COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

Through the Valley of the Shadow...

Once Again... THE PERILOUS PASSAGE

..... But a Possibility of Reconciliation

(Opening Message, C.A.C. General Reading)
March 18, 1980

Paul Shockley
Trance-Interpreter

Please Note: For easier readability and greater understanding, Cosmic Awareness suggests these readings be read aloud.

This Awareness indicates that during the past several years, the *Cosmic Awareness Communications* organization has given forth much information to its membership and to others. This Awareness indicates that this information has been spread far and wide in different areas, to different individuals from all walks of life. This Awareness indicates that the information as being of a wide variety: ranging from political, economic, social, moral, personal, philosophical, metaphysical, psychic, the bizarre and unusual, and that which is geophysical, chemical, medical, and of other areas of concern.

This Awareness indicates that the membership and others in receiving this information have experienced a general expansion of their consciousness, an opening-up process which has, in turn, assisted most of these entities in being more open and being more ready for greater expansion of consciousness and awareness. This Awareness indicates that for some there have been difficulties, for others there have been what may be termed 'wounds' or 'casualties' who have suffered from various conditions related to their lifestyle, relationships or careers. This Awareness indicates that generally, the majority of entities accept only that which can be handled and reject that which they feel will be detrimental to their lifestyle, relationships and capabilities for handling.

This Awareness indicates that in one sense, entities could consider the information which has gone out as being detrimental to health. In another sense, it could be considered as hazardous to relationships. This Awareness indicates that in another sense it could be considered as dangerous to careers. This Awareness indicates however, that this can be said of any area of activity wherein entities know too much for their own good.

This Awareness indicates that the question is relative as to what is too much, and entities may also recognize the old saying that 'ignorance is bliss'. This Awareness indicates that many entities have chosen ignorance for its promise of bliss, while others have chosen the path of awareness, even though the path is difficult and dangerous, hazardous and troublesome. This Awareness indicates that in both instances, entities looking at the bliss of ignorance or

the difficulties of following the path of awareness, may discover that there is the other side of the coin--wherein ignorance does not always bring bliss, but often brings tragedy--wherein the path to awareness is strewn with difficulties and struggles, hazards and danger, the path also brings many blessings, many rewards and many benefits. This Awareness indicates that it is for each entity to discern for himself which path to take, whether to rush quickly down that path, whether to proceed carefully and slowly with caution, or whether to avoid the path altogether.

This Awareness indicates that there is no way whereby entities can ask for, or expect, others to tell them which path is best for them; for they, themselves, understand their own capabilities, limitations, relationships with others, their own career and their own situations; and those who understand their own lives and their own situations, must evaluate for themselves how much of the information this Awareness gives can be assimilated without damage, danger or trouble in excess of that which the entity can accommodate, and how much reward and benefit will be received by assimilating that information. This Awareness indicates that each entity must decide, must discern these energies and the level of development and growth and openness which he or she is capable of accepting.

This Awareness indicates that in the past year or so much information has been given which brought about disturbances on many levels - personal, in relationships, in career levels, and in other ways--and this information has had its repercussions and effects on the lives of many. This Awareness indicates that this is not the fault, nor does it necessarily stem, from the Cosmic Awareness readings. This as a result of the times in which entities live. This Awareness indicates that the troubles and times are not yet as entities wish them to be.

This Awareness previously gave the example of comparing the Passage Perilous to that time wherein the World War II battles of the Pacific culminated in a turning point at the Battle of Midway. This Awareness indicates that the Passage Perilous of approximately one year ago was likened unto a turning point wherein the Alien Forces were essentially defeated. That in the Fall of '79 the higher forces of that Alien Force departed from this planet, leaving behind what may be termed a Kamikaze unit of forces, bent on creating havoc, even if it destroyed themselves. This Awareness indicates that the present situation is such that the complete battles between the Alien Force and others has not been concluded, but still rages, even though the Alien Force has been greatly weakened to a point whereby it never again on this plane, in the foreseeable future, shall regain the power it once held.

