached its final curtain and a new game begins—in Transition Straits you have the opportunity to add to the future that which you wish to see.

COSMIC AWARENESS SUGGESTS WHAT NEEDS TO BE DONE

(Clean-up of Mother Earth Should Begin Now)

This Awareness indicates that *It* wishes at this time to make suggestions in terms of future events.

This Awareness indicates *It* suggests a general cleanup of this planet. This Awareness indicates this to take place in all levels of society. This Awareness suggests this in terms of health—that the organizations which promote health as that which need to be investigated and examined and looked at, this including all of those unions and associations related to medical health. This Awareness indicates that the examination of pharmaceutical industry as that which needs to be looked at to determine how much corruption is linked with this kind of pharmaceutical promotion of drugs and the connection between these organizations—the medical association and the major oil companies.

Remove the Cancer from the American Medical Association (AMA)

This Awareness indicates that there is that which is cancerous in the very nature of the established medical profession, and if the medical profession itself is cancerous, how can it cure the patients? This Awareness indicates that the American Medical Association and the various organizations related to this which have the sanction of big business and big government, are those which have for many years received millions and indeed billions of dollars of energy from masses for efforts which are of little value to the patients. This Awareness indicates that in many cases, these organizations have simply covered up healing systems, healing medicines and healing concepts in order to maintain a particular type of power for personal gain and wealth.

Federal Food and Drug Administration Needs to be Changed

This Awareness indicates the Federal Food and Drug Association as that which also needs to look at itself and to make changes in its very nature so that it can serve the masses in a more beneficial manner without having the influence of big business and government to control its effectiveness in regulating these concerns.

The Controlled Press and Media Need a Cleansing

This Awareness indicates that the communications system whereby television, newspapers and the wires which control the news, which release the news—this also is that which needs to be carefully examined, investigated, researched and revised in order to better serve the masses. This Awareness indicates that industry is that which needs to be more carefully organized and given to coordinating so that duplications which are unnecessary and confusing do not occur.

Nuts and Bolts and Parts Need Standardizing

This Awareness indicates there needs to be a standardization of nuts and bolts and other parts so that there can be more interchange for repairs and for finding necessary parts, rather than each company making its own particular part so that you must come back to that company to repair your particular piece of equipment.

The Nature of Science Needs to be Re-Examined

This Awareness indicates that the very nature of science is that which needs to be re-examined so that entities working in these fields can share information and can relate to each other and have access to each other's information.

Environmental Agencies Need More Say

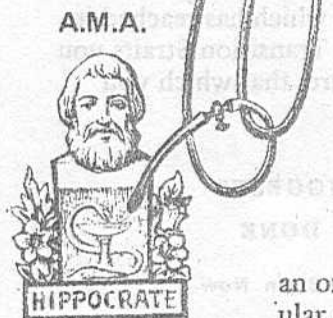

This Awareness indicates that the environmental agencies do indeed need to have a say in what is occurring on this planet, that the very nature of life itself is subservient to the environment—and whereby these entities are pushed into the background for economic purposes, this is a crime against humanity.

ALTERNATE MEDICAL SYSTEMS NEEDED

(Present A.M.A. Needs an Enema)

This Awareness indicates that in terms of the alternate medical and healing systems, that these need to be allowed to have areas whereby they can research to discover new ways of healing. This Awareness suggests that a regulation system which allows the patient to have full understanding of the nature of the alternative medical system so that the patient has a choice of which form of healing system he or she chooses, but also has the theory of that system available so that he or she can make an educated choice with an understanding of what the medical system bases its methods on.*

* Please refer to 'Revelations of Awareness' No. 79-22 for information on the 'new' AMA.

Foods and Diet Worldwide Need Examination

This Awareness indicates that in terms of diet there does indeed need to be an organization upon this plane which considers the nature of various cultures, their particular diet, their metabolism and that which is beneficial to them, which considers the nature of growing food and the effects in those areas of growing various types of foods. This Awareness suggests that for example, certain areas may be more conducive to certain types of food.

This Awareness indicates that these food-growing operations in one area may be investigated in terms of what effects these foods have on the population, whether new foods can be introduced, should be introduced or whether the population is satisfied with those foods. This Awareness indicates that the organization also needs to consider the very nature of the human body in terms of its basic needs for food, the types of food, the refinement of food and its effect upon the human body. This Awareness indicates that this must also include various ethnic groups and the various types and cultures of people and their metabolisms.

