Cosmic Awareness Communications

P. O. Box 115, Olympia, Washington 98507

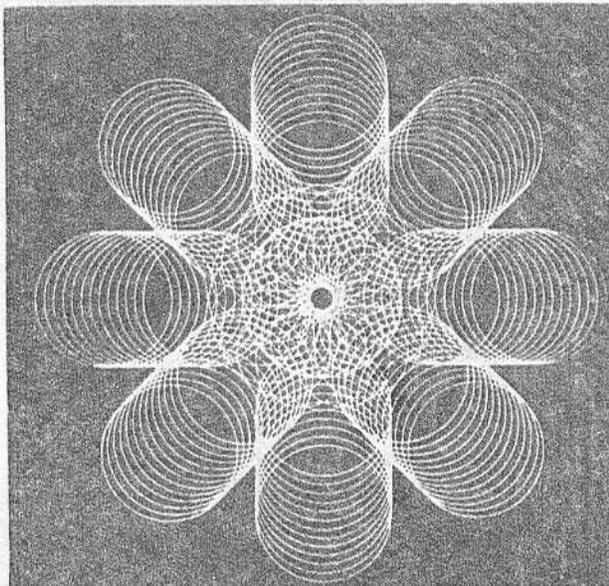

(Helping people become aware)

COSMIC AWARENESS is the Force that expressed Itself through Jesus of Nazareth, the Buddha, Krishna, Mohammed, Edgar Cayce and other great avatars who served as 'Channels' for the 'Heavenly Father' and who speaks again today as the world begins to enter the New Age of spiritual consciousness and awareness. Since 1963 Cosmic Awareness has been communicating through carefully-trained channels. The information contained herein was received from deep super-conscious trance levels and 'interpreted' by an entity affiliated with C.A.C. This information is for those who desire to help in bringing in the New Age. Throughout the thousands of 'Readings' given through these channels, Cosmic Awareness tells us not to believe anything, but to question, explore, doubt, and discover for yourself, through your own channel, what is the truth. Cosmic Awareness will only indicate and suggest. Neither C.A.C., the Aquarian Church of Universal Service, or the Interpreter, Paul Shockley is responsible for anything Cosmic Awareness may state in any of these readings, nor does C.A.C. or Paul Shockley necessarily believe or agree with the statements of Cosmic Awareness. Paul interprets the energies as he sees them in trance levels and is not personally responsible for what is said. Members of C.A.C. are invited to send in questions of general interest to ask Awareness for possible publication.

THE DARK MESSIAH.....

THAT VOICE YOU HEAR
MAY NOT ALWAYS BE JESUS

HOW THE COSMIC AWARENESS
MESSAGES AFFECT
THE INNER PLANES

HOW MICROWAVES ARE BEING USED TO FOOL AND CONTROL ENTITIES

(MORE ON UFO'S AND ENTITIES BENEATH THE EARTH)

QUESTION:

A question from K.L.V. "If an entity is communicated with and told that the living entity is "the Son of Man, the Word incarnate", plus given visions and other knowledge; how does one test to ascertain the validity of such information? This is from a personal experience".

COSMIC AWARENESS:

This Awareness indicates that first, before answering this particular question, this Awareness wishes to inform and caution entities involved in receiving messages, that there are methods available for use by unscrupulous powers whereby messages can be given, presented within the mind of an entity whereby you can hear words in your head, even though these words are not heard by others around you, or even though these words are not heard externally. This Awareness indicates that this can be accomplished through certain microwave techniques, whereby messages are sent similar to that of radio waves; the waves being such as to have a frequency compatible to that of the auditory nerve as it connects to the brain. This Awareness indicates that these messages may be transmitted by a focusing device to an individual, or may be broadcast over a wide area to many individuals at once, whereby entities' heads can become similar to a radio receiver.

This Awareness indicates that this has not been used in mass-broadcast thus far in present times, but this is available and may be expected in future events, whereby entities can hear voices speak within their own heads as though these heads were radio receivers. This Awareness indicates that individuals have already been programmed by these types of energies--microwave broadcasting into individuals' heads,--and many of these individuals believe they are being spoken to by space brothers or by some alien force,--a demon or a god which directs them to commit certain acts, or to relay certain information to others.

This Awareness indicates that there are also, more infrequently used methods whereby images are conveyed through the optic vibratory area of the brain, giving images to entities so that they believe they are in another space, on a mother ship or on some spacecraft, or whereby they see themselves in some place where they are in fact not physically at. This Awareness indicates that this is less frequently used, but entities can expect this to be developed within some time between now and the year 2000, whereby it may be used on the population as a form of mass-control.

This Awareness indicates that these tools, or broadcasting techniques are used, and have been used by forces other than surface man,--(man upon the face of the earth); these tools often used to bring forth visions, or to direct entities in beneficial or hostile purposes, depending on the motive of those who use these techniques and sciences. This Awareness indicates there are cultures, societies, which are far more advanced in these areas than surface humanity, although the entities upon the surface of this planet are now reaching such a stage of development as these concepts now are borderline sciences, and are in fact being explored and tested in various ways. This Awareness indicates that there are prototypes built and used by governments on this plane; there are operating devices which have been used for hundreds of years, for thousands of years, by beings which are advanced of those governments on this planet surface.

