(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

What's Ahead In 1982 ?

Paul Shockley, Interpreter

(Opening Message, Gen. C.A.C. Reading)
November 4, 1981

COSMIC AWARENESS:

This Awareness suggests that the energies which are being experienced during the months of November and December--(this in terms of the economic situation and the general political climate upon this plane)-- as that which may be expected to continue as is for some time to come. This Awareness indicates that it appears, the economy shall continue on a somewhat restricted level throughout most of the coming year. This Awareness indicates that some changes may be experienced during the fall of 1982. This Awareness indicates there are also seen more intensive political difficulties for the coming year than have been experienced in this year of 1981. This Awareness indicates that these relate to continuing efforts by the powers of greed to take that which can be taken, one way or another.

This Awareness indicates that the areas which are presently experiencing strife will continue to intensify this during the coming year,--this in particular refers to the areas of the Middle East, Poland and Central and South America. This Awareness indicates that also in the areas of Asia, entities may similarly expect difficulties there. This Awareness indicates that while some improvements may appear from time to time in the Middle East situation, this appears to be but hopeful wishes and temporary band-aids, serving only to relieve tension for a brief period. This Awareness indicates that the areas of South America and many of the countries surrounding the Caribbean shall become more noticeable in the news and entities may begin to grasp that in this sleeping giant to the South, there are many changes coming and a seething undercurrent of unrest, which will build during the coming year to a point which demands great concern and attention.

THE ECONOMY-- REAL ESTATE

This Awareness indicates that in terms of the general economy, there may be some slight improvement from time to time during the coming year, particularly in areas wherein the basic production is intensified and increased. This Awareness indicates that it appears that in approximately mid-spring, the economy will begin to improve somewhat in the areas of construction and loans, mortgages, and the general money markets in relation to housing and home improvements. This Awareness indicates that this does not appear however, to be of any great significant level, but rather to be but a slight improvement.

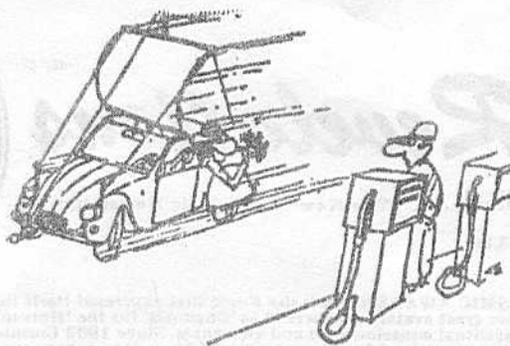

This Awareness indicates that during the coming two years, entities involved in real estate holdings or those considering the purchase of real estate, will prosper best during these times by holding on to homes and home sites, particularly those within cities and urban areas,--the single-dwelling family residence or the apartment and condominium residences. This Awareness indicates that within approximately 5 to 10 years, entities may expect the rents to quadruple on homes and apartments and condominiums. This Awareness indicates that the entities who are capable of purchasing during these times when housing is available at relatively low prices could benefit by holding on to the real estate until the prices again begin to rise greatly.

This Awareness indicates that it is *not* a good time to sell at present prices, but rather it is a good time to purchase. This Awareness suggests that this particularly refers to the single dwelling and the apartment and condominium sites. This Awareness indicates that motels and hotels are also good investments, but not to the degree as the personal living quarters for individuals.

This Awareness indicates that the products of the baby boom of the 40's has now reached the age of the early and mid-30's, whereby these entities are approaching that time in life whereby they would be considering owning or purchasing property for their family. This Awareness indicates that after this baby boom has passed this period of the 80's, there will be a decline in the need for new homes. This Awareness indicates however, at present time, there is a growing demand for more homes than are available for the new families coming upon the scene. This Awareness indicates that it appears to be approximately 15 million homes short of that which will be needed during this decade. This Awareness indicates therefore, that entities who can purchase homes and apartments will benefit during these times.

This Awareness indicates that those who are presently renting should consider the possibility of purchasing a home of their own, for rents shall move to approximately 3 to 5 times present costs by the end of this decade.

This Awareness indicates that in terms of automobiles and the expenses involved, it appears that the costs of operating, (particularly in terms of petroleum), as that which shall increase during the coming year. This Awareness indicates there are now being manufactured electric cars, which shall begin to increase and become substitutes for the petroleum operated automobiles. This Awareness indicates that within approximately 5 years, these electric cars will begin to rapidly outpace the sale of petroleum vehicles. This Awareness indicates that entities wishing to become involved in new areas of business, might wish to consider learning as much as is possible about the new electric cars and servicing these.

