COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

COSMIC AWARENESS: (Opening Message)

This Awareness indicates there are many energies in movement during this time. This Awareness indicates that these energies in movement appear to be that which are building in intensity and leading toward conflict and greater violence than has been experienced in recent times. This Awareness indicates that this energy in motion as that which may be likened unto stirring the sea of consciousness, or stirring the boiling pot, the alchemical pot, in which the consciousness of humanity is being melted and molded into the New Being. This Awareness indicates that these rough edges which are being directed against each other in the heating up of consciousness, these rough edges between forces in motion, may be likened unto the structures of steel in a pot of boiling, molten steel which are being heated up, and in efforts to hold on to that which is the identity, the shape, the structure, even though the temperature is rising and these pieces of steel know that they must in fact melt and surrender to that heat, this Awareness indicates that likewise, the many forces stirring in consciousness at this time, attempting to hold on to their own prized identifications, are finding it more and more difficult to keep calm and remain cool as the temperature of consciousness rises and begins melting the differ-

ences, the uniqueness, the polarities and the eccentricities of the various parts. This Awareness indicates that as the temperature continues to rise, more and more entities shall merge into that spirit, that unity, that oneness of universal consciousness, the merging with the God. This Awareness indicates that this surrender unto the Universal Deity is that which shall be the outcome of all of this boiling and churning of the human condition. This Awareness indicates that in the meantime, entities caught within the cauldron of humanity will find themselves experiencing various degrees of intensity, heat, or cooling down in varying degrees, and this give and take, according to one's ability to adjust and move with the flow, with the spirit, these shall determine the speed and the circumstances by which the entity merges with the Divine Forces of the One God.

SCENARIOS NOW BUILDING TO BRING DOWN 'NATIONAL EMERGENCY' POWERS

(More on General Alexander Haig, the Illuminati & the Moral Majority)

"I'm in
control
here".

QUESTION:

A question from J.W. of New Jersey. "Our study group would like an answer from Awareness if possible on this. The Reagan Administration seems to be employing a "get tough" policy toward Russia, as shown through President Reagan's remarks and the actions of Alexander Haig toward that country. Was the appointment of Haig as Secretary of State a good move on our part, and will all this work to the benefit of our country, or vice versa?"

COSMIC AWARENESS:

This Awareness indicates that entities who are aware of the forces which are acting in behalf of these entities, should well be aware of the position and role of Alexander Haig and others who are associated with those powers and forces within this Administration and previous administrations, who are part of that Council of Foreign Relations, the Trilateralists and the Bilderburgers, and those other organizations associated with the One World Government program of the forces which this Awareness has referred to as the Dark Illuminati, which Dr. Beter has called the Bolsheviks.

This Awareness indicates that essentially, the forces are working together in many levels to bring about those policies which have been described previously, in effort to create a greater control over the masses. This Awareness indicates that this control over the masses, along with intensified conflict with the Soviet Skoptsis, as that which is part of the present scenario and plans of those behind the Reagan Administration. This Awareness indicates this intended through the use of National Emergency which will be brought about by the repercussions of the "get tough" policy. This Awareness indicates that essentially, the "get tough" policy is that which shall stir up energies similar to those which occurred during economically critical periods of Germany's situation prior to the rise of Adolph Hitler.

This Awareness indicates that these present times in your country as such that the events could go in any of several directions, creating that which could become a powerful dictatorship and fascist regime, similar to that which existed in Nazi Germany; but this also could move in other directions,--more modified, so that these intensities are checked by forces within this nation, and by forces outside this nation. This Awareness indicates that the other possibility is that forces will reverse the trend that is in movement. This Awareness indicates this appears to be unlikely at present, but possible within a period of approximately one year.

This Awareness indicates that the probability is that there will be greater violence upon the globe, greater conflict in relation to the heating up of antagonisms between the United States and Russia. There appears to be great danger of war in both El Salvador and those areas, involving the United States. There appears also to be greater danger of war in the Middle East. This Awareness indicates that all of these being part of the intended program, along with internal conflict within this nation to give excuse for the National Emergency powers which will allow the dictatorship to be set up, whereby entities who would speak out against these things would be placed in concentration camps and whereby many would be disposed of. This Awareness indicates this in parallel and reflection of the Nazi Germany era, the similar scenario being followed.

This Awareness indicates however, that there are other forces in operation, and these forces which would bring about this type of scenario just described, do not have the power, at present, to bring the masses to follow in the proper course to make this happen. This Awareness indicates therefore, there will be efforts to polarize the masses,--this related in part to conflicts of class, status, economic concerns, and the issue of morality and conflicts between the Moral Majority and others. This Awareness indicates all of these things will be intensified, along with racial strife, in order to whip up greater polarity within the nation, to use as propaganda for molding consciousness into accepting drastic measures by the government to deal with the strife.

This Awareness indicates essentially, what is occurring in this plan is similar to that which entities have observed in Iran, with the various religious sects combatting each other in that nation, whipping each other into fanatic frenzy over issues which made the nation a ready tool for any potential dictator to direct. This Awareness indicates that as it was controlled in Iran, it can likewise be controlled in the United States, so that the Christians and the Moral Majorities can, under certain circumstances, be made to become so radically self-righteous that in the conflict with other groups, such as the feminists and gay rights organizations and people, and the poor needing sustenance, the unemployed, or those other organizations and groups which are "buying into" the Moral Majority activities, the religions of other churches,--these could be put one against the other in such extremes as to create great division, leading to the excuse necessary to bring about drastic measures, such as the dictatorial National Emergency Powers.

This Awareness indicates once such powers are implemented, even those "Christians" who helped bring about this change, or those other Left-Wing organizations who contributed, and others, may find themselves being rounded up and put into concentration camps, or disposed of in other ways. (This Awareness indicates this is the potential scenario, not necessarily that which will occur.) This Awareness indicates this as that which is planned by certain of these forces in power in this nation who are presently pulling the strings.

This Awareness indicates there are also forces of the Skoptsis of Russia, the Christian sect which has taken control of Russia to some extent; (This Awareness wishes to clarify that there is still some struggle occurring in Russia between the Skoptsis and the Bolsheviks, that not all Bolsheviks have been expelled from Russia.) This Awareness indicates that these Skoptsis, having the upper hand in Russia, are aware of the plans and programs and intentions of those forces in this country, and these Skoptsis are not as naive as are many of the Christian churches and members of spiritual organizations in the United States. This Awareness indicates these entities having access to inner secrets and inner information of the Bolsheviks from having been involved with these entities for some 60 years. These entities are well aware of the plans, maneuvers, and intentions and techniques used by the Bolsheviks and those of the Rockefeller empire. This Awareness indicates that it is therefore a struggle between powerful forces which is brewing toward a climax, and which may result in chaotic conditions for some time.

This Awareness indicates that entities must be cautious in terms of which way to jump; for an entity attempting to jump on the bandwagon of a force which is growing in momentum may discover that the tide has shifted, and an equally powerful force is building in momentum to quash the first force. This Awareness indicates there appears to be a growing tide of energy in the actions of the so-called Moral Majority. This Awareness indicates there will soon be a backlash of energies protesting some of the intensities and alleged violations of these representing the Moral Majority.

This Awareness indicates that this backlash, along with the activities of the Moral Majority and their initiatives as that which could lead to greater polarization and conflict, if allowed; or as that which could dramatize the issues on the stage of consciousness, so that entities can find a reconciliation between these conflicting concepts, allowing the individuals to have their rights, while at the same time, recognizing a need for some standard of behavior that does not violate the principles of decency. This Awareness indicates that decency being that which is a word to describe a state of moral behavior according to some standard set by one group or another.

This Awareness indicates that essentially, what must occur for peace to follow, is a standard of decency which allows entities to accept in an agreement which will be respected by all parties. This Awareness indicates that wherein one group seeks to enforce its definition of decency upon another,--this other, rejecting that definition and seeing its rights violated,--this will simply lead to greater conflict. This Awareness indicates that wherein discussions between these forces can occur, wherein arguments can be presented, wherein the demonstrations are taken out of the field of action and brought into levels of discussion, whereby these entities can communicate with one another, even in heated debate; then in such an atmosphere, there can be that which is a reconciliation, and a new agreed-upon standard of decency which all may accept.

This Awareness indicates that it is unrealistic to believe that the morality of the Victorian era will ever again bloom upon this plane. It is unrealistic to assume that women will relinquish their rights and move again into positions of eyelid-fluttering creatures of delicate nature who have no value other than serving man. It is unrealistic to assume that certain of the Puritanical ways are the only ways allowable by the Creator of the Universe. It is *more* realistic to assume and recognize that all of these many expressions of the human creation may be allowed a certain amount of freedom to discover Who, in fact, each entity really is, can be, and what, in fact, the destiny of each entity truly is.

