Awareness

Cosmic Awareness Communications

P.O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

WHAT IS GOING ON IN IRAN ? (PUTTING THE PUZZLE TOGETHER)

Paul Shockley
Trance-Interpreter

(Opening Message from C.A.C. General Reading)
November 23, 1979

This Awareness indicates the energies which have been in movement behind the scenes, those energies which have heretofore been expressed in words and in whispers, these are now beginning to manifest in the open whereby the expression of these energies will be seen and recognized by those who have been informed of that which has occurred behind the scenes. This Awareness indicates that this in relation to the continuing conflict between those forces which this Awareness has referred to previously as emanating from the Rothschild influence and those forces which have moved into the high echelons of the American government and which are working with the high echelons of the Americans who are attempting to throw off the yoke of controls which emanate from this Rothschild force.

This Awareness indicates that essentially the crisis building in the Middle East is that which is an attempted revision of that which was scheduled for May of '79 which was avoided by the actions of certain key Americans working in conjunction with the new Russian leaders and their programs for wresting the power from those who would have brought forth nuclear war in the Middle East. This Awareness indicates the efforts at this time by those same forces which would have brought forth this war in the Middle East, these efforts are again being put forth to create the atmosphere and climate whereby this might yet occur.

This Awareness indicates essentially the so-called Moslem forces which are operating in Iran and in other Middle East nations are largely being influenced by British intelligence agencies. This Awareness indicates this as certain key elements of the British intelligence units, that these working with the Rothschilds in an effort to destabilize the area whereby this might lead to confrontation between the areas of the Middle East and also there includes an effort whereby these forces of Russian and the United States might be divided and thrown into conflict.

This Awareness indicates that it appears this as not likely to succeed in the latter case, that there is some chance of increased hostility and potential explosive danger in igniting a Middle East war. This Awareness indicates that however, there is also a great effort on the part of the American strategists to avoid this if at all possible. This Awareness indicates that it appears also that the Russians will tend to side with the Americans in such a confrontation if this should occur. This Awareness indicates that the distinctions on the surface level between countries and their allegiance or alliance with one another is that which is not always clearly definable as there are elements within each of these nations who are vying for control of the nation, and in the event that an element working for the Rothschild interests takes control of the nation or of part of that nation, it becomes a possibility for them to throw that nation against another which would otherwise have been an ally. This Awareness indicates in this manner, there is the potential for approximately any type of situation to occur—that the likelihood is that the situation in the Middle East will flare up into a crescendo of conflict and with careful guidance the actual large-scale conflict may be avoided—that this can also be guided and used as a method whereby the Executive Orders can be put into effect, granting National Emergency Powers which will then have its effect on this nation of the United States, whereby the consolidation of power by those who are presently at the helm can occur, and thereafter the new directions and guidance by these forces may become more stabilized in this nation.

This Awareness indicates that this is both good and bad news—for many it will mean repression, for others it will mean greater movement and expression of their interests. This Awareness indicates that essentially the world is entering a time of turbulence whereby much change shall occur on many levels and those secret organizations which have operated behind the scenes in controlling others shall begin to surface and move into conflict with one another. This Awareness indicates that the greatest efforts of Light groups and Light workers is to assist wherever reasonably possible in resolving these conflicts.

This Awareness indicates that the first and primary action is to preserve yourself and your families; the next is to solidify your holdings and foundation so that you can operate effectively; the next is that you operate this foundation for the purpose of assisting to lessen the sorrow, suffering and tragedy in the world. This Awareness suggests that this be done through service and through various forms of assistance: physical, emotional, mental and spiritual.

This Awareness indicates that the future is never fixed. This Awareness indicates that there are in fact no absolutes in terms of absolute good or absolute evil—that there are always opportunities for entities to resolve conflicts, for organizations and groups to resolve these conflicts. This Awareness indicates however, that often such opportunities do not arrive until the force representing one side or the other has had ample opportunity to show itself, to state its piece, to make its claims, demand its rights and to be essentially heard and have its influence felt. This Awareness indicates once these energies have been fully expressed in front of that opposing force and once the opposing force has had its opportunity to express itself and all of the threats and words and bragging and the claims have been expressed, generally the energies which remain are less than that which is claimed and the opportunities at that point come about whereby discussions for reconciliation may occur. This Awareness indicates that there is essentially a great value in conflict, this occurring as an outlet for hidden and insidious hostilities, that wherein these hidden insidious hostilities are released into areas of conflict, particularly verbal conflict, the opportunity is there for reconciliation and release of those conflicting energies which would otherwise have been continued in an unconscious or hidden manner. This Awareness indicates that conflicts wherein a reconciliation is not the prime motive, are those which are destructive; that in such conflicts one party will win, the other will lose or both parties will lose or a variation on this will occur.