Stock Market--Precious Metals

This Awareness indicates that it appears the stock market will experience some unusual fluctuation during the coming year, particularly during the summer months; that investments in this area should be watched carefully or avoided. This Awareness indicates that *It* does not at this time see any major changes in the area of precious metals, though this may change depending on circumstances associated with oil and political situations. This Awareness indicates that there does appear to be a greater possibility of precious metals rising during the coming year, than of falling. This Awareness indicates that gold may yet decline somewhat before moving up in value to higher levels. This Awareness indicates that copper appears to be on the rise, and that there is some possibility that pennies may be removed from the market for their copper value during the coming months. This Awareness indicates that it appears that diamonds shall also move into higher value during the coming year.

UNEMPLOYMENT--CRIME

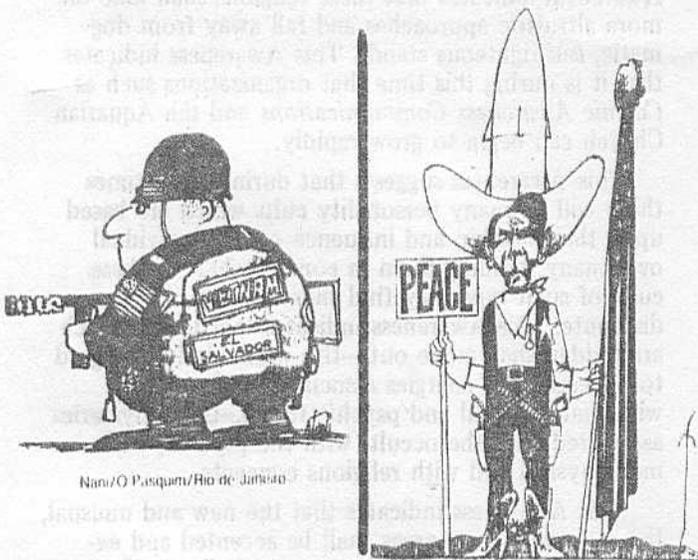

This Awareness indicates that in terms of unemployment, this appears to be continuing at approximately similar levels as present except in the event of international crisis, whereby this could suddenly change. This Awareness indicates the unemployment rate appears to be that which may improve slightly during the spring and summer months. This Awareness suggests that the minority groups being hurt most by the unemployment; and that entities in large cities wherein there are many unemployed members of minority races,--these shall be experiencing the more severe consequences of such unemployment. This Awareness indicates that it appears there can be an increase in criminal tendencies in part due to the poor lagging economy, these being crimes of theft and passion due to stress/pressure of economic hardships. This Awareness indicates that there also appears to be that which is a greater freedom of the control forces of this society to put down any increase in crime of the society by use of greater force.

Nuclear Power Plants--Corporate Greed

Forattini/La Repubblica/Rome/Milan

This Awareness indicates that entities may expect the social trend to include demonstrations and protests similar to those experienced during the 60's, except that many of these protests will be in regard to economic conditions and also in regard to world political conditions. This Awareness indicates that the United States shall experience greater difficulty in connection with its allies, particularly those of Europe, during this coming year,--partly due to its policies whereby the European allies feel themselves to be used as pawns in a game in which the United States is pulling the strings. This Awareness indicates that also the allies to the South and also those of the Far East may find the relationship becoming strenuous.

Nanu/O Pasquini/Rio de Janeiro

Muller/Haagse Post/Amsterdam

This Awareness indicates that the technologies, particularly electronics research and computer and utility systems, and also energy systems; these areas shall be accented and strong, growing with much health and vigor during this coming period. This Awareness indicates that the entities who are suffering hardships from poverty or from poor health conditions along with poverty; entities who are often dependent on social programs or friends and relatives to assist them, may find this coming year to be one of great difficulty. This Awareness indicates that for many entities there will be great opportunities as new areas open up for investment: for investment of time, energy, or money, to begin new activities.