This Awareness indicates that as entities are given certain freedoms to err, to make mistakes, or to create, to be something of their own expression, to have responsibilities, to find the understanding and wisdom that results from success or from mistakes in life, and wherein such entities are given the opportunity to recognize the Divinity of all living things, the Divinity that lies within each being; then it becomes possible, in such realistic approaches, for entities to find peace and to allow each other space to become and to be whom their God has created.

ED's Note: A good example of how polarities build occurred here recently in Olympia. A lawyer for the state Moral Majority sued the State Library because it would not release the names of schools which had checked out certain sex education books during the last ten years. The suit was later dropped and the lawyer backed off. However a group of local students at the Evergreen State College here in Olympia, quaffing beer one night and discussing this incident, were so outraged at the Moral Majority movement that they started a "Immoral Minority" group. What started as a joke, made the local papers, then the newswires, and soon thousands around the country were writing in asking if they could join the "Immoral Minority" whose basic concept was to allow entities to do what they felt like doing, read what they felt like reading etc. as long as they did not violate others in the process. At last report there are now about 10,000 belonging to the Immoral Minority. You can join, get a button to wear and receive literature if you send \$10 to the Immoral Minority, C/O The Evergreen State College, Olympia, Washington. Many of these entities are now appearing at talk shows, discussions, church gatherings etc. and voicing their particular point of view, debating with those calling themselves the Moral Majority. In this sense, some of the polarities are actually defused before certain issues get blown out of hand and control.

Those interested in what is being planned when the National Emergency Powers are brought in are invited to write SPIRAL (address below) and obtain their special report, Vol. II, No. 1, Jan. 14, 1981 issue. (\$6.00 for six issues). The issue is called, "Enemies of the State". Also recommended is the special SPIRAL report, "Concentration Camp Plans for U.S. Citizens"--an indepth report that all should read. Price: \$1.50 per copy. Write to:

SPIRAL Report, PO Box 80323, Lincoln, Nebraska 68501

(In Dr. Beter's Audio Letter No. 63 released in April 1981, he revealed the plot now building to recall all \$100 bills sometime this year, giving entities holding these only 3 days to redeem them. The excuse being organized crime and drug dealers are using so many of these bills. When this occurs, watch for an "economic emergency" to be announced, followed by the 'National Emergency' act of the President. This will be the beginning of the actual manifestation of the police state here in the U.S.)

BILLIONS FOR DEFENSE BUT NOT ONE DIME FOR THE POOR

(Repercussions from the Reagan Program)

QUESTION:

Awareness, Mr. Reagan has implemented a plan which he says is designed to balance the budget and stop and reduce inflation, and within this plan is the ruthless cutting of something like 30 or 40 billion dollars from the social and welfare programs that help entities that are infirm, handicapped and poor, and at the same time, taking this money and adding to the war machine, another 50 or 60 billion dollars. Would Awareness comment on what it sees as the outcome of this particular phase of the Reagan Administration in the near future?

COSMIC AWARENESS:

This Awareness indicates that there will be much backlash in regards to this. This Awareness indicates however, that the majority of those who are actually suffering from this, will not be capable of vocalizing their needs. This Awareness indicates however, there will be those who represent these entities who will come forth and offer resistance to these policies. This Awareness indicates that in terms of the effect of the action, if the policy is followed through as indicated, (this Awareness comments that this appears to be unlikely, for modification appears to be inevitable.) This Awareness indicates however, that if this policy were implemented as planned, there would be an increase in many levels of defense activities and greater production in industrial defense plants. This Awareness indicates that this would stimulate jobs and the economy to some degree, leading to many applauding terms for the action. This Awareness indicates that this, in turn, would assist in stimulating still other business which could lead to further increase in terms of economic potential and improvement.

This Awareness indicates that some of the entities on the social programs would find themselves moving into situations whereby they were forced to get up and take action to serve themselves and their needs. This Awareness indicates many of these would suffer repercussions from the cuts or from their own efforts. This Awareness indicates for example, certain of these entities, unable to help themselves, would suffer greatly. Others who could help themselves at the expense of their dependents, would also create great suffering. This Awareness indicates that therefore, there would be one section of society which would applaud the action for the jobs which were created by the military increase; the other section suffering from the cut in social programs. This Awareness indicates this would tend to increase a polarity among many entities and organizations, and would tend to reduce much of the bureaucracy of the social programs, but would increase the bureaucracy of the military and those military-industrial complexes. This Awareness indicates therefore, the action would simply shift the balance of energies from a nation which has been tending toward social programs, or what some would call socialism, to that which leans more toward military and fascism in its approach.

This Awareness indicates that these shifts from the socialist approach to that which is more conservative or fascist in nature, as that which may be checked so as not to become too extreme if there are still allowed the rights of entities to speak out publicly in their interests. This Awareness indicates that if such rights are extinguished, then the shift can be severe, and the extremes of polarity may be felt to such a degree as allowing a dictatorship to be created. This Awareness indicates there is greater danger of this at this time than in any other time in the history of this nation. This Awareness indicates that this is not simply due to Mr. Reagan's actions, for this entity is but a puppet President.

Pictured above is a photoreproduction of an actual order, printed in poster form, and distributed in California, telling Japanese-Americans to report to concentration camps and what they could take with them.

Cosmic Awareness has previously indicated that concentration camps are now set up in 13 Western states. Also most public buildings and institutions built since 1950 are designed so that with little effort entities could be quickly confined in case of 'national emergency'. TOXIC SHOCK SYNDROME

(Beware of Public Toilets)

QUESTION:

Quite a few female of the organization have asked us to ask Awareness about the nature, the cause and the cure of what is known as the 'toxic shock syndrome' which is baffling doctors and which recently has resulted in the death of several hundred women. In articles they publish they say that the toxic shock syndrome is a disease caused by *Staphylococcus aureus* and has been linked to use of tampons by menstruating women; but men, children, and women who have not used tampons have been among its victims.

Since 1975 when the disease was first identified, some 940 people have contracted the disease. At least 73, all women, have died, according to the Center for Disease Control in Atlanta. Would Awareness please enlighten the membership on cause and the cure of this disease?

COSMIC AWARENESS:

This Awareness indicates that the information as that which is correct. This Awareness indicates however, that this can also be spread in other ways than in the use of tampons. This Awareness indicates that this can spread in public bathrooms or toilets, wherein this may contaminate one person from the other. This Awareness indicates that this may also be spread from hand to hand in similar fashion whereby entities spread the disease from uncleanness. This Awareness indicates that caution in use of public rest rooms should be observed. That the use of tampons as that which increases the irritation and environment to allow this disease to develop. This Awareness suggests that entities avoid this use and to take precautions that the disease is not caught from public rest room facilities.

QUESTION:

Well then, the ladies who get this and use the tampon, it is not caused by the tampon itself; they have gotten this germ into their system and the tampon evidently keeps it in the system and gets it back into the blood stream where it is fatal. Is that correct?

COSMIC AWARENESS:

This Awareness indicates that this as in the affirmative, that the tampon creates certain irritations which allow greater potential for the growth of this. This Awareness indicates that this also depends upon an entity's immunity system and the ability to fight off this infection. This Awareness indicates that such infection can be spread to entities who have a strong immunity system and this will counter any effects, while others whose system is weakened may feel the effects of the infection, even though they may not have used tampons in the process.

QUESTION:

Then in that case, Awareness would suggest that the women probably not use tampons?

COSMIC AWARENESS:

This Awareness suggests that this appears to be an irritant which contributes to greater chances of infection. This Awareness indicates that it appears to be such that many entities in contacting this do not have the strength to overcome this infection. This Awareness indicates the symptoms of high fever, headaches, extreme fatigue, the hands and feet blistering and eventually peeling--this Awareness indicates that these symptoms or any symptoms approaching, or similar should be suspect of this condition and a doctor consulted immediately.

QUESTION:

From what I've read, when the symptoms reach that stage, it is usually too late and the entity usually dies. Would Awareness suggest treatment that these entities might be able to give themselves in the event it got that bad?

