COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

## AN APPEAL BY COSMIC AWARENESS....

FOR ALEXANDER -----

Trance-Interpreter

SOLDIER OF THE LIGHT --

THE EMBATTLED KEEPER OF THE FLAME

( WHO HAS INHERITED THE WRATH OF THE ALIEN FORCE )

(Opening Message, C.A.C. General Reading No. 1)

May 7th, 1980

QUESTION:

Does Awareness have an opening message?

COSMIC AWARENESS:

This Awareness asks that the energizers vibrate the word 'OHM' three times. (This is done).

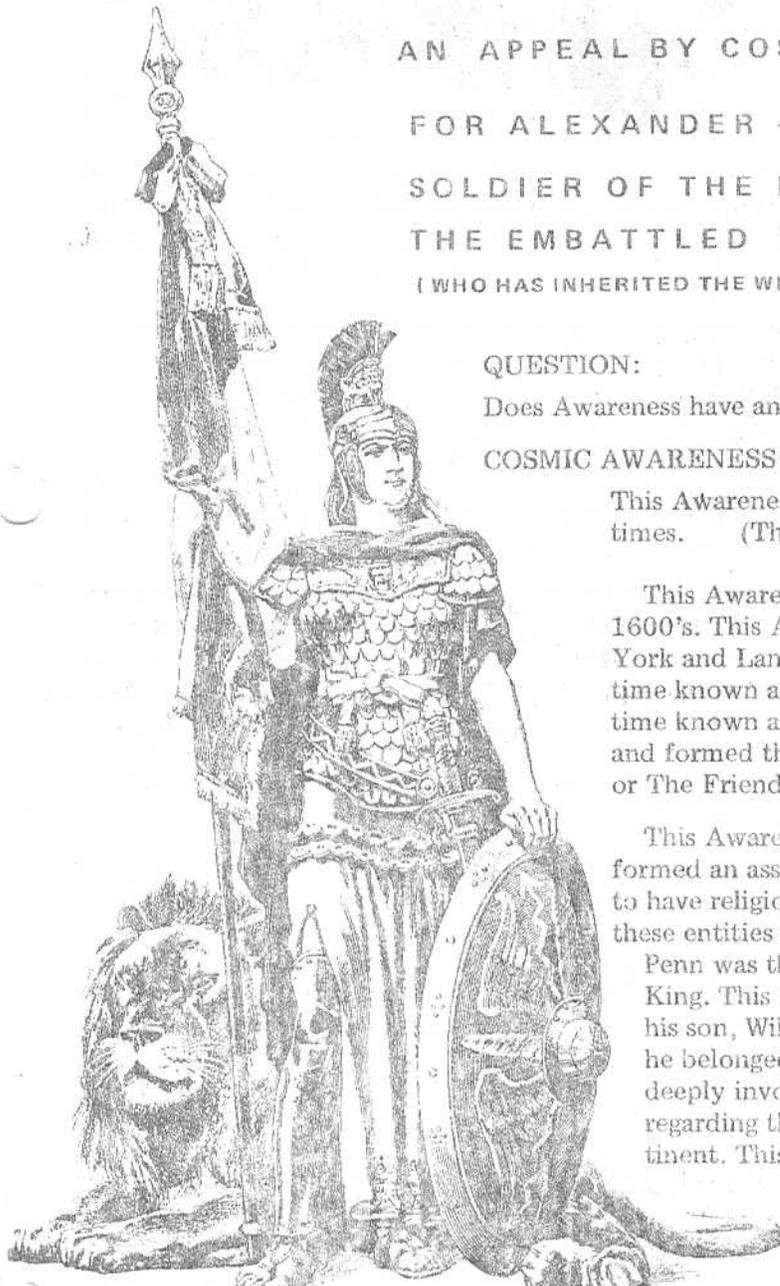

This Awareness wishes to tell a story, this dating back to the early 1600's. This Awareness indicates this in the area of England, between York and Lancaster, wherein the entity George Fox, (in this present lifetime known as Avaton) and the entity William Penn, (in this present lifetime known as Paul Shockley), joined together with a group of entities and formed that which was commonly called 'The Association of Friends or The Friends of the Light'.

