Cosmic Awareness Communications

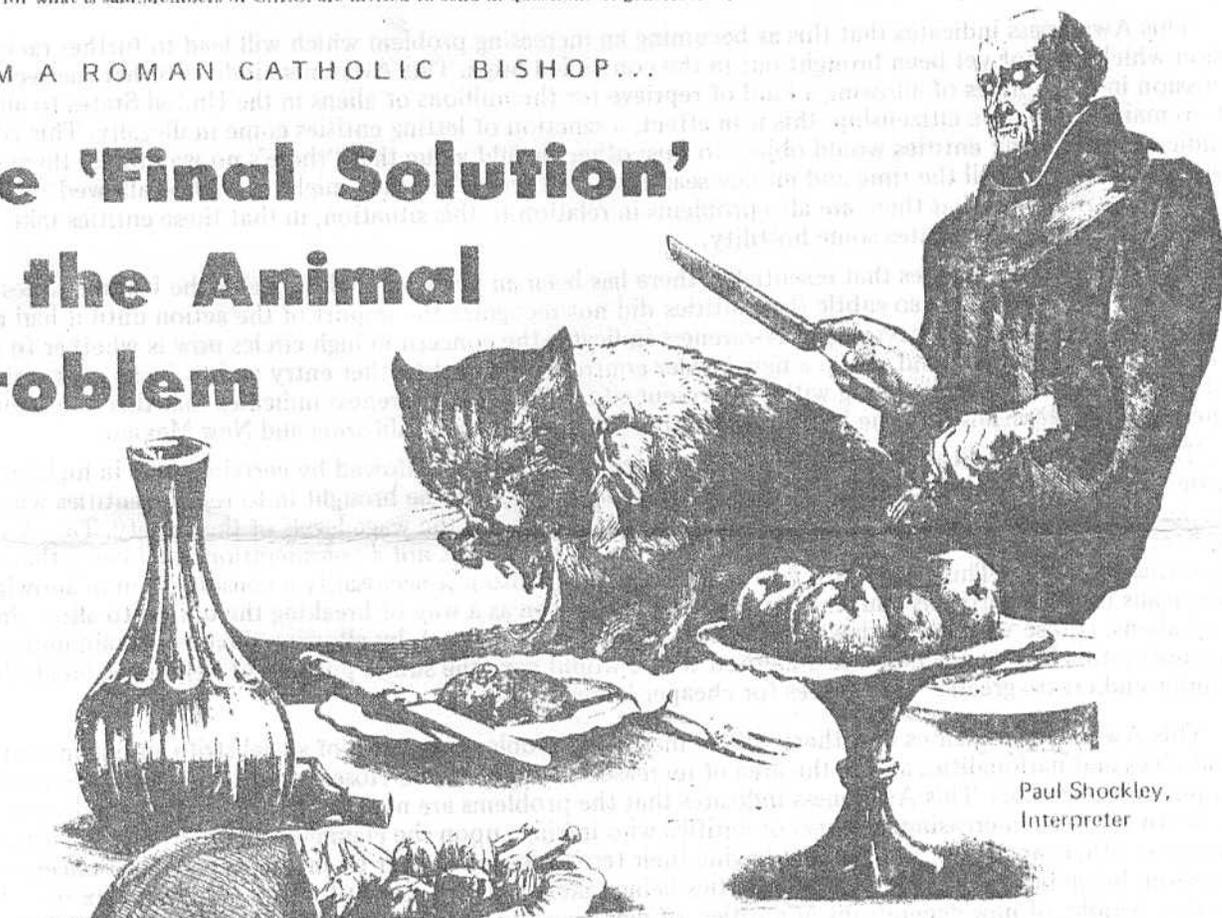

P. O. Box 115, Olympia, Washington 98507

( Helping people to become aware )

COSMIC AWARENESS is the Force that expressed itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is **not** personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

FROM A ROMAN CATHOLIC BISHOP...

## The 'Final Solution' to the Animal Problem

Paul Shockley, Interpreter

THE ILLEGAL INVASION OF ALIENS - A PLOT TO BREAK THE LABOR UNIONS, CREATE RACIAL STRIFE

### QUESTION:

A question from D.B. of Long Beach, Calif., "Last July a small item appeared in the *Long Beach Press Telegram* that the police had found heads, skins, and bones of dogs and birds buried in one of our parks. There were no bullet holes, so the police surmised that the dogs and birds had been killed with rocks and eaten by the orientals. Everyone knows they love dog meat. Tourists in the Orient are warned to be careful walking their dogs. To date, Los Angeles county has taken in 35,000 of these people. We have several families near us. For the most part they are thrifty and well-behaved. I see them, the woman and children, going up and down our alleys gathering the trash we throw away. They like beer cans and have bags of them over their shoulders. But their housewife is primitive I understand; the women hang their washing on the front porch, and the teachers tell me that the children have to be taught to use the toilet. Nothing is ever thrown away; they

even make soup of the weeds that grow on the curbs, and of course gas stoves and refrigerators and electric lights and cars are all new to them, but they are learning fast. The ones that were here first are helping those

who come later, and while they are not given any money, the volunteer agencies that sponsor them see to it that they have housing, good food and clothes for a time, but unless they can find work and get some money, sometimes they are forced to go on welfare. Governor Brown in a speech over the radio said that the city of Los Angeles was now one-half Mexican and by the year 2000 it would be 90% Mexican. He was telling us here in California to learn Spanish and being kidded about the fact that he couldn't speak a word of Spanish himself. These people are untrained too, but unless they can get jobs, (and they are willing to do any hard dirty work that the Americans won't do), they have to go on welfare. Our Med-Cal payments are now 2 billion dollars. Of course Welfare is only one of the counter ruling factors, but Los Angeles is going broke. The taxpayers are screaming and the race wars have already started. My question is: I know there isn't any quick solution; but is there *any* solution? Signed, 'Scared in Long Beach--D.B.'

#### THE SUBTLE INVASION OF THE UNITED STATES

#### COSMIC AWARENESS:

This Awareness indicates that this is becoming an increasing problem which will lead to further racial tension which has not yet been brought out in the controlled press. This Awareness indicates that the recent discussion in high circles of allowing a kind of reprieve for the millions of aliens in the United States to allow them to remain and receive citizenship; this is in effect, a sanction of letting entities come in illegally. This Awareness indicates that many entities would object to this; others would argue that "there's no way to get them out anyway, so why spend all the time and money searching for them when they might as well be allowed?" This Awareness indicates that there are also problems in relation to this situation, in that these entities take jobs from others, and this creates some hostility.

