of Awareness

Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

The Second Coming of Christ

Paul Shockley
Trance-Interpreter

(Once more ! All together now. Let's here it for Jesus !)

QUESTION:

Awareness has answered this question numerous times before when asked: When is the entity Jesus going to return to the physical plane. Each time a psychic or new book comes out we get an onslaught of letters and have received no less than ten or so in regards to a book recently put out called, *The Reappearance of the Christ and the Masters of Wisdom*, by Benjamin Creme. The following question of R.K. is typical:

"This book states the 'Lord Maitreya, the Christ, has arrived in a well-known country on the 19th of July, 1977, and is currently doing work on the planet himself in the political and economic areas, with particular emphasis on sharing. My question is: besides the Second Coming of Christ being a level of consciousness that individuals can themselves tap into, will or has this Christ Consciousness and spirit also manifest itself in a physical form? Who is Lord Maitreya the Christ?" And I might add, is this book mentioned valid?

ED's Note: This book available from Tura Press, PO Box 2626, Los Angeles, California 90028 (\$5.70)

COSMIC AWARENESS:

This Awareness indicates this as another repeat performance of many similar announcements. This Awareness indicates that each of these various new messiahs entering into the work of assisting the planet to improve, giving the message of love and sharing, of service--each of these as adding to the collective efforts and messages of the various teachers and messiahs of old. This Awareness indicates that each is as valid as the entity is capable of assisting in channeling the clear Christ Consciousness to the masses.

This Awareness indicates and reminds entities that the Lord Krishna, that there were also other messiahs from religions of other times and other cultures who also are prophesied to return. This Awareness indicates that entities who search for the messiah and point here and point there, looking at this child, looking at that child, looking at this entity or that entity, would be wise to attend the movie *The Life of Brian* and observe the scene wherein the crowd assumes that Brian must be the messiah. This Awareness indicates often your own hunger of seeking to find a physical leader, a physical messiah, is that which stands in the way of finding the Christ Consciousness within your own soul: the Light, the way, the truth to the kingdom which is within. This Awareness suggests that even as there are those who search here and there for the kingdom of heaven, (which is within), there are also those who search here and there for the Christ Consciousness, which is also within.

This Awareness suggests that you turn your attention deep into your soul toward the divinity within, and there you will experience the Second Coming of the Christ.

This Awareness indicates that for those who cannot be satisfied with this, you may pleasure yourself by searching for the Christ in others, for it lies deep within each entity. This Awareness indicates there is a saying by Buddha that those who search for the clear light and discover the Buddha of the clear light, realize that they themselves are the divine Buddha, the divine clear light; and once discovering this, turn and see that the divine, clear light of the Buddha-hood is also found in all others, even though they may not yet realize its presence.

This Awareness indicates that as those who are unaware of the presence of the clear light within themselves search for the all-good Buddha and the clear light in a living master, once finding this, the living master can do no more than to show the entity the clear light within the entity's own consciousness. This Awareness indicates if you came face-to-face with the living Christ in flesh, it would simply point out to you the living Christ within your own flesh.

This Awareness indicates that it is for each entity to accept this Christ Consciousness, this clear light, this all-good, all loving presence by the faith that it is available to you if you but open yourself and accept its presence as part of your being. This Awareness suggests this best occurs wherein entities give themselves to the crystal pure, virgin-born clear light of truth, the Christ Consciousness.

WILL THE PASSION PLAY OF CHRIST EVER AGAIN BE ACTED OUT UPON THIS EARTH PLANE ?

QUESTION:

Awareness, the Passion Play acted out by the entity Jesus, Krishna and all those other Avatars down through history, which was basically the same, is there any possibility that in the future on this planet that this play will have to be repeated?

COSMIC AWARENESS:

This Awareness indicates that in varying degrees, each entity moves through this scenario in his or her experiences on this plane as each entity develops the Christ Consciousness. This Awareness indicates that as has previously been given, the Passion Play as being symbolic of the movement of the self to the place of skulls and the crucifixion of the ego upon the cross.

This Awareness reminds entities that even as the Satan tempted the Christ with promises of material gain and the Christ shunned the offer: likewise, every entity must realize that the material promises do not bring forth the spiritual purposes of one's mission--as each entity may move through activities on this earth that amaze and astound others as to their magnitude, that serve others, such as through healing and miraculous accomplishments such as walking on water or some feat that astounds others, -- all of these actions and the fame which follows are but part of the earthly experience leading up to the crucifixion of the ego, whereby the self, with all its glory, crowned, receives in fact little comfort from the world--for the crown is but a thorny reminder of the weakness of the flesh; and therefore, in spite of all the glory and the potential greatness and the claims, the ego must be sacrificed, must be given upon the cross of spirit and matter and must be laid to rest. This Awareness indicates once this occurs, then the resurrected soul--egoless, bodiless--then may reform and move into its full divinity and higher purposes.

This Awareness indicates that the Passion Play serves as an example for entities to follow, serves as a moral lesson, and also serves as a pattern for the soul in its path of development. This Passion Play moves through the chakras with points designated and symbolized in a manner whereby each chakra is touched as the consciousness rises to its place of resurrection. The original point of birth of this consciousness, being in the chakra at the base of the spine in the gonad area, as being symbolized in the Christian story as the manger wherein animalistic vibrations lie. This Awareness indicates that each chakra moves the energy upward wherein the movement of the Christ child into Egypt and again back toward his home.

This Awareness indicates there also were the 'hidden years' wherein the entity's life was unexplained in this passion story and these chakras being touched are not clearly designated in that particular area. This Awareness indicates the entity having moved into India, Tibet, Persia and certain mystery schools in Ethiopia and in Egypt. This Awareness indicates that the movement back into contact with his own people begins again with the heart chakra wherein the entity assists and heals others, the throat chakra wherein the entity teaches and speaks to others, and the pineal wherein the entity confronts those money-changers and priests.

This Awareness indicates that in this action the energies rising to the place of skulls, up the back of the head to that Hill of Golgotha, the place of the skulls, and onto the cross between the pineal and pituitary energies, wherein the cross, and into the tomb known as the pituitary. This Awareness indicates that this then resulted in a resurrection of higher Christ Consciousness levels and the death of the ego.

This Awareness indicates, of course, the ego is also personified in other legends as the phoenix bird, which rises from its own ashes; and therefore, like the phoenix, the ego, or new self, arises and is resurrected anew, as a New Being to move on to higher purposes on a higher dimension, no longer bound by the lower vibrations of the physical, material world.

This Awareness indicates this also reflected in the Zodiac movement from the signs of Aries through to Scorpio, the sign of death and resurrection, wherein the scorpion symbolizes the lower ego form and the eagle symbolizes the higher, resurrected or transmuted form. This Awareness indicates the scorpion being an emotional or water and earth creature and the eagle being the air and sky, or spirit creature.

This Awareness indicates that in the Zodiac symbology, the movement from that sign then goes on to the Sagittarius sign, symbolizing expansion or extension, this paralleling the philosophy being spread in the Christian or Krishna or Indra or Mithra or Buddhist religions. This Awareness indicates that in these religions, the philosophy spreads and is more powerful after the entity's death than during the time when these entities were alive.

This Awareness indicates in the Zodiac, the next sign being that of Capricorn, wherein these energies and philosophies become crystalized in structures such as churches, temples and systems, wherein these teachings are taught and enforced. This Awareness indicates that the next Zodiac sign being that wherein the energies and spirit of the message by these teachings is given to others through service. That the final sign being that of Pisces wherein the integration of all these energies and teachings begin to merge and flow together in a lifestyle or culture.

This Awareness indicates that these Passion Plays are also symbolized in various ancient, secret schools and their rituals--these coming from early Atlantean schools. This Awareness indicates likewise, the Development Classes which this Awareness has given for *Its* ministers also includes the symbolic and consciousness and ritualistic movement through these energy fields to allow *Its* ministers to experience the ego death through imagery, philosophy and ritual.*

*The 12 Basic Development and the 12 Advanced Development classes given by Awareness hopefully will be available to the membership in tape form in the near future so those interested may participate in the ego-death experience and many others.

For more information on the Passion Play and the entities who participated, please refer to 'Revelations of Awareness' No. 80-20, (Should Children be Taught the Fundamental Christian Doctrine?); \$3.00 from C.A.C. Also No. 78-25 (Is Cosmic Awareness a False Prophet?); \$1.50.

MORE ON SAINT TWINKLE

(Closing Message from another reading)

This Awareness suggests that the Christian Age being seen as that wherein the Christ was suspended from the cross, this having having four arms. This Awareness suggests you visualize the Aquarian Age as that wherein the Christ has been resurrected, released from the cross, and stands in the symbol of a five-pointed star, legs being spread apart, arms outstretched, a smile and crown on his head, superimposed over Saint Twinkle. This Awareness indicates Saint Twinkle being simply that concept of joy, prosperity, harmony, radiance and freedom.

For more on St. Twinkle, please refer to 'Revelations of Awareness' No. 80-8 (The birth of St. Twinkle); \$3.00 from C.A.C.

DOES ONE'S SUN SIGN DETERMINE ONE'S LIFE SPAN

(Long Live the Geminis)

QUESTION:

A question from V.K. "A certain researcher stated that his findings revealed people born under certain astrological signs live longer than others. For example, after checking many, many cemetery monuments containing birth and death dates, as well as other sources registering demises, he found that Geminis live the longest, while Sagittarians had the lowest lifespan. Of course, there must be exceptions, but his investigations were intended to establish data as respects vast majorities. Can Awareness explain why certain signs evidently are prone to shorter life spans?"

COSMIC AWARENESS:

This Awareness indicates that this particular type of evidence is valid during certain periods, but will have some variations during other periods; for the slower moving planets will change signs from generation to generation, and this will affect the outcome of the statistics, because the planets in these different signs have different effects on the other signs,--this having some influence on the statistical research.

This Awareness indicates, however, that in a general sense this as being valuable and relatively accurate, for there appears to be some tendencies for certain signs not to have as much vitality as others.

This Awareness indicates that this having to do with the vital energies involved in the initial programming of the cells of the entity. This being in part related to the types of food, the time of year, the tatvic tides involved during the time of conception and of birth.

This Also having something to do with the balance of the tridosha: the tridosha being that balance of fire, air, water (or in modern terms, the circulatory, nervous or nerve energies, and the phlegmatic energies of a body),--the proper balance giving health, and those which are altered improperly denying health.

This Awareness indicates that each sign having a slightly different influence on the tridosha of individuals: the fire signs having a more fiery tridosha, the watery signs having a more emotional or phlegmatic tridosha, and the air signs having more of a nerve or airy type of tridosha. This Awareness indicates that each of these being such that they have an effect on the ability of the body to handle stress from various sources throughout life.

WHY ARE THERE SO FEW GEMINIS ?

("Anjin-san, come pillow with me")

QUESTION:

Awareness, some astrologers claim that Gemini is the scarcest sign as far as numbers, the sign with the lowest amount of entities; that there are fewer Geminis than there are any signs. This doesn't appear to make much sense--it seems like it ought to balance out evenly. If this is true, would Awareness explain why?

COSMIC AWARENESS:

This Awareness indicates there is a tendency for entities to be more intimate during colder weather, wherein there is not as much opportunity for entities to become involved in other types of physical activities, and whereby entities are more attracted to each other for bodily heat and attention and intimate relationships. Therefore, many of the cooler months tend to be those times wherein entities conceive children. This Awareness indicates likewise, the Springtime has an effect of causing certain types of appetite and energies which relate unto the time of planting and therefore this also becomes a time of conception for many entities.

This Awareness indicates that the Fall, being a time of apprehension and harvest, is not so much a time of conception, but a time of gathering; is not so much a time for planting seeds, is not so much a time for intimacy, but rather is a time of work, wherein entities are somewhat more exhausted and also apprehensive of the coming winters. Therefore, this not being a good time for entities to conceive. This Awareness indicates therefore, nine months later, fewer children are born.

This Awareness indicates essentially, the sign of Libra as being more of a barren sign than that of Scorpio. This Awareness indicates that the Scorpio sign, being more active in sexual interest and more passionate, without the

judgment and balance of Libra, being more inclined to letting the emotions go, tends to produce the children born in Cancer, nine months later. This Awareness indicates there being a very high rate of Cancernians, or that known as the "Moon child", which follows the low birth rate of the sign of Gemini.

PICKING A PRESIDENT

(From a C.A.C. General Reading)

April 13, 1980

QUESTION:

A question from G.J. of Holcomb, Wis., "How do we judge our politicians this Fall? We all want a good President, one who will stabilize our economy and our foreign affairs. How do we judge our man?" And I might add, does it really make any difference in light of what has been happening these last few years?

COSMIC AWARENESS:

This Awareness indicates that essentially, this election makes little difference; for the greater influence is being conducted from other levels far beyond the Presidency. This Awareness indicates this much likened unto a corporation whose employers are asking each other, "Who should we elect as janitor?"

QUESTION:

Then it would do no good to look for particular qualities in any of the candidates at this particular time?

COSMIC AWARENESS:

This Awareness indicates that the candidates can have very little influence in terms of the events which are occurring; but they can assist in serving as likened unto an emcee, a moderator or a communicator, to pacify the people into thinking there is a policy which the people can choose from or follow. This Awareness indicates that it appears that the economy and the international affairs being the great issue, and both being out of control of the Presidency, will simply serve as discussion points for candidates and will continue being controlled, regardless of who is in.

This Awareness indicates if there is a meaning in what is occurring, it appears that the purpose of the Presidency, the elections, and all of the ballyhoo in regards to this action, is to demonstrate to the masses that there is no leader capable of serving the needs satisfactorily. This Awareness indicates this as likened unto diffusing the concept of leadership, so that entities cease to look at the President and begin looking at the manipulators behind the scenes and where the real power lies. This Awareness indicates that there are events which will overshadow the elections, but which the elections will also tend to reflect off of. This Awareness indicates that this appears to be an action wherein the election serves as a diversion, while other events are taking place which circumvent the roles of leadership and direction which the masses would require. This Awareness suggests that were it not for the election, entities would be looking at the events; but as the election is being given great significance, entities are looking at this and at the candidates. And as this occurs, the events are being manipulated and moved through, according to the pattern of those who manipulate the events.

WHAT WORDS ON YOUR TELEPHONE WILL TRIP THE COMPUTER ?

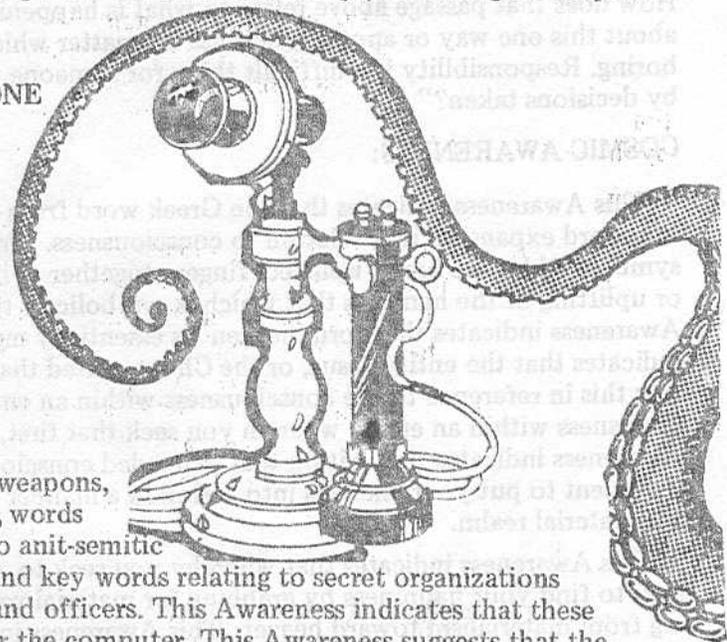

QUESTION:

Ever since we published the question about the telephone, wherein certain words trip a computer, * we've had a lot of people ask if Awareness would explain what words not to use on the phone so as not to trip the listening computer. Would Awareness give us a list of these words?

COSMIC AWARENESS:

This Awareness indicates that generally words relating to weapons, whether these are clear words or slang; that is general slang, words relating to weapons, to taxes, to drugs, to acts of violence, to anit-semitic terms, and to major political or powerful banking officials, and key words relating to secret organizations and their names and their titles, the titles of their members and officers. This Awareness indicates that these are generally the areas which contain the words which trigger the computer. This Awareness suggests that the danger of these not so great but that these can be listened to by the computer and are reviewed by those wishing to know what is occurring. This Awareness indicates that more recently, terms such as those relating to robotoids and that information of Dr. Beter, this also is being included, the terms such as names relating to high political offices, also agencies such as the CIA, FBI, and NSA and similar terms, abbreviations or titles.

*Revelations of Awareness' No. 78-31 (How Ma Bell taps your phone):\$1.50 from C.A.C.

THE SHAKERS OF CONSCIOUSNESS

(The Masses Begin to Awaken From their Slumber)

(Opening Message from a C.A.C. General Reading)
June 29, 1980

This Awareness indicates there is seen that which is likened unto a light---This as a light which shines forth upon the mass mind. This light as being such that it begins to grow brighter and to allow the many eyes of the mass mind to see deeper into the mysteries of life. This Awareness indicates that this as the dawning which begins to approach, to even awaken those who have been in deep slumber. This Awareness indicates there are many who still sleep, but there are also many who awaken very rapidly at this time. This Awareness indicates the situations which are on the horizon, whereby entities move about as shakers of consciousness to awaken those from their slumber, this situation will serve to assist in speeding up the awakening process, whereby more entities shall awaken and assist in helping others to awaken also.

This Awareness indicates these entities coming in contact with those who slumber, shaking these entities from their stupor, being somewhat gentle, but also being capable of firm shaking. This Awareness indicates these entities are beginning to have a powerful effect. Others, also, are joining in, in the efforts to awaken others, even while there are those forces which would continue lulling others to sleep. These forces are losing their momentum, for there is a whole lot of shaking going on at this time.

SEEKING FIRST THE KINGDOM OF GOD

(A Good Reason Why Not to Work ?)

QUESTION:

A question from J.M. of Ridgecrest, Calif. "The Bible says, 'Seek the Kingdom of Heaven first and all else will be added unto you'. I have expected that this was true, but have had no success as yet. Is it possible that due to the present economic system that this statement has become invalidated, ie. making a living first and then seek the Kingdom of Heaven? However, this doesn't make much sense either, because Jesus said that he knew people had to provide shelter, food and clothing for themselves, but that they could seek the Kingdom of Heaven first anyway. How does that passage above relate to what is happening in this day and age? I am unable to make any decisions about this one way or another, because no matter which way I choose, someone will be hurt and just waiting is boring. Responsibility is a difficult thing for someone to assume. How can it be taken without someone being hurt by decisions taken?"

COSMIC AWARENESS:

This Awareness indicates that the Greek word from which 'heaven' is taken is that which means 'expansion', and this word expansion is in relation to consciousness. This Awareness indicates that the word 'heaven' as that which is symbolized by the hands uplifted, fingers together as in the prayer position. This Awareness indicates this heaving or uplifting of the hands as that which is symbolic of the aspiring consciousness or the expanding consciousness. This Awareness indicates the word 'heaven' as essentially meaning the expansion of one's consciousness. This Awareness indicates that the entity Jesus, or the Christ, stated that the 'Kingdom of Heaven was within.' This Awareness indicates this in reference to the consciousness within an entity. This Awareness indicates that in terms of expanding consciousness within an entity wherein you seek that first, then you may have all else which is necessary for you. This Awareness indicates that within that expanded consciousness there lies the magic and the capacity, the capability, the talent to put your energies into action in a manner whereby you may receive all that is necessary for you from the material realm.

This Awareness indicates that whereby you seek to reach heaven through the material efforts, that whereby you seek to find your happiness by grabbing for material wealth or goods, this is likened unto the Tower of Babel moving from materialism toward heaven. This Awareness indicates that there is an action whereby you can move against the current, from the material toward the spiritual, but this action is that which takes a vast amount of energy and time. This Awareness indicates the Universe flows from the spiritual toward the material, and entities moving in the opposite direction are working against the flow of the Universe.

This Awareness suggests you move into the spiritual and have the faith that the material needs will be manifested, and you concentrate on being a spiritual being at one with a spiritual Universe, and having the material that is necessary for your material existence and having this supplied from the spiritual realm to you. This Awareness indicates if you concentrate on seeking the material in order to have that which is necessary for your spiritual well-being, you are working in opposite direction with the Universal flow. This Awareness indicates that in the action of being involved with spiritual energies, when you look at others, if you are truly at one with spiritual energies, those others are as dear to you as you are to yourself, and therefore you would not do anything to harm these others. This Awareness indicates if it entails that you continue to work physically in order to assist those entities about you, then you continue in this action, for your concern is of being spiritually oriented and related to those entities, and this grounding force of work is that which is necessary. This Awareness indicates you may be working physically for material needs for these entities, but this does not mean you are materialistic in your attitude,—you may be doing this action from a feeling of love for your friends or family and this is a spiritual attitude.

This Awareness indicates that an action may be motivated from spiritual energies or from material and selfish energies, and that action may be the same action. This Awareness suggests that if you have been working for material gain to supplement your family's needs, then you may simply change your attitude and work to supplement your family's needs because you have a spiritual affection and love for these entities. This Awareness indicates that your actions need not change but your attitude may—the attitude change itself is that which will begin to bring about a flow with the universal forces, and this will lead to greater control and benefits from the Universe for your spiritual development and growth as well as rewards from the material level for your energy given.

This Awareness suggests you begin to flow with the universal currents of spiritual love and affection for all, rather than from the energies of seeking to get what you can for yourself and those dear to you, whom you consider as extensions of yourself. This Awareness suggests that the difference between the entity who sees himself as separate from the Universe and the entity who sees himself as part of the spiritual flow of the Universe, is that which creates the change in attitudes which in turn generates the difference in reward; and those who seek the Kingdom of God, the spiritual oneness with the Universe are those who will receive the greater inner rewards as well as the external rewards.

This Awareness suggests however, you not approach this action simply as an economic game-plan for getting more physical and material wealth, but that you approach this for your spiritual wealth; for therein is the foundation which allows the other to follow.

SOME LITTLE KNOWN FACTS ABOUT FISH AND ANIMALS

(How They Tune in to Certain Energy Fields)

(More on Psionic Energy & the Pendulum).

QUESTION:

A question from B.S. of Lakewood, Colorado. "A recent *In Search Of* TV program was about the psychic ability of animals. One experiment involved a Siamese fighting fish in a bowl with a special mirror, the reflective qualities of which could be turned off and on. The switching of the mirror was hooked up to a generator which was programmed to switch the mirror off and on in a random fashion. After the fish had been exposed to the special mirror for a period of time, seeing his own image when the mirror was on and not seeing it when the mirror was off, a peculiar thing happened—the mirror started staying on for longer periods of time. It was hypothesized that the fish, which is known for its extremely bellicose and aggressive attitudes towards members of its own species, was somehow exerting a psychic control over the generator and was forcing it to turn the mirror on more times than could be accounted for by random chance. Was the fish in its eagerness to posture beligerently before its own image exerting a psychic control over the generators? The TV program also touched

briefly on the ability of dogs and cats to PSI-track their owners to homes where they had never been before. Maybe Awareness could comment on this ability too. Can some animals literally tune into their owner's vibrational level and use it as a homing device?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that these entities are indeed capable of such unity and oneness with their owner or master that they can feel the general direction and location of that entity. This Awareness indicates this is not too unusual a quality, this is very similar to the action of the pendulum,

whereby an entity can use a pendulum to determine the direction of a particular object which has been lost. This Awareness indicates there are certain entities employed in high positions of technology who can look at a particular diagram, run their hand over that diagram and locate a part of that machine represented by the diagram or the electrical component drawn upon the diagram which indicates to them an area of breakdown in a machine built from that diagram which may exist several thousand miles away.

This Awareness indicates this is not unusual as a quality among certain highly evolved technicians in your present industrial sciences. This Awareness indicates that this is little known by most entities, and that it is not highly publicized--this relates to the psionic force which is becoming more and more popularized among entities in various fields of technology as well as other studies.

This Awareness indicates in terms of the fish and its activities, that this as a demonstration of the power of mind.

This Awareness indicates that the fish as operating from a sense of curiosity, a desire to see what it is looking at. This Awareness indicates the fish was not fully conscious that it was a reflection of itself but did recognize that when it appeared it had a particular feeling about that reflection--the fish then began to generate that feeling even at times when the image was not present, and the generation of that feeling assisted in causing the image to reoccur.

This Awareness indicates there are many examples of this kind of mind over matter in human affairs, that this as a rather unique example as it indicates the movement of the psionic energies into levels of the world of fish. This Awareness indicates that this also is the same energies which are useful in terms of the migrations of animals and fowl and fish. This Awareness indicates that essentially this relates to the electromagnetic field which is in layers of many octaves, one around the other, vibrations coming off of vibrations, and the finer and finer vibrations reaching into higher and higher frequencies. This Awareness indicates that in these higher frequencies, the energies begin to merge into one mind or one common dimensional existence and in the lower frequencies, the energies merge into individual differences. This Awareness indicates that wherein the minds of entities or animals, plants or other creatures move into these higher frequencies, they have common communication with one another and with other fields of energies which lie between. This Awareness indicates this also is related to actions whereby entities are capable of effecting material changes at a distance, of driving blindfolded, of bending metal even at distances, of stopping clocks or watches at distances or simply by touch. This Awareness indicates this is an entirely new area of science, which as entities become more and more involved in this area to

discover the full potential of their own consciousness, they also will discover that the mind in itself is the greatest tool and the organ of creation in all imaginable levels of existence.

This Awareness indicates this as tapping into energies which the Lemurians had tapped into. This Awareness indicates that this as a universal energy, which many on your plane are now becoming more aware of and this shall eventually be used to work wonders which once machines or manual labor was required to do.

AGENT ORANGE

(TRAGIC KARMA FOR THOSE WHO WENT TO VIETNAM)

QUESTION:

During the Vietnam war, young Americans were sent overseas to fight a war that few people liked. In the midst of dodging bullets, they were sprayed with a poison intended to strip the jungle bare and make the killing easier. Now the men are home and they are saying that the poison meant for the enemy, is killing them. Thousands have been complaining to the government that they have been sick for a dozen years; many have skin cancer, blisters on the hands, stomachaches, headaches, shooting pains in the eyes; their offspring has genetic problems. The Veterans Administration has sponsored a study, but it's going to take about six years to study the medical histories. The Government denies that there was any problem. If this Agent Orange is indeed doing these things to these young men that they claim, would Awareness give some antidote or some type of remedy if there is something that might help alleviate this problem?

COSMIC AWARENESS:

This Awareness indicates that this as the tragedy of complacency in following orders, in following the powers, in following those who are insane; which results in such destructive tactics as these entities allowed themselves to be involved in. This Awareness indicates essentially, this as karma.

This Awareness indicates that there are few winners in war, and any winning is but of a temporary nature. This Awareness indicates that violence does not deliver anything but further violence until entities become aware and cease their violence toward one another.

This Awareness indicates that as far as this particular Agent is concerned, there is very little that can be done for these entities at this time with the materials available to the public. This Awareness indicates there are certain methods which are capable of assisting these entities, but the established medical controls would not permit these methods to be used. This Awareness indicates this including chromo-therapy, the use of colored light as a healing device, ultra sonics used in certain methods for healing, radiology; hypnosis as having some effect, but this being limited to the responsiveness of each individual. This Awareness indicates that diet through fasting and through the use of cleansing products such as Aloe Vera, lemon juice or various herbal cleansing formulas--this can be of some value in assisting, but this being limited and a slow process.

This Awareness indicates that there are certain scientific breakthroughs which, in time, can develop a system which will lead to the curing of many of these diseases, such as cancer, and particularly those diseases which affect the cells of the body. This Awareness indicates however, that these breakthroughs are slow in coming, will require much experimenting and time before they will be released for use by the medical profession. This Awareness indicates that these also may be hindered by agencies.

This Awareness indicates that essentially, there is not a great deal which can be done for these entities, other than that they work carefully in cleansing their physical body, avoiding improper dietary programs, and work with the various fasting programs which can, over a period of time, assist in the release of toxins from the body. This Awareness indicates that this to include the product Aloe Vera, for the Aloe Vera as having much value in the treatment of this. This Awareness indicates this product also, however, is limited in what it can do.

This Awareness suggests that there is much information out on the treatment of skin, of burns, and on herbal medicines. This Awareness suggests a good homeopathic researcher, through the use of the homeopathic method, could discover medicines from taking the essence of the toxin and creating the homeopathic remedy. That this in itself could be of assistance in healing the problem. This Awareness indicates however, this has not been done. That good homeopathic researchers would be capable of doing this without great difficulty. This Awareness indicates that the Bach Flower Remedy as that which may have some value in alleviating or retarding the problem caused by this Agent, but that this is not totally effective either.

This Awareness indicates the approach seen as most effective would be that of finding a homeopathic doctor who would take the toxin and create the homeopathic remedy for it. This Awareness has explained previously the homeopathic medicine is created by taking that which is the poison or toxin and reducing it again and again and again to miniscule parts, and then giving this back to the patient. This Awareness indicates that this action does require the training and understanding of one who is aware of the homeopathic method. This Awareness indicates however, that this can be an effective method of dealing with this problem.

ED's Note:

For more information on how homeopathic medicines work, please refer to 'Revelations of Awareness', No. 77-13 (The Cosmic and physical nature of drug addition):\$2.00; Information on the cleansing diet can be found in 'Revelations of Awareness' No.75-76(\$2.00). Also recommended is reading No. 80-17 (How to Heal the Body, Mind, Emotions & Spirit);\$3.00 from C.A.C. Personal Bach Flower formulas are available by writing to the following address for information: Att: Mary Farrell, The Goodship, PO Box 40083, Portland, Oregon, 97240. Aloa Vera can be found in health food stores. There are homeopathic doctors in most areas. Consult Yellow Pages.

GERM WARFARE TEST IN U.S.

(From a C.A.C. Reading, May 7, 1980)

QUESTION:

A question from W.B. The *Spotlight* ran a story a few weeks ago about a virus type flu that has hit all over the country. At one point 30% of the work force in Washington D.C. was out with it. It seems to respond to treatment, but keeps returning. One doctor left practice and home and took his family to the hills somewhere. They termed it "Germ Warfare" and weren't sure if the United States or another caused it. Would Awareness comment, please?

COSMIC AWARENESS:

This Awareness indicates that this as being a kind of "Germ Warfare" program, a kind of experiment. This Awareness indicates that it appears to have been enacted within this country by entities who are not working in the interest of this country.

This Awareness does not wish to comment upon the perpetrators of this action, as this could be somewhat dangerous at this time. This Awareness wishes not to put too much significance or focus on this particular action, as it appears not to be of any great significance other than as a test to determine how effective a certain weapon system might be.

This Awareness indicates that this appears to be something which will be made known at a later time, that presently the release of this information is not timely.

THE CONFLICT BETWEEN SKEPTICISM & BELIEF

(Anything which cannot be questioned, MUST be doubted)

(Opening Message) Jan. 11, 1979

COSMIC AWARENESS:

This Awareness indicates that at various times in the past, this Awareness has suggested that entities not fall into the trap of believing. This Awareness suggested that entities question, that entities question everything, including the words from this Awareness. This Awareness suggests that entities continue questioning and doubting, and that in being open and in questioning, entities shall begin approaching that which is more likely to be true.

This Awareness indicates that *It* has also given certain suggestions and indications that the nature of skepticism, the nature of doubting, is that which can be of a troublesome type of experience. This Awareness has indicated that you not concern yourself with proving anything to the doubter. Wherein you give what you can, and the doubter continues to resist acceptance, that you not concern yourself greatly with trying to convince the doubter.

This Awareness indicates that there is what appears to be a conflict between these two states of consciousness: The entity who chooses to believe something and, without questioning or doubting, accepts that belief system, and then begins to close off and doubt everything that does not fit into his or her particular belief system. Such an entity can, in fact, be containing both of these states of consciousness. Whereby the entity believes something and doubts everything else, the entity may be entirely wrong without ever knowing so.

This Awareness suggests that another entity believing one of those conditions which the other doubted, may be perfectly satisfied with that belief, and may doubt the first entity's belief system. This Awareness suggests that in this manner, entities can have their personal beliefs and still be skeptical of all other belief systems, and such entities can be in total conflict with one another.

This Awareness indicates that in another sense, each entity can be totally correct from his own point of view. This Awareness suggests that wherein an entity wishes to expand one's awareness, the entity must look at everything from every point of view available. That wherein an entity wishes to expand one's own awareness, the entity must learn to question and doubt one's own beliefs. This Awareness suggests that you become skeptical of your own beliefs, rather than simply taking a stand of a belief system, and being skeptical of everyone else who does not agree with you.

