

COSMIC AWARENESS is the Force that expressed *Itself* through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the *New Age* of spiritual consciousness and awareness. Since 1963 *Cosmic Awareness* has been communicating through certain carefully-trained channels. The information contained herein was received from deep, super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the *New Age* and those who shall inherit the *New Age*. Throughout the many, thousands of 'Readings' given through these channels, *Cosmic Awareness* repeatedly tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. *Cosmic Awareness* will only indicate and suggest. Members of *Cosmic Awareness Communications* are invited to send in questions (on anything of general interest) for possible publication in this Newsletter.

THE SPIRITUAL SNOB

(IGNORING THE BEAST WITH POSITIVE THINKING)

An open letter from Cosmic Awareness
to those who feel C.A.C. is spreading 'negativity'

Paul Shockley
Trance-Interpreter

QUESTION:

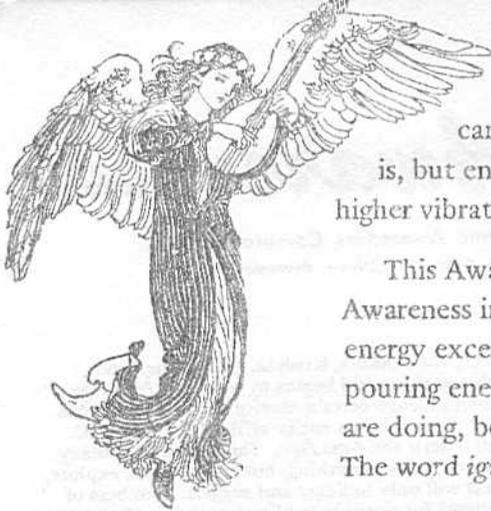

From time to time we receive notes like the one I am going to read; and the thought occurred to us that when this *Gathering Storm* information is released, the possibility exists that a lot of the membership of C.A.C. will choose to drop out. This information has not gone out yet, but we still occasionally receive cards like this one today, and I would like to ask Awareness for a response we could send out when we cancel a membership on this basis. The card reads:

"Please discontinue sending your material to us. We believe that 'thoughts are things' and the negativity you send out is very detrimental to the whole earth. We will be thinking in a positive way and raising our and other consciousness for a good life on earth." It was signed, Mrs. D.M. of Roscoe, Montana.

COSMIC AWARENESS:

This Awareness indicates that there are many entities who believe that by not looking at factual realities they can escape from these realities. This Awareness indicates that there are many entities who believe that by thinking of flowers, trees, light, and angels, that the weather outside will be changed. That the lady next door who is dying of cancer will suddenly be healed. That the war which is on the horizon will be ended, that the airplane which crashed yesterday, or which will crash tomorrow, did not occur, or will not occur.

This Awareness indicates that many entities believe that 'positive thinking', as it is called, is the ultimate total answer. This Awareness indicates that this is erroneous and such entities are actually deluding themselves and may as well spend the rest of their life in a theater watching comedy. This Awareness indicates that these entities are simply entertaining themselves, likened unto mental masturbation.

This Awareness indicates that what is, *is*, and thoughts ignoring what is cannot change *what is*. This Awareness indicates there is a way to change what is, but entities must begin from where one *is*, and *what is*, and work from there toward higher vibrations.

This Awareness indicates you cannot ignore *what is* and expect it to go away. This Awareness indicates that in some instances this can be done wherein the *what is* has little energy except that which you yourself are giving it. Wherein there are thousands of entities pouring energy into creating a situation, and other entities are simply ignoring what they are doing, believing that by ignoring this, it will go away—these entities are simply ignorant. The word *ignoring* and *ignorant* are of the same root.

This Awareness indicates that those entities who stare at flowers permanently, looking at nothing else, may be in for a big surprise.

This Awareness indicates that the followers of Jones* were positive that they were moving toward a utopia, otherwise they would not have followed this entity, given up all of their goods and wealth.