This Awareness indicates that essentially, there has been an invasion of this area of the United States by the Mexicans which has been so subtle that entities did not recognize the import of the action until it had reached a point of near critical concern. This Awareness indicates the concern in high circles now is whether to allow these entities to remain and set up a new border control to prevent further entry and to focus on keeping others from entering while living with the present situation. This Awareness indicates that this in reference to the influx of Mexicans into the United States through Arizona and California and New Mexico.

This Awareness indicates that part of this is being promoted and allowed by certain forces in high levels in order to assist in breaking up the unions, whereby cheap labor can be brought in to replace entities who are backed by unions. This will begin to break down the unions and the wage levels of the society. This Awareness indicates that in terms of the Vietnamese and the Cubans, this was not a consideration in allowing them to enter into this country. [ This Awareness indicates that this was also not necessarily a consideration in allowing the Mexicans to enter into this country, but has been since seen as a way of breaking the unions to allow these illegal aliens, (those who do not have permission to enter the country), by allowing them to remain under an amnesty;-this being considered as a method which would have the subtle purpose of helping to break the unions and create greater labor forces for cheaper labor.]

This Awareness indicates that there will be increasing problems in terms of social strife among minorities and races and nationalities and in the area of increased population and closer association of entities as that population increases. This Awareness indicates that the problems are not simple. On the one hand, there is the concern for these increasing numbers of entities who infringe upon the claimed territorial rights of others, and whereby others are angry and upset at having their territories taken over by intruders, and the concern for freedom being taken away, individual liberties being taken away, to make room for greater influx of outsiders, of new people, of new generations of entities, of new programs. Then on the other hand, there is the concern for preserving the rights of life for the 4-1/2 billion entities and the more to come against the plans of those who would destroy two-thirds of the earth's population within the next 20 years. \*

This Awareness indicates that this is a situation which needs to be looked at very carefully; and entities who do not wish to see the two-thirds population of the earth destroyed may wish to look at their neighbors carefully and ask themselves: "Is it possible for me to get along with these entities in a manner whereby we can live harmoniously on this little space which we have? Or should I join with those who would destroy two-thirds of the earth's population in order that entities like myself could have more room and not need to find ways of relating to these entities which seem so different from myself?"

This Awareness indicates that obviously, an entity will recognize the need to find ways of not only aligning oneself with the planet earth, with the Universal Forces, but also with those entities of one's family, of one's society, and of the various cultures, so that greater communication and harmony can be tolerated and allowed without explosive friction and hostility.

\*\*\*\*\*

ED's Note: Awareness is referring to that part of the Beast's program called "Operation Global 2000" which calls for the annihilation of two-thirds of the world's population by the year 2000, through wars, starvation, weather warfare etc. This program was introduced by Henry Kissinger and the Rockefeller powers and has been embraced by the bankers and many of our political leaders, as well as the United Nations. (More on this sinister plot, now in effect, will be published by C.A.C. later on). For an indepth report on this world-genocide plot, please subscribe to New Solidarity, the weekly paper put out by the U.S. Labor Party (recommended by Awareness as one of the few uncontrolled presses). This paper is running an expose of those who are promoting Operation Global 2000 and how it is being effectively used even now. Write to: New Solidarity, C/O Campaigner Publications, 304, W. 58th St., New York, N.Y. 10029. (50 issues for \$15 or 100 issues for \$25).

## A MODEST PROPOSAL TO END THE ANIMAL PROBLEM

(GETTING EXTRA MILEAGE OUT OF FIDO)

### QUESTION:

In reference to orientals eating cats and dogs: there has been about 30,000 of these entities move in to the lower Puget Sound area in the last few years and there's been recurring stories that complete neighborhoods are being wiped out of their animals and they usually can eventually trace it to an oriental family, and there was a story that recently appeared in the papers on how a Catholic priest, a Bishop I believe it was, has a solution, and I'd like to ask Awareness to comment on his suggestion:

"In San Francisco, a suggestion that impoverished refugees be allowed to dine on dogs and cats has brought howls of protest from animal lovers. The reverend John J. O'Connor says he's not sure why. O'Connor, who heads Catholic Charities for the San Francisco arch-diocese, made the suggestion in a letter sent in February to San Francisco State University student Patricia Briggs, who had asked what the Charities were doing about reports of pet-eating by Vietnamese refugees. In his letter, O'Connor noted that society spends hundreds of thousands of dollars yearly to kill or spay hundreds of thousands of pets. 'I see absolutely nothing wrong with encouraging refugees to go to the local humane societies and claim unclaimed pets for personal consumption. I would especially encourage this for people on meager salaries', he added." Would Awareness comment on this suggestion?

### COSMIC AWARENESS:

This Awareness indicates that this action as that which does meet a problem head-on with a solution that answers two problems at once. This Awareness indicates that wherein the Humane Society and cities are destroying animals daily and by thousands, and the animal population has become a problem for cities, and whereby the oriental entities are out in the neighborhood stealing pets from the local neighbors, and whereby someone suggests that these entities rather go to the dog pound or Humane Society and take those animals instead of the pets of those in the neighborhood--this Awareness indicates that this as a solution which meets the problem head-on, as a very practical approach.

This Awareness indicates however, the solution is very distasteful to the animal-lovers,...(no pun intended)...

\*\*\*\*

ED's Note: at this point the Interpreter broke out laughing, as did the energizers, the pun knocking Paul out of trance. We did not wish to let the issue stand at what Awareness had briefly related to animal-eating, so the next day during another trance session further questions along this line were asked. This reading follows.

### EATING DOMESTIC ANIMALS IS NOTHING NEW

### QUESTION:

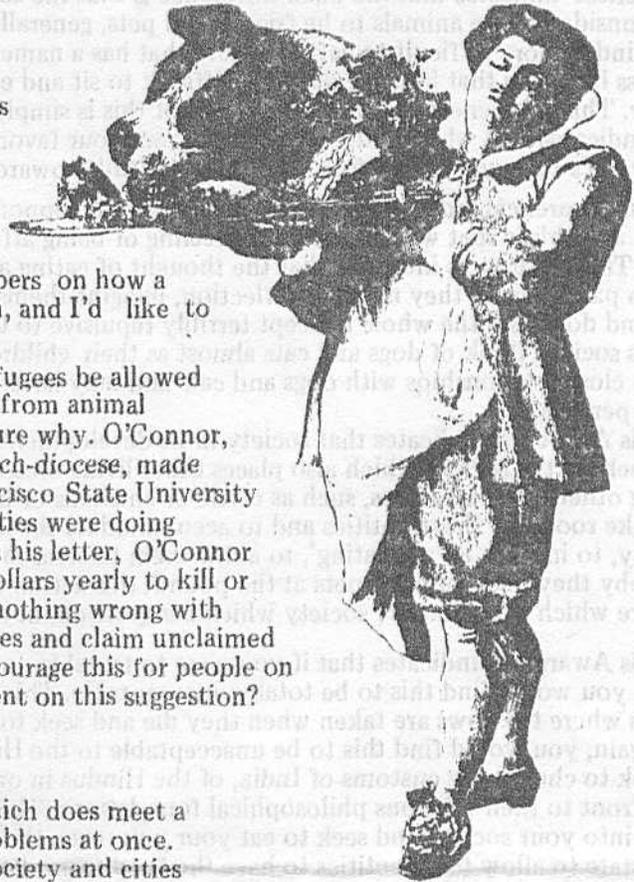

(Getting a piece of Myrtle)