This Awareness indicates that wherein reconciliation is the prime motive of an argument or conflict, then the conflict is healthy and the parties in resolving the issues, both are winners and neither is loser. This Awareness indicates that it is possible for this type of reconciliation to occur through proper understanding and guidance. This Awareness indicates it is more difficult when one or both parties seek to be the winner at the expense of the other. This Awareness indicates that when one party seeks reconciliation and the other party seeks to win at the expense of the other it is still possible for the party seeking reconciliation to affect and move the energies of the confrontation, the conflict or the argument in such a manner that even while the conflict is occurring, reconciliation begins to occur also. This Awareness indicates this occurs best when the party being aware of the need for reconciliation allows certain admissions which are being charged against that party and admits certain violations to the opposing party, when these are in fact true and when the admissions do not fully destroy the position of that party. This Awareness indicates that this being done carefully allows the opposing party which seeks to win at the expense of that first party who is willing to accept a reconciliation—this allows that party to feel a slight victory. This Awareness indicates that from there, the party seeking reconciliation having admitted to a particular area of guilt or violation from the accuser, this allows the party seeking reconciliation to also request certain reconciliation from the other party; and once having given, the tendency is for that opposing party to relax somewhat and to allow a small granting of admission or favor in return in order to, if for no other reason, show itself also to be merciful and magnanimous. This Awareness indicates that too often conflicts occur simply because entities take a position and remain eternally rigid even though they themselves do not believe what they are saying—often such entities are simply bluffing because they are afraid to yield in their bluff. Often wars and violence occur because of a bluff position which was not in fact even believed in totally by the party expounding that belief. This Awareness indicates that it becomes not a matter of belief so much as a matter of position and pride.

This Awareness indicates that in the present conflict, this is also the case; that the entities in the Iranian situation expounding their positions, are simply being forced by the situation to hold onto the position which they have chosen and feel that any weakening of that position would cause them to lose face, cause them to lose the respect of the rest of the world and therefore even though deep inside individually these entities do not bear as much hostility toward the hostages as they pretend, these entities are thrust into a situation whereby they must pretend and play the role which they have taken upon themselves.

This Awareness indicates that essentially this is a play, a psychodrama which is working off energies of consciousness, these energies having come from conflicting secret orders or secret organizations, surfacing in this particular area as a stage for the exposure of these different positions and claims. This Awareness indicates that this situation is but likened unto the head of a pimple on the body of humanity, which is representative of the poisons which are hidden underneath behind the surface and the surfacing of this poison at this particular place is likened unto a release point for some of these poisonous energies. This Awareness indicates these poisonous energies briefly are nothing more than polarities caused by desire for power, lust, greed forces to have control over others. This Awareness indicates that this conflict between these forces has been occurring upon this earth and in other areas for thousands of years and surfaces in various places between groups or individuals and is essentially non-caring about the issues or who represents these issues.

This Awareness indicates that there is basically in this particular situation much energy due to long years of suppression by many of these Iranians who lived under the rule of the Shah and there is much desire for vengeance. This Awareness indicates in the Cosmic Laws, vengeance is not given to individuals for the purposes of balancing the Laws, or enforcing the Cosmic Laws. This Awareness indicates that once a crime has been committed against another, a further violation against the criminal whereby that criminal is treated in similar manner, (this being common in ancient times and being carried forth into present time),—this is man's law, not Cosmic Law.

This Awareness indicates that the concerns of this Awareness is not to see entities searching out and getting vengeance on all who have trespassed against them, but rather that entities cease and desist on all levels in present and future times the perpetration of violence one upon another, regardless of the motive—the past is gone, and wherein entities dig into the past for excuses to perpetrate violence upon another in the present or future time, this will only create continuance of violence upon this plane eternally until this concept is clearly understood, recognized and the process of seeking vengeance is dropped.

