COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

WHAT'S AHEAD

FOR THE

AQUARIAN CHURCH

C.A.C. AND THE

COSMIC AWARENESS

CREW ?

(From a C.A.C. General Reading)

November 6, 1980

Paul Shockley, Interpreter

QUESTION:

Last night, Awareness gave a general view of what's ahead in 1981. Would Awareness please indicate if there is any problems in store for the Aquarian Church or C.A.C. in the forthcoming year, particularly in light of the new Administration and relative to information that we are putting out? And also, any other suggestions It might have so that the service can be expedited or increased to the membership?

*'Revelations of Awareness' No. 81-1 (What's Ahead in 1981), \$3.00

COSMIC AWARENESS:

This Awareness indicates that it appears there will be less intensities in regards to these organizations during the coming year. This Awareness indicates it appears that the energies surrounding the lawsuit against the Aquarian Church are now diminishing, that much of that force which was attacking the Church has diverted its attention elsewhere, feeling it has sufficiently damaged the Church and to weaken its performance, allowing the energies to be turned elsewhere. This Awareness indicates that the entities involved in the lawsuit against the Church appear at this point to be questioning their position more than previously, as the energies begin to indicate a lack of support for their position. This Awareness indicates it appears that this will begin to turn more favorably toward the Church within a few weeks, or before the end of the year.

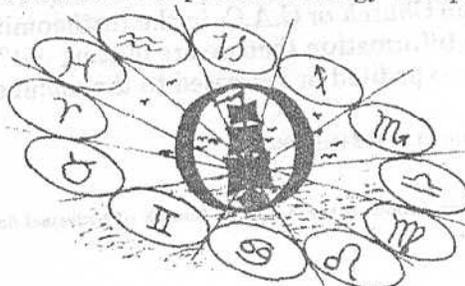

This Awareness indicates that there appears to be some potential, (although this appears to be quite slight,) for possible threats or possible intensive energies against *Cosmic Awareness Communications* at some point in the near future, this appears to be aimed at the Spring quarter or early summer. This Awareness indicates that this energy seems to be hovering, not manifested at this point, and the direction of its activity is not clear. This Awareness indicates this appears to be an attack prepared by the Alien Force energies, but appears to be very weak in terms of the kind of energy available for its efforts. This appears to be much more weak than that which was directed against the Aquarian Church; this Awareness indicates this being approximately one-fifth of the energy.

This Awareness indicates it does appear that it could manifest in some trouble and time-consuming expenses to the organization, if indeed, it is allowed to manifest. This Awareness indicates, however, that with proper protection and attention and careful examination and discernment, this can be avoided altogether, as there is still plenty of time for the further questioning and exploration of the nature of the potential. This Awareness suggests that the entity Sam Millar in his Tarot readings can be consulted from time to time regarding this potential.

This Awareness indicates that, in terms of the service available to the membership, this Awareness indicates that it appears that in regards to the coming times, intensities which may occur externally in the world as indicated in the 1981 predictions given by this Awareness yesterday, that these events will powerfully overshadow the messages which are being released through this organization, and entities who are presently receiving information from this organization will continue, in general, receiving guidance and information through this source and through others which are and have been referred to.

This Awareness indicates also the SPIRAL organizations appear to be relatively safe. This Awareness indicates, however, that there does appear to be a potential within this country for national emergency efforts to be implemented which, in turn, could create dictatorial concerns or situations which might temporarily curtail communications of this sort. This Awareness indicates it appears this is very unlikely, as even though the efforts may be made to set up a kind of national emergency dictatorship, that it would be very short-lived, and that it would be essentially impossible to enforce, due to internal distrust of the government and also the external forces which would have influence on the affairs of this nation. This Awareness indicates, therefore, it appears that, even in the unlikely event that this occurs, it does not appear to be a major threat to the organizations associated.

This Awareness indicates that there does appear to be a time where a less frantic and more solid approach to building the foundation and membership of this organization, and particularly in terms of the Aquarian Church, throughout the year of 1981, this as becoming more solid and energized. This Awareness indicates that this requires a greater sense of the steady hand, wherein less radical movements, statements, activities, and less weaving back and forth or vacillation becomes necessary, whereby greater attention is put on the purpose and direction, discerning clearly and more cautiously what is, so that the alarms are not triggered as often, and a steady move forward in time and space and energy is implemented, as the organizations build with greater solidity.