Did Awareness complete *Its* statement on the final question last night regarding the eating of domestic animals by orientals? (This reading was interrupted by a pun.)

### COSMIC AWARENESS:

This Awareness indicates that the Americans and culture of the entities, particularly in the United States and many countries of Europe, find the concept of eating 'pets' or domestic animals to be highly repulsive. This Awareness indicates that not all cultures have this same attitude. This Awareness indicates that in many other countries, such as in many of the oriental countries and in Greece and certain other areas of the Mediterranean, the eating of cats and dogs is not seen as repulsive. This Awareness indicates also, many of these countries eat snakes, rats, and other creatures. This Awareness indicates that there also are certain groups and families in the southern part of the United States which, particularly in past generations but still somewhat in present times, indulge in eating rats.

This Awareness indicates that these activities are repulsive to many entities of the so-called 'civilized' countries who do not indulge in eating domestic animals or rodents of this type. This Awareness indicates that in some instances, American Indians have also in past generations and in some cases recent times, indulged in the eating of domestic animals and rodents. This Awareness indicates that this is not as uncommon among cultures as it may seem. This Awareness suggests that while being highly repulsive to the citizens of the United States in particular and in certain countries of Europe, the concept of eating domestic animals in many other cultures is not looked upon with repulsion, but is perfectly acceptable.

This Awareness indicates this society itself may not be much further ahead in that it consumes large amounts of flesh from other animals which also may be considered as domestic, such as the cow or sheep or chicken. This Awareness indicates that the main difference is that the society has a different classification for cats and dogs and considers these animals to be friends and pets, generally having names. This Awareness indicates that entities find it more difficult to eat a creature that has a name,--a personal name, such as Rex or Rover. This Awareness indicates that it is not quite so difficult to sit and eat a piece of steak which comes from an anonymous donor. This Awareness indicates that much of this is simply a matter of attitude and programming. This Awareness indicates that wherein the steak came from your favorite calf, Myrtle, and you found yourself eating one of Myrtle's ribs, you would find a different attitude toward the piece of meat on your platter.

This Awareness indicates that it is the concept of rapport which they do not necessarily have with other animals, and this is that which creates the feeling of being affronted by those entities who would eat cats and dogs. This Awareness indicates that the thought of eating a cat or dog by many entities of this society is repulsive in part because they must, in reflection, imagine themselves eating a cat or dog, and having a rapport with cats and dogs find the whole concept terribly repulsive to them. This Awareness indicates that many entities in this society think of dogs and cats almost as their children. In fact, there are some entities who can only establish close relationships with dogs and cats and may have closer rapport with these animals than with any other persons.

This Awareness indicates that society in its development, placing cats and dogs in high esteem, is only one step behind the society which also places other living creatures in high esteem and which would not consider eating other living creatures, such as cattle or chickens or birds. This Awareness indicates that for the society to make room for those entities and to accommodate those entities who wish to bring their culture into that society, to indulge in 'pet-eating', to allow them to steal the pets of neighbors, or to create an opportunity whereby they may shop for pets at the pound; this action encourages the continuance of that element of the culture which is behind the society which has gone on, beyond that level.

This Awareness indicates that if you were to travel to India, and ask those of India to let you eat their pet cows, you would find this to be totally unacceptable. This Awareness indicates that if you were to go to the places where the cows are taken when they die and seek to have an agreement allowing you to eat these animals, again, you would find this to be unacceptable to the Hindu culture. This Awareness indicates that for you to seek to change the customs of India, of the Hindus in order to accommodate your appetites, this would be an affront to their religious philosophical foundations. This Awareness indicates that likewise, wherein entities enter into your society and seek to eat your pets, even though it may be arranged from an economic and practical state to allow these entities to have the food from the pound or the Humane Society and its extermination processes, this still is an affront to the consciousness of the society which is moving beyond such levels in its evolution.

#### GUESS WHAT'S FOR DINNER -- Sauerkraut, Chow Mein, and your Tom Cat

This Awareness indicates that the repulsion experienced by many entities in regard to the eating of domestic animals is similar to that which the Hindus experience when thinking of Americans and others of the Western world who indulge in eating cattle. This Awareness indicates that many of these entities of India consider the eating of flesh in *any* form as being just one step away from cannibalism, and are highly repulsed by such concepts and attitudes and the actions of entities who eat the flesh of animals.

This Awareness indicates that therefore, cultures become accustomed to their own standards of acceptability from continued practice of the eating of certain foods, and when faced with the prospects of different cultures having different standards, are often appalled or shocked at these standards. This Awareness indicates that in older days of the Roman Empire, there was a common law given to the soldiers of Rome: "When in Rome, do as the Romans do". This Awareness indicates that this implied that when in other cultures, you recognize their standards. This Awareness indicates that wherein entities enter into your particular culture and you do not appreciate or accept the standards which they hold, the recourse is to ask for legislation and pass laws, or to work out agreements in some way, whereby these entities will comply with the standards of your society, either voluntarily or by legislated laws.

This Awareness indicates that obviously, there is the distasteful feeling toward these activities, whereby entities eat domestic animals which are held in high respect in your culture. This Awareness indicates however, there is little real concern among the people in regards to the pounds and Humane Societies picking up stray animals and having them suffocated or gassed by the thousands, so long as no one sees or hears about this, and so long as they are shoved out of sight or buried or burned, so that there are no traces left. This Awareness indicates that for the public to hear of an agreement whereby these animals would be used for food for a segment of the population, this is totally appalling, and entities would prefer these animals be put to death for no useful purpose.

