COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

The Nature

of Creation

MORE ON ORGANIC ROBOIDS

(Reading of Jan. 5, 1980)

Paul Shockley
Trance-Interpreter

EDITOR'S Note:

Due to the bizarre nature and concept of organic robotoids, Awareness has asked us not to question too much in this area and what information we do publish should be more or less lumped together into one package, rather than having this information sprout up here and there periodically through this publication. The questions on robotoids in this reading were taken from general readings given in 1979 after this phenomenon was first revealed by Dr. Beter, with several others asked in early 1980. We hope this reading will help to throw more light upon the subject of robotoids and perhaps put an end to the questioning for a while.

QUESTION:

BEING ROBOIDED AFFECTS THE SOUL GROWTH

A question from B.B., Tucson, Arizona. "Edgar Cayce stated that one of the main reasons that Atlantis was destroyed was that the Atlanteans were tampering with the life force by artificially creating automatons, human forms with a type of animal consciousness that were programmable and were used as slaves by the Atlanteans. Is there any connection between these creations in the past and the robotoids Dr. Beter is now describing?"

COSMIC AWARENESS:

This Awareness indicates this is in the affirmative. This Awareness indicates that there is a very similar process involved. This Awareness indicates that essentially, the Semites were the results of this earlier experiment. This Awareness indicates there is something not clarified at this point which will require further observation or questioning at a later time. This Awareness indicates that this in regards to the cloning process which occurred on Mars

and the Atlanteans upon the Earth, and a type of offspring resulting in the Semite people. This Awareness indicates that this will require further energizing and observation for clarification purposes.

QUESTION:

One lady sent in a question, I can't put my finger on it at the moment, about these robotoids. She wanted to know, once a person has been dispatched from this plane and a robotoid has replaced that entity, does the fact that the robotoid exists have any influence at all upon the soul growth of the entity who was eliminated?

COSMIC AWARENESS:

This Awareness indicates that this in the affirmative—that essentially the entity eliminated, the core aspect of the being, moves on to the clear light and passes through its various experiences as indicated by natural law, but there is that feeling of distance as though something were left behind, which calls the entity back to this earth plane. This Awareness indicates that this recollection can be easily broken by the entity upon reflection of the situation, particularly where the entity does not identify with the being which inhabits the robotoid.

This Awareness indicates that essentially the robotoid is creating an elemental or basic soul energy, that this may be likened unto a split from the original soul of the entity, and this weak energy of the robotoid soul does continue on but without great strength. This Awareness indicates this as a way whereby souls may be created. This Awareness indicates that this also may be considered as a clue to the creation of the original souls of humanity as the body of the original being was separated into cells reflecting itself in each cell, and each cell reflecting in its parts and separations as the movements continued on all levels of division. This Awareness indicates the sequential separation or change whereby one thing reflects and evolves from another, and the cyclic change whereby one thing develops different qualities in itself through its cycling in time and space—these changes are key factors in the evolution of souls and the direction of their physical expressions.

THE NATURE OF CREATION

QUESTION:

Awareness has indicated in the past that all entities were souls before the cosmologies were formed and the planets and so forth, and were all part of the body of the Awareness, and that all souls would eventually return. Now, in the case of a robotoid, which I assume was not created at that time, will this eventually develop and grow and return as the originals?

COSMIC AWARENESS:

This Awareness indicates that as in the affirmative, that this may not ever develop and grow into completion. This Awareness indicates that this may be seen in the analogy of the cell within the body of a human: will the cell within the body of a human ever develop into a full-fledged human? This Awareness indicates this as unlikely in many ways, for the majority of these cells will simply wither and die, but the energies contained within these cells will continue on and eventually will return to the origin of their source. This Awareness indicates likewise, the souls or energies of a robotoid may never fully develop into an integrated and total human, yet these energies may eventually become incorporated by returning to the original soul or from there back to the original body from which the soul came.

This Awareness wishes to comment briefly on the nature of creation. This Awareness wishes entities to imagine if it is possible that you have no eyes to see, no ears to hear, no hands or feelings to touch with, no mouth with which to taste, and that you have no nose with which to smell—that the five senses have been shut off, and you have nothing but your consciousness. This Awareness indicates that to imagine this you will be required to ignore any factor of your knowledge that would rely on sight, taste, touch, smell or sound for its validity, that you ignore everything you know which is based upon these five senses and then, in your meditations, imagine being in a universe wherein nothing is seen, heard, smelled, tasted or felt. This Awareness indicates when you can do that, all mysteries of creation will be unfolded to you for you will recognize the truth of the universe and will see that the five senses are but creations in themselves to project illusions, mysteries, confusions, smokescreens and fantasies upon the screen of truth. This Awareness indicates distance and time and space will lose their meanings in this reality, for all will become as one in the universe which contains no division of any part based on the illusions created by the senses.

