COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

WHO WAS EDGAR CAYCE?

WHAT IS THE A.R.E.?

AFTER 50 YEARS THE CHAIRMAN OF THE BOARD
STILL ASKS THE QUESTION

(Opening Message)

This Awareness indicates that in the market place, there are many items offered of various types for seekers to purchase or trade or otherwise receive. This Awareness indicates in these market places, there are those ways whereby these items are marketed. This Awareness indicates that these items are not always of a tangible nature, they may also be intangible such as a service or a talent or information which is valuable to the seeker. This Awareness indicates that in the market place there are often entities who are both seekers and givers, the buyer and the seller, playing both roles through one entity. This Awareness indicates that in a general sense, each entity is both buyer and seller, that each entity has the right to determine what he or she wishes to present to others, and the right to decide what he or she wishes to receive from others, that the entity as buyer and seller may be influenced by the advertisements of others, by the enticements, by the lures, by the claims of others. This Awareness indicates that in reality, the entities are basically the same to

begin; their entry into the marketplace comes from essentially the same status--that of being a small babe, helpless and needing assistance; that as this babe grows, receiving its needs, being sheltered and cared for, it begins having certain expectations; and needing these fulfilled, or needing to be informed as to how it may fulfill these if it wishes to accept the responsibility for such fulfillment. This Awareness indicates that in the market places each entity has the inherent right to make claims of any nature, but the entities in making claims must also be responsible for the products being sold, so that the claims are valid. This Awareness indicates that in the market place, each entity for example has the right to state: "I am the new Messiah for this Age," or has the right to state, "I have the best apple in the whole world." This Awareness indicates that each entity has the same right to make the same claim, stating, "I have the best apple, regardless of what you say," or stating, "I am the new Messiah for the Age." This Awareness indicates that the right is allowed in the market place.

This Awareness suggests, however, that when such right begins to affect others so that they feel they are being harmed, so that the claims are seen as being false, entities also have the right to answer back, "You are not the new Messiah; that is not the best apple in the world." This Awareness indicates however, that an entity who makes the claim needs not make the proof of the claim, whereas the entity who denies the claim of another tends to have a greater obligation in supporting that denial, because the denial is a damage to the claim of another. This Awareness indicates that essentially there are many ways in which entities may make claims, but the proof is in the pudding, and the claims may be challenged, and the rights of the individual to make the claims generally are considered to be honorable and have precedence over the rights of individuals who would deny such claims.

This Awareness indicates that essentially in courts of law, particularly in the Western civilized nations, entities are considered honorable until proven otherwise. This Awareness indicates likewise, the burden of proof is generally upon the one who would deny the claims of another. This Awareness indicates that in regards to the entity Jesus of Nazareth, the entity Jesus the Christ, the entity from Bethlehem, this entity, this historical being who entered upon this plane exemplified that right of individuals to claim their divine origin. This Awareness indicates that the entity in making this entry upon this plane, in making his claim to divine origin was persecuted and crucified for that claim by those who tried and convicted without proof of the denial, without proof to the contrary. This Awareness indicates that essentially the purpose among others of the entity's experience upon this plane was to create a path whereby others could follow his example--this example being such that would allow each individual to claim rights as a divine being and to force any who would deny such rights, any who would deny such claims to present evidence to the contrary. This Awareness indicates it is not placed upon the entity making the claims the responsibility for convincing every other entity that the claims are correct, it is simply an action whereby the entity making the claims feels justified in so stating and making such claims, then takes on the responsibility for such claims. This Awareness indicates wherein an entity cannot handle the responsibility for such claims, then the entity and the entity's reputation falls by the wayside. This Awareness indicates that essentially it is assumed that an entity in making a claim should be taken seriously and honorably until there is reason to doubt such claims.