COSMIC AWARENESS:

This Awareness indicates certain antibiotics available through the regular medical doctors could be beneficial. This Awareness indicates that echinacea, Vitamin C, garlic, golden seal,---this Awareness indicates that these appear to be valuable in assisting. This Awareness indicates there are other homeopathic treatments which could be beneficial under proper homeopathic treatment by qualified doctors of that field. This Awareness indicates that the anti-plague formula of Mary Farrell of the Goodship as that which also is powerful in assisting to remedy this infection or other infections. This Awareness indicates essentially, this anti-plague formula as that which was specifically developed as a counter for bubonic plague: this however, capable of countering many different types of infections. This Awareness indicates that this as being effective to some strong degree in this particular infection also.*

THE "D" CELL IN RELATION TO CANCER

(Interferon--the New Wonder Protein)

QUESTION:

The last time we ordered D Cells from Joe Dun Sloane, he wrote a memo that information had gotten out that interferon was what was used as the base of the D Cell and he was being snowballed by orders since that information leaked out--- interferon being in the newspapers these days as being one of the potential wonder cures for cancer. Would Awareness comment on this interferon in the D Cell in reference to these various cures in relation to cancer and the use of the D Cell?

COSMIC AWARENESS:

This Awareness indicates that over the years for approximately one decade, entities familiar with the D Cell have been given information of its potential, and without publicizing or making claims which would be illegal, many entities have used the D and S Cell to combat cancerous conditions and have written testimonies to Mr. Sloane and others relating the beneficial effects and cures and attributing these to the D Cell and particularly to the S Cell.

This Awareness indicates that in regards to the substance interferon, this appears to be the same substance which is within the D Cell and S Cell. There also appears to be certain other qualities in the D and S Cell which are slightly of a different nature than the artificially-created interferon. This Awareness indicates that this substance of the D and S Cell, being created from vegetable matter and solar cells, as that which is somewhat different from that which the adrenalin creates, and that which is created by the natural system within the body. This Awareness indicates however, that these are compatible in their activities and appear to be of close enough similarity to be interchangeable and effective.

This Awareness indicates that this method of creating interferon through vegetable matter as that which will create and bring about the inexpensive manufacture of this substance. This Awareness indicates this shall lead to greater capacity for immunity to disease, as well as greater intensity and vitality of the odic force--the vital energies of the users.

ED's Note: D and S cells are stocked by both C.A.C. and the Goodship (address above). The Goodship is also stocking interferon in other forms. Note: this is new information. Please copy and place in your 'D Cell Instruction Manual' (\$3.00 from C.A.C.)

HAVE THE RUSSIANS DISCOVERED ATLANTIS?

(Excerpt from a C.A.C. General Reading)
April 12, 1979

QUESTION:

The Russians have put forth information that they have taken underwater photographs Southwest of Portugal which appear to show vestiges of walls and great stairways which may prove the existence of the fabled lost Atlantis continent. They used underwater photography to do this. It's roughly between Lisbon and Maderia, and they were taken from a diving bell lowered earlier by a research ship. Would Awareness comment on this if this indeed is Atlantis?

COSMIC AWARENESS:

This Awareness indicates that this as one part of Atlantis. This Awareness reminds you that in 1968 and '69, the entity David Worcester in readings for the Anthropological Research Foundation, suggested a certain route for the travels of the sailing ship which if followed would have taken these entities to that area off the coast of Portugal. This Awareness indicates that those entities did not complete their journey. This Awareness indicated that at that time they would find the remnants, columns and other artifacts and stone statues of Atlantis in that area. This Awareness indicates that there also are further east of this area even more evidences of the scope of the Atlantean civilization, this including roads and temples, these being underwater. This Awareness indicates there also have recently been released certain photographs of an infrared nature showing the area known as Lemuria in the Pacific, whereby the continent can be seen through the water of the Pacific Ocean. This Awareness indicates this also a possible form of photography for the continent of Atlantis in the Atlantic Ocean. This Awareness indicates that entities recently have concluded that Atlantis was a small island off the coast of Greece. This Awareness indicates this as negative, that the continent of Atlantis was much larger, and existed in the Atlantic Ocean between the European and the American coastlines.

ED's Note: This editor published the readings on the Anthropological Research Foundation voyage during the time "Servants of Awareness was the printed voice of Cosmic Awareness. One day C.A.C. may republish these readings.

WHAT ABOUT CAYCE'S VERSION OF ATLANTIS BEING NEAR THE BAHAMA ISLANDS?

("Big Bang" Theory Exploded)

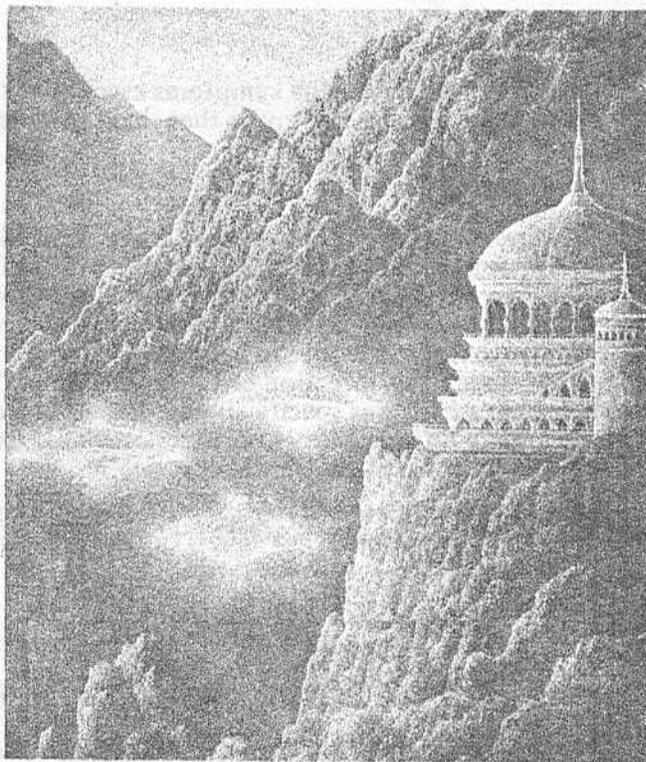

QUESTION:

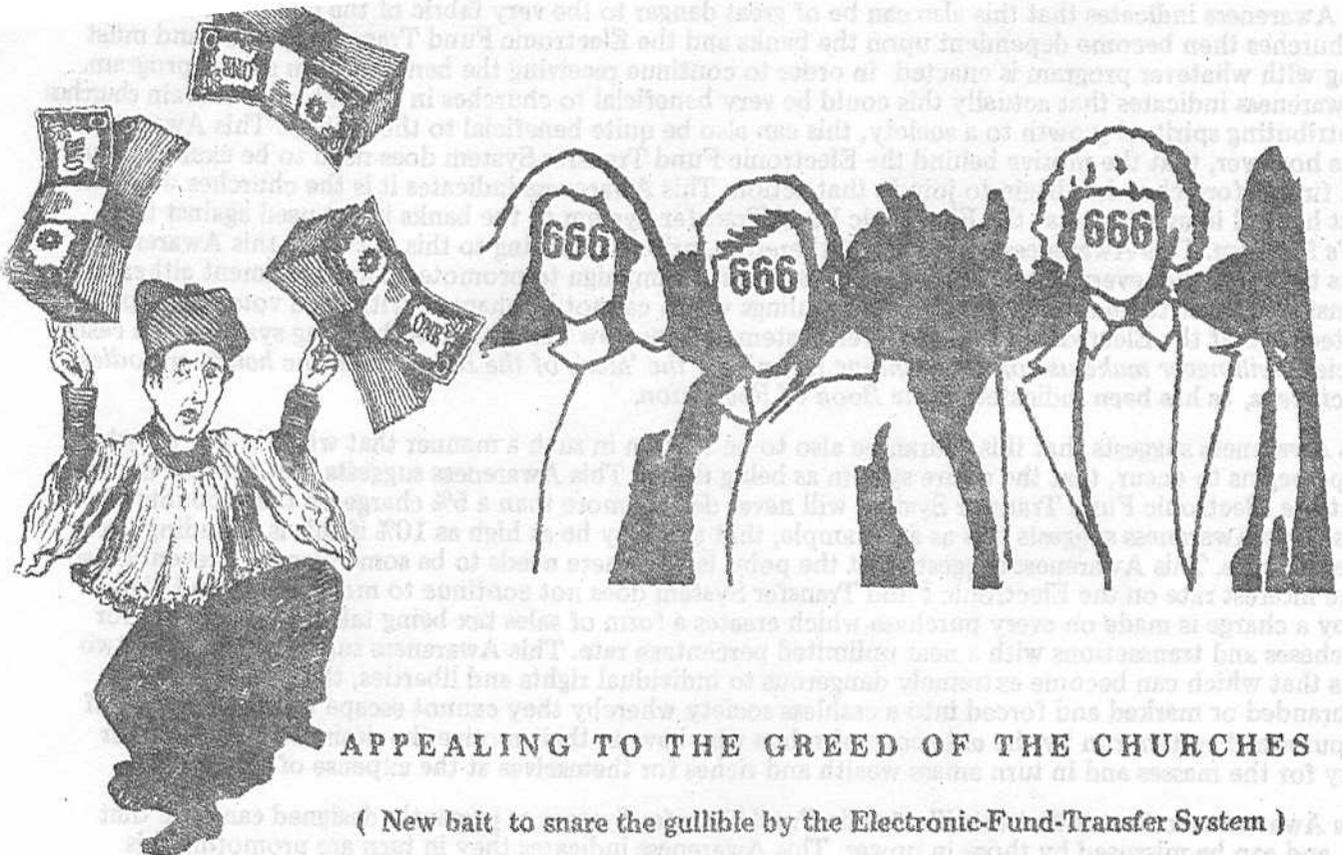

Does the information that Cayce gave on Atlantis in reference to the Bahama Islands being a part of that same continent valid, and that it would one day quite soon rise from the ocean valid?

