Cosmic Awareness Communications

P.O. Box 115, Olympia, Washington 98507

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

What's Ahead In 1981 ?

(Opening Message, C.A.C. General Reading No. 1)

November 5, 1980

Paul Shockley

Trance-Interpreter

COSMIC AWARENESS:

This Awareness indicates that the intense energies upon this plane can be expected to continue through 1986 before a lull occurs, allowing the proper atmosphere for re-establishing and creating greater harmonious systems and balances of energies. This Awareness indicates however, that during the coming year of 1981, this adjustment begins to occur, wherein injustices which have long been held become likened unto tinderboxes, wherein these are ignited and the potential for balancing begins to occur throughout the year. This Awareness indicates this may be seen as webs holding the scales out of balance--these webs being ignited by the emotions and demands of the people who are being violated by these constrictions.

This Awareness indicates that entities looking for political changes as a result of the new political forces in the United States, will find a change in the national mood. This Awareness indicates this particularly experienced in a kind of new nationalistic spirit, wherein entities feel the nation is less chaotic and less scattered and more purposeful, even though the situations which are experienced may be equally chaotic or difficult, and in many cases, more difficult. This Awareness indicates that the feeling being that even though the difficulty is as great or greater, the purposeful guidance leading through those difficulties is in the hands of responsible leadership. This Awareness indicates that this as simply an attitude created by the energy field centered around the new leadership and their own manner of presenting the definitions and solutions to the problems.

More Support for New Administration

This Awareness indicates this has much to do with the mere tone of voice and deliberate speech presented by the new President, as opposed to the chitchat attitude of the outgoing President. This Awareness indicates that many entities are influenced by the slow, deliberate, deeper tones of a leader, feeling that it is a stronger baseline of thought and direction than from the entity who is amiable, light and friendly, but who does not have the deep strength of tonal quality in his voice. This Awareness indicates that this deeper strength in tone tends to cause entities to feel that their directions are more controlled and that the powers are more deliberate and less wishy-washy. This Awareness indicates that at this time, this is desired by the people of this nation. This Awareness indicates that, with this new atmosphere, the people will tend to be more supportive, for a time, of the new government, and will tend to be more hopeful in regards to the potential which this new government may bring. This Awareness indicates the very hopefulness and the support is that which can effect a sense of security and stability, which will be beneficial throughout the coming year. This Awareness indicates however, that the actual events of the coming year are not of any great benefit in the sense of better improvement, except in that the disruptions which occur may serve as catalysts for bringing about improvements at a later time.

This Awareness indicates that in terms of the potentials for the coming year, the conflicts which have recently been ignited--particularly in the Middle East---can be expected to continue, and there is great potential for it to increase, particularly beginning in late November or early December (1980) and becoming even more volatile in February, with more potential following through March; and again there is seen a time in mid-Summer for conflict. This Awareness indicates that these times appear to be relatively strong, particularly the beginning of December, the beginning of January, the beginning of February, and the beginning of March as being the times wherein foreign affairs become of significance in relation to potential danger concerns or potential violence.

Manhattan Earthquake May be Put Off

This Awareness indicates that, in terms of the potential earthquake in New York, the energies are such that this may be put off for purposes of timing, whereby the Russians who can, at their discretion, set this off at the most appropriate time for the benefit of their interests. This may occur as early as mid-November or near any of those other dates mentioned. This Awareness indicates there are seen very strong energies near the beginning of December, the beginning of January, and the beginning of February, wherein such events can become explosive, and major upheavals in social, geophysical and economic affairs may be highlighted.

This Awareness indicates that it appears that the time near the end of November and the first week in December as being a time wherein forces become highly charged with emotion and poor judgment. This may occur not only in the Middle East areas already under tension, but also in other areas, and may have effects in this nation to some degree also, irregardless of the potential for the New York earthquake. This Awareness indicates that the time of January 1st being that wherein more serious, but less volatile concerns may be felt, wherein greater material interests are expressed, rather than emotional violence or conflict.

This Awareness indicates that the first week, or early February, as that time wherein entities may witness much emotional and violent expression in various places throughout the globe. This Awareness indicates this including areas of South America, the East Coast of the United States, and into Canada. This including activities such as social conflicts, the government, or high-level conflicts among leaders, and the potential for geophysical conflicts, such as weather and earth shiftings. This Awareness indicates that this also may be felt in areas of Eastern Europe, Western Russia, down through the Middle East area, and into areas of Africa. In these areas, there appears to be potentials of greater violence, and less in terms of the mere upheavals in the political sense. This Awareness indicates that the degree of political conflict, as opposed to social conflict which results in physical action rather than in the mental or the structural upheaval, this as greater in the Middle East area than in the other areas mentioned.

This Awareness indicates that in the Western world, in the Americas, the energies appear to be such that the upheavals may in fact result in more of a scandal being played out on legal levels in Congressional investigations and having much to do with the business affairs, the Treasury Department, the Federal Reserve System, and individuals involved in the banking establishment. This Awareness indicates that this may relate to the efforts of Dr. Beter and the thousands of others writing letters in regards to the concerns over the missing gold in Fort Knox, the U.S. Treasury. This Awareness indicates that this may occur and begin to surface near that time of February 1981.