This Awareness indicates that wherein entities approach life with the attitude of the cynic and skeptic, assuming that anyone who makes any claims is obviously lying until they prove their claim--this kind of approach, this kind of attitude whereby the cynic, the skeptic asks others to prove their wares, to prove their claims before he will buy, before he will look, before he will accept, this is a kind of exclusive approach to life whereby the entity excludes life, excludes others, excludes ideas, excludes claims, excludes possibilities, excludes opportunities, excludes entry into communication on many various topics and levels, all in the name of being special and in the feeling that as a special being one has the right to demand that others prove something to them. This Awareness indicates this as a reflection showing that the entity thinking himself as special has little respect for others; and wherein one has little respect for others, they have also little self respect and are simply creating an artificial life whereby they are not involved in the flow of life, but set up a pose or position to allow certain portions of life to enter and leave their experiences, to leave according to their doling out of their energies or to enter according to their acceptance of others' ideas, feelings, sensitivities or their beings. This Awareness indicates that essentially on the marketplace entities can have smooth-flowing communication based on honesty in dealings or they may have poses, positions, advertisements, posters, packaging and all the paraphernalia that goes with artificiality; that in this market place of life, wherein entities exchange with one another, love may be proportioned and packaged or may flow freely, that life itself may be proportioned and packaged in artificial containers or may flow freely. This Awareness indicates this as likened unto fish in an aquarium, plotting off, having surveyors come in and marking off lines to allow each fish to claim its own territorial rights without allowing for others to enter without an agreement to buy or sell according to the market price of that particular territory. This Awareness indicates that while it is natural for the rational mind to divide, to proportion, to file, to categorize, to separate, to distinguish, to define boundaries, descriptions, it is also natural for the subjective mind to flow with life, to move from moment to moment, to pass through barriers and to relate with that energy of life that cannot be confined, defined, described or proportioned. This Awareness indicates that in the market place of life, this Awareness suggests that you allow rapport, harmony, and love to remain as the primary part of your business with each other, yet that you also recognize the rights, claims and the territories of each other so that conflicts are minimized.

WAS EDGAR CAYCE REALLY AN AVATAR ?
OR IS THIS MERELY THE OPINION OF THE INTERPRETER ?

(A letter from Hugh Lynn Cayce is read to Awareness)

QUESTION:

Thank you. I'm going to read a letter, addressed to the Interpreter care of C.A.C., from the 'Office of the Chairman of the Board of the Association for Research and Enlightenment, Inc. in Virginia Beach, Virginia'. I wrote and told this entity that we would read the letter to Awareness and forward him a copy of the response. The letter is as follows:

"Dear Paul Shockley. As you probably know, after years of work with Edgar Cayce, I developed my concern for, and I hope some understanding, of people with psychic gifts which constitutes a part of my philosophy of life. I realize that you must follow your own guidance and that you have every right to present material which you feel can be helpful to mankind. At the same time, I would appreciate it very much if you would exercise greater care in attempting to parallel this information with the data given by my father, Edgar Cayce.

For example, the opening statement on your 'REVELATIONS', 'Cosmic Awareness Introduces Itself to the World', with the transcript of the material given from York, Pennsylvania, November 22, 1977, states that "Cosmic Awareness is the force that expressed Itself through Edgar Cayce, Jesus of Nazareth, the Buddha, Krishna, Mohammed and other great avatars and so forth" (end of quote). Some individuals would consider the inclusion of Edgar Cayce in this list pure sacrilege. My hope is that you would simply add, "In the opinion of the Trance-Interpreter". This would make it a great deal easier for you and for everyone else concerned. Indeed it would also be a great help to us here at ARE in clarifying comparisons which are brought to our attention through some of our members and well-intentioned friends of yours.

As I have indicated to you in previous letters,* in my opinion there is a negative stream of material here that does not parallel the Edgar Cayce data. Our Association is concerned with preserving, studying, testing, experimenting with concepts from the Edgar Cayce readings; it would like to help people share what they find to be helpful with others. Much of our work is concerned primarily with very practical approaches to spiritual disciplines involving physical, mental and spiritual activities.