This Awareness indicates that there are many errors in the philosophy of 'positive thinking'; there are certain areas wherein positive thinking can be of great benefit. This Awareness indicates wherein positive thinking is related unto one's own attitude toward one's self, wherein one can begin to think positively about one's capabilities, about one's ability to improve, to develop, and to grow—this is very beneficial. Wherein one simply avoids the negative, letting the dying child die, letting the sorrow and suffering which is outside the door continue to scream and wail; wherein one sees the automobile wreck, but says, "I will ignore that because I AM TOO POSITIVE TO DEAL WITH NEGATIVITY,"—this Awareness indicates this is of a different nature.

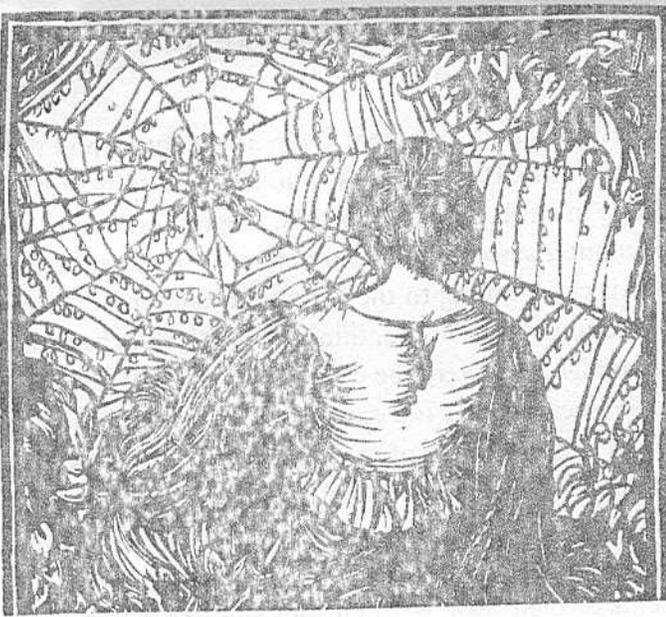

This Awareness indicates that wherein this Awareness does trance healings for others, wherein this Awareness, through this Interpreter, tunes in to those entities needing healing, this Awareness does not state: "I will ignore your suffering because I am too positive to bother with negativity." This Awareness looks at the suffering, and from that level of suffering, from that negative reality, This Awareness begins to move the energies, step by step, carefully, slowly upward toward that which is more positive in nature.

This Awareness indicates you begin with *what is*, then direct it to that which is the desired level. But you do not ignore *what is* and pretend that it does not exist. This Awareness indicates those who ignore *what is*, even if it is negative, are not contributing anything to this earth—they are simply remaining ignorant and escaping, temporarily, without assisting in raising the vibrations of this plane.

This Awareness indicates that there are some entities who can walk into the midst of battle and raise the vibrations and help to bring about peace. Other entities, upon hearing about a battle, are completely 'freaked out' and turn the information off and grab a comic book, thinking that they are contributing to peace on Earth. This Awareness indicates these entities are guilty of contributing to the error upon this earth: for wherein there is any suffering anywhere upon this earth, all entities are somewhat responsible—either from *not doing* something to stop that error, or from ignoring the error, or from not realizing the error exists. This Awareness indicates the only entities who avoid responsibility for error are those who attempt to resolve that error and give their energies in some way to bring about a harmony upon earth by reconciling those differences which exist.

This Awareness indicates It is not elated when entities ignore the sufferings of others and gloat or brag that they are positive in their outlook and cannot be bothered with details about negative situations. This Awareness indicates the entity who does not wish to be informed about these realities shall, indeed, experience these realities within the proper time. This Awareness indicates those who are informed and who take some constructive and positive action to assist in bringing about the harmonious reconciliation of the conflict—these shall find great reward for their experiences.