This Awareness indicates that the fruit of the Tree of Knowledge, the five senses, gives great pleasure to entities; that the Tree of Wisdom with its eternal life exists without much fanfare or attention, for there is but life and silence without imagery and the thrills of the sensual expressions or impressions. This Awareness indicates that in understanding this, entities may begin to appreciate each other as though they were part of their own being, and entities may also appreciate the senses which have been given to them as gifts for their joy and pleasure so that they do not abuse these senses.

This Awareness indicates, if thine eye offend thee, heal it; if they hand offend thee, fix it so that it is more pleasurable to thee; if thy mouth speaks evil, speak with it good. This Awareness indicates that those who punish, destroy their own being for its failures; those who would pluck out their eyes for seeing that which is not pleasant, these entities are violating natural laws and the consequences suffered from these violations are their own karmic repercussions. This Awareness suggests that to avoid hostility toward that which you see, taste, smell or hear or that which you touch, this Awareness suggests that you first tune into that silence, that quietness, that inclusive totality, that unity of all things which is within your own being, behind the senses; and once in tune with this, you will have greater appreciation for your senses and will use them with greater skill, discernment and tenderness.

This Awareness suggests that entities in visualizing a being who has no smell, vision, hearing, taste or touch, that these entities in visualizing this creation ask themselves, 'What knowledge do I have about the Universe which would be deprived from such an entity?' Ask yourself, 'Would this entity know of mathematics, science, drama, art, language, politics, astronomy; would this being know of sociology, of people, of religion, of the material world, of abstract concepts; can an entity understand abstract concepts if the entity does not see, smell, taste, hear or touch images which form the concepts? This Awareness indicates that obviously such an entity would have the consciousness of a stone, except that a stone may have a sense of touch; the entity may have the consciousness of a tree, except that the tree may also have a sense of touch. This Awareness indicates that the entity not having concepts or images with which to relate, not having senses with which to measure experiences, the entity would be classified as dead to this world, to the world of senses. This Awareness indicates however, that the entity would still have life in it even without having the ability to see, hear, touch, smell or taste, therefore, the classification of death would not be appropriate. This Awareness indicates that such an entity must be considered conscious and alive, even though not tangibly attached to the world which you know.

This Awareness indicates it is that life within, not the sensual experiences without, which is the essence of your being; it is that life within that makes every human face every other human face. This Awareness indicates that when entities exit from this plane, they simply lose contact with the five senses and move into the inner plane and create new and different types of senses appropriate to that dimension which are similar but extended even further than those of your five senses experienced on this plane. This Awareness indicates those experiences and senses on the inner plane, the senses may not include the tangible and the taste sensitivities to the same degree as those experienced on your outer plane. This Awareness indicates that still on other planes, within, in the higher planes, the sensitivities of taste and touch become so great that the slightest flavor of love expressed in a remote part of the universe is a delicacy to the tongue of one residing on such planes.

REALIZATION THROUGH ISOLATION CHAMBERS

QUESTION:

Would the isolation chambers that are being used nowadays be another method of this same kind of realization?

COSMIC AWARENESS:

This Awareness indicates that this would bring about the realization. This Awareness suggests that this can be used to assist entities in their pursuit for understanding of Who In Fact They Really Are. This Awareness indicates that this of course being used with that purpose in mind; that there are also ways whereby these may be misused, whereby entities can be deprogrammed and reprogrammed in terms of sensual data to be something which they would not like to be. This Awareness indicates that entities may also be frightened in these chambers so that they become terrified from programmings they may already have or carry with them in their imagination or create as they experience these situations. This Awareness suggests that when done properly, entities can discover much about the true nature of their own being when the senses are shut off. This Awareness indicates that entities may also through these actions, through proper training and proper self-discipline, entities may begin to learn how to move from one dimension to another on the inner planes without passing through the process of death's door. This Awareness indicates this could be of great benefit in terms of spiritual and psychic and physical rejuvenation purposes--this also including emotional rejuvenations.

