COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age and those who shall inherit the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of Cosmic Awareness Communications are invited to send in questions of general interest for possible publication in this Newsletter.

FROM TRANQUILITY BAY TO POINT DEPRESSION

C.A.C. General Reading, August 7, 1979
Paul Shockley, Trance-Interpreter

THE RUSSIANS ARE COMING, AND SO ARE HARD TIMES
(How to Batten Down the Hatches to Weather the Storm)

COSMIC AWARENESS:

This Awareness indicates that the movement at this time is that wherein you are leaving the Straits of Transition into that which may be termed the Tranquility Bay. This Awareness indicates this as a time and space wherein a certain amount of tranquility will be experienced, just prior to very fast-moving events which may occur this fall. This Awareness indicates that essentially the entry into Tranquility Bay is that which is a time whereby you may stock up on supplies which will be necessary as your ship moves into that which is Point Depression. This port, or Point Depression, is that wherein entities may expect approximately six months of a slowdown in the economy, whereby unemployment will rise, and the expenses and costs may also rise.

This Awareness indicates that for those in certain areas, particularly areas which have been dependent on military and certain types of industrial income, many of these areas will experience some levels of depression, whereby the economies may be tight. This Awareness indicates this relates also unto the construction business, for as unemployment rises, there will be difficulties in these areas. This Awareness indicates this also in various areas of manufacturing and in sales. This Awareness indicates that generally there will be a slow-down in all aspects of the economy during the winter months.

This Awareness indicates that you may also expect certain changes to occur in the near future, whereby more and more you will be hearing about the nationalization of the oil companies and other major industries which control vital needs of the people of this government. This Awareness indicates that wherein these corporations grow so large that their very existence overshadows the power of the people, and their ability to govern themselves, wherein the people become victimized by the size of these corporations, this then becomes a threat to the governing process of the people. This Awareness indicates this is being noticed, and may become a subject of more and more discussion during the coming year.

Russians Are Coming to Liberate the United States from the Beast

This Awareness indicates that there also will be seen a great movement toward detente with Russia, and there will be certain sporadic activities within this nation where certain types of conflicts occur behind the scenes which can be of a very serious nature, but which will appear only to those who are watching closely. This Awareness indicates that these certain conflicts which may flare up however, could become potentially dangerous for everyone, wherein they become a threat to those forces of Russia which are presently taking control of this nation.

This Awareness indicates that essentially what is happening is that the Russian forces who have thrown out the Bolshevik controls, or the controls from the Illuminati, the Beast, which this Awareness has referred to before, which the *Book of Revelations* has referred to—this Awareness indicates that essentially the Russian people have thrown off this yoke, and are attempting to liberate the United States from this also.*

This Awareness indicates that when this is accomplished, the intention is to increase the productivity of the United States, to have it assist in the efforts to then move into an action of neutralizing the rest of the world in alliance with Russia.

This Awareness indicates that before the United States is moved into this full capacity production, it will experience a depression, whereby the Russian Christians now gaining control of this United States will gain greater control of the economy.

Executions in Washington Continues...Military Soon Under Control, then the Economy

This Awareness indicates essentially the White House, the government in general, has been taken over by these Russian Christians, with the help of certain high government officials in the United States and certain government agencies of the United States, and with the help of certain forces in the military of the United States—these forces having begun to throw off the yoke of the British-controlled Illuminati, or that which this Awareness has called the Beast.

This Awareness indicates that these Russian forces have also begun to gain control of the military, and when this has been completed to their satisfaction, the control of the economy will follow—through the action of allowing the economy to collapse as had been planned by the Rothschilds and Rockefellers in their conjunction with the work of the Beast. This Awareness indicates that the collapse of the economy shall continue as previously planned before these Russian entities came upon the scene, but whereas previously (under Beast control) this was intended as an action to set up emergency controls and dictatorship powers over the people of this nation, the present activity will be one whereby there again may be emergency controls and the dictatorship powers expressed, but this will not be used for the purpose of creating a wartime basis in an attack against Russia as had been planned, for the Russians themselves are in control. This Awareness indicates rather this will be an action whereby the Russians allow this to occur in order to consolidate their control over this country—the United States.