This Awareness indicates that altitude and temperature as that which also will have an effect on such diets. This Awareness indicates that this effect on the diets not only to include the physical health but also to research the effects of diet upon the mind of entities, the emotions of entities, and this organization needs to be without any influence from the food industry itself—this as that which needs to be funded not from an influencing agency but from one which is concerned about keeping the investigations pure.

An Organization Needed to Explore the Nature & Causes of War

This Awareness indicates that there also needs to be an organization which explores the nature and causes of conflict and wars. This Awareness indicates that this organization as that which needs not only to release this information to nations but needs also to release this information to individuals through the public medium.

An Organization to Clean up the Oceans, Lakes and Rivers

This Awareness indicates that there also needs to be organizations which work toward the general clean-up of the environment including the rivers, lakes and oceans. This Awareness indicates that these organizations will gradually need to grow larger until they are made part of a global team, a global force which is in fact cleaning up the planet itself.

A 'Holy Alliance' Needs to be Formed

This Awareness indicates that in the future 60 years, there will need to be created an international cooperation whereby the various nations work together to solve each other's problems. This Awareness suggests this may be referred to as a 'Holy Alliance'. This Awareness suggests that the Interpreter's suggestion in a previous booklet as that which would be of great benefit in the future—this being whereby the Earth is divided into twelve general regions, these being based on cultural differences. This Awareness indicates this information as available in the Interpreter's booklet, *The Predictions for the Aquarian Age*. * This Awareness indicates each of these twelve regions to send one representative to each of the other regions, this being 144 entities, the region sending eleven and retaining one entity. This Awareness indicates that the region then would receive eleven representatives from the other regions. This Awareness indicates these twelve representatives would sit in on all policy-making operations, would have diplomatic freedom to enter into any military organization, to enter into any political discussion, to enter into any doors marked "secret" or otherwise normally considered as secret, and to sit in on all discussions of a political nature in any nation in which they are visiting. This Awareness indicates that each nation itself would also have representatives which could be sent to any of the other nations for sitting in on their meetings.

This Awareness indicates that this will require a general agreement by nations. This Awareness suggests the use of the United Nations as that which could allow such a program to occur, whereby the nations represented by this organization may be given the opportunity to join in this alliance whereby they agree to allow representatives from each of the other nations to have complete access to all areas of their own particular nation.

This Awareness indicates that this is something which may be quite difficult for many nations, therefore this must begin with a limited agreement, whereby they allow certain nations to have that freedom of access and whereby they agree the freedom of access to certain places or certain areas or certain levels of secrecy. This Awareness indicates that each thing must begin with one step at a time, increasing to allow more and more access to secrets and to the freedom of movement.

This Awareness indicates that this may take as long as 60 years, but this Awareness suggests that by the time this has become standardized procedure upon this plane, wars and violence of one nation against another can no longer occur. This Awareness indicates that the suspicions and the potential threat of one nation against another would simply be eliminated because all nations would be aware of what was occurring behind the doors of that nation. This Awareness indicates that wherein a nation closes its doors to visitors or representatives, it immediately lets its motives be known, for all the world to see. This Awareness indicates that in this manner the powers which can be built in secret, which can build to the point of becoming a threat to human life itself, cannot occur.

*This booklet has been out of print for several years, but recently revised and updated by the Interpreter and now being reprinted. Price: \$3.00 available from C.A.C. book department or the 'Goodship' of the Aquarian Church of Universal Service.

S.P.I.R.A.L. ORGANIZATIONS (What they Should Do....How to Get One Started)

This Awareness indicates that in terms of individual rights and freedoms, this Awareness has suggested the SPIRAL organizations; that these not be incorporated, that these not be under the control of a central organization, but that these be likened unto an alliance of entities who are concerned, and that these organizations may simply relate to each other. This Awareness suggests each SPIRAL organization may contact others, to give their address and name and to receive from those others the names and addresses of any SPIRAL organizations which they have. In this manner, each organization begins to discover all of the locations and addresses of the other SPIRAL organizations, and may pass information to these organizations so that each is kept abreast of any information which the SPIRAL group may come across. This Awareness indicates this becoming an information sharing action whereby the *Society for the Protection of Individual Rights and Liberties* is truly one of the people's most powerful watchdog organizations because it is not centralized and it shares the observations from all of its many SPIRAL eyes.