This Awareness indicates that this could be developed as a science or practice with guidance and care and could be of great benefit to entities. This Awareness indicates however, without proper guidance and proper care, entities could easily be caught in actions whereby they lose touch with this reality, become locked into other realities, cannot separate one from the other and become basically insane as far as the physical reality in which they find themselves would be concerned. This Awareness indicates that with proper guidance, an entity would be able to keep order in terms of the various levels of reality, separating one from the other so that the entity could move into various places, various experiences on the inner planes into other dimensions and return to the physical without becoming confused as to which level of reality the entity was experiencing. This Awareness indicates that as long as the frame of reference is kept clear and the entity can distinguish which frame of reference he or she is experiencing at each moment, the chance of insanity diminishes.

QUESTION:

How could the entity receive proper guidance through this if he is isolated and can't hear or feel?

COSMIC AWARENESS:

This Awareness indicates that this would be through communication telepathically or through voice communication at intervals whereby the entity expresses what he or she is experiencing to one who is still presently grounded in the physical dimension and can monitor and request information or give reminding, give information to remind the entity as to how to return on the same path which the entity followed in the pursuit to the other dimensions. This Awareness indicates this would take the cooperation of one who understood metaphysics as well as having a basic sense of reality such as a scientist or parapsychologist. This Awareness indicates that this would also take the cooperation of an entity whose own mind was strong, whose sense of identity was strong, who had an adventurous spirit, much likened unto the astronauts who journeyed into outer space, for this entity would be exploring inner space and inner dimensions and the requirements for mental discipline would be great, that the healthy physical body could also be a requirement, for the physical body would need to be monitored during such experiments also, to protect it from any forms of psychic attacks based on fear or loss of mental cooperation with the physical body. This Awareness indicates the mind and body working so closely together would need to be monitored for physical purposes.

(Closing message)

This Awareness indicates that humanity while being on the threshold of disaster, teetering on the brink of catastrophe, also is much likened unto the tightrope walker or the entity who faces the moment of death whereby the truth becomes more awesome, becomes more powerful, and the lies and illusions must fall away as that moment of truth bears down upon humanity and it must realize that all differences, different words, different labels, different ideas, different methods, different religions, different philosophies, different political systems, different lifestyles, different races, different sexes--all of these differences will fall away at the moment of death or the moment of truth, and entities have only one choice and that is to accept the one truth, that all are One.

The Movie--The Stepford Wives
...Was this About Robotoids?

QUESTION:

A question from K.G. "Can Awareness comment on a movie, called *The Stepford Wives*, that was released, I believe, in '74 or '75. I never saw it, but I was told about it. What I learned from Awareness makes me wonder about it. I was told it's about robotoids and that it ends with a housewife robotoid malfunctioning." He wants to know, was this script to this channeled, if it indeed was about robotoids?

COSMIC AWARENESS:

This Awareness indicates that this as based partially on leaked information regarding the synthetics--that this as also not necessarily completely accepted as truth by the writer, but considered as good material for science fiction. This Awareness indicates that essentially the story as that which has symbolic value in light of present conditions of real situations on this plane. This Awareness indicates that the writer did use some intuition and much imagination, and in one sense, did channel this information, but did so unwittingly without knowledge of the full implications of his work.

This Awareness indicates also the release of the movie, *The Invasion of the Body Snatchers*, (this as the second version), the first being produced during the '50's. This Awareness indicates that this new release as also having much symbolic information regarding the synthetics and robotoids. This Awareness indicates that this as also being based on information leaked to certain sources whereby the writers considered this as good material for science fiction.

MORE ON THE ATLANTIS
AUTOMATONS CREATED

(Reading of Oct. 10, 1979)

QUESTION:

(Russian Robotoids Being Used Instead of Mass Destruction)

In reference to what Edgar Cayce said about the Atlanteans tampering with the life force by artificially creating automatons--human forms with a type of animal consciousness that were programmable and were used as slaves, is there any connection between the Robotoids Dr. Betor is telling us about and the upcoming earth changes as described by Cayce and other psychics?

COSMIC AWARENESS:

This Awareness indicates that the Atlanteans had reached levels of technology wherein they were involved in such experiments--this ranged over a long period of time, this running into several thousand years of their history. This Awareness indicates that this science did degenerate and become that which was thrown out of balance and

into misuse and into the violation of proper laws of the Universe. This Awareness indicates that this could again occur in the present situation if certain types of laws protecting rights of such creations and limiting the types and numbers of such creations to those actions which are of absolute necessity or of humanitarian purposes. This Awareness indicates that for example, such creations wherein the use of these as slaves, as guinea pigs or as creations which might be used for entertainment of the masses, for destruction of each other, for the entertainment of on-lookers—this type of misuse will bring down extremely heavy karma upon those who are involved in such actions.