This Awareness indicates that from a practical, economic sense it would appear that these animals could best be utilized as food for this segment of society which desires to eat such animals. This Awareness indicates however, that this is an affront to the level of society in which these entities have entered; and the society's standards which do not accept this type of action would need to be lowered to accommodate this segment of society. This Awareness indicates that from *this* sense, the concern is more than merely economic consideration; for there is the concern of the evolution of a society in its general growth, whereby a society on its path of evolution is asked to take a step backwards to accommodate laggards who are but one step away from cannibalism.

## THE ANSWER TO FLESH-EATING IS INCREASING THE AWARENESS

( Public attention and animal birth control also needed )

This Awareness indicates therefore, the question may be considered from that of whether the economic concern is of greater importance than the ethical and social evolution concern, and whether a society which has allowed foreign elements to enter as guests in that society should be burdened by their habits which are alien and unacceptable to the society. This Awareness indicates that the solution does not lie simply in the economics of the situation, but rather in assisting the foreign element to evolve to the standards of the new society.

This Awareness suggests that this be accomplished through education techniques, educating the children and the adults as much as is possible to the adjustment or alignment with the new culture to avoid what may be termed the 'cultural shock' which these entities may experience in finding such diversity between the previous cultural activities and the new culture into which they have entered. This Awareness indicates that this should, in fact, be a priority for any element of a foreign nature which moves into a society; that it be given the opportunity for adjustment and for orientation into that society along with its standards and cultural rules.

This Awareness indicates that this discussion does not in any way diminish the need for better approaches to the problem of what to do about the stray cats and dogs which are plaguing cities and societies, and which are being put to death by the thousands each day. This Awareness indicates this also requires of the culture greater attention and education in terms of the various means of birth control for the animal population, so that this need not continue at such rampant pace. This Awareness indicates that likewise, this culture must also, in time, move on beyond the actions of raising animals for slaughter, to eat and to use for clothing and other purposes.

This Awareness indicates that these things do take time, even as it took thousands of years for entities to move out of cannibalistic tendencies, to cease eating each other. This Awareness indicates it also will take time for cultures to move beyond the eating of animals. This Awareness indicates that this however, is increasing rapidly on this plane, as other types of food are discovered and developed which give better nourishment or sufficient nourishment to replace the more commonly used nourishment provided by flesh.

This Awareness indicates that the movements of social change are slow and gradual. That entities who wish to speed up that change may find it valuable to communicate their ideas, for communication educates others. This Awareness suggests in terms of these entities eating cats and dogs, the more this is brought to public attention in protest, the sooner this will cease. This Awareness suggests that entities wishing to put a stop to this should begin letter campaigns to newspapers, and discussing this on radio talk shows and putting up signs in their neighborhood calling attention to this. This Awareness suggests however, you take care not to turn this action into a 'witch hunt' against these people whose culture has allowed them to indulge in such activities, but rather that you call for a program to educate these entities and to assist them in finding other sources of food and 'giving them the word' that your society simply will not tolerate their eating of your cats and dogs.

This Awareness indicates that this needs not turn into a bigotry or intense conflict, but may remain in levels of firm confrontation, with communication emphasizing an educational program for adjusting these entities to the cultural environment in which they have entered that they might better understand the standards of your society. This Awareness suggests that you may petition your city to enact laws against any such kidnapping of cats and dogs by entities who would devour or harm these animals.

### IT'S TIME TO DEAL WITH THE TORTURING OF ANIMALS IN GREECE

This Awareness indicates that the nation of Greece as also having a very low regard for animals. That these entities often indulge in torturing animals for the sheer pleasure of such actions and the government does not have any restrictions on such actions. This Awareness suggests that it would be also beneficial for entities to concern themselves with this type of affront to animals in the country of Greece and in other similar countries. This Awareness indicates that more information regarding a program for action in this regard can be forthcoming at a later time. This Awareness is referring to a type of action similar to Amnesty

International, which focuses on human rights and political prisoners, but whereby this action would focus on the rights of animals and creatures other than human--this being for the purpose of calling attention to gross violations and torture of animals.

UNDER THE CATHOLIC BISHOP'S PLAN,  
HOW WOULD THESE ANIMALS BE DISPATCHED ?

( U.S.D.A Stamp of Approval Should be Required )

QUESTION:

This might be a point to consider in the campaigns entities might make in their local areas. This Catholic bishop suggested these oriental entities pick these animals up alive at the dog pound, which raises the question of *how* would they dispatch these animals? Would they do it in a humane manner or would they treat them like a lobster, maybe putting a live cat into boiling water. And there's also the question of disease. Probably a lot of these animals are sick with distemper, and full of parasites, and maybe the entities that eat these would get sick and spread their sickness to others. Are these valid points to consider in the argument against the eating of these domestic pets?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative; that entities should not consider eating any cat or dog that does not have the FDA stamp of approval or the Agricultural pull date. This Awareness indicates that obviously, these animals are not raised for purposes of human consumption and therefore, from a mere hygienic point of view, these animals could spread disease to entities. Some of these animals may have various types of disease, ranging from cancer to distemper to rabies or leukemia, to other unknown diseases and containing parasites. This Awareness indicates that this as being not only unhealthy to the entity which might eat such creatures, but also this may spread among those who are associated with the entities who eat these creatures.

