The New-Age Cosmic Newsletter

Cosmic Awareness Communications
P.O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

What to Expect....

THIS COMING YEAR

(Plus a Review of 1979)

(A Look at the Status of C.A.C.)
and the Aquarian Church

Paul Shockley
Trance-Interpreter

(Opening Message of a C.A.C. General Reading)
December 13, 1979

This Awareness indicates that the new year shall begin with a realization that the economic situation has steadily worsened and is on its way toward greater collapse, particularly within the United States. This Awareness indicates that the degree of this collapse will depend largely on international economic and political factors, as well as certain crises of international relationships between nations.

This Awareness indicates that the area of the Middle East as being a key factor--this centering around the issue of oil. This Awareness indicates also however that minerals as being another issue which will become more and more strongly recognized as an important concern, for there is developing a greater reliance by the industrial nations and particularly the United States on certain other countries for minerals for its production of steel, chromium and various alloys. This Awareness indicates that this dependency on these nations is such that these various nations are beginning to recognize their own potential power as being much like the OPEC nations and their power in relation to oil.

This Awareness indicates that entities may begin to recognize a growing conflict on various levels in terms of international cooperation between this nation and others regarding both energy and minerals which this nation relies upon from foreign sources. This Awareness indicates also that it appears there will be increasing conflict between the OPEC nations and those associated with the International Monetary Fund, the British controlled nations, and their economic systems.

This Awareness indicates that this will also reflect within the United States as a subconscious division among certain differing factions within the United States, whereby there can be potential for greater political conflict than at any previous time since the Civil War. This Awareness indicates however, this not necessarily resulting in civil war or social strife, although it appears there will be social strife that can be of great significance and much disorder, particularly if the economic situation deteriorates as may occur.

This Awareness indicates that this deterioration and the degree of such depends largely on the careful handling of foreign matters, particularly in regards to the Moslems and in specific reference to Saudi Arabia. That the Iranian affair as that which is a key factor in this relationship between the United States and Saudi Arabia, and the proper handling of this can help to stabilize relationships with this nation to diminish the economic collapse or to forestall such collapse.

- This Awareness indicates that wherein the Saudi Arabians should decide to dump the dollar, entities can expect the economic conditions to deteriorate very rapidly and greater problems to occur within this nation. This Awareness indicates that regardless of the actions of Saudi Arabia, there appears to be a much deepening drop in the economy than is presently being experienced. This Awareness indicates that this to include greater unemployment within the United States, greater inflation which continues to increase, and tighter credit, more difficulty in obtaining mortgages.

This Awareness indicates that entities who are watching the stock market for signs of economic collapse are not observing the most crucial area, for the stock market during this time, while reflecting the economic collapse, is not the key factor; rather the value of the dollar is that which is the key factor. This Awareness suggests that entities watch the dollar in relation to changing prices of gold and other commodities and in relation to foreign money markets or foreign currencies.

This Awareness indicates that essentially there are forces which are attempting to bring down the American economy while there are also other forces which are attempting to keep this economy going. This Awareness indicates the British influence on the American economy is such as to bring it down in order to switch the currency from a dollar standard for world trade to one which is based on the International Monetary Fund, whereby a new type of standard is set up by the British controlled banks.

This Awareness indicates that while this is occurring on the one hand, there are certain OPEC nations and others in Europe—such as West Germany, France, Italy, Ireland and the OPEC nations and also Russia—who are attempting to keep the dollar stable for a duration long enough so that the European Monetary System can become more stabilized as an economic defense against the the International Monetary Fund of the British.

This Awareness indicates the actions of Khomeini as being influenced by the British with the intention of creating destabilization in the area, drawing the United States and other nations into a conflict which they hope will result in economic maneuvers which will benefit the International Monetary Fund, the World Bank—the banks controlled by the Rothschilds.