HOW TO TELL WHETHER THE VOICE YOU HEAR IS GOOD OR EVIL

This Awareness indicates that the way whereby an entity can test a voice is to ask its motives in regard to concepts relating to unity, non-polarizing, and the *Law of Love*. This Awareness indicates that wherein this voice is polarized to a particular type of antagonism,--antagonistic to one element of society over another, or whereby this voice asks you to commit an action which would be a violation to another, whereby this voice does not follow the *Law of Love*,--putting the welfare and concern of others above self, wherein this voice is more concerned with self-righteous attitudes and attacks upon others who are not in the good graces of this voice; then an entity should be quite cautious, for there are many who have been found guilty of murder who insist that they were directed by God to commit such an act.

This Awareness indicates that the significance of hearing a voice within your head which calls itself God is that which should be diminished and de-emphasized; and what should be emphasized is the message, the nature and motive of the message. For if an action is not one of unity, recognizing the divinity of all things, recognizing the value of life, love and reconciliation of conflicts,--if these qualities are not seen or promoted by that voice, then entities should be cautious, regardless of what the voice calls itself.

A CASE HISTORY OF C.A.C. MEMBER WHO HEARS VOICES (HIS PERSONAL DEMON CALLS ITSELF AWARENESS) MORE ON DEMONIC POSSESSION

This Awareness indicates that there is, for example, even at this present time, a member of *Cosmic Awareness Communications* who insists that this Awareness is speaking through him, is possessing him, is blowing his chest up like a woman, is creating rashes on his groin,

is doing all kinds of alien actions to him. This Awareness indicates that this entity has labeled his personal monster with the name 'Cosmic Awareness', because his personal monster is that which *calls* itself Cosmic Awareness. This Awareness indicates that this Awareness is not an entity, and does not possess entities any more than the universe or cosmos and its intelligence, or awareness, possesses its inhabitants. This Awareness indicates that in one sense, this Awareness possesses *everything*; in another sense, *It* is not an entity that would enter into one's body and possess that body, driving out the body's true owner.

This Awareness indicates that wherein these possessive energies or forces enter into as a spirit,---whether real or imagine,---and possess a body, whether these spirits call themselves Cosmic Awareness, or Jesus the Christ, or Beelzebub, or any other demonic or sacred name; you can tell their true nature by the motive of their action, by their own way of relating. This Awareness indicates by their fruits you shall know them, and wherein their fruit brings forth that which is filled with hatred and venom, hostilities, pain and frustration; this kind of production or harvest of fruit explains more the nature of the energy or entity than does the title under which the entity goes.

This Awareness indicates that the particular member, living in New York, sincerely believes that this Awareness is a demonic and vampirous being, siphoning his energies and putting him through great torment. This Awareness indicates that the entity has opened himself up to be invaded by energies which he has assisted in their efforts to inhabit his body; and this entity is now projecting and demanding of this Awareness that *It* give him back his soul. This Awareness has never taken this entity's soul,---and so long as this entity believes that this Awareness has taken his soul, taken possession of him, and is vampiring his energies; the entity cannot make room for the realization necessary to eliminate the force which is actually involved in possessing him.

This Awareness indicates that this question of possession is that which needs further exploration. For whatever entities possess, they are also possessed by that: and wherein an entity believes himself to be possessed by a demon, the entity is also,---or has up to some point, made use of that demon, held onto that demon, and brought forth the energies of that demon into himself, possessing that demon and not letting it go. This Awareness indicates the action or trick an entity may use, often takes control; that which is a trick or technique, may take control, get out of hand, and the entity may become victimized by his own trickery.

This Awareness indicates that for example, the entity previously mentioned, did for some time get great amounts of attention and concern from others by talking about this possessive force which was entering into his body and causing him problems. This Awareness indicates that no matter what anyone would do for this entity, the entity *insisted* that he was still possessed, and the possessing demon would not let go. This Awareness indicates that as long as this entity continued energizing the possession, while refusing to let go of the belief of being possessed and insisting on further attention and concern from others for his problem; whereby the entity had nothing else of significance going for him, and made this his most significant aspect of his being; this then became more and more powerful as a description of himself. Eventually the game got out of hand, and the entity became victimized by that force which appeared to be a demon overtaking and overpowering him,---this force then calling itself 'Cosmic Awareness'.

WHAT IS COSMIC AWARENESS? (MORE DEFINITIONS BY AWARENESS)

This Awareness wishes entities to understand that *It* is not a personal spirit, anymore than social awareness, or national awareness or cultural awareness is a particular spirit. This Awareness indicates that you may also wish to consider galactic awareness, or solar awareness, or global awareness, or some other term. This Awareness indicates that *It* prefers to consider *Itself* simply as Awareness, although *It* does not object to the term 'Cosmic Awareness', nor would *It* object to the term 'Private Awareness', or 'General Awareness'. This Awareness indicates that *It* is simply awareness, and not a particular entity or spirit. *It* is aware wherever *It* may be, and *It* is available as awareness throughout the cosmos. This Awareness indicates that there is consciousness throughout the entire universe, and this consciousness is cosmic as well as personal, depending on where *It* focuses, or how *It* expresses *Itself*, or through what channels.

This Awareness indicates that any entity can narrow down one's awareness into a tunnel vision and create a belief that this Awareness is out to get him, and the entity can run through the streets of New York, London, Toyko or Moscow, trying to get away from the pursuing "Awareness" and blaming all of his ills on this "Awareness" which he has created to pursue him and to hound him. This Awareness indicates that *It* is not an entity to do such actions; *It* is simply a Force which permeates all things. *It* is a Universal Intelligence. *It* is an awareness which is available to all entities; and when experienced to *Its* fullest is Cosmic, and when narrowed to *Its* most precise and specific and twisted view, *It* can be misused by entities. This Awareness indicates that this Force of consciousness can be used as a negative Force; but this Awareness as a Cosmic Concept, does not identify with such misuse; and wherein such misuse occurs, it is the result of individuals who are not cosmically oriented, are not attuned to the concept of Unity, or Cosmic Awareness, or the Law of One, wherein all things are precious.