QUESTION:

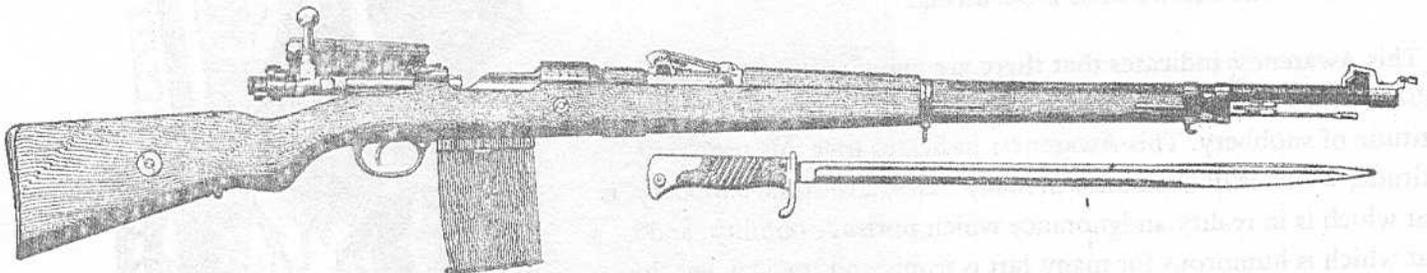

Along the same line, we have a letter from B.S. of Lakewood, Colorado. "I have some questions for Awareness: How does the healing of the A.R.E. group meetings differ from that of the Awareness? I might add that my group voted to keep the Beast off our healing list because it was too political. I don't think the Beast, or the Awareness for that matter, is real to them and this bothers me, as I don't understand how their lives can be so complacent or smug that they have no concern or thought for the future. If this attitude is generally prevalent with the American public, the Beast should have a field day. The question is, if the Beast were to be put on every healing list of every A.R.E. group in the United States, couldn't it be stopped cold, at least in this country?" *

COSMIC AWARENESS:

This Awareness indicates this could be of great benefit in assisting the lessening of the sorrow and suffering. This Awareness indicates that by your question you reveal yourself to be a clear channel. This Awareness suggests that you need not study those channels who do not recognize these levels, for you yourself are capable of channeling clearly.

This Awareness suggests that many entities having set up their comfort zone, being told of the wolf outside, being told of the storm which is coming, preparing themselves for bed, not wishing to attend the flock outside, not wishing to bar the doors, not wishing to deal with realities—many entities simply believe that by pulling the wool over their eyes, falling asleep, that it will all go away so long as they have a smile on their face and a vision of sugar plum fairies in their head.

This Awareness indicates that this is an unfortunate belief, for there have been many victims slaughtered and sent to their graves, even though they had beautiful images within their heads. This Awareness indicates that smiles and beauty have their place, but bullets and soldiers and guns also have taken control of many places which once held smiles and beauty. This Awareness indicates if you do not realize this, you should speak to certain entities who have been through the wars, who have seen the bayonets, who have experienced the tortures—many of these entities who once were smiling and joyful and never believed anything could happen that would disturb their joy. This Awareness indicates this kind of complacency is that which is the downfall and which will lead to the suffering in this nation.

This Awareness wishes entities to recognize before it is too late that the complacency, the apathy, the ignorance, the desire to be gratified and entertained is that which is the drug, the stupor, the opium which the Beast has placed upon your consciousness, so that it can walk in and trample upon you without your even realizing what has occurred. This Awareness indicates that *It* can do nothing more than to inform entities—for entities are the arms and legs of this Awareness upon this plane.

This Awareness indicates that wherein entities choose not to be aware, choose not to know what is occurring, choose simply to continue in their stupor, in their sleep—these entities are contributing to that which is the energies of the Beast, and are therefore traitors to the cause of humanity.