I hope that you will give this some very thoughtful and prayerful consideration.

Sincerely yours, Hugh Lynn Cayce."

*ED's Note: Numerous letters and readings were mailed to the personal attention of Mr. Cayce after the 'Gathering Storm' material came through. This prompted by the question asked in 'Revelations of Awareness' No. 79-7 (The Spiritual Snob: Ignoring the Beast with Positive Thinking), \$2.00 from C.A.C.

COSMIC AWARENESS:

This Awareness indicates that whereas this letter was addressed to the Interpreter rather than to this Awareness, it may not be entirely appropriate that this Awareness answer this letter for the Interpreter. This Awareness indicates however, that *It* does have the right to make comment upon the situation involving the role of the Interpreter in relation to the Edgar Cayce movement as well as the movement of these forces in view of the general programming which came out of Egypt. This Awareness suggests a brief pause as *It* looks.....

This Awareness indicates that the present Interpreter for this Awareness as one who worked with Ra-Ta* in ancient Egypt, as one who received a certain programming to carry forth into this present time--this entity as having experienced that which is mummification in a particular manner whereby the entity was not dead at the time of being mummified, but rather was put into a deep hypnotic trance state, injected through the neck with a particular serum which crystallized the blood cells of the entity, this holding the concepts which had been programmed into the mind of the entity for release over a long period of time through the gradual deterioration of the mummy, the crystallized cells of the body.

This Awareness indicates the entity Ra-Ta, along with Hepsut, as having instigated the program whereby this was a part of the total long-range computerized movement of humanity. This Awareness indicates that essentially these mummies served as what might be referred to as 'transmitters' into consciousness of certain programmings which came from this early time--these being designed to enter into this plane at certain intervals through certain entities and through certain groups in an action that assisted in the speeding up of consciousness, the speeding up of evolution. This Awareness indicates that likewise in this action of Ra-Ta and Hepsut, there were also mummified certain entities whose programming was not intended simply to reconcile and unfold information at appropriate times, but was intended to create conflicts so that war and violence would erupt at certain times, creating certain conflicts which would have its effect in consciousness--this also had its effect in speeding up the evolution of this planet. This Awareness indicates it is common knowledge in metaphysical organizations that entities grow more quickly during times of stress. This Awareness indicates that this was part of the programming from Ancient Egypt from the Age of Virgo down to present time.

*Paul Shockley worked closely with Ra-Ta (Edgar Cayce) and Hepsut, all later being mummified. For more info on this, please refer to 'Revelations of Awareness No. 78-15(\$2.00); 78-16 (\$2.00); 78-26(.50); 79-12 (\$2.00); 80-15(\$3.00)

This Awareness indicates that you must not confuse the Interpreter with the *consciousness* which speaks through the Interpreter. This Awareness indicates part of the error of A.R.E. is that they seek to attribute to Edgar Cayce *the man* that which belongs to the consciousness which *spoke through* Edgar Cayce the man. This Awareness indicates likewise this occurred with the entity Jesus, wherein the Christ Consciousness spoke through the entity Jesus but whereby the followers of Jesus believed that the Christ Consciousness and the man were the same. This Awareness indicates that likewise this has occurred with Krishna and with other great avatars whereby the masses of developing entities fall and worship the physical form, fall and bow to the name of the person, bend and scrape to the personality, the channel, *rather than recognizing that force which speaks through the channel* and which is available for all.

This Awareness indicates that as long as entities focus on the oracle rather than the message which comes through the mouth of the oracle, as long as entities focus on the Interpreter, the medium, rather than the *Spirit* which flows through the medium, as long as entities focus upon the church, the structure, rather than upon the Spirit which is contained and moves through the structure, moves through the church; as long as entities are obsessed with the form, they shall not experience and receive the full benefits of the Spirit. This Awareness indicates the purpose of the form, the purpose of the church, the purpose of the physical vehicle, the purpose of the structure is to allow a vehicle whereby the Spirit may be moved or held long enough to have its effect upon this plane.