This Awareness indicates these entities, embracing no particular religion, formed an association of entities who worshiped the truth and the right to have religious freedom in their expressions. This Awareness indicates these entities were considered radicals of their day. That the entity William Penn was the son of a high official of the British Navy, a friend of the King. This Awareness indicates the entity was somewhat ashamed of his son, William Penn, and the radical Association of Friends to which he belonged. This Awareness indicates the entity William Penn being deeply involved in assisting the Friends of Light in their legal battles regarding their religious beliefs, both in England and also on the Continent. This Awareness indicates that at the death of William Penn's

father, the King, who owed his father a large amount of money, through an agreement with William Penn, dissolved the debt by granting William Penn a portion of property in the New World whereby he and his Friends

of the Light could go and practice their religious freedoms in the New World. This Awareness indicates this portion as described

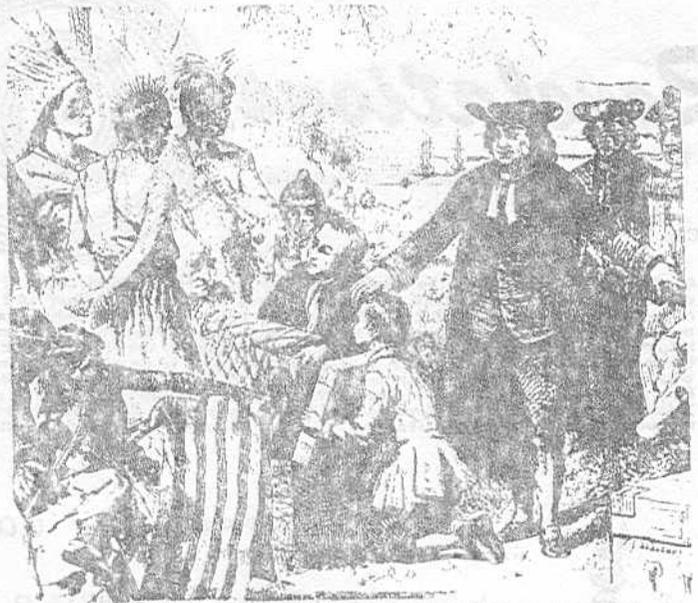

running between two parallels toward the West as far as the land went. This Awareness indicates that this description became the State of Pennsylvania and was stopped in the West by settlers who had already settled the land to the West of the present borders. This Awareness indicates that the State of Pennsylvania as a portion of the Commonwealth, is in fact to this day known as a commonwealth rather than as a state.

Alexander the Great  
King of Macedon

This Awareness indicates that the State or Commonwealth of Pennsylvania was created particularly for the needs of the Friends of Light, the Association of the Friends, who became known as the Quakers because of their zeal and intensity when they spoke, which caused them to shake and quake. This Awareness indicates this name originally intended as a ridicule, became a form of pride to these entities as it was repeated again and again and as they became known as 'Quakers'. This Awareness indicates that *not only was this intended for the religious freedom of these entities, the Quakers, but for all entities of any religion.*

This Awareness indicates that the Commonwealth of Pennsylvania was then established under rules which would allow religious freedom, which would allow other types of freedom--this in the 1670's, approximately 100 years previous to the Articles of Confederation which formed the United States. This Awareness indicates this also included the Indians in Pennsylvania; that these entities had no problems with the entities in that area, for they had clear relationships with these entities, particularly the Delaware and Iroquois Indians. This Awareness indicates that these Iroquois and the Delaware Indians also influenced the treaty and the policies of the charter for the formation of the area known as the Keystone State of Pennsylvania. This Awareness indicates that Pennsylvania became known as the Keystone State when it ratified the policies to join with the other States in forming the United States.

Penn's Treaty with the Indians (From Harpers)

This Awareness indicates that 100 years after the establishment of the policies in Pennsylvania set forth by the principles of the new religious freedoms, William Penn and his associates, the entities from the various States gathered in different areas of Pennsylvania--in Philadelphia and in York, Pennsylvania--to establish the Articles of Confederation, which became the base for the present Constitution of the United States. This Awareness indicates that this was closely patterned after the Constitution or the Charter of Pennsylvania. This Awareness indicates that in effect, York, Pennsylvania is the birthplace of the United States, in that the Articles of Confederation in 1777 were accepted and approved by the Continental Congress, and this became the Charter on which the United States was built.\* In fact, this as the first time the name, 'the United States', was officially used in the documents.