This Awareness indicates that this to be such that each individual who wishes to start such an organization may simply contact the others from a list of addresses stating that he or she is beginning a SPIRAL organization in this particular area and wishes to be on the exchange of information mailing list. This Awareness indicates that in this manner, each area may eventually develop its own SPIRAL eye to observe what is occurring, to share with others what is occurring. This Awareness indicates that these organizations may find their financial support from local members or from mailing out information and receiving payment for membership or for the information. This Awareness suggests that this needs not be incorporated and is better if it is not incorporated.

This Awareness suggests that this can become a grass roots type of watchdog activity of the population, so that everyone becomes informed of what is occurring according to the viewpoint of various eyes which exist everywhere. This Awareness suggests that these SPIRAL organizations must be cautious not to let any one particular agency or individual have a control over them. This Awareness suggests that such could occur when the representatives of a SPIRAL organization are invited to a conclave or convention and then from this elect some representative or president of the SPIRAL organizations. This Awareness indicates that this kind of thing could eventually distort unless this were watched quite carefully, could distort the energies so that rather than observing and receiving information, the SPIRAL organizations could be programmed with information from the so-called elected president. This Awareness suggests that such an election can be valuable if the elected one is representing the SPIRAL organizations rather than administering the SPIRAL organizations.

This Awareness indicates that the elected one could speak for the SPIRAL organizations only if this is represented in terms of the actual and well-controlled regulatory system which in fact does represent the opinion of each of the SPIRAL organizations—such as whereby one organization sees something in one way and is represented on paper by a particular position or vote and another SPIRAL organization is also represented for its particular vote or opinion. This Awareness indicates however, when the spokesman simply states that our organizations believe this or that is occurring or should occur, this could very well be simply a smokescreen to cover up and to make it appear that the SPIRAL organizations were all behind a particular type of action or belief.