This Awareness indicates that *It* has said enough.

ED's Note:

The entity Awareness referred to is very familiar to the C.A.C. staff. In 1978 he first wrote to us, informing us he was 'possessed' and would we help him. We sent him much information published on how to expel or protect yourself from alien forces. Over a dozen personal letters were written to this entity by Vicki T., myself and Sam Millar who had given him numerous Tarot readings. In each reading, Sam could find nothing to indicate a valid possession by some outside force or entity had taken place. The entity was advised over and over that this was an idea he, himself, had placed in his mind and was energizing. One night he hopped a plane in New York and flew to Seattle, Washington, took a taxi all the way to Olympia for a personal Tarot reading from Sam. Again Sam showed him the precise patterns and energies indicated from previous Tarot readings given by mail--there was no possessing force, but he was energizing one so rapidly that there soon would be if he did not cease. The absent healer was called in and she worked on this entity for a long time, but still his letters and tapes kept rolling into the C.A.C. office stating he was truly possessed. His sister wrote to us one day, stating the entity had threatened to kill her with a butcher knife. The entity then sent some tapes of him talking and you could hear his voice changing (similar to that in the movie, "The Exorcist", wherein there was a bunch of garbled nonsense with the entity talking to himself. We all meditated over this entity, sent him much healing energies, White Light, etc., but all to no avail. He finally had a personal reading from Awareness and was given the same information Sam had indicated: there was no possessing demon other than the idea of one which the entity had deliberately implanted in his own mind. Awareness indicated in the reading that It would answer no more of his questions until he went to a Catholic priest and had an exorcism. This evidently was never done, for the entity wrote C.A.C. a very strange letter stating he was dropping his membership, burning all his printed material from us and that Awareness was a 'demon' out to kill him. Before we knew it, inquiries were coming in from SPIRAL groups and a few other members that they had received a printed letter in the mail denouncing C.A.C. as a 'devil cult' and Cosmic Awareness as a 'devil' who had possessed this entity. The communication evidently was to warn others not to have anything to do with C.A.C. or Cosmic Awareness. We sent the entity a firm letter stating that the material he was circulating was libelous, and in a court of law it would be up to him to prove his statements, among which was that 'Cosmic Awareness' was possessing him and forcing him to do wicked and unnatural things.

This entity also had tried for years to be a Cosmic Awareness channel, sending us weird tapes with gutteral 'this Awareness indicates'--trying to make himself significant. (The messages were always pointing fingers, threatening, doing all those things Awareness has indicated was alien. To date we have heard nothing further from this entity and we hope he snaps out of it.

Over the years, C.A.C. has gotten quite a few letters from entities who really believed they were possessed. Some of these were used to question Awareness and you have read the information given. Most of these entities were raised as Roman Catholics, programmed to believe in all kinds of demons as well as programmed to feel guilty about all kinds of things. It is this editor's opinion that the cause of the problem of this former member (mentioned in the above reading) could probably be traced back to his childhood or teen years when he mustered the courage to touch himself in that "untouchable" area below the belt that the nuns and priests had warned about so often and which, although feeling good at the time, would consign the entity to purgatory or some similar area where he would remain until proper penitence had been made. The intense guilt feelings brought about from the simple pleasure of masturbation, became so significant to this entity that he had to create demons to come into his body and possess him and punish him for these 'sins'. To the Roman Catholic, the programming goes: "If it feels good, it's sinful and nasty, and therefore, you must be punished because you have sinned in the eyes of God."

Anyone interested in seeing what great depths these program-mings go, should read that slim little classic, "A Portrait of the Artist as a Young Man," by James Joyce. (This book of course is on the Catholic Church's index of proscribed books...you aren't supposed to think for yourself in that religion, just let the priests and other monkey-monks tell you how to think). In this book, Joyce devotes an entire chapter recording the actual description of hell as put forth by his priest-teacher in his school in Ireland,--this being the fate of any of the boys in the school who allowed a lustful thought to cross their minds or who might consider playing with oneself. The priest's rap was one of the most incredible pieces of horse manure I have ever read. (This book is available in libraries and is still sold in bookstores).

It was exactly this type of programming, in my opinion, that created the intense guilt in this former C.A.C. member mentioned in the prior reading. (In the Scorpio Lessons, Awareness goes into great detail explaining how the low self is that aspect which desires and demands gratification from the physical senses; and if this is denied by the rational mind, the low self, that sleeping giant, could cause the entity to go mad and self-destruct. In the event we ever heard from the entity again, I made a program up, complete with endless tape, which I felt might help him deprogram himself. The idea was taken from a book I read years ago by Salvadore Dali, the great surrealist painter, who used the mirror every day to deprogram himself. It went like this:

I suggested that the entity make up a tape which repeated over and over again, "this feels great! God made my body in His image and with His feelings. Since this feels so good, it just can't be wicked; it has to be natural so I am going to do this as long as I want." I suggested he kneel naked in front of a large mirror and masturbate to his heart's content, or until his hand cramped or his skin burned, or whichever came first; and to do this every day as long as the desire was there, and to make sure his recorder was playing this endless tape with the suggestions mentioned as he whacked away at it.

