COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

THE MARK OF THE BEAST (Part 2)

"HAND SCAN" DEVICE NOW IN SECRET PRODUCTION
PLAN TO ENSLAVE HUMANITY THROUGH BANKING SYSTEM IS STILL IN MOTION
(70% CHANCE LASER MARK WILL STILL BE USED ON SOME)

(From a C.A.C. General Reading, July 1, 1980)

(Opening Message)

COSMIC AWARENESS:

This Awareness indicates that while certain intensities again come into focus as polarities upon this plane, this Awareness indicates that this as being part of the general course of events whereas the intensities may appear threatening, and may in fact be threatening, the potential outcome of danger to entities upon this plane has diminished greatly during the last two years. This Awareness indicates that there still are great forces which may move toward those intensities which have been warned about in previous messages. This Awareness indicates however, the capability of carrying out the intentions by these forces is not so great as before. This Awareness indicates this being approximately 70% of the potential success ratio as compared to that of one year ago in the Fall and Winter of '78 and Spring of '79 wherein the dangers were most threatening. This Awareness indicates that there still appears to be the force moving in the directions previously described in the *Gathering Storm* information, but the force now as having diminished to approximately 70% of that which it previously held. This may be likened unto a hurricane which is losing its wind and power--this still capable of doing damage, but not to the same degree as previously anticipated.

"HAND - SCAN" MACHINE DISCOVERED

(Christian Cable TV Network Keeping an Eye on the Beast)

QUESTION:

Along this line, we received a letter from Joseph Dearborn of The Christian Cable Communications, and I'll read a little bit of it and ask Awareness to comment on this.

"Gentlemen: On May 31, 1980 at 10:30 A.M. a nationally known banker appeared on America's leading independent television station and announced to the world for the first time that the 'Hand-Scan' machine is now a living reality. This machine does away with the need of plastic credit and debit cards and identifies a person's "secret number" as it electronically scans the right hand. This machine has just been secretly tested to gain access to the computer vault by security personnel. The manufacturer does not want the general public to know anything about their 'Hand-Scan' device, especially the concept. This can all be verified because the Christian Cable Communications was involved in arranging for the release of this information via the television interview." Would Awareness please comment on this?

COSMIC AWARENESS:

This Awareness indicates this as *accurate*. This Awareness indicates this Hand-Scan as having been built in the mid-sixties. This Awareness indicates this appears to have been in operation shortly thereafter on a test basis, this being originally built by a Dutch company. This Awareness indicates that essentially this machine as that which can read the invisible tattoo on the hand of an entity, the purpose being that of a kind of permanent identification mechanism. This Awareness refers entities to earlier readings, particularly that of the *Gathering Storm*, wherein this was discussed in greater detail and the concern regarding how this may be misused to enslave entities upon this planet. This Awareness indicates that the action is still in motion, but as indicated in the Opening Message, the forces are losing power in their efforts to implement this slave-state program which was predicted in the *Book of Revelation* of the Holy Bible--this in the New Testament.*

This Awareness again reminds entities that the ancient city of Tyre as that which first implemented this plan and it was through this that the information became available to those of the earlier groups and it was through this leaking of information as to the plans and intentions and dangers of this system that the *Book of Revelation* was conceived and delivered. This Awareness indicates that this system on this plane as having been introduced from other planetary systems as previously indicated by this Awareness through earlier readings.* This Awareness indicates that those wishing further information regarding this may refer back to these earlier messages.

HAND-SCAN DEVICE WILL BE USED IN UNITED STATES

(We're not out of the fire yet)

QUESTION:

But as it stands now, Awareness does not see this Hand-Scan machine actually in use anywhere on this plane in the future ?

COSMIC AWARENESS:

This Awareness did not indicate that it would not be in use. This Awareness indicated that the Hand-Scan machine as still part of the key elements of the efforts by these Alien Force entities to create the slave state. This Awareness has indicated that the danger is still present, but has been diminished to approximately 70% of what it was when the *Gathering Storm* information was released.