This Awareness indicates basically this is the scenario at the beginning of the year 1980. That the Russians are carefully watching the Middle East and there is a growing respect and rapport between the Americans and the Russians, even though there also is a division in the United States between those factions which support the British and those who support the Russians. This Awareness indicates that essentially the government of the United States is secretly but closely aligned with the Russian government, but there are strong military factions in the United States who are working closely with the British.

This Awareness indicates much of this information is available through the Dr. Beter tapes. This Awareness indicates that entities may refer to previous material for further background in this area. This Awareness wishes mostly to comment on the scenerio of the coming year, as this will be a rather unsettled year with unusual events which entities may wish to prepare themselves for. This Awareness indicates that while the future is never fixed, certain forces are in movement, and understanding these forces can allow entities to be prepared—to watch the forces in movement and to make the best choices possible during changing times.

This Awareness suggests that there appears to be some strong likelihood of conflict overseas—this being what may be termed war. That the intensity of this is in question at this time, but entities observing current events will be capable of predicting the intensities as events change from time to time. This Awareness indicates this conflict being such that it will be manipulated by the conflicting interests of those forces previously mentioned. This appearing to be in relation to the Middle East and triggered by the Iranian hostage and embassy take-over. This Awareness indicates that it appears that there is a desire to create this conflict in order to gain control of the Persian Gulf and to set up greater controls in that area to assure more influence in regard to the availability of oil. That there also appears to be other values toward interested parties in regard to the general overall conflict and the effect on the wealth and banking businesses.

This Awareness indicates that should this conflict occur, that there also appears to be dangers to neighboring countries in relation to this effort to control the economies of these nations. This Awareness indicates that along with the probably conflict, there appears to be the deepening of the recession toward that which may be termed depression, wherein there is much unemployment as well as a drop in the Gross National Product and the sales of goods within this nation.

This Awareness indicates that this also to include inflation, which appears to mushroom during this year. This Awareness indicates the fuel situation and energy problems also to increase, causing an inflated expense whereby gasoline will move to two dollars per gallon. This Awareness indicates this will not be quite as expensive as it may sound, since the dollar will be worth less. This Awareness indicates however, that those who are on fixed incomes will not benefit of this inflated dollar and will still be paying extra in the amount indicated by the higher prices.

This Awareness indicates that entities can expect food shortages and many entities may lose their homes and properties and businesses during this time. This Awareness indicates that these conditions can lead to much social unrest and conflict and tensions.

This Awareness indicates that many of the current movies being played on screens, reflecting back in nostalgia to the depression era, are but a conditioning to assist entities to accept these times. This Awareness indicates that those who must accept these coming times and the economic collapse of their business affairs will do well to not take the changes as being a reflection on their own capabilities or their own self-image, but recognize this as being something likened unto a storm which entities must go through. This Awareness indicates that many entities may attempt to blame themselves for business failures and become discouraged and self-critical, even to the point of becoming ill or

self-destructive. This Awareness suggests however, that you view this as an entity would who was facing a storm or other natural catastrophe. This Awareness suggests you not blame yourself for the storm—you simply take those precautions necessary to avoid the greater problems which the storm might create.

This Awareness suggests that entities prepare by storing basic grains and foods which can be of life-saving value in case of shortages. This Awareness suggests that you also accumulate tools which can be valuable in planting, wherein you have the land and the inclination to plant gardens. This Awareness suggests that other than this, entities attend their own business in a way whereby they can adjust to the probable changes which might occur and whereby they can still be able to function in a relaxed and harmonious manner, weathering through the crisis as well as can be expected under the circumstances without taking failures too seriously. This Awareness indicates the times will change, and entities will adjust and entities will survive. That those who can make the proper adjustments will survive best.

This Awareness indicates *It* wishes to emphasize that the degree of the coming recession depends on several factors which are not fully set into motion at this time, but which may be set into motion within the next two months. This Awareness indicates that apart from the social, political and economic conditions, entities may also expect greater geophysical activity during the coming year and weather itself may be more unpredictable than previously. This Awareness indicates also that entities may notice more cosmic storms or sunspots and the effects created by these.