SOME DISTURBING INFORMATION TO PONDER

This Awareness indicates that it is with reluctance that this Awareness must again bring forth information of a disturbing nature to the members of *Cosmic Awareness Communications*; yet, it is with respect for the lives of entities, for the freedom and liberties which entities value, and for the respect of truth that this Awareness must again bring forth certain information for entities to ponder.

This Awareness indicates that many of the members of *Cosmic Awareness Communications* recognize and respect the information which has been released through the entity known as Dr. Beter. That some of the members of *Cosmic Awareness Communications* have expressed doubts and criticisms in regards to this information. This Awareness indicates that this is perfectly legitimate and healthy for entities to question and to search for themselves the truth in regards to these various statements made by this entity.

This Awareness indicates it becomes less healthy, however, when entities cease to question and look in other directions or through various sources to discover these truths, and simply assume the entity is totally false, or totally truthful, or assume that the entity is mistaken about certain claims or absolutely correct about other claims. This Awareness indicates the appropriate method for listening to such information is to listen with open mind and to avoid reaching any conclusion as long as is possible until that conclusion is so absolutely imminent that it becomes nearly impossible to avoid reaching that conclusion.

This Awareness indicates that those entities who have assumed that Dr. Beter's information in regards to the world situation relating to the robotoids, the synthetics and the changes in the power structures are absolutely unquestionably correct--those entities need to again question these areas and remain open, questioning to determine whether it really makes sense to them in light of the continued changing events of world history. This Awareness indicates that those entities who assume this to be total error or partial error should also question their own thinking and ask themselves if they really know for certain that this is not so.

This Awareness indicates it is easy for entities to assume that the entity Dr. Beter is in error and therefore sit back in their own previous assumptions as to how the world operates as given by the programmers of consciousness through the various media....It is also easy for some entities who do not mind being out of the main stream of consciousness, who in fact may enjoy being a little weird, to assume without question that the robotoids and synthetics and all of the information given is absolutely true. This Awareness indicates the one side may feel a kind of egotism at being 'In the know', whereas the other side may feel greater security in being in the main stream of consciousness, the mass mind, which accepts the programming which is intended for the masses. This Awareness asks entities to remain open....This Awareness asks entities to continue questioning the information which this Awareness gives in the same way.

This Awareness indicates that the openness and the questioning is that which leads entities to discovery; that when entities discover, the discovery does not close the matter from further exploration, but rather opens the consciousness to new understanding, to new wisdom. This Awareness suggests that therefore entities continue question-

...ing and opening themselves; for this action of continually opening one's consciousness is that which leads toward that which is termed 'Cosmic Consciousness'. This Awareness indicates that becomes tiresome for entities to continually question, then let yourself have an answer to sit upon for a brief time to catch your breath; but when you have rested on your answers, this Awareness suggests you stand up, open the doors and again begin questioning and exploring. This Awareness indicates in this manner, you shall always remain capable of extracting yourself from any form of conditioning, from being closed down into a mold or type of thought which shuts you off from other areas of consciousness; and in this way your consciousness shall expand step by step, moment to moment, eternally--so long as you are capable of exploring the next step, the next moment.

A SUMMARIZATION OF THE WORLD SITUATION

("Something very unusual is happening")

This Awareness indicates that there are certain forces which still are in movement, that there have been shifts and changes which are presently in transition. This Awareness indicates it has been some time since this Awareness has given information relating to the world conditions, and much has changed during these times. This Awareness wishes briefly to summarize much of this information:

This Awareness indicates that those entities who have received and followed the material released by Dr. Beter are aware of many of these changes which occurred in great detail. The Dr. Beter tapes have explained the specific changes which have occurred behind the scenes. This Awareness indicates that this reading will briefly summarize the changes which have occurred for those members of C.A.C. who have not been informed of the specifics and details of these events:

This Awareness indicates that during the Spring of 1979, there were efforts to push the war plan in the Middle East, and this was thwarted in May of '79 by the joint cooperation of certain Russian agents and Americans working together in Washington D.C. This Awareness indicates that throughout the summer these forces of the Russian sect, known as the Skoptsi, worked with the Americans to root out and to consolidate power taken from the forces which had previously sought greater and greater domination in the fields of economics and military controls working toward world government -- this referred in the Dr. Beter material as the Bolsheviks. (This Awareness indicates it has referred to this force as the Alien Force and at times as the Illuminati). This Awareness indicates there are many names by which these forces are called. This Awareness indicates that throughout the summer the struggle continued behind the scenes, that in the Fall this Alien Force, finding itself in difficulty, began evacuating the plan--leaving behind certain agents known in the Dr. Beter terminology as the Bolsheviks.

This Awareness indicates that these entities again attempted to revive the plan for war in the Middle East. This Awareness indicates that the efforts during the winter, again brought forth intensities which occurred behind the scenes, out of the limelight. This Awareness indicates that the Skoptsi, (which are a particular Christian sect in Russia having two parts--the so-called Doves, and those who are what may be termed Hawks), were in conflict as to how to handle the situation; and the hard-liners, or Hawks, won out--which led to the invasion of Afghanistan.

This Awareness indicates that meanwhile, the Doves in the United States working with American agents, (these Skoptsi in the United States), were also wiped out as far as power is concerned, and replaced by Bolshevik powers--this in a secret battle which occurred in the area of Camp David. This Awareness indicates that this has been a kind of reversal in the area of the United States. But at the same time, the Bolshevik or Alien Force powers have been weakened greatly and are in a kind of desperate situation, as the Russian forces have become stronger militarily through its secret battles against the Bolshevik strike force--this information being available in the Dr. Beter Audio Letters.

This Awareness indicates that this general situation has created a new condition whereby the powers in charge of America at this time are not as capable of continuing their efforts toward the war plan in the Middle East and therefore must create a new strategy. This Awareness indicates this appears to be an action of consolidating power in the United States for a rebuilding of military, economic, and political controls for later times. This Awareness indicates that meanwhile, the hard-line Skoptsi have the advantage of being able at will to attack the United States in a variety of ways, including nuclear, particle beam, weather or geophysical warfare, to totally weaken and destroy the American military powers. This Awareness indicates that the Bolshevik rulers in America, recognizing this power, will likely work feverishly to regain the military strength which has been lost. This Awareness indicates this particularly after the coming election in which entities may expect the draft to be re-initiated, may expect a National Emergency, perhaps even before the election, in order to rally the American people into a 'war fever' whereby the conditions will be manipulated so that the National Emergency programs can be put into action to bring about the greater control of this nation and to become more productive militarily.

This Awareness indicates that as this plan is manipulated into being, entities may also discover that the Russian forces, being aware of the actions, will take steps to further weaken the United States. This Awareness indicates this appears to be in the area of food, and operating through the use of weather warfare. This Awareness indicates that entities may expect heavy and unusual weather which damages crops and causes food shortages, as well as act-

ivities of a political emergency level, which cause social upheavals and uncertainties. This Awareness indicates it appears the economic conditions will be somewhat chaotic—rising generally, but unpredictable.

This Awareness indicates that it appears this kind of struggle and confusion in the social and national scene will continue for some time; that the majority of entities will not realize what is occurring and will be easily swayed from one situation to another, reacting with confusion, questioning, doubting, becoming emotionally disturbed. This Awareness indicates this can lead to great social upheavals, conflicts, and difficulties.