This Awareness indicates that the Aquarian Church has been under severe stress from the time it first began, having barely been incorporated before forced into service, having been launched before any of its holes were patched, having been on the verge of sinking almost from its inception, having been asked to create charters and give service in various ways when not having crew or supplies, having been involved in assisting and launching other ships such as the Goodship, the Scholarship, and the various other departments of the Church, when in fact the Headquarters Church itself, the Mother Church, was not operational; this Awareness indicates that essentially, it was pressed into service without being seaworthy. This Awareness indicates that now it is beginning to float, the flooding is subsiding, holes are being patched, and its hull is being restructured, repaired, and it appears that within the year 1981, it shall become seaworthy. This Awareness indicates that there are also entities who have volunteered help, time, talents, and some energies toward this support.

This Awareness indicates that in terms of the Scholarship, the Peace College: it appears that this also is beginning to move toward greater success, that there are still many problems to be solved, but wherein one year ago this project was sinking and its SOS was unheard, today it is afloat,--listing somewhat,--but moving toward shore for proper repairs, restructuring, and to be made seaworthy within a reasonable time.

This Awareness indicates that the Readership (*Cosmic Awareness Communications*) has far outstretched the rest of the fleet in its move through the Passage Perilous, through the dangerous waters, and has proven the path to be one which can be navigated as entities move toward the Source. This Awareness indicates that this ship as strong, the membership or readership as being seaworthy veterans, these entities having great courage, integrity, and spiritual strength, able to respond to crises, able to respond to emergencies, generous in their energies--these entities generally as a crew to be proud of in every way. This Awareness indicates that these entities as having effected, to some degree, a change in the course of history, even though the story may never be told in public affairs or history books. This Awareness indicates that the action being that wherein the crew knows what occurred, and others know what occurred, even though it may not have made the wide screen or newspapers.

This Awareness indicates that this crew of the Readership as that which is of great strength to the Forces of Light, which is being watched and which is under special grace from the Forces of Light. This Awareness refers entities to a vision of Elizabeth Clare Prophet,* printed in her predictions for the 1980's, in which she describes a clipper ship which she saw in a vision, guided by the hand of God, moving through a very narrow passage, which she felt would be disastrous and impossible to navigate, and yet somehow it makes it through; and this an action by which humanity is symbolized, and somehow humanity make it through, into the Golden Sea. This Awareness suggests entities recognize this passage by this channel as being very familiar to the activities of the Readership and of the fleet of these forces of this Awareness in its voyage into and through the Sea of Consciousness.

This Awareness indicates that this fleet, and all of these Ships of the Aquarian Church and *Cosmic Awareness Communications* shall pass through that Passage Perilous, and each individual aboard, searching for the depths of his or her own soul, returning to the Source, shall pass through that Passage Perilous. This Awareness indicates that the entity Dr. Beter experienced this passage through the Passage Perilous through that heart attack; This Awareness indicates that these entities, moving toward that point of no return, to the Source of their Being, must each move through that Passage Perilous; and in that movement, must surrender to the hand of God, and allow that hand to take the wheel and guide the soul through that narrow passage to the Golden Sea.

This Awareness indicates this also is in store for the ship of state, these United States of America; and also for each and every country on this planet....Some who have already passed through this Passage Perilous, others yet to come.

This Awareness indicates there have been, and there will be casualties. There have been, and there will be, those who leap overboard in fear, and refuse to go onward. There have been and will be, those who look and listen to the sirens' voices calling to them, who go mad in their ecstasy or in their fear, who are drawn to the siren voices. There are those who will be pulled by spirits, by promises, by jewels, by promises of great wealth, who will leap overboard and seek to find these gratifications, these treasures. This Awareness indicates that there are, however, some who will tie themselves to the mast and stay with the ship and move through the Passage Perilous and remain on course, to the Golden Sea and their Source.

