Awareness

Cosmic Awareness Communications
P.O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance states and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the many thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Members of C.A.C. are invited to send in your questions of general interest to ask Awareness for possible publication in this newsletter. Neither C.A.C. nor the Interpreter Paul Shockley are responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said.

"THE OCTOBER MASSACRE"

THE CRASH OF 1979

THE DEVASTATION BEGINS TO SURFACE

(MORE ON THE COSMIC AWARENESS PREDICTIONS)

(From a C.A.C. General Reading, April 12, 1980)

Paul Shockley
Trance-Interpreter

QUESTION:

We received some information from R.H. He sent it to the C.A.C. Historic Reference Department. He said, "Please find enclosed a series of articles that have appeared in various news sources concerning what was labeled "The October Massacre." I hope this information will assist in verifying what Cosmic Awareness has indicated, that the economic collapse in the United States did not occur on October 29, 1979 as was predicted in the 'Gathering Storm', but, in fact...came two weeks earlier, around the middle of October, and that the effects will be felt in greater levels during the Winter and Spring of the year 1980." This is information that has not appeared to my knowledge, in the general media. One of the articles was from the CEI Forecast Update, dated Jan. 11, 1980, "The U.S. Economy" in an article entitled "The October Massacre", and I'd just like to read a little bit of this and ask Awareness if this is what It was referring to when It said the crash occurred two weeks earlier:

"The October shock to investors' composure, and to their net worth, was one of the worst for any comparable period since October 1929. Between October 5 and October 23 long-term corporate bonds fell about 9% in price, long Treasury bonds fell 8.9%, Treasury bond futures fell 8.3%, and the Dow Jones Industrials Index fell 10.1%. To get a rough measure of the loss of wealth implied by these changes in securities prices, consider that households, personal trusts, and nonprofit organizations held \$809 billion in corporate equities and \$65 billion in corporate and foreign bonds at the end of 1978. Nine per cent of that is roughly \$80 billion. If we add in comparable losses of about \$65 billion in the market value of life insurance reserves and pension fund reserves -- which amount to \$729 billion at the end of 1978 -- we see that American investors and consumers were about \$145 billion poorer on October 23 than they were on October 5. That does not include the losses suffered by banks, savings and loan associations, securities dealers and other financial institutions. A sudden loss of wealth on such a large scale should be expected to dampen household buying plans for goods other than yachts and beachfront condominiums."

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that entities must look back to the Crash of '29 also, and recall that the affect did not filter down to the masses for some time afterwards. This Awareness indicates that the Crash of '29 at the time of its happening was not even recognized by the majority of entities in this nation as being of any great significance.— that in fact, there was a series of crashes which followed for approximately two years. This Awareness indicates each being of greater and greater declining of the economy. This Awareness indicates likewise, the affects in October '79 were but the triggering action, and the continuing decline shall be more apparent as time passes.

THE PREDICTION THAT GOLD WOULD HIT \$2000 AN OUNCE

This Awareness indicates that, also *It* stated that gold would move to approximately \$2000 an ounce, possibly higher. This Awareness indicates that at present time, it has dropped considerably. This Awareness suggests that this as but a fluctuation, a temporary low. That it will move up again and entities may expect that it will be in the \$800 or \$1000 range by Fall of this year—this being in the late Fall, after elections. This Awareness indicates this also is not an absolute prediction, but as apparent from the energies in motion. This as being a probability.

This Awareness indicates that there is only now becoming a very clear indication that the economy is suffering for the middle-class American. This Awareness indicates that entities apparently were looking for the headlines in the paper on the afternoon of October 29th which would verify that the crash was started on time, such as an opening curtain for a play. This Awareness indicates that generally things do not occur in this manner, but rather things occur in a more loose or slipshod manner, whereby exact timing can be affected. The words which describe an event are not the event, even though the words may come close to the target.

THE PREDICTION OF NUCLEAR WAR IN THE SPRING OF '79

This Awareness indicates that likewise, *It* gave information last year in regards to the probability of nuclear war, and this information was correct as given—the scenario was correct as given; yet events which were added to that scenario caused a change and the scenario was not implemented on cue.

This Awareness indicates that at present it is again being brought forth for staging. That again entities may watch for the same signs indicated last year, wherein Israel makes a move against Lebanon wherein Syria becomes involved. This Awareness indicates this again appears to be in late or mid Spring. This Awareness indicates that again, this is not absolute in terms of the cosmic scheme, but rather this as being implemented as a plan wherein energies are moving in this direction—this being a human plan to bring about a conflict in the Middle East that is under control of certain forces for certain purposes.

This Awareness indicates that the continued energy in regards to the hostage situation in Iran is holding focus for a particular purpose: that of giving the atmosphere which will allow the American people to become impatient, antagonistic and more oriented toward war. This Awareness indicates this being manipulated from several sources working together. This Awareness indicates that while this focus is occurring, do not be surprised if other events of what appears to be a haphazard or accidental or spontaneous occurrence triggers off another crisis in the area.