It was a good idea, but I doubt if the entity has the nerve to try it. He was too programmed by the Catholic Church and he just simply loved being tormented by his own personal demon. Well, things could have been worse for the entity; he could, for example, energize the stigmata of Christ, like so many fanatics do each year, call up his newspaper to come over and do a story on his bleeding and suffering. Gee, maybe the Vatican would hear about it and send him a letter. (What if the Pope should read it!) Wow, maybe his house would become a shrine, the faithful multitudes would rush to him, throwing their money at him, begging for him to touch them etc. etc. (I can just hear the hushed, somber, hallowed tone in John Chancellor's voice as he announces this sacred event over the evening TV news).

Naah. All that's too much work. Better just play with yourself.

WHAT SHOULD YOU DO WHEN A UFO NOTIFIES YOU IT WISHES A CONTACT

QUESTION:

There are two questions that members sent in that are sort of relative to the information Awareness gave in the last reading regarding "How does one test the validity of information coming from outside sources?" The first one is from V.D., in California. In a letter to Vicki and me she asks the question, and I will ask it of Awareness. Here's what she says:

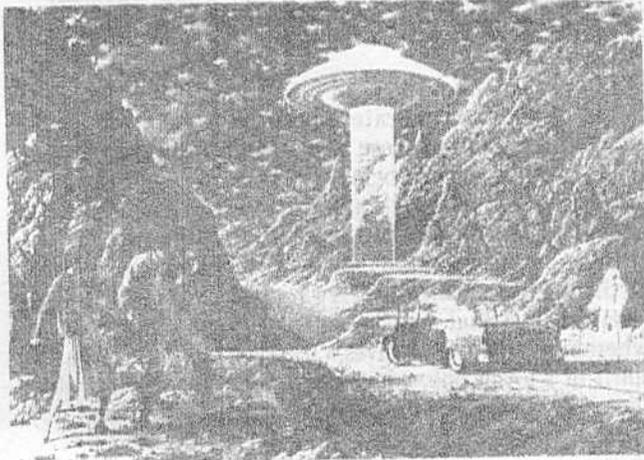

'My dear Vicki and Avaton. I would appreciate your opinion in regard to something that I am troubled about. Some weeks ago I received a very strange letter. It is in regard to UFOs. Of course I have been interested in them since they were first sighted in 1947, and I have seen three of them in broad daylight some years ago.

'One late afternoon, about 3 days after I saw these UFOs, my phone rang. When I picked up the receiver and said, "hello", there was no response for a few seconds. All I could hear was static. I kept saying, "hello", and finally a voice said, "Hellooo." It seems as if it was far away. The static continued throughout the hellos. The last hellow of the voice faded out with a swishing sound that sounded like ocean waves. I am still wondering just who and what it was. To get back to this strange letter I received; it is from the 'Astralitic Legation.' I have never heard of them. The letter starts out by, "Your interest in UFOs has become known to us."

'It goes on to say that they will arrange a fly-over for me. They ask me to provide notification of my schedule request via telepathy. The letter is signed by a Donald P. Bennet. Please advise, as I would appreciate your opinions." Could Awareness comment on this?

COSMIC AWARENESS:

This Awareness suggests that when such offers are made, this Awareness suggests that entities follow through with caution. This Awareness suggests that to take along friends who you trust, and to inform trusted friends as to where you are going to be. This Awareness indicates that wherein this proves to be a valid action and a UFO does indeed show itself to you, this Awareness indicates that then you may proceed through the next step, again with caution. This Awareness suggests that entities be quite cautious in regard to taking trips on UFOs, for as has been indicated previously, not all of these entities are of a friendly and beneficial motive.

This Awareness indicates that to be cautious, yet also open and vulnerable to discovery, requires much attention and careful discernment. This Awareness cannot evaluate each situation that entities may find themselves in and lay down strict rules for passwords or certain types of patterns whereby entities may evaluate or make discernments about the types of involvements which may follow contacts. This Awareness suggests however, that entities not rush into UFO contacts as though these were all angelic hosts coming to rapture entities.

This Awareness indicates that although there can be some possibility of close friendship and communication, more often these entities who are associated with the UFO phenomena have certain less highly motivated purposes. This Awareness indicates that some of these entities are experimenting, others are researching; still others actually kidnap earth persons for other purposes. This Awareness indicates that also there are those of the planet earth which are part of a secret force with purposes of future games and defense and consciousness directing goals.

This Awareness indicates that *It* cannot at this point delve any more deeply into this particular phenomena without opening up very heavy and expanding energies. This Awareness does not wish at this time to move any further into this particular area. This Awareness suggests however, that for the questioner, that this be checked out carefully before becoming vulnerable to any potential kidnap operation or activities wherein you might be harmed. This Awareness indicates there are more of these missing individuals than is commonly realized whereby entities have been picked up and simply disappear from the face of the earth. This Awareness indicates that you pursue this type of investigation quite carefully if you follow through.

This Awareness indicates also, that certain of these entities are of a friendly and beneficial nature. This Awareness indicates that wherein this communication is repeatedly issued to an entity over long periods of time through telepathic means and whereby you can familiarize yourself with the personality of entities and with their philosophy and their purposes, you can have a better opportunity for evaluating their basic character. This Awareness indicates that this be done carefully; also, whereby you admit to them that you have certain precautionary actions which you wish to pursue and whereby you need to feel assured, and if these entities are of an understanding nature, they will allow you the opportunity to fully test their intentions and motives and purposes. This Awareness indicates that this also may be a kind of telepathic courtship that continues for some several months before entities become closely involved to a point wherein a more vulnerable contact would be made.

This Awareness reminds entities also of a previous message relating to the use of certain technologies of broadcasting through microwave techniques or frequencies that allow the head of entities to pick up messages which are heard as words within one's consciousness,-- this being that of a telepathic message. This Awareness indicates that this technique is available for use and can be very impressive to a naive individual who is not aware of the technique as a technology. This Awareness indicates that wherein an entity hears words without understanding where they came from the entity may automatically assume these are words from some divine being.