This Awareness indicates that as this appears to be the energy fields of the Americas, along with certain other political conflicts in both Canada, and in the Caribbean, in Venezuela, Colombia, and other South American countries during that time, there appears to be in Eastern Europe other types of expressions. This may surface in regards to further labor strikes such as in Poland; there appears also to be some effect in the Western part of Russia. This Awareness indicates that there also appears to be greater potential for expanding conflict in the Middle East area: this Awareness indicates that this potential reaches down through Israel and into areas of Africa. This Awareness indicates that still further, there appears to be a similar type of conflict energy during that time of February in the areas of Japan, and the Philippines. This Awareness indicates that entities may witness social and political upheaval beginning to surface, or some type of conflict in relation to the abuses of power, particularly in the Philippines.

This Awareness indicates that there is also seen a repeat of these energies in July (or near that time), but the area wherein these energies have their effects is not clearly seen at this time. This Awareness indicates that it appears to be of a somewhat similar nature, although not potentially as strong. This Awareness indicates that the energies triggered-off in February appear to move through February and March. This Awareness indicates that entities may expect startling news during those times mentioned. This Awareness indicates that between present time and the end of November, entities may witness the breaking down of many agreements which have previously been coming together; this Awareness indicates this also appears to relate to the hostage situation, which appeared to be reaching a kind of fantasy solution prior to election; this Awareness indicates that this illusion now will be evaporated, and the hard facts will begin to surface during the remainder of this month. This can begin to serve as another force which feeds the energies coming during the end of this year, beginning with the first of December.

The Tentacles of the Beast are Being Chopped Apart

This Awareness indicates that the forces which are controlling the United States as being in a movement at present which is becoming divisive. That it appears this force as coming into greater conflict as a kind of schizophrenia occurs within the Beast, and the schizophrenia as that which is resulting in internal fighting or competition. This Awareness indicates this as being carefully watched by the Skoptsis, and that these Skoptsis are, in fact, encouraging the schizophrenia.

This Awareness reminds entities that, in a symbolic sense, the Beast is the mind of man; and when an entity begins to let go of his ego-mind and let God have control, the mind must go through certain states of schizophrenia wherein it splits and separates into factions as it is dropped--the ego falls apart as the entity surrenders unto God. This Awareness indicates in the social, political, and economic sense, the Beast is that controlling ego of the culture, the power, the structure which holds the society together; and which claims power and does not give forth the recognition to a divine, but holds on to personal power as an inherent right for being all-powerful. This Awareness indicates that as this energy flows into the Spirit of God, it becomes necessary for that energy to go through the phases of social schizophrenia--of splitting up, of falling apart. This Awareness indicates that the factions which are being created among these forces of the Beast are, in one sense, a form of schizophrenia, such as when the forces of the divine chops off the tentacles of the Beast, separating the parts, so that their thrashing is without direction and guidance.

This Awareness indicates essentially, that is what is occurring at this time, in the sense that the Beast which was warned of in late 1978 readings by this Awareness is no longer the force and power it once was, and is being chopped apart; this Awareness indicates however, that this does not mean that it cannot be repaired. This Awareness reminds entities of the predictions in the *Book of Revelations*, wherein the Beast was mortally wounded, but regained its strength, and all were in awe of it. This Awareness indicates that this has many levels of interpretation, but essentially can be summarized as a symbol of the ego, whether individual or as a group or cultural ego, in which the ego falls apart, but re-assembles itself. This Awareness indicates this can occur with the social Beast which is in power of the economics of any country at any time; this Awareness indicates that therefore, it is necessary that entities remain ever and always alert and watchful, for liberty is that which must always require that entities care and protect the liberties given to them.

In 1981, What you Receive, you Will Have Earned

This Awareness indicates that, in terms of the economic trend in the coming year, this can be greatly affected by the possibility of war; for if war occurs, there may be some artificial stimulation brought on by massive production of armaments; this Awareness indicates that even the threat of war can bring this on. This Awareness indicates however, that barring this, and even regardless of this, certain energies are apparent: these as modified by the potential threat of war, but this Awareness indicates it appears that the

recession, (as it is called by the media), shall continue; that the unemployment shall continue throughout most of the coming year, improving slightly in the Fall. This Awareness indicates that this appears not to be much worse than at present time,--perhaps slightly,--and in some areas, perhaps slightly improving. This Awareness indicates that throughout 1981 entities may expect that whatever they receive, they will have earned--that many of the free handouts, the free-lunch programs, will be curtailed. This Awareness indicates this may continue for some time. This Awareness indicates that the economy cannot be expected to improve significantly until the Fall of 1981, when it begins to show signs of coming out of its present conditions. This Awareness indicates that the unemployment can continue some time after the signs of recovery in the economy. Therefore, those entities who are unemployed during this time may not expect any great relief throughout the coming year. [This Awareness indicates that this in a general sense, rather than for individuals to apply to their own life--for each individual has free will and his or her own potentials for overcoming general hardships.]