This Awareness indicates that if entities relax and forget the vigilance necessary to protect freedoms, this percentage will increase again and move back to where it was. This Awareness indicates in such a case, the chance of again diminishing the force will be much unlikely. This Awareness indicates that there still is a strong 70% likelihood of the movement in this direction at this time. This Awareness indicates, however, that this 70% likelihood is capable of moving any direction and of diminishing as entities continue to awaken each other to the dangers of this system.

This Awareness indicates this 70% likelihood as relative to the percentage of the previous *Gathering Storm* information. This Awareness indicates this being whereby previously, on a scale of 1 to 10, the chances of the Beast setting up it's program was approximately 9 or 90%. This present 70% figure is equivalent to 70% of the 90% probability of the previous period. Therefore it is diminishing somewhat. That the diminishing factor would mean that the present likelihood of such occurring is of approximately 65% likelihood.

This Awareness indicates that in one sense you may expect this to occur to some degree, in the United States in particular, and in general in European areas; for the network is already set up and the plan is in motion, and even though entities are awakening to the dangers, the conflict is still on course and resolution is not in sight. However, the chances of this being set up as a permanent or powerful force have diminished greatly to approximately 70% of what the chances were in the Fall of '78. This Awareness indicates that these potentials indicate a present probability that approximately 65% likelihood that entities will witness the tattooing of the hands whereby the electronic fund transfer system will be implemented to some degree. This Awareness indicates however, that this lessening of the potential is that which is allowing the escape for most entities, so that those who are aware can avoid the threats, at least to some degree, if they are careful in their actions and are prepared to take the necessary steps for avoiding this course and collision with the Beast.

This Awareness indicates that this greatest danger as that which will begin to become more apparent in the Fall— either before election or shortly thereafter, depending on the capability of entities to read what is going on. This Awareness indicates the plan in motion appears to be one whereby events are being set up for rapid and unusual occurrences and changes beginning in the Fall of the year, whereby the election becomes a focal point to take attention off of other things which are occurring and to allow transitions whereby none can be held accountable until after it is too late to do anything about the situation.

This Awareness indicates along with these dangerous times, there are also many entities who are making great efforts to reach some kind of defusing or reconciliation in terms of the potential threats, and this may gain momentum as time passes. This Awareness indicates that essentially you are not out the fire yet, but the temperature and the winds have diminished somewhat, allowing you an opportunity to become more vigilant and active and to awaken and save others from the impending dangers.

TEXTRONICS AND SONY CORP ARE PRODUCING

QUESTION:

THE HAND-SCAN MACHINES

Will Awareness indicate if these Hand-Scan devices are now in mass production, and if so, the name of the company or companies that are producing these instruments?

COSMIC AWARENESS:

This Awareness indicates that this appears to be in the affirmative. This Awareness indicates that Textronics as being the company which appears to hold the keys or patent or contract on these machines. This Awareness indicates, however, that there appears to be several other companies involved. This Awareness indicates this appears to be that type of equipment whereby parts are assembled or purchased from various sources and reassembled elsewhere. This Awareness indicates it appears, also, that SONY may be one of the contributing companies and that several other Japanese firms are involved. This Awareness indicates that these names not seen clearly, nor does it appear to have any particular relevance, for the production of these machines would continue even if entities were to object and boycott the companies. There would be little value in such action, for the profits from the machines would overshadow any boycott efforts.

SONY CORP (STANDARD OIL OF NEW YORK)

QUESTION:

Speaking of SONY, I believe Dr. Beter once indicated that SONY was actually a Rockefeller company and that the abbreviation stood for Standard Oil of New York. Will Awareness verify that?

COSMIC AWARENESS:

This Awareness indicates this information not having come from Dr. Beter. This Awareness indicates, however, that this information as having been released through various sources, and the information as being somewhat valid but not entirely so, for there is also.....This Awareness indicates that the Standard Oil of New York and the Rockefeller interests have had controlling interests in this company, but that there also are others involved in the company. This Awareness indicates that essentially it is much like many other companies, whereby these forces have enough control to influence and direct the course of the company's activities, but still allow for others to invest their life energies into the companies also.

This Awareness reminds you that in a company wherein members generally own one percent or less of the stock, the company which owns five percent has controlling interest. Therefore, a small percentage in the right situation can actually have greater influence than others which have even smaller percentage, though that company may be but a very small stockholder in the larger sense.

This Awareness indicates, also, that the Rockefeller empire often has enough control over other companies which do business with a particular company so as to be able to control that particular company by manipulating the buying or selling and contractual arrangements of those other companies with that company. Therefore, even in having but a small holding in a company or having no interest in the company at all, when that company depends on others which are controlled by the Rockefellers, the Rockefellers then also would have some say as to what occurs in that company. This Awareness indicates this as in reference to previous information in which the Rockefellers have been referred to as having great control over large segments of society. This Awareness suggests that whereby the percentages given on paper as to the control are not nearly as explanatory or expository, as able to expose the power which the company actually has, for a five percent control of a company, or no apparent control, does not look like much on paper, but in relation to how the control is used and the relationship of that company to others, this is where the real controls lie.

This Awareness indicates also that you may recognize too how these forces controlled certain of the key products of industry such as copper, oil, steel, food, electronics and similar hardware that it is a very necessary ingredient to the economy of a society. Therefore, in controlling each of these many and varied commodities the company can essentially regulate the economy of the society by various levers. This Awareness indicates the Rockefeller empire is no longer controlled by the Rockefellers themselves, but is controlled by the hand of those known as the Rothschilds and their associates.

QUESTION:

ould that control include what Dr. Beter refers to as the 'Bolsheviks'?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness reminds entities that the Rothschilds purchased much of the war production machinery of the United States after World War II and sent this to communist Russia and China, so that the Russians and Chinese could build up their armaments. This Awareness indicates that the Rothschilds and Rockefellers, having been chess-playing with the rest of humanity, setting up the Cold War of Reds' against the 'Non-Reds'---this Awareness indicates that this likened unto the Bolshevik War of the Reds against the Whites in Russia. This Awareness indicates that at present, the Rothschilds have overpowered the Rockefellers and this power has been absorbed by the Rothschilds, and a new force has come on the scene---this being the Russian skoptxies. This Awareness indicates that this now as entering into a new type of chess game for the domination of the world. This Awareness indicates there are, of course, other challengers waiting in the wings when this chess game is concluded, and the game may go on ad nauseam .

ARE THE U.S. GOLD MEDALS A GOOD INVESTMENT ?

(More on the price of gold)

QUESTION:

A question from V.K. of San Francisco: "If it is true that the United States is minus all or most of its gold reserves, how can the government issue the gold medals which they will be offering for sale in July of 1980, and will these medals prove a good investment numismatically?"

COSMIC AWARENESS:

This Awareness indicates that proportionally, these as being of small quantity, in terms of the gold reserves which are claimed by the United States. This Awareness indicates that it appears these can be of particular value in terms of their numismatic and also their gold content. This Awareness indicates that the present movement of the dollar, the present manipulations of interest rates, this as being conducted, in part, as an effort for sake of election and political interests to give the slight shot-in-the-arm of the economy prior to election time, so that entities do not feel the full impact of what is happening. This Awareness indicates that the price of gold will continue rising over the next several years; that it appears likely this will be of greatest impact during the 1982 and '83 period. This Awareness suggests this appears to be the time when the economy of the United States will become most disturbed.

This Awareness indicates however, that all of this can be changed, depending on what occurs in consciousness. For this Awareness reminds entities that this is all being manipulated by human minds and human interests, and many of these minds and these interests are in conflict with one another, and those who are in power and in control--in the driving seat of the economy--may either be persuaded to turn about, or may be removed from that driver's seat, therefore, allowing certain changes to occur.