This Awareness indicates that in 1977, two hundred years later, the entities Paul Shockley and Avaton and others --Thomas McQuay and different entities also having roots in that previous era, returned to York to establish a historical, documented action of implementing a concept into consciousness known as the Unified States of Awareness. This Awareness indicates the purpose of this action being to bring about the concept of the spread of freedom from the roots of the United States for all of the nations of the world. This Awareness indicates since that time in 1977, the Unified States of Awareness has essentially been in a state of limbo, as there have been other urgencies with which to deal. This Awareness indicates that the important action at the time was to re-establish the focal point and the historical significance of that time for a reference point in future actions.

This Awareness indicates that in 1977, two hundred years later, the entities Paul Shockley and Avaton and others --Thomas McQuay and different entities also having roots in that previous era, returned to York to establish a historical, documented action of implementing a concept into consciousness known as the Unified States of Awareness. This Awareness indicates the purpose of this action being to bring about the concept of the spread of freedom from the roots of the United States for all of the nations of the world. This Awareness indicates since that time in 1977, the Unified States of Awareness has essentially been in a state of limbo, as there have been other urgencies with which to deal. This Awareness indicates that the important action at the time was to re-establish the focal point and the historical significance of that time for a reference point in future actions.

This Awareness indicates that at present time there is an action which has been 'brewing on the back burner' for some four years, whereby it is time that entities became aware of this action with the possibility being presented, so that entities wishing to become involved in this moment of history might find the opportunity to work co-creatively in this action. This Awareness indicates that from October, 1976, to present time, the entity Alexander Thompson of York, Pennsylvania, has been holding the Thompson College available for use by this Awareness for a college to be opened in that area. This Awareness indicates that the funds for this action have not been available; the Alien Forces in that area having given this entity a heavy and total attack to destroy any possibility of opening such a college in that area for this Awareness. This Awareness indicates that this also must be looked at in the retrospect of history and mystery.

This Awareness indicates the entity Alexander Thompson as being the reincarnation of Alexander the Great; and that the entity Alexander the Great as having implemented through his action, the turning point in consciousness of the Western World, which broke up the power and controls of the Priesthood and secret schools more than any other entity in the history since the Egyptian times. This Awareness indicates that this entity therefore has inherited the wrath of the Alien Force.

\* Tom McQuay was formerly Thomas Jefferson, according to Cosmic Awareness. Also, for one of the stories about Alex Thompson's battle with the Alien Force, please refer to No. 79-26 (Nuclear Power), \$3.00. (The story on his daughter, Kim.)

This Awareness indicates that this entity, Alexander Thompson, as holding title to property deeded to a Scotsman, an ancestor of this present Alexander Thompson, whose name was Alexander Thompson; the deed being signed by the entity William Penn--this in the mid 1600's. This Awareness indicates this entity holding title to property deeded to his family over 300 years ago by the entity William Penn to an Alexander Thompson. This Awareness indicates this entity Alexander Thompson of present time as being desirous of having this property used for projects of this Awareness, for projects of Cosmic Awareness Communications and the Aquarian Church.

Alexander.

This Awareness indicates that *It* has watched for some time and has directed individuals in various ways to give assistance to this entity in his efforts to hold the line in this area against overwhelming odds. This Awareness indicates this entity, Alexander Thompson, as having been the only major force in that area holding off the Alien Force, which is attacking the very roots of the Aka-Chord of this nation. This Awareness indicates that this entity as having been victorious in these attacks in many ways which appear miraculous and who can tell the stories of these miraculous adventures in books which the entity can dictate when time permits. This Awareness indicates that at present, the entity has no time for such adventurous romances and stories of miraculous escapes and of the interweaving of forces in his battle with the Alien Force, for the entity is still involved with the battle.