This Awareness indicates there appears also to be an important event regarding a phenomenon of a psychic nature or of a nature involving what may be termed the UFO phenomenon. This Awareness indicates that the Alien Force essentially has evacuated this planet—this in reference to those forces which are from other areas of the galaxy or other dimensions—However they have left behind that which might be termed a 'kamikase' or suicide force. That those who remain are continuing to attempt to create as much havoc on this planet as is possible and are willing to commit suicide to do so.

This Awareness indicates these entities are also willing to destroy the planet or a large part of the planet if necessary—that their purpose is to create as much chaos during the next six years as possible. This Awareness indicates however there are also powerful forces who are taking the necessary steps to prevent this suicide action from occurring. That it appears these forces at present have the upper hand.

THE EMERGENCY BANKING REGULATION No. 1

QUESTION:

In relation to the economy and the year 1980, there is a law on the books which has been signed by the President and the Secretary of the Treasury called the *Emergency Banking Regulation No. 1*. And to bring this into effect the President has to call a 'National Emergency' or an emergency plan. He could appear on television and announce, 'You are henceforth prohibited from making any withdrawals of cash from any bank or savings and loan company, except for 'customary' quantities of money. The bank will decide what is 'customary.' You are no longer allowed to write any checks without the bank's approval, you will be allowed to write checks only for 'customary' amounts—the banks will decide what is 'customary'. No checks will be honored by the bank for any 'unauthorized purposes'—the bank under the supervision of the Federal Government will determine which uses of your money are 'authorized'." Now in light of that law which is on the books, does Awareness see in the coming year any great probability that this emergency law will be called in? And if so, what would *It* advise entities to do about this before it occurs?

COSMIC AWARENESS:

This Awareness indicates that this as a probability. This Awareness indicates that this law is particularly designed to prevent entities from rushing to their banks and withdrawing money in a manner which causes the bank to sink and fall. This Awareness indicates that entities must understand that banks do not contain enough money to pay all their accounts if entities wish to close their accounts, for much of the money in banks is simply on paper, in figures, and the actual cash held is but a percentage of that which is kept on record.

This Awareness indicates essentially this law is designed to prevent entities from rushing to withdraw more money than the bank can give without failing. That this is a precaution against bank failure, whereas the bank can determine what is 'customary' withdrawals. This will depend largely on whether the bank is able to release that amount desired from a customer's account or whether the bank feels that the amount would be detrimental to its reserves. This Awareness indicates that entities who understand this and wish to continue leaving their money in the bank under these conditions, recognizing that there will be certain limitations on their accounts, may continue enjoying the security of having money in the bank—in a safe place. However entities who do not wish to have these restrictions on their money may prefer to remove their money totally while they can, and put this into other types of savings or may save this in other secret places. This Awareness suggests however that entities so doing must be cautious that they do not hide their money where it is unsafe, where it could be destroyed, or where thieves or animals could enter and rob the entity of their valuables.

This Awareness indicates that certain gems, stones, minerals, or other items such as antiques or food items which can be stored, may also be ways of storing valuable energies, so that the entities need not concern themselves with money per se, but may have their energies transferred into these valuables and be able to re-transfer through selling or trading these valuables at other times.

QUESTION:

According to the reports put out by the US Labor Party in their publication, the International Monetary Fund and people behind this have pushed the Middle East almost to the brink of war. And they seem to think that if it doesn't happen right away, 1980 will precipitate some kind of holocaust over there. Awareness has indicated the probability of some type of war over there. Does *It* see this getting into a nuclear type war if it should occur?