The Economy in 1981

This Awareness indicates that in terms of the areas of the economy, from present time up, through, to the end of Summer, entities may expect certain areas of the economy to suffer more than others. This Awareness indicates this may be reflected in the stock market, also. This Awareness indicates that the areas of most benefit and continued growth are as follows: This Awareness indicates this includes earnings or benefits made from food, communication and its systems, gems and metals; that the metal industries and the automotive industries will be seen improving during 1981 with greater strength and gains, energy systems will continue as beneficial areas of profit; textile industries will not be of particular benefit, nor suffer greatly. This Awareness indicates that the high-technology areas, such as the silicon chips and the manufacture of modern office equipment and the genetic engineering experimental areas, are also seen as profitable.

This Awareness indicates that food prices may be expected to rise considerably; that many of the government payroll jobs and the bureaucratic types of occupations will begin witnessing the early cutbacks in certain areas as the new President begins to trim down the budget. This Awareness indicates this will not be apparent to many in terms of their personal incomes until later in the year. This Awareness indicates that areas which are dubious in terms of investment of time and energy are those relating to the banking system, which will undergo much change; the stock market itself may be expected to undergo a major change near the end of 1981: this may be in terms of policy, or in terms of some other type of upheaval; this Awareness indicates that this could occur earlier, in the event of the potential earthquake in that area.

This Awareness indicates that legal affairs, laws and legislation may be 'put through the wringer' this year, whereby changes occur in so many areas, or backlogs occur in so many areas, that the operations become constipated, the judicial system becomes constipated and ineffective until a proper laxative is administered, in terms of the laws. [The levity being such that it may break loose much of this stifling in terms of the social and legal influences.] This Awareness indicates that areas such as this can affect the professionals, such as lawyers, judges, and individuals who are relying on legal assistance. This Awareness indicates that this also may have effects on businesses, in terms of their legal and structural affairs; this also appears to reflect somewhat into the area of taxation.

This Awareness indicates that other areas which appear to be hindered greatly during the coming year, are in the areas of banking, particularly relating to not only banking methods, but also into the mortgage rates and its effect on the individuals, such as in building and in construction operations. This Awareness indicates that new home building will again be stifled during the coming year, that entities may become involved in remodeling and renovating older places successfully during this coming year. This Awareness indicates that the building of new homes, being somewhat curtailed, will also influence and hinder much of the lumber industry and also the household furnishing and manufacturing businesses.

This Awareness indicates that foodstuffs will continue to rise in value, partly because of the continuing energy crunch and cost of raising the foods. This Awareness indicates that there will be seen certain problems in restaurant business and in hotel business, as the clientele and customers are not so responsive to these businesses as in the past. This Awareness indicates that the cost of travel hindering these, as well as the increased cost of vacationing.

This Awareness indicates that the clothing and textile business appears to remain approximately the same during the coming year. That many schools and those operating in the educational field will notice certain restrictions during the coming year, particularly in the lower schools, the grade schools, and to a lesser degree, in the high schools. This Awareness indicates that the colleges appear to remain the same. This Awareness indicates that in terms of transportation, entities may expect continued efforts in cities to build local transportation systems; that entities investing in, or becoming involved in these kinds of activities may benefit during the coming year.

This Awareness indicates that in terms of the overall, global effect of energies during the coming year, entities may expect turmoil in various places throughout the world, which can in places become extremely violent, and entities in those particular areas will feel that they are experiencing Armageddon. This Awareness indicates that even as this occurs, other areas will be peaceful and calm. This Awareness indicates that this as part of the tinderbox, the balancing of the injustices, which have long been built and building in various places upon this plane. This Awareness indicates that it does not necessarily end with the coming year, but more reasonably, it begins in this coming year of 1981.

This Awareness indicates that any questions relating to this message may be asked at this time.

CHANCES OF NUCLEAR WAR DECREASING IN 1981 (U.S. Technology 20 Years Behind Russia)

QUESTION:

Does Awareness see the diminishing of the possibility of nuclear war in the coming year, as compared with the energies of this last year?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates however, that there still appears to be strong efforts to create a nuclear war, although the potential for doing so is diminishing greatly. This Awareness indicates that this potential is being diminished because of the super-weapon system, basically, of the Soviet Union, which is capable of making nuclear war impossible to carry out. This Awareness indicates that these super military weapons extend beyond nuclear technology by approximately 20 years of effort. This Awareness indicates this in terms of the electromagnetic energies and psionic warfare, and the geophysical warfare techniques which the Russians have developed during the past 20 years, while the United States was concentrating mostly on nuclear hardware and similar, related weaponry.