This Awareness indicates that the present situation is one whereby entities must look at the various implications in terms of *what is at stake* and the alternative choices. This Awareness indicates that it is obvious that this earth is going through a transformation which is costing the lives of some and saving others; that there are also alternatives whereby the lives of innocents could be taken at the desire of those who are motivated by greed and power and lust. This Awareness indicates that these gods of greed, power and lust seeking to control life upon this plane through various forces acting upon this plane can be allowed if entities are willing to allow themselves, their families and their neighbors to be sacrificed to these false gods. This Awareness indicates however, every living creature in the universe has within it and is given by Cosmic Law, the right, even if not the ability to defend its life. This Awareness indicates that wherein many lives are at stake and entities recognizing their lives to be threatened, these entities have the right to defend themselves against violence, against that type of violence which would take their lives. This Awareness indicates that this particularly wherein the entities are innocent and have not themselves been involved in violations toward others. This Awareness indicates that this right does not extend beyond that force which is necessary to defend oneself, for wherein one defends oneself with greater force than is necessary, one then becomes the aggressor and violator of the other. This Awareness indicates that in the present situation the Russians have the ability to use greater force and to destroy many of her enemies without suffering great losses of her own, yet is using restraint in acting so that only that which is necessary for self-defense and the defense of innocents, that force necessary for this purpose is being used.

This Awareness indicates that given the situation as it is for these entities, they are acting in good conscience according to their level of understanding and their capability of dealing with the total situation. This Awareness indicates that this does not imply that they are perfect, that they could not do better, that they have no room for growth; this Awareness indicates that *It* is simply stating that it is less karmic an action these entities are doing in their self defense and defense of many millions, than has been shown by most civilizations upon this plane who have had less reason and perhaps less power at their disposal. This Awareness indicates these entities having much greater power to destroy, yet showing much greater restraint than any civilization in written history up to this point in your civilization. This Awareness indicates that this in terms of your past ten thousand years or more. This Awareness indicates these entities being as cautious in taking as few lives as possible under the circumstances according to their level of understanding and their capabilities in relation to the threats which they see.

HOW OPPOSING FORCES CAN RECONCILE DIFFERENCES

This Awareness indicates that if entities are concerned rather than to condemn or pass judgment or sit in the bleachers, the arena, watching the show, entities could involve themselves verbally and actively with time, energy and their money to speak out, to demonstrate, to put their money where their mouth is and to start taking actions to attempt to promote love, reconciliation, harmony, peace, mercy between their fellow humans, between their associates, and even within their families. This Awareness indicates that entities can write to their heroes and heroines, to their leaders suggesting that they put greater emphasis on reconciling differences, in finding ways to make peace, in searching for those areas that can lead to greater communication. This Awareness indicates that this in terms of all levels of society, that particularly in terms of dialogues between opposing groups, which have differences that can be resolved without hindering the lives of others. This Awareness indicates that it becomes important for entities to discern when to compromise, when to promote compromise and when to stand firm. This Awareness indicates that wherein you see that which can lead to death, destruction or loss and you wish to prevent that, this Awareness suggests that in such cases you may justify standing firm against any such action which would lead to this death, loss or destruction. This Awareness indicates, however, when you see two opposing forces who could by their opposition destroy each other, destroy part of each other or destroy someone else in their conflicts, and there is nothing outside this conflict which is at stake that would be destructive, then entities can feel justified in calling for a reconciliation between those opposing forces. This Awareness indicates this also when you, yourself, are one of the opposing forces.

This Awareness indicates that there are many ramifications to conflicts and in many cases the conflicts can be both destructive and also can be protective of others' rights against destruction. This Awareness indicates wherein this occurs, compromises can be sought in those areas of conflict which are not essential to the protection of the rights of others, while you may seek to stand pat in your stand of protecting the rights of others or the rights to defend yourself from destruction or loss. This Awareness indicates this may be used as a kind of formula to assist in knowing when to justify conflict, when to justify compromise and reconciliation efforts. This Awareness indicates that this is also a general rule of thumb whereby entities can evaluate situations of conflicts to find whether solutions and compromises can be profitable or whether it is urgent that entities stand firm in their convictions. This Awareness indicates this may be applied in your personal lives or in situations of an international scope.