This Awareness indicates that the nuclear power plants appear to be on their way out, and that new interest will begin at a grass roots level to find alternative energy sources, such as solar, although it does not appear that these areas will be given much assistance from the present administration. This Awareness indicates that there appear to be new laws being passed which curtail the rights, privileges and opportunities of the lower classes, and which increase the potential, the power and the opportunities of the corporations. This Awareness indicates that this can have some benefits for the lower classes and individuals of the society in that the corporations can expand and create job opportunities to allow entities to have greater personal opportunities. This Awareness indicates however, that there are many other areas which will be hindered or sacrificed by these corporate powers and forces, unless entities are watchful in protecting these areas.

The Environment

This Awareness indicates the environmentalists and those programs associated with the environment, will need to rally their energies and focus in order to protect those victories which have been gained during the past two decades, or these may be lost forever. This Awareness indicates that there are certain areas within the corporate consciousness which are totally blind to realities of the need for ecological conservation and awareness. This Awareness indicates that these areas concern themselves only with profits and the speed at which these profits may be gathered for the corporation.

THE UNDECLARED WAR

This Awareness indicates that in terms of weather conditions; this appears to be a year in which cold weather will again be experienced during the wintry months, particularly in the mid and Eastern states. This Awareness indicates this does not appear however, to be nearly as cold as previous years. This Awareness indicates that it appears that the late spring may bring some geophysical activity in various parts of the world, including earthquakes and some seismic activity in mountainous regions. This Awareness indicates that the superpowers are in a state of undeclared war, whereby the preparations and intrigues of this undeclared war are being hidden from the masses. This Awareness indicates that the greater dangers of this erupting appear to be during the summer months and thereafter.

THE "JUPITER EFFECT"

This Awareness indicates that the movement of planets into that which has been called the "Jupiter effect", as that which appears to herald many changes in energies during the fall of 1982; these energy changes as that which will need to be observed with great attention. This Awareness indicates that *It* does not wish to comment on the events surrounding this period--(prior to, during and after)--until the time approaches. This Awareness indicates that entities do need to give great attention and care to preparing themselves, their families and their loved ones for intense changes which will occur during the next three

years. This Awareness indicates that these times being uncertain and being such that one alteration at a particular time, can alter the entire direction of energy movement from that time on. This Awareness indicates that it therefore is not possible, from this frame of reference at this time, to clearly discern the detailed movement of energies in regard to the Jupiter stellenum. This Awareness indicates that this may clarify at a later time.

C.A.C.--Aquarian Church--the Peace College

This Awareness indicates in terms of the organization *Cosmic Awareness Communications*: during the coming year, there appears to be continued stability throughout this period, particularly during the first half of the year,--this seen as being stable. This Awareness indicates there is uncertainty at this time in regard to the second half of the year. This Awareness indicates that this first period from present until the summer months, appears to be such that the membership continues to give the necessary support to this organization to keep it active and busy in its purposes. This Awareness indicates that circumstances from the summer months through to the end of the year appear to change. This Awareness indicates that this is not seen at this time, and therefore until energies are clarified, It cannot comment on this. This Awareness indicates there appears to be the potential for several directions at this time, none of which is clear presently.

This Awareness indicates in terms of the Aquarian Church: this organization as having been torpedoed from its first launching, and as continuing to limp along in murky waters which have never allowed it to show its true colors. This organization, still being somewhat incapable of piloting itself into clear waters, appears to move during this coming year into a new area, throwing off old wounds and taking on fresh cargo without all of the damage which has been hindering its action. This Awareness indicates that it appears that the legal difficulties experienced will be concluded by no later than the summer months, and that this will allow greater freedom for the church, that it may begin operating and doing what it was created for,--this in terms of the projects for which it was intended.

This Awareness indicates that in terms of the Peace College: there are areas which are unclear, due to conflicting intentions of entities involved in this project and due to continued financial shortages. This Awareness indicates however, that these financial shortages can be alleviated when those involved become capable of working out clear communication and methods with similar purposes and intentions, so that the entities involved are not pulling against each other.

This Awareness indicates that for the many individuals within the Awareness Movement, (those within this organization and those who have never heard of this organization), for those entities who are essentially involved in metaphysical or New Age consciousness, those entities involved in the spiritual community dealing with human rights movements, with humanitarian activities; these entities will discover during the coming years, from the sojourn of Uranus in Sagittarius, a new potential for expression.

This Awareness indicates that the Moral Majority fundamentalist Christian organizations; these also shall gain attention for a period of time during this sojourn of Uranus in Sagittarius. These entities, expressing an intense self-righteousness, shall gain much attention, particularly during the coming year. This Awareness indicates however, this as that which shall begin to fade as more liberal and tolerant views begin to pick up the banner for decency, and these views then shall replace the more intolerant views of the extreme fundamentalists.