Relative Freedom will be Allowed as Long as Russian Alliance Continues

This Awareness indicates that once this has been accomplished, a relative amount of freedom will be given, and the nation will be allowed to continue on a basically independent type of program, so long as it continues in alliance with Russia.

This Awareness indicates that much of this information, if read solely from this particular reading, will not set well with certain entities, yet this Awareness wishes to refer entities to previous information which refers to the *Gathering Storm*, the information relating to the *Passage Perilous*, and the *History of the Illuminati*, and how they gained control and almost set up a world government which would have made slaves of many. This Awareness indicates that essentially this is not going to occur, but there will be certain forces which the Illuminati set into motion, which will continue and which will be used by those Russian forces now in power.

This Awareness indicates that there are also opportunities in this present situation, whereby entities who are aware and who have the spiritual understanding and the spiritual inclination to see freedom and compassion and mercy upon this plane, to see entities living future lifetimes with a kind of harmony that does not promote or profit by wars of violence, but rather a harmony based on service toward one another—those entities who have that vision have this opportunity at this moment during the coming two years to influence the forces in movement, to influence these forces so that a new world can come about which can bring this vision into fruition.

*References to this information will be found at the end of this reading.

This Awareness indicates now is the time for those who have the vision of the spiritual life to come out and to begin shining and to promote not themselves as spiritual beings and promoting themselves as teachers, but to promote the vision which will give others freedom.

This Awareness indicates those who have these visions to give freedom to others may now step forward and begin to give forth these ideas, inventions, actions, programs, teachings, and service, so that this begins to flower and to develop and to grow in consciousness as the new forces enter into this land.

This Awareness indicates that there are certain considerations which entities must be aware of, that the ignorance of these can bring comfort but will not bring wisdom or understanding in times of crisis. This Awareness suggests this in relation to the vast power which is being held in abeyance, but which could be unleashed upon this nation at any time--This Awareness indicates this in reference to the power of the Soviet Union.

This Awareness indicates the power having been built and given to the Soviet Union by the forces operating with and for the Beast prior to that time wherein the Beast was expelled from the Soviet Union, this power is now that which is directed against the Beast if it should reappear again within the United States. This Awareness indicates these forces could be unleashed against the Bolshevik forces which are presently in the United States, but this would only occur if these forces appear to be gaining power again, and whereby they might become a threat to the Russian people.

This Awareness indicates that this appears unlikely--that essentially the Battle of Armageddon took place behind the scenes and is unlikely to erupt in a major war as has previously been expected.

Stocking Supplies Before the Depression

This Awareness indicates that for entities sailing into Tranquility Bay at this time, this Awareness suggests that you gather supplies to assist you in moving through the time wherein you may not be able to travel--this during the time of Point Depression. This Awareness indicates that many during this time will be mobilized into labor forces--those entities unemployed after the unemployment occurs may be re-mobilized and put into service in various actions and places. This Awareness suggests however, that many who who wish to have greater security during this time would be wise to consider the following:

This Awareness suggests you consider food and heat and an alternative place to live in case of emergency, in case the money flow is cut off and you cannot pay your rent. This Awareness suggests that some of you might consider pooling your rent with another family and moving together in such an emergency. This Awareness indicates that for those owning their own property (or being financially stable), this might not be such a concern particularly when these are already paid for. This Awareness indicates that wherein entities owe large payments on their property, that this, in many instances, will require special concern and attention, particularly where the employment of an entity is threatened.

This Awareness indicates that the storage of wheat, barley, split-peas, lentils, beans, nuts, honey, and other staples; this may include some canned foods, frozen foods or dried foods. This Awareness suggests that this be considered, that this can be considered as a security measure to last for approximately six months.