This triggering of another crisis may well be that which serves as a decoy or 'hook' to catch the already stirred up consciousness of Americans to accept that there is a national emergency and a need for full mobilization. This Awareness indicates that once this occurs, the trap is set and in motion, and the entities will be wise to understand this last-ditch effort by these forces to gain control and power over their lives. This Awareness indicates that it appears that the efforts are (in a phrase) "too little and too late" for the Alien Force; yet there will be suffering, there will be tragedy, there will be sorrow, as the plan is attempted, even though it may not be successful.

This Awareness indicates that many entities who dropped away when the Pope was not assassinated, when the depression did not occur on time, when the nuclear war which was warned about did not occur on cue—many of these entities may begin to drift back to ask, "What is happening? I have missed, out on something."* This Awareness suggests that for these entities you may refer them to the previous Dr. Beter tapes or to those Awareness readings which have indicated the information needed or you may choose to capsule the events in a simplified way on a single sheet so that they can understand on a shallow level what has occurred. This Awareness indicates the method or approach as being left to you as to how you may wish to attend these entities.

*ED's Note: Awareness was referring to the 35% of the C.A.C. membership which dropped out because of the heavy information we were publishing and those who later dropped out because the predictions did not occur on schedule.

Jackson Predicts a 'Severe Recession'

NEW YORK — High interest rates are pushing the United States toward a "severe recession," said a federal budget deficit of as much as \$20 billion, Sen. Frank Jackson said yesterday.

"I think we could have a deficit next year of nearly \$30 billion if we go on the present," Jackson said. "And we're in the process now of about to go over the precipice because of these astronomical interest rates."

He said the deficit is not "the only thing we could do," he said.

Jackson, a Washington Democrat, was interviewed by the NBC-TV program "Meet the Press."

Jackson, a strong supporter of the president, said the federal government needs a "serious attitude" in the West. East peace process by embracing the best of Jewish settlements in occupied Arab lands.

He said the deficit is not "the only thing we could do," he said.

WHAT TO DO ABOUT GOLD AND SILVER AND OTHER INVESTMENTS

QUESTION:

A somewhat related question on precious metals which we get quite often might fit in here. This one from B.A.

"Several times through the readings of the past few months, the membership has been advised to turn their dollars into property, gems, antiques, gold, silver etc. My interest is silver---'junk' bags of silver, coins in particular. What is the short and long range prospects of these coins? The recent plunge brought on by the Hunt brothers' activities bothers me. What are the recovery prospects? Please comment. Also, is it better to keep bags of silver in one's own possession or in a bank vault?"

COSMIC AWARENESS:

This Awareness suggests that it is better to keep them in your own possession if you have a safe place to keep these. This Awareness indicates that the silver market as that which will always hold value to some degree. This Awareness indicates that silver shall continue to rise in value and may be seen as a stable commodity. This Awareness indicates that it will continue moving up and down, as do other commodities, during these times of economic uncertainty.

This Awareness indicates however, that the market is being controlled at present by those who hold their assets in gold. This Awareness indicates that this as being the most dominating influence on the dollar, and therefore entities who are seeking to make their money on precious metals may wish to follow with those who are controlling the market and keep their metals monies in gold. This Awareness indicates that platinum as being a valuable metal. This Awareness indicates that copper as that which shall begin to rise very sharply, particularly pennies. This Awareness indicates that pennies will be phased out, the copper penny shall be phased out, for it costs more to make the penny than it is worth.

This Awareness indicates that for your own personal savings, the silver which you now hold in coins as that which will be most profitable to you; for these shall not only have value in silver content, but also in their antique value. This Awareness indicates that the numismatic value shall continue to increase as time passes.

This Awareness indicates that entities investing in futures in gold or on a speculative course, rather than simply holding on to gold, investing their money in precious silvers or gems or other antique properties; that entities holding such investments and keeping these as personal savings accounts, putting their monies into valuables for storage of the energy of the money---this as being relatively safe, so long as these are kept in safe places.

This Awareness indicates that as far as the futures market is concerned---where entities place money on a kind of speculation, betting on the rise and fall of commodities' value---this as being more dangerous as an investment, and only those who fully understand the workings should become involved in this, except wherein you have a broker or other agent who fully understands the workings of the futures market. This Awareness indicates that there are many entities who loose large amounts in this market. This Awareness indicates that this market is manipulated. That entities can find prices on futures rising greatly, then suddenly a large investor may pull out and the market begins to plummet because the entity held such a high percentage of the market. And when the market begins to plummet, others holding lower percentages, the small investors, become frightened and pull out their money; and those who do not pull out their money fast enough may find themselves holding on to an investment which is not worth very much. This Awareness indicates then, when the price is down, the large investor puts his money back into a repurchasing action, repurchasing the property or the commodity while the prices are low, and the market starts back upward. Then the small investor, if he or she has anything left, may hop on the bandwagon and start riding back up again.

This Awareness indicates there are also ways whereby entities may place their bets on a falling commodity, whereby they are ready to buy when the commodity reaches a certain low in value. And these entities in understanding this will, if careful, make money; and those who do not fully understand or who by some quirk miss their timing or cannot get their message through, may lose much. This Awareness indicates that it is a very tricky way to gamble and that it requires skill. Therefore, this Awareness does not recommend this form of market-playing for most of the entities who read these messages. This should be left to those who fully understand or who wish to take the chance.