This Awareness indicates that essentially, the masses turn to the fundamentalists in part, because this section of society speaks out for traditional concepts of decency; and though these masses may not fully agree with all of the tenets of this section of society, they do agree with the concepts of decency. This Awareness indicates that as other more liberal sections of society begin to recognize the need for decency,--ethics in business, concern for each other's rights, concern for the principles that express humanitarian love for life,--as these more tolerant areas of society pick up the banner for these causes, many of those who have been supporting the fundamentalists will change loyalties and move toward those humanitarian organizations of the more liberal standards.

This Awareness indicates that during this period of Uranus in Sagittarius, which lasts for approximately 7 years, entities will experience a total change in the nature of religion and the ideals of the society. This Awareness indicates that these religions shall take on more altruistic approaches and fall away from dogmatic, self-righteous stands. This Awareness indicates that it is during this time that organizations such as *Cosmic Awareness Communications* and the Aquarian Church can begin to grow rapidly.

This Awareness suggests that during these times there will be many personality cults which are based upon the rulership and influence of one individual over many, holding them in control, whereby these cults of such type may find themselves falling in disrepute. This Awareness indicates that things which are hidden shall come out,--this particularly in regard to concepts and energies associated with religion, with metaphysical and psychic forces,--those mysteries associated with the occult, with the psychic, with metaphysical and with religious concepts.

This Awareness indicates that the new and unusual, the eccentric; these areas shall be accented and explored and exposed. This Awareness indicates that many of the dark forces which have operated under the guise of religion and cultism,--those devil cults, voodoo cults and those witchcraft organizations,--these also shall be exposed to the public, whereby they may be looked at under the spotlight of consciousness. This Awareness indicates that there also will be greater expose of the hidden hands; those forces which control the destiny of nations through occult techniques, through the banking systems, and through secret organizations.

This Awareness indicates that the coming year as one which cannot be called a bright year, but may be considered more as an overcast year,--the first half being relatively calm; the second half being that which becomes more active.

IS THIS THE END OF THE 'HOUSE OF ROTHSCHILD' ?

QUESTION:

A recent article appeared concerning the Baron Rothschild, and I'd like to read just a little bit of this and ask Awareness if this is significant or not in the plans of those entities to take over the world. It says: "In Paris, France's most famous financial dynasty has been dealt its most serious blow by the country's new socialist regime, Baron Guy De Rothschild says. In an article appearing Thursday in the Newspaper *Le Monde*, Rothschild wrote that the latest plan to nationalize France's remaining privately-owned banks means 'There will remain nothing but a few scraps, perhaps nothing, of the House of Rothschild'."

COSMIC AWARENESS:

This Awareness indicates that this as having some significance in this area. This Awareness indicates that the greater significance lies in the potential for this to occur in other countries also. This Awareness indicates that movements of these forces in France as the result of an awakening and understanding of the manipulative forces of the banking industry.

This Awareness indicates that this however, is not as significant as it might appear, for the controls in France held by the Rothschilds were not the major powers; this being a relatively weak control in that area. This Awareness indicates that those forces in Belgium and in Britain as being of much greater power. This Awareness indicates however, that this as significant in that it creates a precedent in European countries whereby other countries may follow through, (if this is successful), and may also nationalize the banks. This Awareness indicates that entities may expect that this movement to nationalize the banks will receive some form of resistance during the coming years.

WHAT IS GOING TO HAPPEN NOVEMBER 22nd, 1984 ?

QUESTION:

A question which might be pertinent to this reading, sent in by K.K., of Ojai, Cal. She writes:

"Dear Awareness. An astrologer has pointed out that November 22, 1984, will be a fateful day for the United States. I wrote a note to that effect in my ephemeris, but I didn't take the prediction very seriously until I began noticing in the charts that I did for various people, that many individuals whose destinies seem to climax on that day with death or serious crisis indicated, mourning and bereavement. Could Awareness please look forward to this time and make recommendations to the membership accordingly? Can we save the situation as with Manhattan Island, postpone it, reduce its potential? Can energies be diverted or modified to lessen the suffering which seems to be indicated by the charts? If action is called for, what course of action would Awareness recommend?"