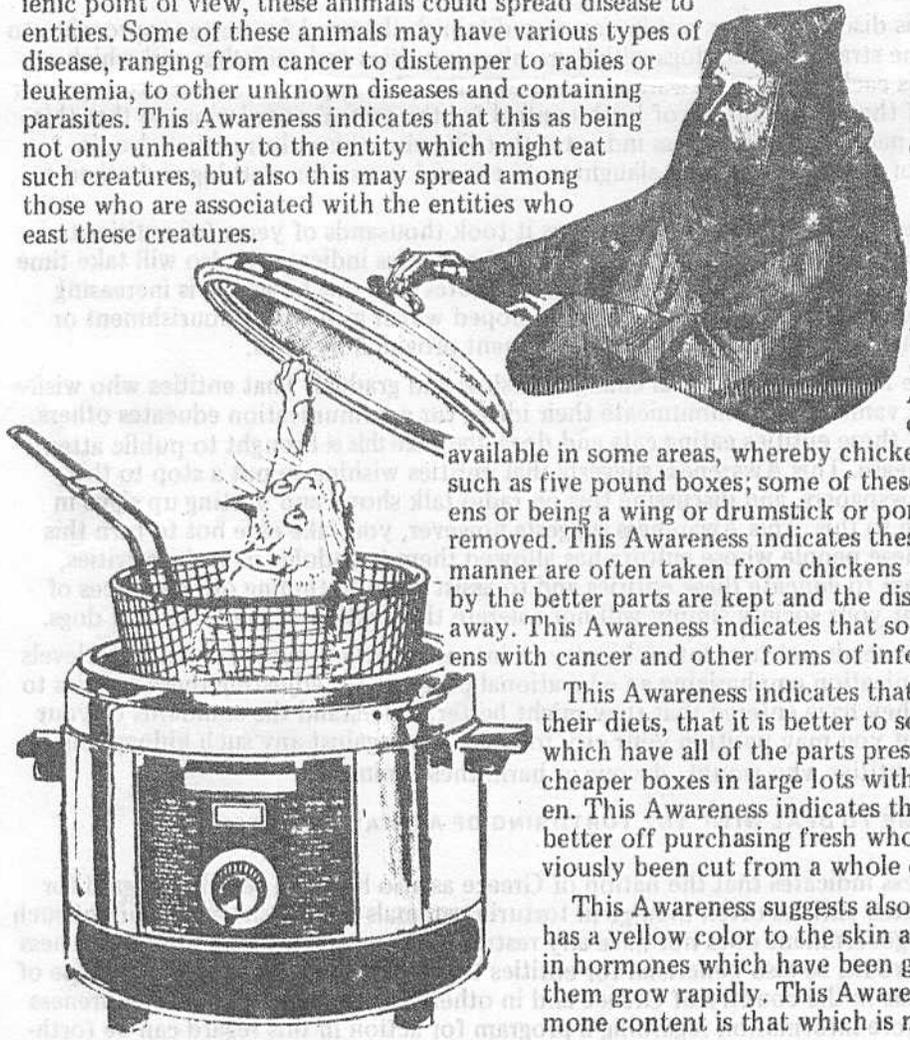

A WORD TO THOSE  
WHO EAT CHICKEN

( DON'T BUY BOXES OF PARTS )

This Awareness wishes, while on the subject, to point out another area paralleling this topic. This Awareness indicates this in reference to certain fowl; these being available in some areas, whereby chicken parts are sold in large quantities such as five pound boxes; some of these parts not being complete chickens or being a wing or drumstick or portion with portions of the part removed. This Awareness indicates these parts of chicken sold in this manner are often taken from chickens which have been diseased, whereby the better parts are kept and the diseased parts are cut off and thrown away. This Awareness indicates that some of this is in reference to chickens with cancer and other forms of infectious diseases.

This Awareness indicates that for entities who use chicken in their diets, that it is better to select whole chickens or those which have all of the parts present, rather than purchasing the cheaper boxes in large lots with parts or smaller pieces of chicken. This Awareness indicates that to be safe, entities would be better off purchasing fresh whole chicken or that which has obviously been cut from a whole chicken.

This Awareness suggests also, in this regard, chicken which has a yellow color to the skin and fatty tissue is generally high in hormones which have been given to these chickens to make them grow rapidly. This Awareness indicates that this high hormone content is that which is not healthy for entities.

This Awareness suggests that the whiter meat of chickens which as white or bluish skin as that which does not have this high level of hormone additives. This Awareness indicates that this high level of hormone additives is usually found in chicken which has been shipped long distances to other areas partially frozen; and that chicken which has been locally grown or which does not show the yellow-colored tint in the flesh and fatty tissues, are somewhat more healthful than the others.

This Awareness indicates there is, however, good likelihood that any commercially grown chicken will have some excess hormone added to their feed and in their system. This Awareness indicates that *It* is suggesting that you be aware of the effects of excessive hormone additives and how to spot these chickens which have excessive hormone additives.

#### HOW ABOUT THE FAST-FOOD CHICKEN CHAINS ?

( Three Cheers for the Colonel! )

#### QUESTION:

Would Awareness indicate whether it's the general practice of some of these fast-food chicken chains such as Chicken Delight, Colonel Sanders and so forth; if these companies as a general rule include diseased parts of chickens or chickens that are overly-charged with these hormones? It's difficult, almost impossible to tell once you eat this because it's been baked-over and you can't even see the color.

#### COSMIC AWARENESS:

This Awareness indicates that the Colonel Sanders type restaurant does not use diseased parts or chickens with diseased parts. This Awareness indicates that this company as of present time is careful in its standards. ( This Awareness indicates however, this does not mean that the standards may not later sink.) This Awareness indicates that at present time, the standards of this restaurant are relatively high in this regard. This Awareness indicates however, in terms of the hormone additives in the chicken feed; that this is used in the raising of these chickens for this restaurant.

#### IS IT FITTING THAT A CATHOLIC BISHOP SUGGEST ENTITIES EAT OUR CATS AND DOGS ?

#### QUESTION:

Getting back to the subject of eating cats and dogs; does Awareness see it fitting that a Bishop of the Catholic Church would make a statement about the eating of domestic pets, or is this type of consciousness a regular part of the past history of that particular church?

#### COSMIC AWARENESS:

This Awareness indicates that this entity as expressing not for the church, but expressing his own opinion in regards to a situation. This Awareness indicates that this suggestion as being, in part, intended to point up a dual problem which could be solved if entities could accept the solution. This Awareness indicates that the entity not only was pointing up the desire for these foreign elements in society to eat cats and dogs, but was also pointing up the problem in the society's handling of the excess population of cats and dogs. This Awareness indicates the entity did make a strong point which brought things into focus, so that society could look at this more carefully. This Awareness indicates that the entity was not speaking in behalf of the church, but was speaking as a member of society and allowed his office as Bishop to support his personal statement. This Awareness indicates the church itself did not pass that statement to the entity in a policy or condone the suggestion with any policy or statement.\*

This Awareness indicates that this entity as being aware of the great diversity of cultures in the various parts of the world, and seeing that rather than have neighborhoods robbed of their pets, the better action would be to allow these entities free access to the pound. This Awareness indicates that of the *two* actions,--having a neighborhood robbed of its pets or having the pound give these entities the animals which would be slaughtered anyway,--this entity selected the latter as being the more reasonable recourse or solution. This Awareness indicates that his statement did not carry far enough to consider the concept of *educating* these entities to move beyond levels of pet-eating. This Awareness indicates likewise, entities of this society have not yet moved far enough as to consider moving beyond levels of flesh-eating. This Awareness indicates this *will* come, as new foods are discovered by society which give greater nutrition and satisfaction.

\*ED's Note: It also did not issue any statement that it did not condone the eating of cats and dogs even though some California entities in that area wrote to the Pope.