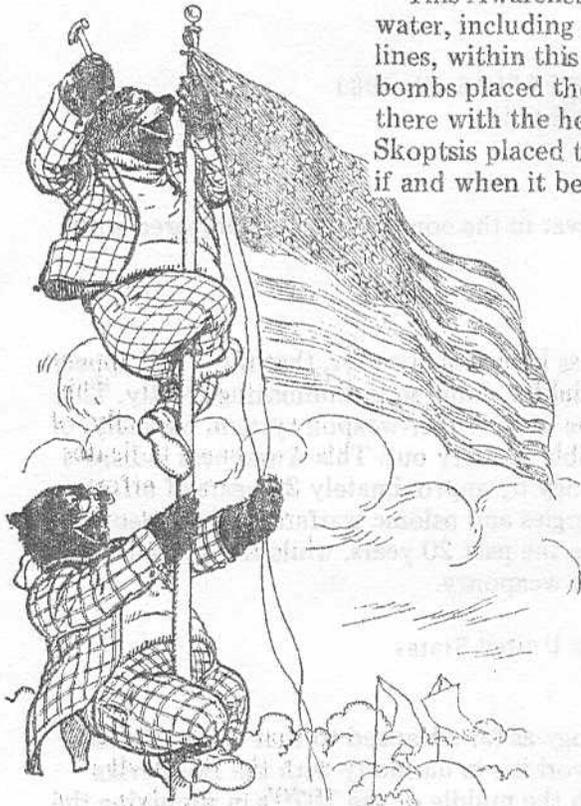

The Rockefeller's Plan to Conquer the United States (A recap by Cosmic Awareness)

This Awareness indicates that essentially, the Russian technology as far advanced to that of the United States, mainly because of the efforts of the Rockefeller powers working in harmony with the Bolsheviks from approximately 1945--(between 1945 and 1950)--up through the middle of the 1970's in supplying the Russians with all of our latest advancements in technology, while curtailing this information to the American society and engineers. This Awareness indicates that wherein certain inventions were brought out in the United States, these were often stopped from production by the power invested in the Rockefeller brothers through their various agencies, and this prevented these areas from being developed in the technological sense of this society. This Awareness indicates meanwhile, this information was sent to Russia for development. The reason being that the Rockefellers were planning to have the Russian Communist nation,(ruled by Bolsheviks which had set up the Russian Revolution in 1917, financed from the Chase Manhattan Bank), to return to this country and conquer it in a similar fashion, as they had conquered Russia. This Awareness indicates that this nation had already been divided into ten Regions which would later be termed the 'Newstates of America'. This Awareness indicates that these ten Regions as being likened unto the Soviets in Russia. That this also included the new Constitution which the Rockefellers had assisted through the Ford Foundation and its work in Santa Barbara, whereby a new Constitution for this country had been drawn up. This Awareness indicates that this Constitution being very similar to that of the Communist nation in the Soviet Union.

This Awareness indicates that this plan of the Rockefellers having been thwarted when the Skoptsis took over in Russia in 1975 and through '77, beginning their massive effort to drive out the Bolsheyik element. This Awareness indicates that this as being more fully explained through the Dr. Beter Audio Letters. This Awareness indicates that it is for this reason that the Russian Skoptsis at this time have greater power over the United States through these super-technology weapons.

This Awareness indicates that essentially, the ability for the United States to make war against the Skoptsis at this time is so remote that it becomes almost absurd for entities to consider the action--yet, many entities in the United States still live in the illusion that "we are the strongest nation in the world, and that the right to make war as we see fit, is ours." This Awareness indicates that entities believing in such nonsense are, in fact, endangering the lives of everyone here. This Awareness indicates that the Skoptsis, with the help

of the Rockefellers and their followers in the past, did in fact set up this nation to be taken over, but wherein the Rockefellers are now eliminated, and the Bolsheviks from Russia have moved into this nation and are, in part, running the activities, along with the major oil companies and the remaining Rockefeller powers, and wherein these two factions are beginning to fight among themselves, but wherein these factions are still seeking power and would attempt to promote various types of war-making activities in order to gain such power, the entities are in fact overshadowed greatly by the power which now is in the hands of the Skoptsis.

This Awareness indicates that within approximately every large body of water, including rivers, lakes, and bays and around certain areas of the coastlines, within this nation near nearly every major city, there are hydrogen bombs placed there by these entities--the Russians--which have been placed there with the help of the Rockefeller brothers back in 1977, wherein the Skoptsis placed these in various places to be used for blackmail of this nation if and when it became necessary, with the assistance of Mr. Kissinger and the

Rockefeller powers, who were tricked into assuming that the Bolsheviks were still in power in Russia and that they were assisting Rockefeller and their forces to take over this country and set up the new Communist Constitution. This Awareness indicates however, that the Skoptsis, while playing along with the Rockefeller powers, were in fact setting up this trap,--not against the American people so much as to trap the Rockefellers and their followers and the Bolsheviks in the trap which was being set for the American people.

This Awareness indicates that these Skoptsis now have control over these areas and can, in their own way, in their own convenience, use or not use these forces, as they choose. This Awareness indicates therefore, the concept of the United States being a super-power capable of effectively conducting a nuclear war against the Soviet Union, is somewhat of an illusion; for in this one area, the United States could be totally obliterated by hydrogen weapons. This Awareness indicates that, likewise, the

super-technology of the Russian Skoptsis at this time is such that very few, if any, of the American-made nuclear weapons would ever reach their targets.

This Awareness indicates that, although nuclear war is not likely to occur, entities can, however, expect geophysical and particle-beam warfare and conventional warfare may in fact be witnessed. This Awareness indicates this may also include continued weather warfare. This Awareness indicates essentially, these elements of warfare are already in use, have been in use for some time, and will continue to be in use--although many entities are not presently aware of this war which is occurring.