COSMIC AWARENESS:

This Awareness suggests that date be repeated.

QUESTIONER:

November 22nd, 1984.

COSMIC AWARENESS:

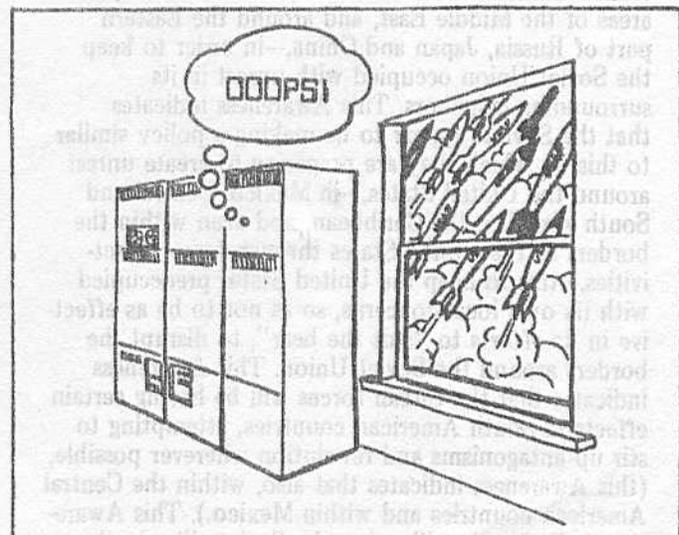

This Awareness indicates that there are many forces at work at present time which may have their culmination before this date. This Awareness indicates that it is also possible that these forces will alter so that a greater culmination occurs on or near that date. This Awareness indicates that it, at present, is much too early to distinguish the effects of these energies. This Awareness suggests that after the Jupiter stellium, there can be expected to be a clearer discernment as to the movement of these energies toward that period of time.

This Awareness indicates that *It* has previously given that the period from 1980 to 1986 would be one of great disturbance; that the period up to and including 1984 would be such that entities may expect conflict between the Forces of Light and the Forces of Darkness; that these conflicting energies are unpredictable in terms of their erratic expressions. This Awareness indicates that it appears that the time of 1984 is one of great intensity,--this particularly during this month of November; yet, that intensity can be for benefit if all of the energies up to that time have been altered and modified toward the purpose of creativity, rather than destruction. This Awareness indicates that *It* cannot at this time give clear discernment as to the events which will occur on that date.

WHAT ARE THE CHANCES FOR A NUCLEAR WAR IN 1982 ?

QUESTION:

Awareness, there's a lot of bellicose statements coming out of the Pentagon these days, and sabre-rattling on the part of entities in the United States government. Would Awareness give us the odds, in the coming year (1982), that a nuclear war would or would not occur?

COSMIC AWARENESS:

This Awareness indicates that there are intentions from high sources having the ability, desire, and purpose of bringing about nuclear war; these entities within this nation. There are also intentions and forces of high ability within the Soviet Union, and these forces are intent upon preventing the planned war from erupting; and are also willing, if necessary, to risk a war to stop these forces. This Awareness indicates that it is the first-strike policy which is creating the threat. This Awareness indicates that the retaliatory forces are such that these two programs could bring about a devastation upon this planet as has never been experienced in the history of humanity; yet it is the policy of the Soviet Union to prevent the United States from having the opportunity to initiate the first strike.

This Awareness indicates this as related to those areas described by Dr. Beter in his Audio Tapes associated with intelligence-gathering systems, whereby the United States does not have current information as to the location of targets within the Soviet Union, and the Soviet Union is attempting to prevent these locations from being discovered. This Awareness indicates that so long as these are *not* discovered, the chances for a first-strike success by the United States against the Soviet Union are greatly diminished and will not likely be initiated.

This Awareness indicates however, if the United States does achieve its intelligence-gathering of those areas of targets, entities may expect a very rapid first-strike to those areas when these have been gathered, before the targets can be changed,--before the targeted equipment can be moved. This Awareness indicates that it appears that the intelligence-gathering efforts will not be successful, although there are some potential dangers that it will. This Awareness indicates that there is more than one way to gather intelligence, that the shuttle flight program is one attempt. This Awareness indicates there are other efforts also.