(Contributing to the Beast)

This Awareness indicates that there are many women upon this earth, particularly in the United States, who have found their security by investing in steel, in war potentials, in guns, in munitions factories, in computer systems, and in other types of systems whereby their money is contributing to the Beast, and they sit at home drinking tea, enjoying the good life, thinking positively, chanting and smiling as though they were the next in line to speak to Jesus. This Awareness indicates there is a great irony in this, and there is a great tragedy in this, for many of these entities have sorrows within their heart for the sons and for daughters who have suffered because of the wars, the revolutions, and the tragedies that have occurred which, if looked at carefully, could be seen to have come from investments of their own, or of entities who are investing, in similar manner. *

This Awareness indicates entities seeking money at any cost, regardless of where it goes, what it promotes, these entities finding the good life, the sweet life, then claiming themselves to be Christians, to be worthy of heaven because they don't know where their money is going—they don't know that their money made a bomb that just wiped out a child and a mother in another nation. They don't know that the money which they invested in a certain stock caused the manufacture of a particular type of war mine which burst as a shrapnel and deboweled some small child or cut off an arm or leg. This Awareness indicates that many of these entities, pleading ignorance at the final analysis, will discover that their ignorance is not an excuse.

* ED'S NOTE: Almost all the stocks listed in the Dow-Jones Industrial Average are directly or indirectly involved in the war machine. These are the stocks most purchased by banks and trusts and insurance companies which pay dividends and annuities, 80% of which goes to women.

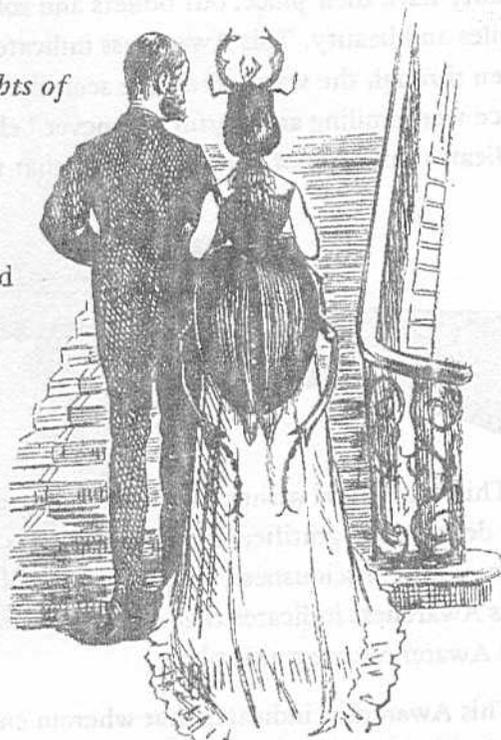

This Awareness indicates entities here at C.A.C. are risking their lives that idiots like some of those out there who are reading this material and who object to the negativity which is being expressed, thinking in the snobbish manner that they are contributing more by ignoring these levels, thinking in the snobbish manner that they are creating greater joys and freedoms upon this earth by simply thinking of flowers, beauty, harmony, and good times—these entities are deluding themselves.

This Awareness indicates you may chose to read the book, *The Knights of Malta**—there is a definition of nobility and snobility: this Awareness indicates a snob is one who pretends nobility, but has none; a noble person is one who knows what is occurring.

This Awareness indicates that there are many entities who appear and believe they know what is occurring and create an expression and an attitude of snobbery. This Awareness indicates that this snobbery attitude, which is likened unto in many cases, a spiritual snobbery, is that which is in reality an ignorance which portrays nobility, and is that which is humorous for many but is ironic and tragic when the entity expressing that spiritual snobbery is not aware that he or she is being laughed at, or is being a spiritual snob.

This Awareness indicates that those entities who know what is occurring can only look at the spiritual snob and shake their heads in sympathy.

This Awareness indicates there are many entities expressing the spiritual snob energies upon this plane at this time, and these entities deserve sympathy—but little respect.

This Awareness suggests that entities not waste their time on spiritual snobs other than to let them know that you recognize that they are spiritual snobs. This Awareness suggests you call them by such a name in order to awaken them, and in this terminology they may begin to understand what they are doing. This Awareness suggests this not to be a condemnation, but as a shock effect to awaken entities from their complacent pat-on-the-back attitudes to one wherein they look carefully at what is happening, and ask themselves: 'Am I doing all that I can do, or am I simply avoiding responsibility by pretending to be above concern for that responsibility?'