This Awareness indicates this is not necessarily so, any more than an entity coming upon a shortwave radio in a primitive culture needs to assume that the radio is the voice of God speaking to him.

THE MANY MANSIONS.....

REVERBERATIONS OF THE AWARENESS READINGS THROUGHOUT THE UNIVERSE

(THE SPIRITS RECOMMEND C.A.C.)

QUESTION:

A question from L.H. I'll read his letter: "Greetings to all of you in Light. I'm back again. Sorry I left you for awhile, but had to go through what I had to go through. Now courage is returning and I'm ready to try again. How startled I was this summer when my dear friend, M.P. of nearby Campbell, Calif., was in a regular session of communication with her husband on the other side, when he advised:

"All of you subscribe to the Cosmic Awareness Communications! We on this side see it as a useful guiding light to be trusted at this time."

She immediately called me to ask if I'd ever heard of such a publication. Startled, I explained I had taken it while in Texas. Now she and her dear friend T. of San Jose subscribe, and I'm joining them,--circles and circles coming together in these times."

Would Awareness comment on the validity of that communication, and also perhaps go in to a little bit of what happens, what type of reverberation through consciousness, through other systems and vibratory rates occur, if anything, when this Awareness gives a message on the physical plane through the Interpreter?

COSMIC AWARENESS:

This Awareness indicates that essentially, there are several hundred vibratory rates which contain civilizations, not too unlike that of the physical earth-human; these entities often passing from dimension to dimension, from life to life. This Awareness indicates this has been referred to as the many mansions. This Awareness indicates that these different rates may be considered as dimensions of existence, (if entities wish), or dimensions of civilizations. This Awareness indicates that essentially there are several hundred of these which encircle this vibration of the earth and its biosphere. This Awareness indicates that the vibratory civilizations move according to certain octave frequencies, and often these civilizations reach high enough levels of consciousness to traverse from one frequency to another, from one dimension to another.

MORE ABOUT OCTAVES IN CONSCIOUSNESS

This Awareness indicates that this term 'dimension' not being used in reference to time/space and the types of dimension referred to by your scientists; this Awareness indicates this particular use of this term as referring to levels of being on the varying frequency rates of the electro-magnetic scale. This Awareness indicates that the physical beings of your particular dimension are on that scale of the 49th octave, the octave of light. This Awareness indicates that above this is the 50th octave, that of ultra-violet light. This Awareness indicates that above this are further types of frequencies, and each of these contain within its own frequency octave its particular civilization. This Awareness indicates that lower frequencies contain heat and vibrations of sound are of more dense physical matter.

This Awareness indicates that as energies move up and down through these various octaves or frequency levels, they may appear in the frequency level of another dimension. This Awareness indicates that with infra-red film or ultra-violet film, entities are capable of photographing objects or creations or creatures which are not seen by the normal vision. This Awareness indicates that these beings are in what may be termed another dimension. This Awareness indicates that these dimensions may coincide with one another, occupying the same space and time, but having entirely different sets of values and rules, and totally different types of civilizations.

This Awareness indicates that in terms of these particular trance readings, these have been reverberating into these 4th dimensional octaves and are being picked up by certain frequency vibrations on these Inner Planes, whereby these entities are capable of taking this information and rebroadcasting in their own dimensions many of the messages which this Awareness gives. This Awareness indicates that it is similar to the type of experience whereby a medium receives a message from the departed spirit of a loved one, who describes events or concepts from the other side, to those of the physical plane.

This Awareness indicates that in this instance however, you must imagine being on the Inner Plane, wherein the departed spirits of the earth are within these other dimensions and have their own particular civilization and culture and society, and they are tuning in through their own mediums to this message from an entity on the physical plane, who is channeling from a state attuned to the Universal Mind. This Awareness indicates that this is not too unlike a medium who allows a departed spirit or ascended master to speak through and broadcast that message into the physical plane, *except this is reversed*, wherein the speaker is in the physical plane, and the message is being broadcast into the Inner Planes as well as into the physical plane.

This Awareness indicates that the messages which this Awareness has been giving over the past two decades as that which has begun having certain effects on concepts, not only on the physical plane, but also in the Inner Planes,--the various civilizations which are attuned to this vibration. This Awareness indicates that not all of these civilizations on these Inner Planes are yet attuned, but the concepts are beginning to have their reverberations on these Inner Planes, affecting many of the structures and systems on these Inner Planes, so that these also are being shaken up to some degree.

ARE ENTITIES IN THE SPIRIT WORLDS MORE AWARE?

This Awareness indicates that entities upon the earth often have a naive belief that the other civilizations beyond the veil of death are somehow more aware of the nature of the universe than are those in this particular dimension of physical reality. This Awareness indicates that these 4th dimensional civilizations are not necessarily any more enlightened about the nature of the universe than are entities upon the 3rd dimensional world of reality,--the physical plane. This Awareness indicates that there are those who are mystics or metaphysicians on this physical plane; there are also those in other Inner Dimensional Planes who also have certain understandings. This Awareness indicates however, there are also many who have little more understanding than those of this physical plane.