WHY THEN BLOW MANHATTAN AND THE CASCADE MOUNTAIN VOLCANOS?

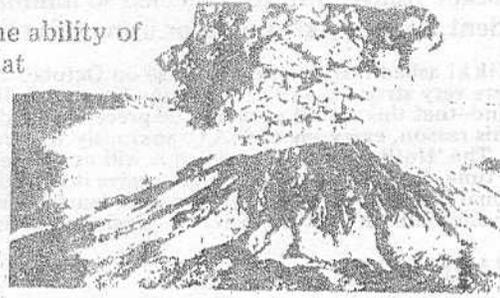

QUESTION:

Awareness, in light of what was just stated in reference to the super-technology of the Skoptsis and the fact that they could render helpless the American war rockets etc.; one thing that is not clear to me, which does not make much sense, is: why then, having this power, would it be necessary to eliminate Manhattan or set off the chain of our mountains out here to create such hardship and devastation?*

(ED's Note: this editor asked this particular question almost in anger. Having witnessed the recent devastation of Mt. St. Helens, the idea that these entities could set off Mt. Rainier, Mt. Adams, Mt. Baker, Mt. Hood and other Cascade Mountain volcanos right here in our own backyard really raised the blood pressure. This is an incredibly beautiful mountain range and full of memories of many picnics, skiing, hikes through virgin forests and fishing the pristine lakes and rivers. Only the natives around here, who have viewed firsthand the unspeakable devastation the Skoptsis created when they blew St. Helens, realize what a tragedy it would be if even one more mountain would explode. (These are Christians?) And 12 million people in N.Y.? (Both Dr. Beter and Awareness, in earlier readings, had indicated Russian Cosmospheres with particle beam weapons were hovering over these mountains, waiting for orders to detonate them. Radar units in Portland, Oregon, detected one over Mt. Hood, but the authorities said they did not know what to do about it. (Neither do we). It just seemed to me, however, that for a bunch of eunuchs, those Skoptsis sure seem to have a lot of balls.

COSMIC AWARENESS:

This Awareness indicates this as an action of weakening the ability of America to initiate a first strike. This Awareness indicates that were they to sit back and do nothing except wait for that first strike and then defend themselves, these entities might be allowing for a greater build-up of such forces and allowing more time for more super-technology to be brought to bear within this nation, as it prepares more frantically for a future war. This Awareness indicates that these entities, the Skoptsis, recognize the ability of the United States to rally in its technological areas, to industrialize quickly, and to build very quickly war-related machinery and weaponry which can become powerfully effective, and this Awareness indicates these entities are in fact racing against time to prevent the American technology from catching up with them and being used by the Bolsheviks within this country, (and others), to make war on Russia.

This Awareness indicates that these Skoptsis recognize that within but a very short time, the United States will have the particle-beam weapons, will have death rays, will have other types of highly advanced technologies which can be used to counter the super-weapons which the Russians now have. This Awareness indicates therefore, they are quietly, though skillfully, attempting to demoralize the powers in this country in every effort they make to exert power of a military type, and are in fact patiently reprimanding, rather than aggressively destroying the powers in this country which would threaten them. This Awareness indicates that essentially, while the Russians have the capability of totally obliterating this nation, suffering very little damage, if any, themselves, they are attempting to avoid causing massive death among the people, whom they recognize as being duped by their leaders. This Awareness indicates that these Skoptsis also remember that they, too, were duped by the Bolsheviks who entered into their country in 1917. This Awareness indicates therefore, they do not hold grudges against the American people, but are simply attempting to defend, and prevent the Bolshevik forces in this country from using its massive power against the Soviet Union and from building up greater powers to use for violent purposes.

This Awareness indicates that the Skoptsis are not to be thought of as divine forces, for these entities are human beings and have their own limitations also. Therefore this Awareness suggests that you not attempt to judge these entities as you would judge a Messiah or a Redeemer, and criticize these entities for not being more holy in their attempts to prevent the Bolshevik attack upon their country; this Awareness suggests you judge these entities (if you must judge at all) with the same kind of rules which you would use against the Bolsheviks in judging them for their motives and methods. This Awareness suggests however, that you not judge at all—that you simply discern what is occurring in this action, as one would observe and discern the elements of a chess game, without assuming one is bad and the other is good.

This Awareness indicates that the moralizing in this sense can take away the objectivity of your discernment; that wherein you discern objectively, without moralizing, this can allow a clearer understanding of the facts. (This Awareness indicates that *It* is not intending to imply that entities should not have morals, and that there is nothing wrong with immoral actions; *It* is rather implying that you need to look at this action objectively, without the moralizing, in order to see what and why these entities are carrying on their methods in the way they are.) This Awareness indicates that you may also ask the question in a moral sense: why aren't the Skoptsis more spiritual and more intelligent and more capable of rendering the Bolsheviks harmless without all this violence? This Awareness indicates that in this sense, you are asking a moral question, and moral questions allow morality to enter. Therefore the objectivity is shifted to include a moral concern, and you may still remain objective while asking a moral question.

WHY NOT HIT THE BOLSHEVIKS IN THE PENTAGON ?

(Where are the Robotoids now that they we need them?)

QUESTION:

It just seemed to me that it would make more sense if they concentrated on, say, eliminating those entities in the Pentagon, by one way or another, which I imagine is where most of the power of the Bolsheviks is concentrated, rather than removing something like Manhattan Island or blowing up our mountain ranges.

QUESTION:

Since the Cascade Range eruptions seemed so imminent two weeks ago, and now that two weeks have passed with no incident, has the likelihood for using this target lessened?*

ED's Note: Vikki asked this question because on October 22, Awareness indicated in a reading (not yet to be released) that the energies were very strong in the next coming two weeks that the Skoptsis would detonate the 80 bombs placed around Manhattan Island--that this would probably be preceded by the Cascade chain of mountains suddenly erupting (as a diverting action). For this reason, everyone at C.A.C. anxiously was watching Mt. St. Helens and Mt. Rainier, both of which are visible from Olympia. The 'Hotline' reading about this will not be released unless Manhattan Island actually experiences an earthquake. At that time, CAC members will then receive it and still have time to plan their lives when this action brings down the so-called 'National Emergency' powers of the Presidency. (We hope none of you ever will have to receive this reading). However, if Mt. St. Helen should have another violent explosion, this time with lava flows, it probably means Manhattan is about to blow.

COSMIC AWARENESS:

This Awareness indicates that the potential is still present. This Awareness indicates that this centers now in the area around Seattle, the major mountains in this area. This Awareness indicates that essentially, this as another diversion-type of activity as a potential option which can be used, depending on the need. This Awareness indicates this alternative is such that it may be implemented at any time when war is threatened by the Bolsheviks, in an action designed to prevent the West Coast, particularly the areas here in the State of Washington, from being effective in their ability to support the war efforts if it should occur. This Awareness indicates that this also as being an option or alternative, whereby the Skoptsis, if deciding to implement a surprise attack on the United States for its policies, could do so in a manner which appeared natural, as if conditions of the earth were revolting against the American people. This Awareness indicates that essentially, the problem which the Skoptsis are facing is that their high technology is quickly becoming public, and it is only a matter of time before the American people will recognize that they are under attack by these Skoptsis and are, in fact, in war with Russia. This Awareness indicates therefore, the Skoptsis are attempting to move quickly to minimize the power of the Americans and their Bolshevik rulers to make war against Russia. This Awareness indicates that they not only are moving quickly, but wish to move secretly, so as not to be discovered in their actions. Therefore, the efforts being done through that which appears to be as accident or natural causes, or acts of nature.

QUESTION:

Thank you. Does Awareness have a closing message?

COSMIC AWARENESS:

This Awareness indicates in the *Book of Revelations* there is a discussion of one who comes on a white horse. This Awareness suggests that you read this, and consider this as a possible symbol, symbolizing the activities and nature of the Skoptsis. This Awareness indicates that, naturally, this white horse of *Revelations* can have many different interpretations and symbols, and this is not the only interpretation. This Awareness indicates however, that in reading this passage, you may see many similarities to what is occurring today.*

*Rev. 19:11 'And I saw heaven opened, and behold a white horse; and he that sat upon him was called Faithful and True, and in righteousness he doth judge and make war.'

ED's Note: there's more, and you should read it yourself. The horse, according to Zechariah, symbolizes the 'spirits of the heavens, which go forth from standing before the Lord of all the earth. Faithful and true could well describe the Skoptsis, who are fanatical Christian fundamentalists, so dedicated to their work that they must undergo the ritual of castration: this to keep the temptations of the flesh from interfering with their divine work. The white horse is also a symbol of triumph and power. Successful generals rode in triumph on white horses. White also represents the simple faith and trust of those who accepted the baptism of the Spirit in its purity. A crown denotes victory.

** Seattle is a prime target due mainly to the sprawling Boeing complex, which makes the bombers and missiles for the U.S. war machine. It is also working on laser-beam and particle-beam weapons and cosmosphere-type aircraft, similar to what Russia already has. Nearby there also is the new Trident missile submarine base; Ft. Lewis, the largest military installation in the U.S., McChord Air Force Base and the huge Bremerton Naval shipyards to name a few reasons why it now makes sense to this editor why the Skoptsis would blow our volcanoes nearby.

THE SKOPTSIS--THE RIDER ON THE PALE HORSE IN 'REVELATIONS' ?

COSMIC AWARENESS:

This Awareness indicates that these entities are, in fact, covering many areas as targets. This Awareness indicates that it must be remembered that targets such as a mountain or an island are often much easier to hit than a particular individual who moves from place to place; for it requires a stalking action of an individual to locate such. This Awareness indicates that likewise, an attack on the Pentagon would obviously trigger war, whereas a geophysical attack would appear to be enough of a possible natural origin that it could remain hidden as to who caused the action. This Awareness indicates that this allows for a kind of sneak attack, deceptive attack, or a kind of attack which is not overtly recognized by the masses as an act of war, and therefore does not trigger or incline the masses to rally around the flag and attack that nation which brought on this action. This Awareness indicates that a direct attack against the Pentagon, on the other hand, would in fact tend to lead to such reaction by the masses.