This Awareness indicates the more entities there are who avoid the responsibility, the more that responsibility is dumped upon those who take it on. This Awareness indicates that those who avoid the responsibility for dealing with these energies of the Beast will be held responsible for the heavy karma which is placed upon those who accept that responsibility.

This Awareness indicates that the entity Christ taking upon himself the sins of the world, taking upon himself the karma of the world because other entities would not do so. This Awareness indicates that all entities who refused to assist in taking upon the karma of the world, who ignored the need to take this upon themselves, who contributed to the negative karma of the world—these entities indeed shall be given their share of the karma—the consequences for their ignorance, for their ignoring, for their avoidance, and for not accepting the responsibility that each entity has chosen *by being born upon this plane.*

**ALL ENTITIES ASKED TO BE BORN UPON THIS PLANE...
ALL ARE RESPONSIBLE FOR SHARING EARTH'S KARMA**

This Awareness indicates that many entities believe that they did not ask to be born upon this plane and therefore do not wish to deal with its problems. This Awareness indicates this is not the case. Each entity born upon this plane either was brought here to work out personal karma which had been created previously and needed to be balanced, or was brought here to learn a lesson, or was brought here to take on karma of the plane.

This Awareness indicates there is none here who did not choose to come to this plane, and none here who does not have a purpose, either in clearing out negative karma from one's self, or assisting in clearing out the negative karma from this plane—and any entity who refuses to take upon himself the obligations, the purposes for which he or she came into this plane, will have these purposes, these energies and these experiences *doubled, or tripled, or quadrupled—whatever it takes to awaken the entity to that which was his or her purpose in coming.*

This Awareness suggests that the complacency is only a temporary illusion—that you may escape through movies, through television, through drugs, through euphoria techniques—that none of these can be a substitute for facing reality and serving others and changing consciousness and lifting the vibrations. That to lift vibrations, you begin with *what is*, and move to *what can be.*

This Awareness suggests if you do not recognize this, try telling a terminal cancer patient that you do not believe anything negative will happen to her or him and then check back with the doctor and find out whether the entity has been cured because you *refused to believe there was anything wrong.* This Awareness indicates the *only way to heal another* is to recognize *what is*, and move from there to *what can be*; the only way to heal an earth is to recognize *what is* and then to move from there to *what can be.*

THE SPIRITUAL VAMPIRE

Saying, 'Thank you, George Washington'
Does Not Earn You Your Liberty

(Closing Message)

This Awareness indicates that entities often seek assurance, entities often desire the comfort and gratification that others can give that they can give themselves. This Awareness indicates that this is a beautiful thing when it is available and does not take from the energies of others. This Awareness indicates that there are many entities upon this plane, down through history, who have been highly gratified, have been given pleasures and joys, who have been made comfortable beyond imagination, who have literally created a heaven upon the earth at the expense of others—this Awareness indicates that these entities have stood out in history. These entities have had the spotlight upon them and many entities have envied them greatly. This Awareness indicates that most entities do not recognize or realize that in a following life, or in a previous life, that particular entity did not enjoy such blessings.

This Awareness suggests that everyone appears to desire and wish to achieve happiness, glory, comfort, all the good things in life, regardless of who has to pay the ticket for that glory ride—and most entities prefer that they, themselves, not be charged for this ticket. Most entities believe themselves to be of such special calibre that they should be given everything they want freely, without having to give anything in return.

Most entities believe that by saying, 'Thank you' to George Washington, Thomas Jefferson, Thomas Paine, that they have earned their freedom. Most entities think that by saying, 'Thank you' to their grandfather or uncle or parent, that they have earned their inheritance to the wealth which they have received. This Awareness indicates that most entities think that by saying, 'Thank you' to their neighbor, to their room mate, to their mate or friend, that they have repaid any kindness given. This Awareness indicates that words are *not* repayment. This Awareness suggests that *service* is repayment.