This Awareness indicates the work which is being done by A.R.E. in presenting the messages which have come through the entity Edgar Cayce, is having a profound effect upon the consciousness of this plane, is likened unto the opening of a chakra in the body of humanity. This Awareness indicates that the early builders of the pyramid may be seen as working with the chakras of humanity, that there were points along the way whereby certain areas of consciousness would be tapped and the openings would occur. This Awareness indicates the entity Jesus, the time of the Essence relates to the opening of the heart chakra. This Awareness indicates that the action of Edgar Cayce as that which is equated to the opening of the throat chakra, that the messages now are coming forth from the throat chakra which explain the mysteries which have been locked within the heart of Christianity. This Awareness indicates that the messages which this Awareness wishes to bring forth through Its present and future Interpreter will relate to the pineal and pituitary chakras so that the mystery hidden in the Sphinx and Pyramid shall be opened and released for all.

This Awareness indicates that those of you who work with the information of Edgar Cayce, who are promoting the *man* with the structure, the building, the legal foundation and the legal foundation of the *man*, building your empire on this entity's personal being, must recognize that in reality it is the *message which the entity left to the world* which is the basis for all of this. This Awareness indicates that these messages which this entity left are of no less significance than messages which were given by earlier and other avatars. This Awareness indicates that while you, yourself, are extremely close to these messages, close to this entity and the memory of this entity, you may not recognize the full significance of *who* he was as a medium for divine forces; you may not recognize that this entity's name does indeed rank with others as indicated on the letterhead of the *Cosmic Awareness Communications'* material; this lack of recognition may be expressed in the old statement that 'a prophet in his own land is never recognized'. This Awareness indicates that while you, yourself, being so close, may not see the full significance of what role Edgar Cayce played in the changing of consciousness upon this plane, nevertheless this shall be left for others in future times to research, to understand and to recognize; and the ability to stand back and see the perspective from a more distant approach is that which will begin to show greater relationship between this entity and those mentioned in the caption under the letterhead of the *Cosmic Awareness Communications'* material.

This Awareness indicates likewise, those working with the Interpreter in the *Cosmic Awareness Communications'* activities cannot fully understand the significance of what is occurring nor does the Interpreter himself understand, for the Interpreter is simply struggling to get along as best he can and do what he is guided to do. This Awareness indicates that significance comes later when entities step back and look from a distance and pick out the points where stress, structure or change occurred which made the difference.

This Awareness indicates that there is no quarrel on the Cosmic level between that which is occurring with the Christian religion, the Edgar Cayce philosophies, the Cosmic Awareness information presently being channeled; there is no quarrel from this level; there is only seen that which is the movement, adjustment, sensitivities and changes which are occurring as humanity becomes more aware. This Awareness indicates that those in their more detailed viewpoints with positions in the structure of various entities or corporations or identification positions--those entities may see conflicts of significance which they wish clarified and which they would like to eliminate. This Awareness suggests that this is all part of the flow of change which must come through dialogue, communication and recognition.

This Awareness indicates that the Interpreter himself did not write the caption used in the *Cosmic Awareness Communications* newsletter; the Interpreter does not actually have that much responsibility in this newsletter; the Interpreter's responsibility is simply to channel for this Awareness during certain times throughout the month as agreed upon. This Awareness indicates that this entity also has other personal duties and activities, that the entity is not seeking to compete with any other organization or individual. This Awareness indicates the entity as being