This Awareness indicates that for heating purposes, coal is likely to go to a cost of over \$100 a ton, oil to approximately \$.85 to \$1.00 per gallon--this for heating. Electricity and gas also may be expected to rise accordingly, therefore, those who have other forms of heat may wish to consider this. This Awareness suggests that a wood stove and proper insulation can be helpful. This Awareness suggests the wood stove may be purchased, that wood may be cut, particularly in those areas where there is much wood available.

This Awareness indicates that many entities may find wood available through the forestry department in certain states whereby contacting the forestry department they may find certain areas which are open for cutting free wood. This Awareness indicates that also entities who have wood in their area may consider cutting some. This Awareness suggests that this be done legally and ecologically so wood which is already down or dying or wood which grows quickly, such as alder--that these be considered. This Awareness does not suggest that trees which are endangered or which are extremely expensive in their value, or which take long years to grow, does not suggest that these be used haphazardly.

In reference to the insulation of your home, this Awareness suggests that this be done early—that plastic may be put on the windows to assist in such insulation, or storm windows may be put on. This Awareness suggests that the walls be insulated properly—your doors and windows have the proper insulation around them—this Awareness suggests that the floors be covered with rug which keeps out much of the cold. This Awareness suggests that entities who can use solar energy consider this also, for the prices of energy in oils and coal, in electricity and in gas will increase considerably during the coming months.

This Awareness indicates likewise the price of foods will increase—that those who can store this will be wise. This Awareness suggests that entities in considering the action of storing food may also consider renting a locker for the storage of frozen food, that those who have home freezers may also benefit by using these as well as renting a locker.

This Awareness indicates that entities who are on medical programs needing certain medicines, will be wise to be sure of having a supply of the necessary medicines or at least to make sure that these medicines will be available through their doctors or pharmacy in case difficulties should arise during the future months. This Awareness suggests that in many cases it would benefit the entity to have alternative sources in case one source should dry up.

What to do Should you Lose your Job

This Awareness indicates that entities may also consider what they would do in case their own particular occupation might be terminated. This Awareness suggests that you consider whether your occupation is the type which would be terminated in a downturn of the economy, considering how long you have worked, the demands for your type of work, and the demands for the product or service which your operation produces. This Awareness indicates that in considering this you may recognize that a downturn of the economy would not affect your job, therefore there is little need to be concerned; or you may feel that such a downturn in the economy would quite likely mean the end of that particular job. This Awareness indicates in such a case the entity might consider changing jobs now, or finding another job which would be more secure, or having some alternative as a way of earning his or her livelihood when the downturn occurs. This Awareness indicates that it would not be wise to quit your job before finding another, but it might be wise to look for a job which would be more secure or more stable in times of crisis. This Awareness suggests that you consider seniority as a factor, for often new persons hired will be the first to go.

FEAST Centers Should be Activated Now

This Awareness indicates that those who are preparing for the FEAST center, the trade center operations under the *Aquarian Church*, will find themselves becoming more involved, and the needs for their services increasing—this as a way of profiting during the depressed times. *

This Awareness suggests that the Interpreter should have the remainder of this FEAST center packet completely printed and to the centers by no later than the middle or end of September in order to give these centers the time to get their own actions established, flowing and ready to operate. This Awareness suggests that the sooner the better on this. This Awareness asks that the staff of C.A.C. remind the Interpreter to work on this so that he does not let this slip by any longer than is absolutely necessary. This Awareness indicates this as a priority among several other priorities for the Interpreter, but that this must not be put off any longer than those dates given. This Awareness suggests that if this were available by the first of September this would be even better. **

FEAR NOT

This Awareness suggests that those entities who are listening to this message may automatically begin to look at their own situation and become insecure—this Awareness suggests that is a natural reaction—the future, in terms of a negative peek, is always seen as more frightening than it deserves. This Awareness indicates that when entities move into any situation which appears dreadful, the dread is usually worse than the situation—that entities may expect to move into these changing times with certain hardships, but that these will not be anything which cannot be borne by entities. This Awareness suggests that you reflect back five years and look at the present time. This Awareness indicates if someone told you five years ago what would be occurring presently, you would look at this time with foreboding and dread, and would be frightened. This Awareness indicates that as you are in this time now, it appears normal. This Awareness suggests that likewise as you move into these more difficult times, there will also be many compensations which are pleasant and rewarding to compensate for the slowdown in economy which tends to hinder certain other activities and areas of your life.