* ED's Note: Although Awareness looks from the cosmic view of things and refers to C.A.C. and its members as the 'Readership', the actual fact is that C.A.C. and the Aquarian Church are two separate organizations created by Cosmic Awareness and have no legal binding to one another except in spirit and mutual goals. C.A.C. is chartered in the state of Washington, the Aquarian Church of Universal Service in the state of Oregon and have no legal affiliation with one another.

The book by Elizabeth Clare Prophet: 'Prophecy for the 1980's: The Handwriting on the Wall. (\$1.95 from Summit University Press, Box A, Malibu, California 90265). Note: C.A.C. does not stock this book. Her description of the clipper ship passing through the narrow isthmus, with very high mountains, like fjords, sounds much like the illustration of the ship we used as the symbol in 'Revelations of Awareness' No. 79-14 (The Passage Perilous: Humanity at the Brink); \$3.00.

WHY FEWER ALARMS THOUGH THE CRISES CONTINUES ?

QUESTION:

Awareness has just indicated that in the future it will not be necessary to ring the alarm so often as was done in the past. Why was it necessary to ring the alarms in the past if all these crises points will not be passed until some time in the future? In other words, why does Awareness indicate there will be fewer alarms in the coming times even though the crises continues for the next six years?

COSMIC AWARENESS:

This Awareness indicates that it appears that the alarms were necessary as warnings, to alert the ship and its movement and course, to alert the navigators and pilots to the areas of greatest danger; that this likened unto a sonar device upon a ship, wherein the alarms were sounded and entities could assist as much as possible in turning the tide, in turning the energies and movements. This Awareness indicates that there are still danger points upcoming, but these are such as can be seen clearly, as will be seen clearly by those veteran sailors, those experienced mariners, who have learned to look into the muddled and misty waters and see the surface to the truth below, and who are now able, without so much sonar guidance, to watch for these dangerous areas, to respond instinctively and spontaneously to assist in the guidance of the craft through these dangerous times.

This Awareness has given, in particular, the times running between November and March of 1981, and again in July. This Awareness indicates that these are areas to watch for. That this may be recognized as a chart, assisting in the charting of the way, warnings for entities to watch these dangerous areas and times. This Awareness indicates that therefore, entities need not experience such great sudden alarms, but may see the dangers and respond voluntarily, according to the needs. This Awareness will continue giving suggestions in these times, that entities may be able to coordinate and respond as necessary, but these actions need not be so alarming as before, for entities are now awake and above deck, and are fully aware of the Passage Perilous through which they sail.

This Awareness indicates that 18 months ago, or 24 months ago, when this Awareness first gave forth the information on the *Gathering Storm*, this information was a shocking transmission; this information alarmed entities. This Awareness indicates that *It* was preparing entities for the times, for the storm which was brewing, and for the Passage Perilous, through which entities must sail. This Awareness indicates that in the further movements through this Passage Perilous, again *It* created alarms, and others sounded the alarms, and entities were awakened or were angered, and some were so fearful as to leap overboard and desert the ship and swim back to shore and security--some departing from their mates, some calling their mates insane for following such a course. This Awareness indicates however, the move continued, and the energies flowed and the ship, moving through the Passage Perilous, has assisted as a guide for other energies to follow through this narrow isthmus and passageway, toward the Golden Sea.