QUESTION:

Would Awareness cover the second part of the question: "Is there any connection between the upcoming earth changes as described by Cayce and the fact as Dr. Beter describes that someone is now creating duplicates?"

COSMIC AWARENESS:

This Awareness indicates this appears to have no direct connection. This Awareness indicates that many of the predictions given by Edgar Cayce in regards to these earth changes have been altered by changes in consciousness. This Awareness indicates that while there is likelihood of many earth changes, these are not likely to occur in the levels of intensity previously indicated--this due to great changes in consciousness which have occurred on this plane during the last twenty years.

ARE WE THE "EARTHQUAKE GENERATION"?

QUESTION:

Awareness, there's an epidemic of books out now in regards to earth changes, and there is one called *The Earthquake Generation* that has brought forth a great number of questions on this, and I've never asked it because Awareness has indicated basically the information it just gave before; but what Awareness just indicated in regard to earth changes, implies these books that are coming out predicting all these dire earth changes are in error--that most of these people who wrote the books must not be aware of the changes in consciousness that occurred and therefore most of the material they have written is now basically invalid. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this information not necessarily invalid in a total sense. This Awareness suggests this as modified. This Awareness indicates that many of the various psychics who have been echoing the Edgar Cayce material who see visions of great earthquakes and the sinking of California into the sea, sinking of land masses back to the mid-part of the United States, the sinking of Japan and so forth, this Awareness indicates that much of this is but karmic memory surfacing from the sinking of Atlantis. This Awareness indicates however,

that entities must also realize that Atlantis began sinking in approximately 50,000 B.C. and continued in various earth changes and shifts for approximately 40,000 years thereafter. This Awareness indicates that those who envision the sudden drop-off of a continent or a portion of a continent into the sea are simply seeing a speeded-up image of that which is symbolic of certain earth changes. This Awareness indicates however that earthquakes in themselves can be extremely devastating and harmful to life and that there can be great destruction from earthquakes without the total disappearance of part of a continent as has been prophesied by many who echo the Edgar Cayce prophecies.

This Awareness indicates that there appears to be an imminent earthquake building in the San Andreas Fault which may be released during the coming months. This Awareness indicates the time is not seen, that this can be determined best through astrological calculation. This Awareness indicates that these and through scientific calculation. This Awareness indicates that the energies may be released through a series of small shocks, rather than one great devastating shock. This Awareness indicates also that certain stabilities may come about when, and if, the earth's aura stabilizes by greater balance and harmony in consciousness. This Awareness indicates that there is seen however, much turmoil in consciousness which will be expressed during the coming months and this may also serve as a release of much of the static energy which could be contributing to the potential earthquake. This Awareness indicates as this pent-up energy in mass consciousness is released, it will assist in leading to greater balance in consciousness. This Awareness indicates however that this release may be of a violent nature whereby entities clash with one another, creating a social earthquake. This Awareness indicates that this social earthquake may be equated to civil strife. This Awareness suggests that a better way of releasing this energy would be through reconciliation as a way of life. This Awareness indicates however, this does not appear to be acceptable to the masses in consciousness who thrive on competition. This Awareness indicates that the Light Workers who are promoting such reconciliation are having great effect and have assisted in minimizing or reducing the potential chaos which was previously predicted by such psychics as Edgar Cayce and many who followed.

WHY DOES C.A.C. PUBLISH
ROBOTOID INFORMATION ?

QUESTION:

Awareness, I have a question about robotoids. Traditionally, esoteric happenings occur behind the scenes and the public is very seldom ever allowed to find out about these. Now obviously, it is not the intention or the duty of C.A.C. to expose the robotoids happening, and if the Russians wanted the public to know they are capable of manufacturing these creatures, they one day probably will do so. My question is, why is C.A.C. putting out information on robotoids?

COSMIC AWARENESS:

This Awareness indicates that essentially the entity Dr. Beter released this information. This Awareness released information last year regarding the UFO phenomena because it was reaching a particular point in consciousness where this was beginning to have ramifications in many levels. This Awareness indicates that in releasing that UFO information, the synthetics was a particular strong and major part of the information that needed to be included in order to project the entire picture.

This Awareness indicates that the release of information regarding the robotoids was necessary in order to explain what occurred behind the scenes to prevent World War III. from happening in May of 1979. This Awareness indicates that without this information, entities would not have been able to grasp what occurred, C.A.C. would have lost most of its membership—that with the information of the robotoids it has simply shifted into an area of the unknown whereby one can only ponder the reality or unreality of the information—where one must look deeply into areas that stretch the imagination, stretch the limits of consciousness, stretch the walls of reality where entities must begin to open their minds to that which lies beyond their normal thinking.