This Awareness indicates that before true peace can come upon this plane, this must be understood and recognized, and vengeance, greed, the desire for power, and the obsession for gain at the expense of others, (this obsession known as lust), these forces must be dissolved from the human consciousness and replaced by clear expressions of love, mercy, communication, relationships based on respect for all living creatures and must be demanded of oneself with greater fervor than is demanded of other. The road to peace starts from *within the individual* and does not occur simply from demands by individuals, that others must bring forth the harmony before they themselves will be harmonious.

This Awareness indicates this is a difficult planet for entities to live upon, for the mass mind is essentially insane, has been manipulated and hypnotized by magicians, by black magicians, by forces which have set one part against the other, and entities who attempt to spread truth or light are often persecuted or eliminated as those forces who follow the darkness and ignorance and who perpetrate this upon others often enjoy keeping the mass mind confused, scattered and in conflict. This Awareness indicates that because this plane, this world is a difficult place to live, it behooves entities who wish to see improvements to be especially aware of being more forgiving, being more merciful, being more loving, than even appears to be appropriate in view of the violations which they must suffer. This Awareness indicates that if all entities sought revenge for the violations they have suffered, this earth would have been destroyed long ago; if all entities sought revenge for the violations they have suffered, mass murder would be a continuous experience upon this earth at all times.

This Awareness indicates that it is only because there are entities who would rather be slain, would rather suffer, would rather be the victim than to harm others, it is only because of these that civilization and harmony can exist at all. This Awareness indicates the future months can bring some chaotic and confusing experiences to many. This Awareness indicates that the economy as that which has begun showing itself as previously indicated to move toward the depression. This Awareness indicates this being accompanied by increased inflation, that this will be unlike that of the Great Depression in that not only will there be a tendency to much great hardships and unemployment, but also a diminishing of the value of money. This Awareness indicates that for many this will be a prosperous time, for others this will be a desperate time. This Awareness suggests that as has been previously given, that entities keep a supply of grain available for emergency. This Awareness indicates that the timing of events is not easily determined. This Awareness indicates that as previously indicated, the 50th Anniversary was to be the beginning of the crash, this particularly during that time wherein the Bolshevik forces were in control of the economy. This Awareness indicates that the struggle which occurred in the Spring of '79 did have some effect in changing the exact timing of this. This Awareness indicates that the timing was not such that on a particular day of October 29, the banks would all close their doors. This Awareness indicates that this occurred earlier, whereby the stock market took a tumble and this will continue to occur in steps as time passes. This Awareness indicates that in the 1929 crash of the market, this also did not occur in one day only, that there were a series of steps whereby this continued its decline over a period of approximately two years.. This Awareness indicates that likewise this shall have its effect in coming months of various steps and changes.

This Awareness indicates that there are certain forces which are in movement to create that which may be of some assistance in preventing this from falling too far. This Awareness indicates that there appears to be an effort through a taxation movement whereby this likened unto a national sales tax, whereby each time a product is sold it becomes taxed on the additional price rise or profit of that sale. This Awareness indicates this can have some effect, providing this occurs as an acceptable form of tax—this can have some effect in diminishing the fall of the economy, yet this can also be detrimental to the poorer families, those who do not earn large amounts of money and are on fixed income. This Awareness indicates that should this tax be implemented, it will affect the future economy in this nation.

This Awareness indicates that there also are other ways whereby the economy may be affected, this including the possibility of war in the Middle East or even the threat of war can bring about a change in the future economic conditions of this nation. This Awareness indicates however, that the present situations are such that there are many forces in movement and the general directions are not seen—this is likened unto watching a battle whereby the outcome is not discernable. This Awareness indicates however, that those forces which have already been put into motion are such that the tendency remains very strong that the economy is in great trouble and that a change will occur which will affect many entities in this nation. The dollar itself as that which is losing value very rapidly and it appears this will continue to increase in its acceleration of the loss of purchasing power.

This Awareness indicates that entities need not be overly apprehensive for the changes which occur on mass levels such as this always appear more frightening in the overall observation than from the individual experiencing of the circumstances, that individuals are quite capable of amazing feats of adjustment to many different types of situations; the human being is a remarkable creature in terms of adaptability, and can with faith in oneself, in divine principles, move through forbidden territories, frightening forests, and past the shadow of death with courage and victory.

WHY NOT JUST RETURN THE SHAH'S PLUNDERED MONEY ?