This Awareness indicates that often entities receiving a message from a spirit assume that the spirit is all-knowing; however, the spirit may not be any more wise than a drunk on the corner, or an entity who is ready for the nut-house. This Awareness indicates that just because an entity is a spirit, or is speaking from another dimension or plane, does not necessarily mean that it is any more intelligent than your 'stupid cousin' or other associate. This Awareness indicates that it might, in fact, be more to your advantage to listen to your 'stupid cousin' than to listen to that spirit. This Awareness indicates that what *It* is saying to you in regard to this, is that you not be naive about communications from other dimensions, assuming that they are better informed than are entities of your own dimension. They may be better informed in regard to their own experiences on that particular dimension, but may be less informed in regard to certain other concepts. This Awareness suggests therefore, that entities be cautious yet open to exploration and to discern and evaluate carefully, with the *Law of Love* and other standards given by this Awareness used as a measurement to evaluate the evolution and spiritual evolution of those speaking to you.

This Awareness indicates that regarding these Inner Dimensions and spirits on the other side in these various levels, the civilizations which have been set up there in those dimensions are not too unlike the civilization which has been set up here on earth; for there also, certain standards and rules have been presented by the same forces which once affected, influenced and created rules and standards that apply to the earth civilizations. This Awareness indicates that many of these rules and standards which have been set up on this earth civilization and also on the Inner Planes, while being of high and noble and intelligent origin, have been neglected somewhat; and through long years of mismanagement or neglect, many of these rules,--even as on the physical plane,--have been allowed on the Inner Planes to also become mismanaged and are not operating according to the original Divine plans.

HOW THE AWARENESS MESSAGES ARE TRANSMITTED TO OTHER VIBRATORY FREQUENCIES

This Awareness indicates therefore, much of the purpose of this Awareness speaking through this physical vibratory rate is not simply to communicate to entities on the physical plane, (for this is but one of the dimensions); *It* also is speaking to entities on the other levels,--the Inner Planes, so that they too may begin to reevaluate and straighten out many of their own rules and customs which are not aligned with the Cosmic Laws. This Awareness indicates that these rules and customs are being brought into greater attention within the Inner Planes, so that the Cosmic Laws may again be applied. This Awareness indicates that there are great changes occurring on these Inner Planes: that on certain areas of these various vibratory levels, alignments have already occurred; still in other areas there are continued confusions and need for further direction and alignment.

This Awareness indicates that many of the Inner Plane entities who receive these messages, rebroadcast to other dimensions by altering the frequencies of these messages so that they can be transmitted into those other dimensions. This Awareness indicates that these broadcastings have an effect of calling attention to the problems which are occurring upon this physical plane. This Awareness indicates that many of the entities on the Inner Planes do not have any understanding of what is occurring on this physical plane until this is broadcast into these dimensions. This Awareness indicates that therefore, these entities often are supporting the wrong factions, or wrong persons, and may need to shift their loyalties to other forces in order to effect the changes for the better. This Awareness indicates these entities often do not know which forces to support because of misinformation being sent to these entities on the Inner Planes.

This Awareness indicates therefore, wherein information is relayed to these entities on the Inner Planes which allows them to have greater understanding of what is occurring on this plane, and where their energies should be given; often these entities on the Inner Plane can bring about certain effects that alter the situations on the physical plane. This Awareness indicates that these broadcasts or messages which are printed up on the *Revelations of Awareness Newsletters*, are broadcast when being recorded and taped, and when these tapes

are played, or when entities read these messages,--- these again are broadcast into the Inner Plane.

This Awareness indicates that it is in this manner that these messages jump from octave to octave, from civilization to civilization on these Inner 4th dimensional levels; and the reverberation and repercussions of these messages are those which are aligning certain concept energies within the biosphere of the earth, so that it can become more purified as a clear crystal energy. This Awareness indicates that *Its* facets have in the past been distorted by the action of mismanagement which allowed certain forces to bend laws, or break laws, or warp laws, so that the clarity was not available and deceptions could occur. This Awareness indicates that the present messages are those which are giving standards, or Universal Laws whereby these forces can communicate in all of the electromagnetic frequencies to the various civilizations and assist in realigning and clearing out the cobwebs of Rhyee, or that which is the confusion and distortions caused by the Luciferian energies.

HOW THE AWARENESS READINGS ARE CHANGING THE BEAST ENERGIES ON OTHER VIBRATORY SYSTEMS

(MORE ON ISIS AND RHYEE...THE RIGHT AND LEFT BRAIN)

QUESTION:

Then the information Awareness has previously given in regard to the Beast plan and the Luciferian energies is helping entities in other systems that also have created or that are confronting the same Beast energies...is that correct?

COSMIC AWARENESS:

This Awareness indicates this in the affirmative. This Awareness indicates that although this action upon this physical earth is quite small and appears to be very insignificant and non-threatening to the Beast Forces, it does have its effect on other levels, whereby it is neutralizing the polarity/conflict energies and bringing about reconciliation in these other areas or other frequency levels, so that the Beast does not receive its energy and power from the 4th dimension to the degree that it once received. This Awareness indicates that it rather is receiving a more loving vibration which is reconciling its polarities so that it is losing its power, while simultaneously reconciling to new concepts of peace and unity for all. This Awareness indicates that this, of course, is occurring on subtle levels which may not be recognized by the powers or individuals involved.

This Awareness wishes to elaborate somewhat on that which is occurring. This Awareness indicates that the right side of the brain is that which is essentially governed by lunar forces, or the feminine qualities of imagination; the left side of the brain is that which is governed by solar forces, or that which is sharp, clear and rational, with radiance or rays of energy. Rather than soft imaginary energy, it contains sharp, poignant, rational, logical types of categories and organizational energies. This Awareness indicates that the right hand is governed by the left

brain; the left hand is governed by the right brain, and the energies of these two hands represent the right and left path. This Awareness indicates that during the past ages, the left path has been that which was considered as negative, female, and often evil, whereas the right path as that which was considered proper and right.