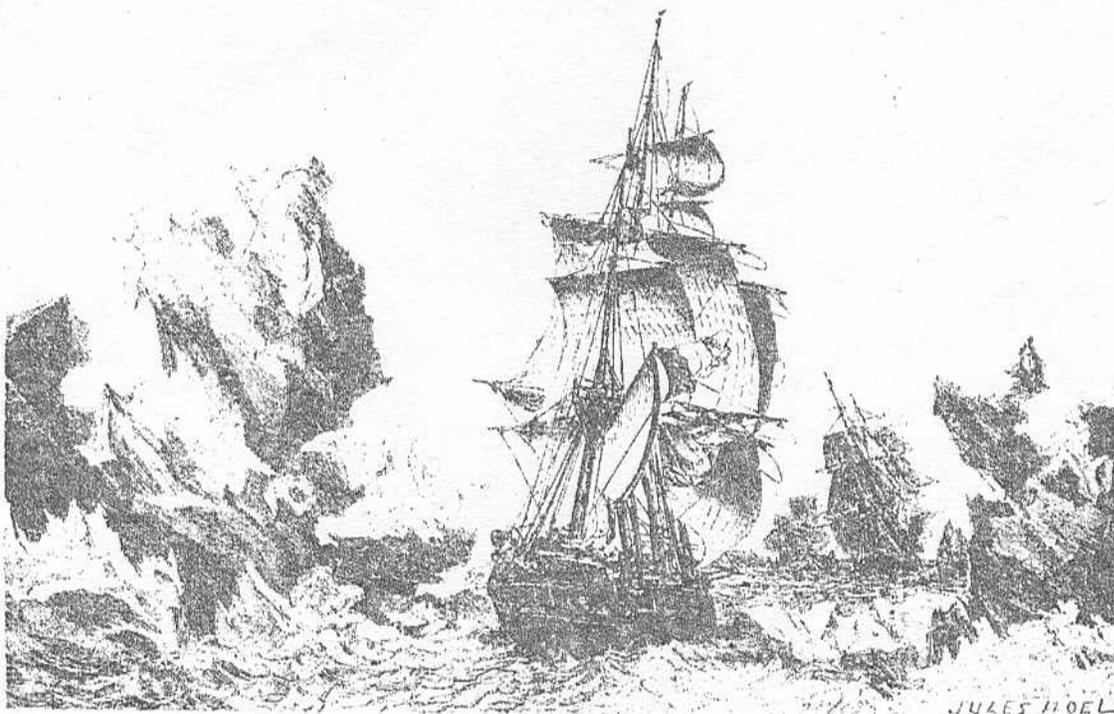

This Awareness indicates that when one moves in attention, one creates a vacuum which draws forth others to follow in that vacuum--and in this manner, an entity moving in great attention becomes a leader without seeking leadership.

(Closing Message)

WE ARE NOW IN THE 4TH LEVEL OF CONSCIOUSNESS

This Awareness indicates that entities who are now passing through these times are those who are indeed fortunate--in that they are being given an opportunity to move from one level of consciousness into another, and to watch and learn and absorb and experience all of the movement between these levels of consciousness.

This Awareness indicates the consciousness level which was prevalent in 1950 is no longer present--that being a third-dimensional consciousness, and few entities cling to that level of consciousness to the same degree as in those times. For now, the level of consciousness is that which is the fourth, and more and more entities are making the transition, and moving into this fourth dimension of consciousness--that based upon change and imagination, uncertainties, instability, free-flow of energies, for good or ill; the ability to create with the mind, with the motives, with the free-flow of energies. And this fourth dimensional consciousness which is now being given to humanity is that which is a new toy, a new world, a new experience, a new circumstance, in which entities must adapt themselves.

ED's Note: We wrote Clare Prophet to ask her permission to reprint the passage from her book which Awareness has referred to. At press time we had not received a response. If we hear from her before this job is collated, this information will be printed on the back of this page.

LETTERS FROM BILL...

ED's Note:

This is the first 'Letter from Bill' we are publishing as we feel this information is helpful in transmuting the negative energies now engulfing this planet. Bill's channel has been cleared by Awareness; his perceptions from a different viewpoint should help many C.A.C. entities who sometimes view the Awareness viewpoint as 'too cosmic'. It was Bill's question which led to the release of the 'Hotline' (80-33A)\$3.00, 'Help Save Manhattan' which was recently released. In a forthcoming newsletter, you will hear more of this entity in a reading called "A Search for God".

THE MEANING OF UNIVERSAL ONENESS

Dear Avaton:

For some reason people find it hard to believe that there is a higher part of themselves that reaches up into the vast, ever-expanding domains of space. Yet it is true. Every human has this Higher Self that merges out into the Cosmos, into the ultimate unity of God. And when the motive is pure, when there is pure devotion and surrender toward this Higher Self, that's when you actually start *experiencing* your status as a cosmic being, a god. And you begin to wield invisible influence over a nation, a world, a star system, or even a galaxy. Our love toward God and our surrender to the will of God makes us the instrument of God in bringing healing and salvation to a world.