QUESTION:

Awareness, one question in relation to the Iranian situation that probably many followers of the Dr. Beter information are asking themselves at this time: In light of what has been said about the Russians in control of our government, that their main objective is to prevent war, global war, and these things from happening, is the lack of compromise—that it would seem that there is no compromise at all coming out of Washington by these robotoids being programmed by the Russians. Wouldn't it make more sense that rather than risk a nuclear war involving many billions, that they offer some kind of compromise short of turning over the Shah to these people for trial—maybe suggesting something like letting the United Nations vote on what to do with him, or stating to the Iranians that they will make some effort to get some of the 60 or 70 billion dollars back to these people which the Shah has allegedly plundered from them. That it seems to me that basically this is one of the big things that they are after—the money?

COSMIC AWARENESS:

This Awareness indicates that this as an area which is being considered as a possibility in future negotiations. This Awareness indicates that there are many possibilities and potential actions which are being considered. This Awareness suggests that the situation will have changed dramatically by the time this reading reaches your membership. This Awareness indicates that essentially the major concern by these entities in the United States government is related to the desire to avoid yielding to this type of pressure, for if this is successful in Iran then every other nation at various times will feel a desire or inclination to move into the American Embassy, will have a precedent established for blackmail of the United States. This Awareness indicates this also sets a precedence for the same treatment of all other nations, whereby entities can make diplomatic relations in various countries impossible and this would destroy the very fabric of civilization, communication between nations and set the world back several hundred years. This Awareness indicates that to yield to this type of blackmail or coercion would be extremely damaging to these times, the future times, for all civilizations.

This Awareness indicates that essentially the Iranian students are but following directions given to them, that this is but an excuse to set up the present situation, and the Shah himself is not immune to assassination by the Iranians or others, if his death were all that was desired. This Awareness indicates that it is not his death which these entities are actually after—the Shah as an issue is simply being used to set the spark for confrontation in the Middle East. This Awareness suggests that the Dr. Beter Audio Letter of November will include great detail on the background of this situation, that this will be more accurately explained in this letter than can be given through this Interpreter.

More on How the Interpreter Interprets Cosmic Awareness Energies

This Awareness indicates that there are certain limitations to the abilities of a psychic reading which are not as totally accurate as is information which is available to Dr. Beter from the various intelligence agencies who are behind the scenes in direct contact and fully knowledgeable of the situations which are occurring. This Awareness can give through the Interpreter certain overview information according to the ability of the Interpreter to recognize and define certain energies which are presented in patterns or pictures. This Awareness indicates that details such as names and particular relationships, these are much more difficult if not impossible in readings of a psychic nature. This Awareness indicates that the picking out of a name through psychic forces can take as much as five minutes of psychic energies whereas the name once picked might have little real significance in terms of the overall picture which is being described, therefore this Awareness does not describe the details of situations through psychic readings, except wherein great energies and times have been given to these details. This Awareness indicates that once a name or set of images has been received by the Interpreter, the Interpreter then has this information, the track for retrieving this information becomes available to the Interpreter and the details can easily be brought through in the trance reading. This Awareness indicates however, that until this is established the energies necessary for moving into all of these detail levels would be too great, and to attempt to receive such details would result in a short reading or a short message. This Awareness suggests that entities wishing greater detailed information regarding the situation will find this in the Dr. Beter Audio Letter—that the purpose of this particular message is to integrate the present situation with the overall movement of consciousness through the coming times, that entities may be aware of the connecting links between individual events and the passage through which the ship is moving.

This Awareness indicates this may be referred to as the Arc of Crisis, the movement through this time is that which is critical, yet it appears that the odds of success for humanity is quite high—this as approximately 80% likelihood that little great violence will occur, that some will occur is certain. This Awareness indicates there is some danger of violence, of great violence occurring as a result of what is presently happening, but there is approximately a 70 to 80% chance this will not occur. This Awareness indicates that it is however possible that by the time this reading reaches your membership, such violence might already be in progress. This Awareness indicates at present the energies are such that there is a 70 to 80% likelihood that a great violent conflict in the Middle East will not occur.

For information on the Beast Conspiracy, the planned nuclear war in the Spring of '79, please refer to the various 'Revelations of Awareness' which were printed in 1979. (See 'Reprints Available Catalog' available from C.A. C. To subscribe to the Dr. Beter Audio Letters, please write to the following address:
