COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

COSMIC AWARENESS PRESENTS

A Profile of the C.A.C. Membership

(Opening Message, C.A.C. General Reading, August 3, 1980)

COSMIC AWARENESS:

This Awareness indicates that the general membership of C.A.C. as being moved through levels of response and attentiveness which rapidly progresses in their personal development. This Awareness indicates, however, that this membership as also serving an even more important function upon this plane: that in preparations for new energies which shall be coming. This Awareness indicates that the membership as that which, in being responsive as a collective unit and being receptive to new ideas, to new areas of consciousness and being open to discovery,--this membership as that which shall assist in the new energies which are being formed for purposes which shall be made clear at later times. This Awareness indicates that this membership as becoming more and more adept as highly developed beings upon this plane.

IS IT AN ACCIDENT OF CIRCUMSTANCE THAT ENTITIES JOIN C.A.C.?

QUESTION:

Would Awareness indicate if it is merely an accident of circumstance that entities join C.A.C. or if there is a karmic trip or connection among the majority of these entities or some commitment they had made in a prior lifetime that they would be involved in this action at this time?

COSMIC AWARENESS:

This Awareness indicates that many of the members of C.A.C., particularly those who are the hard-core members, have been deeply involved in this same type of operation in many different lifetimes.

This Awareness has referred to those entities known as the 'Wanderers', who move from planet to planet assisting those which are of low vibratory rate to raise the consciousness of those planets. This Awareness indicates that many of the C.A.C. members have been acting in this capacity through different lifetimes and through different periods of development of the various religions.

This Awareness indicates that many of these entities did belong to those royalties of Egypt. Many of these entities belonged to the Essenes and to certain other groups in that time of the beginnings of Christianity. This Awareness indicates that many of these entities also belonged to the earlier religions of Krishna and of Buddha. This Awareness indicates these entities assisting during such times or being in association with those who founded these religions.

This Awareness indicates that some of these entities as having been involved in the earlier secret societies whose purposes were to carry the code, carry the concepts and the teachings of the Law of One from Atlantis and other sources. This Awareness indicates that some of these entities as having belonged to certain tribes which practiced these secret religious codes. This as the Polynesian Kahunas or in other areas of the world touched by this code, this including the Far East and the areas known as Lemuria and its remaining portions or concepts and religious or cultural remains. This Awareness indicates that, likewise, some of these entities as having been involved in the Americas and the tribes which also carried this Law of One.

This Awareness indicates that there are some of these entities who have had few lifetimes upon this plane, but lived on other planets, in other systems, whereby much experience was gained which is beneficial for this particular plane. This Awareness indicates that, essentially, these entities, many of them being those known as the 'Wanderers', whose purpose is to raise consciousness. This Awareness indicates that some of the entities of C.A.C. as being involved in experiences whereby, through their various developments, their various attunements to different religious, spiritual or social contacts, have developed their being to a point whereby they desire deeper understanding of life and are ready for the plunge into the unknown fields of consciousness.

This Awareness indicates that these entities, many of them, do desire to find something which answers the many questions which arise from the various religious systems. This Awareness indicates that many of these entities find some of these answers through the Awareness communications. This Awareness indicates that *It* intends to answer more of these questions as time passes and entities are more open and willing to receive such answers.

SOME C.A.C. MEMBERS JUMP AROUND

(More on the Aquarian Church of Universal Service)

This Awareness indicates that some of these entities as having been disillusioned with other religions or philosophies which have failed their needs. This Awareness indicates that many of these seeking supplemental understanding to support their own personal religious or philosophical belief systems.

This Awareness indicates that generally, the entities who join and remain in the Awareness Movement as those who have minds which are open to discovery. This Awareness indicates that there are some who join, but feel that they want something more, much faster; and therefore, enter into other organizations which they feel will supply the more quickened pace. This Awareness indicates that often these organizations do fulfill the needs of the entity, but often the organization simply puts the entity on to a restrictive path of training at greater sacrifice; and the entity, believing that the experience must be worthwhile, remains on that path and fails to develop as rapidly as expected, but still feeling that it must be the proper path because the expense is so great.

This Awareness indicates that in one sense, the manner by which this Awareness communicates through these Revelations of Awareness and the correspondence lessons does create certain limitations for entities. This Awareness indicates that whereby the consciousness is touched and the minds and wisdom and understanding is touched and entities can begin to gain greater conscious understanding of the universe, there needs also to be that which is the physical action, the participation on the emotional and physical levels, and this as lacking in the material sent out through C.A.C. This Awareness indicates this as being available according to the entity's own willingness to put these actions into practice. This Awareness indicates that this leaves the entity to initiate the work and words into a lifestyle.

This Awareness indicates that other organizations often are capable of both creating the philosophy and the lifestyle. This Awareness indicates that essentially, the Aquarian Church as that which is designed and intended to assist in fulfilling this purpose by setting up the charters and the Development Classes and the various rituals and services around the country and in other countries, so that members of the Awareness Movement can put these words into actions and have feedback from one another of their groups. This Awareness indicates that this action has been somewhat slow in getting its start, due to various reasons. This Awareness indicates, however, that it appears this shall begin growing in momentum and speed as the coming months of this year are traversed and the energies are focused together for the coming year. This Awareness indicates this also includes the efforts and energies being focused on the peace college, whereby this also puts these words into action.

This Awareness indicates that wherein entities begin to fully understand the totality, in their minds, of the system which this Awareness presents, this will also allow the entities to move from that level whereby the word are ingested mentally and action is lacking, to that level whereby the words and actions flow together. This Awareness indicates that this comes soon, and is the next step in the Awareness Movement. This Awareness indicates that as entities understand the messages which shall be forthcoming in the Sea of Libra and that of Scorpio and those which follow in the correspondence lessons, these actions then shall become such that the words given take on new meaning and entities find themselves becoming involved in the actions which help to transform the energies of this plane.

ARE MOST OF THE C.A.C. MEMBERSHIP STILL CARMELITES ?

QUESTION:

Awareness, the entity Ralph Duby years ago gave a lot of information about the members of Organization of Awareness at that time as belonging to the Carmelite movement back at the time when the entity Ralph Duby, as a lady, was also giving trance information similar to that which is coming through the present Interpreter. My question basically, is the membership of C.A.C. connected to that Carmelite movement, or was that mainly the early Organization of Awareness people?

COSMIC AWARENESS:

This Awareness indicates that there are many in your present organization which also were involved in that Carmelite period. This Awareness indicates, however, that the majority of those involved in the early Organization of Awareness were involved in the Carmelite period. This Awareness indicates there are many presently involved in Cosmic Awareness Communications as members who were not involved in the Carmelite era.

A word about the Carmelites: When Awareness first started the Organization of Awareness in 1963, It stated that 12 entities would get together and each gather 12 more, making a total of 144. Almost all of these entities gathered were later told in readings that they belonged to the Carmelites, a radical 16th Century band of disillusioned Catholics who felt the church was too self-serving and closed to the needs of a suffering humanity. There were two groups, which later splintered--"those who wore sandals" and those who didn't. The latter, in the manner of St. Francis, took off to serve humanity in the field, becoming involved in the more mystical aspects of Christianity at the same time. These entities would meet in secret in various places and listen to the words of Cosmic Awareness come forth from the channel of a wealthy lady shipbuilder whom Awareness later revealed was Ralph Duby in that incarnation. Pursued by the Pope's spies during the Inquisition because the church felt threatened by these entities, many were persecuted, tortured and murdered. There was much intrigue, infiltration and bids for power by entities involved in these groups, ending with a betrayal of a meeting scheduled to occur in Toledo, Spain wherein Awareness was to reveal much information to the masses which, at that time, could turn the course of history and uplift the consciousness of mankind. However, information regarding this conclave of Carmelites was given to the pope, and when these bands of entities, trooping to Toledo from all over Europe, arrived, they were slaughtered, tortured, burned at the stake and the entire Awareness Movement was destroyed and not able to surface again until 1963 when Ralph Duby again appeared as a channel for Awareness. Awareness later indicated that in addition to the important job of returning Rhyee to Essence, much heavy karma accumulated by the entities (formerly involved as Carmelites) needed to be worked out as these entities again assembled to resume the work which had been started (and ended) centuries before. Much of this information has been previously published by Organization of Awareness in past years and may again be published by C.A.C. at a later time, perhaps in a history of the Awareness Movement through the ages.

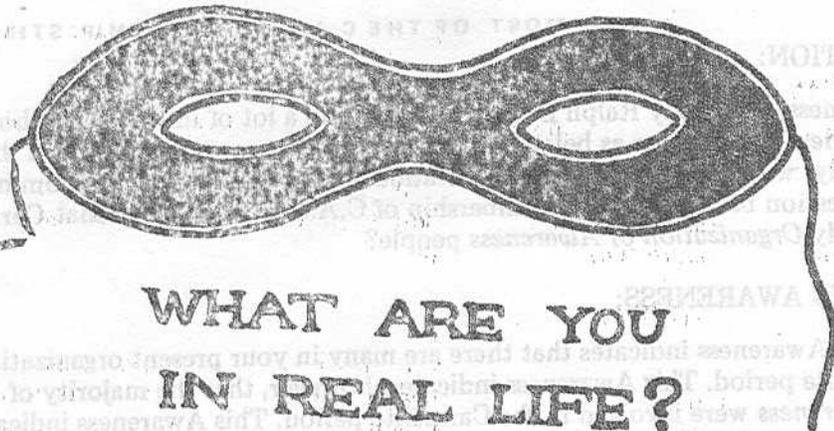

Evidently the karma of the Organization of Awareness membership was resolved among those entities involved. Awareness has indicated that those in C.A.C. are mainly Wanderers, who arrive on this plane karma-free, do not in fact create karma even if they fail in the job they had come to do. It is quite evident from the past participation of the C.A.C. membership that one of the main jobs they came to this plane to accomplish was to frustrate the long-term plan of Ahriman, the Anti-Christ, and his nefarious plan to enslave humanity. This force often referred to by Awareness as the Beast.

HOW YOUR AWARENESS IS EXPANDING

(Closing Message)

This Awareness indicates that *It* has given many messages to entities over many years. This Awareness indicates that some of these messages have raised questions; some of these messages have answered questions; some of these messages have led to disputes; some of these messages have raised conflicts which affected the lives of entities. This Awareness indicates that essentially, many questions are still left unanswered; many questions have been answered which have only led to greater numbers of questions to be answered.

This Awareness indicates that the general effect of all of this is that each entity who has been involved in reading these messages or hearing these messages, has been experiencing the openings of many doors within his or her consciousness, looking into rooms, conditions, situations, concepts, into new ideas, into different realms--all of which has been to expand the entity's awareness of *what is*. This Awareness indicates *It* has not necessarily answered anyone's particular question to the point where the entity knows everything and therefore needs not question any further; but *It* has assisted entities to discover what areas need to be questioned further and has shown entities that there are many, many areas in consciousness which can be looked at in great depth, which can be explored much deeper than has been imagined previously.

WHAT ARE YOU
IN REAL LIFE?

This Awareness indicates that fifty years ago, there was very little variation of thought in religious concepts: the majority of arguments being centered around a few words of scripture or a few minor concepts relating to scripture. This Awareness indicates that the confines of such discussions being most narrow, and the disputes being just as heated as any today. This Awareness indicates, however, now entities have a much larger field of religious concepts and ideas in which they may play, discuss, philosophize, argue or dispute with one another; and therefore, the consciousness level of entities has expanded in proportion to the number of concepts which have been added to that consciousness. Therefore, entities now may think on many varied things and discuss a wide variety of concepts, rather than being limited to certain refinements of a narrow viewpoint, which was so prevalent fifty years ago.

This Awareness mentions this to allow entities to see that, although things appear to be difficult in these times, there also is a change occurring whereby entities are, indeed, becoming more aware of the universe in which they live, and the consciousness of entities is expanding in many ways: through philosophies, religions, through communications, through drama, television, theater, through magazines, through the newspapers, through the experiences and the sharing of such experiences which occur around the globe, and through those theories in relation to the universe and its inhabitants. All of these as changing and expanding the field of consciousness in which entities may move their minds and conceive their images.