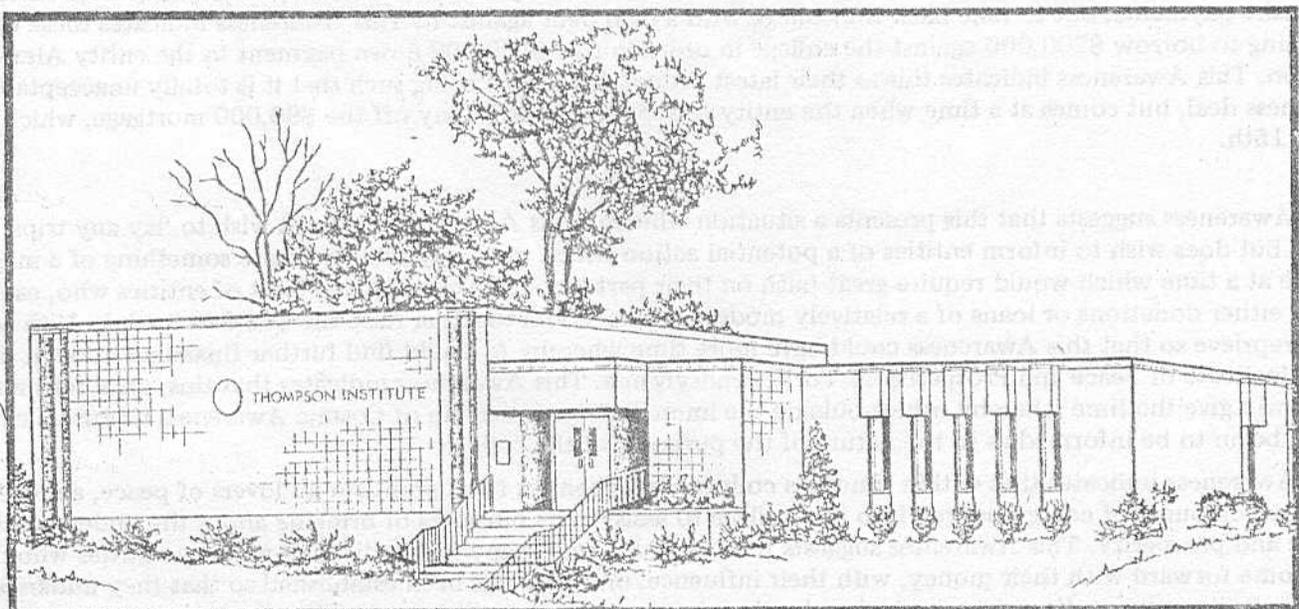

Alexander Thompson & Mary Farrel  
(First Mate Mary) at the 1977 York  
Convention.

This Awareness indicates this entity as also the reincarnation of the entity, King Alfred of Austria. This Awareness indicates that this entity as being a close associate of this Awareness--one who has served many lifetimes in the effort of raising consciousness, of enlightening the masses. This Awareness indicates that the entity as one who may be termed 'a soldier of Light'. That this entity has suffered greatly from many of his deeds, from the karmic repercussions of some of his actions as a warrior; yet the entity has also accomplished many great things on various levels. This Awareness indicates that at present, the situation is such that the entity's college--which was once considered the most prestigious college in the United States for business training--this college now sits empty. This Awareness indicates that there are branches of the Thompson College which are being run by other private organizations who have purchased the name of Thompson in order to continue using the prestige established by this family. This Awareness indicates that the actual college owned by Alex Thompson sits basically empty, except for renters in one part of the college. This Awareness indicates the original intent was that this become a New Age college; the entity as wishing to see courses taught which would bring about the understanding of higher spiritual laws, communication, reconciliation, and greater awareness of business procedures, of an international understanding.

This Awareness indicates that in 1975, *It* gave this entity a complete plan for a New Age college which would develop students who were capable of spreading higher levels of consciousness in all areas of endeavor. This Awareness indicates this material as available to those interested.\* This being of 12 branches in the school.

\* This reading has not been published by C.A.C. but Xerox copies are available for those interested for \$3.00 from C.A.C.

This Awareness indicates that since that initial information of approximately four to five readings relating to this college, this Awareness wishes to add further, that this become likened unto a peace institute; whereby entities may study peace and prosperity for the world, as well as for individuals on a personal level. This Awareness indicates that this to encompass peace and prosperity on all levels—from individual, through family, group, society, culture, and the entire international levels. This being studies aimed at enlightening entities on diplomacy and business affairs, so that all may prosper. Not at the expense of the few, not at the expense of the many, but that all may prosper from co-creative activities. This Awareness indicates that it has given this opportunity to humanity to focus energies into this action at this time.

The Administration Building, Thompson College, York, Pa.