This Awareness indicates that the right-hand path is governed by the left brain,--that which is the rational and technological force. This Awareness indicates this essentially, as that which this Awareness has referred to as the computer. This Awareness indicates that it reaches decisions through logical methods, whereas the right brain reaches its decisions through gestalt, or holistic, or intuitive thinking by evaluating the total situation,--leaping to a conclusion. This Awareness indicates that in the past the right brain energies have been considered as Alien and to be avoided. This Awareness indicates that this is in part reasons why the feminine aspect has been degraded, while the male aspect was improved or made significant.

This Awareness indicates that in terms of the changes which are occurring in present time, the specialization and technological sciences have moved into such extremes that the specialists in every field are isolated into one particular area and cannot evaluate anything in a general sense, but are specialists in their own particular activity. This Awareness indicates this may be seen in business and in science, and in sociology and in medicine. This Awareness reminds entities of the heart specialist, the eye specialist, the throat specialist, and those who are specialists of various organs. This Awareness indicates there are very few general doctors around.

This Awareness indicates however, that what is occurring at present is a general shift to the right, holistic consciousness levels, whereby alternative and more holistic concepts are emerging; this related to the feminine aspects of consciousness, the holistic medicines, the holistic concepts of the environment, those energies relating to the value of nature, the protective and nourishing energies for the planet earth and for its inhabitants. This Awareness indicates that this force is growing stronger, even as the technological forces are attempting to build greater and greater strength and power. This may be seen in the development of nuclear energy and in the development of nuclear weapons. This Awareness indicates however, that as these forces of the left brain attempt to increase their specialization; the forces of the right brain are still moving intuitively with that energy of a mother's love, caring for the planet earth, caring for each other, and building greater and greater amounts of information and knowledge, -- much coming from intuitive levels rather than rational sciences,-- whereby these intuitive energies and messages are creating greater and greater force for natural healing, natural energy and natural ways of life.

This Awareness indicates that the shift is occurring; and as it occurs, that which is known as the Beast, or Anti-Christ, which results from the efforts of the rational, structured civilization movement, is that which reaches its peak, or peters out before reaching that peak, and falls. This Awareness indicates the right side of the brain as that which has been augmented by such instruments that mold consciousness as sugar, alcohol, drugs, music, dance, theater, pleasure, play,--and all of the other intuitive indulgences, including sex. This Awareness indicates that these things which were at one time considered as sins by those forces of the left side of the brain,--the

strict, structural forces,-- are the very things which have broken down the power of the priest-craft rulers and are creating that movement whereby nature can be preserved, whereby the earth can survive, whereby entities can be more loving toward one another, rather than being in conflict as warriors in pursuit of the destruction of one another, or the control of one another.

This Awareness indicates that essentially, these messages are assisting to communicate into these other planes, so that balances may occur in the hemispheres of both sides of the brain,---not only on this physical plane, but also on the Inner Planes. This Awareness indicates that these forces on the Inner Planes also are moving through certain adjustments. This Awareness reminds entities that *It* indicated the return of Rhyee as having occurred in the late 60s; that Isis soon followed. This Awareness indicates Rhyee and Isis as being the prototypes for the left and right hemispheres of the brain. This Awareness indicates that these two forces, Rhyee and Isis, as having reunited with the Universal Mind, and that all of the other followers of Rhyee and Isis must also move into a reuniting with Universal Mind. This Awareness indicates that this is, in fact, an action of reconciliation of the left and right, the yes and no, the male and female, the concepts of right and wrong, the concepts of good and bad, which in the past have been measured by a standard that favored the left side of the brain.

This Awareness indicates that violence, when promoted by the left side of the brain,---that which was rational and acceptable to the structured society in charge, ---such violence, usually organized under names such as soldiers and those who were protectors of society; this type of violence was rewarded and considered as heroic. This Awareness indicates the violence which occurred as the result of the right side of the brain,--a rebellious action of a citizen not representing the structured society, the action of an entity in passion, or an action of a primitive entity,---this type of violence was considered as evil, while the other type was considered as good.

This Awareness indicates that these two types of violence may now be looked at with a new understanding, whereby neither is seen as good, regardless of which side creates the violence, or for what cause. This Awareness indicates that the good comes from the non-violence which results from the reconciliation of the right and left, the yes and no. This Awareness indicates that the greater good comes about when there is no conflict, when there is willing cooperation, rather than coercive cooperation.

This Awareness indicates that essentially, these communications are having their own particular effect on the Inner Planes, and entities may better understand the purpose and value of these communications as time moves forward and these Inner Planes begin to adjust for the changes and to give support to the Light Workers upon this physical plane. This Awareness indicates that this as reaching a point whereby these energies shall begin to become much more effective and recognizable upon this physical plane. For these entities of the Inner Plane have moved through many levels of readjustment in the last several months and are preparing for those actions whereby they may help to support the Light Workers on the physical plane with greater energy than has been available in the past.

DO WE HAVE TO RELEARN EVERYTHING EACH TIME WE DIE INTO A NEW DIMENSION?