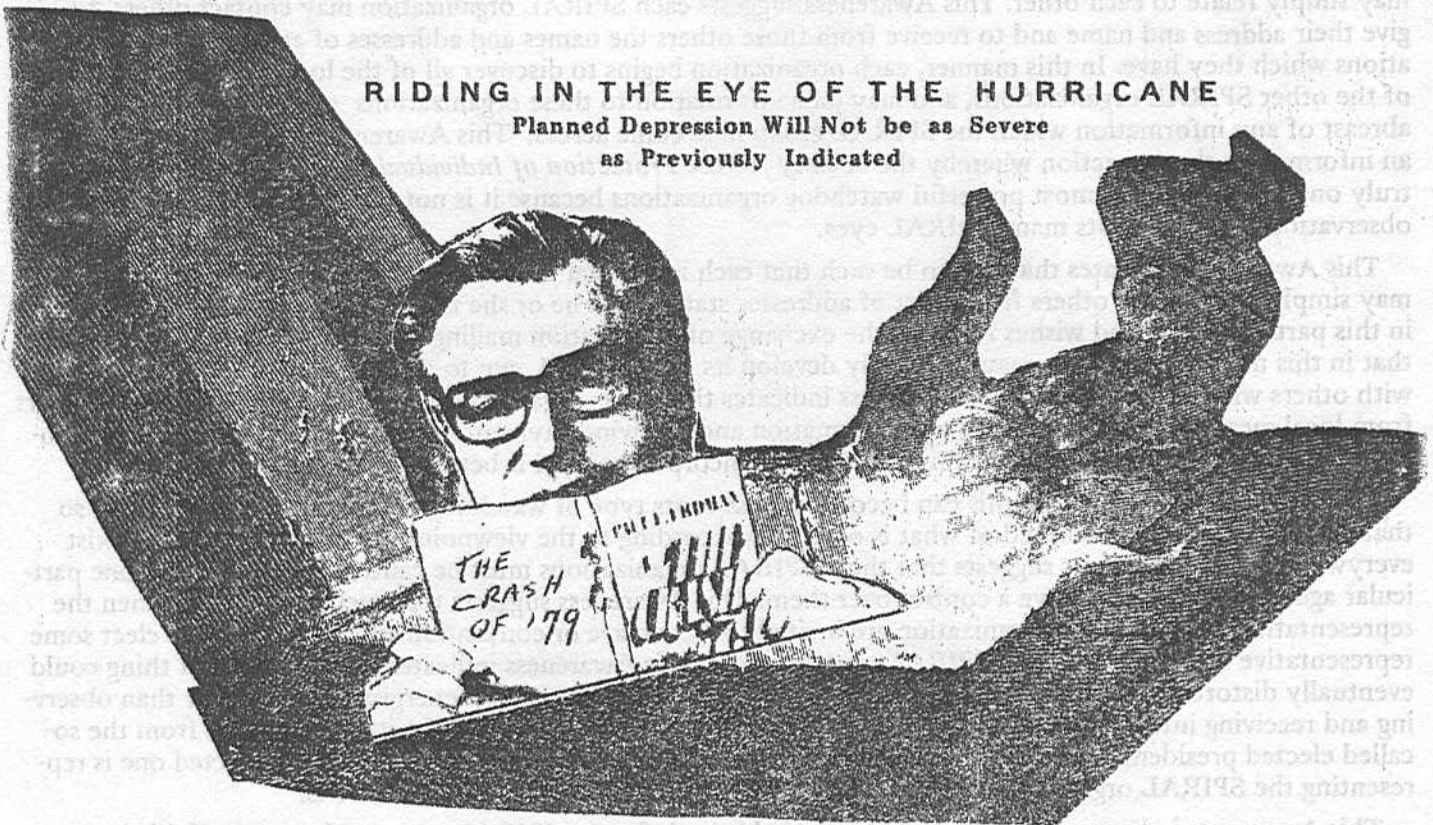

This Awareness indicates that when an entity proposes to speak for a group, but the group has no way of knowing whether this truly represents the group or not, for the individual of the group may feel opposed to what is being said, but by implication must assume that everyone else is in favor of this since the representative says so—this Awareness indicates this kind of so-called representation is simply a manipulation to hide realities and to speak for a group when in fact the group may not feel that at all. This Awareness suggests this be watched carefully by SPIRAL organizations as you grow and develop.

This Awareness indicates that in terms of the general spiritual development of entities upon this plane, this Awareness suggests that entities be allowed to believe what they want so long as these beliefs are not in conflict with the rights of others. This Awareness suggests that when entities' beliefs begin to violate others, this be questioned, for these can lead to great harm and damage. This Awareness suggests that concepts themselves can be of great danger, for concepts are the cause of actions. This Awareness indicates that concepts can also lead to great freedoms and to unbelievable realms of new realities. This Awareness indicates that the masses of this plane are far behind in development in terms of scientific realizations, in terms of the understanding of the Universe, yet they do have a sense of pioneering spirit whereby they are capable of great discoveries. This Awareness indicates the entities upon this plane are capable of inventing and discovering new areas very quickly if given the freedom. This Awareness suggests therefore that regimentation as that which needs to be kept to a minimum so long as violence, hostilities or the infringement of the rights of others is not prevalent. This Awareness suggests that only enough regimentation to prevent such violations of human rights is necessary. This Awareness does not condone the regimentation of thought, or of systems, but suggests that the thoughts, systems, beliefs and concepts be promoted which are of a freeing nature, allowing entities to have the freedom to think, to discover, to wonder, to explore and to become greater forces for good.

ED's Note: Awareness suggested the SPIRAL action in The Passage Perilous reading (No. 79-14, Hotline: \$3.00). Its purpose to inform the public of what is occurring behind the scenes. Anyone can start one. You write letters to newspapers and magazines, print up material and mail to others etc. and sign it SPIRAL (The Society for the Protection of Individual Rights and Liberties). During the nuclear war threat, many entities started SPIRAL groups, writing letters etc. and having Dr. Beter parties to inform their friends by playing the Beter tapes for them. This action was quite instrumental in changing the minds of those in power who were planning that 'first strike' nuclear war against Russia. The more SPIRAL groups the better these days—there appears to be much occurring that needs a watchful eye if we are to continue to enjoy our freedoms in this country. CAC does not have the names of all SPIRAL groups but is willing to act as a temporary gathering spot for addresses until a SPIRAL group volunteers this service. All SPIRAL groups and those wishing to start SPIRAL groups are requested to send their names and addresses to CAC, which will compile a list of these groups and mail it to those who request same. SPIRAL groups have access to the Dr. Beter audio tapes, CAC information and other sources which inform the public of things they should know about but which their newspapers and TV networks will not tell them. 'The price of freedom is eternal vigilance' someone once said. Vigilance is certainly needed during today's uncertain times. Any SPIRAL person or group out there who would like to act as a central coordination point for other SPIRAL groups, please contact CAC. (We really do have enough to do without getting involved in this action at this time.)