This Awareness indicates many entities think that it is very intelligent to play the role of the skeptic and make others prove to them whatever it is they wish to share. This Awareness suggests that the more intelligent role is to be skeptical of your own beliefs until you have examined these from so many different sides that you cannot deny these any longer. This Awareness suggests that even then, you not identify with those as absolutes, but as probabilities. That you believe in the sense of indications and probabilities that this is so, but that you not reach an absolute conclusion that it is unquestionably so. This Awareness hopes that this clarifies the apparent conflict between beliefs and skeptics,--the concept of being skeptical and of being a person who does not believe, but questions.

This Awareness indicates these manners of questioning as that which applies in particular to entities questioning their own beliefs as much or more than questioning the beliefs of others. This Awareness indicates that anyone can believe without doubt the most absurd lie. That it does not reflect intelligence. That the entity who believes that the stork brings the baby, may in fact believe this without doubt. That entity may cling to this belief from childhood until death as an old being, but this still does not make the belief a reality.

This Awareness indicates that it is a question of whether an entity wants to cling to a belief in order to remain secure, close-minded and perhaps ignorant, or whether the entity wishes to become aware.

This Awareness indicates that anything which cannot be questioned, *must* be doubted. For anything that is true can be examined and will still remain so.

MORE PREDICTIONS OF THINGS TO COME

(The Blue Rose Ministry's Booklet on Earth Changes)

(From a C.A.C. General Reading given)
May 20, 1980

QUESTION:

There is a document circulating around, published privately by the Blue Rose Ministry, Joshua Tree, California, and C.A.C. receives two or three copies a week from various people who are concerned about this. It's called, *Coming Earth Changes Concerning the Forthcoming Planetary Alignment and Its Meaning for and to the Earth People's Nation, Atmosphere and Future*. It's about nine pages of very dire predictions and bleak forecasts. And this particular one was sent by E.N. with the question, "I am giving you this copy of *Coming Earth Changes*. I would be so pleased if you would get a communication regarding the accuracy of these predictions. Is this part of the cleansing period which is ahead of us for the remainder of this century?"

COSMIC AWARENESS:

This Awareness indicates that the predictions appear to be excessively strong, yet the predictions also appear to be essentially accurate, except for the dramatic strength by which they are presented. This Awareness indicates there will be major earth changes, earthquakes and further volcanic eruptions. This Awareness suggests this particularly between present and 1986, during a time of intense solar activity, flare-ups of solar energies and planetary alignments. This Awareness indicates that there also is much possibility and danger of nuclear war, or other more conventional war, becoming a problem and creating problems.

This Awareness indicates there also appears to be a major, or several major problems relating to nuclear power and its misuse upon this planet. This Awareness indicates that there appears to be further problems relating to weather and the use of weather warfare. This Awareness indicates that it appears there shall be much danger and many problems relating to the population increase and the productivity of food, whereby famine shall be experienced more than in any recent times. This Awareness indicates also it appears there shall be economic crisis which will affect the entire world, this apparently within the next two or three years, beginning already. This Awareness suggests, for example, it appears that during the early summer, many banks and savings and loan companies shall begin to have financial troubles and some of these will close. This Awareness indicates that, likewise, in other parts of the world there shall be similar financial problems which will create a general slow-down in the economy and world trade.

This Awareness indicates that putting these things together, whereby there is famine, social unrest, economic disturbances, geographical and geophysical problems, as well as weather disturbances, and whereby entities are becoming more frustrated in their attitudes about life, the moralities and value systems crumbling and collapsing, it simply adds up to a kind of chaos which will affect the entire earth.

This Awareness indicates, however, that individuals may not necessarily need to be touched by this chaos. For there is room between the violence, there is space between the times, there are energies available between the economic collapses, there are friends strategically placed during times of social unrest, whereby entities who are aware and are prepared and entities who are blessed and guided, may move from moment to moment, from place to place, from friend to friend, from business transaction to business transaction, from day to day, and from year to year without being caught in the cross-currents of these energies.

This Awareness reminds entities that in states of putrefaction, when energies are beginning to ferment and rot, there is always that force within the fermentation which is cleansing and which is pure and untouched and unaffected by the putrefaction, and that pure energy is that which begins to transmute the rotting, putrefied energy into something new. This Awareness asks that those workers of Light continue to shine their light during these times, for it is the light which entities shine which can light the way toward the new beginnings. This Awareness indicates that there are forces from other planes and from this plane which are at your disposal to assist you individually as you carry on the great work.

ED's Note: Awareness has previously indicated that those who are working in the Light are automatically provided the assistance necessary through the 'Law of Gratitude'.