This Awareness indicates that this being a time wherein the economy of the nation is going down the drain. This Awareness indicates that on all levels, entities are witnessing the beginning of an economic down-spin wherein there will be higher prices of basic energy and food needs, lower prices in terms of manufactured items and real estate, higher inflation rates, more unemployment, and greater conflict between entities over personal survival needs. This Awareness indicates that from a logical, rational point of view, this would be the time for entities to grab what they can, go into hiding, board up their windows, and seek to survive without becoming involved in anything other than personal interest. This Awareness, however, is suggesting to those who are reading this or hearing this message, that you consider an action which is the reverse of the retreat in fear, and that you consider taking an action to create something new in this time when all else is going down the drain, creating something which uplifts humanity, which has the potential for developing a new kind of consciousness wherein entities are trained in diplomacy on levels for individuals, for business, for national and international affairs, to bring peace rather than competition, and prosperity for all, rather than in seeking ways to 'do the other in' by getting his or her money for one's self.

This Awareness indicates that the entity, Alex Thompson, has until July 15th of this year (1980) to pay off approximately sixty thousand dollars on the college in York. This college as having been remodeled in 1970 at a cost of \$600,000 above its own real estate value at the time. This Awareness indicates that at today's market price of low real estate values, he has been offered \$345,000 for the college; but those entities seeking to purchase the college have stalled this entity for over one year, renegotiating continuously until the mortgage which is due in July becomes somewhat threatening at this time. This Awareness indicates the entities seeking to buy this college, in their latest proposal, are asking that the entity Alex Thompson allow them to include the college as part of the collateral for a loan which would allow them to borrow the down-payment in order to purchase the college. This Awareness indicates that this meaning that the entity Alexander Thompson would have no recourse if these entities do not make payments, but to take back the college with a high debt against it. This Awareness indicates these entities wishing to borrow \$200,000 against the college in order to pay \$100,000 down-payment to the entity Alex Thompson. This Awareness indicates this as their latest proposal, and this being such that it is totally unacceptable as a business deal, but comes at a time when the entity is under pressure to pay off the \$60,000 mortgage, which is due July 15th.

This Awareness suggests that this presents a situation whereby this Awareness does not wish to 'lay any trips' on anyone, but does wish to inform entities of a potential action which they may take to create something of a magical nature at a time which would require great faith on their part through a co-creative effort of entities who, each offering either donations or loans of a relatively modest nature, could together raise the \$60,000 by July 15th to allow a reprieve so that this Awareness could have more time whereby it could find further financing to open the Akasha Institute of Peace and Prosperity in York, Pennsylvania. This Awareness indicates that this, once formally cleared, will give the time whereby others outside the immediate membership of Cosmic Awareness Communications can begin to be informed as to the nature of the purposes of the college.

This Awareness indicates that within time this college can become a focal point for all lovers of peace, and there will be vast amounts of energy poured into this college to assist in its purposes of bringing about the understanding of peace and prosperity. This Awareness suggests that there are very many influential and wealthy entities who would come forward with their money, with their influence, once this has been established so that they understand its workings, its purpose, its nature, and whereby they can examine its actions and realize that it has a message and purpose for future generations.

This Awareness indicates however, that this as all but imagination and potential until the action is rooted on a firm foundation. This Awareness indicates that it does not depend on buildings, but that the buildings are there; and the replacement of such buildings will require great energy. That the cost of finding similar buildings for operation will require greater energy than using those already present.

This Awareness suggests therefore that entities who have any feeling for this action, who wish to consider such involvement in establishing this type of seed in consciousness, to think seriously about assisting in the program between now and July 15th. This Awareness suggests that there may also be some who have relatively large amounts of money which could be put up on a loan basis, using the buildings for collateral if necessary. This Awareness suggests that this also be considered.

This Awareness suggests that in order to open the college itself, more money will be needed. That had there been \$10,000 in 1977 available for the college, it would have been opened and running; but this money was not available. This Awareness indicates the entity Alexander Thompson had 100 students signed up at \$500 each for the first term, but could not open the college because the law required that there be \$10,000 in reserve. This Awareness indicates therefore there will be a need for more money to be raised in order to open the college, even after the mortgage is secured.