This Awareness indicates that *It* is not interested in assisting entities in their speculations; that this Awareness is concerned about the welfare of entities in saving the fruits of their labor, so that they not be violated by a theft which is brought in as a depression, recession, or other manipulated situation. This Awareness suggests that *It* seeks to diminish the suffering which is caused by these manipulated situations; therefore this Awareness suggests that entities find some commodity which holds its value even when the dollar is falling.

This Awareness indicates that the economy has held its present height, has held longer than would have been expected because the interest rates continued to move upward. This has slowed down the inflation rate. This Awareness indicates however, that the upward movement of the interest rates is quickly bringing on the curtailment of new business ventures, particularly in the areas of home building, of construction, of the development of raw products into household goods and items. This Awareness indicates that this also is affecting the automobile industry. That these are two of the major industries in the United States and as these begin to suffer, more and more entities will be put out of work; and as they are put out of work, they will be unable to spend or to buy; and this will affect the merchants of the nation, and the mercantile businesses and the food and produce businesses; and as these businesses are affected by fewer sales, they too will lay off employees and more entities will be out of work. This Awareness indicates that you have the makings for a great depression which is now being presented to you.

This Awareness indicates however, that with a crisis occurring, manipulated in the Middle East, there can be the promise or the alternative offer which entities may grab at joyfully—that instead of a depression which is imminent, you may have the opportunity to mobilize for war, and this will bring about many jobs and much employment. This Awareness indicates that these are your two choices which are being offered, and of course if the leaders of this crisis, the manipulators of the situation have their way, the majority of entities in the nation will support the call for war and national emergency techniques. This Awareness indicates that there are, of course, other forces in the Universe which are not necessarily inclined to play out, or allow that scenario to be played in its entirety.

This Awareness indicates all of this — the rising and falling of economy, the rising and falling of emotions, of situations manipulated and contrived, of conflicts between entities between nations—all of this activity is but the action of working out the polarizations, so that reconciliation can occur. This Awareness indicates you may recognize that you are in fact engaged in the Battle of Armageddon, and that at the base of the foundation for this war or Battle of Armageddon is the economic scene. This is a war on money and economy, and the controls of money and the economy are at stake. This Awareness indicates no other previous war has been so well focused for the masses to recognize that it was simply an economic maneuver.

This Awareness indicates that entities who own real estate property may discover that the market is becoming more tight, sales becoming more difficult. This Awareness indicates that this will continue for some time and entities may choose to ride this out, allowing their property to lose its sales value on the present market while the market moves through its slump. This Awareness indicates that other entities may feel it is necessary to sell their properties and to use whatever equity they can salvage for other investments. This Awareness indicates that it is not a good time to be in debt, unless you are certain that the income which you have can continue during difficult times, or unless you have energies and income sources which will allow you to ride through the slump.

Last Chance to Stock Up on Grains and Food

This Awareness suggests also that entities who have not yet stocked up on certain emergency food supplies, such as grains, to do so rather quickly. This Awareness indicates it appears that the grain harvest for this year, the food situation may become more of a concern as weather warfare is implemented upon this nation. This Awareness indicates that this weather warfare as already begun, but it appears this shall be intensified to deliberately destroy crops and curtail the food production—this being brought on as a kind of revenge from Russia in response to the Carter Administration cutting off the wheat sales to Russia. This Awareness indicates that entities may expect the price of foods to continue rising. That there will be some efforts during the mid-part of the year as the election time approaches to patch up the economy somewhat, but entities may expect everything to fall apart after the election is over.

SNOW, SNOW, SNOW

'Very Unusual,' Admits Weatherman

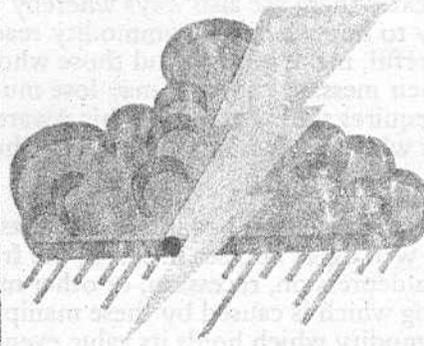

By The Associated Press

"This is very unusual," said Roy Frenkel of the National Weather Service. "We've got about as much snow since spring started as we usually get in a whole season." More snow hit the Rockies Wednesday, piling a layer to 18 inches in Colorado. Snow also hit the West Coast, with 12 inches in New Orleans. Heavy snow was reported and more than 100 homes were flooded in St. Thomas, Washington and Lake Mead, Nevada. National Guardsmen were sent to the area to help clear the river to flood.

A snowing 6 inches of rain drenching the mountains in New Orleans. Heavy snow was reported and more than 100 homes were flooded in St. Thomas, Washington and Lake Mead, Nevada. National Guardsmen were sent to the area to help clear the river to flood.

In Colorado, snowplowers got stuck in a 14-inch snowdrift. In Washington, a 12-inch snowdrift blocked a road. In Nevada, a 12-inch snowdrift blocked a road. In New Orleans, a 12-inch snowdrift blocked a road.