This Awareness suggests that entities not panic in reading this information, not to become fearful, but to prepare. This Awareness suggests that you not write to C.A.C. and their staff with frightened letters of concern—"What shall I do"?—but that you examine carefully your situation, discern as much as is possible.

*If you do not already have it, we suggest the booklet, "Saving Fortunes by Sharing Favors" (How to Side-Step the Coming Depression), \$2.00 available from C.A.C. or the Aquarian Church.

**Vikki T. has accepted the responsibility of needing the Interpreter about this. (She is a Taurus).

This Awareness indicates that the Interpreter as having completed all but seven of the 71 Personal Readings from the last year, and will complete these seven within the next few days. This Awareness suggests the Interpreter to allow approximately ten readings per month according to his time and energy available for these. This Awareness indicates that entities having particularly sensitive situations may send in for readings. This Awareness suggests however that these be limited to approximately ten personal readings per month, and this be on an appointment basis. This Awareness suggests that entities wishing a reading from the Interpreter may send in requesting this, having their names placed on a list, that the Interpreter will then determine how many per month he will have the time and energy to do. This Awareness suggests this be approximately ten. This Awareness indicates that when an entity's name reaches the top ten on the list, the Interpreter may write these entities, these top ten, and give them the information that theirs can be done during the coming month. This Awareness indicates that at that point the entities who still wish to receive the readings will send in their questions for readings, along with their donations. In this way, the Interpreter does not receive the avalanche of requests as when he received over 50 readings requests in a two month period. This Awareness indicates that this becomes an overwhelming burden to attend to such a large order and creates a psychological block, whereby the Interpreter has difficulty in approaching the situation. This Awareness suggests that the Interpreter can accept ten readings per month without difficulty—that this can be increased or diminished according to his energy level. This Awareness indicates this also prevents entities of the membership from feeling frustrated at having to wait so long after having paid for their readings.

ED's Note: Information and release forms which must accompany all personal readings will be found in the 'Personal Services' booklet.

IF RUSSIAN TROOPS INVADE THE U.S.
 ("Fear not....Only believe")

This Awareness indicates that essentially the membership of C.A.C. is being given an advantage over most entities in this nation, for you are being given a sneak preview of times to come so that you may prepare yourself for these times—and as magic is in the preparation, you will be able to weather through this time of Point Depression much better than most entities. This Awareness indicates that six months in this port, or this Point Depression, is that which appears to be the duration, thereafter the economy appears to pick up and move forward and a new time of construction and activities will emerge.

This Awareness indicates that in many ways, the fact that the American people are apathetic can be a kind of blessing during these times. This Awareness indicates that were they more radical and active, they might attempt to create a revolution to throw off the Russian influence in this nation, which in turn would likely be cause for the Russians to unleash extremely heavy and powerful weapons against the people themselves. This Awareness indicates that there are preparations as indicated in the Dr. Beter tape for certain Russian invasion of troops and the occupation of this country, if it becomes necessary according to their point of view. This Awareness indicates that essentially times of the coming year shall be unusual and somewhat disarming if you'll excuse the pun, yet entities who understand the *Law of One* will recognize behind every human face is every other human face—behind every set of eyes there is a divine spark of the Universal Deity, and this is so whether the entity is American, Russian, white, black, red, yellow or any other color, or of any other religion or any other nationality.

This Awareness suggests that when you speak to others, regardless of the situation, whether these entities are of

foreign tongue or of American tongue, this Awareness suggests you address that spark of deity behind the eyes.

This Awareness indicates there is no need to fear, there is need to be aware, and to remember who you are in the deepest sense of your being. This Awareness asks you not to forget your own divinity, and to avoid falling into mob madness, or the consciousness chaotic, but to remain in the divine sublimity of yourself.