relatively free to be himself, except when this Awareness takes over the entity and begins to channel through this entity. This Awareness indicates this occurs only when the entity surrenders himself to this Awareness. This Awareness indicates that it was not the entity who claimed that he or Edgar Cayce were channels for this Awareness along with Jesus and Mohammed and others—this Awareness indicates it was this Awareness who informed entities of this. This Awareness indicates that it is not necessary or appropriate that the Interpreter justify or prove what this Awareness has stated. This Awareness indicates that it would only be necessary and appropriate that anyone objecting to this statement *must prove it is false*. This Awareness welcomes any proof from A.R.E. that what *It* has said in regards to *Its* channellings through these various teachers and entities listed is false. This Awareness suggests that such proof may be presented in any way you desire. This Awareness suggests however, that rather than waste your time attempting to disprove what cannot be disproven, this Awareness suggests that you might become more involved in communicating in deeper levels whereby you look forward to future spiritual growth rather than attempting to build the empire on past messages only.

This Awareness indicates that your father through his channellings allowed an opening whereby this Awareness could speak to those whose ears had been previously closed; that these ears were long in opening; that many entities would not hear nor accept until quite recently the messages which your father channeled. This Awareness indicates that likewise in present messages, this Awareness finds that *Its* messages are ahead of its time and that entities cannot open their ears to hear. This Awareness indicates that the awakening process is not always rapid, that entities often stir slowly before coming awake. This Awareness indicates that the messages presently being channeled will have their greater effect twenty and thirty years from now and will be seen as a continuation of that which was begun by the Interpreter Edgar Cayce through the channellings of his messages.

This Awareness indicates that it must clearly be understood that each individual who channels this Awareness, channels according to his or her interpretation and the interpretation is that which is somewhat colored by the personality for the Spirit moves through form, through structure, through belief, through language, through images, through experiences, through words, and is given its direction and its fruition from that movement. This Awareness indicates however the Spirit *Itself* like water, whether moving through a funnel, moving through a radiator, moving through a hose, moving over a waterfall, moving through an opening into the ground; moving down a river, moving in the ocean, being evaporated into the air, the water itself always remains, the Spirit *Itself* always remains true to *Itself*—only the medium, only the interpretation changes.

This Awareness indicates that by any name, Spirit is the same. Call it God, call it Cosmic Awareness, call it Brahman or call it Love. This Awareness indicates this is but a matter of interpretation and you or any other entity upon this earth is free to interpret this Awareness in any manner which you choose, and by your fruits others will determine to their satisfaction whether your interpretation has been accurate and satisfying according to their expectations. This Awareness indicates meanwhile, while entities interpret this Awareness in their various ways, and argue over their various interpretations, this Awareness by any other name still remains the same.

QUESTION:

Thank you. Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates that in regards to certain so-called “negative information” which this Awareness has recently channeled, which according to some has been perceived as being ‘negative’, this Awareness indicates this information being sent to the A.R.E. organization, that essentially this information had a relevant and timely urgency which needed to be expressed and released in certain directions for certain purposes. This Awareness indicates that *It* did not direct entities to send this information to the Edgar Cayce organization, nor did *It* consider this as being necessary for attending the urgency at hand. This Awareness indicates however that entities in receiving this information felt that the Edgar Cayce organization could assist in helping to awaken the masses to an urgency which occurred earlier this Spring* which will be made public in time to come. This Awareness indicates that the organization A.R.E. did not respond to this call. This Awareness indicates this also as acceptable and appropriate and *unnecessary*.

This Awareness wishes you to understand that *It* does not hold you or your organization as being irresponsible for not having responded to that call for the crisis which was at hand. This Awareness does not hold *any* entities responsible or hold them as being irresponsible, for *It* recognizes that few entities knew what was occurring and how close it came to resulting in chaos. This Awareness indicates also that *It* recognized that this chaos would not occur because it was not programmed to occur and would not be allowed to occur.* This Awareness indicates that many groups, many spiritual organizations intuitively tuned into this realization also. This Awareness indicates however that in order for this realization and this programming to occur, whereby the nuclear war would not happen, it was necessary that certain energies be brought into play; it was necessary that certain urgencies be looked at, that certain entities become *extremely concerned*; it was necessary that entities of certain category and of certain levels of awareness be moved to act in manners of extreme urgency so that this would *not occur*.