In Colorado, snowplowers got stuck in a 14-inch snowdrift. In Washington, a 12-inch snowdrift blocked a road. In Nevada, a 12-inch snowdrift blocked a road. In New Orleans, a 12-inch snowdrift blocked a road.

"Any nation able to control the weather would have the ultimate weapon to use against an enemy nation in time of war."

April, 1980, The Plain Truth. 'What is Happening to Our Weather'. Free copy available! The Plain Truth magazine, Box 111, Pasadena, Ca. 91123

QUESTION:

Awareness, one question relative to the question on silver Awareness didn't cover: what about those entities who have invested in silver for many years as a hedge against the depreciating dollar and have bought silver as they could afford it in the form of bullion or silver claims accounts, paying cash for it and hanging on to it? Now, the traditional ratio is 16 to 1, I believe, of silver to gold, but gold has risen so rapidly silver has not kept up with that ratio. It's now like 33 to 1. My question is for entities who have and are purchasing silver bullion for long-term, to hold on to their investments and what they have worked for, is there a formula attached to gold that they could go by?

COSMIC AWARENESS:

This Awareness indicates this as negative. That essentially the prices of gold and silver are floating, and the entities who are manipulating these prices manipulate because they have large stock or large supplies of gold, silver or other commodities with which to manipulate the market. This Awareness indicates that entities who have savings in gold or silver may at times feel envious—As the market, for example, rises in gold, those holding silver may feel that they have been left out. This Awareness indicates however, that those who have interests in gold may at other times feel that they should have invested in silver. This Awareness indicates these metals will continue fluctuating up and down at various rates.

This Awareness indicates this is true of other metals and other precious gems and stones also. This Awareness indicates there may even be times when entities will wish they had their gold and silver transferred into dollars. This Awareness indicates however, that the dollar is not the safe investment and that precious metals will become more and more expensive; and therefore investments in silver, in gold, in platinum, in copper—these are the more solid types of investments. This Awareness indicates that investments in gems, particularly semi-precious gems, are also very good investments at this particular time because they have not started to rise in value yet.

This Awareness indicates that *It* cannot give a particular formula for prices which are floating up and down in a relative world—this being likened unto corks on water, bobbing up and down; those which can be bobbed deepest being the most valuable. This Awareness indicates that these are in constant flux in relation to one another, and there is no way that a particular, fixed formula can assist in helping entities to determine which to best invest in.

This Awareness indicates gold, diamonds, and platinum will remain stable—particularly gold as being the metal which those most powerful investors are using for their basis and currency. This Awareness indicates that, however, the other precious metals will follow the price of gold. This Awareness indicates that the investment for speculative purposes in gold as more difficult, because it is more volatile and easily manipulated. That for those who are simply holding on to precious metals for their future needs, this Awareness indicates that these metals will continue to rise in value, and your investments will be safe, so long as you are able to keep your metals or other commodities. This Awareness indicates that entities should not panic when prices drop for the product which they hold, for these shall, in time, rise. This Awareness indicates you must understand that the dollar itself will lose more and more value; and as it does, your metals will gain more and more value.

Conditions Will be Like Germany after World War 1
(Quebec, Canada, a Safe Place to Be)

This Awareness indicates that in the events which follow, entities will be wise to refer again to the economic conditions which existed in Germany after World War 1, when the great inflation destroyed the economy of that nation. This Awareness indicates the manipulators are setting up the United States to follow the same path which Germany followed after World War 1 in the economy, and in the political situation. This Awareness asks entities to carefully look at those situations and the parallels which are occurring at this time in this nation. This Awareness indicates that this as essentially the same type of plan.

This Awareness indicates that entities who prefer to leave the United States and seek safer places to consider Quebec, for that as being the area which appears to have the most freedom in the future times. This Awareness indicates however, that *It* is not suggesting that entities leave, *It* is simply heading off many questions regarding this before they are asked. This Awareness indicates that there may be many who will wish to leave if the draft is initiated. This Awareness indicates that Quebec would be the safest place for this action. This Awareness indicates there are other nations wherein relative safety may be experienced—these being France, Germany, the European continent in general, Australia to some degree, Canada, and certain South American countries to some degree. This Awareness indicates that the United States as also offering much security, though the intensities may create hardships for some. This Awareness indicates this, of course, is relative to modification with regards to the events which may occur and their intensities.

This Awareness indicates that more information regarding these events and future occurrences can be perceived more clearly as time moves on and events begin to take their shape, according to the energy patterns which move toward crystallization of the events.

Tax Refunds Held Up

WASHINGTON (AP)—The Treasury Department is delaying sending about \$3 billion in tax refund checks for a few days but it says there will be no cash shortage in its accounts to cash them.

The delay, from Friday until Monday, reflects "conservative cash management policies" by the Treasury, said a spokesman. He said there probably would have been enough money to cover the checks if they had been mailed as planned.

"It was really a decision to get refund checks to recipients as Tuesday, rather than Monday, which simply follows the Treasury's cash management policy during this period of an unusually heavy drain of government cash," said the spokesman, who did not want to be identified.