#### QUESTION:

It seems like by that same logic, they could use the theme that was in the movie of *Soylent Green*: the answer to the world's hunger problem is to eliminate the cemeteries and plant vegetables in them, and by making the Soylent Green tablets out of healthy entities that died by accident and so forth. There's a lot of ramifications to that whole idea of eating pets, I thought.

#### COSMIC AWARENESS:

This in the affirmative.

## QUESTION:

One aspect that I was curious about in relation to the effect on the animals--the unwanted street animals that never had a home or were particularly cared for. Earlier, Awareness discussed a flower being picked to be enjoyed got a kind of sense of satisfaction out of it, compared to one that was picked just because it was in the way. How would that relate to these creatures being used for food or just simply being destroyed?

## COSMIC AWARENESS:

This Awareness indicates that as far as the animal is concerned, its own destiny is not affected by whether it dies from asphyxiation and is burned or buried, or whether it is eaten. This Awareness indicates that animals in their consciousness move in a manner which seeks survival at all costs, up to a point; and then, at a certain point of consciousness, the entity seeks to surrender and to die. This Awareness indicates that these animals seldom carry terror into the death state itself, or beyond the point of death. This Awareness indicates that humans can carry over feelings of terror into the afterlife, and may experience repercussions later from such.

\*\*\*\*\*

ED's Note: In the many readings given concerning animals, Awareness usually refers to them as 'entities' --which has bothered some of our readers. For those who wish to understand how the human aspect is related to animals and other life-forms, please refer to the book, "Thinking and Destiny" by Percival. (Available from C.A.C. See book catalog).

## WHY DOES AWARENESS REFER TO ITSELF AS "IT" ?

( More on the gender of God )

## QUESTION:

V.K. in San Francisco writes: "Would Awareness kindly explain why the Heavenly Father is referred to as IT? While there is no gender involved in Spirit, and God is energy and Light, spirits do have form. Since the Heavenly Father is a spirit, He must possess a form as well. Therefore, would Awareness describe what is seen as God's form? Does It manifest as a man, since Christ taught us in the Lord's Prayer to address God as 'Father' and did so himself, according to the scriptures? He also stated he was 'going unto the Father'.

## COSMIC AWARENESS:

This Awareness indicates that in ancient terminology, which has developed from the concepts of a kind of psycho-physics, or efforts to understand the universe in regard to vibrations of consciousness, entities began to recognize certain relationships in terms of matter, whereby that which created form was classified as feminine because it was the female who created form. This Awareness indicates that these entities classified that which was projective and expansive as masculine, because the male tended toward greater expansion and projective expression.

This Awareness indicates that in earlier times, it was assumed that it was because of form that entities suffered. Entities in form would experience pain, whereas entities in expression experienced greater freedom; therefore, the misconception came about through following this kind of symbolism, that the female qualities created pain, the masculine qualities created joy and freedom. The one was called 'evil' or 'bad', while the other was 'good'.

This Awareness indicates however, these entities were not of the bigoted and narrow-minded level as many today, but were highly intelligent in their approach to finding symbols to explain the metaphysics of the universe; and therefore, recognized not only that pain came through form, and that release from pain was through the spirit, but also saw that this was an interrelated process--the Yin and Yang, that there could not be one without the other. The one material plane was Matriarchal, or the Mother of creation, and the spiritual plane was Patriarchal, or the Father of creation.

This Awareness indicates that therefore, in the ancient teachings and philosophies, the mother earth and the father sky are the two principal beings and the offspring in between was the child, or the creature known as man. This Awareness indicates that not only was this limited to the kingdom of mankind, but it also included all of the other kingdoms, such as the animal kingdom and the vegetable kingdom.

This Awareness indicates that in these concepts, the entities understood more clearly the nature of creation, and could classify through a polarity system certain energies which could be logically understood in relation to other energies by use of these polarity systems. Therefore, from such reasoning came about many sciences, one of which still remains as acupuncture. This Awareness indicates that there were, of course, many others which still remain, such as astrology. This Awareness indicates there are still many more,---one may recognize that sociology is based somewhat, and has been based somewhat upon similar principles.

This Awareness indicates that essentially, however, much of the knowledge was lost, even after being highly perfected; but what has come down, are some of the principal genders, and the term "Father" or the masculine quality is that which has 'stuck with' the concept of God or the Sky, the Spirit; and the term 'Mother' is that which has 'stuck with' the material, as in Mother earth or Mother nature.

This Awareness indicates these concepts of masculine and feminine in the ancient teachings, if interpreted into modern language, would be changed to read "positive and negative" energies. The positive being Radiant Energy, the negative being Magnetic Energy. This Awareness indicates that it has nothing to do with male or female bodies, except as these energies may affect the seed, or germ, or sperm and egg, which might create such a creature who would develop into physical form, in male or female body. This Awareness indicates that the Radiance or positiveness, and the Magnetic or feminine qualities, these are the positive/negative or male/female principles of the ancient science, and it is only in a symbolic sense that the concept as God as being masculine has any validity. This Awareness indicates that likewise, it is only in the symbolic sense that the concept of matter is feminine.

This Awareness indicates that in terms of spirits of a higher vibration than the physical being, or more correctly, of a more subtle vibration, such as astral or etheric spirits hovering in other octaves or vibrational ranges in the universe; this Awareness indicates that many of these are in masculine or feminine bodies, these being more radiant or more magnetic in nature. This Awareness indicates that the higher the being evolves, the less there tends to be any form--masculine or feminine-- and the entities become androgynous. This Awareness indicates that as these entities evolve even further, the form dissipates more and more, until there is no form,--there is only a light which emanates; and in that emanation and in that light, there is being and wisdom and bliss and life.

### DID THE CIA MANIPULATE THE ELECTORAL COLLEGE TO ELECT RONALD REAGAN ?

#### QUESTION:

A question from J.M. He writes that "the night after the election I heard a radio report, allegedly claiming that the CIA manipulated the Electoral College so that Ronald Reagan would be elected. Is there any truth to this?"

#### COSMIC AWARENESS:

This Awareness indicates this can best be understood in realizing that the big oil companies and Chase Manhattan bank were backing Ronald Reagan's election, the Bolshevik's backing Carter's election, and the voting booths which work on computer systems were built and owned by Exxon company\*. This Awareness indicates that this as essentially a conflict of interests in American political systems.

This Awareness suggests that entities may wish to research or investigate to discover more about this. This Awareness indicates however, that one can expect to run into much opposition as one enters into such research, unless it is done carefully, through printed material rather than direct communication with those involved.

\*\*\*\*\*

\*Exxon Corporation is the same as Standard Oil Corporations which are owned by the Rockefeller brothers.