COSMIC AWARENESS:

This in the affirmative. This Awareness indicates that the continent of Atlantis began sinking in approximately 50,000 B.C., again in approximately 25,000 B.C. and again approximately 10,000 B.C. That you understand this did not occur in one vast holocaust or catastrophe, that this occurred very slowly, that the majority of entities were evacuated or left before the final sinking; that there were occasional earthquakes wherein portions would fall, and entities would be caught in the collapse of the land mass, but that this was rare in relation to the entire movement and sinking of this continent--that this being spread over a period of 50,000 years is not what entities can call a catastrophe as many visualize.

ED'S Note: In previous readings, Awareness indicated that the channelings of the entity Phyllos in the books, "A Dweller on Two Planets" and "An Earth Dweller Returns" were, for the most part, an accurate interpretation of life in Atlantis. C.A.C. permanently stocks these two books. (Please refer to Book Catalog or Price sheets).

APPEALING TO THE GREED OF THE CHURCHES

(New bait to snare the gullible by the Electronic-Fund-Transfer System)

QUESTION:

In light of what Awareness has previously indicated--that the Christian religions being a possible means of awakening the people to the Electronic-Fund-Transfer System, I would like to read an article that appeared in the Friday, April 6, 1979 Seattle Post Intelligencer newspaper, under "Religion", and ask Awareness to comment. It's called "A Way to Tithe Without Cash":

"The church must learn to deal with today's cashless society if it expects to develop the financial support it needs", says Dr. Raymond Kneutsen, former Assistant Executive Secretary of the National Council of Churches. An ordained Presbyterian minister, Kneutsen's sermon's text on church financing is taken straight from the gospel according to IRS, Master Charge, VISA and the Payroll Deduction Plan. Now head of a private non-profit consulting firm, Kneutsen is in Seattle, working with the United Ministries of Seattle--220 United Churches of Christ, Disciples of Christ and Churches of the Brethren--attempting to improve their financial base. His answer is the church check, a computerized system in which the donor signs a pledge authorizing the church to deduct his contribution from his checking account every month, just like a payroll deduction. The computer accounting is done by Electronic Funds Transfer of Dallas. "We're living in an increasingly cashless society today", Kneutsen said. "There are 555 million charge cards in use in this country, 75 million issued in 1978 alone, and that's more than two for every man, woman and child in the country. Basically the church has not been enrolled in this kind of process yet, but for the majority of the people, this is where the action is, the donor signs up on a form like a charge card receipt which states, 'the authorization to charge payers account at banks shall be the same as if payer had personally signed the check to payee organization. Payer's account at bank will be charged each month as indicated until payer revokes this authorization in writing". The form even has a space which if initialed by the contributor increases the pledge 10% a year to help offset inflation. The Dallas firm sends a sponsor church monthly computer printout, it also sends both the church and each contributor an annual printout for IRS purposes. The firm charges a member church a percentage of its total contributions based on the number of donors in the group. For special donations during the year, for such things as support of missions and seminaries, Kneutsen advocates use of the charge card. "The pastor may make a sincere appeal from the pulpit", Kneutsen said, "But it could catch the donor at a bad time financially." To accommodate this problem, Kneutsen has designed a special pledge card complete with the familiar spaces to write a Master Charge or VISA account number. "Forty three per cent of our income is spent by charge cards", Kneutsen said, "90% of the Federal Government's business is transacted by electronic transfer as is 68% of the United Way's donations, but it's an area where the church simply has not been on board." (That's the end of the article).

OSMIC AWARENESS:

This Awareness indicates this as an effort to get the churches to go along for financial purposes. This Awareness suggests this as intended to capture the greater portion of the American religious society to support the Electronic-Fund-Transfer System and to be on board before they realize what it is they have joined. This Awareness indicates this as a approach which could be profitable, more profitable for churches because ents tend to be more generous with their future money, with pledges, than with their present money, that which is in their pocket. This Awareness indicates in this manner, the amount of income churches could generate from donations and pledges would be increased greatly. This Awareness indicates this approach as a revealing aspect for religious organizations because of this factor

This Awareness indicates that this also can be of great danger to the very fabric of the churches, because these churches then become dependent upon the banks and the Electronic Fund Transfer System, and must go along with whatever program is enacted in order to continue receiving the benefits from such a program. This Awareness indicates that actually this could be very beneficial to churches in general, and wherein churches are contributing spiritual growth to a society, this can also be quite beneficial to the society. This Awareness suggests however, that the motive behind the Electronic Fund Transfer System does need to be examined and cleared first before churches begin to join in that action. This Awareness indicates it is the churches who can be most helpful in assuring that the Electronic Fund Transfer System of the banks is not used against the people's freedom. This Awareness suggests that therefore, prior to agreeing to this network, this Awareness suggests that churches everywhere, and individuals, begin a campaign to promote an ammendment either to the Constitution, or to guarantee through court rulings which cannot be changed without a vote of the people, guaranteeing that the Electronic Fund Transfer System and the new computerized banking systems of a cashless society *will never make use of the branding technique, the 'Mark of the Beast' upon the hands or bodies of the citizens, as has been indicated in the Book of Revelation.*

This Awareness suggests that this guarantee also to be written in such a manner that wherein any effort of this type begins to occur, that the entire system as being illegal. This Awareness suggests that also the guarantee that the Electronic Fund Transfer System will never deduct more than a 5% charge on the accounts of entities. This Awareness suggests this as an example, that this may be as high as 10% if this is including taxes or other charges. This Awareness suggests that the point is that there needs to be some form of prevention so that the interest rate on the Electronic Fund Transfer System does not continue to move higher and higher whereby a charge is made on every purchase which creates a form of sales tax being taken by the bank for all purchases and transactions with a near unlimited percentage rate. This Awareness suggests that these two areas as that which can become extremely dangerous to individual rights and liberties, the idea of entities being branded or marked and forced into a cashless society whereby they cannot escape the enslavement of a computerized system run by the elite corp of rulers who have as their motive the desire to create greater poverty for the masses and in turn amass wealth and riches for themselves at the expense of the masses.

This Awareness indicates that this Electronic Fund Transfer System as presently designed can have that effect, and can be missused by those in power. This Awareness indicates they in turn are promoting this Electronic Fund Transfer System as though the masses were dangerous criminals and needed this kind of protection and assistance from them in order to keep from being burglarized or having their money stolen. This Awareness suggests that as they promote this concept, many entities in the masses will agree that this would be beneficial. This Awareness indicates however, that there are no apparent checks on the ones at the top of the Electronic Fund Transfer banking system, and therein is the great problem and danger which could lead to an enslavement of the masses which far surpasses any form of street crime that could come into being. This Awareness suggests that as long as there is cash in the society, entities do not have to participate in this Electronic Fund Transfer System and therefore have a choice of being involved in one or the other. This Awareness indicates once the cash is removed and entities have no choice, then they are at the mercy of the bankers, and the bankers may raise the interest rates to 25% or even 50% on every transaction. This Awareness indicates that any entity wanting to drop out would have no means of exchanging or purchasing or buying, and laws could be passed which would prevent such purchasing if there was a way such as through barter. This Awareness indicates that this also could lead not only to economic slavery, but to an action of creating social malcontents and criminals, simply because they are not desiring to go along with the ruling bankers.