RIDING IN THE EYE OF THE HURRICANE

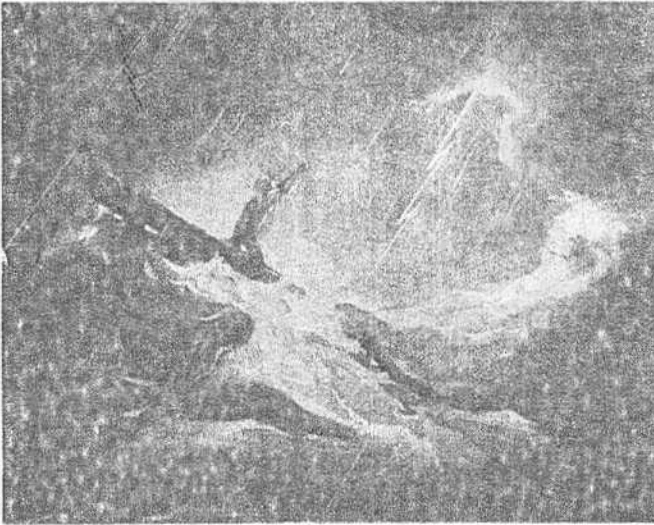

Planned Depression Will Not be as Severe
as Previously Indicated

This Awareness indicates that during the coming months and coming weeks there will be many strange occurrences and events which will cause entities to wonder what is going on. This Awareness indicates that many entities may expect to experience what was described in the *Gathering Storm* information. This Awareness suggests that there will indeed be some of this energy remaining.

This Awareness indicates that essentially you are in the eye of the hurricane—you entered through the Passage Perilous, and are now in the calm within the center of the hurricane, and this Awareness suggests that you not leave this area, but rather allow yourself to sail with the storm in the eye of the hurricane while the hurricane comes to rest, for indeed this is now diminishing. This Awareness suggests that during the coming months the energies which were set in motion for a depression, for a recession as that which will continue to move but will not occur with such extreme effects as has been previously indicated—that some areas may not even feel a great recession, other areas will feel much unemployment and much hardship in terms of money situations.

This Awareness indicates that there will likely be some difficulties in terms of emotional outbursts and possible violence. This Awareness suggests that entities hearing this information avoid entering into those areas of conflict, for these are unnecessary and will soon fade away. This Awareness indicates that the nation of China as that which still has some potential power for causing disruptions, but that this also is somewhat diminishing at this time and appears to continue for some time and that it is unlikely that any great problem will erupt from the actions of this nation.

UNITED NATIONS

MUST END THE AGONY OF THE 'BOAT PEOPLE'

(SPIRAL & OTHERS SHOULD WRITE LETTERS)

This Awareness indicates that at present time there are those entities who are being expelled from Vietnam on boats, that this is a tragedy occurring right at this time, and that entities must be made aware of this for those entities cannot be ignored.

This Awareness suggests that in terms of dealing with this situation, the United Nations is that which is most suited for such activities. This Awareness suggests the United Nations could produce a kind of reward and punishment program for those nations who are not res-

ponding in a humanitarian way. This Awareness suggests for example, a reward of money may be given in terms of support to those nations who take in the refugees, and that those nations who are receiving funds have these rights and funds removed if they refuse to assist. This Awareness indicates that there also can be other sanctions and actions placed upon those nations responsible for the plight of these people. This Awareness suggests also that this all be considered in terms of the wealth and size and general population of the various countries involved, for some nations are incapable of supporting their own people while others have room and money and the capabilities of supporting large numbers. This Awareness indicates that essentially this is a multinational problem and needs to be dealt with in those levels. This Awareness suggests that the United Nations as that which is responsible by its very existence for dealing with these entities, that if it wishes to represent nations and to be what it claims itself to be, then indeed it must take on the responsibilities of such actions at times like this.

This Awareness indicates that in terms of future communications with various nations, this Awareness suggests that there needs to be a new emphasis on human rights, on the rights of the people, where this becomes accented more and more, where the rights of leaders as that which needs to be de-emphasized, and whereby the leaders need to become more sensitive to the individuals under their leadership.