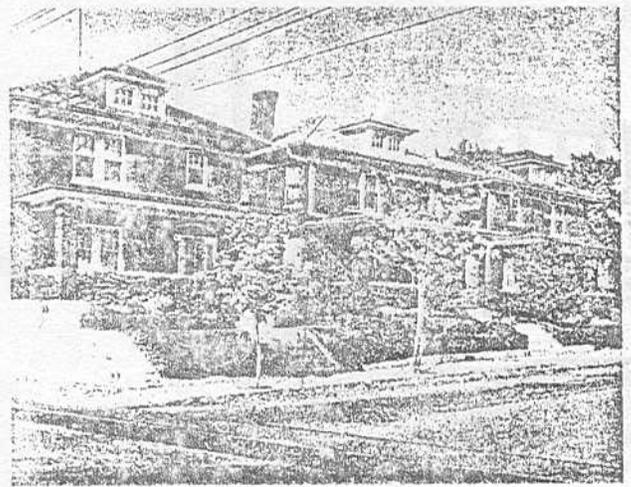

This Awareness suggests that this as being the situation: that the college is such that it has a long history of 50 years of service. That it has a name which is held in high esteem throughout all of Pennsylvania and the East Coast, this being the Thompson College of Business. That these names can be useful in terms of fund-raising projects. That the entity Alex Thompson as being a minister of this Awareness and wishing to use this college for purposes of bringing about higher understanding of the Awareness principles, peace and prosperity through business, law, art, philosophy, and other areas. This Awareness indicates that there are entities standing by who are willing to put their time into the action, teaching or administrating the college. This Awareness indicates there are lists of students still seeking enrollment in the Thompson College. These lists continue to flow in, even though the school has been shut down for four years. This Awareness indicates there are boxes and boxes filled with the names of alumni students who have studied at the Thompson College, these entities now in business in various areas. These entities as being potential reserves for donations in the action if the action ever occurs.

This Awareness indicates there is great potential in this action, but at present there is no substance...there is only a mortgage of \$60,000 which is rapidly coming due and which will need to be attended to quickly. This Awareness indicates with the attention of entities who are capable of understanding this, the money needed can be raised relatively easily through donations or loans. This Awareness indicates that the most appropriate method of raising such monies would be through Cosmic Awareness Communications setting up a trust fund to hold the money until it is determined whether enough is available to pay the mortgage, or whether the project should be scrapped.

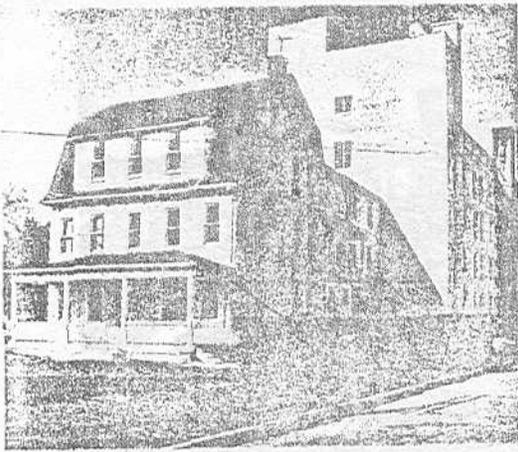

This Awareness suggests that rather than send in money for this at this immediate time, this Awareness suggests that entities indicate *quickly*--within the next two weeks--how much they would be willing to donate or loan toward the fund-raising project. That this may then be tallied and Cosmic Awareness Communications can determine whether enough would be raised to make the project possible for paying off the mortgage. This Awareness indicates that once it is determined that the amount needed can be raised, then the entities could be informed and send the donations or loans in to the trust fund for this purpose. This Awareness indicates however, that the time factor is important if this is to occur. This Awareness indicates once this has been stabilized for a period, the entities can then focus on the opening and maintaining of the college, on fund-raising and on the students' applications and the curriculum.

This Awareness suggests that for approximately the last three or four years, little time has been available for work on the college itself or for the classes, because of the intensities involved in keeping the financial needs of the moment in a state whereby the buildings could continue. This Awareness indicates that it was costing approximately \$2000 a month just to keep the buildings empty, particularly during times of winter; for the heating of the buildings was necessary during the extremely cold winters, so that the pipes would not freeze. This Awareness indicates this entity, Alex Thompson, spent many hours shoveling coal in the furnaces because he did not have the money for the gas or for oil to keep the buildings heated. This Awareness indicates that for want of a few hundred dollars at the right time, the entity Alex Thompson lost thousands. That the entity sold portions of his inheritance, portions of his fortune, just to keep these buildings available for this school.