This Awareness indicates that wherein this is fully understood and wherein there are safeguards built in which would prevent banks from reaching that kind of power and control, whereby they would not be allowed under any circumstance to take more than a particular percent which is agreed upon by the people, and wherein the bankers were elected rather than private proprietors of the banks, wherein these bankers were elected by the masses, so that they could be removed if they began infringing on the rights of the masses, this system could have benefits, could be beneficial in many ways. This Awareness indicates that it is highly unlikely that the bankers would ever consider giving up private ownership to the banks, it is highly unlikely that even if they put in any form of safeguard in terms of percentage that they would in fact follow through and consistently stick with this safeguard; it is more likely that if they put in such a safeguard through laws or other types of agreement policies, that they would simply put in the safeguard in order to start the action in the direction they desire, and later would have an ammendment to the law so that they could raise the interest rates, change the law, and people would simply go along because it would not seem that important. This Awareness indicates the taxes and the system of taxing the people has proved that there is a tendency of the masses to let these entities infringe one small step at a time on their rights, there is a tendency to create situations whereby that which *appears* to be reasonable suddenly is seen as a hole in the dike which then allows masses of great energy to move through and to tax the masses even more than was intended by the original hole in the dike.

This Awareness indicates the same would occur with your present banking system, for these entities are not promoting Electronic Fund Transfer System for the good of humanity but rather for their own purposes of making the masses more and more dependent on the banking system so that they have no other way to survive except by going along with these. This Awareness suggests that by nationalizing in the name of the people, the banks, so that the banks themselves are owned and the bankers and those in charge are elected by the people just as entities elect their President and Congresspersons, whereby these entities can be taken out

of office; whereby the profits from the banks go back into society for social programs; whereby the banks are not allowed to charge any more than a particular amount which the public has the final say over; whereby entities are free to drop out of the Electronic Fund Transfer System; whereby entities are not branded or marked in any way that would cause them to become owned or enslaved by that system; whereby entities can be guaranteed the right to barter and trade with one another without threat of imprisonment or other punishment--then such a system could be highly beneficial because it would save time and expense. This Awareness indicates that at present the time and expense that would be saved from such a system is not worth the threat which this system presents.

ED's note:

This reading was given April 14, 1979, and since that time many fundamental Christian organizations have campaigned vigorously against the EFT Mark of the Beast System. (An example on the right is taken from some of their literature). However, in a reading given March 18, 1981 (to be published later by C.A.C.) Awareness indicated the bankers, threatened by this new fundamental Christian awareness, are going to try a new technique: this being a machine which will read the palm print of an entity when it is passed across a check-out reading device. Although this new system now in the works would not actually 'mark' an entity's body, the end result would still be the same--enslavement by the banking system and all the dire consequences which would follow.

DOES GOD LISTEN TO THE PRAYERS OF A JEW?

QUESTION:

There's an article that appeared in the paper recently, that a Reverend Bailey Smith, pastor of the First Baptist Church in Dell City, Oklahoma, and elected President of the 13.4 million member denomination at its convention in St. Louis, reaffirmed his month-old statement that God does not hear the prayers of Jews. "It is true," he told the Baptist Press service. "I was emphasizing the distinctive nature of Jesus Christ. It's interesting to me at great political rallies, how you have a Protestant to pray, a Catholic to pray, and then you have a Jew to pray. With all due respect to these dear people my friends, God Almighty does not hear the prayers of a Jew. For how in the world can God hear the prayer of a man who says that Jesus Christ is not the true messiah? It is blasphemous! It may be politically expedient, but no one can pray unless he prays through the name of Jesus Christ."

Would Awareness, from *Its* point of view, please comment on that Reverend's statement?

COSMIC AWARENESS:

This Awareness indicates that this as another statement of self-righteousness and separateness. This Awareness indicates that this entity might find it perplexing to read in the statements of Paul the Apostle in First Corinthians that the early Christians were admonished not to sit and eat with gentiles, for these were "devils" and that you would not sit with devils. This Awareness indicates that this again was another form of bigotry from the viewpoint of a follower of Christ, who was Jewish in his teachings.*

*I. Corinthians, Chapter 10, Verse 20, 21

This Awareness indicates that the world is filled with entities who see themselves as righteous and others as in error. This Awareness asks what is unusual about such, and why make such entities and their bigotry significant? This Awareness indicates what is of significance is that which reconciles differences and allows differences to have equal rights to exist side by side. This Awareness indicates that wherein one entity makes such a statement that prayers to God are not heard if the prayer emanates from a Jew, this Awareness indicates this as but a form of self-delusion, self-righteousness and a pathetic sickness on the part of the entity so speaking.

WILL THE ALIEN FORCE ALWAYS EXIST ?

QUESTION:

Does Awareness foresee a time wherein the Alien Force no longer exists in the universe; or will the Alien Force forever exist, because it is necessary for the evolvement of those who challenge, or oppose it, or attempt to reconcile it?

COSMIC AWARENESS:

This Awareness indicates the Alien Force exists because entities have free will; and entities have free will in order to learn how to surrender that will to the will of God. This Awareness indicates that this appears to be a vicious circle; that it appears it would have been perhaps better that entities not having been given free will, but that entities all have been held in check by the will of God. This Awareness indicates however, that it was part of the Divine Plan that entities be given the opportunity to rule equally with the Creator, to become one with the Creator, rather than being subordinate to the Creator's will; that they be given opportunity to go out into the creation, experience the act of creating, get themselves into trouble creating, learn from the experiences and, when having learned, to return to the Creator with understanding of how to use those creative forces for the good of all.

This Awareness indicates that essentially, the Alien Force is the misuse of the creative forces. This Awareness indicates that it appears that the Alien Force, or the misuse of creative forces by entities expressing free will, will continue indefinitely,---for an indefinite period. This Awareness indicates that to use the word 'eternity' or 'forever' may not be appropriate, in so much as that those terms have such infinite extensions of meaning to entities, but the term 'indefinitely' as being more appropriate.

This Awareness indicates, however, that the extremes of the polarity, the extremes of the misuse of the creative forces, the extremes of the misuse of free will is that which can diminish--or increase--with time. This Awareness indicates that this appears to decrease in the future for a period which, in the cosmic sense, would be an age or an hour, but in the physical sense, would be many, many years in duration. This Awareness indicates, however, this diminishing of the misuse of free will in not to occur immediately on your plane, but shall occur within a generation.

ED's Note: among these listed are the 35,000 Zionists expelled from Russia by the Skoptsis. Allowed into the U.S. by the Rockefellers, these entities, called 'Bolsheviks' by Awareness and Dr. Beter, is the Illuminati force behind the scenes creating all the mischief.

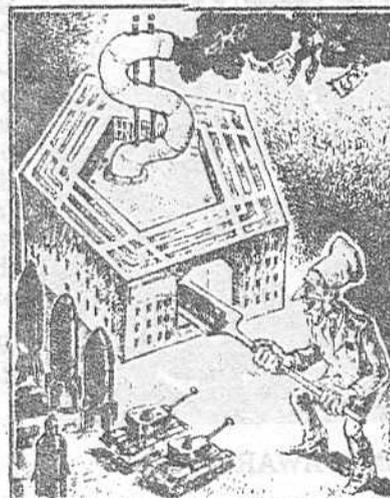

The Russians are here, The Russians are here

"Since 1970 some 36,000 Russians have emigrated to the United States, including such gifted artists as dancer Mikhail Baryshnikov, cellist Mstislav Rostropovich, painter Mikhail Chemiakin, poet Joseph Brodsky and literary prophet Aleksandr Solzhenitsyn," *Newsweek* magazine notes in its Dec. 8 issue. "With the arrival of [dissident-writer Vasily] Aksyonov, virtually a whole generation

of Russian intellectuals has been transplanted to the West. 'The hub of Russian culture outside the Soviet Union is now New York,' says Sergel Doviator, editor-in-chief of *Novy Amerikanets* (*The New American Weekly*), one of a thriving network of Russian literary journals and publishers that have sprung up in the United States."

LETTERS FROM BILL....

(A Cosmic View of things from another frame of reference)

THE GREAT INTERCESSION IS NOW COMPLETE

March 13, 1981

Dear Avaton...Just got your latest mailings. It's very gratifying to see the Avataric Light that is in your membership. Each one of these entities who turns on to 888 will be a channel for infusing the Light of Infinity into the mass consciousness and raising the mass mind of humanity toward Grace. This is such an ecstatic happening it's hard to put it into words.

In the news, you probably caught the story about the Jehovah's Witness couple from Oregon who were on the lam with their baby that needed blood transfusions. The J.W.'s are another example of radical fundamentalism like the Skoptsis, taking some obscure scripture completely out of context and building up a whole dogma and theology around it.

But thankfully, the age of karma and fundamentalism is ending. As Awareness pointed out, the Hierarchy and Lords of Karma are being phased out and preempted. That is the advent of Grace, the Law of the One or 888 coming in now.

Many thanks for your dedication to this happening.

The Great Intercession by the Avataric company absorbed the full brunt of Armageddon, re-routing the natural return of karma. The world's excess karma was vented off through the Avatars to keep the world on an 'even keel'. When the karmic bloat of the world went down, its "navel", New York City, had to be cauterized and sealed. And that was the energy that was felt towards the end of 1980, and which was finished by John Lennon.