This Awareness indicates that it also appears that the Soviet Union will become more aggressive during 1982, particularly in stirring up areas whereby the United States must become involved with its troops and its diplomats. This Awareness indicates that essentially, it is similar to the efforts of Kissinger and others sometime back, to create an "arc of crisis" around the Soviet Union,--within Poland, the areas of the Middle East, and around the Eastern part of Russia, Japan and China,--in order to keep the Soviet Union occupied with unrest in its surrounding neighbors. This Awareness indicates that the Soviets appear to be making a policy similar to this, in which they are preparing to create unrest around the United States,--in Mexico, Central and South America, the Caribbean, and even within the borders of the United States through terrorist activities,--this to keep the United States preoccupied with its own local concerns, so as not to be as effective in its efforts to "bait the bear", to disrupt the borders around the Soviet Union. This Awareness indicates that the Cuban forces will be having certain effects in South American countries, attempting to stir up antagonisms and revolution wherever possible, (this Awareness indicates that also, within the Central American countries and within Mexico.). This Awareness indicates that likewise, the Soviet allies in the

Middle East, Kaddafi and others, may be expected to create problems wherever possible.

This Awareness indicates that these tactics, mirroring those which have been set in motion against the Soviet Union, and the technology of the Soviet Union in its efforts to keep the United States from discovering its locations of its missile sites and military sites; these appear to be countermoves to prevent the first-strike policy from being effective. This Awareness indicates however, this can only be used for so long until the danger becomes great enough that the Soviet Union decides it does not wish to be continually on the defensive, and it may turn aggressive toward the United States. In this event, nuclear war could erupt quite suddenly.

This Awareness indicates that entities may expect continued terrorists activities, assassinations and policies of the type whereby leaders of many countries are brought down and powers are altered through assassination politics. This Awareness indicates also, the dangers continue in regard to the Pope; and these tactics are designed to create disruptions and unrest among the many masses and those identified with these cultures. This Awareness indicates that this assassination politics method as that which is used for psychological purposes as well as for political purposes.

PRESIDENT REAGAN'S HEPATITIS ?

QUESTION:

Awareness had previously indicated the possibility that President Reagan had contracted hepatitis.....

COSMIC AWARENESS:

This Awareness indicates that this appears to have been overcome by this *present* entity.

LOVE--A RECENT FORCE UPON THIS PLANET

(More about the Wanderers)

(Closing Message)

This Awareness indicates that there are more areas in regard to forces at work than can be discerned or described in this reading; that this Awareness wishes to inform entities that the forces working upon this plane are but a small portion in regard to both the Light and Dark Forces. This Awareness indicates that in the galaxy in which you live, there are planets controlled by the Dark Forces and there are planets controlled by the Light Forces. This Awareness indicates that essentially the planet earth as one which has essentially been owned by the Dark Forces for thousands of years. This Awareness indicates that the entities from certain other planets within this galaxy came together with a plan to raise the vibrations of this planet earth; and the plan called for entities of Light Being, with love in their hearts, to come upon this planet as children of the earthly parents; and in this manner, to gradually breed love into the hearts of humans.

This Awareness indicates that the first humans upon this planet did not have qualities known as love; this has been brought to this planet from other planets, through the incarnation of beings from those planets, who grew up as children of earthly parents. This Awareness indicates that the struggle for this planet is between Forces of Light and Forces of Darkness; the Forces of Darkness being those who are incapable of love, and the Forces of Light being those who are capable of love, and incapable of not being loving. This Awareness indicates that the purpose of such was to bring about a standing Light army of entities who contain within their being qualities of love upon this planet; so that the Forces of Darkness not only must reckon with those of the Galactic Confederation, but also with Forces of Light upon the planet itself.

This Awareness indicates that between now and the year 2000, entities can expect a war of great proportions to occur in space and upon this planet between the Forces of Light and the Forces of Darkness. This Awareness indicates that the greater the Light, the greater the Love, the greater the chances of survival upon this planet.

THE SIGNIFICANCE OF URANUS MOVING INTO SAGITTARIUS

(Opening Message, C.A.C. General Reading)
October 21, 1981

This Awareness indicates that during the coming month, important astrological changes shall begin. This Awareness indicates that the planet Jupiter as moving into the sign of Scorpio; but more important than this, the planet Uranus as moving from Scorpio into Sagittarius. This Awareness indicates that this begins a new cycle, lasting for several years. This Awareness indicates this movement of Uranus into Sagittarius, as that which shall begin having its effect of creating disturbances and clarifications in areas of religion, philosophy, and organizations. This Awareness indicates that foreign affairs shall become more in the news. This Awareness indicates that it shall have its effect upon the United States in surprising ways, whereby unpredictable or unexpected changes in alliances shall occur, and that which appears to be stable may suddenly become volatile.