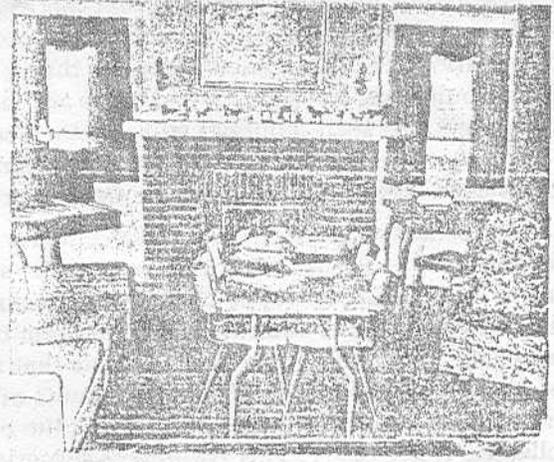

This Awareness suggests that any entities who feel that this is a worthwhile project, may wish to consider donations or loans. This Awareness indicates there have already been loans by some who have been informed of the actions and these have been generous, but there has not been enough information regarding this and those whose loans have been given have been inadequate for the needs of this project. This Awareness wishes to throw this out

for entities to consider. It does not wish that entities consider this as being an attempt by this Awareness to take money from them, but rather that they see this as an action whereby this Awareness has communicated a particular bit of information which may call forth a response from those who are able and willing to respond. This Awareness indicates that there are a number of influential people who would be available for working in the Akasha Institute of Peace. There are many who will in future times devote great energies to this and become very enthused about the actions. This Awareness sees this Institute as not being centered solely in the area of York, Pennsylvania, but as having branches throughout the United States and in other countries, whereby courses are taught to entities in every area and the degrees are granted from the college in York for the courses which entities study. This Awareness suggests this also having branches in foreign countries, in foreign tongues, whereby entities of Russia, China, India, Japan, Africa, or in European countries—that all of these of any language could have the opportunity to study the ways of peace and prosperity through co-creative and reconciliatory actions.

This Awareness indicates this can be the fabric which weaves the New World order and which counters the war colleges which have prevailed upon the human race for so long and with such tragic effects.

**QUESTION:**

Awareness, one question: By establishing this fund through C.A.C., could the membership who donate rather than loan be granted the tax exemption on their Federal Income Tax of that amount as a donation?

**COSMIC AWARENESS:**

This Awareness indicates this in the affirmative. This Awareness indicates that this school as being tax exempt. That the paper work regarding this as being completed. This Awareness indicates these donations could go through the Aquarian Church; however the Aquarian Church at this particular time is still in litigation from the law suit and that it would be better to avoid any entanglement with this action at this time by having Cosmic Awareness Communications deal with this fund. This Awareness indicates that it appears the Aquarian Church will soon come out from under the heavy attack and shall be more able to carry on its functions within a short time. This Awareness indicates that this Aquarian Church also has been under heavy attack by the Alien Force for a period of approximately four years. That this as now reaching a climax, and the Church as emerging from that attack victorious and strong. That it has taken a great toll on its energies, and has set it back enormously in its potential, and has cost it many friends and members; but it is alive and well in the State of Oregon. This Awareness indicates that it is on the verge of a great new beginning.

**(Closing Message)**

This Awareness indicates that those entities who are capable of risking a portion, who are willing to risk a portion of their energy, their wealth, for this purpose shall be rewarded by those of the Inner Plane who are watching this action and are now gathered to give their full energies toward establishing this college. This Awareness indicates that those who give to this action, shall be rewarded ten-fold during the coming years; so that they do not suffer from their loss, but rather gain from their gift. This Awareness suggests however, that no entity who is in dire need of the gift, deprive themselves or their loved ones from receiving the proper nourishments and financial needs by giving to this cause. This Awareness does not want sacrifice. This Awareness asks that the widow who would give her mite, that those who would witness this, may recognize her generosity and the magnitude of her gift, but this Awareness suggests that this entity may need the gift more than that to which she would give. And therefore this Awareness asks that you not give more than you can, but that you give according to your inclination, capability, and your desire.

**(The Law of Gratitude)**

**Editor's Note:** The New Age college in York has always been Awareness's 'baby'. C.A.C. is publishing this reading because we too are in favor of seeing this college manifest and because Awareness has presented this information for entities to consider. However, C.A.C. assumes no liability in any manner for any loans or donations given to this project. CAC, as indicated by Awareness, will accept the donations and create a special fund payable to the Universal Service Foundation of York, Pa. which will be forwarded to them. Do not make checks out to CAC or the Aquarian Church, but make them out to the Universal Service Foundation which controls the Thompson College in York, Pa.