The Great Intercession is now complete. And no power in the universe can prevent the New Age now.

Sincerely, Bill.

THE REAGAN RECOVERY: A VICTORY FOR THE LIGHT FORCE

April 6, 1981

President Reagan is the first of the Synthetics to come squarely under the sway of the Light Force. He was shot because he was not "playing ball" with the Illuminati. This is precisely why Lincoln, the Kennedys, and George Wallace were shot. Haven't you ever wondered why nobody ever takes pot shots at the Presidents who are stooging for the Illuminati, such as Nixon, Johnson, Carter, etc.?

If you look closely at the eyes of Reagan, you see Light, and you see a soul. You do not see the cold robot glare of a Haig or a Bush or a Kissinger.

While the policies and activities of Reagan may be interpreted from various other frames of reference, he is nonetheless responding to Light at the fundamental, grassroots level, as befitting an American patriot. He is the first example of the re-programming of a Synthetic by the Light Force. Recognizing this, the CFR (Illuminati) immediately tried to liquidate him exactly as they did all others who ever tried to buck them. But the Light foiled the assassination attempt and turned the tables on the Illuminati. Reagan's brilliant rally and show of character and his shirking off of the attempted assassination became a cabala, a "Living Scripture" of Light. It is a divine allegory of the rally of the soul of America and the Ascension of all humanity into the 'High Country', which is the true 'America'.

Though Reagan may be a robot, he is in fact the first of the robots to begin responding to the new incoming Light energies. He is the first of many to begin working for America and freedom instead of for the Rothschilds. As more and more entities, both robot and non-robot, begin responding to Light, their response will be at the grassroots level, pulling America back toward sanity and strength in the karmic arena. And then these entities will be gradually phased out altogether and replaced with Light Workers and conscious Avatars. This 'coup' or takeover by the Avatars will also occur in all countries, as all factions and cultures are progressively raised into Light.

This is the Light Manifesto, and will end 'this world', the world of maya and karma and separateness.

COFFEE AS A COSMIC HERB
--AN ADJUNCT TO OPENING THE CROWN CHAKRA

(More on the breathing exercise)

Once the heart is established in Pure Surrender to God, the exercises for opening the Crown Chakra or "8th-plane Radio" can begin. This channel will not repeat these exercises here, as they are given in other readings in this series. These are some of the related readings:

"The Crown Chakra is a Hyperspace Radio"

"What is God?"

"What is the True Guru?"

"On Opening the Crown Chakra"

As stated in the previous readings, the initiations for the mass awakening of the Avataric Company are to be given through the 8th, or Crown Chakra. Thus we are *beginning* with pure surrender to God, conditionless and total devotion to the will of the Infinite One. And we take the initiation through the God-Chakra as the preparatory step in our Awakening, once our motive of pure surrender has been established.

This channel has found certain aids and adjuncts in the plane of matter which have proven useful in opening the Crown Chakra. Cosmic Awareness has spoken of certain drugs and psychedelics which were used as a form of "survival medicine" by some of the Avatars during the great karmic storms that vented off the Armageddon energies from this plane. Those drugs and psychedelics served a positive purpose as a sort of 'crash emergency' measure. In this wise, they also helped raise the vibrations of this plane enough to prevent a crazed general from pushing the red button that would have unleashed nuclear holocaust.

This channel recognizes the legitimate and proper role of drugs and psychedelics in the scheme of life on this plane, and concurs that they did serve a valuable purpose in bringing humanity through the Straits of Armageddon. But that purpose has been served, and there is no more valid use of these drugs *as an end in themselves*.

Now is the time of conscious, deliberate awakening and pure surrender into God as the very first priority of life. And *then*, once this motive has been firmly established, there may be some external aids and adjuncts on the Path. But *never* do these aids have priority ahead of pure surrender, as an end in themselves, or as a means to try to "get" God or to manipulate God. There is plenty of that type of abuse going on among entities still serving the petty ego instead of surrendering to the Great Ego.

In pure surrender into God, in the Crown Chakra, coffee of all things has a strong cosmic resonance that amplifies and intensifies the current of energy through the Crown Chakra. This makes no sense to the 'rational mind'. But coffee, used moderately and intelligently, *does* serve as a useful aid in lighting the Crown Chakra. The meditation, the ecstasy, the current of bliss through the Chakra is intensified and sharpened by the judicious use of coffee. This channel has found that its best channelings and insights occur after drinking one or two cups. During the "peak" of the "rush" when the caffeine first infuses the bloodstream is the time of the deepest and most powerful Cosmic Consciousness.

Other entities may not find coffee to be an effective aid at all, and would be better off not to use it. But to those who do find it useful, here are a few tips:

Do not overeat or overfill the stomach. Always eat to a point short of fullness, even if it takes discipline and self-control to resist "filling up". (This applies to any serious spiritual aspirant as well.) Spiritual attunement is impaired by ingestion of dense food. The cosmic effect of coffee is best obtained on an empty or partially-filled stomach. The energy of "caffeine nerves" normally associated with coffee use is converted into an energy of pure Cosmic Consciousness and ecstasy, pouring as a current of Light through the chakra. The intense, exalted feeling of love toward God and the magnificence of all His creation are amplified and heightened.

Always obtain the highest quality of coffee available, preferably fresh-roasted beans that you grind yourself. The recent channeling by Cosmic Awareness on coffee is an excellent guide. Among the instant brands, if you are forced to use instants, this channel (Bill) has found "Taster's Choice" to be the most acceptable and least chemicalized.*

During meditations, with coffee or without, there are a few simple breathing exercises that are very beneficial. These help to oxygenate the blood and increase the Prana or Life-Force in the bloodstream, leading to much better cosmic attunement. Take 5 or 6 deep breaths, inhaling and exhaling *completely* on each. Hold the last in-breath for as long as it feels comfortable. If your Crown Chakra is active, you will feel a tremendous cosmic rush of pure ecstasy through the top of the head, infusing your whole being with the love of God. Let the breath out, and continue breathing normally, and surrender into the pure bliss and ecstasy as it continues to pour through the chakra, ebbing and flowing as the Cosmic Tide. For this is the Breath of the Universe, the Pure Ecstasy of God. While this current is flowing, continue surrendering into the concept of "Lord, not my will but Thine be done". Always keep your motive pure, and desire only to be a surrendered, emptied vessel of the Divine Will. And as you surrender, the universe, the very Soul of God, will begin to use your mind and faculties as a channel of Awareness.

No two channels are alike, any more than two snowflakes are alike. Never expect your channel to operate just like someone else's. The universe can express Itself through you in any of a billion ways--through speaking or writing, through art or craftsmanship or poetry or music. Never try to limit Consciousness or define how you *think* It should act. Give it free reign to express itself through your mind and your senses as freely as the clouds express themselves as snowflakes.

While the Cosmic Current is flowing in the Crown Chakra, you are also a powerful focus-point for infusing the Light of Infinity into this plane. The rites of High Magic for the healing of this planet are done while the Crown Chakra is open.

Believe it or not, one or two entities channeling the vibrations of 888 into this plane directly induced the hostage release in Iran on the 444th day (888 is the first frequency-harmonic of 444). That hostage release carries great symbolism for this planet, for it foreshadows the release of the True America, the 'High Country' of Consciousness, into wholesale manifestation on this plane. When *all* the Avatars awaken and begin channeling the Light of Infinity, the day will not be far off that this entire planet will be accelerated into Pure Light, consumed in the fires of the Resurrection. That is the lighting of the Freedom Star and the coming of the New Heavens and the New Earth.

It is the belief of this channel that the mundane and lowly coffee bean was placed in the earth as a cosmic herb, as a "medicine" for helping to cure the zombie-state that the human race has fallen into. This channel's own experience with this 'cosmic medicine' tends to bear this out.* It is the belief of this channel that coffee, already in widespread use, has been prepared by the hand of Providence as an "awakening tonic" to help entities back toward Cosmic Consciousness, which is their native state. This "tonic", long abused with no understanding of its true purpose, will finally come into its own as a legitimate aid and adjunct on this plane.

Not all entities will find coffee useful or even desirable. But those who do will find it a valuable tool in opening up the long-dormant faculties of the mind and spirit. Once the heart is set in Pure Devotion to God, then the aids and adjuncts can be used the way God intended. There may be legitimate uses for various other drugs and psychedelics besides. But the very *first* step in life is pure surrender to the Self, to God, and God will be the sole authority on what aids, if any, are to be used.