All the biological rhythms of the body--the heartbeat, the breath cycle, and even the brain waves that you see in an electroencephalogram--these are all replicas of waves that ebb and flow and pulse across the vastness of the Universe. They are stepped down, focused down into this little lump of clay that walks around upright here on the planet's surface. But our True Self, our Higher Self, is forever 'out there' among the stars and beyond the stars as well as right here. Truly God is everywhere and in everything--from the mundane clay of the Earth to the highest plane of the Universe, out where our Universe is seen as merely an atom in yet a higher cosmos.

With the great Intercession that spanned the years 1975 through 1979, the Earth came through the straits of Armageddon relatively unscathed. By outward physical appearances, the world is still going along pretty much the same as it was prior to 1975. There just isn't much outward evidence of an Armageddon having been averted through an 11th-hour Intercession. But had that Intercession not occurred, the world would at this minute be lying in destruction, in the aftermath of a titanic nuclear holocaust.

The power of the antichrist was not entirely dissolved, however. It is still alive and dangerous. And it may come as a shock to many people to learn that the United States is a captive satellite of Russia, brought about mainly through the nefarious SALT treaties. The "freedoms" and material affluence that Americans still enjoy are illusions, a narcosis, like the 'freedom' of a horse in a corral. But it could be much worse. We could be under a full military occupation; or, at another level, the U.S. would have been destroyed altogether by nuclear war. Intercession has reduced the severity of Armageddon by many orders of magnitude. Our status as a vassal of Russia is the least severe outcome of the Armageddon war.

Due to the manifold acts of Intercession during the "Passage Perilous" of 1975-79, the power of Armageddon was greatly defused, and the antichrist was fragmented and severely disrupted. But it is trying mightily to renew itself. It is still venomous and is lashing out like a trapped rat; you see this in its strikes against Afghanistan and Poland and in its activities in Iraq and Iran. Now is not the time to slack off or give the antichrist any 'breathing space' to regroup its forces.

The big project now is the "mopping up"--throwing off the Soviet noose from the United States and further dissolving the antichrist's power in the world. This is the purpose of continuing the Intercession and stepping up the rites of High Magic, radiating more and more Light into the world. People may argue with this and say, "How can mere humans effect such an Intercession? Humans are not gods". Well, that is the arguments of the rational mind. Humans *are* gods if they will surrender wholeheartedly to the Higher Self, and through the opening of the crown chakra, enter into communion with the Universe, with God. "Whatsoever ye shall loose on Earth shall be loosed in heaven, and whatsoever is loosed in heaven shall be loosed on Earth". That is the secret of 'Sympathetic Magic', or the resonance of the human organism to the Higher spheres of the Universe. Through these higher realms of Hyperspace or heaven, you "put" yourself out into

the cosmos where you can cradle the Earth in your arms and breathe healing and life back into it. Such a meditation can be "grounded" by using a little globe of the Earth, knowing that there is no difference between the symbol and object in Higher Consciousness. In true prayer, it is like the scripture says, "As in heaven so below".

The deepest form of prayer is the opening of the chakra, primarily the Crown chakra, which "connects" you with all the spheres of the Universe with absolute certainty, because you ARE the Universe codified into this little clay form. It matters not that you're confined in this earthly body. You also inhabit the Universe. True prayer, Cosmic Consciousness, the opening of the chakras, is our awakening to our native state as Cosmic beings, merging together all the planes of the Higher Self.

The Earth's remaining karma can be swiftly transmuted and she can be sped quickly into the New Age if a few humans can be found who will hold onto this God-Contact through the Crown chakra and maintain the rites of Magic for the Earth. The rites can be elaborate or simple, even using such a simple chant as "The Earth is the Lord's and the fulness thereof". Or, C.A.C.'s meditation with the 144 pulsations of Light is also good. The Universe hears the *Concept*, and registers its return on the planetary ethers. All prayer has some effect, and does some good. And no sincere prayer shall ever be discounted or discouraged. It all helps. But the working of High Magic at the maximum level requires the absolute, uncompromising surrender to the will of God. It is the truest attitude of "not my will but thine be done." All personal motive and vanity must be sublimated to the Highest Will. That is why there can be no fraternizing or compromising with the artificial, mundane consciousness of the world. At some intermediate levels of consciousness, there has to be compromise with the world, being "in it but not of it". But not so with the Highest. The Highest level of consciousness is not even in the world, and tolerates no compromise with it.