This Awareness indicates that essentially the information was released regarding robotoids because this Awareness indicated that Dr. Beter's information was correct—was generally correct. This Awareness indicates that when Dr. Beter released the information regarding robotoids it became necessary for this to be questioned and the questioning involved C.A.C. and its newsletters, and information has been released. This Awareness indicates that C.A.C. does not need to continue answering every question entities write regarding robotoids simply because this concept does not fit well or questions remain regarding this concept. This Awareness indicates that C.A.C. is not intended, nor is it necessary, for C.A.C. to define, clarify and become an organization that teaches entities about robotoids. This Awareness indicates that the reason C.A.C. has released information about robotoids is because entities asked questions and this Awareness has inclined *Itself* to answer questions asked when these questions are not too offensive to human consciousness.

THE FIXATION WITH ROBOTOIDS

(Will C.A.C. Entities Get Robotoided?)

QUESTION:

A number of concerned members have written to the effect that now that we have printed information on the robotoids, why don't we stop—because they seem to think that the Russians have gone to great means to keep this secret, and that if we continue talking about robotoids we might end up being robotoided ourselves. Is there any possibility that this could occur?

COSMIC AWARENESS:

This Awareness indicates that the information being repeated again and again is rather ridiculous and does not help your self-image with those new entities who enter or who become acquainted with the C.A.C. material.

This Awareness indicates that there is not enough information to inform such entities regarding these, without their going back to the old material for reference and understanding, therefore to continue discussing and answering questions regarding robotoids is of little value to the organization itself. This Awareness indicates however, it may satisfy the curiosity of a few members who are fixated on robotoids. This Awareness indicates this is a concept which can easily become a fixation, can become a humorous matter or can become a catch-all for weirdo concepts. This Awareness suggests that this could become so significant that it would begin to take on a movement in various circles so that very unusual and not so pleasant experiences could occur to many entities. This Awareness suggests that it would be beneficial for these questions to be left unasked, or if asked, to be asked all in one project reading rather than popping up in various places over long periods of time. This Awareness indicates however that there are also occasionally times when clarification of a question may involve the need to mention such as has been released. This Awareness indicates that in terms of the Russians harming C.A.C. for releasing this information, this Awareness indicates this danger as negligible unless this is presented in a kind of mass operation.

This Awareness, however, discourages questions regarding robotoids, that much has already been given, enough has been presented in previous questions and releases. This Awareness indicates that the information Dr. Beter has given has covered enough on this topic also. This Awareness indicates that it is not important to convince entities as to the reality of these creatures, or as to how it may be done scientifically. This Awareness indicates this is simply presented because it was a piece in the puzzle, expressing that which is happening on your plane, and without that piece in the puzzle entities would not have clear understanding. This Awareness indicates there are many more pieces in the puzzle which entities are not yet ready to hear, and until they are ready, these pieces will be withheld. This Awareness that all will be revealed in time, for truth is coming out from the pores of the earth as entities awaken to the New Age of enlightenment. This Awareness indicates however, that entities prefer to awaken in their own time, without great shocks to their consciousness, and even though some shocks have been necessary, *It* needs not shock entities quite so much now that the greatest urgencies have passed for the time being.

THE MORAL IMPLICATIONS OF CREATING ROBOTIDS

QUESTION:

It was probably the moral ramifications and implications involved in the creation of these robotoids that brings forth most of the questions, but I think in the last few sessions Awareness has given enough information on this that we probably won't need to ask any more questions along that line.

COSMIC AWARENESS:

This Awareness indicates that there have been definite moral concerns by the Russians and also by German scientists who understood these creations. This Awareness indicates the German scientists did not believe the project was morally right and therefore shunned the entire project, but the Russians believed this was necessary although they have certain concerns about the social implications and the moral implications. This Awareness indicates these Russian scientists recognize the robotoids as having a rudimentary soul and spirit, this being of an elementary level, weak but present. This Awareness indicates they do not fully understand why or how these qualities are made present in these beings, yet they recognize this. This Awareness suggests also that they recognize these creations as being a breakthrough in certain levels which allow them to make use of forces which have an advantage over other more destructive forces, and it is this implication which has determined their use. This Awareness indicates these entities felt compelled to release the robotoids in order to prevent Nuclear World War Three. This Awareness indicates that this topic appears to have been covered satisfactorily.