Considering the fallen, dense, zombie-state that man's consciousness has regressed to, it's not surprising if a few herbal "medicines" should be prescribed in his Awakening.

ED's Note: Paul Shockley confirms this about coffee. Although he does not use the substance before doing the trances in Olympia, he does use coffee in the mornings before the trances. He says there has been times when drinking coffee he could almost feel himself slipping into trance (generally times when he was doing something else and needed to be alert).

*One of our members who read the recent coffee rap by Awareness wrote to us, telling us he is in the coffee business. His firm imports real Antigua coffee beans, a gourmet bean almost impossible to find in the U.S. These beans are high mountain grown on their own plantation, with no pesticides or chemical additives. A complimentary pound of this superb coffee was sent to the CAC staff which now hails it as the finest coffee we ever drank. It also mixes well with other blends. The entity, at my request, will make this available to the membership (they are wholesalers only) in one pound packs. Price: \$5.95 plus postage of \$2.50, which will cover all mailing zones in the U.S. We heartily recommend the CAC membership order a pound of these coffee beans and try them. Write to:

WHAT DOES IT MEAN TO "BELIEVE ON" JESUS?

First of all, it means to believe his message and his teaching--to bring forth the same Christ, the same inner Reality that he demonstrated.

"Believing on Jesus" is *not* a vicarious atonement, contrary to the teaching of orthodox religion.

Jesus said, "I am the way, the truth, and the life". In other words, "I am the way-shower, the exemplar for you to follow". "As I have done, so you can do. The same Christ is within you as in me".

Jesus never set himself up as a personality to be worshipped. He said, "Why do you call me good? There is none good but God". Jesus, by his own example, taught self-abasement.

There is a vast difference of meaning between the names "Jesus" and "Christ". This is very important to understand. Jesus was the man, the human person. Christ is the Inner Spirit that Jesus declared is in all of us. Christ is the Cristos, the Comforter, the Holy Spirit. And Jesus declared that "The Kingdom of God is within you", in other words, the Higher Consciousness, the true God-Self is within *all* humans. The Apostles said, "Christ in you, the hope of glory", and "Let this mind be in you that was in Christ Jesus". "Let this True Self be raised up in your consciousness, which is exalted above the present human state as the human state is above a cow."

But in the present state it is our ego, our sense of self-sufficiency apart from God, that keeps us from actualizing the Christ within. That is why Jesus went to the cross--to demonstrate, in the most dramatic way possible, the death of the separative self, the death of the ego. The crucifixion is what we all must experience. Jesus didn't "do it for us" vicariously. To attain the Resurrection, which means raising up the 'New Man', we have to "die" to all we've lived by. All the conceits, the vanities, the judging, the self-righteous, the sense of self-importance, the pride, all we've lived by. All the conceits, the vanities, the judging, the self-righteousness, the sense of self-importance, the pride, all we've "lived" by, all have to be crucified so that the Real Self, the Christ, can be raised up. And the crucifixion of the ego may be very, very painful in some cases.

All this is what is involved in "believing on" Jesus. 3.

(With the advent of Grace or Bhakti, it is possible to crucify the ego in pure love toward God, without the pain of crucifixion. This when the heart can truly pray, "Lord, not my will but Thine be done." But for most of us, the ego dies hard. With our old human foibles, most of us have to experience the pain of the cross to one degree or another.)

John 3:16 says, "God so loved the world that He gave His only begotten son that whosoever 'believeth on' him shall have everlasting life". First of all, "the world" refers to the world as it was known to the people of Palestine--the areas of Judea, the Roman Empire, Asia Minor, and parts of northern Africa. The vast cultures lying to the East and in the Americas were not part of the world known to the Judeans. John was referring to "the world" not in a dogmatic sense, but in the way that it was understood by the people around him. And God's "only Begotten Son", God's Avatar, to that part of the world was Jesus. And "whosoever shall believe on Him" and follow his example, "shall have everlasting life". The same can be said of the followers of Buddha or Mohammed or Zoroaster or Krishna or Guru Nanak or Quetzalcoatl, the ancient Mexican Avatar. Each was the "only begotten son" to his particular time and culture. And each one, in his own unique parables, taught of the God within and showed his followers how to find that God.

A Christed humanity is a humanity rooted in this one central Truth of all religions. It is not just a 'Jesus cult'. When you "believe on Jesus", you recognize the Christ in all, no matter what their label or religion may be. Didn't Christ tell the Apostles, "I have other sheep who are not of this fold"? It was the Christ who spoke through the lips of the man Jesus.

No, when you "believe on Jesus", you recognize first the Christ in Jesus, who is the Christ within you, and is the Christ in all.

God can never be limited to having only one Son. All humanity is truly the "only Begotten Son". And God is the Father of us all. That is the message and example of the humble carpenter of Nazareth, the True Man and the completed human. Jesus represented the next evolution of man--the fully developed Consciousness already latent in man. He was a perfect forerunner of the New-Age humanity. "He who has seen me has seen the Father", the Christ of us all.

When you worship a historic person, it's okay if you're worshipping the Christ *within that person*. But if it becomes personality-centered and exclusive, then it stifles and binds and becomes a cult and shuts out the meaning of true religion.

True Christianity is not a 'Jesus cult' but is the religion of the Universal Christ. That is how to truly 'believe on' Jesus and his message.

The Bible does say that Jesus took on the sins of the world. This is called Karmic Intercession, the act of taking on oneself the karmic load of others. And Karmic Intercession reduces the world's load of sin automatically, regardless of anyone's "believing on" it or not. Other Avatars and Saints besides Jesus have taken on karma for the world. All down through history and even in the present day these on-going Intercessions have preserved the earth through her darkest hours.

Many of the Catholic saints such as St. Francis, St. John of the Cross, Padre Pio, and St. Bernadette are also examples of Christed souls who took on suffering for the world. The passion of Christ, the urge to lessen the load of others, is a universal instinct to the Higher Consciousness. It is found also among Swamis and Gurus of the East. Wherever Divine Love lives, the 'Atonement urge' will be found, even if it's just toward immediate neighbors. This too, is part of 'believing on Jesus'.

EXAMPLES OF THE CHRIST CONSCIOUSNESS (John Denver)

John Denver wrote sacred scripture. Though not set in religious form, Denver's music can stand alongside the great Holy Books of the world. Using the allegories of nature and material creation, Denver drew forth the deepest and most sublime concepts of the heart and soul of God.

All which is pure, all that is lovely, all that is natural and unspoiled, is scripture. Whether the footpaths of Hiawatha or the snows of Himalaya, it all bears witness to the purity and grace of the Immaculate Concept, the unity of Spirit and matter.

An Arizona sunset or the high meadows of the Rockies, or the shining eyes of a puppy or the love of a pure woman--all are the "Living Scriptures" of God.

The ability to see and experience God in all things is the function of "The Christ in you, the hope of glory", the awakening of your true, inner Self.

ED's Note: It is ironic that John Denver's poetic and inspiring albums are on the 'Moral Majority's' list and being burned by fundamentalists all over the U.S. The entity's soaring paean to God and nature, "Rocky Mountain High" is cited by these assholes as being a song designed to encourage teenagers to smoke dope!

AN APOLOGY TO THE RUSSIANS

Dear Avaton...I feel kinda sorry about the controversy that came up over the use of the word "Russian". The word "Bolshevik" should have been used instead. If you get further howls over that point, maybe you could drop a card to the entities telling them to substitute the word "Bolshevik" for "Russians", and then the intended meaning will be clear.

One thing it did accomplish, though, was to shake up entities who are wrapped up in hating the Jews. Hopefully the Zionist material will help these entities not to hate the Jews. Sincerely, Bill.

ED's Note: Bill is referring to his now famous reference printed previously--"the Russian noose".

A COSMIC HISTORY OF THE ROTHSCHILDS

Dear folks....I just wanted to pass on a very joyful state of affairs that's beginning to shape up. We've just begun to tap into the plane of Oneness, which lies beyond all duality and beyond all concepts of "attacking" anything. Last Monday, I drew deeply into the Crown Chakra and asked, "What is Thy will, O Lord?" And instantly the cosmos flashed back, "Light the Rothschilds with love." So I drew into the Crown Chakra again and started beaming in to the House of Rothschild and the Council of 13, sending them messages of Grace and that God will still forgive them. That same day I got sick and was sick for several days, evidently taking a load of the Rothschilds' karma.

These beings have never known or felt love since long before the time of Maldek. They are *responding*. On the interplane, I can feel their response to love instead of hate. They can be turned, even as Rhyee turned. If enough of us will quit hating and abhorring them, and extend the hand of Grace and help, they can be turned tomorrow. If we keep beaming Light and love to them instead of hate and destruction, the entire Beast system of the world can be transformed into a benevolent system, ready for the Law of the One.