## QUESTION:

Would Awareness comment and perhaps give some suggestions that might apply for this increasing problem of abuse to women? The papers are full of stories of women being attacked, raped, beaten by their husbands and by their family etc., and I'll read a few things taken from a report done at a special conference on this subject: "One out of every 4 girls born in the United States will be raped or molested by the time she is 18 years old. According to one of the speakers at a conference on Violence Against Women, 18 million American women have been beaten by their husbands and probably many more cases go unreported. These were some of the statistics presented to the 700 women from 30 states and several foreign countries who attended the National Conference on Violence Against Women. 'Women are controlled by fear,' one speaker said, who teaches in the University's department of women's studies. 'The first contact we have with that fear is that fear of rape'. Government statistics indicate 1.8 million American women are victims of wife-battering, but there probably are many more cases that go unreported. Lyle Sandford, an author and workshop leader, contended that one of every four girls born in the United States would be raped and molested by the time she is 18 years old. Sandford is the author of the book *The Silent Children*, and said she got her figures from the National Abortion Rights Action League and the FBI.

One woman, who said she was raped repeatedly by her father from the time she was 8 years old, told her story at the workshop: "I grew up in a small New England community. We were respected and an admired family," said the woman who asked that she not be identified. Her father, she said, owned a construction firm. "When I was 8 years old my father took me into the woods to look for wildflowers. My father raped me and I fought and tried to get up and I was hurt physically. The next day I told my mother. She slapped me and told me I was lying. After that I never told anyone what he was doing to me." Another speaker in her thirties said she was severely beaten by her husband, a psychologist, for more than 9 years. 'After one week of marriage my husband punched me in the stomach,' she said. "After 6 weeks of marriage he punched me in the face and broke my nose. I realized this man could kill me. Fear and shame kept me a silent victim. No one could have guessed what was going on. I was coordinator for programs for the handicapped. We looked successful, appeared to share the household, housework, traveled to foreign countries etc." She said she left her husband three years ago after learning about shelters for battered women.

Anne Dworkin, the key-note speaker at the conference and the well-known feminist author said, "Degradation of the female is a means of achieving power. Despite shelters for battered women, self defense classes, groups and legal reforms, Dworkin believes women are worse off now than they were a decades ago." Does Awareness see any solution or have any suggestions for this problem which seems to be growing daily?

## COSMIC AWARENESS:

This Awareness indicates that this is a deplorable situation in that it is increasingly growing more difficult for women to have the respect due them. This Awareness indicates this in part related to deterioration of values of society. This Awareness indicates that this as also resulting from a conflict of values, whereby entities who wish their ideal of the concept of "woman" to match up to some fantasy which they hold; and wherein entities seek to fit their ideal woman into this fantasy, only to discover the entity is a human being,--such can often become hostile toward the female. This Awareness indicates that this as created by a changing of value systems and the transition which is occurring.

This Awareness indicates that many men simply either have no respect for women, or have such an illusion about the role of women that they can't accept them as they are. This Awareness indicates that many men, therefore, being totally frustrated in their positions and self-images, and in their attitudes toward women, feel a kind of belligerent hostility toward all women in general, and toward certain women in particular, and this may be triggered by certain circumstances or situations.

This Awareness indicates since most men are stronger than most women, they can very often express their frustration in physical violence toward the woman. This Awareness indicates that on the other side of the coin, there is the woman whose physical form is weaker than that of the man (in general), and who must rely on her wiliness and her intellect and her charms and her clever approaches to keep the man in line, so that he does not become violent.

This Awareness indicates that essentially, the best role for a woman in terms of security and safety, is to be supportive of the man. This Awareness indicates that the role which most men prefer is to be protective of the woman. This Awareness indicates that wherein these roles become changed, and the woman seeks to challenge the man,--rather than support,--and the man seeks to dominate the woman,--rather than protect, then distortions occur in the relationship which can lead to great problems.

This Awareness indicates that in terms of dealing with these situations, there is enough understanding of the problems of relationship that programs could be created and established to allow entities who have such problems to attend and to receive proper counseling.

This Awareness indicates that the only way this will occur is if enough women seeking their rights not to be abused band together in a kind of voice or union, and demand these rights and respect, and demand that society gives them the tools whereby their own private bodies can be protected against such violations. This Awareness indicates that this can best be achieved by both men and women who support these ideas, writing to newspapers, to legislators, to influential people, speaking to their ministers, speaking to the civic leaders, speaking out on television, or in any area possible where these concepts may be publicized, speaking out in schools, and bringing these things to the public to look at, and demanding that something be done.

This Awareness indicates that wherein an entity cannot herself enter into the arena of public protest or demonstration or legislation, the entity can at least sit down and write one, two, three, four, five or more letters to different influential people, demanding that something be done to protect the rights of women. This Awareness suggests that a chain-letter type of pyramid information system is that which could flood the offices of legislators and influential policy makers, and of television, newspapers, and those others who can publicize, discuss, and bring attention and action to bear on this problem.

This Awareness indicates that wherein women *demand* respect and receive respect from the society, the entire society will become more solid and stable. This Awareness indicates when this occurs, all entities will benefit.

## WHY THE RAPIST OFTEN BRUTALIZES OR KILLS HIS VICTIM

( In search of the Virgin Mary )

### QUESTION:

Awareness, it just seems lately, so many of these attacks against women that we read about in the paper, that the man doing this is not content just with accomplishing a rape: he brutalizes the woman, he tortures the woman, and in many cases kills the woman. Now, this *must* be related to the Alien Force Awareness has talked about earlier, being unleashed, and the limbo vibrations and energies.

### COSMIC AWARENESS:

This Awareness indicates that this in the affirmative. This Awareness indicates that this as related unto centuries of conditioning which demanded that women be subservient to the ideals and desires of men. This Awareness indicates that each child growing up during these many centuries, each male child, was raised to believe that "mother was a virgin" and was initially shocked to discover this was not so. This Awareness indicates that this disillusionment as that which created the first feeling of contempt for the female, and when carried further, was transferred from "mother" to other females.

This Awareness indicates depending on how strong this entity may have desired to be the virgin-born Christ, and how hurt and shocked he might have been to discover that his mother was not the Virgin Mary, the entity might then feel a corresponding degree of contempt for others. This Awareness indicates the entity then might feel that if he was not born of virgin birth, perhaps he could at least sire a child born of a virgin; and therefore, the entity would pursue the quest of finding the virgin worthy of giving birth to this child which would exemplify and reflect the image which the father desired.