COSMIC AWARENESS:

This Awareness indicates that this appears to be somehow contained. This Awareness indicates that this appears to be wherein there is an effort to cause this to flair into a great nuclear war by certain forces. Yet there appears to be a near miraculous maneuver which contains this to prevent its global occurrence. This Awareness indicates that this appears to come from a general awareness of the total condition and cooperation among certain nations which on the surface appear to be enemies, but which in fact are working together to prevent this from occurring. This Awareness indicates this in particular reference to the administrative forces in the United States, Saudi Arabia, Russia, France and Germany. This Awareness indicates that this is all that is seen at this time.

This Awareness indicates that this probability of avoiding the global holocaust is that which is still nebulous, though it appears that the energies are such that with certain events occurring in the near future in regards to these concerns, this appears that there will be a way out to prevent this from happening.

A LOOK AT C.A.C. & THE AQUARIAN CHURCH OF UNIVERSAL SERVICE

(Opening Message, C.A.C. General Reading)

No. 2 given Dec. 13, 1979

This Awareness indicates there has been during the year of 1979 certain Alien Force attacks upon the organizations *Cosmic Awareness Communications*, and the *Aquarian Church*. This Awareness indicates that this as having been more through the astral levels than on physical levels. However this did surface into the physical in many instances and in different ways. This Awareness indicates that the forces attempted to move in through the weakest areas to do whatever was possible to create problems for the Interpreter, for the staff of C.A.C., and for the organizations themselves.

This Awareness indicates that in many instances the force also sought to work through weakened areas for members of the organizations to cause any problems possible in the lives of these entities. This Awareness indicates however that in a general sense the organizations and the entities weathered the attacks by this Alien Force from the astral dimension and are still afloat, still functioning.

This Awareness indicates that the Aquarian Church as having moved into a near-limbo state having been under siege during this time and unable to conduct its normal business affairs. This Awareness indicates the Interpreter and the Aquarian Church both being defendants of a three million dollar law suit instigated by forces working through certain entities, having moved into legal actions against the church and the Interpreter with methods which were unnecessary and inappropriate, but which were designed to destroy the reputation of the church and the Interpreter.* This Awareness indicates these forces having leveled their attacks in this manner have essentially thrown their entire arsenal into the sinking of the ship, yet the Aquarian Church as still floating and as being capable of weathering the attacks and moving into stronger position than ever before.

This Awareness indicates that this attack having occurred in a semi-secret area as that which did in fact hinder the Interpreter's efforts and energies in responding to the requests, needs, and obligations to the membership; yet this was of such intensity that it was necessary for the Interpreter to put his entire energy into this action, even though the normal responsibilities to the membership suffered. This Awareness indicates that while this legal battle is not completed and may still require energies from the Interpreter and others, it appears that there is a new type of energy moving in. This Awareness indicates that the worst is over and the best is yet to come.

Photo of the 4th severed donkey head to appear on the doorsteps of C.A.C. The latest one appeared Nov. 30, 1979 (the second to appear that month).

This Awareness indicates that in terms of the potential threats to C.A.C.— that there have been approximately four areas in which the Alien Force attempted to affect the efforts of this organization during this past year. This Awareness indicates that the aura around these entities as being strong enough to ward off any great consequences from these efforts.

This Awareness indicates that the four donkey heads placed on the doorsteps of the headquarters as having been instigated by the forces from the astral level moving through entities who served as agents to this force.

* Awareness had warned month before in several readings how the Beast forces were out to destroy the churches. The entities suing the Aquarian Church have been in contact with the lawyers who recently awarded \$2,000,000 to a Portland woman against the Church of Scientology. If the case ever reaches the courts, it should be thrown out as all the charges are fabricated. In lieu of funds, Paul has been doing most of the law research himself which accounts mainly why he has fallen behind in other activities of the church. There is a possibility that C.A.C. will be later hit by these same entities.