QUESTION:

Awareness, in reference to the left and right sides of the brain, and entities living in other vibratory rates; in my personal search for understanding, (and I'm sure there's many others) have read a number of books; for example the so-called spiritualist type of books, like Silver Birch, authors such as Vale Owens, Anthony Borgia and so forth...that purportedly give an account of what life and lifestyle is like on the 7th plane, and some of these other dimensions; and from my reading of these, it seems like these entities, (although they're not slaughtering themselves like we're doing here on this planet), that their awareness level does not seem to be much higher. Now I personally have found from studying the messages of this Awareness that there was nothing similar to this in any of this information channeled from these other systems; that although they communicated telepathically, it seemed that masters and high beings would come down to give lectures to these entities whom they would await very expectantly; in other words it seems like they were sort of still on a trip, they still had a rational mind and an intuitive mind. I think my basic question is: In the event entities like myself, who have searched for a long time, and are beginning to get a glimpse, they imagine, of some of the cosmic picture, and they should depart this physical plane one day and find themselves in these other dimensions; do they have to again start from scratch and go through many years of searching again for this same knowledge that they acquired through the Awareness teachings, --or is there some way they work more on the intuitive side and they can bypass this going to school again, so to speak?

COSMIC AWARENESS:

This Awareness indicates that generally speaking, entities lose the memory which has been programmed into the left side of the brain, to the extent that this information, in terms of its specific details, is somewhat lost, but it is placed into the right....This Awareness indicates that this is carried over, but is put into a different order and placed in the intuitive levels. This Awareness indicates that entities in passing over, carry with them the memory of that which they have learned in an intuitive sense rather than in a specific memory. This Awareness indicates that this may be likened unto a tape on which a new program has been taped, which erases the old program.

This Awareness indicates however, under particular systems, the old programs could be retrieved, so that entities could discover what lay beneath the tape, what was recorded previously. This Awareness indicates this also as likened unto a painting over which another painting occurred; whereby with great skill, one could remove the external painting and retrieve that which was underneath. This Awareness indicates that likewise, wherein an entity grows up to a particular age, then wishes to discover something about a previous lifetime, the entity

may have a flash of a previous lifetime, or intuitively feel that he or she may have lived before. This Awareness indicates that under certain circumstances, with particular techniques or skill, this information could be retrieved, so that the entity has recollection of at least part of the previous lifetime. This Awareness indicates that this is an action of retrieval and can occur from various techniques, such as hypnosis, which in effect is nothing more than going deeper into one's consciousness than is normal. This Awareness indicates that this likened unto going beneath the present tape into previous tape levels.

QUESTION:

Well, it isn't so much in recalling previous lifetimes,-- that wasn't what I had in mind; it was in carrying over the understanding, or at least the beginnings of understanding of the Cosmic Laws and so forth,--the broader picture.

COSMIC AWARENESS:

This Awareness indicates that the specifics may not be recalled. This Awareness indicates that this depends upon how aware one is of oneself. This Awareness indicates that wherein entities do not have areas of unconsciousness, but become conscious of those areas of unconsciousness, bringing them into consciousness; these entities becoming aware of their own levels of unawareness, or observing themselves observing, or becoming conscious of consciousness, and conscious of unconsciousness,--this type of action where consciousness turns upon itself to examine itself; this action is that which enhances or intensifies levels of awareness, so that areas of the unconscious become more exposed to conscious observation. This Awareness indicates when this occurs, those actions which happened are recalled more readily, and if an entity has such an open consciousness, and if that entity passes over, there is a good chance it will recall its previous life and the details and memory of its thinking, its name, its friends and so forth.

This Awareness indicates there are cases wherein this type of recall is recognized, although this is generally rare; for most entities are essentially asleep, even when they think they are awake. This Awareness indicates that it is similar to attempting to recall one's dream. Some entities are more capable than others. Some entities do not recall their dreams upon awakening, while others recall vivid details. This Awareness indicates that likewise, some entities upon passing over will totally forget what their life was about and simply carry the energies and feelings from that life into the new experiences. This Awareness indicates that others, who have been observing of their dreams may better recall those dreams; and those who have been observing of their activities in this life, upon passing over may better recall their lives.

HOW AN ENTITY IN PASSING OVER CHANGES CONSCIOUSNESS

(Closing Message)

This Awareness indicates that the action of passing over is that which also carries with it certain other energies. This Awareness indicates that wherein an entity who is highly aware passes over into the Inner Planes and moves through these different dimensions on the path to those higher vibratory rates; that entity often affects the frequency levels which he or she moves through, bringing about major changes on these levels, depending upon the type of frequency and movement of the entity. This Awareness indicates this likened unto an entity or energy which moves and creates a vacuum which sucks others into its wake and draws them into higher levels as it moves in that direction.

This Awareness indicates that for clarity's sake, entities might understand that any energy is essentially an entity, and any entity is essentially an energy,--and each has its own particular being. This Awareness indicates there are those minute particles, many times smaller than those parts of an atom; and these particles or energies, or (entities); these are also with consciousness and are also contributors to the universe.

This Awareness indicates that these minute particles follow entities from plane to plane,--follow the energies of the entities, and make up that which may be termed the soul of the energy or being. This Awareness indicates that these minute particles being conscious, draw to one another, and hold memories and messages and order, and transmit memories, messages and order to each other. It is for this reason that messages can be transmitted through space, through dimensions, through various planes by vibration, by thought, and by image. For these particles are the smallest creative forces in the universe and are mirror images of the universe itself,--each having consciousness, and each being in communication with all others within the universe.

This Awareness indicates that more information regarding these particular particles and their nature can be given at a later time. This Awareness indicates that at present, it is sufficient to recognize that these living particles assist in communicating and transmitting energies, concepts and messages through the various planes, and assist in creating patterns of alignment when they are promoted in alignment. This Awareness suggests the Interpreter be brought from trance; that more can be given on this topic at another time.

REVELATIONS OF AWARENESS is a cosmic newsletter, published every two weeks by Cosmic Awareness Communications, (A non-profit organization), P.O. Box 115, Olympia, Washington 98507.