This Awareness suggests that wherein one does not seek repayment, that the entity may then give service to someone else and pass on that good favor. This Awareness suggests that nothing can be brought about from a relationship which is one-sided, except an imbalance. This Awareness suggests that entities who feed off the energies of others are but vampires, and that all entities to some extent tend to feed off the energies of others. This Awareness indicates that wherein an entity feeds off of another, that entity can give back an energy or pass an energy on. These entities, then, are productive and are creative and have a vitality which can be shared. This Awareness suggests that entities learn to tap into those energies where they are creative, productive, and capable of providing and sharing energies to bring about a higher vibration upon this plane—and when such entities are capable of this, they rise above vampirism and become likened unto gods.

This Awareness indicates there is within each entity the potential to be a god of creative and divine force, and there is the potential to be a vampire, living off the energies of others because they refuse to recognize their own divinity. This Awareness indicates the vampire, regardless of how long it may feed off of others, is in a process of dying. The entity who is creative and vital, regardless of how many or how much energy is being syphoned off by vampires, is in a process of development and growth.

This Awareness indicates that the vital person shall remain and continue as everlasting life. The vampire, feeding off the energies of others without returning equal or greater energy, by his very nature is in a process of self-destruction—for if the vampire destroys and consumes the energy of the vital person, then the vampire has nothing left to feed upon, and is left to feed upon himself. This Awareness indicates that it behooves entities to discover that the divine forces are within themselves, are available to each and every one, and that you need not feel a separation from divinity, you need not feed off of divine entities.

This Awareness suggests that those entities who believe they are divine because they get their divinity from the energies of others are, in fact, vampires. This Awareness suggests that entities look carefully at these energies and at themselves to determine where their sustenance comes from. This Awareness indicates that each has the ability to tap into creative and divine energies simply by being receptive and open—for divinity, life, vitality exists even in the air you breathe and in everything about you. In every atom of your being it is there for your joy and for your taking—it needs not come from your neighbor, your mate, or from those who have sacrificed their lives that you might have pleasure.

This Awareness indicates that the efforts of those in *Cosmic Awareness Communications*, whereby these entities are risking their lives that you might be informed, should be respected; that those entities who, through certain snobbish attitudes, refuse to recognize what these entities are doing, shall eventually be informed—if not in words from this Awareness from *Cosmic Awareness Communications* messages, if not in messages sent to you in the mail—then in experiences in your own life. But you will eventually be informed.

ARE

SHOULD THE EDGAR CAYCE FOUNDATION INFORM ITS MEMBERSHIP ON WHAT IS COMING ?

(A Message to Hugh Lynn Cayce)

And other New Age Groups

QUESTION:

The information Awareness gave yesterday and the day before in relation to the intensities ahead and the necessity of setting up trade centers, is information that we should like to get out to all the New Age groups and publications with the request that they disseminate and reprint this information. One of the biggest organizations is the A.R.E., the Edgar Cayce Foundation, and although we communicate back and forth over the years, we don't get any response. And I would like to ask Awareness, if it would help to disseminate this information through the Cayce Foundation, and if there is some message It might give for the entity, Hugh Lynn Cayce, that we could send him that might sway him into including the information to his membership.

COSMIC AWARENESS:

This Awareness indicates that whenever this entity is open to further exploration, that there are many areas whereby this can be accomplished. This Awareness suggests that the entity as feeling obligated to promote the Edgar Cayce Readings and feels a necessity to devote his energies toward that end, rather than extending into other areas. This Awareness indicates that this is appropriate for this entity—that it also would be appropriate, wherein the entity is so inclined, that they might assist in the urgencies which are occurring during the coming years in relation to the crisis which has been discussed—this in terms of the computerized electronic-fund-transfer, the 'Mark of the Beast' and the efforts to enslave humanity.

This Awareness indicates, however, that the choice as being that of each individual as to what involvement he or she may wish to take. This Awareness suggests that wherein one becomes alerted to an action and chooses to avoid involvement, that this is a reflection of the entity's condition and this may be the statement of that entity according to his or her level of response-ability. This Awareness suggests that those who can respond, make their statement in action.