Navy's New Jet In Big Trouble

NORFOLK, Va. (AP) - The Navy's most advanced fighter plane and a new jet will be tested here soon. The tests are expected to be difficult. The P-14 Tomcat was designed to be a replacement for the F-4 Phantom II. It is a two-seater, twin-engine fighter. The Navy is testing it at the Naval Air Station in Norfolk. This Awareness indicates, however, that in a more general sense, the economy of this nation has no choice but to go down. The *only* choice available is in respect to *how* it goes down: whether this comes as a "thud" or whether this comes as a gradual lying down and gentle rest. This Awareness indicates that the economy which went up, based on inflation, whereby money was printed that had no backing and money was created that had no value, this obviously created the appearance of wealth, whereby entities began to realize that the money was becoming less and less valuable.

This Awareness indicates throughout history, in all civilizations, inflation has been used by those rulers, particularly from the time of Nero, wherein Nero minted coins which were not true gold, but were infused with impurities and other metals allowing for the same weight without the same purity. This Awareness indicates that in other countries the coins may become smaller, so that a silver piece was not worth as much intrinsically, though it still carried the same amount in terms of its monetary value. This Awareness indicates that these were early forms of inflation. This Awareness indicates that the present methods of taking the gold and silver out of circulation and producing a note claiming to represent gold or silver, this as having been another form of creating inflation, creating the appearance that there is more money than there actually is. This Awareness indicates this as likened unto taking a balloon and blowing it up and making the balloon appear to be something more than what it was. This Awareness indicates the amount of rubber in the balloon still stays the same, but the amount of space it covers and the illusion conveyed is that it is larger. This Awareness indicates, likewise, wherein a nation begins creating the effect of the inflation of its economy, it appears to be a time of great prosperity, and the prosperity and added income pleases the masses. It also pleases the government, for the government can tax such entities for their increased wages and earnings, even though those increased earnings buy less than before. This Awareness indicates that in this particular economy, the increased wages and earnings also throws entities into a higher tax bracket, so that those who might not have paid any tax before now must pay tax on their inflated earnings and deflated values, the deflated dollars. This Awareness indicates that this again lowers the standard of living, even though the appearance may be such that entities feel they are making more than they ever have before. This Awareness indicates this as a way of allowing what may appear to be a tax cut or allowing taxes to remain unchanged, while still taxing entities all the more, through the inflation of the dollar.

This Awareness indicates that as this continues, as the government takes on more and more of the income of its citizens, as the government creates more bureaucratic jobs [This Awareness indicates that approximately one in every three, or approximately 35% of all employed entities are on the tax dole, are receiving their wages and earnings from money taxed from the other 65%] This Awareness indicates that because of this, these entities have more interest in those laws and programs which increase government spending. Therefore, this encourages even more government taxation and spending, again eating into the private enterprise, so that the producing entities receive still less and pay more to the government. This Awareness indicates as this continues to increase there will come a time wherein the government will have over 50% control of all occupations, and there will be a diminishing of private businesses; and as this again increases, there will be a greater need for greater taxation and inflation. This Awareness indicates that this moves toward a socialist state, a state controlled by the government, wherein the economy is government-owned and government-controlled, and wherein entities must seek their livelihood through working for the government. This Awareness indicates that continuation in this direction mushrooms proportionately to the degree of expansion and inflation. Therefore, entities may expect a rapid accelerating problem with the economy during the decade of the '80's. This Awareness indicates particularly in terms of inflation, which will eventually result in the depression wherein money loses its value so much that it becomes literally worth less than the cost of printing.

The Depression Is Coming, Says Ford

NEW YORK (AP) — Former President Gerald Ford predicted yesterday the economy will be in worse shape this fall than during the Great Depression of the 1930s, and that President Carter must take the blame.

"Our economy is in a free fall, going faster and faster into the murky depths of an economic depression which will be worse than we've seen since the Depression of the 1930s," Ford told a breakfast meeting of the Association for a Better New York.

DEPRESSION COMING WILL BE MORE DRAMATIC THAN THE "GREAT DEPRESSION"

This Awareness indicates that the only hope entities may cherish is that it goes down gradually in a series of falls rather than in a quick "thud". This Awareness indicates this appears to be what the manipulators are attempting. This Awareness indicates that it appears that the economy will fall in a series of brief shocks, each one gaining some momentum, some recovery, before the next drop. This Awareness indicates that once this has occurred, (and this may take until 1986 before it is completed), then a long recovery period may also be in order, whereby entities move back toward the traditional standards of gold, silver, precious gems and stones, or other commodities besides paper from the Federal Reserve printing presses.

This Awareness indicates that this will leave in its wake a history which will be even more dramatic than the previous depression. This Awareness indicates that great changes will occur, not only on the physical, economic, social and personal levels, but also in the understanding of entities and in their spiritual development. This Awareness indicates great changes shall occur during this time as entities catch on to the game of life which has been played with them and their energies for so long by so few.

Will U.S. Survive?

"A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is formidable, for he is known and he carries his banners openly. But the traitor moves among those within the gates freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears not traitor; he speaks in the accents familiar to his victims, and he wears their face and their garments. And he appeals to the baseness that lies deep in the hearts of all men. He robs the world of a nation; he works secretly and unknown in the night to undermine the pillars of a city. He infects the body politic so that it can no longer resist. A murderer is less to be feared."

—Cicero

If Cicero were alive today he would probably still be exposing what is occurring behind the scenes

WILL THE GOVERNMENT AGAIN CONFISCATE GOLD?

QUESTION:

Awareness, is there any danger of the United States government stating a law confiscating gold from American citizens as was the case during the Roosevelt administration?

COSMIC AWARENESS:

This Awareness indicates this as probable at the time wherein they again wish to bring the economy back out of the depression. This Awareness indicates that the use of laws to regulate the economy in this way whereby certain forces are benefited by the laws and others are hindered, this Awareness indicates as likely to continue for some time on this plane.

INTEREST RATES WILL CLIMB AGAIN AFTER ELECTION

(UNEMPLOYMENT FIGURES WILL BE FALSE)

QUESTION:

The interest rates, the prime rates, have dropped to about 12% and people are starting to buy cars and boats and things again. Now, from what Awareness has just said, can we expect after the elections that these rates again will climb astronomically and credit will get even tighter?

COSMIC AWARENESS:

This Awareness indicates that this as likely, for the problem remains and the inflation continues. This Awareness indicates that essentially, inflation helps the government to raise more money to supply those programs which it desires. This Awareness indicates likewise, depressions and unemployment hinder in the raising of money, therefore, the government must be very careful, even as a juggler, in changing the inflation rates so that the unemployment problems do not become too great at any particular time.

This Awareness indicates however, that it appears there will be double-digit inflation rates, double-digit interest rates and double-digit unemployment. This Awareness reminds you that double-digit unemployment is not always acknowledged in your newspapers or in the government records; for when an entity's unemployment benefits run out, the entity is no longer considered unemployed by these records. The entity who is considered unemployed on these records is the entity who is receiving unemployment benefits. This Awareness indicates that these double-digit problems appear to be such as to continue for some time, at least most of the next four to five years.

This Awareness indicates however, that this can change drastically, upward or downward, depending on the affairs, but that it appears the best and most harmonious method would be to continue keeping these in balance as near as is possible, so that the economy does not actually crash on the runway, but observes certain bounces and slight drops as it rolls to its destiny.

This Awareness indicates that the unemployment rate for blacks and minorities as already in very high double-digit figures. This Awareness indicates that, likewise, many of these entities feel great frustrations, having never received the apparent benefits of certain laws which have been passed favoring minorities. This Awareness indicates that quite obviously if a crisis occurs, such entities may be expected to grab what they can during those moments wherein there is an opportunity for such. This Awareness indicates that this not limited to blacks, this including also many whites and others who feel they have been cheated by society.

This Awareness indicates, therefore, that particularly in certain cities and ghettos, as well as in some of the suburban areas, you may expect that if a time of economic crisis erupts, that there will be some degree of rioting and potential violence. This Awareness indicates that this kind of violence from ghettos will likely not spread more than approximately three to five miles, or at a maximum of fifteen miles from the ghetto area. This Awareness indicates that, however, in terms of suburban areas wherein there are entities who already are involved in high degrees of theft and burglarizing, these areas can expect more of this type of activity.

This Awareness indicates that being in a suburban area is no longer particularly safe, although it still may be much safer than some of the cities. This Awareness suggests that these concerns must be individualized whereby entities can make their own homes more burglar-proof by proper locks, lighting and gates, and by having guards or a guard dog for helping to ward off such possible problems. This Awareness indicates that all of these things must be considered if and when a major economic problem occurs, as is destined to occur during the next few years to some degree or another. This Awareness indicates that also, entities living in certain cities may expect that the cities themselves could undergo economic crash or problems, even before the nation experiences such. This Awareness indicates those in such danger as New York, Cleveland, Chicago, Detroit, Washington, D.C., Baltimore, Los Angeles —this Awareness indicates generally any city of over two million may be considered in jeopardy, and those who have relied most heavily on municipal bonds or government subsidies and contracts and individual corporations. These must be looked at carefully to determine their chance of economic survival during the coming years.

COSMIC AWARENESS TELLS OF THE DRAMATIC CHANGES COMING

This Awareness indicates that likewise, there are other dangers facing entities: this being in terms of political, weather, environmental, industrial and cultural change. This Awareness indicates that all of these, including geophysical changes, are also part of the future and must be reckoned with by any planning which would attempt to stabilize the economy and lifestyle of individuals.

This Awareness indicates excess pollution as that which threatens the environment. A threatened environment creates greater medical problems, and the threat to life and food. The threat to life and food demands that something be done to curtail the pollution. The curtailment of pollution affects the manufacturing and productions. The population growth demands more production and more manufacturing, and therefore, entities are in a vicious circle whereby the greater demand on the environment and the greater the pollution factor. This Awareness indicates that this vicious circle appears to be ever-increasing.

This Awareness indicates there are, however, ways out of the vicious circle. For example, finding certain energy sources that are non-polluting, finding ways of manufacturing which do not harm the environment, curtailing the population growth somewhat, and greater awareness of the environment and its importance. This Awareness indicates, for example, as more and more trees are destroyed, oxygen content in the atmosphere is hindered, and this can create a vicious problem which accelerates greater future problems in terms of health and pollution concerns and in terms of the "greenhouse effect". This Awareness indicates that all of these changes which are occurring at an ultra-rapid pace at this time: in the economy, in the population, in the demands and needs of entities, in the cultural shocks which are occurring, in the rapid-changing consciousness levels, the value systems which are undergoing great stress, strain, shaking and death-throws, in the violence which is being spread across this globe through various groups and individuals, in the strange weather and geophysical patterns of nature, (whether natural or manipulated origins), and in the astrological and cosmological influences upon this plane----This Awareness indicates that these rapid changes are hurling this planet into the future at a pace that is accelerating the acceleration. This Awareness indicates that this movement is that which *It* has referred to as the "melting pot of humanity", the rising of consciousness, the temperature of consciousness, which is being heated up because of these accelerating experiences, demands and movements.