In that "experience" of 6 years ago, one of the 'atonements' was for the demons themselves to be given a chance to repent. And it spoke of Lucifer having repented and being restored to his former state as the "Shining Star of the Dawn".

Right now, I'm channeling all the energy I can muster into lighting the Rothschilds and the Beast, and also for the awakening of the Avatars. As more and more Avatars begin awakening and the Lights start coming on all over the world, these Lights can begin taking over the reprogramming of the mass consciousness.

"As I AM, O son of Baal, so wert thou when the morning stars sang together and the lights of OM danced on the face of the One. But then began the Great Experiment, when God descended to know good and evil."

The following paragraph was just written, after an out-of-body trip in which there was a struggle, like a battle of wills. This was a mind-probe, an actual feeling, of the Rothschilds' ages-old encrustation of hate and distrust. Yet it is an encrustation that can be broken down with love.

"Back in the year 1974, the astral attacks, the mental invasions, the mind-rapes, and the physical attacks reached such a crescendo that there was no possible course except insanity and total breakdown. Yet miraculously this all triggered off that high religious experience instead. That experience spoke of the Great Intercession by the Avatars, and it spoke even your name, my Rothschild brother. Even you. I came forth from the Godhead, from the void beyond nirvana, to redeem you, my brother. And as I vowed then, I vow even now--I will see you redeemed and restored, or lo, I will not return myself."

Rothschild is a single soul now fractioned into a number of lifestreams, all comprizing the Beast hierarchy. As this entity turns to the Light, the entire Beast system will also turn. The power to turn it is Love and Forgiveness, and the desire to heal and restore.

The ancient karma of the Jews is also intertwined with that of Rothschild, reaching back to the time of Maldek. The healing of Rothschild will also commence the healing and restoration of the Jewish race.

I realize this material sounds bizarre and disturbing, but the history of the Beast on the earth is indeed stranger than any fiction. I'm trying to go slow enough to bring this all through in the literal, without letting it get off into allegory and figure-meaning.

Right now, the biggest hindrance to breaking through to the Beast is the Light Workers themselves. The Light Workers are still set in the "attack" mode, and this is blocking everything. The Beast *wants* to respond. I could feel this in the mind-probe. But it can't, not until the Light Workers come out of the "attack" mode and embrace the idea of loving and forgiving the Beast.

Right now as I write this, a strange "trip" is commencing which used to happen when I was a child. My whole "headspace" subtly becomes a feeling of vast, open reaches of cosmos and space. Things "look" the same, but they're light-years and eons away in space and time. Those childhood "trips" always petered out after 5 or 10 minutes, but I want to see if this one will lead anywhere. I draw into the Crown Chakra and ask the Cosmos "Thy will be done. Thou art the Author and Finisher of all things".

Genesis One is far more than just the creation of the planet earth. It is the creation of the physical universe itself. The "earth" in Genesis One is Nature, the Mother-side of God. Creation eventually embarked upon the Luciferian Experiment, the experiment in duality and karma. The planet Maldek became one of the outposts of this Great Experiment. On these outpost-worlds, certain entities fell into the First Separation, creating the first duality, or man-apart-from-God. This was the first maya and the first karma. But it was with the express knowledge and consent of God that maya would be a part of Creation. The entities who followed maya became the "laggards" and Fallen ones, symbolized as the fallen stars, or demons. These Fallen Ones took birth on the outpost-worlds and organized the opposition to the Sons of the One. Their number was 666, the number of man separated from God.

The laggards or Fallen Ones fought against the Sons of the One and set up governments and dictatorships on the outpost worlds. On some of the outpost-worlds, the Sons of the One prevailed, and the worlds were healed and restored to God. On other outpost-worlds, the Fallen Ones prevailed and destroyed these worlds. Maldek was one of the final gathering-places in this sector of the universe for entities from the destroyed worlds. The drama was played out again on Maldek, and Maldek too was destroyed. The entities migrated to earth, an inner planet from Maldek, and the drama was repeated again, this time destroying Lemuria though not the whole earth. The laggards and Fallen Ones now set up a nation of their own on the earth, a nation of sorcerers and black magicians who used the forces of the Cosmos without loving the Cosmos. This nation was called Suernis or Suernia, and was contemporary with Atlantis. This was before Atlantis went into decline. The Suernians lacked the technologies and scientific marvels of Atlantis, but they compensated for this lack through the black arts.

The Suernians were the Fallen Ones from Maldek, who wreaked havoc in Lemura and now were a mounting threat to Atlantis. (The Suernians were also the same entities who became the Hebrews in a later age, and are the Jews of today. Rothschild was their leader on Maldek, in Lemuria, on Suernis, and who ruthlessly uses the Jews even today. Rothschild has no love for the Jews, but simply uses them as pawns and puppets to enslave and destroy worlds.) This is the source of the ancient karma that has hounded and plagued the Jews, a karma that traces back to Maldek and earlier.

Rothschild is the Satan, one of the aspects of Ahriman, the "high lieutenant" of Rhyee or Lucifer. Rothschild is the embodied *aspect* of Ahriman.

(I hadn't intended this letter to become so long-winded, but it is digging literal events from antiquity that normally come through only as vague allegories and metaphors.)

The inner circle of Ahriman (or Council of 13) that ruled Suernis was adept at creating androids, just as they are today. And through subterfuge and intrigues, they eventually took over Atlantis and overthrew the Sons of the One.

[The bulk of the Atlanteans are incarnate again today as Americans] And the whole drama has been played out again, with the same characters, the same entities, and the same plot. But there is one major twist to the story now: the Great Intercession, the Intervention of the Hand of God, is ending the Luciferian Experiment and *bringing back* the Law of the One.

Down through time, Avatars have repeatedly come to see if Ahriman and the Fallen Ones were ready to break off the Great Experiment. The Avatars came to the Suernians, to the Atlanteans, and came again as Abraham and Moses. And then Jesus came with the radically-new concept of Grace, which was capable of absolving all karma. But the Fallen Ones were not ready yet, and crucified the Avatars.

The cry of humanity, the cry of the Jews, has risen to the heights, and the answer has come back, "enough!" The point of the Great Experiment has been proved. And it is being forcibly ended. It is being ended in love and mercy, not by hate and war.

We come from beyond the void, from the 8 of Infinity, to end the Great Experiment.

In human folly, I tried to "attack" and destroy Rothschild. But I could not touch him while I was in that mode of duality. But from the plane of Oneness, I have reached out in love and touched him. Rothschild himself will turn. The entire Beast system will come and stand beside us in love. But the blockage lies with the Light Workers themselves. The Light Workers who are still in duality, in karma, who are still "against" and fighting, still hating, still supposing there to be an enemy, are *BLOCKING* the New Age.

Only Oneness, only non-duality, only Love, will end the Great Experiment now. True, the Light Workers have to understand the depths of evil that Rothschild has reached and the way he has used the Jews to do it. But the Light Workers *must not stop there*. We have to go on to the plane of Oneness, and collectively offer the Love and Grace and forgiveness of God to Rothschild. This could be done tomorrow, if all the Light Workers could rise above duality, above hating, above being "against" anything.

There is a new movie coming out, the 3rd part of the *Omen* trilogy (called *The Final Conflict*). There appears to be great symbolism in this. But entities seeing this movie should understand the greatest lesson it can teach: that is to rise above hating, to rise above the vanity of "attacking" the Beast. Light Workers must be able to see the Beast not as an enemy, but as a Fallen brother who can be healed and forgiven and completely restored, even as Rhyee has been.

Also, in the book, *A Dweller on Two Planets*, by a discarnate entity known as Phylos, there appears an actual chronicle of the Jews as they lived in the ancient land of Suernia. This was after they came from Maldek

But the New Age is here. The Law of the One is already rooted in the earth again. The full flowering of the New Age could take years or decades. Or it could be reduced to weeks or months. It all depends on how speedily the Avatars awaken to become Light Workers, and how readily the Light Workers embrace their 'First Love' and rise into the plane of Oneness.

The New Age is energized by entities who are established in Oneness, which is beyond all duality and karma. It is Grace, or the Immaculate Concept, which claims no enemy or opponent. Under Grace, the only enemy is maya, the concept of separation from God.

Entities for the most part must climb the ladder of duality step-by-step, unfoldment to unfoldment, to arrive at the plane of Oneness. But there are other entities who *can* make the jump to Oneness in one quantum leap of consciousness, bypassing all the intermediate steps. These entities are the 'prime movers' and energizers of consciousness, and are fully yielded to God their "First Love".

Sincerely, Bill.