The Treasury's cash needs have increased sharply by interest payments, in part because of the refund payments, but also because of large-scale redemptions of Savings Bonds and of U.S. government securities by foreign investors.

The spokesman said the Treasury Department tries to keep its cash balances as low as possible to keep its interest costs as low as possible in a cash market. Although he didn't say so, he indicated the overall cash balance may have fallen to \$100.

Tax refunds are up 25 percent so far this year compared to 1974. If the present trend continues, total refunds will total more than \$20 billion, up from \$16 billion in 1974.

The average refund is \$200 this year, up from \$150 last year.

than \$150 over the 1973 average of \$98. A spokesman for the Internal Revenue Service, Larry Ruffell, said the normal yearly increase in the average refund is about 50%.

"It's higher than ordinary," he said of the 1975 increase. "Obviously, this is the result of inflation."

The final deadline for filing tax returns is April 15, next Tuesday.

The Treasury spokesman said "it's not illogical" to conclude that Treasury money managers considered a delay in sending checks to guard against the possibility that there might not be enough money to cash them.

Treasury Department officials might have been able to provide additional information about the delay did not return a reporter's phone calls.

But the spokesman said the delay did not mean there was a serious cash shortage. He said it reflects a "conservative attitude of Treasury ... they like plenty of margin for error."

The procedure said Friday had been for Post Office employees to pick up tax refund checks on Fridays at eight regional district offices around the country. However, this week they were told to come next Monday instead.

The spokesman said a similar weekend delay occurred once last year, although it apparently escaped public notice.

This Awareness suggests there are indications at this time which foresee or foreshadow general events, but the intensities and details of these events are not yet clarified by these energies, and are subject to modification as consciousness involves itself in either bringing about these events or altering these events.

COSMIC ACUPUNCTURE
(Closing Message)

Soviets may launch satellite-killer

WASHINGTON (AP) — The Soviets may be preparing for the first test flight of a satellite-killer in nearly seven years. U.S. intelligence sources said Tuesday.

The Soviet test will April 3 what U.S. intelligence agencies believe to be a target satellite. The agreement was signed in a way that suggests it probably will serve as a target for a satellite interceptor to be fired later, the sources said.

The vehicle was launched from Plesetsk in central Russia into an orbit ranging from a high point of 2,517 ground miles from the earth's surface down to 14,576 miles altitude.

If the intelligence predictions are borne out, this would be the first Soviet test of its satellite-destroying system since May 10, 1975.

In that test, intelligence sources said at the time, the Soviet satellite came within 120 miles of the target.

That test preceded diplomatic discussions between the United States and the Soviet Union based on President Jimmy Carter's appeal for a mutual ban on anti-satellite weapons. Those talks failed to produce an agreement.

Defense Secretary Harold Brown has told Congress that the Soviets have an anti-satellite system with limited capabilities against U.S. space assets. With the United States and Britain, the Sovietly designed an extension to Soviet's ability to receive missile tests and other key military developments in each other's territory.

The Carter administration's 1981 budget provides for a 10-percent increase in research money to develop an anti-satellite weapon. This research would be funded at a cost of \$120 million, while we attempt at the same time to negotiate with the Soviet Union to the same.

Brown told Congress.

The Soviets have tested a variety of techniques for intercepting and destroying satellites. The most appears to be the most practical, in the view of U.S. officials, uses pellets fired at high speeds that disrupt or disintegrate or eject a target satellite in orbit.

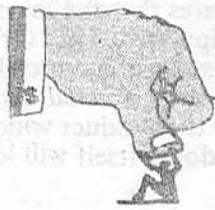

Public meetings set on transit vote

This Awareness indicates that those entities who have listened to these messages last year, and again this year, have assisted in an alchemical action of draining off the polarized magnetic energy fields associated with war and balancing out those energy fields. This Awareness indicates that each time an entity becomes aware of a polarization which is imbalanced; and each time the entity seeks to reconcile those imbalanced polarizations, the polarities involved in consciousness become released.

This Awareness indicates this as likened unto acupuncture or acupressure on a human form, whereby an illness may be caused by a collection of energy that does not flow properly because of a block in a particular area. And when this area is stimulated, pushed or poked, according to whatever method is used—acupressure, acupuncture or massage—the energies then begin to flow, and the healing is allowed to take place as the crystallization of these energies is broken up.

This Awareness indicates that those entities who look at the crystallized forms of patterns of the situations upon this earth which are crystallizing and moving toward events, and entities looking at these with deep concern, giving attention — these entities serve as needles of the 'Great Acupuncturist in the sky' who heals the body of humanity. This Awareness indicates that focus of attention is a healing action when that attention is focused for the purpose of healing, for the purpose of discovery, for the purpose of enlightening, for the purpose of opening up and releasing the energies. This Awareness indicates that focus of attention can be detrimental and malicious when that focus is intended to harm, to destroy, to cause suffering a pain, or to polarize and make differences more significant.

This Awareness suggests that entities who have been involved in these messages, who have looked into the situation of the world with the attitude of wanting to see peace and harmony, these entities with their focus of attention, are the peacemakers; and even though they may not ever speak a word about these things, the act of looking deeply at the situation does have its effect on the mass mind of humanity, and helps to break up the crystallized and blocked energies which would cause the pain and suffering of such polarities. This Awareness indicates that you need not be afraid to look. This Awareness suggests you recognize the power at your disposal in being able to look closely with great attention, and knowing that your look and your attention is assisting in the alleviating of tragedy on this plane.

**CONSCRIPT
BANKERS FIRST**

Bumper Stickers...Available from C.A.C. (\$1.00 each)

THE GAME OF 'CHICKEN' and RUSSIAN ROULETTE

(Opening Message, C.A.C. Reading, April 9, 1980)

This Awareness indicates that the forces which are moving upon this plane at this time, moving toward that which is a major conflict, are also being confronted by that force upon this plane which is moving through consciousness which is awakening consciousness—this much likened unto a spotlight being thrown upon the dark motives of those who would use their power in malicious ways against humanity and the Divine Principles.

This Awareness indicates that the coming months shall witness the last great effort of the Alien Force to create war and tyranny and gain control over the masses upon this plane—this being likened unto a "last ditch" effort. This Awareness indicates that the dangers are great, but the odds are in favor that the forces which are awakening and catching on shall awaken enough entities soon enough that the plan will fail. This Awareness indicates that the degree of destruction and loss of life will be determined by the intensity of consciousness to awaken, to understand, and to reconcile these differences which are leading toward this conflict.

This Awareness indicates that there are no absolute guarantees or determining factors at this time which will reveal the outcome of the coming crisis; whether this will manifest itself both economically and in social and political upheaval, or whether this will manifest in one or the other of these actions, or whether these experiences shall be of great, chaotic and intense experiences, or whether they shall be mild — for the outcome is determined by the mass mind and its ability to channel these energies, and each of the individuals making up that mass mind will have the freedom to contribute to one degree or another, for war or for peace.

This Awareness indicates that from present indications there appears to be some intensities which will be tragic for many. This Awareness indicates that the degree of this tragedy can be determined by the nature of the mass mind, the influences of the individuals upon that mass mind, and the ability of individuals to contribute to peace. This Awareness indicates that generally, the appearance of energies in motion are quite encouraging, even though there are seen dark and heavy clouds of war on the horizon. This Awareness indicates that it appears the program to draft entities, young men and women, will not be successful. That the program to create an international crisis for the purpose of creating national emergency for dictatorial controls will be attempted, but will not be capable of achieving the purpose. This Awareness indicates that it appears there are too many entities who know too much, even within the echelon of the government, and that those within the government levels will not cooperate on such diabolical plans when the chips are down. This Awareness indicates that many of those who would implement such plans are having second thoughts and may reverse their tendencies and pull back from these actions.

This Awareness indicates the appearance is that there is a kind of game going on in higher levels by certain entities much likened unto the game that teenagers used to play during the decade of the '50's, wherein they would run their cars toward each other, and whoever turned away first was considered the 'chicken'. This Awareness indicates that these entities have grown up and the entities of a like nature from that generation and those near are now in positions in the government wherein they continue the 'chicken' game, but this game being done with nuclear weapons, wherein these entities play 'chicken' with their adversaries with the threat of war which could lead to nuclear devastation.

This Awareness indicates that this also related unto another game known as 'Russian roulette,' wherein a gamble is taken wherein one bullet was placed in the chamber of a gun and chamber spins and the entity fires, with luck into an empty chamber, or with tragic results, fires the bullet.

This Awareness indicates the present situation may be considered likened to these games, wherein certain forces in the United States are playing 'chicken' with Russia, and the Russians are playing Russian roulette with the Americans; and these game players are considered as the protectors of the societies of these two super powers. This Awareness indicates essentially, these entities have not outgrown the sickness of their teenage years, are psychologically unbalanced, and are looked up to by society for advice, for protection, and for the security of the nation. This Awareness suggests that entities must awaken each other to the sad fact that the entities who seek such power to make war are invariably mentally unbalanced, and have no purpose or right in being in the position to make such judgments for the masses. This Awareness suggests that entities meditate, communicate, and promote the concept of reconciliation rather than confrontations, for the nuclear confrontation or any confrontation that could flare up into a nuclear confrontation will result in such tragic ends as cannot be conceived by any sane mind.

This Awareness indicates that the situation needs to be looked at without fear; that this appears to be the last great concern. That thereafter, smaller and smaller ripples of concern may occur. But this Awareness indicates you may consider this and the following ripples and following threats as being more like a mopping up campaign, whereby the Light Forces shine their awareness on the Forces of Darkness, lighting up the situation so that all may understand and so that the Forces of Darkness cannot operate efficiently.

This Awareness indicates that many entities who have been receiving these messages and others of a similar nature, may not fully realize how much they have been given in terms of information. This Awareness wishes entities to understand that only in the past two or three months have the Russian people been given information through their press, through their news media, releasing information regarding the Trilateral Commission, the Bilderbergers, and many other groups of money barons and powers; so that only now the Russians have become aware enough to inform their people that it is not the Pentagon which is responsible for the intrigues of war, it is not the White House which is responsible for the intrigues and wars which have been prevalent during the last several decades, but rather the money forces.