This Awareness indicates that such type of value system repeated in multitudes and over centuries, creating certain energy fields in consciousness surrounding these principles and concepts of significance in terms of virgin births and such, creates within the mind of certain entities who are subject to astral or demonic or spirit possession the opening to allow those energies to enter into their thinking, into their emotions, into their astral being, and these entities then become likened unto parasites, eating away at the reasoning ability of the entity, until the reasoning ability is short-circuited and the entity is overwhelmed by this driving force which compels him to seek out and lash out against that which has obsessed him so much.

The entity then may seek, hoping to find a virgin, but not believing such would occur, or not really caring whether the entity was virgin in fact, so much as virgin in mind or attitude, so that the entity was at least shocked at being raped. This Awareness indicates that this entity in seeking such, and then expressing all of that pent-up frustration from all of those astral energies, can very easily then turn toward himself and see how despicable this was; and rather than despise self, the entity looks back at the victim and sees that "It was you who caused me to do this horrible deed" And therefore the entity in seeing the temptation which was placed upon him, then wishes to destroy that force which could create such horrible temptation upon his "divine" being.

This Awareness indicates that this as one of the fruits which has been grown from the tree of religious dogma.

\*\*\*\*\*

ED's Note: It would be interesting if those who compute statistics on rape would determine how many rapists were brought up on the Roman Catholic programming which made such a big deal out of the Virgin Mary as opposed to other religious teachings which did not make the Virgin Mary such an issue.

For more information on rape, please refer to 'Revelations of Awareness' No. 78-17 (Profile of a rapist), \$2.00; also No. 80-31, (Astral Rape), \$3.00; also 81-15 (Why rape victims walk in a certain way), \$3.00 from C.A.C.

## PRAYER VS. MEDITATION--WHICH IS THE MORE SPIRITUAL ?

( More on Jesus and the Lord's Prayer )

### QUESTION:

I have two questions by two entities that are on the same subject with a little different perspective, and I'd like to read both the questions and have Awareness give the answer sort of in combination. The first is from V.K., who says, "Certainly no one was more capable of a perfect meditation than Jesus Christ. Yet he did not find it beneath himself to pray. As a matter of fact, he introduced us to the Lord's Prayer, and we are also told to 'pray without ceasing'. If meditation is superior to prayer, why were we not directed to meditate without ceasing? Why did Christ give us the Lord's Prayer at all? Many people can't get anywhere with meditation. If prayer did not exist, they would be left with nothing. Thanks for an explanation"

And A.M. has this question: "The entity Jesus Christ stated that 'the Kingdom of Heaven is within'. To seek within, I have learned, is to go within by meditation, yet the New Testament shows no evidence of meditation being mentioned. Was Jesus teaching the entities to use meditation and go within, or is there another way of seeking within without using meditation? Can Awareness comment on this?"

### COSMIC AWARENESS:

This Awareness indicates that 'meditation' relates to the word 'medium', and 'medium' is like that which is a yoke or connecting force. The word 'yoga' or 'yoke', hooking together two aspects. This Awareness indicates the medium, in terms of the seance and the spiritual world; the medium between two forces or between two entities,--this as always seen as a connecting energy or force. This Awareness indicates that the meditation is an action which links one with that which is focused upon. This Awareness indicates that wherein you meditate on water, you will find yourself experiencing qualities of water. This Awareness indicates wherein you meditate on rocks, you will find yourself experiencing the qualities of a rock, or of rocks. This Awareness suggests when meditating upon trees, you will feel yourself experiencing the qualities of trees. This Awareness suggests when meditating upon the Father in Heaven, you will find yourself feeling the qualities of the Father in Heaven. This Awareness indicates that wherein you meditate on the Kingdom Within, you will feel yourself experiencing feelings of the Kingdom Within.

This Awareness indicates that the entity Jesus stated, "I and the Father are one." This Awareness indicates this as the Christ Light and the speaker, unified in one as a kind of oneness that was brought on by the medium or meditation of uniting or at-one-ment or the atonement of the surrender of the self to the Divine Within.

This Awareness indicates that in the action of prayer, wherein one asks for something of a superior being, or one who can provide that,--whether this as a prayer in a court of law, asking the judge to grant the favor, whether this as a prayer by a child to the mother, a pleading to receive some request as granted, whether this is a petition to society, or whether this is a petition to God, a prayer to God, asking for some blessing, some reward, some favor, asking for forgiveness, or something of benefit,--this Awareness indicates that whatever the action, in terms of a prayer, there always must be that feeling of separation, whereby the entity requesting is beneath and lower than that which may provide. This Awareness indicates that there is nothing wrong with praying and asking for help. This Awareness indicates that entities who are in need, should in fact ask for assistance, should in fact ask for help, particularly when they cannot help themselves. This Awareness indicates however, prayer or pleading is not the most efficient and rewarding state of consciousness, is not the highest state of action, is not the most spiritual thing an entity can do. Prayer, pleading, petitioning, begging of Divine forces, of higher forces, of parents, friends or associates: this kind of dependency, while sometimes necessary, is not the most spiritual action that an entity can engage in. The *most* spiritual action occurs when the entity surrenders to the Will of the Divine, trusts the Divine to supply whatever is the Will of the Divine, and accepts whatever the Will of the Divine may provide.

This Awareness indicates the entity Jesus in his prayer, asked that the cup be taken from him, but acknowledged a willingness to accept the cup if it turned out to be the Will of the Divine: "Thy Will be done". This Awareness indicates therefore, the entity gave a prayer, then surrendered his own will to the Will of the Divine, allowing It to determine, and accepting whatever judgment would be rendered in that determination.

This Awareness indicates that this action as a form of meditation, whereby the entity surrenders to the Will of the Divine, becomes One with that Will of the Divine. This Awareness indicates that in this manner, the entity gave forth the Lord's Prayer which was, in fact, an action that linked the concept of prayer to the concept of surrender to the Divine. This Awareness indicates that action of surrendering to the Divine is in fact the meditation, is in fact the purpose and goal and result of true meditation.

### QUESTION:

That essentially then, is what the entity Bill Sheppard means when he gives instructions on opening the Crown Chakra; when the entity strokes the chakra gently with his finger and says essentially: "Not my will, but Thine be done"?

### COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that the action of opening oneself up to receive is an action of prayer. The action of receiving the Will of the Divine is the action of meditation. This Awareness indicates essentially, the process which entities use in terms of meditation includes both the willingness to be open to receive, which is a quest or prayer for unity with the Divine; and that unity is the meditation, the medium by which the entities merge,--the physical being and the spiritual Divine force merging together through the medium of atonement or meditation.

\*\*\*\*\*