"This world", this dualistic world of relative good-and-evil, is being dismantled and replaced by a Real world. And the Real world is rooted in the pure Oneness of God, no longer divided by the old concepts of relative good-and-evil. Even that which was deemed "good" in the world was only good on a relative scale. The 'good' of this world was only a lesser degree of evil. An example is the rock culture: it may have been considered 'good' by some, but from the standpoint of Oneness, it was only an alternate form of evil. (This statement refers largely to punk and acid rock.) Duality is the relative system that has been set up in separation from God. But the age of duality is closing. The age of Maya, of relativity, is giving way to the Age of Reality, when "the eye shall be single, and we shall see Him as He is".

The New Age is the Immaculate Concept, the spiritualization of all things. All things will be seen as "Living Scriptures" of the One Reality of God. There'll be no more sense of spirit and matter, of God and man, or of creation and procreation. As man's consciousness opens to the highest plane, all things are seen as facets of the One Spirit, and all the work of human hands becomes a testament of the living Christ. In mathematics, there is a formula that goes like this: $1 \times 1 \times 1 \times 1 \times 1 = 1$. There may be many forms and faces of the One, but there is always only the One. This was also the basic tenet of the Law of One in Atlantis.

The old outgoing order was like a tapestry, full of dark threads and light threads. Its pattern was derived from the contrasting of the dark and the light threads. But the New Order is a fabric of pure white. Its contrast lies in comparing it to the *entirety* of the old system. The old system with its internal duality lies separate and apart from the New Order of pure white. In the New Order, there is no concept of duality except that of Reality versus illusion. And the old system, with its internal opposites, is the illusion. The old system is rooted in Maya, the sense of separation from God. But Reality is the spiritualization of all things, through the awakening of man to his divine identity. That is when all humans will regain Consciousness, awake from their stupor, and regain the "Paradise Lost".

And to precipitate this New Age of Oneness, there has to be one element in the Earth that tolerates no compromise with the old dualistic system. That is the return of the Law of The One to the Earth, which has been lost since the days of Atlantis. Granted, there are many New Age workers, in publishing works and so on, who have to compromise with the old system. But they should also understand the position of those few who do have to forsake all ties in order to give totally to the Law of One.

All levels of consciousness are involved in the transition to the New Order. And as the New Age progresses and the old system drops away, all entities will gradually unfold into the purity of Christ, fulfilling the Law of the One. That is the High Country of Consciousness, the New Jerusalem, the 'Great Republic Not Made with Hands', the truest meaning of America. It is the mystical "Rising of Atlantis", the City of God, the "place prepared from the foundation of the world".

Yours truly, Bill.

How You Can Help To Heal Mother Earth A Special Request From Cosmic Awareness

(From a C.A.C. reading given 8/17/1976)
Paul Shockley, Interpreter

This Awareness asks that entities who read this message, to spend approximately five minutes prior to falling asleep each night for a period of one week, imaging the world floating in space, and visualizing this world as having certain areas of darkness, and feeling the presence of this world floating in space, likened to the pictures of the earth taken from the moon.

This Awareness asks that entities then begin visualizing the earth as gathering a type of "halo" around itself: an aura of light; and to watch this light as it grows, and see this light pulsating.

This Awareness suggests that entities then count the pulsations of light, and that they count silently to 144 (one hundred and forty-four) pulsations; and as this is completed, that they move themselves back into the light and back on to the earth and experience the light which they have created.

This Awareness asks that entities do this for at least seven days; that this needs to be done nightly, throughout the rest of the year, if entities can bring themselves to putting out that much energy.

This Awareness indicates that the action of putting forth this energy will bring many rewards to entities under the *Law of Gratitude*, and they shall find themselves being healed on many levels as they move into the light.

This Awareness suggests that after entities move back into the image of the earth now lighted, they may also begin feeling the pulsations around their own body, feeling themselves pulsating as light, and may also count 144 pulsations.

This Awareness suggests this may be used on other entities who need healing.