This Awareness indicates that this may be more easily understood with the following allegory, wherein an entity places bread into the oven to bake, the molecules of the bread begin to heat, to churn, to become desperate, they begin to move and react against each other; there is an intensity and a frustration which is occurring from their own point of view; they are in battle with each other and with the heating up of consciousness in that oven; that it does not help these entities much to be told by one another, "Oh, don't worry. When it gets just right, the baker will pull you out, and you might as well stop getting all heated up". This Awareness indicates that it is the job of the molecules to become agitated and to react according to what is occurring. This Awareness indicates that for those molecules which are not of the same nature and which are not intended to become agitated, to stand back and say, "Oh my, how negative those molecules are in there thrashing around"—this Awareness indicates that this is inappropriate but might be expected in the total situation, and therefore is forgivable. This Awareness wishes however that entities become aware and therefore points out this experience so that any who recognize themselves in such an experience may learn according to their desire to learn from that experience.

* Please refer to No. 80-8 (\$3.00) on why Light groups ignored the Beast information and the following question based on this statement Awareness made to Hugh Lynn Cayce that World War III had not been programmed into consciousness: the question, "Did CAC and its membership make fools of themselves for writing letters and informing others about the Beast?"

ED's Note: At the request of the Librarian of A.R.E. in 1977, C.A.C. has been sending copies of all the Awareness readings we have printed (evidently free of charge as so far we have received no donations nor acknowledgements). We have no idea whether these readings remain in the library or are destroyed or whether anyone who visits the library can find them and read them. Certain readings are also mailed to the personal attention of Hugh Lynn Cayce, who may or may not read them. When this particular reading came out in October 5, 1979, a transcribed copy as well as a tape recording of the actual trance was mailed to the chairman of the board. Neither of which was ever acknowledged. When the tape and reading was sent, this editor included a letter explaining once again that the main reason CAC was sending the information to the ARE was to ask them to enlist their membership and meditation groups to assist in transmuting the energies of the Beast, using the meditations Awareness had given. The letter also indicated a hope that the message enclosed from Cosmic Awareness would put an end to the ARE lawyers who on occasion have written to CAC telling us to 'Cease and desist using the name of Cayce in our ads because we were exploiting and defaming the family name etc.'"(The letter was sent in response to our small classified ad in the National Enquirer which read: "High-level information, similar to Cayce. Free details. CAC, Box 115, Olympia, Washington."

On a more personal level, friends of Vikki T. (your faithful C.A.C. Correspondence Minister) might find it interesting that Awareness revealed during one of the York Town trance-sessions in 1977 that she was the daughter of Ra-Ta (Edgar Cayce), named Is-Is-Ao which is pronounced E-Su, from which the word 'issue' later evolved from. According to the Edgar Cayce readings, Ra-Ta's Divine purpose was to create 'the perfect form'--his concept that the body is the 'temple of the living God' and that a purified body enhances spiritual development. The traits which Ra-Ta chose as divine were a symmetrical physique, white skin, blonde hair and blue eyes. (Ra-Ta himself had been one of the first in that period with white skin. Ra-Ta's daughter, Is-Is-Ao, inherited these rare characteristics, and the resultant prejudice brought turmoil into her life. As a princess in the Temple Beautiful she was sought after by all, due to her great and ravishing beauty, which became the 'issue' of the time. For more information on this, please refer to the various Edgar Cayce readings and books such as 'The Egyptian Heritage' based on the readings which are available from A.R.E. (Your editor can attest that these physical traits of Is-Is-Ao have carried over into Vikki's present incarnation. However her good looks and excellent physical body do not appear to interfere with her responsibilities to C.A.C. (although very distracting at times to those who are her associates).