QUESTION:

Well, the Skoptsis were successful in removing Presidents and high government officials in the past and replacing them with doubles and Robotoids. What particularly is the problem in them not replacing these entities in the Pentagon who are the basic problem?

COSMIC AWARENESS:

This Awareness indicates this as a matter of security. This Awareness indicates that the Skoptsis having accomplished this once with a secret weapon, the Robotoid, then became victims and were replaced by Synthetics, and they no longer have the element of surprise of this secret weapon whereby they could accomplish this same action again. This Awareness indicates that, obviously, when a particular secret weapon is used, it is no longer secret once it is discovered, and then actions can be taken to prevent its re-occurrence. This Awareness indicates that the Skoptsis do not dare risk a similar action under the present conditions, after having lost all of their forces in the previous effort. This Awareness indicates that these Skoptsis and their Robotoids having been destroyed at Camp David and replaced by the Bolsheviks and their Synthetics; that this was a lesson for them, that even if they did take over the top echelon of a pyramid, the requirements of controlling the rest of the pyramid were such that it could not be handled without greater force.

This Awareness indicates that essentially you may ask yourself the question: How would you like to be involved in a task force designed to enter into the Kremlin and replace the heads of state in that country with doubles, after having attempted this once before and having lost a large number of your best forces in so doing? This Awareness indicates that obviously, under certain circumstances, this might again be attempted; the circumstances would need to be in their own favor before they would attempt the action again. This Awareness indicates that the previous action in April and May of 1979 was an action of desperation, for this was an action which they felt would prevent the nuclear war from erupting--and which, through their efforts, created a change in the tone of the voices of authority in this nation which were building toward war and suddenly took a turn in June of '79 to discuss the SALT treaties and peace. This Awareness indicates that this de-fused the bomb which was being lit to start the nuclear war I. This Awareness indicates that to use the same methods in present times without having other backup forces, such as the potential to blow up Manhattan Island or other cities, would be, in the minds of these entities, pure folly. This Awareness indicates that they have the ability and the weaponry in place to blow up Manhattan Island; they have the option not to do so, while retaining also the option to do so. This Awareness indicates that this option is what is important to them.

ED's Note: After printing this reading it was discovered your faithful editor goofed and forgot to include this page. By calling this page 7A, the reading is now complete and in proper sequence. It concludes on the back page with the Closing Message about the 'Book of Revelations'. Since there is space left on this page and the back of it, I shall label the back page 7B and add some additional info on these topics from a previous reading. (Avaton).

FORCES BEHIND THE SCENES (Opening Message from C.A.C. Gen. Reading, October 11, 1980)

This Awareness indicates that there appear at present to be certain forces which are operating and in motion which have been indicated previously whereby certain consciousness management techniques are being used for purposes of influencing events. This Awareness indicates that the activities in the Middle East are continuing at this time and may be expected to increase to greater intensity before a temporary release. This Awareness indicates that likewise, entities may watch certain diplomatic moves which can be utilized during these times by these consciousness management techniques, whereby the release of the hostages held there may occur in a timely manner which could be of great political advantage to the incumbent Presidential administration.

This Awareness indicates that there are also other moves and actions occurring behind the scenes which are of a much more volatile nature and which are playing for even greater stakes, whereby a more powerful event is prepared for the conflicts which are in motion between the super powers. This Awareness indicates however, this event prepared for possible detonation is also dependent on responses, responsibility and potential negotiations of a secret nature, which may preclude the event altogether. This Awareness indicates that the determination of whether this occurs or does not occur will, in all probability, take place before this message reaches the hands of the readers. This Awareness indicates that this is in relation to the potential earthquake in the area of Manhattan Island. This Awareness indicates that there are also other forces in movement which are creating very rapid changes in terms of the power struggle which has been occurring during the past three to four years behind the scenes in an intensified manner, and it appears that this increase in the stakes of the games and the energies involved in the management of forces has accelerated greatly during the past few weeks and will continue periodically for some time to come. This Awareness indicates

that at present, the focus and attention needs to be centered in the area of the Middle East, and whether this becomes resolved within the coming weeks, for this as closely linked to other potential events. This Awareness indicates that wherein a resolving of hostilities in this area can occur, then there will be a lull of a temporary nature and other events will not be triggered; whereas if this area intensifies, entities may expect a number of increasing chaotic conditions in the various countries of Europe and the United States in particular.

This Awareness indicates that essentially, the actions which are occurring are eliminating and destroying certain boundaries or barriers which prevent communication and future relationships from being established, and though these barriers are being torn down by sometimes violent means or forcibly broken by extortion or blackmail purposes, these barriers once removed, lead entities one step closer to the possibility of a lasting peace. This Awareness indicates that It prefers to see such steps being taken on a very gradual set of increments, rather than through violent discharge of energies or great shocking movements in the history of nations. This Awareness indicates, however, that the potential and tendency of evolutionary growth is such that often only a shock can allow the proper movement of consciousness to its developed potential.