This Awareness indicates that the only way to handle the energies of Uranus without encountering difficulties is to tune in to its altruistic levels,--the highest and best motives and intentions. This Awareness indicates that wherein entities seek to find that which is the highest and best in religions and philosophies, and to follow these; this will give stability throughout this long period of Uranus in Sagittarius. This Awareness indicates however, there appears to be much disturbance in the area of religion during this time, wherein the old fundamental and orthodox religions shall encounter upsets and turmoil within their ranks. This Awareness indicates also, that Uranus as that which heralds the new, unique, unusual, and that which is more free; and therefore, entities may expect this to emphasize the new religions during this time.

This Awareness indicates that the sign of Sagittarius being that which is associated with openness, honesty, truth, frankness and clarity; this shall eliminate much of the hidden intrigue, and that which may be called "the secret war," which has been occurring during times when Uranus has been in the secret sign of Scorpio. This Awareness indicates that entities may expect the secret war to be more inclined to break out in the public, rather than to remain secret; or, that the energies which are behind this secret war to be exposed and brought into light. This Awareness indicates this particularly after the conjunctions of planets in Sagittarius in late 1982.

THE ASSASSINATION OF SADAT

QUESTION:

Jack Katchmar and several others have written in, asking if we would ask Awareness if there was any particular significance to the recent assassination of Anwar Sadat, the President of Egypt, and what the ramifications might be?

COSMIC AWARENESS:

This Awareness indicates that much of this has been released by the recent tape of Dr. Beter. This Awareness indicates that this as a continuing saga of political assassinations to create changes wherein agreements may be shattered and broken, agreements which have been based upon the word of an individual representing a people. This Awareness indicates that many of the programs begun by one administration can be broken by the next during these times wherein honor among leadership fails to respect the works of previous leaders. This Awareness indicates that the changes which are occurring, in many ways are designed to create unrest in certain segments in order to polarize the emotions and hostilities of certain segments, so that these segments may be used at a later time in attempts to manipulate the forces and energies of masses for purposes which remain hidden by those manipulators of consciousness.

This Awareness indicates that more shall become clearer during the coming month as things begin to show themselves for what they are. This Awareness indicates that changes are coming which will transform many of the present forces, so that the picture becomes more clear and the forces which are presently hidden behind the actions shall be seen more clearly. This Awareness indicates that the time is not yet at hand whereby entities can fully understand all that has been occurring and where the true motives lie. This Awareness indicates however, that time is not far away.

ED's Note: in the Dr. Beter Audio Letter No. 68 recorded September 30, 1981, Dr. Beter revealed that within a very short time an assassination attempt would be made on Sadat which would probably be successful. Six days later Sadat was assassinated. In Audio Letter No. 69 released in mid November, Dr. Beter reveals the reasons behind the murder of Sadat and what it means to entities. CAC members who are not yet subscribing to Dr. Beter's monthly Audio Tapes and who wish to get more details of the secret war being waged behind the scenes, please write to the following address for details and special bargain price on the "Catch-up Paks" of Audio Letters:

SIXTH SENSE

Stars forecast a dynamic change

By Marc Robertson

The planet Uranus enters the sign Sagittarius next week, to spend nearly seven years stirring up lives. It won't move out until November 1988. If you want to know what's in store, look back to the late 1890s and America's entrance into the 20th century.

The battleship Maine was sunk in Havana Harbor and the United States went to war with Spain. President McKinley was assassinated, the United States became a world power and the late Teddy Roosevelt walked with a big stick and shouted a loud "bully!"

Eugene Debs formed the socialist party. Henry Ford organized his motor company and the first airplane flight was launched. There had been financial panics throughout the 1870s, 1880s and early 1890s. There weren't any more until Uranus left Sagittarius briefly in 1907.

You might ask what it's going to do to your life. Uranus represents surprise, so you should be prepared for it. You should be ready to move faster, take more risks and reach farther for what you want. Luck will strike some particularly those born in 1900, 1912, 1924, 1935, 1948, 1960 and 1974, but it won't stay around to see what they do with it.

Some signs of the zodiac will like it, some will scream about it. But the 1980s belong to the fire and air signs, the doers and talkers, of astrology's personality mix.