This Awareness indicates there is the possibility of an intensified situation, wherein greater nuclear or particle beam weaponry could be used, but at this particular point this is not seen as a probability. This Awareness indicates this as a possibility. This Awareness indicates that essentially, the war between Russia, the Skoptsis and the Bolsheviks is in progress, but is occurring behind the scenes, and has been in action for some time, with the average citizen being totally unaware of what is occurring. This Awareness indicates that at some point the surfacing will become so apparent that entities become quite aware that *something very unusual is happening*. This Awareness indicates that most sensitive entities already recognize that there is something occurring, something which does not feel right, and it is on a large scale—national or worldwide; yet the majority of entities cannot quite put their finger on what is occurring; therefore they continue life as usual, with a kind of strange apprehension about tomorrow.

THE POSSIBILITY OF RECONCILIATION

(SPIRAL Aid is Requested Once Again)

This Awareness indicates there is always that possibility of reconciliation between opposing forces. This Awareness wishes *its* followers, those who follow these messages, not to side with the Skoptsis, not side with the Bolsheviks; but to look somewhere in between for that point wherein these differences may be resolved and entities can find harmony through reconciliation. This Awareness indicates that the answer does not lie with the Skoptsis, nor does it lie with the Bolsheviks. This Awareness indicates the answer lies *within yourselves* and your own ability to make peace with yourself, to encourage others to make peace with themselves, and to encourage them to find ways they, themselves, can become peacemakers.

This Awareness suggests that those entities who are familiar with the SPIRAL organizations, (The Society for the Protection of Individual Rights and Liberties), and those who wish to participate in an activity relating to this action, this Awareness suggests that these entities again may participate in a letter-writing program, whereby they write to both Russian and American governments suggesting, promoting, asking that the leaders of these countries find ways, seek ways whereby reconciliation of differences can occur. This Awareness suggests that these letters also may be sent to other nations at any time wherein the SPIRAL organizations see polarities and differences which separate entities, one from another, and lead to the potential for violence.

This Awareness indicates that the promoting of reconciliation is a simple statement, a simple act; yet it speaks with clarity, and that may enter into the politics of the world to bring about a slight shift. Each increment of such a shift can save the lives of thousands. This Awareness indicates that *it* does not wish to direct the SPIRAL organizations on each and every little action, but suggests that the SPIRAL organizations have the ability to speak, to write, to serve as the eyes, ears, and mouth of humanity; to serve as the conscience of humanity, and to bring about the messages which can assist greatly in finding the reconciliations to difficulties which will lead to peace.

This Awareness suggests that the approach of the SPIRAL organizations in such letter-writing campaigns has previously been given: that these be written by hand; that typed information sheets can be presented instructing entities on how to write these letters; that this may be done in the manner of a chain letter, whereby these information sheets are duplicated, quadrupled, or multiplied in various numbers and sent to friends or others.

This Awareness suggests in this present situation there is no need for great emotion—that entities avoid very carefully and completely any appearance of threat, but rather that entities encourage peace, encourage the leaders to find ways of reconciling the differences.

This Awareness indicates that entities writing these letters may also indicate to the leaders that you are also writing a similar letter to the other opposition party, or opposing leaders. Those writing to Russia may also write that they are sending a similar letter to their own government, and those writing to Washington D.C. may write that they are sending similar letters to the Kremlin, asking that the world leaders find ways to reconcile their differences. This Awareness indicates that this can have a tremendous effect.

This Awareness suggests also that the SPIRAL organizations may also be instrumental and helpful in establishing on the campuses of colleges and schools, groups whereby the Dr. Beter tapes are played, Dr. Beter parties are held, or whereby the college radio stations will play the Dr. Beter tapes or publish transcriptions of the Dr. Beter material or subscribe and pass out the *Wisconsin Report*. This Awareness indicates that this can assist in alerting young people as to what the draft plans are for, so that they can better understand the world in which they live.

This Awareness indicates that the intensities which entities are experiencing as they read this message are but a slight reflection of those intensities which may come in the near future. This Awareness indicates however, that as entities begin to act with calm, harmonious, reconciling statements, communications, —spreading the words, informing others—the dangers which appear so imminent can be greatly diminished during the coming months.