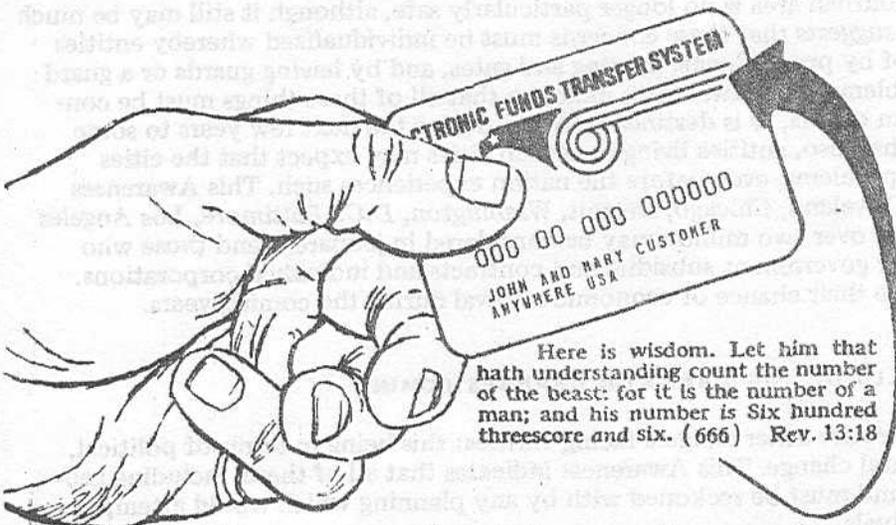

This Awareness indicates that it is natural for entities to resist the unknown when that unknown appears to be threatening. This Awareness indicates also, that it is natural for entities to avoid the unpleasant. This Awareness suggests you follow these natural tendencies, but that you also recognize that a temporary unpleasantness may, in fact, be necessary for greater future pleasures, or for the avoidance of even greater displeasure in a future time. This Awareness indicates that many entities may be required to make momentary sacrifices in order that they benefit from these sacrifices at a later time.

This Awareness indicates this as related to the *Law of Leverage*, where a small amount of energy given at one particular time and place moves great energy and changes the course of history at a future time and place. This Awareness indicates that entities in understanding this, may also not identify with the sacrificing and suffering of the changes, but that they may give their identification to the flow from the old to the new, and pour their energies into that which is becoming -- the new way of life, the new world developing.

This Awareness indicates as you let go of the old structures and move with the stream and find where the river flows, with hope and vision to guide you, then the journey will not be one of struggling for your past life, but of moving on toward something better. This Awareness indicates that you may hold on as long as you desire, and salvage whatever is salvageable to bring into the new experiences. This Awareness does not ask you to give up anything you desire to keep, but is asking that your attitude be one which is emanating faith in the future, rather than fear of losing the past. This Awareness indicates this choice of attitudes may be the most valuable treasure that you can receive or hold as you traverse these coming years.

This Awareness indicates that faith in the future can provide you with the spirit to carry on, regardless of what is occurring around you and what has happened to you in your past. This Awareness indicates that those who cling to the past, cling to the sinking ship, and will go down; for the changes which are occurring require that entities, to survive, must move forward and let go of some of those sinking valuables, sinking memories, sinking ways of the past.

This Awareness indicates that this shall continue throughout much of this decade, particularly during the first half of the decade, wherein entities will witness great changes in political, social, economic, personal, cultural, technological, geophysical and national expressions.

"First will come a national identification card, then the identification number, then the laser mark.

The Beast may attempt to entice entities with free money, (about \$2000) to lure them into the Electronic-Funds-Transfer System."

AND SLAUGHTER!

QUESTION:

A question from R.G. of Norwalk, Connecticut: "I would like to submit to Awareness a question about the draft and registration: What can be done to avoid the military draft? I know there are movements around, but will these people be heard? We all know that this is senseless and only needed to benefit the already wealthy and people who are always benefited?" (I think he probably means the actual draft rather than the registration, since the registration is already occurring...)