This Awareness indicates this information being released by the Russians through their news media in recent months indicates a change in their assessment of world affairs and allows for a greater chance of avoiding nuclear confrontation. For these entities now recognize where the *true source* of conflict lies, and will not be so inclined to make errors of judgment in blaming the people of America for those actions which are perpetrated by a few in power.

This Awareness indicates this new assessment indicates that the Russian government has become aware of the so-called 'Conspiracy Theory' which many in this nation have been aware of for some time, but have been unable to spread to the masses for fear of ridicule and reprisals. This Awareness indicates that those who have received these messages relating to the so-called 'Conspiracy Theory' may be somewhat amused to think that they have known all along that which the Russian government has only recently realized, or which they have only recently released to their people.

Navy Personnel Shortage Pulls Ship Out Of Action

WASHINGTON (AP) — For the first time in at least 18 years, the Navy has taken a ship out of operation because of a shortage of key crewmen. It was learned Friday.

The Navy said the older *Conan*, based at Norfolk, Va., has "temporarily suspended operations due to a personnel shortage" of veteran boiler technicians and machinists mates. Two Navy reserve destroyers, the *Johnson* and the *Dryden*, are "in the same fix," Navy officials said, but they are due to be decommissioned anyway.

However, the *Conan* was supposed to be undergoing repairs (including boiler) being deployed overseas and its deployment will now be delayed, probably beyond this summer, officials said.

Navy sources said the last time anything like this had happened was in the mid-1960s at the height of the Vietnam War when some ships were short-handed because of the heavy demands of operations off Vietnam.

Recently Adm. Thomas Hayward, chief of naval operations, told Congress that a "shortage of talent" had already reduced the readiness of many ships and air squadrons.

"We are approaching the point where we may have no realistic alternative but to consider standing down some ships and aviation units," Hayward warned at the time.

He said the problem stemmed from a failure to pay necessary career petty officers adequately "both for their skills and for the unique deprivations that go with service at sea."

Pentagon manpower chief Robert Fiske has testified that relative to middle grades declined significantly in recent years.

This Awareness indicates that there also appears to be intensifying weather war situations, wherein weather becomes more and more an aspect of controlling and manipulating and influencing events. This Awareness indicates that likewise, there appears to be continued geophysical and geothermal conditions which will have unusual affects upon this plane. This Awareness indicates that entities need not be surprised if other volcanic activities on other mountains in the United States and around the 'Ring of Fire' in the Pacific begin to heat up and act up during the next thirty years. This Awareness indicates that intense periods between February of this year to October and again in 1982 and '85 can be expected. This Awareness indicates however, that these intense periods may be seen as times wherein great changes occur and the forces of humanity, those forces which are concerned with the life, livelihood, and welfare of the planet Earth and its inhabitants, these Forces of Light shall have opportunities for growing strong and influential.

MORE ON THE LETTER - WRITING CAMPAIGN

QUESTION:

Would Awareness clarify if the people that we have suggested writing to in our chain letters are the ones Awareness just referred to as the 'game players'; and if so, explain why it has been suggested addressing them in such a respectful manner?

COSMIC AWARENESS:

This Awareness indicates that it is only through such respectful addressing that these entities will even receive these letters with respect. This Awareness indicates that these entities are not the sole entities involved, but that through these entities the message will be put across. This Awareness indicates that essentially, the entities addressed may not even see the letters; that secretaries may see these letters, but the message will be put across.

THE BAPTISM OF THE AQUARIAN AGE

(Closing Message, C.A.C. Gen. Reading)