This Awareness indicates that your letters to individuals in the governments should be written with great respect and with encouragement for their wisdom in finding ways to reconcile differences between the United States and Russia and other countries wherein there are conflicts.

This Awareness wishes also to suggest that the concept which the Interpreter and Tom McQuay, Alex Thompson, and Dr. Beter discussed regarding a college which would promote the study of international peace...this Awareness indicates that this concept be introduced to the *Cosmic Awareness Communications*' membership for further energizing—that this is a concept whose time has come and needs energizing, so that such an institution may find its place upon this plane to counter the college of war, the war colleges which have been created by the various forces dealing in the old ways.

This Awareness suggests the Interpreter be brought from trance.

(*The Law of Gratitude* is recited.)

More and more information is being leaked into the controlled press which confirms Dr. Beter's material. For example, the March 3 issue of the SPOTLIGHT's "historic disclosure" of the particle beam weapons which Dr. Beter revealed 4 years ago; also the Wall Street Journal in its March 21 issue revealed the Soviet Union 'is ahead in lasers and other focused-energy beam weapons.' Information on robotoids has appeared in the book, 'The Biological Time Bomb', by Gordon Taylor. The first information we have ever seen on the Russian Skoptsi was Xeroxed by a member and given to this editor. It appeared in a recent issue of SWANK (a beaver magazine); the article was titled: "The Secret Society That Performs Castration in the Kremlin", by Cyrus W. Bell. If this lengthy article is factual (we have yet to question Awareness about it), these Christian Skoptsi are fanatics who must be taken seriously, for to prove their dedication to overthrowing governments etc., they must undergo a ritual of castration, for they believe that a man who is not troubled by sex drive can give his full and undivided attention to affairs of state and the business at hand. (Whew!) In Dr. Beter's March Audio Letter, interrupted by his heart attack, he revealed how the Russians are altering the weather patterns by shooting their particle beams from their moon base in an effort to destroy U.S. crops. (Awareness hinted at this method in this reading). The papers have been full of reports of unusual rainfall and crop damage around the U.S. According to Dr. Beter, this is only the beginning.

We would like to remind the membership at this time that Awareness introduces certain concepts into consciousness through you good people. This is the alchemical, (high magic) which many of you as magicians in past lifetimes have agreed to use again in this present lifetime to help transmute the heavy energies of the Alien Force and bring forth the New Age to humanity upon this plane. At first glance, the suggestion that the membership write a few letters to the heads of the U.S. and Soviet governments suggesting that their differences can be reconciled, would appear to be an exercise in futility. However, high magic works, and it does not take many entities writing letters to get this entire concept of reconciliation into consciousness. Awareness takes it from there, and in time this concept will start filtering down into mass consciousness. Remember, Awareness said 'thousands of lives can be saved' and a few letters will have a 'tremendous effect' upon the world leaders. You know it works. You know that the energies of the C.A.C. membership helped to transmute the Beast during the Spring of '79. Now, once again Awareness is requesting our energies, asking us all to write a few letters to President Carter and to Premier Brezhnev (very polite and encouraging letters). Let's go for it. And don't worry whether these leaders are robotoids, synthetic, doubles, or the real thing—it doesn't matter. Those who are really in control and directing these leaders will be the ones who will read the letters and hopefully act upon them. The Skoptsi, in their hearts, do not want war, but they are convinced war is inevitable, and they are dedicated to win that war and survive. The concept of a reconciliation of differences is not in the Russian consciousness—their entire history has been one of conflict, wars and the overthrowing of governments. Awareness indicates that consciousness can be changed and the possibility of reconciliation and the avoidance of global slaughter by Russia just might be achieved if we all write letters. Let's give it the old college try! A few sample letter suggestions are attached. Remember, write them in longhand (don't type them). You can send an airmail letter to Russia for 31 cents postage. (Avaton).