QUESTION:

MORE ON THE MIDDLE-EAST WAR

Awareness, Dr. Beter reveals on his latest tape that the gold which was stolen from Ft. Knox some years ago by the Rockefellers has now found its way into Europe and on to the Middle East. A deal has been made that this gold bullion, worth literally billions, will be traded to the country of Iraq if it will absorb Iran, then give to the Rockefeller oil companies once and for all permanent ownership of these oil fields--or something to that effect. The financial papers have confirmed that in the past months, several tons of gold bullion has moved from Switzerland to the country of Iraq--this bullion worth billions of dollars. My question is: if all of this has been set up so carefully, then these powers must be very sure that Iraq is going to win this war with Iran and somehow either destroy it or merge with it. Does it look like this can actually happen without the major powers stepping in?

COSMIC AWARENESS:

This Awareness indicates that it appears that this cannot possibly occur without the destruction of the powers which are bringing the Iranian forces into this action.

QUESTION:

The Spotlight newspaper which just arrived this week with the date of October 24th reveals that over 1000 American ground forces and hastily-disguised American aircraft are involved in the war in the Middle East and bombing nuclear plants etc., and they call it another covert Bay of Pigs operation and are certain that this is the beginning of really heavy American involvement in an expanding war that could lead to major holocaust proportions. Does Awareness....

COSMIC AWARENESS:

This Awareness indicates that this appears to be an intensive effort on the part of these powers which Dr. Beter has informed the masses about, those which he refers to as the Bolsheviks. This Awareness indicates that this appears to be an extremely powerful effort, well-planned, well thought out, which bypasses the government of this nation, the United States, but with the awareness of the government; whereby the government can appear to make certain deals with the Iranian forces and can appear to be in opposition to the Iraqi forces, to negotiate for the release of the hostages, and to further have negotiations on other topics and offer assistance to the Iranian government to combat the effects of the Iraqi actions or to assist in influencing negotiations between the two nations. This Awareness indicates this allows the United States government to have its right hand in the pie, while having the secret Bolshevik government manipulating through the Iraqi force with a left hand, even though these may be receiving directions from similar planning and advisory origins. This Awareness indicates that this as fully understood by the Russian forces. This Awareness indicates that the terminologies of nationality are becoming increasingly difficult in explaining world events, because the nationalities involved are but the facade or front for the secret forces and actions which are occurring. This Awareness prefers to use other terms to explain the scenario of events:

This Awareness indicates that, for example, there are many very loyal Americans and many involved in high places of government who are in total and complete cooperation with many of the Russian agents and government members; there are also many entities of the British forces and Secret Services who are operating and in cooperating with the loyal American and the Russian forces--these entities being concerned about the welfare and growth and the potential peace upon this planet. This Awareness indicates that these entities also as concerned about the efforts of the Dark Forces to conquer and overtake this planet. This Awareness indicates that while this force, which may be termed the Light Beings, is made up of many different nationalities, there is also the force of the Dark-beings, which is made up of different nationalities, and these entities wish to take control and power from the hands of governments and the masses, placing this power into the hands of their own, so that they can better manipulate the masses. This Awareness indicates this, again, relates back to previous readings given regarding the Orion Empire and the forces known as the Alien Force. This Awareness indicates that apart from these forces of international levels known as the Light Forces and the international entities involved in the Dark Forces, there are also those which are somewhat of a neutral or non-involved status, these creating the various governments of different nations, which are living under the illusion that the governments, in fact, are in control of their own sovereign actions and are victimized or influential in terms of world events. This Awareness indicates that this is the part which is publicized through the news media, and the battles between the forces of Light and the forces of Darkness, which occur behind the scenes, are seldom brought out for entities to observe.

This Awareness indicates that essentially, it is a clearer definition to describe the actions occurring in the Middle East as being such that it is manipulated by forces of the Darkness, those of the Bolsheviks, who were involved in setting up the situation in Iran and also in the action which may remedy that situation--the invasion of the Iraqi forces into Iran. This Awareness indicates that these Dark Forces, in carrying out this type of action, are attempting to have enough influence in the area as to gain control there and also to use this as a springboard for rallying support, which may come on a very gradual basis, if it comes at all, to involve more and more energy into the Middle East conflict, or which may also be used to stabilize certain types of agreements in the Middle East to assure that the control is gained without the warfare. This Awareness indicates that the object is not just to create war: the object being to gain control one way or another. This Awareness indicates that likewise, the forces which are attempting to block this action, this plan, are preparing for the possibility of the worst that could occur--an all-out war--and are also becoming more determined to end the efforts of the Dark Force to make its war or gain its power through warlike actions; and this Force of Light is at a point of intensity where it is zeroing-in on the very heart of darkness, and if this does not change its ways, the heart of darkness may be surgically removed from consciousness by events which will astonish everyone. This Awareness indicates that the likelihood is that this will not be necessary, but the potential is there. This Awareness indicates that that island which was purchased for a handful of beads may, if the Dark Forces do not change their momentum and movement, may indeed, be left as but rubble, with the remnants of a bright and glorious history signifying a tale told by an idiot, full of sound and fury.