This Awareness indicates that this as having a similar connection or relation to the cat incident*, wherein the cat walked to the door and left a psychic message to the officers of C.A.C. and the Interpreter, informing these entities that the Alien Force was unhappy with their release of the *Gathering Storm* material. This Awareness indicates the donkey heads as being similar in nature, letting the entities know that they are making the Alien Force unhappy. This Awareness indicates however, that essentially the aura around *Cosmic Awareness Communications* headquarters as strong enough to block out most of the efforts by the Alien Force, so that these messages are not hinderances to the performance of duties and responsibilities.

This Awareness indicates that essentially the two organizations, *Cosmic Awareness Communications* and the *Aquarian Church* are moving away from these difficult and threatening times and moving toward clearer waters. This Awareness has certain plans for these organizations and is in the process of communicating directly with entities through their own consciousness, through their own channel—communicating with entities who are concerned about assisting to bring in the new spiritual energies that can move through these organizations, to influence these entities to donate certain energies in terms of money or other wealth to these organizations, that they might become sufficiently grounded and structured to be able to function more completely as vessels for the spirit and purposes for which this Awareness had these organizations created.

This Awareness indicates that the Aquarian Church as having limped along with its main source of income coming from the Interpreter's readings, and this barely being enough to keep the Interpreter's basic functions and family needs together. This Awareness indicates that this not allowing enough for the church to grow, for services to be properly rendered to its membership, or for structured activities and departments to be properly organized. This Awareness indicates this not allowing enough for the hiring of staff, crew, or the printing of necessary publications or papers.

This Awareness indicates that C.A.C., while managing to stay afloat and progress more smoothly, as still in need of greater support in terms of printing and office equipment in order to produce the proper dissemination of material. This Awareness indicates that this organization also needing greater support in terms of being capable of presenting books and papers to the public, based on material available, but not yet printed.

This Awareness indicates that the Aquarian Church as having certain projects for the New Age energies which have hardly even been made public or discussed, due to the inability of the small crew to function on its empty fuel tanks or to keep the activities and communications flowing. This Awareness indicates that this year of 1980 appears to be a turning point, particularly for the Aquarian Church. That this Awareness is moving to direct certain entities to give more energy to this organization, so that it can be launched in proper manner toward the purposes for which it has been created. This Awareness indicates this including the establishment of schools around the nation, chartered churches, the trade centers and special classes for ministers' training and spiritual development. This Awareness indicates that this also to include the research centers or research activities and certain development of projects related to the New Age purposes.

This Awareness indicates that *It* is not appealing in this reading to entities to donate money to either of these organizations, but that *It* does wish to inform entities that *It* will be and is presently communicating directly to individuals through their own channels, to influence these individuals according to their ability and inclination to make certain efforts which will allow these organizations to have greater stability in order to perform their functions properly. This Awareness indicates that this will occur during the year of 1980.

This Awareness indicates essentially the problems of the past are falling away and a new sense of direction and purpose and new energies for these directions and for these purposes are being made available.

* Editor's Note: The reference Awareness made to the cat needs explanation. During the preparation of the 'Gathering Storm' packet, there were indications both from Awareness and from outside sources that C.A.C. and the Interpreter were being watched very closely. Our telephones were tapped for one thing we discovered, and we were truly afraid that this material would never be allowed to be mailed out to the membership. When it was finally printed and packed into postal bags for delivery, we moved these bags full of mail in the deep of night to the home of a friend who promised to deliver it on schedule to the postoffice. Afraid for our very lives at that time, the staff of C.A.C. and Paul Shockley and his wife, Roshanna, took off for a short breather, to escape any consequences of the action of mailing out the 'Gathering Storm' material and to plan future strategy. We found ourselves living for a few days in an island condominium on the fourth floor. The only access to our apartment was through an elevator or up four flights of stairs, each floor requiring the opening of a heavy steel door. To gain access to our apartment another heavy steel door needed to be opened also. The day we arrived the only sign of an animal of any kind was a strange-looking orange cat which had very weird-looking eyes with a strange orange-like fire in them. This animal was seen outside the door of the office manager. We commented at the time on this cat because of its strange appearance and the way it observed us and arched it back as though we were going to attack it (or it us). The evening of the day the 'Gathering Storm' material was supposed to be delivered to the postoffice, we worried and wondered whether this had been allowed to occur on schedule. We had no way of knowing at the time and we had no intention of contacting the entity by phone. The apartment was divided into two smaller apartments—Paul and Roshanna were in the one below and Vikki T. and myself occupied the one above which was little more than a small balcony overlooking the room below. About 3 AM in the morning everyone leaped from their sacks when an eerie, weird, howl-like scream suddenly pierced the night. It was an unearthly sound—a cross between a child screaming and some kind of animal. It sounded