COSMIC AWARENESS:

This Awareness indicates that the registration as that which is required by law and carries stiff penalties, including up to five years in prison for entities who fail to register. This Awareness indicates that the entities who register may write across their cards that they are opposed to violence, that they are conscientious objectors, or that they are registering under protest. This Awareness indicates such a statement can help to substantiate the future attempts by the entity to avoid the draft under conscientious-objector status.

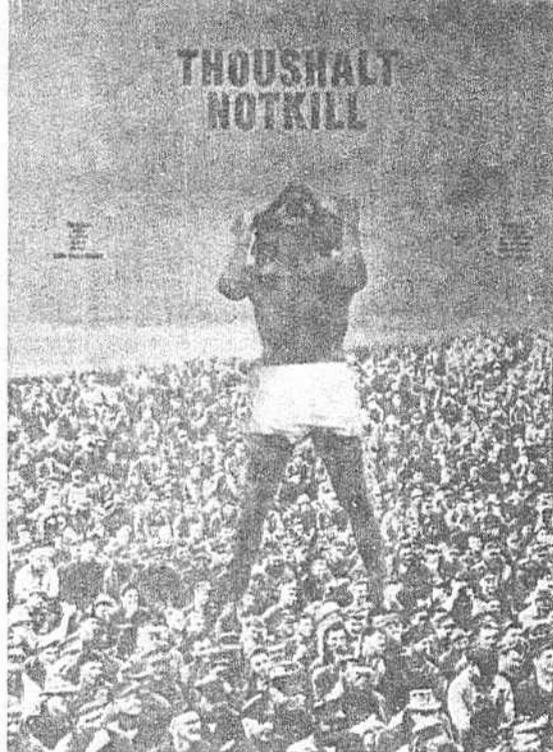

This Awareness reminds entities that the status of conscientious objector is no longer confined only to those entities of particular religion, such as the Quaker religion, or those which have long been established as anti-violent. That the status of conscientious objector does not even require that the entity belong to a particular church, or to any church at all.

This Awareness indicates, however, that belonging to a church which has a strong objection to war and violence can be beneficial to the entity to assist the entity in substantiating his philosophy of non-violence.

"As entities prepare for war in times of peace, they shall surely create the war to end the peace".....Cosmic Awareness

This Awareness indicates that in the event that an entity who fully is committed to be non-violent in nature is drafted and put into a situation whereby he or she is expected to be violent, this Awareness indicates that entity, if his or her commitment is strong enough to be non-violent, *cannot be forced into violence if the entity simply refuses.*

This Awareness indicates that whereby you declare at each step of the way that you will not violate another, that you will not knowingly put yourself in a position whereby you could violate another against your will; and whereby each step of the way, you inform others that you do not believe in violence and that you will preach and teach and share your non-violent philosophy with all others who come in contact with you---this Awareness indicates that this will perhaps label you as an undesirable or one who would be a trouble-maker among others who would be good for training in violence.

This Awareness indicates that when they seek to train people in violence, it is not conducive to their cause to have other entities who are preaching non-violence as a way of life. This Awareness indicates such an attitude would perhaps make one unfit for the training in military roles of a violent nature.

This Awareness indicates that essentially, no one can force anyone to do something they fully refuse to do. This Awareness indicates however, the consequences for disobedience may appear very grave at times. This Awareness suggests, however, in terms of national establishments, such as the military, there are rules which apply to these forces, and your own rights as an individual must also be recognized by these forces. Therefore, the threat often is greater than anything which could actually be placed upon you as a punishment for non-cooperation in the training to be violent.

This Awareness reminds entities also that members of the *Aquarian Church of Universal Service* are forbidden by the church from putting themselves in positions whereby they could cause violence or support violence. This Awareness suggests that entities wishing more information on this to write to the *Aquarian Church*. This Awareness remind entities also that the Quaker or the American Friends' Committees, the Quaker organization, have much information available to help entities in their efforts to avoid being forced into actions of violence against their will.