November 25, 1979

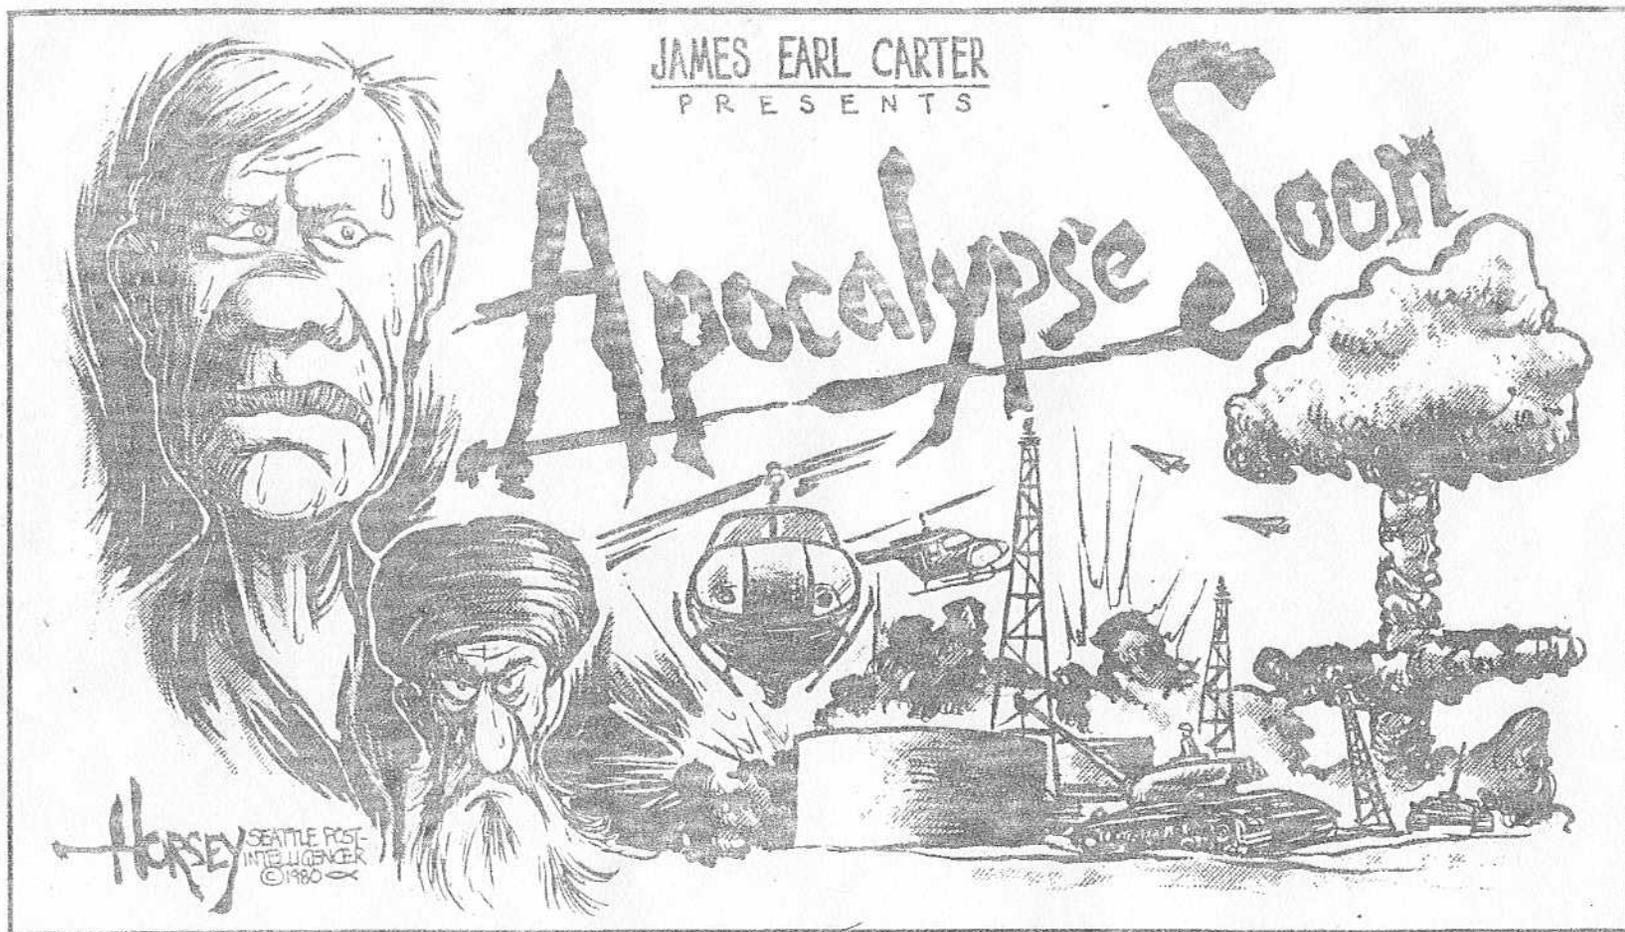

This Awareness indicates that it appears there are still a great number of events which can be somewhat serious in nature, these as coming during this next few months. This Awareness indicates that essentially the next six to seven years as being critical in nature on many levels. This Awareness indicates that these coming years also shall be likened unto the baptism of the Aquarian Age, to bring forth the changes which are necessary so that the new energies may begin to manifest more quickly and with greater freedom.

This Awareness indicates that as long as these changes are occurring, there will be times when caution is necessary, there will also be times when bold action is necessary. This Awareness suggests that these times will occur on moment to moment basis, and with attention and awareness of the full implications of the various situations, the problems encountered will be minimized. This Awareness suggests that you may profit best by using all levels of information, all sources of intelligence available to you during these times.

REVELATIONS OF AWARENESS is a cosmic newsletter published every two weeks by Cosmic Awareness Communications, P.O. Box 115, Olympia, Washington 98507 (A Non-profit organization). Rates and membership information is available upon request. For samples of these communications, send \$3.00 for 80 page book, 'Cosmic Awareness Speaks' to above address.

RUSSIA

Test Tube Mammoth

MOSCOW (AP) — The world's first test-tube mammoth, a 12-foot tall elephant-like creature, may be less than two years away, the Russians say. A Leningrad scientist, Viktor Mikhelson, said Monday that Soviet scientists, using cells from mammoths found preserved in ice, have begun a program to create a mammoth of the type that became extinct 10,000 years ago. He said the sole purpose of the project is scientific study. So far, Mikhelson said, scientists have not found a suitable live mammoth cell. Once they do, they plan to use laboratory dishware to mate a preserved cell from a male mammoth and one from a modern-day female elephant, then implant the result in the female.