like it was trying to speak. We almost thought we could hear words. (If you saw the movie, 'The Exorcist', the animal-like sounds which came through the child in that movie could best describe what we heard.) The screams lasted for about three minutes. It was a cry of desperation and anguish, anger and disappointment. It freaked everybody out and no one got any sleep that night. Paul hollered up at us asking us 'Did you hear that!' What a question. He got up and advanced to the locked door. The screams were still coming and he said he heard something digging and scratching at the door. He did not open it. The next morning we examined the door. It contained several very deep claw-like scratches over a quarter inch deep. We packed our bags and got the hell out of there. There was absolutely no way any physical animal could have opened all those doors and made its way to our apartment. This story made little sense to any of us until Awareness mentioned it in this reading. The Alien Force, expressing itself through this animal, was letting us know that the 'Gathering Storm' had been released into consciousness—and it did not like this one tiny little bit. (Friends of Vikki T. would have gazed in wonder and marveled at how this entity leaped when this supernatural screaming first began. I told her that with a spring like that she ought to try out for the Olympics).

(Closing Message)

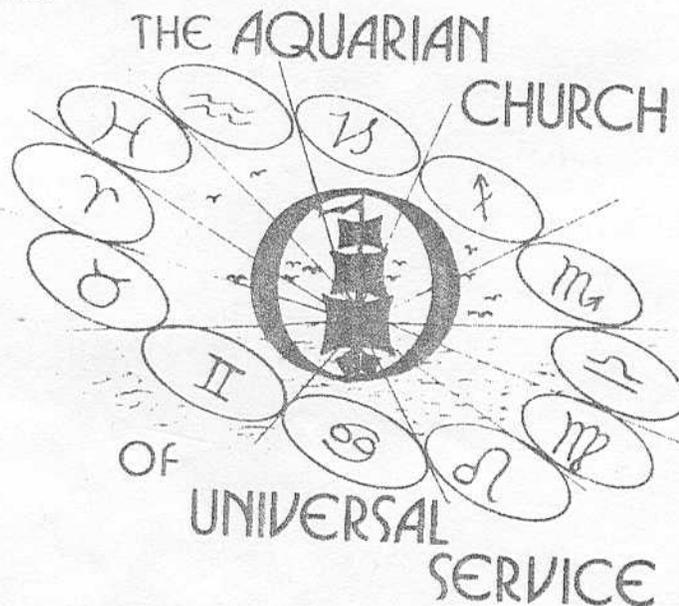

This Awareness indicates that during the past several years, mysteries have been revealed at an ever-increasing rate. This Awareness indicates that entities may wish to look back in time and consider a time of approximately five years previously and consider the assumed philosophy which they held at that time, and note how it compares to their present-day philosophy—becoming aware of the changes in their thinking or in the conceptualizing, considerations, and potential concerns of their present consciousness in relation to that which they held five years previously.

This Awareness indicates that having done this, entities may then move back to a period ten years previous, then fifteen, then twenty. This Awareness suggests that in so looking backward at the growth and development of your philosophies, you may begin to understand the changes which will be coming in the future times as you move more and more into the Aquarian Age.

For previously published information on what happened during the year 1979, please refer to the CAC Back-Issues catalogs. Entities reading this information will more fully understand what Awareness was referring to in this reading.