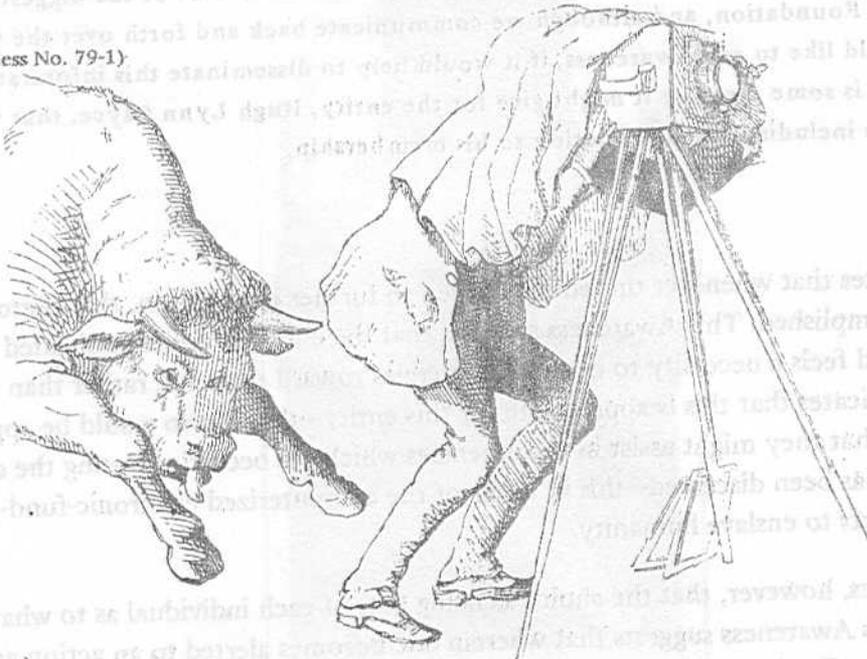

This Awareness does not wish to pressure any entity into responding, but to make entities aware. And in that awareness, entities have the capability of making clear decisions in terms of what they shall or shall not do, and thereby the consequences of actions or inactions can be clearly seen. This Awareness suggests that there are many entities in many groups who are capable and willing to respond wherein a clear understanding of what is needed can be presented. This Awareness indicates that this depends largely on how this information is presented and whether it appears to be presented freely or with strings attached. This Awareness suggests that the trade center material, the packets, may be presented in a way whereby entities can become involved through the *Aquarian Church* or *Cosmic Awareness Communications*, if they so desire, or whereby they may participate in trade center activity without involvement in these organizations, or whereby they may involve their own organization in assisting to set up trade centers around the country.

This Awareness suggests that this allows three possible alternatives: the involvement through your own organizations, independent or private involvement, or group involvement through other groups or organizations. That this can be presented in a way whereby all entities involved see the potential and value in this kind of action and have a choice of which means of involvement they wish to apply the information to their own situation.

This Awareness indicates that the information given yesterday may be revised according to any needs to make this adaptable to various groups, to individuals, or to your own understanding of the changing and uncertain directions which the energies may take. This Awareness indicates there can be some changes in laws during the coming months or years which will effect the nature of the action. There may also be changes in the economic system which may change the timing of events. This Awareness suggests that at present, the timing indicated in yesterday's reading appears to be relatively fixed and probable.*

ED'S Note: C.A.C. wrote to Mr. Cayce on Nov. 10, 1978 and again on Feb. 21, 1979 with a request he inform his membership about the heavy times that are coming and to consider trade center activity. The Gathering Storm, trade center information and many other communications from Awareness have been sent to him. His only response so far to our letters and communications is the request to send to him information which clearly confirms that similar sources are being tapped with the Awareness as with Edgar Cayce. Having mailed him much Awareness material, including 78-26 (More About Edgar Cayce), we don't know what to say. Maybe you A.R.E. people out there could write to him if you believe what Awareness has been saying is true.