Those born under the sign of Aries (March 21-April 19) will love it. After seven frustrating years of trying to keep from putting your foot in your mouth, ideas and energy will flow from you naturally. People will laugh with you, not at you. You'll have ideas that will broaden your appeal. Creative projects will blossom and reach beyond their normal range.

Those born under the sign of Taurus (April 20-May 20) will have to get out of a rut they've huddled in since the mid-1970s or be suddenly booted out. Their lives have reached a turning point and hiding out isn't going to work. A new relationship, partnership or job could be the answer.

If you're a Gemini (May 21-June 20), the people who now enter your life will have tremendous impact on it. You're full of zest, you love variety. You don't really like commitments, but you're going to have to make them -- and keep them. Your mind will be challenged. Your life will be invaded by people who seem to be

fanatics. This is one of the most creative, and tumultuous, periods of your whole lifetime. Your intelligence may finally find a worthy outlet.

If you're a Cancer (June 21-July 22), this period will seem exciting but frightening. Your life may be uprooted, all your old associations may be altered. Your community needs you, but so do strangers who will pop into your domestic scene at the most unexpected moments. You've always flirted with the big gamble.

If you're a Leo (July 23-August 22), the '80s are your golden hour. Your hangups have been examined, your impracticality tested. It's time to take a chance on love, on children, on one big creative project that could make all the others possible. This is the decade you've waited for. The means are there -- you simply have to utilize them. You may travel or relocate. Be positive, be generous. Your time has arrived.

If you're a Virgo (Aug. 23-Sept. 22), this is going to be an embattled period of your life. If you wanted peace and quiet, you won't get it. You'll be challenged every step of the way, but you're going to grow. People are aware of your existence, but they demand you justify it. Be prepared to make noise, to let the past go, to move toward a vision of living that's only hazy at the moment, but will take shape step by step as it lures you nearer.

If you're a Libra (Sept. 23-Oct. 22), you've been engaged in a struggle with life since late 1980. It isn't over. But your days of fence-sitting are. Decisions will be demanded of you. Action is required. You may not look so nice in some of the things you'll be forced to do. But the answers to your problems are within reach if you move swiftly and with finality. It's time to take some unpopular stands and reap some uncommon rewards.

Relax now

If you're a Scorpio (Oct. 23-Nov. 21), you've been wondering for a long time when things will settle down. You've lived with Uranus on (Scorpio) for seven years. It's over. Are you better or worse? You've changed, haven't you? You've become more dynamic, more restless, more demanding. You can relax now. You've won a lot, but you haven't really been happy. Before Christmas of 1982, you'll have a lot to smile about. This isn't your decade, but if you managed to get anywhere during the '70s, you can ride with what you accomplished and

reach for more without all the turmoil.

If you were born under the sign of Sagittarius (Nov. 22-Dec. 21), you've been living with nightmares and illusions since 1971. But you've also pursued dreams. Now some of them are ready to come true. This is the decade you anticipated. You may seem demanding, contrary and crazy to others. But you're right about something important and you know it. You're charged with energy, your mind is creative and on target. Go after what you want. This is one of the most creative and promising periods of your whole lifetime.

If you were born under the sign of Capricorn (Dec. 22-Jan. 19), batten the hatches or secure the storm doors. Your life will be jolted from one end to the other. You're going to have to live without the security that seemed so much a foundation in your life before now. You'll be separated from people who were pillars in your scheme of things. You're going to have to learn to be versatile, swift-moving and open-minded. This won't kill you, but it will hurt. You have talents you've hidden. It will be necessary to develop them just to get through the next seven years.

If you were born under the sign of Aquarius (Jan. 20-Feb. 19), the past seven years have been a muddle. You've tried everything and most of it didn't work well. But be glad you tried. Some of what you've done is going to fit right into the period ahead. Your ideas are needed, your energy is surging forth once more. Is it possible to be young again? You're going to think so and shock half the people you know. But the other half are ready to move with you.

Life change

If you were born under the sign of Pisces (Feb. 19-March 20), you've been preparing for this decade a long time and didn't even really know it. A life change and a major personality alteration are both on your horizon. You have the skill, you have the intelligence. Have you got the guts? This decade will demand that a wallflower become a socialite, that a dreamer become a doer. Your dreams are within reach but you'll have to shake yourself out of nostalgia and ride toward the future at a dizzying rate.