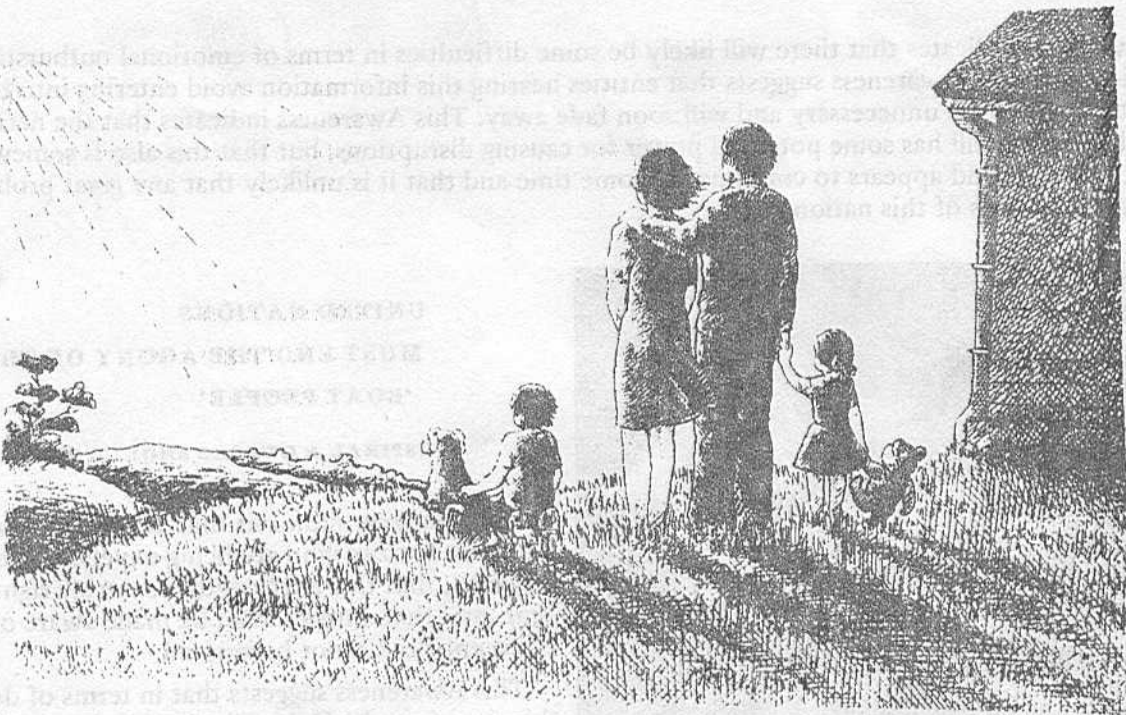

'SPIRITUAL' ORGANIZATIONS

GET OUT OF THE WAY OF DEVELOPING ENTITIES

This Awareness indicates that in terms of spiritual organizations, who represent or claim to represent spiritual laws and energies being passed down to the masses, this Awareness asks these organizations, stand not in the way of developing entities—stand not in the way of those who would climb to higher spiritual energies.

This Awareness suggests there are many such organizations who set themselves up as spiritual dispensers and do not allow entities to have access to the spiritual dispensary. This Awareness suggests that wherein an entity wishes contact with the spiritual energies and another tells the entity, "You must receive this through me," this Awareness indicates then you are standing between that entity and the spiritual energy which he wishes to receive.

This Awareness indicates wherein an entity states, "I need spiritual energy and I cannot receive it for myself, I need this through your channel," then you may use your channel to dispense that energy. This Awareness suggests that you become aware of the nature of spiritual energy, that it is everywhere present and is yours for the taking—but either you or another may block that energy, you may stand in your own way, or another may stand in your way. If you stand in your own way, you may need to go to another to have that other remove those blocks within you which would block that energy; if another stands in your way, it is your right and duty to step aside and bypass that entity and go directly to the source.

From Cosmic Awareness.....

A WORD ABOUT THE CHILDREN

This Awareness indicates that this essentially is a general reading from the Straits of Transition, to allow entities to get their bearings as you begin to sail deeper into the Aquarian Age and to look for new levels of reality.

This Awareness closes with one more concern:

This Awareness suggests that you be very aware of the children, for these entities are those who will indeed be given the responsibility for making this Earth into that paradise which you envision.

Treat these entities with great respect, guide these entities in the proper directions, be tolerant of their growing pains, that they may be directed on the proper course toward that which is the Light which all entities wish to share with one another.

This Awareness suggests this as the conclusion of this reading.

Some of the information in this reading referred to information given in the following readings:
