COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

## TURMOIL BENEATH THE SURFACE OF THE SEA OF TRANQUILITY

THE MONSTERS OF CONSCIOUSNESS---

HOW WILL THESE ENERGIES BE RESOLVED?

(Opening Message of C.A.C. General Reading No. 1, January 3, 1980)

COSMIC AWARENESS:

This Awareness indicates there is seen that which appears as a sailing ship passing through a sea of what appears to be tranquility on the surface, yet which indicates signs of subsurface activity relating to a deep and powerful turbulence. This Awareness indicates this turbulence, on close examination, appears to be caused by the conflict and struggle of two mortal enemies--these being likened unto sea monsters whose power is great, whose potential can create havoc even on the surface level for many of the passing ships.

PLEASE NOTE: For easier readability and understanding, Cosmic Awareness suggests these readings be read aloud.

This Awareness indicates that the struggle between these monsters as that which has been deep, has been somewhat subdued though threatening, but which now moves into levels whereby there is a great potential for powerful confrontations between these monsters and the effect of such confrontation threatens the entire Sea of Tranquility. This Awareness indicates that essentially this relates to the potential for a powerful religious war to erupt.

This Awareness indicates that the energies at this time are such that there is a moment of decision which will occur very soon whereby these forces shall either back away from that confrontation or shall engage fully into a life and death struggle. This Awareness indicates that these energies relate unto that which has been ignited in the Middle East and which can, if allowed, erupt into explosive situations from which there is no turning back.

This Awareness indicates that this may also be prevented by quick, deliberate, and careful attention from those who are aware of the inherent dangers and potentials regarding the condition, that certain strong actions as well as great patience and understanding will be the key factors in preventing the explosive potential of such violence from erupting. This Awareness indicates should these fail, this thrashing of these forces, this war, shall not be contained in that area but shall spread, for the energies locked up may be likened unto powerful explosives which are but waiting for the release to occur.

This Awareness indicates that should this occur, great suffering upon this plane will be experienced; yet this can be likened unto the birth pains of the New Age or new beginnings of humanity, for there is that which needs to be released. This Awareness suggests that a more gradual release would be less painful, less dangerous, and more valuable to entities upon this plane; but wherein entities are impatient to have their way, the sudden and urgent explosive actions appear to be the proper route.

This Awareness indicates that those who choose this path of violence assume themselves to have a superior backing for their actions, have faith in that backup superiority whether this be Allah, God, or material weaponry. These entities in placing their faith in that which they believe assume they shall win and therefore are willing to risk the danger rather than to work through levels of relationship, diplomacy, communication, bargaining, and legal maneuvering to find solutions to the problems. This Awareness indicates that it is possible that if given enough attention these two monstrous forces can look at each other, recognize each other's position, understand each other's framework and thinking, and find ways of resolving the issues rather than simply condemning and justifying violent actions. This Awareness indicates that whether the human race is ready for reconciliation or prefers to play around with further condemnation and justification concepts the outcome shall eventually be the same, whether there is chaotic war on this plane, or slow evolutionary change in the thinking of humans, the outcome will eventually reach a reconciliation whereby all entities will learn to respect one another regardless of differences and allow each other to have their differences of opinion without attempting to violate others through malicious attacks or imprisonments or condemnations or slander or other forms of abuse.

This Awareness indicates that the Muslim world as that which is undergoing a kind of rapid transmutation, moving from old ideas based upon the subjugation of women into modern concepts of reconciliation between the male and female forces. This Awareness indicates that this movement has occurred against the principles and teachings of basic philosophy held by those of the Muslim faith and many of the male members of the Muslim world consider this change to be a threat to the very existence of their masculinity claims and to the basic foundations of their beliefs which were formed, in part, upon such claims. This Awareness indicates that consequently there is a backlash against the movement of women upon this plane to find equality. There is a back-lash in the Muslim world which is exemplified in particular by the entity Khomeini, as an action which polarizes the concept of male supremacy, male control, and from that position observes the remainder of the so-called 'civilized world' as being debased by concepts of sexual equality--the entity seeing particularly the influence in Western technological societies as having contributed to the decadence and debasement of the concepts of male supremacy allowing females to have greater expression in the male religious-oriented societies.

This Awareness refers entities back in history to times wherein the religions were based upon feminine deities wherein the male was considered to be expendable but the female needed protection in order to bear children. This Awareness indicates that these early religions based on feminine deities were the dominant religions for hundreds of thousands of years and only in recent times have the religions switched to male deities--this being an effort to bring about a balance and place for men in a basically feminine-oriented world. This Awareness indicates that some cultures upon this plane did manage to keep a balance of male and female deities in their religions which in turn allowed great civilizations, which remained in balance, to grow and develop. This Awareness indicates that more recently the masculine types of religions wherein the deities are male, have emerged in greater power and have their influence on the nations and the cultures lean toward the technological, rational, and scientific advancements, toward aggression and other masculine tendencies. This Awareness indicates that these masculine religions have perpetrated the subjugation of women so that she has been given a place much like that of a servant to man who, in turn, assumed a god-like position over her.

This Awareness indicates that this in particular from the time of the Old Testament from the time of Moses and up to and through the New Testament and the modern times—this including movements through the Islamic or Muslim philosophies in that which is the Middle East, Europe, Russia, and the Americas. This Awareness indicates the oriental world as having maintained a general balance until recently, leaning more toward the feminine side and allowing a masculine influence within that, but in recent times turning more toward masculine influences of technology development and away from the feminine past.

This Awareness indicates that essentially what is occurring upon this plane at this time is a quickening pace leading to the reconciliation of the energies, the balancing of the male/female energies whereby equalities must occur, and those religions which are based in their foundations upon sexual concerns, particularly wherein certain sexual subjugation is promoted, those religions shall carry the greatest karma as the balancing and reconciliations are released. This Awareness indicates essentially most religions containing high significance in sexual concerns are outgrowths of the basic conflict between male and female energies, and these have grown from the cultures which fostered these religions, either as programs for assisting these cultures or as rebellions against the cultures before.

This Awareness indicates that presently the energies of these serpents beneath the Sea of Tranquility threaten to bring about great turbulence as the birth of the reconciled child of humanity emerges. This Awareness indicates that within a short time the decision must be made as to the direction for allowing this birth to occur, whether there will be forces which would abort and destroy this reconciled offspring of humanity, or whether these forces will allow these energies to continue in motion to bring forth the New Being for the New Age. This Awareness indicates that regardless of whether this occurs in peaceful setting or in violence the birth will be complete and will find its expression. This Awareness indicates there does appear to be some danger to this birth whereby the force which is alien to reconciliations will have a day, controlling and holding power over the New Being.

This Awareness indicates that it appears also that the entity whose face is used to symbolize the Muslim movement against the Western developments, this entity appears to be one who shall find martyrdom shortly. This Awareness indicates that as this entity achieves his goal of martyrdom the entity may satisfy that craving of that nation for martyrdom so that they need not be sacrificed along with this entity as a martyr for their beliefs. This Awareness indicates this as being similar to, or a reflection of, the action of Jesus the Christ, wherein the entity Khomeini may substitute as a martyr for the rest of the Islamic people so that they need not also be martyred.

This Awareness indicates the forces in consciousness, the movements in the mass mind work in strange ways whereby entities and clusters or groups of entities or organizations of entities or cultures of entities may be seen as likened unto the thoughts, concepts, cultures or clusters of thoughts or concepts in the mind of an individual. This Awareness indicates as there are individual thoughts within an individual's mind, likewise there are individuals as actors in the mind which is the mass mind, the mind of mass consciousness, as there are clusters of thoughts such as mathematics, sciences, religions, and social concepts and disciplines which inhabit an individual's mind. Likewise, in the mass mind there are organizations and clusters of entities who exemplify these concepts for the mass mind of humanity as there are in the individual mind conflicting ideas, conflicting emotions, conflicting feelings, wherein one set of ideas makes war upon another set of ideas, wherein science may clash with religious concepts, or with personal needs or whereby the individual's self-esteem is in conflict with the ideals. Likewise, in the mass mind, organizations and cultures, nations, religions, concepts, may also clash with each other; emotions may flair in one area against those in another and essentially, the mass mind is a reflection of the individuals which make it what it is, and the individual minds are but reflections of that which is occurring in the mass mind.

This Awareness indicates that a difference in levels of communication, the time-lag between the individual cell or soul and the total mind is that which is the cause of inner conflict and turmoil, for wherein the mass mind or the entities' integrated mind could communicate fully to all its parts there would be no disharmony and the changes would occur spontaneously with fluidity as the Universal Mind dictated, influenced, these mass minds or individual minds. This Awareness indicates that this does not occur however, for the energies do move at varying frequencies and that which enters the mass mind as a new energy requires time and struggle before it filters down into the groups, religions, cultures, nations, and organizations of the mass mind, and even more time before it enters into the thinking of the average citizen of that culture. This Awareness indicates that, fortunately, the average citizen is not necessary as a voice in determining the validity of the energies which enter into the influences on a society, for

the average citizen as the average brain cell, is more concerned with finding its own nourishment and sustenance than with having an influence on the entire mass mind or its thinking.

This Awareness indicates that therefore this Awareness and those hierarchy forces which channel energies from this Awareness into those clusters of planets, into those galaxies of stars, into those solar systems and the entities residing upon and in those planets, into their cultures, into their groups, and into their thinking—these forces of reconciliation; these forces can and do eventually enter into these levels to bring about that which is harmony, peace and balance.

This Awareness indicates that unfortunately, from some points of view, when entities become aware enough of the natural laws and forces of the Universe, such entities having the wisdom and knowledge of gods, also have the capability of playing with such energies to bring about imbalance, polarities, and disturbances in the nature of these forces by creating concepts which are opposed to one another, setting up focal points for consciousness to rally around and to energize so that oppositions occur. This Awareness indicates that these are those priests who create in the Universal Mind opposing thoughts, and these opposing thoughts in the Universal Mind can become cultures or individualized by certain names or forces having the potential of being named, and once named, may be broken into parts or parties to that force. This Awareness indicates an example being that wherein entities create Satan as opposed to God. This Awareness indicates that once these forces have been created and are energized, these forces do have impact in the Universe as opposing forces in the mass Universal Mind and can rally energies around them so that all of consciousness is affected somewhat by these forces.

This Awareness indicates that those who are aware of the nature of playing with dualities, polarities, oppositions, schisms, separateness, schizophrenia, on a cosmic or collective level dealing with mass mind or Universal Mind; these entities who are aware of this may either contribute to furthering the divisions or may work toward reconciling the polarities to lessen the sorrow, suffering and tragedies.

This Awareness indicates those who contribute to increasing the polarities, increase the tragedy, sorrow, and suffering. This Awareness indicates that those who seek to contribute to increasing the polarities generally seek power over those whom they have created as their enemy to oppose, and this increase in personal power as an opposition to that which is the enemy, eventually leads to these entities being caught in their own game, being overthrown, having their power removed, and finding themselves the enemy of the people. This Awareness indicates this not only relates to individuals but to gods and those gods or deities which seek to reconcile differences—these are those which emerge as the true gods of the Universal Mind.

This Awareness indicates that entities in witnessing the coming events may wish to observe these events from the viewpoint of those who would watch and work for reconciliation rather than to take sides in a conflict which is essentially predestined by archaic concepts which have been programmed into the mass mind and which now must be erased.

This Awareness indicates essentially you are witnessing the reconciliation between masculine and feminine forces, played out in a religious war between cultures which have exemplified opposing sides of these energies.\*

#### IS KHOMEINI AN ACTOR ?

#### QUESTION:

Awareness, there are some that are saying that the entity, Khomeini, is an actor—that the real Khomeini had been killed and that the one now in power is being programmed by other entities. Is there any truth to this?

#### COSMIC AWARENESS'

This Awareness indicates that it appears that an actor was killed-- that this entity as being the true Khomeini, but that this entity is indeed being influenced and programmed by others.

QUESTION:

Is the recent invasion by the Russians into Afghanistan an effort by the Russians to stabilize that area or is it a maneuver to gain more military expansion?

COSMIC AWARENESS:

This Awareness indicates this as an action to stabilize the area--that this has had certain reversal effects in terms of the Muslim attitude toward Russia, but that the Russians assume the risk as being worthwhile in order to be present in the event that the situation in the Middle East gets more volatile.

This Awareness indicates that the Russians essentially have had little ability to influence events in Iran--this being influenced greatly from the British--and that the Russians, wishing to be more secure against the potential held by the Iranian situation, have moved into Afghanistan in an effort to stabilize the Middle East area and also to assist in protecting certain of the Arab nations from attack which they have understood as being potentially imminent except for strong action to prevent such attacks. This Awareness indicates this particularly in relation to Saudi Arabia.

This Awareness indicates that there appears to be a general understanding between Washington and the Soviet Union in regards to what is occurring, regardless of the superficial statements made by these nations. This Awareness indicates there also appears to be elements within both nations which are in conflict and which are attempting to use as many conflicts as are available to increase the polarities--not only between these major powers, but also in other parts of the world. This Awareness indicates that this relates to the previous reading\* wherein it was stated that the Alien Force had left behind a kind of suicide group, a Kamikaze type of force, to reek as much havoc upon this plane as is possible so that the return of the Alien Force at a later time might be made more easy.

This Awareness indicates that it appears that at this time there is approximately a 50% danger of war erupting in the Middle East. This Awareness indicates that this has increased from a 30% danger in November but is much less than that danger of last May in 1979, wherein there was a 70% danger. This Awareness indicates that it appears that the decision between these forces is about to be made and this will occur not necessarily from the decision of mortal beings so much as that of the mass mind wherein the mass mind itself will have that split moment whereby it shall erupt in war or shall avoid war according to the energies within the mass mind. This Awareness indicates whether this occurs as war or as gradual change will depend on the types of energies which entities emanate into the mass mind. This Awareness suggests that entities meditate on peace; that entities visualize peace; that entities think in terms of these chaotic potentials as diminishing, as moving away, moving toward peaceful settlement; that entities communicate their desires for peaceful settlement; and in this way the mass mind shall have its influence from its parts and that influence toward peace may overbalance the influence of other parts seeking war.

A VISUALIZATION MEDITATION TO HELP  
BRING THE HOSTAGES SAFELY HOME

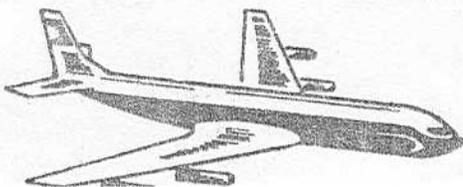

QUESTION:

One final question: Dr. Beter implied in one of his recent tapes that the plan all the time with the hostages, the American entities in Iran, was to sacrifice these entities. With the meditation Awareness just gave, could this situation be changed by entities visualizing these hostages coming home, coming down the ramp of the airplane? Would that help if they visualize this, that it might reverse the original plan to liquidate these entities?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. That this can be of great benefit. This Awareness indicates that essentially it is not the Muslims themselves; it is not in the Muslim philosophy to kill these hostages, but it is part of a plan fostered by forces behind the events to have these hostages killed in order to create the outrage in America for the greater potential attack and war or military sanctions or for economic sanctions against Iran. This Awareness indicates that much of that which is occurring is, as usual, related to economic interest, but these economic interests again, as previously indicated, have roots in religious concepts, and religious concepts have their roots in sexual mysteries.

This Awareness indicates the three taboos: money, sex, and religion, again are expressing themselves in these events, though these generally are not fully seen in the events in the face of the news.

## (Closing Message)

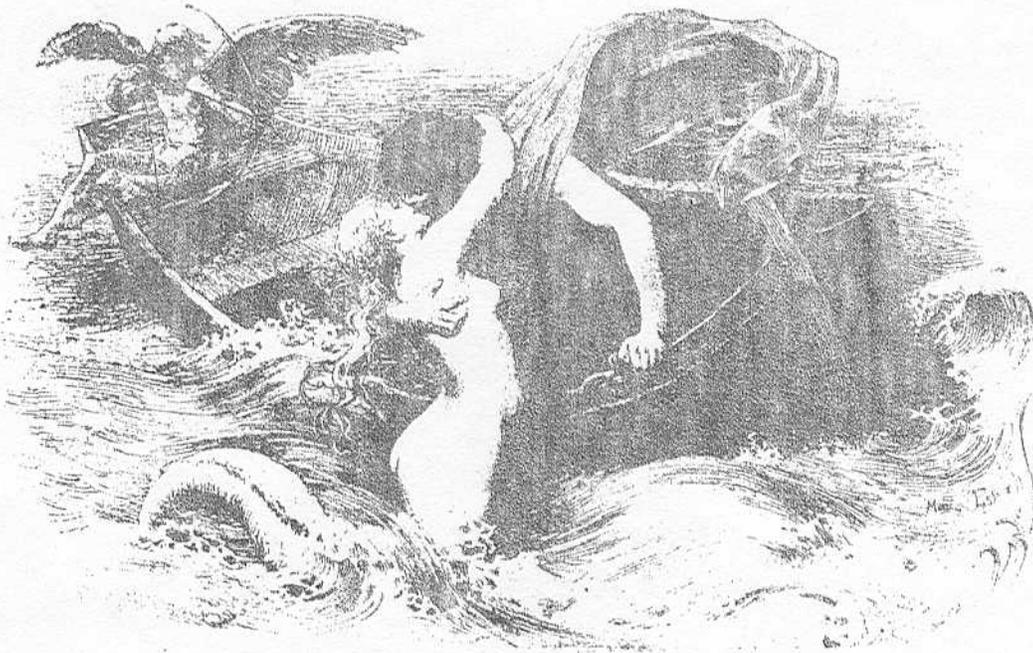

This Awareness indicates that there is also seen the surface of the Sea of of Tranquility, whereby the churning of these forces beneath its waters may be so deep or may be diffused so that the surface does not become a major chaotic churning of events, but simply that of a rippling of confusion and disturbance, perhaps just enough to rock the passengers back to sleep.

This Awareness indicates that entities wishing to assist in this image of the Sea of Tranquility remaining peaceful may visualize these religious concepts deep within the waters of their own soul, wrestling with each other and finding reconciliation, or at least acknowledging each other's right to *be* without needing to destroy the other; and entities wishing to reconcile these forces may also look deep within themselves and reconcile their own feelings regarding the equal rights of the opposite sex. This Awareness indicates equal rights, equal responsibilities, not equal strength or equal capabilities, nor equal responsibilities or rights which are not capable because of the lack of strength or because of the lack of capability.

This Awareness indicates that entities cannot be equal and still be of opposite sex, for the male cannot give birth to children, the female generally does not have the physical strength of the male; the female has certain strengths which the male lacks, and the male has certain strengths which the female lacks—therefore equality is a myth. That the concern be not for equal rights or responsibilities based on equal ability, but rather on equal opportunities for self-expression. This Awareness indicates that for too long men have been subjugated by women and women have been subjugated by men and children have been subjugated by their parents.

This Awareness wishes entities to begin looking at each other and asking each other, "How can I give this entity the rights to freedom with the responsibility to handle those rights properly?"

This Awareness indicates that rights of freedom must be earned by right responsibility toward that freedom. This Awareness indicates that as entities wrestle with these concepts within themselves they are contributing to the balancing of the energies in the mass mind, and in so doing, shall assist in bringing about peace throughout the world.

AQUARIAN AGE

"Here a little .....  
There a little .....  
Here a little more".....

An address by Cosmic Awareness to the membership of C.A.C.

( Opening Message of C.A.C. General Reading No. 2 )  
January 3, 1980

This Awareness indicates that many of the members of your organization having been with you for some time, having moved through intense times, have been integrated within themselves so that the present and future periods of the coming events will not be of such intensity to these entities that they cannot handle the energies.

This Awareness indicates that these entities as being prepared for channeling a kind of integrative force through their expanding consciousness, that these entities shall continue growing and developing and forming the basis for the philosophical foundation which is being prepared on this plane:

This Awareness indicates that this comes through many entities.....Here a little.....there a little.... here a little more.....seeping out from the consciousness of various entities into the relationships, into the worlds of art, drama, politics, education, law, social services, religion, and even in social engagements and relationships between entities—these values based on relationship, respect, reconciliation, communication, and love, emerging from various entities: Here a little.....there a little..... here a little more:

This is emanating the philosophical foundation on which the New Age is being built.

This Awareness indicates many of your membership are among those who are emanating this energy:.....Here a little.....there a little.....here a little more.

This Awareness indicates as time progresses these entities studying these messages and the messages which come from others, from their children, from their wives, from their husbands, from their parents—these entities studying these messages shall begin unfolding that basic philosophical foundation: ....Here a little.....later a little.....then a little more.....That as these energies are emitted from one, from more, then eventually the *many* shall begin to emanate these energies for all.
